Project Fullerton College

Project No. 75-15605-00

Subject Fullerton College Community Forum Notes

Notes Fullerton College Community Forum Meeting:

- Suggestion to step the parking structure to reduce the mass.
- Question regarding the inclusion of security cameras incorporated within the new buildings.
- Implementation of FMP is to be completed within the next twenty years.
- M & O is a priority due to the availability of additional funds beyond district funds.
- Tennis courts on top of parking structure are problematic due to movement.
- Concern about clearance within parking structure for higher profile vehicles.
- Parking structure potentially located near field house has better circulation options.
- Off-Site temporary parking was previously tried with shuttle services to campus with minimal success.
- Suggestion to place soccer field within the track (stadium)
- Veteran services scheduled to be renovated within its current location. (Noted: Included in "Welcome Center").
- Suggestion to place displace tennis courts to area labeled "East Quad"
- Inquiry as to whether or not there will be additional seating added to the stadium.
- On-going discussions with high school for joint-use of stadium located at the high school.
- Welcome Center – Important experience of student's first visit to campus – easy parking – access.
- Location of M & O Facility could be near existing chiller plant.
- Currently proposed parking structure location has potential problems with left turn into parking structure off Berkely.
- Similar issues at the Lemon Street parking structures.
- Suggestion to re-do the Plummer parking structure.
- Concern expressed over security lighting at parking structure.
- Suggestion to place parking closer to center of campus.
- Noted that façade treatments were included off Lemon Street structure – but removed due to cost escalation at the time of construction.
