General Information

About Fullerton College

Founded in 1913, Fullerton College is the oldest community college in continuous operation in California. As one of five institutions of higher learning in the city of Fullerton, the college is an integral part of a complex higher education system. Fullerton College offers a comprehensive academic program of lower division transfer courses and vocational training to prepare students for transfer as well as for the technology-driven workplace.

The 83-acre campus features 10 major institutional buildings that include conventional classrooms as well as laboratory facilities for science, art, computer technology, photography, automotive services, physical education, and other specialized programs. A full complement of athletic fields and facilities surrounds the campus.

The college enrolls in excess of 19,000 students. There are 315 full-time faculty and approximately 480 adjunct faculty who are supported by 285 classified employees and 43 managers. Dr. Kathleen O’Connell Hodge is the President.

College Location

Fullerton College is located in the city of Fullerton, in Orange County, California.

For commuters, the beautifully landscaped campus is easily accessible to the 57 and 91 Freeways. The college is within close walking distance from the Metrorail station in downtown Fullerton, and buses regularly drop off and pick up students in front of the college on Chapman Avenue.

Fullerton College is in close proximity to several cultural and entertainment venues in Orange County and Los Angeles. It is also conveniently located near other institutions of higher learning in the surrounding cities.

Continuing Education

The School of Continuing Education (SCE) is part of the North Orange County Community College District and offers business development and workforce training, a high school/GED completion program and personal enrichment (non-credit) courses for children, teens, and seniors.

SCE’s Wilshire Center is located at 315 E. Wilshire Street in Fullerton across from Fullerton College. For more information, call (714) 992.9500, or visit www.sce.edu.

Statement of Ethics

As representatives of Fullerton College, we all share the responsibility to conduct ourselves with integrity, and to act in a fair, consistent, and equitable manner. We recognize the need for openness and reliability in what we say and do. We are committed to addressing issues in a forthright and professional manner, and to engaging people without prejudice. As members of an educational community, we are committed to excellence in all that we do, and to adhering to the principles of ethical behavior established in this statement.

The conduct of each member of Fullerton College is expected to be consistent with and to comply with the principles contained in this statement. All members of the campus community are expected to engage in the following:

- Trustworthy conduct — including dependability, loyalty, and honesty in communications and actions.
- Respectful behavior — treating everyone with civility, courtesy, tolerance, and acceptance, and recognizing the worth, dignity, and unique characteristics of each individual.
- Accountability — taking personal responsibility for one’s own actions and decisions.
- Fair and just actions — utilizing equitable processes in decision making.
- Compassion — caring for others, both within and apart from the campus community, and providing services to others in a manner that reflects our commitment to them and to their well-being.
Goals and Objectives

In Spring 2006, the North Orange County Community College District (NOCCCD) Board of Trustees and Chancellor adopted a process to create a comprehensive Strategic Plan to guide the future quest of excellence for the District and each of its programs at Cypress College, Fullerton College, and the School of Continuing Education.

Fullerton College’s 2009-2011 goals were developed on a parallel path and are consistent with the focus areas of the NOCCCD Strategic Plan, as outlined below.

Focus Area I: Innovation & Relevancy for All Learners

Goal 1: Instructional programs provide the necessary basic skills training, current and relevant vocational skills, successful transfer preparation, and life-long learning options to meet the needs of our students and community.

1.1 Develop a college-wide educational master plan.
1.2 To improve basic skills programs, support the assessment process for basic skills initiatives.
1.3 Support improvement of vocational and transfer programs through analysis of program review data.
1.4 Complete the SLO cycle for all active courses, programs, certificates, and degrees.
1.5 Explore district-wide financial support and infrastructure for distance learning.

Goal 2: The campuses provide the necessary student services to ensure learning success.

2.1 Improve college-wide knowledge of student services.
2.2 Augment the training opportunities for certificated and classified staff members.
2.3 Create a college-wide student equity initiative.
2.4 Address outcomes of the Student Success Summits.
2.5 Administer a student satisfaction survey.

Focus Area II: Intra-District & Community Collaboration

Goal 3: A mutual understanding of and appreciation for each other’s value and contribution exists among Cypress College, Fullerton College, the School of Continuing Education, and the District.

3.1 Complete a District-Wide Functional Map.
3.2 Enhance SPMS system for district-wide linkage of financial data/payroll and course scheduling.
3.3 Work in collaboration district-wide on projects to enhance the college:
   a. Budget Allocation
   b. Non-Credit Labs
   c. Distance Learning
   d. Emergency Preparedness
3.4 Participate in Strategic Conversations.
3.5 Increase involvement in staff development activities.

Goal 4: NOCCCD is a vital and integral part of the community.

4.1 Continue to cultivate relationships with the City of Fullerton by participation by FC representatives on community committees (e.g., Education, Housing Authority, Chamber of Commerce).
4.2 Investigate possibility for involvement in cities in our service area outside Fullerton.
4.3 Finalize MOU/Master Agreements with both the Friends of Fullerton College and the Fullerton College Foundation and determine exactly how each will be utilized for the maximum benefit of the college.
4.4 Develop and support partnerships and programs that bring community events and community members to the campus for educational, cultural and social activities.

Goal 5: Effective leadership and decision-making are based on an inclusive process that uses data, standards, law, policies, and procedures.

5.1 Write formal procedures to codify institutional planning and decision making process.
5.2 Develop implementation guidelines for Budget & Planning calendar.
5.3 Develop campus climate survey.
5.4 Strengthen the participatory governance process.
Focus Area III: Effective & Efficient Use of Resources

Goal 6: District revenue-generating opportunities are maximized.
   6.1 Maximize college efforts to optimize revenue for FTES production while maintaining academic and vocational balance, grant opportunities, VTEA funds, categorical programs, private donations and private funding sources.

Goal 7: Through effective planning and using resources efficiently, the District/campuses, provide facilities, equipment, technology, and infrastructure to adequately support instructional programs and services.
   7.1 Develop an educational master plan that links ongoing review of programs with modifications in buildings, grounds, technology and infrastructure.
   7.2 Establish regular replacement plans for technology infrastructure and equipment, motor pool/maintenance vehicles and other major capital support items for operational support to instruction and other campus services.
   7.3 Use SPMS system to improve instructional program planning and scheduling processes and procedures to maximize student access and success.
   7.4 College support services will review and evaluate processes to assure the best service to the college-wide community.
   7.5 Provide appropriate technology, equipment and infrastructure to support instructional programs.

Goal 8: Marketing/communications efforts are evaluated and refined on an ongoing basis to enhance effectiveness of outreach in enrollment management, business and industry partnerships, grant writing, and fund raising.
   8.1 Establish a campus-wide external community outreach program, partnering with community groups and local industry.
   8.2 Expand and coordinate internal and external Marketing and Outreach efforts.

Statement of Mission, Vision, and Core Values

Mission
We prepare students to be successful learners.

Vision
Fullerton College will create a community that promotes inquiry and intellectual curiosity, personal growth and a lifelong appreciation for the power of learning.

Core Values
We respect and value the diversity of our entire community.

We value tradition and innovation.

We support the involvement of all in the decision-making process.

We expect everyone to continue growing and learning.

We believe in the power of the individual and the strength of the group.

We expect everyone to display behavior in accordance with personal integrity and high ethical standards.

We accept our responsibility for the betterment of the world around us.
Admissions and Records/Registration

The college catalog must be prepared well in advance of the time period it covers; therefore, changes in some programs and policies may occur. Courses as described are subject to change without notice, and some listed courses are not offered each year. In addition, some courses or programs that are offered may have to be cancelled because of insufficient enrollment, elimination or reduction in programs, or for any other reason considered sufficient by the College president or designee.

Academic Accommodations for Students with Disabilities

In accordance with Federal and State regulations, procedural language has been established to address the provision of educational accommodations to students with disabilities who are otherwise qualified to participate in the College’s courses, programs and activities. Copies of the procedure are available in all Division Offices and Student Services areas. (See Disability Support Services)

Admission Requirements

Admission to Fullerton College is governed by the laws of the State and such supplementary regulations as have been prescribed by the Board of Trustees.

The following persons are eligible to enroll in Fullerton College:

- Any high school graduate, OR
- Any person possessing a California high school proficiency certificate, OR
- Any person 18 years of age or older who may benefit from instruction, OR
- Any K-12 student qualifying as a “Special Admit” student

Advanced Placement

Students who have attained a minimum score of “3” on College Board Advanced Placement Examinations may receive credit for those courses that are deemed equivalent to the courses offered by Fullerton College. It is the student's responsibility to petition for credit through the Admissions and Records Office. Once Advanced Placement credit is posted to the student's transcript, it cannot be removed.

NOTE: The posting of Advanced Placement credit for courses on the Fullerton College transcript does not ensure their transferability to four-year schools. Each college and university grants AP credit according to its own policy. In some cases, Fullerton College will grant more units of credit (in other cases, fewer units of credit) for transfer admission purposes. AP credit for the major frequently requires higher scores or may not be accepted at all. Students planning to transfer should consult the catalog(s) of the transfer institution(s) to determine how AP credit is granted for the purpose of admission, general education and the specific major prior to petitioning for credit.

Equivalency for courses not listed above will be determined by the appropriate academic department.
**Bursar’s Office**

This office is located in the Student Services Building (2000). Accounting services are provided for student activities, fee collection, distribution of payroll and grant checks to students, and bus pass sales. The office accepts MasterCard and Visa for payments. Hours are 8:00 am to 5:00 pm, Mon-Thurs, and 8:00 am to 2:00 pm on Fridays.

**ATM**

The campus has two full-service Automated Teller Machines (ATMs) with 24-hour access. One is located on the main side of the campus on the north side of the 500 building. The second is across Chapman Avenue in front of the Bookstore, Building 2000. Both machines accept several different types of credit and bank debit cards. This service is offered by the SchoolsFirst Federal Credit Union (formerly OCTFCU) and is not affiliated with or a responsibility of the college or the Associated Students. Both machines dispense $5 and $20 bills and assess a charge of $1.50 for non-members of the credit union co-op.

**Corrections to Student Information**

Name changes will be recorded only for students who are currently enrolled. Documentation, such as, a marriage license, court order, or naturalization papers, is required for verifying a legal name change. Requests to have a student’s name changed on official college records are submitted to the Admissions and Records Office.

Date of birth and social security number corrections are submitted to the Admissions and Records Office. Documentation substantiating correction may be required.

**Military Experience Credit**

College level correspondence courses completed through the United States Armed Forces Institute (USAFI) will be accepted for credit. The transcript for such courses must be mailed directly to the Admissions and Records Office from DANTES Contractor Representative (transcripts), Madison, Wisconsin 53713.

Service training schools conducted by the various branches of the Armed Forces are accepted for credit value as recommended by the latest edition of A Guide to the Evaluation of Educational Experiences in the Armed Forces; American Council on Education.

A student may petition for an evaluation of military education and experience upon completion of 40 degree applicable units from an accredited college or university, including a minimum of 12 units at Fullerton College. It is the student’s responsibility to petition for credit through the Veterans’ Affairs Office.

A photocopy of the DD214 (discharge papers) must be submitted with the evaluation petition. The credit awarded is elective only and posted to the transcript upon graduation from Fullerton College. Elective credit granted for military work will not exceed 30 units.

**International Students (F-1 Student Visa)**

The goal of the International Student Center is to provide educational opportunities for international students and to promote international understanding on campus and in the community. The following regulations govern the admission of F-1 student visa students to Fullerton College.

1. Application deadlines are as follows: Applicants outside of the U.S. must submit complete applications by June 1 (Fall), November 15 (Spring), and May 1 (Summer). F-1 visa holders currently in the U.S. must apply by August 1 (Fall), December 1 (Spring), and May 15 (Summer). A $40 non-refundable application fee is required for processing.

2. F-1 students are required to pay non-resident tuition, enrollment and health fees and are strongly encouraged to purchase a Campus Photo ID Card. See “Student Fees” for additional information.

3. F-1 visa students are required to complete a full course of study (minimum of 12 units) each Fall and Spring semester. In accordance with SEVIS regulations, failure to do so will be reported to the U.S. Immigration and Customs Enforcement and status will be terminated.

4. Enrollment of F-1 visa students is limited to a maximum of six semesters.

5. Criteria for admission of F-1 visa students:

   a. The applicant must demonstrate English proficiency as indicated by a minimum TOEFL score of 500 (pBT) or 61 (iBT). Applicants currently in the U.S. may take the Fullerton College ESL placement test to substitute for the TOEFL test.
b. Applicants must be at least 18 years of age or have earned the equivalent of an American high school diploma, or have attended 12 years of elementary and secondary schools. The student must submit official academic records accompanied by a certified English translation. Evaluations of foreign transcripts and other admission documents will be based upon the recommendations of The Country Index, The World Education Series of the American Association of Collegiate Registrars and Admissions Officers, or other sources.

c. Applicants must provide evidence of financial responsibility. Certification of Parent, Self, or Sponsor support required. Official bank statements must be translated into English and represent American currency.

d. Applicants must submit original or certified copies of transcripts of any college coursework completed. Foreign language transcripts must be accompanied by certified English translations.

e. F-1 visa applicants who have attended other American schools or colleges may be considered for admission provided the applicant meets Fullerton College admission requirements and is in status with U.S. Immigration and Citizenship Services. F-1 visa applicants who have completed two or more years of college will be advised to seek admission to an institution offering upper division courses.

After completion of the listed requirements, the applicant will be considered for admission and will be notified within two weeks. When accepted, the applicant will be sent an acceptance letter, form I-20, and registration and orientation materials.

6. The F-1 visa student shall be held to the same scholastic requirements and to the same College rules and regulations as other students.

7. F-1 visa students must purchase the health and accident insurance policy mandated by the college. This policy includes major medical coverage including repatriation and evacuation. Students who do not purchase health insurance will not be able to register for courses.

8. F-1 visa students are required to comply with U.S. Federal Code, Department of Homeland Security (DHS), and Citizenship and Immigration Services (CIS) regulations that pertain to F-1 visa students. Review Code of Federal Regulations, Title 8 CFR Part 22 Section 214.2(f).

9. F-1 visa students will not be accepted for admission into any program where applications by qualified U.S. citizens exceed spaces available.

F-1 Visa Concurrent Enrollment
Students enrolled full time at another institution from which they have a valid I-20 are permitted to enroll at Fullerton College on a part-time basis. These students are limited to enrollment, which will not exceed two classes and when combined equal no more than seven units. The "F-1 Student Enrollment Agreement" form must be completed, approved by the student's school and the Fullerton College International Student Center, and submitted with the application for admission. F-1 students must pay all appropriate fees.

B-1/B-2 Tourist Visa Regulations
U.S. Federal Code states that B visa holders “violate the conditions of his/her status if he/she enrolls in a course of study. [Those] who desire to enroll in a course of study must either obtain an F-1 or M-1 non-immigrant visa from a consular officer abroad and seek re-admission to the United States, or apply for and obtain a change of status.” B visa holders are encouraged to speak directly with the International Student Center about obtaining F-1 status in order to legally enroll at Fullerton College.

F-2 Visa Regulations
U.S. Federal Code states that “an F-2 spouse or F-2 child violates his/her non-immigrant status by engaging in full time study. The F-2 spouse and child of an F-1 student may engage in study that is avocational or recreational in nature.” F-2 visa holders are encouraged to speak directly with the International Student Center regarding their legal enrollment at Fullerton College and a possible change of non-immigrant status.

For more information regarding international student admissions and the F-1 visa, go to http://isc.fullcoll.edu or contact the International Student Center at (714) 992.7078 or isc@fullcoll.edu. The ISC is located in Room 220 in the College Center.

Permanent Resident Status
Admissions requirements are the same as for United States citizens. Applicants may be asked to present their permanent resident cards, and/or other immigration documents at the time of application. No photocopied cards will be accepted. Residence is based on one year from the date on the application for the visa, or the permanent resident card, or other immigration document. Students must have resided in California for one year and one day prior to the opening day of instruction of the semester or term, as set by the Board of Trustees, and must prove intent to make California their permanent residence.

Other Visas
Contact the Admissions and Records Office for further information.

Visa Dependence
Legal stay typically expires when a dependent child turns 21. Dependent children should contact the International Student Center 6-12 months before turning 21 to discuss a possible change of an F-1 status.

All Visas
Visa regulations subject to change.
Matriculation

In compliance with the State Matriculation Mandate (AB-3), and Fullerton College’s long-standing commitment to help students succeed, all non-exempt students seeking to enroll in courses will participate in some or all of the components of the matriculation program.

Matriculation Status

Each student at the time of admission is a “Matriculated” student.

STUDENTS MAY BE EXEMPT FROM ONE OR MORE MATRICULATION REQUIREMENTS WHEN THEY PROVIDE PROOF OF ONE OF THE FOLLOWING:

A. Completion of an AA degree or higher at an accredited college or university.

B. Completion of college coursework in English and math with a grade of “C” or better.

C. Scores from approved assessment tests taken within the last two years.

D. Enrollment in one job related or performance based class (e.g., music).

E. A matriculated student at another college enrolling in one non-English or math class.

F. A high school Special Admit student not intending to take math, reading or English classes.

A student may petition to be EXEMPT from one or more matriculation requirements by completing and filing a “Matriculation Services Eligibility Form.” These forms are available from the Admissions and Records and Counseling offices. The completed form must be filed with the Dean of Counseling or Matriculation Coordinator. Students will be notified of action on their petition no later than three days after the petition is filed.

Matriculated Services

Matriculated (non-exempt) students will be provided the following services:

1. Skills Assessment — students will receive an evaluation of their learning skills in reading, writing, English as a Second Language (ESL) and mathematics. This is done through the use of tests, review of past school records (high school and college), and other information presented during a counseling interview. Assessment tests are available for native speakers of English as well as for those with limited English proficiency.

2. Orientation — students will receive an overview of college services, programs, certificates, degrees, majors, and registration procedures. Assessment test scores are explained as guides for registering for writing, reading, ESL and mathematics courses. Orientation is completed online at the time of assessment testing or may be accessed through each student’s personal myGateway account.

3. Counseling — students will receive assistance from counselors to plan their semester class schedule and to initiate a Student Educational Program Plan. All students are encouraged to visit a counselor during the year. On-line counseling is available to students seeking answers to general questions about policies and procedures, program requirements, prerequisites, course offerings, services and transferability of courses. On-line counseling may be requested through the counseling department homepage at http://counseling.fullcoll.edu/.

4. Student Educational Program Plan — new students are encouraged to see a counselor for help planning their courses prior to their assigned registration time. Students should see a counselor for assistance in developing a Student Educational Program Plan (SEPP) no later than the semester after they complete 15 units.

5. Follow-Up — Progress checks and assistance by counselors and instructors help students make successful progress towards their goals. Students on probation or academic/progress dismissal are notified each year in the Spring term. Students encountering difficulties are referred to Counseling or appropriate college resources as needed.

These matriculation services are designed to provide assistance to students so that their opportunities for success and achievement of their goals are improved. Students wishing to defer any aspect of the matriculation process may do so at the Counseling Department. Students wishing to appeal any decisions or recommendations regarding courses to be taken based upon assessment results may file a petition with the Dean of Counseling/Matriculation Coordinator (see Matriculation Appeals).

Matriculation Appeals Procedures

All matriculated students have the right to challenge or appeal any step in the matriculation process. A Matriculation Appeals Petition may be filed for any of the following concerns:

1. Petition for exemption — Students may petition to be exempted from assessment, orientation and/or counseling. The student shall complete and file a “Matriculation Services Eligibility Form” with the Dean of Counseling or Matriculation Coordinator. The Dean of Counseling or Matriculation Coordinator will notify the student within three days at the decision regarding his/her appeal.
2. **Review of placement decisions** — For English as a Second Language (ESL), English or reading placement appeals, the student shall make an appointment with the Dean of Counseling. The Dean of Counseling shall see the student within three (3) working days. If the Dean of Counseling is unavailable within that time, the student shall take the appeal directly to the Dean of Humanities. For mathematics placement appeals, the student shall make an appointment with the Dean of Counseling. The Dean of Counseling shall see the student within three (3) working days. If the Dean of Counseling is unavailable within that time, the student shall take the appeal directly to the Dean of Mathematics and Computer Science. In all cases, the student shall present documents and information to support his/her appeal. The decision of the Dean shall be given in writing and shall serve as final decision in the appeal. Students approved for a higher course placement should see a counselor for course clearance for registration purposes.

3. **Enrollment limitations: prerequisites/corequisites** — A prerequisite is a course that must be completed before a more difficult course is attempted. For example, before PHYS 221 F General Physics can be attempted, the prerequisite MATH 150AF Calculus must be completed with a grade of “C” or better. Course prerequisites are identified in the College Catalog. Section 55003 of the Matriculation Regulations permit the following types of prerequisites and corequisites:

   (1) Completion of any course in a sequence of related courses if understanding or technical performance is necessary for success in later courses in the sequence. An example of this is a foreign language sequence. Before enrolling for SPAN 203 F it may be necessary to complete SPAN 101 F and 102 F.

   (2) Prerequisites may also refer to skills measured by assessment instruments, methods or procedures where a required level of performance is necessary for success in a course or program. For example, some ways in which skills are measured are through placement tests, high school transcripts, or counselor interviews which help determine placement in English, ESL, reading and mathematics.

   (3) Enrollment limitations may also include corequisites, which generally require a student to concurrently enroll in one course as a condition of enrollment in another course. For example, the corequisite MUS 107AF Harmony I is required when enrolling for MUS 104AF Beginning Musicianship. However, with some exceptions, corequisites may also be completed prior to enrollment in a restricted course.

   **Student Rights to Challenge Prerequisites/Corequisites:** Section 55003 of Title V states: Any prerequisite or corequisite may be challenged by a student on one or more of the grounds listed below. The student shall bear the initial burden of showing that grounds exist for the challenge. Challenges shall be resolved in a timely manner and, if the challenge is upheld, the student shall be permitted to enroll in the course or program in question. Grounds for challenge are:

   1) The prerequisite or corequisite has not been established in accordance with the district’s process for establishing prerequisites and corequisites.
   
   2) The prerequisite or corequisite is either unlawfully discriminatory or is being applied in an unlawfully discriminatory manner.
   
   3) The student has the knowledge or ability to succeed in the course or program despite not meeting the prerequisite or corequisite.
   
   4) The student will be subject to undue delay in attaining the goal of his or her educational plan because the prerequisite or corequisite course has not been made reasonably available.

   **How to Challenge Prerequisite/Corequisite:**

   • A petition to challenge a prerequisite/corequisite for a course that is not offered may be filed with the Dean of the division responsible for the course. All petitions must be filed prior to the first day of the semester.
   "A petition to challenge a prerequisite/corequisite because the prerequisite/corequisite was not established in accordance with the district’s process for establishing prerequisite/corequisites or because the student has prior knowledge or ability to succeed in the course may be filed with the Dean of the division responsible for the course.
   "A petition to challenge a prerequisite/corequisite because it is discriminatory or is being applied in a discriminatory manner may be filed with the Matriculation Coordinator who will convene a committee consisting of the Director of Equity and Diversity, the Matriculation Coordinator and a member of the Matriculation Committee to review the petition.
   "Students wishing to appeal the decision of the Dean(s) may do so by meeting with the Vice President of Instruction. Students wishing to appeal the decision of the committee regarding a discriminatory application of a prerequisite or corequisite may do so by meeting with the Dean of Counseling.
4. Complaint of unlawful discrimination — If a student feels assessment, orientation, counseling, prerequisites (or any other Matriculation procedure) is being applied in a discriminatory manner, a petition may be filed with the Matriculation Coordinator. The Matriculation Coordinator shall convene a three (3) member panel consisting of the Director of Equity and Diversity, the Matriculation Coordinator and an additional member to review the student's petition. The panel shall meet and provide a written notification to the student within seven (7) working days. (Students wishing to appeal the committee's decision may do so by meeting with the Dean of Counseling.) Petitions for the above appeals are available in the Counseling Center.

Matriculated Student Responsibilities

Matriculated students have responsibilities, which include the following:

1. To express a broad educational intent upon admission.
2. To declare a specific educational goal no later than during the term after which the student completes 15 semester units. The student shall then have 90 days in which to develop a Student Educational Program Plan (SEPP).
3. To participate in counseling/advising.
4. To attend class, complete assignments and maintain progress toward a goal.

If you have any questions regarding the above Matriculation information, please contact the Matriculation Coordinator at (714) 992-7245.

Open Enrollment Policy

It is the policy of the District that, unless specifically exempted by statute, every course, course section or class, the average daily attendance of which is to be reported for State aid, wherever offered and maintained by the District, shall be fully open to enrollment and participation by any person who has been admitted to the college(s) and who meets such prerequisites as may be established pursuant to Chapter 11 Division Two Part VI, Title 5 of the California Administrative Code, commencing with Section 51820.

Orientation

See Matriculation in this section.

Refunds

(Pursuant to section 58508 of Subchapter 6 of Chapter 9 of Division 6, Title 5 of the California Code of Regulations.)

Students who withdraw from college or drop semester length classes during the first two weeks of the Fall or Spring semester will be eligible for a refund. This includes enrollment, tuition, health, A.S. Sticker, and parking fees. Refer to the current class schedule or contact the Admissions and Records Office for refund deadlines for short term, late starting or Summer term classes, as deadlines can be as early as the first or second day of class. A refund processing fee of $10 will be withheld once each term.

Refunds will be mailed approximately six to eight weeks after the beginning of the semester.

Registration

Registration is the process of becoming officially enrolled in classes. All new and former (returning) students must submit an Application and be admitted to the college before registering. An application must be submitted online through CCCApply. Visit the website at www.fullcoll.edu for information and instructions. For students without Internet access, computer terminals are available in the lobby of the Admissions and Records Office, Student Services Building 2000.

Registration is by appointment. Priority appointment times are issued to continuing students by total units completed at Fullerton and Cypress colleges. For new and former (returning) students, registration appointments are based on date of application. Special Admit students are not eligible for priority registration.

Throughout the registration process (including class petitioning), certain deadlines must be established. These deadlines are necessary in order to comply with State attendance laws and must be followed by all faculty and students. Failure to comply with these deadlines may mean that the student will not be allowed to attend or receive credit for the class.

Continuing Student: Currently enrolled at Fullerton College and will receive a grade.

Former (Returning) Student: Previously attended Fullerton College or currently enrolled but will not receive a grade.

New Student: Never enrolled in classes at Fullerton College.

Special Admit Students: K-12 grade level students concurrently enrolled at Fullerton College.
Residency for Tuition Purposes
(Per Education Code, Section 68060)

The Office of Admissions and Records determines the resident status of all new and returning students. Responses to the Application for Admission and, if necessary, other evidence furnished by the student are used in making this determination. A student who does not submit adequate information to establish the right to classification as a California resident will be classified as a nonresident.

The resident determination date is the day immediately preceding the opening day of instruction of the semester or term as set by the Board of Trustees. Generally, residency requires actual physical presence in California one year prior to the residence determination date, coupled with proof of the intent to make California one’s home.

Factors Considered to Determine Residency

A person’s presence in California and the factors below are considered in determining California residency. No one factor determines residency.

- Proof of employment (paycheck stub) in California, along with filing California State Income taxes as a resident
- Possessing a valid California Driver’s License
- Registering a vehicle in California
- Voting in California
- Owning residential property in California and currently residing on that property
- Being licensed to practice a profession in California
- Having an active checking and/or savings account in a California bank
- Showing California on military records (DD214, Military Orders, Leave and Earnings Statement)
- Possessing a divorce decree issued in California
- Having paid nonresident tuition in another state

Exceptions to Residency Requirements

Several exceptions to the residency rules apply per Education Code. They include, but are not limited to the following:

- Active duty military personnel stationed in California
- Dependents of active duty military stationed in California
- Certain minors who remained in California when parents moved
- Self-supporting minors
- Full-time employees of California State University and Colleges, the University of California, or any California Community College, or State of California agency, or a child or spouse of the full-time employee

Nonresident Student

A student’s resident status is determined at the time of application. A nonresident student must pay nonresident tuition in addition to the enrollment fee and other fees (including a $20 Capital Outlay Fee per Education Code 76141) for credit classes.

Assembly Bill AB 540

This act allows all persons, including undocumented immigrant students who meet the requirements set forth in Section 68130.5 of the Education Code to be exempt from nonresident tuition in California’s colleges and universities.

Who Qualifies?

- An alien student who is without lawful immigration status (undocumented, out of status).
- A U.S. Citizen or Permanent Resident card holder who does not meet the California residency requirement.

Requirements

- Student attended a high school (public or private) in California for 3 or more years.
- Student graduated from a California high school or attained the equivalent (for example, passing the GED, California High School Proficiency Exam, or Certificate of Completion) prior to the start of the term.
- All qualified students who are without lawful immigration status must file an affidavit with the college stating that he/she has filed an application to legalize his/her immigration status, or will file an application as soon as he/she is eligible to do so.
- All students who do not meet the California residency requirements and are eligible for this exemption must file an affidavit with the college.

The affidavit is included in the California Nonresident Tuition Exemption form which is available in the Admissions and Records Office. Students living outside the state and enrolled via distance education are not eligible for the AB 540 exemption (Revised Guidelines for Implementation of AB 540 — Firebaugh, October 23, 2003).
Special Admit Students

Students may enroll in college classes as Special Admit students while concurrently enrolled at another school at the K-12 grade level. Enrollment is for advanced, enrichment courses. Special Admit students must be recommended by their principal or school designee and must meet all course prerequisites. K-8 students must also be recommended by the respective Instructional Dean at the college.

Persons under 18 years of age/not enrolled in school, enrolled in private school or home schooled students:

Persons attending a Home School Program or persons under 18 years of age who are not high school graduates and are not currently enrolled in school may be eligible as Special Admit students with the following exceptions:

- If a local high school or ROP program offers a course in the subject area requested, the student may not enroll in the equivalent course as a Special Admit student at Fullerton College
- Home School programs must be accredited by Western Association of Schools and Colleges from Grades 9-12
- Obtain College President’s signature, or designee
- Applicants must pay ALL applicable fees at the time of registration

Part-time Special Admit students (enrolled in 1-11 units) in grades 9-12 are exempt from enrollment fees, but must pay health fees.

Part-time Special Admit students (enrolled in 1-11 units) in grades K-8 must pay enrollment and health fees.

Full-time Special Admit Students (enrolled in 12-18 units) must pay enrollment and health fees.

Students on F-1 and F-2 visas are not eligible to enroll as Special Admit students.

Restrictions are placed on high school students wishing to take some Fullerton College courses, including, but not limited to, English, ESL, reading and math.

For further information on the Special Admit Program, contact the Admissions and Records Office at (714) 992-7075 or the Counseling Division at (714) 992-7010.

Student Fees

- Fees are subject to change
- Fees are payable by cash, check, MasterCard or Visa

Returned checks must be paid in the form of cash or money order, and a $25.00 service charge will be added to the amount owed. All checks returned for “Stop Payment” will also be subject to the $25 service charge. A student’s enrollment at Fullerton College as well as his/her credit may be affected.

A.S. Benefits Validation

See “Student Affairs and Activities.”

Campus Photo ID Card

All students are strongly encouraged to purchase a campus identification card. This card serves as positive photo identification for the Library, the Admissions and Records Office, various labs, the Bookstore, and other needed areas/services. A current Schedule/Bill and valid picture ID is needed at the time of production and/or validation. The charge for a Campus ID Card is $2.50. All ID cards not picked up by the last day of the semester purchased will be voided. Replacement and voided campus ID cards are also $2.50.

Course Fee

These fees are noted in the class schedule.

Enrollment Fee

The enrollment fee is $20 per unit. This fee is subject to change by legislative action.

Health Fee

All students who enroll in classes through Fullerton College are required to pay a $16 Health Fee per semester ($13 for the Summer term). This Health Fee entitles students to a variety of health services. Health Fees are charged to all students whether or not they choose to use health services.

Any student who depends exclusively on prayer for healing in accordance with the teachings of a bona-fide religious sect, denomination or organization is exempt from paying the health fee. Upon request, the health fee will be refunded to any student who withdraws from all courses prior to the 10% date of the length of the course.

Non-resident Tuition Fee

Non-resident students will be charged a tuition fee of $190 per semester unit for the 2009-2010 school year. Non-resident students who are citizens and residents of a foreign country will be charged a tuition fee of $210 per semester unit. NOTE: All non-residents must also pay the enrollment fee and health fee.
Parking Fee
To park on campus, parking permits can be purchased:

$35 ($20 during Summer Term) Auto
$20 ($10 during Summer Term) Motorcycle
$20 (all terms) Students with BOGW Fee Waiver

Pay fee during registration. A limited amount of metered parking is available. For additional information, see “Parking” under “College Policies.”

Transcripts

High School Transcripts
All matriculated students should have official transcripts sent to the Counseling Office from their high schools.

Other College Transcripts
Students with previous college units should have transcripts from all colleges previously attended sent to the Fullerton College Admissions and Records Office. These transcripts can verify completion of prerequisite courses, eliminating the necessity of taking all or part of the placement tests, and can assist the academic counselors in working with the students. Official transcripts from other colleges are required for evaluation toward a certificate, associate degree, or meeting general education requirements for transfer.

Fullerton College Transcripts
The Admissions and Records Office prepares and permanently retains a record of each student’s academic work. A student’s transcript reflects all academic work attempted at Fullerton College. It lists chronologically the courses, units, grades, cumulative grade point average, transfer credits (posted after graduation), and total units.

Transcripts requested via mail or in person for current/non-current students will be processed within 10-15 business days (not including the mailing time). Forms for requesting transcripts are available in the Admissions and Records Office and on our website: www.fullcoll.edu. Mail requests must include the current name and all names used in the past, current address, phone number, date of birth, social security number, dates of attendance, where the transcript is to be sent, number of copies needed, any instructions for special handling, and the student’s full signature. Send requests to: Fullerton College, Admissions and Records Office, 321 East Chapman Avenue, Fullerton, CA 92832-2095.

Transcripts may be requested online through myGateway. Visit the Admissions and Records website for complete instructions. The processing time for web requests is 7-10 business days (not including mailing time). Rush is not available for this service.

Electronic transcripts can be sent to various institutions. Log on to myGateway and visit “Student Links” for more information.

Students who have completed General Education Certification requirements (for additional information, refer to General Education Breadth Requirements — Four Year Colleges and Universities), need to request that an evaluation is included with the transcript when it is sent to the university. Due to the need for accuracy in this evaluation, rush service is not available. Processing time is 10-15 business days.

Students are entitled to two (2) free copies of their transcripts. Subsequent copies are $3 per copy. (Note: Fee is subject to change at any time.) On Demand/Rush transcripts can be obtained for an additional $10.

Transcript requests must include full payment to be processed. Requests will not be processed if the student has outstanding financial obligations to the college. Only checks or money orders are accepted and should be made payable to Fullerton College. Cash payments may be made at the Admissions and Records Office but are not recommended to be sent through the mail.

In accordance with the Family Educational Rights and Privacy Act of 1974, records may not be released to a third party without prior written authorization of the student. Contact Admissions and Records for more information. A picture ID is required when requesting transcripts in person.

Verification of Student Status

The Admissions and Records Office verifies current term registration and dates of enrollment for non-campus certification. Photo ID is required for service. There is a $3.00 verification fee per request. Rush requests are an additional $10. Verifications for loan forms are processed in the Financial Aid Office.

To conveniently serve our students, enrollment verification may also be obtained through the National Student Clearinghouse website at www.studentclearinghouse.org. This service is available 24 hours a day, 7 days a week for a fee of $3 per verification. Step by step instructions are available at http://admissions.fullcoll.edu/verification.
Academic Information

Academic Honors

Dean’s Honor List

Students who officially complete (as shown on their transcript) 12 or more degree applicable units in a semester and earn a grade point average between 3.0 and 3.74 are placed on the Dean’s Honor List.

Honors at Graduation

Students whose cumulative grade point average (excluding non-degree credit courses) is 3.30 or higher will graduate with honors. High honors are awarded to those graduating with a cumulative grade point average (excluding non-degree credit courses) of 3.75 or higher. Spring grades will not be used in computing the grade point average for the graduation ceremony, but will be used in determining the final grade point average for the diploma. All transfer work from other colleges will be used in computing grade point average at graduation.

President’s Honor List

Students who officially complete (as shown on their transcript) 12 or more degree applicable units in a semester and earn a grade point average of 3.75 or above are placed on the President’s Honor List.

Acceptance of Transfer Credits

Evaluation of other college coursework must be requested by students through the Fullerton College Counseling Department. Students transferring from colleges accredited by the following recognized regional accrediting associations will be granted lower division credit for courses entered on official transcripts (MSA, NASC, NCA, NEASC-CIHE, SACS, WASC).

Students requesting credit for previous coursework from foreign colleges or universities must have their transcripts evaluated by an approved credential evaluation service. Students may only receive elective credit for up to 30 units of lower division coursework.

Transferring units will be posted at the time of graduation.

Adding or Dropping a Class

All adds, drops, and withdrawals are to be completed ONLINE through myGateway by the established deadline dates. If the student receives an Add Authorization Code from an instructor, it is the student’s responsibility to process the add using myGateway on or before the deadline. Failure to do so will result in not being officially enrolled in the class.

A student will not be permitted to add a new full-term class after the end of the third week of school. For adding short-term courses (less than a semester in length) or late-start courses, the student should review the class schedule for published deadline dates.

Section Change

A section change denotes dropping a course and replacing it by transferring to different hours, days, instructor for the same course and/or transferring from a lower to a higher OR a higher to a lower level course. Courses must meet within the same date range.

Attendance

Regular and prompt attendance in class and laboratory sessions is expected of every Fullerton College student. Students, therefore, should be thoroughly informed of and should comply with the following attendance regulations:

Attendance at the first class meeting is advised because of enrollment demands. Any student not reporting to the first class may be dropped by the instructor. In the case where a class is taught entirely online, instructors may drop students who have not been in contact with the instructor by the end of the first day of classes for that semester or short-term session. However, it is the student’s responsibility to officially drop the class. Do not rely on instructor to drop the class. Non-attendance does not constitute an official drop. Failure to officially withdraw may result in a failing grade.

Absences

By direction of the Chancellor of Community Colleges of California, attendance shall be taken at all class sessions. Absences are handled as follows:

After a student accumulates in any class more than a week’s absences (more than the number of times the class meets per week), consecutive or nonconsecutive, an instructor may drop the student according to the drop deadline dates.

For online classes, an absence may be identified as a missed assignment and/or inactivity in the course site.
Illness and Authorized Absences

1. If a student accumulates an excessive number of absences due to illness or other reasons, and the instructor feels that the student can no longer profitably continue in the course, the instructor may drop the student from class.

2. A student who must miss one or more classes because of a field trip or other authorized activity, such as athletics or music groups, may obtain an Authorized Absence Excuse from the instructor under whose supervision the activity will occur. The student shall have this excuse signed by the instructors of the classes that will be missed before the absence occurs. It is recommended that this form be completed at least two days before the activity. The signed excuse must be presented to the instructor in charge of the activity.

3. No absence excuses a student from making up the work missed. Students should realize that every absence may adversely affect their grades.

4. In the event a student is absent for a prolonged period of time, it is expected that the student will make contact with all instructors immediately to advise the instructor of this absence and the reasons behind it. The instructors can then decide whether or not the student may continue in the class or withdraw. It should be noted that failure to make this contact and follow through with the instructors could result in the student receiving a substandard grade in the class.

STUDENT RESPONSIBILITY

While an instructor may drop a student who has poor attendance, it is the student’s responsibility to officially drop the class. The student must log onto WebStar during its operating hours, access WebStar Registration and drop the class. Failure to officially withdraw from a class may result in a grade of “F,” or “NP” being assigned.

Audit Policy

Auditing of designated, approved college courses is permitted under specific conditions. Students may audit a designated course only if they have previously taken the course and received a passing grade and/or taken the course the maximum times allowable at Fullerton College.

An enrolled student choosing to audit a course must file a “Petition to Audit” form in the Admissions and Records Office no later than the add deadline of the course. Once the request has been made, students will not be permitted to change from an audit to a credit status.

Audit petitions and procedures are available in the Admissions and Records Office.

Classification of Students

Students are classified based on their class load as follows:

<table>
<thead>
<tr>
<th>Classification</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>Full-Time</td>
<td>Enrolled in 12 or more units</td>
</tr>
<tr>
<td>Part-Time</td>
<td>Enrolled in fewer than 12 units</td>
</tr>
<tr>
<td>Freshman</td>
<td>Fewer than 30 units completed</td>
</tr>
<tr>
<td>Sophomore</td>
<td>30 or more units completed</td>
</tr>
</tbody>
</table>

The minimum unit load to be classified as a full-time student is 12 units. A maximum load for any student is 19 units. A student may, with counselor’s approval, carry a load of 20 or more units if, during the preceding semester, an average of at least 3.0 for each unit of credit in a total program of 12 or more units was earned.

It may be pertinent for students to consider the following semester unit requirements for particular privileges and activities:

Associated Students Elected Office: 9 units per semester

Athletic Eligibility: Full time: 12 units including P.E. classes

Veterans Benefits — Full time: 12 units per semester; 3/4 time: 9 units per semester; 1/2 time: 6 units per semester.

Work Study and Financial Aid — Full time: 12 units per semester; 3/4 time: 9 units per semester; 1/2 time: 6 units per semester.

Work Hours/Class Guidelines

For each hour spent in class, a student should plan to spend about two hours a week in study and homework. Thus, a full load of 15 units plus study time may require 45 hours a week — more than a full-time work week. Following are suggested work hours/class guidelines:

<table>
<thead>
<tr>
<th>WORKING HOURS/WEEK</th>
<th>UNITS</th>
</tr>
</thead>
<tbody>
<tr>
<td>None</td>
<td>12 - 16</td>
</tr>
<tr>
<td>10</td>
<td>10 - 11</td>
</tr>
<tr>
<td>20</td>
<td>7 - 9</td>
</tr>
<tr>
<td>30</td>
<td>3 - 6</td>
</tr>
<tr>
<td>30+</td>
<td>1 - 3</td>
</tr>
</tbody>
</table>
In order to maintain an academic balance, the following information should be considered:

1. Students can expect to spend at least three hours (one in class and two outside of class) per week for each unit taken.
2. Employment time and college time combined should not exceed 60 hours weekly.
3. Students should distribute study time appropriately for each class — often preparation for a lecture class differs from preparation for a laboratory class.
4. Students should consult frequently with their instructors — their office hours are designed for that purpose.
5. To assist in their academic success, students should use the tutoring services, the library, counselors, and other support services.

Course Progression

Students are expected to take courses on an accepted progressive basis. Students will not receive credit for classes which are considered lower in degree of advancement than those already completed.

Course Repetition

PASSING GRADE
A course in which a student has earned an “A,” “B,” “C,” “CR” or “P” may only be repeated as indicated in the catalog. (Refer to the skills, performance, or activity section below)

Once a student has completed the maximum number of allowable repetitions, a student may be blocked from registering in this course. However, a student may file a petition for an exception in the Admissions and Records Office. This petition must be approved before the student will be permitted to register.

SUBSTANDARD GRADE
Beginning with the Fall 2008 semester, (pursuant to Title 5, Section 55042) students who have recorded a substandard grade of either “D,” “F,” “NC” or “NP” will be allowed to register to repeat the same course a maximum of 2 times within the college district. Students may file a Petition to Repeat a Course to request additional repeats due to verifiable extenuating circumstances. Petitions may be filed in the Admissions and Records Office.

When repeating a course with a substandard grade and submitting an Appeals Petition, the highest grade earned will count toward the grade point average and remaining grade(s) will be discounted or forgiven. The student’s permanent academic record will be annotated such that all course work that has been taken and forgiven or repeated will remain legible, insuring a true and complete academic history. (Refer to Appeals Petition under College Policy and Rules)

SKILL, PERFORMANCE, OR ACTIVITY
Courses that develop similar skills (a) at increasingly sophisticated levels of practice, and/or (b) that are applied to different content (such as a drama course in which students master increasingly demanding roles in different plays) may be offered as repeatable courses.

Each such repetition of a course must be designated to create a discernibly higher level of achievement such that the academic progress is clearly defined and the grading standards increase substantially with each repetition.

The course description will indicate whether a course may be repeated and the number of times it may be repeated.

A student may take the repeatable course for credit for up to 4 times or the number of times the college has specified.

Repetition of classes to meet legally mandated training requirements is allowed.

RECENTY
Per section 55043 of the Education Code, “students may repeat a course due to a significant lapse of time.” Students who believe they have extenuating circumstances may submit a Petition to Repeat a Course. Petition forms are available in the Admissions & Records Office.

WITHDRAWAL
Effective July 1, 2009, per Section 55042 of the Education Code, students shall not be allowed to enroll in the same course in which they have previously received four “Withdrawals” within the college district.

Credit By Examination

The basic purpose of Credit by Examination is to allow unit credit for prior or advanced knowledge of class material by the student. Currently enrolled students may be permitted to obtain Credit by Examination in subject matter fields in which they are especially qualified through previous training or experience for which credit or advanced placement has not previously been given. Only those courses approved for Credit by Examination will be eligible. Examinations will be sufficiently comprehensive to determine that the student has essentially the same knowledge and skills as a student who successfully completes the course.
Credit by examination is available under the regulations listed below:

1. Any currently enrolled student not on academic probation may challenge a course subject to the approval of the division offering the course. Not all courses may be challenged. Divisions allowing credit by examination are Business and Computer Information Systems, Fine Arts, Natural Science (BIOL 101 F and BIOL 102 F only), and Technology and Engineering. Contact the appropriate Division Office for information.

2. A student may challenge and receive credit for a maximum of twelve semester units. EACH COURSE MAY BE CHALLENGED ONLY ONCE.

3. The student has the option of receiving an earned letter grade on the transcript for all challenged courses.

4. The division may stipulate that a grade of credit (CR) will be granted instead of a letter grade.

5. No student will be allowed to challenge a course less advanced than that which the student has already completed, and no challenge will be allowed for a course in which the student has previously enrolled and received a grade.

6. No challenge will be allowed for a course in which a student is enrolled after the first two weeks of the semester.

7. A student who has previously audited a course cannot earn credit by examination.

8. Resident students must pay enrollment and health fees; non-resident students must pay the enrollment fee, health fee, and non-resident per-unit tuition.

9. Students on fee waivers must pay the enrollment fees for credit by examination.

10. Credit will not be posted to the transcript until all fees, fines, or holds have been resolved.

Procedure:
To initiate a petition for Credit by Examination, the student must confer with either an instructor teaching the course or the appropriate Division Dean. If it is determined that the student’s prospects for success in the examination are satisfactory, the student will complete the Credit by Examination petition, obtaining the signatures of the instructor and the Division Dean. Petitions are available in the division offices. The time and place of the examination, its content, and the arrangement for its administration are determined by the division.

Distance Education — Online, Hybrid, TeleWeb

At Fullerton College, Distance Education courses are offered as an alternative method of learning. Distance Education courses provide students with quality instruction, while at the same time offering convenience and flexibility. Courses may be accessed on and off campus. Delivery options include:

Online — This is a course offered entirely or mostly online. Note: Some instructors also require coming to campus for orientation and/or testing.

Hybrid — This is a course that combines some percentage of class time online and some percentage of class time on campus.

TeleWeb — This is a course that combines cable television broadcasts, online technologies, and some campus attendance.

Students who take Distance Education courses are expected to be able to access and use email, be comfortable navigating the Internet, and use a computer that meets certain technical requirements. NOTE: Computers are available on campus for student use.

Transfer institutions generally accept Distance Education courses. However, students wishing to use an online, hybrid, or teleweb course for a specific transfer requirement should consult a counselor.

The registration process, fees, and academic credit are the same for Distance Education courses as for traditional on-campus courses. To register, visit www.fullcoll.edu and click on myGateway. NOTE: Login required for myGateway may not be the same as login required for online courses.

For course specific information, refer to the class schedule available online at www.fullcoll.edu. For general information visit http://online.fullcoll.edu.

Evening and Weekend College

The evening and weekend course offerings of the college provide an opportunity for students to pursue their education in the late afternoon, evenings, and on weekends. Requirements for most two-year vocational majors or for the lower-division transfer programs of most four-year colleges can be completed. The faculty is selected from the regular college staff and from highly qualified practitioners who are employed part time by the college to teach in their specialty.
Evening and weekend college classes are a part of the regular college program and carry the usual college credit for degree and residence purposes. Students may enroll in day or evening classes, or both, as their needs dictate. All evening and weekend classes are planned and supervised by the regular administrative staff of the college.

**Grading System**

**Grades and Grade Point Average**

Student performance in courses is indicated below. Grades which carry point value, and which are used in determining the grade point average (GPA), are as follows:

<table>
<thead>
<tr>
<th>Symbol</th>
<th>Definition</th>
<th>Grade Points Per Unit</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Excellent</td>
<td>4</td>
</tr>
<tr>
<td>B</td>
<td>Good</td>
<td>3</td>
</tr>
<tr>
<td>C</td>
<td>Satisfactory</td>
<td>2</td>
</tr>
<tr>
<td>D</td>
<td>Passing, less than satisfactory</td>
<td>1</td>
</tr>
<tr>
<td>F</td>
<td>Failing</td>
<td>0</td>
</tr>
</tbody>
</table>

The following are not part of the GPA computation:

- **P** — Pass: at least satisfactory — units awarded not counted in GPA
- **NP** — No Pass: less than satisfactory, or failing — units not counted in GPA
- **W** — Withdrawal: No units granted

The meaning of each symbol is as follows:

- **A** — Superior or Excellent (4 grade points). Honor grade indicating excellence earned as a result of consistently superior examination scores; consistently accurate and prompt completion of assignments; ability to deal resourcefully with abstract ideas; superior mastery of pertinent skills; and promise of success in field relating to the subject.

- **B** — Better than Average — Good (3 grade points). Honor grade indicating competence earned as a result of high examination scores; accurate and prompt completion of assignments; ability to deal well with abstract ideas; commendable mastery of pertinent skills; and promise of continued success in sequential courses.

- **C** — Average — Satisfactory (2 grade points). Standard college grade indicating successful performance earned as a result of satisfactory examination scores; generally accurate and prompt completion of assignments; ability to deal with abstract ideas; average mastery of pertinent skills; and sufficient evidence of ability to warrant entering sequential courses.

- **D** — Less than Satisfactory (1 grade point). Substandard grade indicating the meeting of minimum requirements only earned as a result of low examination scores; generally inaccurate, incomplete or late assignments; inadequate grasp of abstract ideas; barely acceptable mastery of pertinent skills; or insufficient evidence of ability to make advisable the enrollment in sequential courses.

- **F** — Failing (no grade points). Non-passing grade indicating failure to meet minimum requirements earned as a result of non-passing examination scores; inaccurate, incomplete or late assignments; failure to cope with abstract ideas; inadequate mastery of pertinent skills; or repeated absence from class. “F” grades are figured in total units attempted in computing the grade point average.

**How to Calculate a GPA**

1. Multiply the grade value of the course by the units attempted for that course. The product of this multiplication will be the grade points.

2. Divide the cumulative grade points by the cumulative units attempted.

Example:

<table>
<thead>
<tr>
<th>Course</th>
<th>Grade Value</th>
<th>Multiply</th>
<th>Units Attempted</th>
<th>Equals</th>
<th>Grade Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 100 F</td>
<td>A = 4</td>
<td>x</td>
<td>4</td>
<td>= 16</td>
<td></td>
</tr>
<tr>
<td>ENGL 060 F</td>
<td>B = 3</td>
<td>x</td>
<td>4</td>
<td>= 12</td>
<td></td>
</tr>
<tr>
<td>GEOG 100 F</td>
<td>C = 2</td>
<td>x</td>
<td>3</td>
<td>= 6</td>
<td></td>
</tr>
<tr>
<td>PE 130 F</td>
<td>D = 1</td>
<td>x</td>
<td>2</td>
<td>= 2</td>
<td></td>
</tr>
<tr>
<td>PHIL 100 F</td>
<td>F = 0</td>
<td>x</td>
<td>3</td>
<td>= 0</td>
<td></td>
</tr>
</tbody>
</table>

**TOTALS:** 16 36

Divide 36 (Grade Points column) by 16 (Units Attempted column) and the G.P.A. = 2.25

**Pass/No Pass Policy**

Courses in which **P (Pass)/NP (No Pass)** grading is allowed are designated in the class schedule and in the course descriptions in this catalog. P/NP is not the same as auditing.

- **P** — Pass is equivalent to the satisfactory grade of “C.” “P” will award units completed, but will not be computed into the grade point average.

- **NP** — No Pass is a substandard grade, equivalent to the grades of “D” or “F.” “NP” grades will not be computed into the grade point average, but will enter into calculations for progress probation.

If a course is listed in the College Catalog as “Letter Grade or Pass/No Pass Option,” a student choosing to take the course with a P/NP grade must file a “Pass/No Pass Grade Request” form in the Admissions and Records Office no later than the add deadline of the course. Once the request is submitted, the grading option is not reversible. Students may enroll in up to six units each semester in courses with a PASS/NO PASS option.
Students should investigate the policies of the institutions to which they may wish to transfer to determine the acceptability of P (pass) grades in courses in the student’s major, since many universities and colleges do not accept P (pass) grades in such courses. Many institutions will consider an NP (No Pass) as a failing grade. Likewise, students planning for graduate work should realize that some graduate schools do not look favorably on P grades.

Non Evaluative Grades

I — Incomplete. Incomplete academic work at the end of the term caused by unforeseeable, emergency and justifiable reasons may result in an “I” symbol being entered in the student’s record. The condition of removal of the “I” and the grade to be assigned shall be stated by the instructor in a written record. This record must be given to the student with a copy on file with the Admissions and Records Office until the “I” is made up or the time limit has passed. A final grade shall be assigned when the work stipulated has been completed and evaluated or when the time limit for completing the work has passed.

The “I” must be made up no later than one year following the end of the term in which it was assigned. The “I” symbol shall not be used in calculating units attempted nor for grade points.

A student may petition for a time extension due to unusual circumstances through the Admissions and Records Office. A student may not re-enroll in a class for which an “I” symbol is shown on the student’s transcript.

IP — In Progress. The “IP” symbol shall be used to denote that the class extends beyond the normal end of an academic term. It indicates that work is “in progress,” but that assignment of an evaluative grade must await its completion. The “IP” symbol shall remain on the student’s transcript in order to satisfy enrollment documentation. An “IP” symbol shall not be used in calculating grade-point averages. The student must register in the same course for the next semester. Failure to do so will result in an assignment of a grade by the teacher in place of the “IP.”

MW — Military Withdrawal. Upon verification of military orders, the symbol “MW” will be assigned to students who withdraw from courses. Military withdrawal shall not be counted in progress probation or dismissal calculations.

RD — Report Delayed. The “RD” symbol may be assigned by the Dean of Admissions and Records only. It is to be used when there is a delay in reporting the grade of a student due to circumstances beyond the control of the student. It is a temporary notation to be replaced by a permanent symbol as soon as possible. “RD” shall not be used in calculating grade-point averages.

W — Withdrawal. A “W” is a grade indicated when the student has withdrawn from a course. It is not included in the grade point average computation. (See “Withdrawal Policy.”)

Assignment of Grades

The final grade is wholly within the responsibility of the instructor, regardless of whether it is an A, B, C, D, F, P, NP, or I.

Please Note: In a number of courses, principally in English, foreign languages, science and mathematics, a student may not progress to a more advanced study in a subject in which the student has received a “D” grade.

Non-Degree Credit Courses

Non-degree credit courses are courses that earn credit, but are not counted toward the 60 units required for the associate degree. Non-degree courses are intended to assist students in performing the skills needed for college level courses. Non-degree courses do apply toward residency, athletic eligibility, work study and financial aid, veterans benefits, associated student body office, and full-time status. The degree or non-degree credit status is indicated at the end of every course description.

Honors Program

College Center, Room 225, 2nd Floor

The Fullerton College Honors Program is designed to meet the needs of students who seek a challenging educational experience that goes beyond the regular degree program. The Honors Program incorporates a stimulating interdisciplinary approach for a more in-depth investigation of topics. Classes are kept intentionally small (20-25 students) to facilitate the discussion/seminar rather than lecture format. A reduced class size also encourages a more collaborative learning experience where students from different backgrounds and disciplines can interact more freely with each other and with the faculty members who teach these courses. The holistic approach of Honors instruction strives to develop social and leadership skills in addition to intellectual and academic abilities. Towards this end, students enrolled in Honors courses will participate in field trips, social events, and leadership training. Other Honors activities include an Honors lecture series and the opportunity to attend regional and national Honors conferences.

Honors students are eligible for many other benefits. These include eligibility for special scholarships at Fullerton College and the opportunity to apply for Honors scholarships at four-year transfer institutions. Honors students may also apply to the Collegiate Honors Council. Honors students will have Honors sections designated on their transcripts, and students who complete the Honors Program requirements will have a special designation on their transcripts and degrees. Students in the Honors Program will also be eligible for priority and/or guaranteed transfer in their major to selected colleges and universities. For further information and application forms, please contact the Honors Program at Fullerton College at (714) 992-7370 or visit our website at http://honors.fullcoll.edu.
Learning Communities

Learning Communities are classes that work together and often use common themes, readings and assignments. Classes often meet General Education and transfer requirements. Instructors work closely together so learning becomes relevant and fun. Students learn in a friendly and supportive environment that promotes success.

Remedial Limitation

The State of California has implemented a regulation limiting the number of units students can earn for remedial/pre-collegiate basic skills courses to 30 semester units. In accordance with those guidelines, the North Orange County Community College District has established the following policy (AB 1725 Chapter 973, Statutes of 1988).

Basic Skills Courses

Basic skills courses are defined as one or more levels below college level English and one or more levels below intermediate algebra. The North Orange County Community College District has designated certain courses as remedial/pre-collegiate basic skills courses. These courses include reading, writing, computation, learning skills, and study skills designed to ensure acquisition of those skills necessary for successful completion of associate degree, transfer and occupational courses. Fullerton College lists the following as its Basic Skills courses: ENGL 039 F, ENGL 059 F, ENGL 060 F, ESL 025 F, ESL 029 F, ESL 035 F, ESL 036 F, ESL 038 F, ESL 039 F, ESL 045 F, ESL 046 F, ESL 047 F, ESL 048 F, ESL 049 F, ESL 050 F, ESL 056 F, ESL 058 F, ESL 060 F, ESL 081 F, ESL 082 F, ESL 083 F, MATH 004 F, MATH 006 F, MATH 010 F, MATH 015 F, MATH 020 F, MATH 030 F, READ 027 F, READ 036 F, READ 056 F, READ 096 F, STSV 071 F, STSV 072 F, STSV 075 F.

Exemptions

All remedial courses taken by students enrolled in English as a Second Language courses are exempted. Students identified by the District for learning disabled programs are also exempted. When, because of closed enrollment, students are unable to enroll in the next higher level ESL course, they do not lose their exemption status. Students with documented disabilities may petition the Admissions and Records Office for exemption status on a case-by-case basis.

Review and Release of Information

All student records of Fullerton College are maintained in accordance with the provisions of the Family Rights and Privacy Act of 1974. Copies of the complete text of this act are available in most libraries (see “Family Educational and Privacy Rights” in Shepherd’s Acts and Cases by Popular Names). The two basic elements of the Act are the student’s right to review and challenge his/her record and the conditions under which information in the record can be released to outside parties.

1. Students may request access to challenge the correctness or appropriateness of any part of the record. However, students are advised that grades, though a part of the record, are considered final as assigned by the instructor and can only be challenged on the basis of clerical error, fraud, bad faith, or incompetence. Refer to Grade Changes for additional information.

   Students requesting to review their own records must present proper photo identification.

2. Student information (except for directory information) cannot be released without signed permission of the student. However, student information will be released to those legally entitled to access under this Act. Directory information may include student’s name, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, the most previous public or private school attended by the student, and any other information authorized in writing by the student. (NOCCCD BP 5040 effective April 2009)

   Additionally, under the Solomon Amendment, all branches of the United States Armed Forces may request telephone numbers and addresses of all students age 18 to 35 for recruitment purposes.

   Currently enrolled students may request the information listed above be kept confidential. A “Notice to Deny Disclosure of Personal Information” must be filed in the Admissions and Records Office within the first two weeks of the semester. In the absence of having this form on file, the college may release information to any person or agency requesting such information.

3. The law requires consent of the student or a court order before the District may release student records. When student records are subpoenaed, the student will be notified by mail to the last address on file of any such access, and the student shall have the right to request a copy of any information released in this manner.

4. Any questions regarding the student’s rights under this act should be directed to the Dean of Admissions and Records.
Study Abroad

The Study Abroad Program provides students with opportunities to enrich their educational experiences by studying abroad for a semester or a summer term, depending on the program, while receiving Fullerton College units. The program normally offers only courses that can be enriched by the foreign environment. In addition, students gain a multicultural experience by living in a society that is different from that of the United States.

Fullerton College works jointly with Cypress College of the North Orange County Community College District in offering this program. On several occasions Fullerton and Cypress have cooperated with other community college districts in the Study Abroad locations.

The foreign locations and the courses offered vary from semester to semester. Over the past decade Fullerton College has offered courses in Costa Rica, Great Britain, France, Italy, Austria, Spain, Australia, Ireland and the Czech Republic. The program in Cambridge, England has been repeated six times since its inception in 1986.

The courses offered in this program are Fullerton and Cypress courses, most of which meet degree and transfer requirements, either as general education courses or elective units. Fullerton and Cypress faculty teach most of these courses, although the program sometimes employs local instructors who teach these courses according to the colleges’ course outlines.

There is an application process for interested students, beginning early in the semester prior to departure to the foreign location. For further information, call 714-992-7145 or visit the website: http://studyabroad.fullcoll.edu.

Tests/Exams

Class instruction includes frequent examinations throughout the semester so that students can judge their progress. Final examinations are required in all courses as a requirement for credit in the course.

Wait Time for Late Instructors

Instructors are to include on their course syllabi or to notify their students at the first class meeting that if, due to unforeseen emergencies, the instructor does not arrive at the scheduled start time for class, students are to remain in class for fifteen minutes (unless otherwise notified by the division). If they do not receive notification to wait for their instructor to arrive, after fifteen minutes the students may leave with no penalty for absence or assigned work due for that class meeting.

Withdrawal Policy

For the purpose of this policy, a “W” is viewed as an indication that the student has withdrawn from a course without affecting the student's grade point average. Failure to officially withdraw by the established deadline date may result in the assignment of an “F” grade for the course.

Instructor Initiated
Through 75% of the course, a student may be withdrawn if no longer participating in the course. Definitions of non-participation shall include, but are not limited to, excessive unexcused absences. Refer to the Attendance Policy for additional information.

Student Initiated

STUDENT RESPONSIBILITY — While an instructor officially may withdraw a student who has poor attendance, it is the student’s responsibility to withdraw if the student does not continue in attendance. All student withdrawals are to be completed ONLINE through myGateway by the established deadline date. Failure to do so may result in the student receiving a failing grade.

Recording on Transcripts
No “W” shall be recorded on the student’s transcript when withdrawing from a course according to the following guidelines:

A. Full Term Courses: withdrawal prior to the fourth week of the term.
B. Short Term Courses (meeting less than the full term length): withdrawal by the 20% point of the length of the course.

A “W” will be recorded on the student’s transcript when withdrawing from a course according to the following guidelines:

A. Semester Length Courses: withdrawal during the fourth week through the fourteenth week of the semester.
B. Short Term Courses (courses less than a semester in length): withdrawal after the 20% point through 75% point of the course.

Military Withdrawal
Students called to military service during a semester in progress should contact the Admissions and Records Office to have a “MW” (military withdrawal) noted on their academic transcript. A copy of military orders are required.
**College Policies and Rules**

**Academic Honesty**

Students are expected to abide by ethical standards in preparing and presenting material which demonstrates their level of knowledge and which is used to determine grades. Such standards are founded on basic concepts of integrity and honesty. These include, but are not limited to, the following areas:

1. Students shall not plagiarize, which is defined as
   - stealing or passing off as one's own the ideas or words of another, or
   - using a creative production without crediting the source.

   The following cases constitute plagiarism:
   - paraphrasing published material without acknowledging the source,
   - making significant use of an idea or a particular arrangement of ideas, e.g., outlines,
   - writing a paper after consultation with persons who provide suitable ideas and incorporating these ideas into the paper without acknowledgment, or
   - submitting under one's own name term papers or other reports which have been prepared by others.

2. Students shall not cheat, which is defined as
   - using notes, aids, or the help of other students on tests or exams in ways other than those expressly permitted by the instructor, or
   - misreporting or altering the data in laboratory or research projects involving the collection of data.

3. Students shall not furnish materials or information in order to enable another student to plagiarize or cheat.

Instructors may deal with academic dishonesty in one or more of the following ways:

1. Assign an appropriate academic penalty such as an oral reprimand or point reduction.

2. Assign an “F” on all or part of a particular paper, project, or exam.

3. Report to the appropriate administrators, with notification of same to the student(s), for disciplinary action by the College. Such a report will be accompanied by supporting evidence and documentation.

See Student Conduct for additional information.

---

**Academic Renewal Policy**

The Academic Renewal Procedure (51318, California Administrative Code) permits the alleviation of a student's previously-recorded substandard academic performance which is not reflective of the student's present demonstrated ability and level of performance. As a consequence, Academic Renewal may gain for students the benefits of their current level of ability and performance and not permanently penalize them for poor performance in the past.

Therefore, within the regulations listed, Fullerton College may disregard particular previously recorded substandard work from a student's cumulative grade point average.

The regulations for course alleviation follow:

1. Only units taken at Fullerton College may be alleviated, not units taken from another college(s). The maximum number of units that may be alleviated is 24.

2. A minimum of twelve (12) units must be completed at any accredited college or university, with a grade point average of 2.5 in all units since the last semester of requested renewal.

3. A minimum of 12 months must have elapsed since the most recent coursework to be alleviated was recorded.

4. Courses that meet the present educational goals of the students and are appropriate for repetition may be exempt from consideration for alleviation.

5. Courses used in awarding an Associate Degree cannot be alleviated.

6. A student may be granted academic renewal only once and is irreversible once posted to the transcript.

7. Academic renewal by Fullerton College does not guarantee that other institutions outside the District will approve such action. This determination will be made by the respective transfer institutions.

8. Only substandard grades (D, F, NP) can be alleviated.
Application for Academic Renewal:
To apply for Academic Renewal, students must complete the petition form in the Admissions and Records Office. Official transcripts of all academic work (from all accredited schools) must be on file in the Admissions and Records Office at the time of request for Academic Renewal.

Recording of Academic Renewal:
When academic work is alleviated, grades are not removed. They are noted and subtracted from the grade point average. All entries remain legible so that a true and complete record is maintained. There is no assurance that alleviated courses will be treated similarly by other educational institutions outside the District.

Children on Campus
Children are not allowed on campus unless supervised by a parent or guardian. Children may not attend classes or computer labs (unless the course is specifically designed to include children). Children must be supervised so educational activities are not interrupted and may not be left unattended in common areas such as the library, student center, food services area, quad or college parking lots.

Drug-Free Environment
It is the policy of the North Orange County Community College District to provide a drug-free educational, employment, and business environment. The unlawful manufacture, distribution, dispensing, possession, or use of alcohol or any controlled substance is prohibited on District property during District-sponsored field trips, activities, or workshops, and in any facility or vehicle operated by the District. Any student who violates this policy will be subject to disciplinary action, which may include suspension, expulsion, and referral for prosecution. Information regarding the District's Drug-Free Environment Policy may be obtained by contacting the campus Office of the Vice President (714) 992-5386 or the Office of the District Director of Human Resources at (714) 808-4818.

Compliance for Students
The District intends to make every effort to provide and maintain a drug-free campus. Pursuant to the Drug-Free Schools and Communities Act Amendments of 1989, it is unlawful to manufacture, distribute, dispense, possess, use or sell illicit drugs and alcohol in all buildings, property, facilities, service areas and satellite centers of the District. All students are required to comply with this policy as a condition of their continued enrollment. Any student violating this policy will be subject to disciplinary action, including suspension, and up to expulsion.

Legal Sanctions Under Federal, State and Local Laws are available in the following locations:
1. Student Affairs Office, Building 200, Room 223
2. Campus Safety Department, 1500 Building

Alcohol/Drug Abuse Counseling, Treatment, Rehabilitation Information
Referral information and Social Service Directories for Orange, Los Angeles, and San Bernardino Counties are available for students in the College’s Student Health Center.

Electronic Devices
The use of radios, electronic recording devices, CD players, iPODs, or MP3 players without headphones is prohibited on campus except in connection with approved campus/classroom activities. NOTE: Electronic recording devices may not be used in classrooms without the permission of the instructor.

Grade Appeal Process
The College recognizes the legal right of faculty to set standards of performance and to apply them to individual students. Therefore, the instructor is the final authority in determining grades that are assigned to students and that appear in their permanent academic records. Students have a right to inquire how their grade was determined. Students have the right to have someone accompany them throughout the process. The following procedures apply to changes of grades except for changes of Incomplete (I) and Withdrawal (W) grades.

1. In general, all course grades are final when filed by the instructor in the end-of-term course grade report. Students have access to their end-of-term grades. These grades become a part of the official record.
2. Students have the right to formally appeal the final grade in a course. Students have the right to have someone accompany them throughout the process. As per California Education Code Section 476224(a), when grades are given for any course of instruction taught in a community college district, the grade given to each student shall be the grade determined by the instructor of the course and the determination of the student’s grade by the instructor, in the absence of mistakes, fraud, bad faith, or incompetency, shall be final. Appeals are limited to situations in which the student believes the grade is prejudicially, capriciously, or arbitrarily assigned.

3. A request for grade change should be initiated by the student within the next regular semester, but no later than two years, following the award of the original grade. If the instructor determines that there is a valid basis for the change, a Request for Grade Change form shall be completed by the instructor in the Admissions and Records Office.

4. If the instructor determines there is not a valid basis for the change and denies the student’s request, the student may proceed to the appeals process described below. Prior to being accepted by the Office of Admissions and Records, the Change of Grade form shall be completed and signed by the instructor, noting the basis for the change, and approved by the division dean.

Appeal form must be directed to the instructor of the course and a signed copy maintained by student. If further action is necessary, the student should present the written complaint to the Division Dean, and if necessary, the Vice President of Instruction. (Students are referred to the college’s Student Complaint Procedures as stated in the catalog and available at division offices.) Once the grade change request has entered the formal process, it cannot be resolved informally.

**Nondiscrimination Statement**

It is the policy of the North Orange County Community College District to provide an educational, employment, and business environment in which no person shall be unlawfully subjected to discrimination or sexual harassment, nor unlawfully denied full and equal access to the benefits of District programs or activities on the basis of ethnic group identification, national origin, religion, age, gender, race, color, ancestry, sexual orientation, marital status, or physical or mental disability as defined and prohibited by state and federal statutes. Any student who engages in unlawful discrimination or sexual harassment in violation of this policy will be subject to disciplinary action, which may include suspension or expulsion.

Students who believe they have been subjected to unlawful discrimination, including sexual harassment, or who seek information regarding the District’s Unlawful Discrimination Policy, should contact the Office of the District Director of Human Resources at (714) 808-4818 or the Office of Equity and Diversity at (714) 808-4819.

The following person is designated by the North Orange County Community College District as the Responsible Officer/Section 504 and Title IX Coordinator for receiving and coordinating the investigation of all unlawful discrimination complaints filed pursuant to section 59328 of Title 5 of the California Code of Regulations, and for coordinating compliance with section 504 of the Rehabilitation Act of 1973 and Title II of the Americans with Disabilities Act of 1990, Title IX of the Education Amendments of 1992, and response to discrimination complaints related thereto:

**Name:** Jeffrey O. Horsley  
**Position:** Vice Chancellor, Human Resources  
**Address:** 1830 W. Romneya Drive  
Anaheim, CA 92801-1819  
**Telephone:** (714) 808-4822

**Victims of Sexual Assault**

Students who are victims of sexual assault occurring on District property or on an off-campus site or facility maintained by the District, or who seek information or assistance regarding a sexual assault, should contact the campus Director of Health Services at (714) 992-7093 or the Director of Campus Public Safety at (714) 992-7080. Except as may otherwise be required by law, all inquiries will be maintained in confidence.

**Afirmación Sobre No Discriminación**

Las normas generales del North Orange County Community College District proveen un entorno educacional, laboral y comercial en el que ninguna persona es expuesta a la discriminación ni al acoso u hostigamiento sexual, como tampoco a ninguna vejación castigada por la ley, ni a negarse, contrario a la ley, acceso total y equitativo a los beneficios y actividades de los programas del Distrito, debido al grupo étnico al cual pertenece, nacionalidad de origen, religión, edad, género, raza, color, ancestros, inclinaciones sexuales, estado civil, o discapacidad física o mental, tal como lo definen y prohíben los estatutos estatales y federales. Todo estudiante que discrimine, accione u hostigue ilegalmente a otra persona, en contravención de las normas generales, quedará sujeto a que se tomen medidas disciplinarias contra esa persona, lo cual puede incluir suspensión o expulsión de este centro educacional.

Todo estudiante que crea ha sido objeto de discriminación ilícita, incluyendo acoso u hostigamiento, o que desee obtener información con respecto a las Normas Generales del Distrito sobre Discriminación Ilícita (Distrito’s Unlawful Discrimination Policy), debe comunicarse con la oficina del Director Distrital de Recursos Humanos (714) 808-4818 o la oficina de Equidad y Diversidad (714) 808-4819.
La persona que mencionamos más adelante, ha sido designada por el North Orange County Community College District, como el Funcionario Responsable/Coordinador de la Sección 504/Derecho IX, ante quien se debe presentar la información para coordinar la investigación de todas las quejas de discriminación ilegal interpuestas, conforme a lo estipulado en la sección 59328 del Derecho 5 de las Reglamentaciones del Código de California, y para coordinar el acatamiento de la Sección 504 del Decreto de Rehabilitación de 1973 y del Derecho II del Decreto de 1990 que ampara a los Americanos con Discapacidades, Derecho IX de las enmiendas de la educación de 1992, y responder a las quejas por discriminación relacionada:
Nombre: Jeffrey O. Horsley
Posición: Vice Chancellor, Human Resources
Dirección: 1830 W. Romneya Drive
Anaheim, CA 92801-1819
Teléfono: (714) 808-4822

Victimas del Acoso u Hostigamiento Sexual
Aquellos estudiantes que sean víctimas de asalto sexual dentro del predio del Distrito o en algún sitio fuera del terreno o establecimiento universitario, bajo la responsabilidad del Distrito, o que busque información o ayuda con respecto a un asalto sexual, debe comunicarse con el Director de Servicios de Salubridad, llamando al teléfono: (714) 992-7093, o con el Director de la Seguridad Pública del Terreno Universitario, llamando al (714) 992-7080. Excepto como de alguna otra manera lo exija la ley, toda pregunta e información se mantendrá en la más estricta confidencialidad.

Parking
All vehicles parking on campus must display a current parking permit or daily park-ur-self receipt on the lower driver side windshield facing outward with the number of the permit clearly visible. Daily parking permits are available from the yellow vending machines available in designated parking lots or at the Campus Safety Office.

Medical Parking
Purchase a student parking sticker at the time of registration. If you have a DMV placard, you must display both the placard and a student parking sticker. If you do not have a DMV placard, you need to bring your student parking sticker to the Campus Safety Office (Building 1500) along with a medical verification of your physical disability. They will assign you medical parking and provide you with information regarding where to park on campus.

Do not park in carpool slots or specially reserved spots. If you receive medical parking for a temporary physical disability, you will be required to provide a doctor’s note that includes exact dates. We encourage students to use alternate transportation methods — such as walking, riding bicycles to/from school, carpooling, or using public transportation — to reduce parking congestion and pollution and to help conserve energy. Skateboarding, skating and bike riding are prohibited on campus grounds.

Further parking information is available by contacting the Campus Safety Department at (714) 992-7080.

Petitions and Appeals
Petitions for extenuating circumstances and general appeals that relate to policies on admissions, readmission after academic dismissal, graduation requirements, grades and credit, repetition of courses, academic renewal, or withdrawals, etc., should be directed to the Admissions and Records Office. The Academic Standards Committee convenes monthly to review petitions.

Appeals Petition (Request to Exclude “D,” “F,” or “NP” Grades)
If a student previously received a “D,” “F,” “NC” or “NP” in a course taken at Fullerton College, and repeats the same course and earns a higher letter grade, the student may file an Appeals Petition (Request to Exclude “D,” “F,” “NC” or “NP” Grades). On repetition, the highest grade earned will count toward the grade point average and the remaining grade(s) will be discounted or forgiven. The student's permanent academic record will be annotated such that all course work that has been taken and forgiven or repeated will remain legible, insuring a true and complete academic history. The former grade(s) are not removed from the permanent record, but are noted and subtracted from the cumulative grade point average. (The college can provide no assurance that repeated courses will be treated in this way by other institutions.) This policy is retroactive and applies to identical courses taken at Fullerton College or at another regionally accredited college without any limitation as to the number of courses that can be repeated for this purpose. Appeals Petition (Request to exclude “D,” “F,” “NC” or “NP” Grades) can be obtained in the Admissions and Records Office.
Probation and Dismissal Policy

In accordance with State regulations, the following probation and dismissal policy has been established. The primary purpose is to assure that a student is making progress toward an educational objective and to alert the student and the student’s counselor to the possible need for additional counseling and/or special services.

Placement on Probation

A. **Academic Probation.** A student who has attempted at least 12 semester units at the college shall be placed on academic probation if the student has earned a cumulative grade point average below 2.0 in all units taken at the college.

B. **Progress Probation.** A student who has enrolled in a total of at least 12 semester units at the college shall be placed on progress probation when the student receives grades of “W,” “I,” or “NP” in a total of 50% or more of all units for which the student has enrolled at the college.

Removal from Probation

A. **Academic Probation.** A student shall be removed from academic probation when the student’s cumulative grade point average in all units completed at the College is 2.0 or higher.

B. **Progress Probation.** A student on progress probation shall be removed from probation when the percentage of units in the “W,” “I,” or “NP” category drops below 50% of all units for which the student has enrolled at the college.

Standards for Dismissal

A. **Academic Dismissal.** A student who has been placed on academic probation and earned a cumulative grade point average of 1.75 or lower in two consecutive semesters will be subject to scholastic dismissal.

B. **Progress Dismissal.** A student who has been placed on progress probation for two consecutive semesters shall be subject to scholastic dismissal.

For purposes of “A” and “B” above, consecutive semesters shall exclude the summer session. The college shall make a reasonable effort to notify a student who is subject to academic and progress dismissal no later than the start of the fall semester each year.

A student on probation who registers for the next term will be considered a “conditional registrant.” Students are notified by mail when placed on probation or dismissed. **Scholastic dismissal will be noted on the student’s transcript.**

Re-Admission

A continuing student who has been dismissed because of either poor academic achievement or poor progress may be considered for re-admission provided the student files a **Petition for Re-admission** at the Admissions and Records Office. Petitions for re-admission are available in the Admissions and Records Office. After the petition is reviewed by the Academic Standards Committee, the student will be notified by email of the decision.

A student who is readmitted will be placed on a probationary status and shall be required to maintain a cumulative grade point average greater than 1.75 and a semester grade point average of 2.00. Failure to maintain the required probationary grade point average after re-admission from dismissal may lead to permanent dismissal from the College. Please note: If student is placed on academic or progress probation, the student will be dismissed the next semester if he/she does not follow the guidelines for being removed from Probation as stated above.

Smoking on Campus

Fullerton College is a smoke-free campus. (NOCCCD AP 3570, based on Government Code 7697)

Standards of Student Conduct and Discipline Policy

The standards of student conduct and disciplinary action for violation of Board Policy 5500 were approved by the NOCCCD Board on January 28, 2003, were revised on October 23, 2007, and were drawn in compliance with Sections 66300, 66301, 760303, 76033, 76034 and 76036 of the State Education Code.

Students are expected to respect and obey civil and criminal law and shall be subject to the legal penalties for violation of the city, county, state, and national law(s).

Student conduct must conform to Board Policy and college regulations and procedures. As cited in BP5500, “A student who violates the standards of student conduct shall be subject to disciplinary action including, but not limited to, the removal, suspension or expulsion of the student.” Misconduct, which constitutes “good cause” for disciplinary action includes, but is not limited to, the following:

1. Disruptive behavior, willful disobedience, habitual profanity or vulgarity, the open and persistent defiance of the authority of, or persistent abuse of, District personnel, or violating the rights of other students.
2. Failure to identify oneself when requested to do so by District officials acting in the performance of their duties.

3. Cheating, plagiarism in connection with an academic program (including plagiarism in a student publication), or engaging in other academic dishonesty.

4. Dishonesty, forgery, alteration, or misuse of District documents, records, or identification, or knowingly furnishing false information to the District.

5. Misrepresentation of oneself or of an organization to be an agent of the District.

6. Causing, attempting to cause, or threatening to cause physical injury or physical or verbal abuse or any threat of force or violence, to the person, property, or family of any member of the college community, whether on or off District property as defined above.

7. Willful misconduct which results in injury or death to a student or to District personnel, or which results in the cutting, defacing, or other damage to any real or personal property of the District.

8. Unauthorized entry into, unauthorized use of, or misuse of property of the District.

9. Stealing or attempting to steal District property or private property on District premises, or knowingly receiving stolen District property or stolen private property on District premises.

10. Causing or attempting to cause damage to District property, or to private property on North Orange County Community College District.

11. Unlawful use, sale, possession, offer to sell, furnishing, or being under the influence of any controlled substance listed in the California Health and Safety Code, section 11053 et seq., an alcoholic beverage, or an intoxicant of any kind, or any poison classified as such by Schedule D in Section 4160 of the Business and Professions Code or other State law defining controlled substance while on District property, or at a District function; or unlawful possession of, or offering, arranging or negotiating the sale of any drug paraphernalia, as defined in the California Health and Safety Code, section 11014.5.

12. Willful or persistent smoking in any area where smoking has been prohibited by law or by regulation of the District.

13. Possession, sale, use, or otherwise furnishing of explosives, dangerous chemicals, deadly weapons or other dangerous object including, but not limited to, any facsimile firearm, knife or explosive on District property, or at a District function, without prior written authorization of the Chancellor, college president, School of Continuing Education Provost, or authorized designee.

14. Engaging in lewd, indecent, or obscene behavior on District property, or at a District function.

15. Violation of municipal, state, or federal laws in connection with attendance in programs or services offered by the District, or while on District property or at District-sponsored activities.

16. Soliciting or assisting another to do any act (including the purchasing, transporting or consumption of any controlled substance), while under the supervision of a District official, which would subject a student to expulsion, suspension, probation, or other discipline pursuant to this policy.

17. Attempting any act constituting cause for disciplinary action as identified in the above sections of this policy.

18. Committing sexual harassment as defined by law or by District policies and procedures.

19. Engaging in harassing or discriminatory behavior based on race, sex (i.e., gender), religion, age, national origin, disability, sexual orientation, or any other status protected by law.

20. Engaging in physical or verbal intimidation or harassment of such severity or persuasiveness as to have the purpose or effect of unreasonably interfering with a student’s academic performance, or District employee’s work performance, or of creating an intimidating, hostile or offensive educational or work environment.

21. Engaging in physical or verbal disruption of instructional or student services activities, administrative procedures, public service functions, authorized curricular or co-curricular activities or prevention of authorized guests from carrying out the purpose for which they are on District property.

22. Stalking, defined as a pattern of conduct by a student with intent to follow, alarm, or harass another person, and which causes that person to reasonably fear for his or her safety, and where the student has persisted in the pattern of conduct after the person has demanded that the student cease the pattern of conduct. Violation of a restraining order shall, without more, constitute stalking under this policy.

23. Persistent, serious misconduct where other means of correction have failed to bring about proper conduct or where the presence of the student causes a continuing danger to the physical safety of students or others.

24. Engaging in expression which is obscene, libelous, or slanderous according to current legal standards, or which so incites students as to create a clear and present danger of the commission of unlawful acts on District property, or the violation of the lawful administrative procedures of the District, or the substantial disruption of the orderly operation of the District.
25. Use of the District’s computer systems or electronic communication systems and services for any purpose prohibited by Administrative Procedure 3720, Computer & Electronic Communication Systems, or for any act constituting cause for disciplinary action as provided in this policy.

Furthermore, no student shall be suspended from a college or School of Continuing Education program or expelled unless the conduct for which the student is disciplined is related to college, School of Continuing Education or District activity or attendance. Any violation of law, ordinance, regulation or rule regulating, or pertaining to, the parking of vehicles, shall not be cause for removal, suspension, or expulsion of a student.

The Chancellor shall establish procedures for the imposition of discipline on students in accordance with the requirements for due process of law. The procedures shall identify potential disciplinary actions including, but not limited to, the removal, suspension or expulsion of a student.

The Chancellor shall establish procedures by which all students are informed of the rules and regulations governing student behavior.

Summary Suspension

When serious violations of college regulation or procedures occur as a result of inappropriate student conduct, the college shall take immediate action (summary suspension) to resolve the problem. The action may occur as follows:

1. Removal from Class — the involuntary removal of a student from class by an instructor for a maximum period of two consecutive class sessions.

2. Removal from Facility — the involuntary removal of a student by an administrator from a District or College facility, or facility under the control of the District or College for a maximum period of two consecutive days.

3. Withdrawal of Consent to Remain on Campus — withdrawal of consent by the President or the President’s designee for a student or other person to remain on a College campus in accordance with California Penal Code section 626.4 where the College President has reasonable cause to believe that the student has willfully disrupted the orderly operation of the campus.

Definitions:

1. Expulsion — The involuntary removal of a student from the District and all District programs for one or more terms, or permanently, by action of the Board of Trustees.

2. Formal Hearing — A hearing conducted before a hearing officer or hearing panel in accordance with administrative procedures during which the student and the District may call and examine witnesses and present documentary evidence.

3. Formal Complaint — This procedure is recommended for general serious or ongoing complaints or concerns regarding Fullerton College faculty, staff, services, instruction and/or classes. Any and all should be addressed as soon as the issue arises. Grade appeals follow the Grade Appeal Process. The student should refer to the Fullerton College Catalog for the specific processes for these exceptions: student-to-student conduct, grade appeal and sexual harassment.

4. Informal Hearing — A meeting between the student and the Student Discipline Officer or designee in accordance with administrative procedures to discuss the charges and provide the student with the opportunity to respond to the charges orally, or in writing.

5. Informal Complaint — Informal concerns of a non-serious nature may be reported to the appropriate Dean. Such complaints will be reviewed and considered; however, no formal response will be provided.

6. Suspension — The involuntary removal of a student for good cause from one or more classes or from the college by the President or designee for a limited period of time, which can be short-term or long-term suspension (up to ten consecutive days).

7. Removal from Class — The involuntary removal of a student from class by an Instructor for a maximum period of two consecutive class sessions.

8. Removal from Facility — The involuntary removal of a student by an administrator from a District or College facility, or facility under the control of the District or College, for a maximum period of two consecutive days.

9. Disciplinary Probation — A status between good standing and suspension or expulsion. It covers a stated trial period and disciplinary conditions required of the student. At the end of the trial period, it shall be determined, based on whether or not the probationary conditions have been met, if the student is to be returned to good standing, suspended, recommended for expulsion, or subject to other disciplinary action.

10. Loss of Privileges — Disciplinary action involving the loss of certain student privileges, such as eligibility to participate in extracurricular activities, for a stated period of time.
11. **Formal Reprimand** — Written admonition or warning to cease and desist from conduct that has been determined to violate the standards of student conduct. A formal reprimand becomes part of a student’s permanent record and is considered in the event of future violations of the standards of student conduct.

12. **Informal Reprimand** — An oral admonition or warning to cease and desist from conduct that has been determined to violate the standards of student conduct. A record of the fact that an informal reprimand has been issued may be retained as part of a student’s record for a period of up to one year and is considered in the event of future violations of the standards of student conduct during the period of retention. It is the student’s responsibility to request that the record be removed upon expiration of the period of retention.

13. **Withdrawal of Consent to Remain on Campus** — Withdrawal of consent by the President or the President’s designee for a student or other person to remain on a College campus in accordance with California Penal Code section 626.4 where the College President has reasonable cause to believe that the student has willfully disrupted the orderly operation of the campus.

**Procedures:**

**Informal**
The student shall resolve the issue directly with the faculty or staff member directly involved. If a student is uncomfortable speaking to the faculty or staff member, they have the right to have someone accompany them throughout the process.

**Formal**
1. It is the student’s responsibility to initiate the process. The college has a legal responsibility to deal directly with the student. Forms will be available in Division Offices.

2. Student should set up an appointment with the appropriate Dean or Director and submit the designated Complaint form.

3. If the student feels the issue is not resolved or if the complaint concerns the Dean or Director, the student can ultimately contact Fullerton College’s Vice President of Student Services or the Vice President of Instruction. Both offices are located on the first floor of the 100 building.

4. The student will be notified in writing after each formal step using the Student Complaint form available in Division Offices.

---

### Student Right-to-Know Act and Campus Security Act

Student Right-to-Know (SRTK) is a federally-mandated public disclosure of specific college-related information, as per the U.S. Code of Federal Regulations (CFR): Title 34 — Part 668. The following highlights are sub-sections of the two basic laws that mandate specific college information:

**CFR: Title 34 — Part 668.46: Information on Completion or Graduation Rates**

The college completion rates or graduation rates (including transfer rates and student athlete rates — Part 668.49) will be made accessible to the public. The rates are derived from yearly IPEDS — Graduation Rate Survey submissions and are currently coordinated through the California Community College Chancellor’s Office under the terms of the “Student Right-to-Know Subscription Agreement.” SRTK rates are based upon approximately three percent (3%) of the student population.

Public Law 101-542: The Higher Education Act of 1965 was amended via the current Student Right-to-Know and Campus Security Act through Public Laws 102-26, 102-208 and 102-325. The regulations require the college to disclose information about campus safety policies and procedures and certain crime statistics. The statistics are currently available in the Campus Safety Department.

**Publication Requirements**

It is mandatory that the statistics are made public by January 1st of each year (unless otherwise indicated) to all current and prospective students and high school counselors in the areas of admissions, literature, brochures, catalogs, and websites, or anytime a student enters into a financial obligation with a school (excluding application fees).

**Completion and Transfer Rates**

Over 1,350 students transfer annually from Fullerton College to UC, CSU or regionally-accredited California independent or out-of-state colleges or universities.

- Fullerton College sends approximately 85-90% of all transfers to California State University campuses. The top CSUs in terms of number of Fullerton College transfers are: Cal State Fullerton, Cal State Long Beach and Cal Poly Pomona.
- Fullerton College transfers students state wide. The top UCs in terms of number of Fullerton College transfers are: UC Irvine, UC Los Angeles, UC Riverside and UC Berkeley.
- Fullerton College is in the top five California Community Colleges in terms of overall transfers to the University of Southern California (USC) for Fall 2008.

Safety for the Fullerton College Community

The information is published in accordance with the Jeanne Clery Disclosure of Campus Safety Policy and Campus Crime Statistics Act.

Crime Reporting Procedures

Working together, campus safety at Fullerton College is everybody’s business. No community, of course, can be totally risk-free in today’s society. Students, faculty, staff and visitors are partners in creating an atmosphere that is safe and conducive to learning.

Fullerton College maintains a Campus Safety Department with personnel available 24 hours a day. A person may report any criminal action or any other emergency at any time — day or night — by calling (714) 992-7080 or by coming in person to the Campus Safety Department, located in Parking Lot C off Lemon Street at Fullerton College Drive. Emergency call boxes are located throughout the campus and will connect the caller directly to Campus Safety.

Access to Campus Facilities

BUILDINGS — Most campus buildings are open from 6:30 am to 10:30 pm, Monday through Friday. On weekends, opening of specific buildings is accomplished based upon scheduled use and/or special request. All Fullerton College students and staff members have been issued ID cards which they may be asked to produce if there is a question about their authorization to be in a specific area.

Individuals who need to be in campus buildings or areas other than during regularly-scheduled work hours should notify the Campus Safety Department of their presence and request permission and/or approval for necessary access.

Some campus rooms and areas may be protected by intrusion alarms. Before entering such areas, the Campus Safety Department should be called. Campus buildings will normally be locked from 11:00 pm on Friday to 6:30 am on Monday. As previously stated, Campus Safety personnel will unlock doors for weekend classes and other events as published in the Master Calendar located at www.fullcoll.edu under “Campus Calendar.”

COLLEGE PROPERTY — No district property may be removed from the campus without expressed written permission from the Division Dean or Area Supervisor. Unauthorized removal of district property from the campus is a violation of the law and may be prosecuted by the District.

Campus Safety Services

It is the policy of the North Orange County Community College District’s Board of Trustees to protect the members of the total college community and to protect the property of Fullerton College. Under the general direction of the Vice President of Student Services, the Campus Safety Department shall ensure that reasonable protection is provided by using methods that fit within and contribute to the educational philosophy and process of the institution.

Fullerton College has a formal memorandum of understanding with the Fullerton Police Department to request assistance for incidents that require resources not available at Fullerton College. The college will summon the assistance of other agencies to provide services for incidents that require special resources.

Crime Prevention

One of the essential ingredients of any successful crime prevention program is an informed public. It is the intent of Fullerton College to inform students and staff, in a timely manner, of any criminal activity or security problems which may pose a reasonable threat to their physical safety. Such information will normally be distributed to students through this document and through student publications. The Fullerton College Horset newspaper is the student publication. Staff are informed through in-house memos or bulletins and regularly-published newsletters.

Another critical element of a campus safety program is training. Campus Safety, Student Health Services, and the Student Affairs offices sponsor programs on various topics ranging from sexual assault awareness to substance abuse prevention.

Finally, all effective crime prevention programs include some measure of people watching out for one another. All staff and students are asked to be ALERT, SECURITY CONSCIOUS and INVOLVED. Call the Campus Safety Department at (714) 992-7343 whenever you see suspicious behavior.
Substance Abuse
In accordance with Public Law 101-226 “Drug-Free Schools and Communities Act Amendment of 1989,” the Board of Trustees of the North Orange County Community College District prohibits the unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees on Fullerton College property and as part of any Fullerton College sponsored or sanctioned activity.

Any students or employees in violation of this policy are subject to disciplinary action up to and including expulsion from Fullerton College or termination from employment for violations of the standards of conduct.

The decision to take disciplinary action in any instance rests with the Board of Trustees after consideration of the recommendations of the Fullerton College President.

The possession, use, and sale of alcoholic beverages by anyone on Fullerton College-controlled property is a misdemeanor as per California Business Code 25608 and a violation of the NOCCCD Policies Relating to Students. The use, sale, or possession of any illegal drug is a violation of State law and any person found in violation may be subject to arrest by Federal, State, local or Campus Safety personnel. Criminal prosecution is separate from any administrative discipline that may be imposed by the District.

Withholding Student Records

NOCCCD BOARD POLICY Section 5035 Student Personnel, Withholding Student Records, Adopted 6/14/05

Probable Cause: The President, or designee, may place a hold on a former or current student’s registration, grades and/or transcripts for a period of no more than three working days for probable cause. In the event that the President, or designee, continues this hold on a student’s records, the student must be informed in writing that such a hold is being placed on his/her record and the reason for that hold.

Financial Obligations: In accordance with Title 5, Subchapter 7.5, Section 59410, grades, transcripts, diplomas, and registration privileges, or any combination thereof, shall be withheld from any student or former student who has been provided with written notice that he or she has failed to pay a proper financial obligation due to the district or a college. Any item or items withheld shall be released when the student satisfactorily meets the financial obligation.

The definition of proper financial obligation shall include, but is not limited to: student fees; obligations incurred through the use of facilities, equipment or materials; library fines; unreturned library books; materials remaining improperly in the possession of the student; and/or any other unpaid obligation a student or former student owes to the District. A proper financial obligation does not include any unpaid obligation to a student organization.

A hold may be placed on a student’s academic record and subsequent term registration when the student has an outstanding obligation to the college. Once the student satisfies the obligation, the hold will be released.

Students must contact the respective office/department listed below to clear any hold:

Support Programs and Services

Academic Support Center (ASC)

800 Bldg (LLRC) — 1st Floor — (714) 992-7065 — academicsupport.fullcoll.edu

The Academic Support Center (ASC) provides free services to ALL Fullerton College students and staff in achieving academic success. The center is comprised of three related services: the Skills Center, the Tutoring Center, and the Writing Center.

Skills Center — (714) 992-7144
E-mail: skillscenter@fullcoll.edu
Website: www.skillscenter.fullcoll.edu

- Instructional support for individuals in study skills, vocabulary improvement and critical thinking.
- With instructor approval, administer make-up exams for any Fullerton College course.
- Instructional support for courses in reading, English-as-a-Second Language (ESL), foreign languages and writing. (Software, audio, and print materials available.)

Tutoring Center — (714) 992-7151
E-mail: tutoringcenter@fullcoll.edu
Website: www.tutoringcenter.fullcoll.edu

- Free tutoring for most college courses by faculty-recommended tutors
- Walk-in tutoring for accounting, chemistry, physics, math (Monday-Saturday)
- Inspiration software (for organizing ideas for any subject)
- Math Anxiety Workshop offered each semester
- E-mail tutoring in math and English through website: tutoringcenter.fullcoll.edu

Writing Center — (714) 992-7153
E-mail: writingcenter@fullcoll.edu
Website: www.writingcenter.fullcoll.edu

- Assistance with any academic writing project, including transfer letters and scholarship application essays, whether for class or personal use
- Tutoring writing projects at any stage from brainstorming to final draft
- Both walk-in and by-appointment tutoring
- Frequent workshops on a wide variety of topics related to academic writing
- Word Processing

Admissions and Records

2000 Bldg — (714) 992-7075 — www.admissions.fullcoll.edu

The Admissions and Records Office admits and registers all students; maintains, retrieves and distributes student records and transcripts; serves as the final evaluation of all graduation applications; reports attendance data to appropriate agencies; and provides information and supportive contracts to students, faculty, administrators, and the community.

Assessment/Orientation Center

500 Bldg, Rm 513 — (714) 992-7084 — staffwww.fullcoll.edu/gmenchaca

The Assessment/Orientation Center offers required assessment tests for enrollment in Math and English courses. No appointment is needed; come to the center during operating hours to complete your assessment. Upon completion of the assessment and orientation, new students will be scheduled for a group advising session.

Bookstore

2000 Bldg, 1st Floor — bookstore.fullcoll.edu

Offering all of the materials needed for Fullerton College students to succeed in their education, the Bookstore is located in the Student Services Building (2000) facing Chapman Avenue. A complete selection of the textbooks and course materials required or recommended by faculty is arranged in easy-to-locate fashion by department, course numbers and CRN. In addition, extensive classroom and office supplies, study aids, college clothing, giftware, software at education discounts, small electronics, books, magazines, and snacks are available. Through our new partnership with Apple, the Bookstore now carries iPods. During the semesters, the Bookstore is open Monday through Thursday 7:45 am to 7 pm, Friday 7:45 am to 3:45 pm, and some Saturdays 7:30 am to 2 pm. Special hours for breaks, holidays, rush periods, and inventory are posted in the Bookstore and available by phone at (714) 992-7008. Go to our website for online ordering!
Cadena Cultural Center
College Center, Room 212, 1st Floor — (714) 992-7086 — http://cadena.fullcoll.edu

The Cadena Cultural Center supports the core values of the college to elevate excellence in serving the needs of its diverse student population. The center strives to be an advocate and the nexus for the community to engage in conversations and action to enhancing multiculturalism at Fullerton College. The center offers students, faculty, and staff information about serving the needs of AB540, undocumented students, Lesbian/Gay/Bisexual/Transgendered/Queer/Intersexed/Questioning, as well as students from historically underrepresented groups such as African American, Native American, Latino/a, Asian/Pacific Islander, low income, and former foster youth. The entire college community is welcomed to attend and participate in the center activities and services.

Some activities and services offered through the Cadena Cultural Center include:

• Welcome services for AB540, LGBTQIQ, historically underrepresented students, low income, foster youth and first-in-their-family college students
• Host invited speakers to discuss issues of self-empowerment and ways to eradicate sexism, heterosexism, racism, ageism, bias regarding physical/mental ability, classism, monocultural ethnocentrism, religious discrimination, language discrimination, bias regarding immigrant status and other pertinent topics
• Resource library with books, listings of scholarships, internships, and off-campus opportunities that promote transfer
• Fieldtrips to local museums and cultural exchanges
• Cultural celebrations, recognitions, and honoring diversity in current events
• Collaborations with student clubs, campus committees, and community members that provide a space for active dialog on diversity issues and self-empowerment

CalWORKs
315 N. Pomona (west of campus between Whiting and Wilshire) — (714) 449-4792

The CalWORKs Program is designed for students who are receiving AFDC/Welfare. CalWORKs students are assigned to a CalWORKs Counselor who provides the guidance and support needed to meet both their academic goals and the requirements mandated by their County Social Worker. A team approach is used to advocate for student rights. Services include:

• Academic, career and personal counseling
• Child care grants for both on/off-campus child care providers
• Emergency assistance for bus passes, parking permits and books
• Referral to both on/off-campus resources for basic needs and emergency support services (housing, utilities, mental health, shelter, etc.)
• Collaboration with on-campus programs in order to ensure student needs are met (DSP&S; EOPS/CARE; Financial Aid; Skills Center, etc.)

In addition, students that are not currently receiving AFDC/Welfare, but may be in the process of applying, are encouraged to schedule an appointment with a CalWORKs Counselor prior to applying through their local County office. Students will secure an overview of the CalWORKs Program requirements. Students that have been sanctioned and want information regarding how to cure their sanction are also encouraged to contact our office. Office hours: Mon-Thurs, 8 am-5 pm.

CalWORKs Program Eligibility
• Parents as well as children must be receiving cash aid (i.e., parents who are no longer receiving cash aid and are only receiving cash aid for their children are not eligible);
• Must be able to provide proof of program eligibility via county documentation in order to receive CalWORKs program services;
• No unit minimum.

Campus Dining

Located in the College Center (200 Building), the Food Court offers several branded concepts including Grill 155, Ultimate Baja, La Vincita Pizza and Pasta, Stacks Deli, and grab-and-go items including chips, snacks, salads, sandwiches, beverages and school supplies. Hours during Fall/Spring semesters are Mon-Thurs (7 am-9 pm), Fri (7 am-2 pm), and Sat (7 am-2 pm). Summer and holiday hours are posted in advance.

Beverage and snack vending units are located throughout the campus for 24/7 availability.
CARE: Cooperative Agencies Resources for Education

2000 Bldg, 2nd Floor — (714) 992-7097 — eops.fullcoll.edu

CARE is an integral program of EOPS. It is designed to provide specific support services for single parent students who receive cash aid and are in the CalWORKS Program or deferred. Assistance is provided to ensure the opportunity for students to succeed and attain their educational goal. CARE offers the following services:

- Auto Repair Payment
- Book Grants (money for books)
- Bus Passes
- Child Care Referrals
- Educational Supplies
- Financial Aid Assistance
- Life, Career and Academic Planning
- Monthly Gas Cards
- Parenting Workshops
- Social Services Referrals
- Tutoring

Information on Eligibility

- 18 years of age or older
- Currently receive cash aid benefits
- EOPS eligible
- Have at least one child under fourteen years old
- Single head of household

Career and Life Planning Center

2000 Bldg, 2nd Floor — (714) 992-7121 — careercenter.fullcoll.edu

The Career and Life Planning Center provides students with a comprehensive approach to career/life planning and development including a variety of resources and services such as:

- Individual and group counseling
- Counseling to facilitate career exploration and career decision making
- Counseling for career/life transitions
- Occupational and educational information utilizing computerized/internet systems
- Career-related assessments tools
- Special workshops and courses for undecided and re-entry students
- Assistance with resumes, cover letters and applications
- Career research assistance
- Extensive research library of career reference materials

Child Development Center/ Lab School

The Fullerton College Child Development Center and Lab School provide high quality early childhood programs for preschool children ages 2½-5½. Teachers design the early care and learning programs to meet the developmental needs, interests and learning styles of the children. The center is licensed and holds accreditation from the National Association for the Education of Young Children. The Center serves families without regard to sex, race, religion, sexual preference or physical handicap.

In addition, The Child Development Lab School serves as a college classroom for students in the Child Development and Educational Studies Department. Teachers provide an environment that supports and promotes early care and learning through the creation of natural learning spaces where children can investigate, learn and develop.

The hours of operation are Monday through Friday from 7:30 am to 6:00 pm. The Center is open year round and follows the holiday schedule of Fullerton College. There are 2, 3 and 5 day enrollment options. The program is available to students, Fullerton College staff and the greater community. We provide the children with a nutritious breakfast, lunch and snack daily at no additional cost. Please call to visit, check availability and tuition rates or to be added to our waiting list. The Center offers free and reduced cost child-care services to eligible families.

The Child Development Center is a part of the Fullerton College Social Sciences Division and works in conjunction with the faculty of the Child Development and Educational Studies Department.
Counseling and Student Development
2000 Bldg, 2nd Floor — (714) 992-7084 — counseling.fullcoll.edu

The Fullerton College Counseling and Student Development Division provides services for students through the Counseling Center, the Counseling Resource Center, the Career and Life Planning Center, the Cadena/Transfer Center, the Assessment Center, Disability Support Services and the Workforce Center. In addition, the division provides student development counseling and guidance courses in College Study Skills, Career Development and Educational Planning. (See course offerings under Counseling.)

The center also provides on-line counseling. This is a web based e-mail service through the Fullerton College website for students to ask general counseling questions. This service is not intended to take the place of our in-person appointments, but rather as a resource for general questions.

The Counseling Center offers new, continuing and returning students individual appointments with counseling faculty to:

- Assist students in appropriate selection of math, English and basic skills courses
- Assist students in clarifying their career goals
- Assist students in preparing a Student Educational Planning Program (SEPP), which meets the requirements for college majors, career preparation and transfer to four-year colleges and universities
- Assist students in resolving concerns about life management issues
- Provide information on college policies and regulations
- Provide orientation and new student group advising
- Provide students with information on transfer, major preparation, and general education requirements
- Provide students with unofficial progress checks for certificates, associate degrees and transfer requirements
- Provide unofficial evaluations of other college transcripts
- Provide walk-in general information counseling

Disability Support Services
840 Bldg, Room 842 — (714) 992-7099 — dsp.fullcoll.edu

The Disability Support Services (DSS) office offers a variety of services for students with documented disabilities, including learning disabilities, visual, hearing and mobility impairments, psychological conditions, acquired brain injuries, and other medical disabilities. Services are provided in compliance with state and federal legislation.

Fullerton College’s Disability Support Services office supports students in achieving their educational goals by providing services which are above and beyond what is available to the general student population. The DSS staff is committed to providing services in a timely and effective manner.

Eligible students who have a verifiable disability qualify for support services through the DSS office. The services are designed to support students in the achievement of their academic and vocational goals. Reasonable accommodations are determined by the DSS counselor/specialist on an individual basis. Services and accommodations are based on the educational abilities and limitations unique to each student.

In order for you to receive services from DSS, you must:

1) Be currently enrolled as a Fullerton College student; and
2) Provide detailed documentation of your disability from an appropriate professional and/or participate in the learning disability assessment process through DSS.

What Services Are Provided?

- Test taking accommodations
- Specialized counseling
- New DSS student orientation
- Priority registration
- Alternate media
- Notetaking assistance
- Specialized tutoring
- Interpreting services
- Learning disability assessment
- Assistive and adaptive technologies
- Adaptive computer and learning strategies classes
EOPS: Extended Opportunities Program and Services

2000 Bldg, 2nd Floor — (714) 992-7097 — eops.fullcoll.edu

EOPS is a support services program designed to provide entry, retention and transition services for educationally and economically needy students. The support services are designed to assist and contribute to the student’s success in college.

Counseling Services

Experienced staff is available to assist students in adjusting to the college environment by providing information on campus policies, financial aid, scholarships, campus, and community referrals. The counseling staff is comprised of professional counselors and paraprofessionals. Professional counselors are available for guidance, assessment, academic, career and personal counseling. Paraprofessionals assist in class scheduling, registration and a variety of other services for the purpose of supporting student retention and successful transition to either employment or higher education.

Financial Aid Information

The EOPS Financial Aid specialist acts as the formal link between EOPS and the Financial Aid Office. The specialist provides assistance to students in applying for the various types of financial aid available and in completing the various financial aid forms. Assistance is available in the research and application for appropriate scholarships.

Information on Eligibility

The following eligibility criteria apply in order for a student to be considered for the EOPS Program:

- Completed less than 70 units (or 6 semesters) of college level coursework
- Educationally disadvantaged as determined by the EOPS Program
- Enrolled full time (12 units) when accepted by the EOPS Program
- Qualified to receive a Board of Governors Grant (BOGG)
- Resident of California

Outreach Services

This component provides prospective students with information and assistance on admissions and services available at Fullerton College. Efforts are focused on the local high school campuses and in the community to identify EOPS eligible students interested in Fullerton College. Prospective students are provided with college presentations, seminars and a College Preparation Conference.

Escort Service

Escort service is available daily, Monday through Friday. Call ext. 27343 on any campus phone or by dialing *81 on any campus phone or (714) 992-7343 on any cell phone. Emergency phones are strategically located throughout the campus.

Financial Aid

100 Bldg, Room 115 — (714) 992-7091 — financialaid.fullcoll.edu

PHILOSOPHY — In keeping with the open-door philosophy of Fullerton College, the Financial Aid Office endeavors to support the dignity and worth of each individual. The office is vitally concerned with the educational needs of all individuals in the community and recognizes that the specific needs for education vary among students. Students and their individual needs then become the chief focal point of the Financial Aid Office. Its goal is to provide monetary assistance to students who may benefit from higher education, but who cannot do so without financial assistance.

ELIGIBILITY — Specific eligibility requirements vary from program to program. Please contact the office or access the website for the various State aid programs. Basic Federal grant eligibility criteria are as follows:

- Demonstrates a financial need according to a recognized Federal system on need analysis
- Does not owe a repayment on any previously-received Federal grants
- Does not yet possess a Bachelor’s Degree
- Enrolled as a regular student in an eligible program
- Has no drug-related convictions while on Financial Aid
- Maintains satisfactory academic progress
- Males must be registered with the Selective Service Board
- May not be in default on any Perkins, Stafford, Plus or Direct Loan
- Possesses a high school diploma, GED certificate or passes a Federally-approved test
- Student must be an American citizen, or eligible non-citizen
- Working toward a degree or certificate program

Basic Loan eligibility criteria are:

- Demonstrates a financial need
- Enrolled in at least 6 units (half time)
- Maintains satisfactory progress
- Prior loan aggregate amounts are taken into account to determine loan eligibility
**Programs**

**FEDERAL PELL GRANT**
A grant from the Department of Education to students for educational expenses based on need.

**FEDERAL SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANT (SEOG)**
Designed to assist students who have exceptionally high financial need and are eligible for the Pell Grant.

**FEDERAL WORK-STUDY (FWS) PROGRAM**
Provides jobs for students who need financial aid and meet the need and eligibility requirements. FWS allows students to earn money to help pay for educational expenses. Must be enrolled at least half time.

**EXTENDED OPPORTUNITY PROGRAM AND SERVICES GRANT (EOPS)**
A state funded program, awarded to students from limited income families.

**SUBSIDIZED LOAN PROGRAM**
Provides students with low-interest loans (which are subsidized by the government as long as the student is enrolled at least half-time in college courses) for educational expenses. The interest rate may vary from year to year.

**UNSUBSIDIZED LOAN PROGRAM**
Provides loans for students who do not qualify, in whole or in part, for subsidized loans. Authorized under a federal law called the Higher Education Amendments of 1992, the terms of the unsubsidized loans are the same as the terms for subsidized loans, except the interest begins to accrue immediately, and can be paid quarterly or capitalized and paid at the end.

**CAL GRANTS**
To qualify for a State CAL GRANT A, B, or C, a student must be a California resident attending an eligible school or college in California, meet an early application deadline of March 2, and is based on GPA (as well as many other qualifying factors). A student can receive only one CAL GRANT, either CAL GRANT A, B, or C. (CAL GRANT A can only be received at a four-year institution.)

**GRANT ADVANCE FUND**
Students who have applied for Financial Aid, but won’t receive their funds in time to buy their books, can apply for a $400 advance to be deducted from their grant. Please note, student must meet grant eligibility requirements.

**BOARD OF GOVERNORS’ ENROLLMENT FEE WAIVER**
Provides three ways to help low-income students pay for the enrollment fee; eligibility requirements vary. This can be applied for online through the registration system.

---

**Pro-rata Refund Policy**
In accordance with the Higher Education Act of 1995 as amended, Fullerton College will apply a pro-rata refund policy to all eligible students. As described in the applicable section of the federal regulations, 34 CFR 668.22, pro-rata policy refunds will only be applied to students who completely withdraw on or before the 60% point of the semester. The 60% point of the semester at Fullerton College means the eleventh week in an 18-week semester.

A REFUND is defined as the unearned amount of institutional charges (i.e., books, supplies, living expenses, etc.) that must be returned to the student financial aid programs, other sources of aid or a student. A refund is the difference between the amount paid towards institutional charges and the amount the school may retain under the appropriate refund policy.

The refund period for full semester classes is the first two weeks of the semester, as cited in the Fullerton College catalog. After the second week, no refund can be made. For short term classes, refunds can be as early as the first or second day of classes. A $10 processing fee will be deducted once each semester.

A REPAYMENT is the unearned amount of a direct disbursement of financial aid funds to a student that must be paid back. If the school determines that the student received a direct disbursement in excess of the educational living expenses he or she could have reasonably incurred while still enrolled, then a portion of the disbursement was not earned and must be repaid by the student to the financial aid program.

**Application Procedure**
Students wishing to apply for financial aid should contact the Financial Aid Office as soon as possible. A single application form which is called a FAFSA ("Free Application for Federal Student Aid") is used for all financial aid. Students may access the website at www.fafsa.ed.gov. The application period for financial assistance for the 2009-2010 school year is January 1, 2009 through June 30, 2010. Priority funding will be awarded to those submitting completed files between April 1st and July 31st of each year.
Fullerton College Foundations

Fullerton College has two organizations designed to support Fullerton College and Fullerton College students through gifts and donations from the community.

1) Friends of Fullerton College, Inc. — a non-profit public benefit corporation established to assist Fullerton College in achieving and maintaining exceptional educational programs by soliciting, receiving and distributing gifts, grants and contributions from a broad base of the public in order to financially support programs and projects that benefit the college and its students. Donations are accepted in the Fullerton College Bursar’s Office located on the first floor of the 2000 Building, across the street from the main campus. For questions about giving, please visit http://fcfoundation, or contact (714) 992-7006.

2) Fullerton College Foundation, Inc. — currently has more than 100 scholarships established to benefit students. Students wishing to apply for a scholarship or loan, or anyone wishing to make a donation to support student scholarships should go to http://fullertoncollegescholarships.com or call (714) 526-5651.

Health Services

1200 Bldg, Room 1204 — (714) 992-7093 — http://healthservices.fullcoll.edu

The Health Center provides health care and personal counseling to the students of Fullerton College. The Health Center is open from 8:30 am to 5:30 pm Monday through Thursday and 8:30 am to 4:00 pm on Friday during the Fall and Spring terms. The summer schedule is variable. The mandatory health fee (payable at the time of registration) includes the following services:

- **Clinical Medicine** — Physician and nurse-practitioner consultation by appointment, diagnosis and treatment is free of charge. Clinical laboratory testing*, radiology referral and follow-up*, medications and/or prescriptions*, minor surgery*, referral to community hospitals/specialist.
  *Available at low cost for students
- **Crisis Intervention and Personal Counseling** — Individual consultation with a licensed psychologist based on crisis intervention model. Referrals available to private and community health agencies.
- **Health Care** — Health/wellness counseling, screening for immediate or follow-up care, emergency care for illness, first aid for traumatic injuries, hearing appraisals, maintenance of health records, accident reporting, health education, referral to community agencies. A student accident insurance plan* is maintained by Health Services.
  *Deductibles and limitations apply

Your Health Fees at Work

Student Health Services provide all of the services you find in a routine medical clinic. Most of the services such as a visit to the physician, nurse practitioner, RN, psychologist, or health educator are at no cost to you. Laboratory tests, immunizations, medications, pelvic exams and employment or wellness exams are provided at very low fees. HOURS: Nurses are available from 8:30 am - 5:30 pm Monday through Thursday and from 8:30 am - 4:00 pm on Friday. Physicians, Nurse Practitioners, Health Educator, and Psychologists by appointment.

Housing

The College does not have a student housing facility. A list of housing available to students is posted in the College Center, 2nd Floor, Room 223. Included is information on rentals, rooms for rent, apartments for rent, roommates wanted, roommates available, and brochures.

International Student Center

College Center — Room 220, 2nd Floor (714) 992-7078 — http://isc.fullcoll.edu

isc@fullcoll.edu

The International Student Center (ISC) provides services to international students on the F-1 student visa and those seeking an F-1 student visa. The ISC is a full-service office dedicated to supporting international students both academically and personally. International students benefit from specialized and individual attention. Services and programs include:

- International admissions (new, transfer, and change of status students)
- Academic counseling
- Immigration advising
- New Student Orientation and Welcome Week activities
- Housing and American host family resources
- Employment authorization and resources
- Cultural activities and social events
- California Cousins Mentor Program

More information on the F-1 student visa can be found at http://educationusa.state.gov.
Library Services (LLRC)

800 Bldg (LLRC) — (714) 992-7039 — library.fullcoll.edu

The Library (LLRC) assists students, faculty, and staff to attain their educational and informational goals in a supportive library environment. The library offers traditional services such as a large circulating book and audiovisual collection, periodicals, interlibrary loan service, reserve materials and reference and research assistance. Technology has been incorporated into the library’s services, available both on campus and off campus via the library’s website. These include the library catalog, online databases for periodicals and in-depth subject resources, as well as Internet searching and documentation assistance.

In the library building itself, the staff is on duty to assist students with their research needs. There are computers with Internet connections for student research use, as well as email express and word processing capabilities. In addition, there are Internet connections for laptop computers. Adaptive workstations are available to assist persons with disabilities in accessing information. All computers have printing available for a fee. Four coin-operated photocopy machines are also available for student use.

Library Instruction Sessions are offered throughout the semester to assist students wishing to learn to use the online catalog and periodical databases, to upgrade their Internet skills, and to learn bibliographic citation formats needed for research papers.

Library Hours: Mon-Thurs, 7:30 am-9 pm — Fridays, 7:30 am-4 pm — Saturdays, 10 am-3 pm

Math Lab

The Fullerton College Mathematics Lab located in the LLRC has been in continuous operation since 1967. It provides services in a supportive environment where students enrolled in MATH 004 F, 006 F, 015 F, 020 F, 030 F, 040 F, 141 F and 142 F can achieve their mathematical goals through various supplemental support services specific to their textbooks and instructors. The Lab offers individual tutoring, CD and DVD lectures, computer tutorials, online homework programs, individual and group study locations, a location for make-up quizzes and tests, and access to textbooks. During the first week of classes each semester, students visit the Math Lab and receive class orientations explaining the services offered. Student attendance is required and is tracked electronically when students scan in and out of the lab using their student ID cards.

Puente Project

2000 Bldg, 2nd Floor — (714) 992-7084 — http://puente.fullcoll.edu

The Puente Project is an Academic Preparation Program that for more than 25 years has improved the college-prep rate of tens of thousands of California’s educationally disadvantaged students. Its mission is to increase the number of educationally disadvantaged students who:

- Enroll in four year colleges and universities
- Earn college degrees
- Return to the community as mentors and leaders of future generations

Students are guaranteed English and Counseling courses, receive one-to-one counseling, mentoring, social events, college field trips and networking.

ROTC

Through arrangements with local universities, reserved officer training is available to students of Fullerton College. For more details concerning concurrent enrollment, scholarships, requirements and opportunities with the three branches of the armed services, contact the following:

Air Force ROTC
Loyola Marymount, Los Angeles 310-338-2770

Army ROTC
California State University, Fullerton 657-278-5545

Navy ROTC
University of California, Los Angeles 310-794-9425
Service Learning

College Center, 2nd Floor, Room 225 — (714) 992-7067 —
http://specialprograms.fullcoll.edu

Service Learning provides the opportunity for students to connect the classroom to the community. The real-world experiences result in active, enhanced learning, civic engagement, commitment to helping others and helping provide solutions regarding issues that affect the community and world.

TAP: Transfer Achievement Program

College Center, 2nd Floor, Room 225 — (714) 992-7084 —
tap.fullcoll.edu

The Transfer Achievement Program (TAP) is a comprehensive program designed to encourage and support students in their goal of transferring to a four-year university. Some of the benefits of the program include:

- guaranteed classes
- additional personal and academic support from instructors, counselors, and peer facilitators
- opportunities to develop a peer support system
- classes in college success and career and life planning
- opportunities to visit leading universities

Transfer Center

College Center, Room 212, 1st Floor — (714) 992-7086 —
http://transfer.fullcoll.edu

The Transfer Center is a dynamic campus resource available to all Fullerton College students to help you stay motivated, excited, and prepared to transfer to a four-year university. There are many steps to transfer, from college exploration to college selection, major exploration to major preparation, not to mention the entire application process. The center provides services to help you explore, prepare, and succeed in your transfer plans. The Transfer Center can help you every step of the way! Services and activities include the following:

- Field trips to explore college campuses in the local area such as UCLA, Cal State Fullerton, Long Beach State University, UC Irvine, and USC
- Catalogs from four-year universities in the CSU/UC system, as well as private and out-of-state schools
- Walk-in transfer advising, counseling, and assistance
- University representative contact information including email and telephone numbers to receive individual transfer admission information
- Computer stations with Internet access to access www.ASSIST.org, college applications, FAFSA, college exploration, webinars, email admissions representatives
- Monthly e-newsletter for students interested in up-to-the-minute transfer information
- Financial aid and scholarship information
- Guide to Majors sheets
- Appointments with visiting representatives from four-year colleges and universities
- Transfer application assistance i.e. application deadlines, personal statement review and preparation
- Workshops on transfer planning for UC/CSU/Private/Out-of-state, Women’s Colleges, Historically Black Colleges and Universities
- College fairs with over 20 colleges and universities taking place three to four times a year

Teacher Preparation — Center for Careers in Education (CCE)

College Center, 2nd Floor, Room 225 — (714) 992-7067 —
http://teacherprep.fullcoll.edu

The Center for Careers in Education (CCE) helps prepare students to become effective teachers in a profession that is in need of trained, diverse individuals. It offers resources and services to help students reach their career goal through participation in teacher preparation “apple” courses, early field work experiences, an integrated teacher preparation program with Cal State University Fullerton, Club Teach, specialized academic advisement/counseling, and CBEST test preparation workshops.

Veterans’ Services

700 Bldg, Room 712 — (714) 732-5279 —
Veterans@fullcoll.edu

Veterans, service members, and their survivors and dependents may apply for their VA Educational Benefit Programs through the Office of Financial Aid and Veterans Services.

VA students must complete and submit a REQUEST FOR ENROLLMENT CERTIFICATION form for each semester in order to collect their benefits. An advance payment of their benefits may be obtained, if eligible, by submitting their REQUEST form at least 30 days prior to the start of the enrollment period to be certified. Also, all veterans must submit a SEPP (Student Education Program Plan) form for each semester that they wish to be certified, which can be obtained from their academic counselor.
VA students must submit all of their official prior postsecondary transcripts (civilian) to be evaluated along with their second REQUEST form, and declare a program (major) for them to be evaluated. Military credit will be applied upon application for graduation.

Fullerton College, as required by federal regulation and DVA policy, conducts an evaluation of all VA students’ prior postsecondary education, experience and training (civilian and military) before certifying their third enrollment period. Also, as required, Fullerton College grants the appropriate credit, shortening their training period proportionately, and notifies the DVA and these students the amount of credit allowed towards their declared program.

Unless otherwise notified, all programs (majors) in this catalog are approved for the training of VA students. Transfer programs are approved contingent upon Fullerton College having current articulation agreements with the universities offering the transfer programs. Contact the Cadena/Transfer Center for Fullerton College’s approved transfer programs.

VA students cannot be certified if their cumulative grade point average (overall GPA) remains below 2.00 for two successive certified enrollment periods. Once their overall GPA is 2.00 or above, their subsequent enrollment periods can then be certified.

**Workforce Center**

2000 Bidg — Room 2002 — (714) 992-7136 — workforce.fullcoll.edu

The Workforce Center’s goal is to educate students on the skills, attitudes, and experiences required to succeed in the workplace. We provide up-to-date information on employment opportunities, job-seeking techniques, employability skills, and business etiquette. The Center offers job placement services and resources to currently-enrolled students and alumni (within two years after graduation). The Center provides:

- Daily postings of full-time, part-time, temporary and seasonal employment opportunities
- Individualized assistance with resume and cover letter writing
- Mock interviews and interview techniques
- On-line resume, cover letter, and interview preparation and practice (password required)
- Workshops to improve employment skills
- Free resume faxing
- Resource materials on relevant job search and business etiquette topics
- Job Fairs each semester which connects hundreds of employers with FC students
- Computers to assist with job search

Students must register each school year by presenting their current student ID or a driver’s license and class printout.
Student Activities

Associated Students

College Center — Room 222, 2nd Floor — (714) 992-7118 — studentwww.fullcoll.edu/as

Since virtually all major decisions that are made on the Fullerton College campus affect students in some way, student input to the various decision-making bodies has become increasingly relevant, necessary, and welcomed. The Associated Students Senate is the recognized “student voice” in the shared governance process of the campus community.

Associated Students (A.S.) consists of elected and appointed members including the Associated Students President, Vice President, Treasurer, Senators, Commissioners, Senate Members, and Inter-Club Council (I.C.C.) President. The Student Trustee may also attend and report at the Associated Students Senate meetings. A.S. elections are held in the fall for the current year and in the spring for the following year.

Associated Students Senate holds business meetings every Tuesday at 1:30 pm in Room 227, College Center, 2nd Floor. All students and guests are welcome to attend.

Associated Students and Inter-Club Council provide a comprehensive student activities and club program. Events are planned with sufficient variety and provide an opportunity for all to participate.

Inter-Club Council meetings are every other Monday at 1:30 pm in Room 227, College Center, 2nd Floor. All students and guests are welcome to attend.

Check the Associated Students Office (Room 222, College Center, 2nd Floor) or the Student Affairs Office (Room 223, College Center, 2nd Floor) for times and locations of all other A.S. and I.C.C. club meetings.

Associated Students Legal Clinic

The Associated Students Legal Clinic attorney assists Fullerton College students, staff and senior citizens with legal concerns. This free service is provided by the Associated Students. For an appointment, call (714) 992-7118.

Associated Students Validation

Associated Students Benefits Validation — $7.50 (per semester; Summer Benefits Validation — $3.75).

A Fullerton College Campus Photo Identification Card, properly validated by the Associated Students, shall allow students to receive a wide variety of valuable activities and services. (Validation sticker may be purchased during registration, at the Bursar’s Office or in Student Affairs (Room 223, College Center, 2nd Floor). For more information on services and benefits offered, please see “Student Affairs and Activities.” NOTE: Services are always subject to change.

- A.S./Campus radio station — pending
- Art shows and displays
- Campus publicity and handouts
- CareBank — Emergency Assistance
- Child care services
- Day-to-day business operations of the Associated Students offices
- Free Legal assistance
- Fullerton College Bookstore discounts
- Instructional Funding
- Inter-Club Council
- Membership in any Associated Students funded club/organization (does not include clubs not choosing to be funded)
- Music group activities — bands, choirs, ensembles
- Out-of-class learning programs — e.g., workshops, seminars, symposiums, trips
- Participation in the Campus newspaper and other student publications (beyond the basic class requirements)
- Pep Band
- Pep Squad
- State and regional student representation
- Student banquet, awards, and recognition programs
- Student Body (A.S.) elections
- Student Center improvements
- Student Government — A.S. Senate membership
- Student research and effort toward improving Food Services, Bookstore services, bus service and parking facilities, instructor accountability, environmental clean-up
The following benefits are also provided for A.S. Cardholders:

- Discounted admission to all FC Mainstage Theatre events
- Discounted admission to all FC music and art events
- Discounts for up to 80 local businesses
- Discounts to local areas of entertainment, theatres and amusements
- Free admission (or discounts) to all FC A.S. sponsored events including, food event days, Homecoming activities, comedy shows, Festival of Diversity, college hours, educational programs, cultural events, and more
- Free admission to all Home and Away FC athletic events (excluding tournaments)
- Fullerton College “FC Days” discount tickets
- Fullerton College Bookstore discounts

Associated Students — Benefits

- Discounts at 60-70 local businesses (detailed listing in the A.S. Student Handbook and Academic Planner)
- Discounts to local entertainment areas and amusements (membership cards available in Student Center, Room 214)
- Free A.S. Student Handbook and Academic Planner
- Free admission (or discounted) at Fullerton College Music and Art events
- Free admission (or discounted) to all Fullerton College A.S. sponsored events including food event days, Homecoming activities, comedy shows, Festival of Diversity, college hours, educational programs, cultural events and more
- Free admission (or discounted) to all Fullerton College Mainstage Theatre events
- Free admission (or discounted) to all home Fullerton College athletic events (excluding tournaments)
- Fullerton College “FC Days” discounts on ticket sales for a variety of amusements ($2/per ticket service charge savings)
- Fullerton College “FC Days” discounts on tickets sales for AMC and Edwards/Regal Cinema
- Fullerton College Bookstore discounts (as listed in the A.S. Student Handbook and Academic Planner)
- Fullerton College Cosmetology discounts (as listed in the A.S. Student Handbook and Academic Planner)
- Photocopy service discount in Student Center (Services subject to change)

Services Offered and/or Supported by the Associated Students for all Students

- “FC Days” discount tickets
- A.S. CareBank — emergency assistance
- A.S. co-sponsorship funding
- A.S. Legal Clinic — free legal assistance
- A.S. Radio Station — pending
- Art shows and displays
- Athletics
- Campus newspaper and other student publications (beyond the basic class requirements)
- Campus Photo Identification Cards

Athletics

History and Tradition

Fullerton College has fielded athletic teams since the founding of the College in 1913. In the more than ninety years since then, the College has developed an overall sports and intercollegiate athletic program that ranks with the very best in nationwide community college circles.

Nicknamed the “Hornets,” Fullerton College teams have won more than their share of conference, state, and national championships in a variety of sports. Winning teams have become a tradition at Fullerton in both men’s and women’s sports.

Community support for intercollegiate athletics at Fullerton has been outstanding. The caliber of coaching, the quality of uniforms and equipment, the training and medical facilities, and the opportunity to play against good competition are superior. Every year scores of Fullerton College graduates are offered scholarships to complete their education and athletic careers at four-year colleges and universities throughout the country.
Athletic Conference Membership

Fullerton College is a member of the Southern California Football Association. Other association members include: Bakersfield, Canyons, Cerritos, Chaffey, Citrus, College of the Desert, El Camino, Glendale, Grossmont, Hancock, Long Beach, Moor Park, Mt. Sac, Orange Coast, Palomar, Pasadena, Riverside, Saddleback, Santa Ana and Ventura. The Southern California Football Association consists of two divisions: American and National. Fullerton is in the Southern Conference of the National Division along with Grossmont, Long Beach, Orange Coast, Palomar, Saddleback and Santa Ana. Competition will be against teams in the National Division along with teams from the American Division.

Fullerton College is a member of the Orange Empire Conference in the following sports: Men's and Women's basketball, baseball, cross country, soccer, swimming, tennis, track and field, water polo; Women's fast pitch softball, volleyball, golf, and badminton. Members in the Orange Empire Conference consist of Cypress, Fullerton, Irvine, Golden West, Orange Coast, Riverside, Saddleback, Santa Ana, and Santiago Canyon. Conference competition is offered in nine sports for men and eleven sports for women. Each team plays a full schedule of non-conference, as well as conference games, in each sport. Each sport's season concludes with state tournament competition for teams and individuals that have won conference championships.

Athletic Eligibility Rules

Both men's and women's athletics are governed by uniform eligibility rules adopted by the California Community College Commission on Athletics.

In general, eligibility rules require that all candidates for a team be enrolled in and pass twelve or more units through the semester of competition. Of the 12 credit units, at least nine shall be attempted in courses counting towards the associate degree, remediation, transfer, and/or certification as defined by the college catalog, and are consistent with the student athlete's educational plan. A full-time student returning for his second season of competition must have 1) passed a minimum of 24 units between seasons of that sport, 2) achieved a 2.00 GPA, and 3) an educational plan on file. A student's previous academic record in college does not apply to the student trying out for the first time for an intercollegiate sport.

Students transferring to Fullerton College from another California community college who competed in athletics at that college must complete twelve or more units at Fullerton before gaining athletic eligibility at Fullerton.

Any prospective student athlete with questions about his or her eligibility for sports is advised to confer with the Athletic Directors or with the athletic academic advisor.

Intercollegiate Athletics for Men

Sports in which Fullerton College fields teams for men include baseball, basketball, cross country, football, soccer, swimming, tennis, track and field, and water polo. Winning is a tradition as teams participate in Mission and Orange Empire Conferences.

Intercollegiate Athletics for Women

Women's teams at Fullerton College include badminton, basketball, cross country, golf, softball, soccer, swimming, tennis, track and field, volleyball, and water polo. These teams excel in the Orange Empire Conference.

Aid to Athletes

Athletic scholarships, grants-in-aid, and special inducements or privileges for athletes do not exist at Fullerton College in accordance with State rules governing community college athletics. Student athletes are attracted to Fullerton College for its excellent educational opportunities, its tradition for winning teams, the outstanding coaching staff, and the opportunity to participate and compete as freshmen and sophomores on a level that often leads to athletic scholarship offers from four-year colleges after graduation from Fullerton.

The college provides the student athlete with uniforms and equipment, meals, lodging, travel expenses on team trips, and banquets and awards concluding the season. The college maintains a placement office as a service to any student seeking part-time or full-time employment.

Pep Squad

In the Spring of each year, open-competition tryouts are held to select a Pep Squad and dance team from incoming first-semester students and returning sophomores. The Pep Squad members rehearse during the summer in preparation for performances at school athletic events and events in a variety of local and national performances. These performances, as well as enrollment in PE 179 F Pep Squad Training, are mandatory. For information, contact the Physical Education/Athletics Division at (714) 992-7383.

Admission to Athletic Events

Student athletes are given a pair of general admission tickets for use by their parents or friends for each home game in which they are listed to play. For sports in which the student athlete is not a team member, he/she will be admitted free to all scheduled athletic events played at home.

Gate receipts from the intercollegiate athletic program, including facility rentals, are used to help offset the cost of the athletic program.
Campus Photo Identification Card

Services that require a Campus Photo ID Card are the Library, Academic Support Center, labs in the Fine Arts Division, Financial Aid, Bookstore to make purchases by check or charge, Bursar’s to obtain refunds, to pick-up financial aid checks and other areas where needed. Campus ID Cards are the preferred source of photo identification when setting up campus lab accounts. The Campus ID Card is purchased for $2.50 only once during a student's tenure at Fullerton College. A current semester validation sticker should be obtained each term. A current semester printout and valid photo ID must be shown to obtain the Campus ID Card and/or validations(s). If you do not have a valid photo ID, you may receive verification in A&R, bring your birth certificate, or obtain a driver’s license/photo ID from your nearest DMV. A free A.S. Student Handbook and Academic Planner will be provided as available.

Honor Societies

Alpha Gamma Sigma

Alpha Gamma Sigma, California Community College Scholarship Honor Society, was founded in 1926 through the efforts of William T. Boyce, then Dean of the College. Among the first to be chartered, the college’s chapter is designated Epsilon.

Permanent membership in Alpha Gamma Sigma is awarded to students who meet either of the following criteria:

1. Cumulative 3.25 GPA or higher with 60 units completed (30 units at Fullerton College) and active membership in Alpha Gamma Sigma for two (2) or more semesters; or,

2. Cumulative 3.50 GPA or higher with 60 units completed (30 units at Fullerton College) with one (1) semester of active membership in Alpha Gamma Sigma.

Students may pick up an application for permanent membership in the Student Affairs Office. See section on Honors for Scholarship.

Phi Theta Kappa

Phi Theta Kappa International Honor Society is the national scholastic honor organization for community colleges. In order to achieve Life Membership in Phi Theta Kappa International Honor Society, a student must have completed at least 12 hours of coursework leading to a degree and maintain a 3.25 GPA. For more information, contact Student Affairs (Building 1409).

Men and Women of Distinction

Each year the Student Affairs Office, through the assistance of a campus wide committee, selects up to 15 “Women of Distinction” and a “Woman of the Year” and up to 15 “Men of Distinction” and a “Man of the Year.” During this awards program, the top 30 students are honored for their outstanding achievement in such diverse fields as music, communications, theater, intercollegiate athletics, club activities, student government, individual service to the college and or community, and outstanding scholarship within a given department. Additionally, two outstanding service awards shall be granted to one Man of Distinction finalist and one Woman of Distinction finalist from the Associated Students.

The Awards Program is held in the spring and represents the highest honor a student may receive while at Fullerton College. The Women of Distinction receive honorary membership in Alpha Gamma Eta, and the Men of Distinction receive honorary membership in Mu Omicron Delta.

For more information, contact the Student Affairs Office, Room 223, College Center, 2nd Floor, (714) 992-7095.

Student Affairs

College Center — Room 223, 2nd Floor — (714) 992-7095 — stuaff.fullcoll.edu

The office of Student Affairs provides leadership opportunities and practical learning experiences beyond the classroom. Student Affairs provides “hands on” experiences which complement students’ educational, personal and professional goals, thus enhancing student success. Through a warm and welcoming atmosphere, Student Affairs offers meaningful opportunities for campus and community involvement, recognition of student achievement and a variety of specialized services of benefit to the campus community. Additionally, Student Affairs is a major catalyst of college information and direction regarding procedures and events.

Information regarding campus events scheduling, student rights, student government, clubs and organizations, student discounts, “FC Days” ticket sales and a wide variety of programs, including Commencement and Men and Women of Distinction are coordinated by the Student Affairs staff. Literature to be distributed must be approved by the Director of Student Affairs. Hours vary; please check with the office.
Student Center

College Center, Room 214, 1st Floor — (714) 992-7118

The office of Student Affairs provides leadership opportunities and practical learning experiences beyond the classroom. The focus of student life at Fullerton College is located at the College Center.

The College Center contains the following:

- International Student Center (Room 220)
- Associated Students — Student Government Offices (Room 223)
- Cadena/Transfer Center (Room 212)
- Student Affairs Offices (Room 223)
- Student Center Lounge (Room 214)
- Workforce Center (Bldg 2000, Room 2002)
- Club Room (Room 223)
- Facilities for Meetings and Events

The Student Center Lounge allows students to play video games, shoot pool, watch big screen TV, study or just relax with friends. The Student Center Lounge is open from 8:00 am to 8:00 pm Monday through Thursday, and 8:00 am–2:00 pm on Fridays. Campus Photo ID Cards are produced and validated in the Student Center Lounge during specific hours. NOTE: Hours are always subject to change.

Announcements are posted in this complex concerning student housing, transportation, student activities, club activities, general information of interest to students, upcoming events and many other services available to students and staff.

Student Offices —
Eligibility Requirements

Student leadership is recognized as a most important facet of decision-making at Fullerton College whether it be for planning Associated Student projects or participation with administrators and faculty in overall college development. It is important to the student body, the college and the individual student that student leaders do satisfactory work in their courses of study and are able to carry sufficient units to be true representatives of their constituents. There are three phases to be considered for establishing and maintaining one’s eligibility. They are:

I. Previous School Record
II. The Semester of Candidacy
III. The Semester While In Office

To review the minimum eligibility requirements, please contact the Office of Student Affairs (714) 992-7248, or visit the Student Affairs website: stuaff.fullcoll.edu.

Student Publications

The Hornet newspaper, an award-winning publication, is published weekly by journalism students. The newspaper is entirely written, edited, designed and desk-top published by students. Photographs, illustrations, graphs, and cartoons, which appear in the newspaper, are all student efforts. Students also sell and design advertising.

The Torch Magazine is published each semester by journalism students. All phases of magazine production — writing, editing, layout/design, and photography, line illustration and advertising, are accomplished by students. Articles and photos combine to publicize the positive aspects of Fullerton College. The magazine is used on and off campus as an informative, marketing tool.

The Hornet has won many state and national awards, including the Gold Crown, the top national honor presented by Columbia University’s Scholastic Press Association, as well as honors from the Journalism Association of Community Colleges (JACC).

Torch Magazine has also received numerous awards from the JACC for outstanding journalism.
Academic Requirements

Catalog Rights

Students who have maintained continuous enrollment have the option of completing the program requirements in effect at the time they first enrolled at Fullerton College or any subsequent catalog year, up to and including the semester in which the program requirements were completed.

These rights are maintained through continuous enrollment. Continuous enrollment is defined as being enrolled at Fullerton College for at least one class in every academic year of sufficient duration as to receive a letter grade on a transcript.

General Education

Statement of Philosophy

General Education Requirements at Fullerton College are designed to introduce students to the variety of means through which people comprehend the modern world. They reflect the conviction of this College that those who receive their degrees must possess in common certain basic principles, concepts, and methodologies both unique to and shared by the various disciplines. College-educated persons should be able to use this knowledge when evaluating and appreciating the physical environment, the culture, and the society in which they live. Most importantly, these requirements should lead to better self-understanding and active involvement in examining values inherent in proposed solutions to major social problems.

The subject matter presented in General Education courses at Fullerton College is designed to be general, broad, and frequently introductory rather than specialized, narrow, or advanced. These General Education courses form a pattern of learning experiences designed to provide educational opportunities that:

1. Offer instruction and training in the scientific method of problem solving while gaining knowledge in the biological, physical, and environmental sciences.

2. Provide an atmosphere for the understanding of self and the desire to pursue self-development through the use of the social, political, economic, historical, and behavioral components of human interaction.

3. Foster an appreciation of the cultural heritage as illustrated in language, literature, philosophy, and fine arts.

4. Develop reading, writing, speaking, listening, analytical thinking, mathematics, and computational and technical skills necessary for the acquisition and use of knowledge.

Mathematics Proficiency Testing

Students who have previously attained an Associate’s Degree where MATH 040 F or equivalent was not required, and who wish to complete general education requirements for an Associate’s Degree at Fullerton College, must either successfully complete MATH 040 F, or score at an appropriate level on the Fullerton College Compass Math Placement Test within the last two years.

Students who have previously attained a degree whose mathematics requirement has no equivalent at Fullerton College may have the mathematics requirement waived by scoring at an appropriate level on the Fullerton College Compass Math Placement Test.

In either case, no units are given for passing the proficiency exam, no units are posted to the student’s permanent record, nor is the total number of units required to complete the AA or AS degree lowered. If mathematics proficiency is granted under the guidelines, three additional units from Areas A, B, C, or D are needed to meet the 24-unit minimum general education requirement. In addition, students who satisfy the General Education Area B, B2 category requirement by the proficiency examination are still required to satisfy the 60-unit requirement for graduation.

The Compass Math Test may be taken only once in an attempt to waive the graduation requirement. Students wishing to take this examination should contact the Assessment/Orientation Center.

Graduation

To participate in the current year’s commencement ceremony, students must apply for graduation before the deadline posted in the current class schedule. Applications for graduation are available online or in the Admissions and Records Office and the Counseling Center.

If a student has taken courses at other colleges, official transcripts from all colleges must be on file in the Admissions and Records Office prior to graduation evaluation.

A maximum of 9 upper division units can be counted as elective units. Units will not be counted toward the major. Grades from upper division courses will not be used when calculating the GPA.

Commencement exercises are held each year at the end of the Spring semester. Detailed information about the ceremony will be sent to all graduation candidates in early May. Diplomas are mailed approximately three months after graduation.
# ASSOCIATE DEGREE GENERAL EDUCATION REQUIREMENT

## FULLERTON COLLEGE 2009 - 2010

### COUNSELOR ADVISING FORM

Twenty-four (24) units total minimum requirement - Three (3) units in each of the following eight (8) sub-categories.

**NOTE:** This list does not meet the requirements for UC or CSU transfer.

New courses for 2009-2010 are listed in **Bold**.

Legend:  
- **C** = Completed;  
- **IP** = In Progress;  
- **R** = Remaining

### GRADUATION REQUIREMENTS FOR ASSOCIATE DEGREE

1. Completion of 18 or more units of specified course work in a major with a “C” or higher (see catalog for major course requirements).
2. Completion of 24 units of general education as shown above OR 39 units as stipulated by the CSU General Education Certification requirements OR 37-39 units as stipulated by the IGETC requirements. Courses appearing in more than one Area may only be counted in one Area.
3. Completion of **one unit of physical education activity** class; or PE 243 F or PE 266 F.
4. Completion of the **Multicultural requirement** (see reverse).
5. Completion of the **Reading requirement** (see reverse).
6. Completion of additional units will be necessary in order to meet the total of at least 60 degree applicable units required for graduation. An overall grade point average of 2.0 (or better) is required.

“**Equivalent Disclaimer**” – Courses taken at another college must be equivalent to courses offered at Fullerton College.
### ASSOCIATE DEGREE GENERAL EDUCATION REQUIREMENT

#### FULLERTON COLLEGE 2009 - 2010

**Multicultural Education Requirement**
Beginning Fall Semester 1996, to meet this requirement, every student must complete one course from the following:

- **AJ 278 F** Multicultural Issues in Administration of Justice
- **ANTH 102 F** or Cultural Anthropology
- **ANTH 102HF** Honors Cultural Anthropology *(beg F 06)*
- **ANTH 105 F** Language and Culture *(beg F 99)*
- **ANTH 107 F** The Anthropology of Magic, Witchcraft and Religion
- **BUS 131 F** International Business *(beg F 98)*
- **BUS 242 F** International Business Law
- **CDES 110 F** Anti-Bias Perspective Seminar
- **CDES 201 F** Child in Home and Community *(beg F 99)*
- **CRTV 126AF** World Cinema to 1945 *(beg F 00)*
- **CRTV 126BF** World Cinema 1946 to the Present *(beg F 00)*
- **DANC 210 F** Multicultural Dance in the U.S. Today *(beg F 03)*
- **ENGL 218 F** California Writers *(beg F 01)*
- **ENGL 224 F** World Literature through the Early Modern Period
- **ENGL 225 F** World Literature since the Early Modern Period
- **ENGL 239 F** Survey of Children's Literature *(beg F 97)*
- **ENGL 243 F** or Folklore and Mythology
- **ENGL 243 HF** Honors Folklore and Mythology *(beg F 06)*
- **ENGL 247 F** Voices of America: Studies in Multicultural Literature
- **ETHS 101 F** American Ethnic Studies
- **FASH 244 F** Ethnic Costume
- **FOOD 130 F** Cultural Aspects of Food
- **GEOG 100 F** or Global Geography
- **GEOG 100HF** Honors Global Geography *(beg F 97)*
- **GEOG 160 F** Cultural Geography
- **HIST 110 F** or Western Civilization I *(beg F 00)*
- **HIST 110HF** Honors Western Civilization I *(beg F 06)*
- **HIST 111 F** or Western Civilization II *(beg F 00)*
- **HIST 111HF** Honors Western Civilization II *(beg F 06)*
- **HIST 112 F** or World Civilizations I *(beg F 99)*
- **HIST 112HF** Honors World Civilizations I *(beg F 99)*
- **HIST 113 F** or World Civilizations II *(beg F 99)*
- **HIST 113HF** Honors World Civilizations II *(beg F 99)*
- **HIST 270 F** History of Women in the United States *(beg F 02)*
- **MKT 205 F** Multicultural Marketing in USA *(beg F 03)*
- **PE 250 F** Sport and the United States Society *(beg F 99)*
- **PHIL 105 F** or World Religions *(beg F 98)*
- **PHIL 105HF** Honors World Religions *(beg F 98)*
- **PHIL 270 F** Introduction to Asian Religions *(beg F 98)*
- **PSY 131 F** Cross-Cultural Psychology *(beg F 03)*
- **PSY 145 F** Child Psychology *(beg F 97)*
- **SOC 101 F** or Introduction to Sociology
- **SOC 101HF** Honors Introduction to Sociology *(beg F 03)*
- **SOC 102 F** Social Problems *(beg F 99)*
- **SPAN 206 F** Introduction to Latin American Literature *(beg F 03)*
- **SPCH 120 F** Intercultural Communication
- **THEA 108 F** Multicultural Perspectives in American Theatre *(beg F 03)*

*A student may use the Multicultural Education course listed above to also meet a major or general education requirement for the Associate degree.*

**Reading Graduation Requirement**
Proficiency in reading may be satisfied by one of the following:

1. A satisfactory score on the reading component of the placement test or a reading proficiency test approved by the Reading Department;

2. A passing grade in READ 096 F (formerly READ 056BF), READ 142 F, any course in the IGETC (1B) or CSU (A3) Critical Thinking category; OR

3. A passing grade in ESL 185 F.

### GRADUATION REQUIREMENT FOR ASSOCIATE OF SCIENCE DEGREE

1. Completion of 27 units of specified core work in the major with a grade of "C" or better (see reverse side).
2. Completion of 24 units of general education as shown above (note this is different from the standard AA/AS degree general education list for other majors at Fullerton College) OR 39 units as stipulated by the CSU General Education Certification requirements OR 37-39 units as stipulated by the IGETC requirements. Courses appearing in more than one Area may only be counted in one Area.
3. Completion of one (1) unit of physical education activity; or PE 243 F or PE 266 F. The exception for 21 year-olds no longer applies.
4. Completion of the Multicultural requirement - this can also count as a GE course (see below).
5. Completion of MATH 040 F or higher satisfies the Math graduation requirement.
6. Completion of additional units will be needed to meet the total of at least 60 degree applicable units required for graduation. An overall GPA of 2.0 (or better) is required.

#### Multicultural Education Requirement

Every student must complete the Multicultural Education Requirement to graduate with an AS degree. Refer to the current college catalog for courses that meet this requirement. Note: You may use the same course to meet both the Multicultural and a general education requirement as long as the course is also on the above General Education list for the Paralegal AS degree.

For example, SOC 101 F meets both the Multicultural and a GE requirement for D2.

#### Reading Requirement

Test into Reading 142 F on the Fullerton College placement test or a reading test approved by the Reading Department OR a passing grade in Reading 096 F, Reading 142 F, any course in IGETC/CSU Critical Thinking Category, or ESL 185 F.
PARALEGAL STUDIES 2009 - 2010

**Associate of Science (AS) Degree**

An ABA-approved curriculum leading to an ASSOCIATE OF SCIENCE (AS) DEGREE and entry-level employment in a paraprofessional capacity as an assistant to an attorney in private practice, in a governmental agency, or in private industry. This degree requires 27 units, of which 18 are in required courses. An additional 9 units must be chosen from the restrictive electives listed below. A minimum grade of "C" is required in all required and restrictive elective courses. Paralegals may perform many tasks under the supervision of a licensed attorney including preparation of forms and pleadings, interviewing clients, researching and writing legal documents, managing in a law office, and preparing word processing forms and documents. This program is not intended to prepare students for the practice of law. The Paralegal Studies program is approved by the American Bar Association (ABA).

**Paralegal Studies Certificate**

PARALEGAL STUDIES CERTIFICATE requires the completion of 30 units of which 18 are in the required courses below. An additional 12 units must be chosen from the restricted electives listed below. A minimum grade of "C" is required in each course. At least half of the units must be completed at Fullerton College. (Students must also possess an AA, BA or higher degree from a regionally accredited college.) All students with an associate degree must have their transcripts evaluated for General Education requirements as listed in the GE requirements for an AS in Paralegal Studies.

Because we are an American Bar Association approved program, students who wish to transfer Paralegal Studies units earned at another regionally accredited institution into the Fullerton College Paralegal Program may only transfer in a maximum of six (6) Restrictive Electives, and must obtain prior permission from the Paralegal Department Coordinator or the Business Division Dean.

**Required Courses**

(15 – 18 units; 15 units for students prior to Fall ’06, 18 units for students beginning Fall ’06)

- PLEG 101 F: Introduction to Paralegal Studies (3)
- PLEG 104 F: Introduction to Legal Research and Legal Terminology (3) (formerly PLE G 103 F)
- PLEG 105 F*: Introduction to Legal Writing (3) (formerly PLE G 102 F)
- PLEG 116 F: Computers in the Law Office I (3)
- PLEG 201 F*: Civil Litigation I (3)
- PLEG 202 F*: Civil Litigation II (3)

**Restrictive Electives**

(Take any 9–12 units; 9 units for students beginning Fall ’06, 12 units for students prior to Fall ’06)

- PLEG 090 F: Contemporary Issues in the Law (1-3)
- PLEG 203 F*: Personal Injury (3)
- PLEG 204 F*: Family Law (3)
- PLEG 205 F*: Probate, Wills, and Trusts (3)
- PLEG 206 F*: Bankruptcy Law and Procedure (3)
- PLEG 207 F*: Computer Assisted Legal Research (3)
- PLEG 208 F*: Worker's Compensation Law (3)
- PLEG 209 F*: Criminal Law and Procedure (3)
- PLEG 210 F*: Internship Paralegal Studies (1-4)
- PLEG 211 F*: Real Property Law and Procedure (3)
- PLEG 212 F*: Medical Records Analysis for the Paralegal (1.5)
- PLEG 213 F*: Employment and Labor Law (3)
- PLEG 214 F*: Contract Law Procedure (3)
- PLEG 215 F*: Discovery in the Electronic Age (3)
- PLEG 216 F: Computers in the Law Office II (3)
- PLEG 217 F*: Immigration Law (3)
- PLEG 218 F: Entertainment and Sports Law (3)
- PLEG 219 F*: Intellectual Property (3)
- PLEG 220 F*: Elder Law (1.5)
- PLEG 225 F: Law Office Management (3)

**Recommended Electives**

- BUS 241AF: Business Law (3)
- CIS 100 F or: Introduction to Personal Computer Applications (3) or
- CIS 101 F: Integrated Software Applications for Windows (Microsoft Works) (3)
- WP 020 F or: Word Processing (Word for Windows – Beginning) (1.5) or
- WP 021 F: Word Processing (Word for Windows – Advanced) (1.5) or
- WP 023 F or: Word Processing (WordPerfect for Windows – Beginning) (1.5) or
- WP 024 F: Word Processing (WordPerfect for Windows – Advanced) (1.5)

* Requires completion of prerequisites before enrollment.

Students will have to demonstrate keyboard proficiency of 45 words per minute. Testing will occur in the Business Division office.

The Paralegal Studies major requires restricted general education.

See the reverse side of this sheet for a list of the general education courses approved by the ABA.

Paralegal Counselors: Meisenhelder / Beilke / Almodóvar-Solé Revised 05/09 (Lee/Moon)
** Program plan will depend on placement test results. This program could be adjusted. **

**(1)** Upon successful completion of prerequisites: ENGL 100 F, PLEG 101 F, & PLEG 104 F.

**(2)** Upon successful completion of prerequisites: PLEG 101 F, PLEG 104 F, PLEG 105 F, PLEG 116, ENGL 100 F, with a grade of a ‘C’ or better.

**NOTE:** - Students must have a minimum of 30 units for the certificate.
- Students will have to demonstrate keyboard proficiency of 45 words per minute. Testing will occur in the Business Division office.
Graduation Requirements

The Associate in Arts or the Associate in Science degree will be granted upon the completion of 60 degree applicable units of work and fulfillment of the following specific requirements:

1. Scholarship Requirement
   A cumulative grade-point average of 2.00 ("C") in all coursework attempted.

2. Residence Requirement
   a. A minimum of 24 units accumulated during two or more semesters must be completed at Fullerton College; or
   b. The last 12 units prior to awarding the degree must be completed at Fullerton College.

3. Major Requirement
   a. A student must achieve a grade of "C" or better in each course attempted that is counted for the major or area of emphasis.

4. General Education Requirements
   a. 24 units as stipulated by the Fullerton College graduation requirements — a minimum of three (3) units in each of the eight (8) sub-categories; or
   b. 39 units as stipulated by the CSU general education certification requirements; or
   c. 37-39 units as stipulated by the IGETC (Intersegmental General Education Transfer Curriculum) requirements.
   d. Courses appearing in more than one area may only be counted in one area.
   NOTE: General Education courses taken at either Fullerton or Cypress College will satisfy Associate Degree General Education Graduation requirements regardless of the college within the District from which he/she graduates.

5. Physical Education Requirement
   a. One unit of Physical Education Activity; or
   b. Completion of PE 243 F Stress Management through Physical Activity; or PE 266 F Physical Fitness as a Life-long Concept.

6. Multicultural Education Requirement
   Beginning Fall Semester 1996, to meet this requirement every student must complete one course from the following list:

   AJ 278 F, ANTH 102 F or ANTH 102HF (Beg F 06), ANTH 105 F (Beg F 99), ANTH 107 F, BUS 131 F (Beg F 98), BUS 242 F, CDES 110 F, CDES 201 F (Beg F 99), CRTV 126AF (Beg F 00), CRTV 126BF (Beg F 00), DANC 210 F (Beg F 03), ENGL 218 F (Beg F 01), ENGL 224 F, ENGL 225 F, ENGL 239 F (Beg F 97), ENGL 243 F or ENGL 243HF (Beg F 06), ENGL 247 F, ETHS 101 F, FASH 244 F, FOOD 130 F, GEOG 100 F or GEOG 100HF (Beg F 97), GEOG 160 F, HIST 110 F (Beg F 00) or HIST 110HF (Beg F 06), HIST 111 F (Beg F 00) or HIST 111HF (Beg F 06), HIST 112 F (Beg F 99) or HIST 112HF (Beg F 99), HIST 113 F (Beg F 99) or HIST 113HF (Beg F 99), HIST 270 F (Beg F 02), MKT 205 F (Beg F 03), PE 250 F (Beg F 99), PHIL 105 F (Beg F 98) or PHIL 105HF (Beg F 98), PHIL 270 F (Beg F 98), PSY 131 F (Beg F 03), PSY 145 F (Beg F 97), SOC 101 F or SOC 101HF (Beg F 03), SOC 102 F (Beg F 99), SPAN 206 F (Beg F 03), SPCH 120 F, THEA 108 F (Beg F 03)

   A student may use the Multicultural courses listed above to also meet a major or general education requirement for the Associate Degree. All students graduating after the year 2001 (beginning 2002) will be required to complete the Multicultural graduation component, no matter how their previous catalog rights were defined.

7. Reading Requirement
   Beginning Fall 1997, students must satisfy the following reading proficiency requirement. Proficiency in reading may be satisfied by one of the following:

   a. A satisfactory score on the reading component of the placement test or a reading proficiency test approved by the Reading Department or
   b. A passing grade in READ 096 F OR READ 142F OR any course in the IGETC (1B) or CSU (A3) critical thinking category OR ESL 185 F.

   All students graduating after the year 2002 (beginning 2003) will be required to complete the reading requirement, regardless of how their previous catalog rights were defined.
Multiple Associate Degrees

1. Students may earn an Associate Degree from Fullerton College after having received a baccalaureate degree or an associate degree from another accredited US institution (under one of the following regional institutional accrediting organizations: MSA, NASC, NCA, NWCCU, NEASC-CIHE, SACS, WASC) upon completion of the following:

   a) a minimum of 12 units in residence (in any subject area unless there are residency requirements for the specific major, see major requirements in the Fullerton College Catalog for details),
   b) all requirements in the major field of study, and
   c) general education and graduation requirements for which equivalents have not been completed.

2. Students may earn more than one Associate Degree from Fullerton College upon completion of the following:

   a) at least 12 units unique to each degree are earned in residence (in any subject area unless there are residency requirements for the specific major, see major requirements in the Fullerton College Catalog for details),
   b) all major requirements for each degree to be earned, and
   c) all general education and graduation requirements.

Each Associate’s Degree from Fullerton College will be awarded on a separate diploma.

Effective for Fall 2007 and thereafter, grades of “C” or better are required for all courses to be counted towards a major (students with “Ds” in major courses who were admitted prior to Fall 07 and continuously enrolled each year since should consult a counselor about catalog rights).
Transferability of Courses

Community colleges, including Fullerton, offer curriculums paralleling the first two years of Bachelor's degree programs as well as those preparing for employment at the completion of the A.A./A.S. degree. These categories are not mutually exclusive, however, as many courses included in occupational programs are also transferable to four-year colleges. For this and other reasons the definition of a transfer course is somewhat complicated.

First it needs to be said that each four-year institution decides for itself on the acceptance of courses from other colleges. In general, the policy, whether liberal or restrictive, will apply equally to entrants from community colleges and from other four-year colleges with two exceptions. All four-year colleges impose a ceiling (between 60 and 70 units) on the acceptance of community college credit, and all recognize that community colleges offer remedial and vocational courses usually not intended for transfer.

In this context a community college course can be “transferable” in any one of the following ways:

1. As meeting lower-division requirements in the major. To be accepted for this purpose, the course must correspond almost exactly to the comparable course at the four-year college in content, prerequisites, and unit value.

2. As applying to general education requirements. Some four-year institutions are fairly flexible in accepting courses for this purpose, provided they are in the proper category; e.g. physical science, social science, fine arts. In many cases, however, the institution will accept only courses paralleling its own lower-division offerings. A special case here is the 39-unit block of general education which a community college certifies to the California State University System. In this case any course listed for this purpose by the community college will be accepted by any California State University as applicable to the 39-unit block, provided the applicable category (natural science, social science, humanities, basic subjects) has been completed and the student has requested general education certification on transcript request.

3. As elective credit. A course not acceptable as part of a major, support for the major, or as general education may be accepted as elective credit. This signifies that it will apply to the total-unit requirement for the Bachelor’s degree. Four-year institutions are generally liberal in accepting courses for elective credit, but almost certainly will exclude avowedly vocational courses or specialized courses which they do not offer.

4. For subject credit only. Acceptance of a course for subject credit only, without unit credit, usually takes place in one of the following situations:
   a. The student has accumulated as many units as the four-year college will accept from a community college.
   b. The corresponding course in the four-year college is upper-division.
   c. The course is a prerequisite for a course in the student’s major, but the prerequisite is normally completed in high school.

In summary, then, the question of whether a course is transferable can be accurately answered only with reference to a particular four-year college and the purpose for which the course will be used. Checking the four-year college catalog in the Fullerton College Counseling Resource Center or the Cadena/Transfer Center as well as consultation with a counselor are recommended. A counselor can give you up-to-date information.

Transfer Courses for the California State University

The campuses of the California State University system have agreed to accept, for the purposes of determining eligibility for upper-division transfer status, those courses classified by each community college as transferable. See “Announcement of Courses” section for transfer number and designation of course information.

It should be noted that acceptance of these courses by a CSU campus does not signify that they will necessarily be applied to the requirements of a particular major or to general education requirements. Courses may be accepted as electives only toward the Bachelor’s degree. Students should consult a counselor for information on major requirements and the following pages for courses applicable to CSU and UC general education requirements.
General Education Breadth Requirements for College and University

THE INFORMATION CONTAINED IN THIS SECTION OF THE CATALOG IS CORRECT TO THE BEST OF OUR KNOWLEDGE AT THE TIME OF PRINTING. IT IS STRONGLY RECOMMENDED THAT STUDENTS CONSULT WITH A COUNSELOR BEFORE MAKING FINAL ACADEMIC/ VOCATIONAL DECISIONS. FOR TRANSFER INFORMATION REGARDING SPECIFIC SCHOOLS OR PROGRAMS, EITHER A FULLERTON COLLEGE COUNSELOR OR THE COLLEGE OR UNIVERSITY IN QUESTION CAN BE CONSULTED FOR MORE DETAILED INFORMATION.

General Education Certification

Fullerton College is authorized to offer two general education certification patterns. The CSU Certification is a 39 unit pattern which fulfills the lower division general education requirements for the Bachelor Degree at the California State University.

The IGETC (Intersegmental General Education Transfer Curriculum) is a 37-39 unit pattern which fulfills the lower division general education requirements for the Bachelor Degree at either the University of California or the California State University.

Certification means Fullerton College has determined these requirements have been met and a notation is made on the transcript. If the student transfers without certification, the university may require the student to complete additional lower division general education.

There are no catalog rights for certification. A course must be on the appropriate general education list at the time it is successfully completed.

Important Note: Selecting a general education plan is an issue that must be planned carefully. Certification is not always advantageous to all students. It is critical that all students planning to transfer to a university seek guidance from an academic counselor. Students not seeking guidance may complete inappropriate courses, thus complicating or delaying transfer to the university.

Students who complete either general education certification requirements need to request an evaluation to be included with the transcript when it is sent to the university. (Refer to Transcript of Record for additional information.)

California State University and University of California Campus Specific General Education/Breadth Requirements

There are several ways that a transfer student may fulfill the CSU and UC lower-division general education requirements prior to transfer. Depending on a student's major and field of interest, the student may find it better to take courses fulfilling those of the transfer campus or college to which the student plans to transfer. Students pursuing majors that require extensive lower-division preparation may not find the Intersegmental General Education Transfer Curriculum or the CSU General Education Certification option to be advantageous.

Students are urged to consult the CSU or UC campus catalog; consult with their FC academic counselor; and use the FC Counseling Resource Center or the Cadena/Transfer Center to obtain additional information regarding CSU and UC campus specific transfer general education course patterns and lists.

California State University Transfer Admission Requirements

Students who did not meet the CSU Admission eligibility index in high school may qualify for admission as a transfer student with a grade point average of 2.00 (“C”) or better in all college transferable units attempted. They must also be in good standing at the last college or university attended, have 60 or more semester units, and meet the following:

1. 1987 or earlier high school graduates: complete the CSU general education requirements in communication in the English language (at least 9 semester units) and mathematics (usually 3 semester units), with a “C” or better in each course;

2. 1988 and later high school graduates: complete a minimum of 30 semester (45 quarter) units, with a “C” or better in each course, to be chosen from courses in English, arts and humanities, social science, science, and mathematics of at least equivalent level to courses that meet general education or transfer curriculum requirements. You must complete all CSU general education requirements in communication in the English language (at least 9 semester units) and mathematics (usually 3-4 semester units) as part of the 30 unit requirement.
## California State University General Education Requirements

**Fullerton College — 2009-2010**

**Legend:**
- **C** = Completed;
- **IP** = In Progress;
- **R** = Remaining

### Area A: English Language Communication and Critical Thinking (9 units)

One 3 unit course required from each section. Grades of "C" or better are required.

1. **Oral:** SPCH 100 F, 105 F, 124 F, 135 F*
2. **Written:** ENGL 100 F or 100HF
3. **Critical Thinking:** ENGL 103 F or 103HF, 104 F, 201 F; PHIL 170 F, 172 F; READ 142 F; SPCH 135 F*

### Area B: Scientific Inquiry and Quantitative Reasoning (9 units min.)

One course is required from each section. One matching lab must be included for Physical Science or Life Science if lecture and lab are taken separately. **Note:** Some colleges may require two lab courses if student is not fully certified.

1. **Physical Science:**
   - CHEM 100 F, 101 F, 103 F, 107 F, 111AF, 111BF
   - ESC 100 F, 101 F, 103 F, 104 F, 105 F, 116 F, 120 F, 130 F or 130HF, 190 F
   - GEOG 102 F
   - PHSC 102 F, 103AF (beg Spr 07), 103BF (beg Spr 07)
   - PHYS 130 F, 205 F, 206 F, 210 F, 211 F, 221 F, 222 F, 223 F

2. **Life Science:**
   - ANAT 231 F, 240 F
   - ANTH 101 F or 101HF
   - ENVS 105 F, 126 F
   - HORT 152 F, 205 F, 207 F
   - MICR 220 F, 262 F

3. **Laboratory Activity:** ANTH 101LF; BIOL 102LF; ESC 100LF, 101LF, 116LF, 130LF; ENVS 105LF; GEOG 102LF
   - Underlined courses from Area B.1 and B.2 also satisfy the Area B.3 Laboratory requirement.

4. **Mathematics/Quantitative Reasoning:** (Grade of "C" or better required).
   - MATH 100 F, 120 F or 120HF, 129 F, 130 F, 141 F, 142 F, 150AF, 150BF, 171 F, 172 F, 250AF, 250BF
   - PSY 161 F
   - SOSC 120 F, 121 F

### Area C: Arts and Humanities (9 units min.)

At least one course is required from section 1 and section 2.

1. **Art:**
   - CRVT 120 F, 121 F, 126AF, 126BF, 131 F
   - DANC 101 F, 120 F, 210 F
   - ENGL 208 F
   - PHOT 100 F, 101 F
   - THEA 100 F, 104 F, 105 F, 127 F, 196HF

2. **Engl:**
   - ETHS 130 F* (beg F 02)
   - Foreign Language 101 F or 101HF, 102 F or 102HF, 201 F, 203 F, 204 F, 205 F, 206 F, 207 F
   - HIST 110HF*, 111HF*, 112 F* (beg F 02) or 112HF*, 113 F* (beg F 02) or 113HF*, 154 F*, 170HF*, 171HF*, 270 F* (beg Spr 06)
   - THEA 109 F

* = Course can only be used in one area.

THE UNITED STATES HISTORY, CONSTITUTION AND AMERICAN IDEALS CSU GRADUATION REQUIREMENT may be met by completing 6 units from the following two categories:

(1) U.S. Government: POSC 100 F or 100HF (required) and

(2) U.S. History (1 course required from the following): ETHS 101 F, 130 F+, 131 F, 160 F; HIST 127 F, 162AF, 170 F or 170HF+, 171 F or 171HF+, 270 F+ (These units may also be used to meet 6 of the 9-unit AREA C and AREA D requirements if applicable).

+ = Courses are also listed in Area C2.

AREA E: LIFELONG LEARNING AND SELF-DEVELOPMENT (3 units min.).

CDES 120 F* (beg F 06); COUN 151 F, 163 F; HED 140 F; NUTR 210 F; PSY 120 F, 139 F; PE 248 F, 266 F; SPCH 120 F; WELL 230 F

One unit maximum: All Physical Education Activity courses (except PE 113 F) including 1 unit maximum from:

FULLERTON COLLEGE
2009 - 2010 California State University General Education

IMPORTANT NOTE: Courses on this list are approved for the academic year 2009-2010 which begins with Fall Semester, 2009. This list is valid through Summer 2010. New courses for 2009-2010 are listed in Bold.

Students wishing to use a course to meet a CSU General Education requirement must be sure that the course is approved for the academic year in which it is taken. Courses on this list are approved by the CSU Chancellor’s Office for the 2009-2010 academic year. There are no catalog rights for CSU certification.

Previous CSU General Education Approved Course Lists are available at www.assist.org. Information is also available at the Fullerton College Counseling Resource Center and the Cadena/Transfer Center, or you may request verification from a counselor.

Fullerton College will certify courses taken at other California community colleges in the areas designated by the offering college. Courses taken at California four year colleges or accredited out-of-state two year or four year colleges will be certified if they are equivalent to courses on the CSU GE course list. Courses from foreign institutions cannot be used in the certification process.

Certification is not automatic and must be requested after the completion of the last term prior to transfer. This request should be made in the Admissions and Records Office and will occur when final transcripts are sent to the CSU. Students requesting CSU GE “pass along” certification must complete at least 12 transferable units at FC.

Revised 05/09 (Lee/Moon)

* = Course can only be used in one area.
University of California Transfer Admission Requirements

Admission eligibility requirements for transfer students enrolling at the University of California are similar to the previous year. These requirements apply to students who were not eligible to attend the University as freshmen because they did not meet the freshman Scholarship Requirement. Students in this category must:

A. Complete 60 semester units or 90 quarter units of transferable college coursework with a grade point average of at least 2.40, and

B. Complete a course pattern requirement (with at least a “C” grade in each course) to include:

1. Two transferable college courses (3 semester or 4-5 quarter units each) in English Composition; and

2. One transferable college course (minimum 3 semester or 4-5 quarter units) in Mathematical Concepts and Quantitative Reasoning; and

3. Four transferable college courses (3 semester or 4-5 quarter units each) chosen from at least two of the following subject areas: Arts and Humanities; Social and Behavioral Sciences; or Physical and Biological Sciences.

The above transfer requirements do not affect students who were eligible for admission to the University when they graduated from high school. In other words, students who have satisfied the Subject Requirement (“a-f” courses), Scholarship Requirement (GPA), and Examination Requirement (SAT I/ACT and SAT II) — all required for freshman admission — are still eligible to transfer if they have a “C” (2.00) average in their transferable college coursework.

Students who met the Scholarship and Examination Requirements but who did not meet the Subject Requirement based on their high school record must take transferable college courses in the subjects they are missing, earn a grade of “C” or better in each of these required courses, and earn an overall “C” (2.00) average in all transferable college coursework to be eligible to transfer. This means that students entering the University Fall 1998 and thereafter cannot use non-transferable college courses to make-up “a-f” subject omissions. The only way to satisfy this requirement is to use transferable college courses.

It is advisable that students make counseling appointments to review the UC transfer requirements and obtain an educational course plan. Students may contact the Fullerton College Counseling Resource Center or the Cadena/Transfer Center for further University of California transfer information. Many UCs are not currently accepting lower division transfer students.

LANGUAGE OTHER THAN ENGLISH
(UC requirement only)

- Complete 2 years of the same foreign language of high school level work with a grade of “C” or better; OR
- Earn a score of 3 or higher in the College Board Advanced Placement exams in language other than English; OR
- Satisfactory score in the SAT II: Subject Test in languages other than English

Before May 1995, use the first score; if taken after May 1995, use the second score.

- Chinese with Listening 500/520
- French/French with Listening 500/540
- German/German with Listening 500/510
- Hebrew (Modern) 500/470
- Italian 500/520
- Japanese with Listening 500/510
- Korean/Korean with Listening 500
- Latin 500/530
- Spanish/Spanish with Listening 500/520; OR
- Satisfactory score of 5 or higher in the International Baccalaureate Higher Level Examinations in languages other than English; OR
- Complete 1 course from the courses below:
  - CHIN 102 F 5 units
  - FREN 102 F 5 units
  - GERM 102 F 5 units
  - ITAL 102 F 5 units
  - JAPN 102 F 5 units
  - PORT 102 F 5 units
  - RUSS 102 F 5 units
  - SPAN 102 F 5 units or
  - SPAN 102HF 5 units
  - SPAN 201 F 5 units
Completion of IGETC will permit a student to complete their lower division G.E. requirements to either the California State University (CSU) or University of California (UC) system. Courses on this list are approved for the academic year 2009-2010 which begins Fall Semester, 2009. This list is valid through Summer 2010. New courses for 2009-2010 are listed in **BOLD**. It should be noted that completion of the IGETC is not a requirement for transfer to CSU or UC, nor is it the only way to fulfill the lower-division general education requirements of the CSU or UC prior to transfer. **A grade of "C" or higher is required in ALL coursework used for IGETC certification.**

- If MATH 130 F combined with MATH 150AF: maximum UC credit allowed = 1 course.

### AREA 3 - ARTS AND HUMANITIES: At least 3 courses = 9 semester units / 12-15 quarter units

One course is required from each area.

#### 3A Arts:

- CRTV 126A F, 126BF, 131 F  
- DANC 120 F, 210 F  
- ENGL 205 F, 206 F  
- THEA 100 F, 104 F, 105 F, 196HF+  

+ Maximum UC credit one course from ART 196HF, MUS 196HF, THEA 196HF.

#### 3B Humanities:

- ETHS 130 F*, 160 F  
- FREN 203 F, 204 F  
- GERM 203 F, 204 F  
- HIST 110 F or 110HF, 111 F or 111HF, 112 F* or 112HF*, 113 F* or 113HF*, 127 F~, 151 F, 152 F, 154 F, 160AF, 160BF, 162AF, 162BF, 165 F, 170 F~ or 170HF~; 171 F~ or 171HF~, 270 F* (*beg Spr 06*), 275 F  
- ITAL 203 F, 204 F  
- JAPN 203 F, 204 F  
- PHIL 100 F or 100HF, 101 F, 105 F or 105HF, 160 F, 195 F  
- SPAN 201 F, 203 F, 204 F, 205 F, 206 F  

~ Credit will be granted for either HIST 127 F **OR** HIST 170 F or HIST 170HF **and** HIST 171 F or HIST 171HF.  
* Course can only be used in one area.

### AREA 4 – SOCIAL AND BEHAVIORAL SCIENCES: At least 3 courses = 9 semester units / 12-15 quarter units. Select from at least two (2) disciplines:

#### 4A ANTH: 102 F or 102HF, 103 F, 105 F, 107 F, 209 F  
#### 4B ECON: 101 F or 101HF, 102 F or 102HF  
#### 4C ETHS: 101 F, 129 F, 130 F* (*beg Spr 06*), 131 F, 140 F, 141 F, 142 F, 170 F, 171 F  
#### 4D WMNS: 100 F  
#### 4E GEOG: 100 F or 100HF, 120 F, 160 F  
#### 4F HIST: 112 F* (*beg Spr 06* or 112HF* (*beg Spr 06*), 113 F* (*beg Spr 06* or 113HF* (*beg Spr 06*), 270 F*  
#### 4H POSC: 100 F or 100HF, 110 F, 120 F, 200 F, 215 F, 216 F, 230 F  
#### 4I PSY: 101 F or 101HF, 131 F, 139 F, 145 F, 202 F, 222 F, 251 F or 251HF  

* Course can only be used in one area.
## INTERSEGMENTAL GENERAL EDUCATION TRANSFER CURRICULUM
### 2009 - 2010 "IGETC" WORKSHEET

**AREA 5 - PHYSICAL AND BIOLOGICAL SCIENCES:** At least 2 courses = 7-9 semester units / 12-15 quarter units. At least one course is required from both areas. One of the courses must include a laboratory. Underlined courses meet the laboratory requirement.

### 5A Physical Science:
- **CHEM:** 100 F+, 101 F+, 103 F+, 107 F+, 111AF, 111BF
- **ESC:** 100 F+, 100LF+, 101 F, 101LF, 103 F, 105 F, 116 F, 116LF, 120 F, 130 F or 130HF, 130LF, 190 F
- **GEOG:** 102 F, 102LF
- **PHSC:** 102 F+~
- **PHYS:** 130 F+, 205 F+, 206 F+, 210 F, 211 F, 221 F+, 222 F+, 223 F+

+ **CHEM 100 F** or **103 F**: no UC credit if taken after CHEM 111AF.
+ If **CHEM 101 F** and **107 F** combined: maximum UC credit allowed = 1 course.
  (No UC credit for **CHEM 101 F** or **107 F** if taken after CHEM 111AF).
+ If **ESC 100 F**, **100LF** and **PHSC 102 F** combined: maximum UC credit allowed = 1 course.
  ~ **PHSC 102 F**: no UC credit for **PHSC 102 F** if taken after a college course in Astronomy, Chemistry, Geology, or Physics.
  + **PHYS 130 F**: no UC credit if taken after **PHYS 205 F**, **210 F** or **221 F**.
  + If **PHYS 205 F**, **206 F** or **210 F**, **211 F** or **221 F**, **222 F**, **223 F** combined: maximum credit, one series.

### 5B Biological Sciences:
- **ANAT 231 F**, 240 F
- **ANTH 101 F** or **101HF**, 101LF
- **BIOL 100 F**, **101 F** or **101HF+**, 102 F#, **102LF#**, 108 F, 109 F+, 170 F, **222 F**, **266 F**, **268 F**, **272 F**, **274 F**
- **ENVS 105 F**, **105LF**, 126 F
- **MICR 262 F**

= **BIOL 100 F** and **101 F** combined: maximum credit = 1 course.
+ **BIOL 101 F** or **101HF**: no UC credit if taken after a 200-level Biological Science course (per catalog).
# **BIOL 102 F** or **102LF**: no UC credit if taken after BIOL 101 F or **101HF**.
+ **BIOL 109 F**: no UC credit if taken after a 200-level Biology course.

### 6A - LANGUAGE OTHER THAN ENGLISH: (UC requirement only)
Complete 2 years of the same foreign language of high school level work with a grade of "C" or better;
**OR** earn a score of "3" or higher on the Foreign Language Advanced Placement Test;
**OR** earn a score of "3" or higher on the College Board Achievement Test in Foreign Language;
**OR** earn a score of "5" or higher in the International Baccalaureate Higher Level Examinations in languages other than English;
**OR** earn a satisfactory score on the SAT II: Subject Test in Languages other than English;
**OR** complete 1 course from the courses below:
- **CHIN 102 F**, **FREN 102 F**, **GERM 102 F**, **ITAL 102 F**, **JAPN 102 F**, **PORT 102 F**, **SPAN 102 F** or **102HF**, **201 F**;
**OR** completion of a Foreign Language in Area 3B.

### CSU GRADUATION REQUIREMENT IN U.S. HISTORY, CONSTITUTION AND AMERICAN IDEALS:
(Not part of IGETC; may be completed prior to transfer)
6 units; one course from Group 1 and one course from Group 2:
1) **POSC 100 F** or **100HF** and
2) **ETHS 101 F**, **130 F**, **131 F**, **160 F**; **HIST 127 F**, **162AF**, **170 F** or **170HF**, **171 F** or **171HF**, **270 F**

### IMPORTANT NOTE:
Students enrolled in high unit majors (i.e. architecture, computer science, engineering, sciences) are frequently recommended not to use IGETC to meet general education certification but rather to meet transfer admission requirements and complete required lower division major and support courses. See your counselor to develop an academic educational plan.

It is recommended that all IGETC requirements be completed prior to transfer. If you are unable to complete one or two IGETC courses in the final term before transfer, you may be eligible to complete IGETC after transfer, providing that those courses are not among those required for admission. See your counselor for more information.

Certification is not automatic, and must be requested after the completion of the last term prior to transfer. This request should be made in the Admissions and Records Office.

Revised 05/09 (Lee/Moon)
Educational Objective — Transfer

Many students attend a California Community College with the intention of transferring to a four-year college or university. A considerable number of courses offered at Fullerton College are transferable to four-year colleges and universities. In addition, Fullerton College has established a plan of coursework in certain majors that transfer as core preparation at various universities. These courses are referred to as major prep courses which articulate to the four-year universities. It is advisable for students planning to transfer to seek assistance from the Counseling Center and/or the Transfer Center since transfer institution requirements vary significantly. Transfer Students are encouraged to meet with a counselor each semester to review any possible changes in transfer admission, general education, major and/or major support course requirements.

Fullerton College transfers many students to the California State University (CSU) and University of California (UC) systems as well as private and out-of-state universities. To access Fullerton College articulation agreements, please reference www.assist.org.

The following is a list of the most frequently requested transfer majors by Fullerton College students. More information is available regarding each of these transfer majors in the Counseling Center. Additional transfer majors are available and may be found at www.assist.org.

Please see a counselor for additional assistance.

Transfer Guide to Major materials are available in the Counseling Center for the following programs leading to Transfer:

- Administration of Justice (Criminal Justice)
- Anthropology
- Architecture
- Art (Ceramics)
- Art (Crafts or 3-D Media)
- Art (Drawing and Painting)
- Art (General)
- Art (Graphic Design)
- Art (History)
- Art (Illustration)
- Art (Photography)
- Art (Printmaking)
- Art (Sculpture)
- Art (Studio Art)
- Art (Teaching)
- Biochemistry
- Biological Sciences

Communications (Public Relations)
# Degrees and Certificates

Listed on the following pages are programs of study offered by Fullerton College and requirements for specific certificates and degrees. Students are encouraged to meet with an academic counselor for individual education planning.

(O) Certificates with less than a total of 12 units will not appear on college transcripts.

(■) Certificates with more than a total of 12 units will be noted on transcript as Certificate of Achievement.

(▲) Pending State approval

Any request for a course substitution or waiver may be discussed with a counselor and must be submitted for approval to the Admissions and Records Office.

NOTE: For students wanting to transfer to a university, see the “Transferability of Courses” section in this catalog and schedule an appointment with a counselor. Students may also reference www.assist.org. Degrees and certificate programs are listed below by Instructional Divisions.

**Associate in Science Degree**

Curriculum leads to the Administration of Justice Associate in Science Degree and employment in the field of law enforcement. This degree requires a total of 24 units of which 9 units are in required courses. An additional 15 units must be chosen from the restricted electives listed below.

**Required Courses (9 units)**

- AJ 100 F Introduction to Law Enforcement 3
- AJ 110AF Criminal Law 3
- AJ 151 F Police Report Writing 3

**Restricted Electives (15 units)**

- AJ 097 F Law Enforcement Supervisory Update 1.5
- AJ 102 F Introduction to Probation and Parole 3
- AJ 110BF Advanced Criminal Law 3
- AJ 111 F Traffic Enforcement 3
- AJ 128 F Police-Community Relations 3
- AJ 135 F Weaponless Defense 1
- AJ 137 F Firearms 1
- AJ 140 F Juvenile Procedures 3
- AJ 220 F Criminal Procedure 3
- AJ 222 F Rules of Evidence 3
- AJ 223 F Criminal Investigation 3
- AJ 226 F Narcotics and Vice Control 3
- AJ 230 F Crime Scene Techniques 3
- AJ 252 F Police Patrol 3
- AJ 276 F Investigation of Homicidal Behavior 3
- AJ 278 F Multicultural Issues within Admin. of Justice 3
- AJ 901 F Organized Crime and Criminal Justice Sys. 3

Total Units: 24

**Administration of Justice Certificate**

The Administration of Justice Certificate program requires the completion of 52 units from the courses listed below, with a minimum grade point average of 3.00 or better. At least one half of the units toward the certificate must be completed at Fullerton College.

**Required Courses (11 units)**

- AJ 059AF Basic Police Academy — Ext. Format I 26
- AJ 059BF Basic Police Academy — Ext. Format II 26

Total Units: 52

*Prerequisite required

**Crime Analysis Certificate**

The Crime Analysis Certificate program requires a total of 17 units of which 11 units are in required courses. An additional 6 units must be chosen from the restricted units listed below.

**Required Courses (11 units)**

- AJ 223 F Criminal Investigation 3
- GEOG 241 F* Basic Crime Mapping 2
- GEOG 242 F* Advanced Crime Mapping 3

**Restricted Electives (6 units)**

- AJ 092 F Crime Scene Investigation 1
- AJ 100 F Introduction to Law Enforcement 3
- AJ 110AF Criminal Law 3
- AJ 151 F Police Report Writing 3
- AJ 252 F Police Patrol 3

Total Units: 14

*Prerequisite required

**Crime Scene Investigation Certificate**

The Crime Scene Investigation Certificate program prepares students for entry-level employment as a crime scene investigator or field evidence technician in the law enforcement field. The program requires the completion of 17 units with a minimum grade point average of 3.00 or better for courses offered in the certificate program. A minimum of 12 units toward the certificate must be completed at Fullerton College.

**Required Courses (17 units)**

- AJ 092 F Crime Scene Investigation 1
- AJ 093 F DNA Genetic Fingerprinting 0.5
- AJ 096 F CAD/Crime Scene Application 0.5
- AJ 151 F Police Report Writing 3
- AJ 222 F Rules of Evidence 3
- AJ 223 F Criminal Investigation 3
- AJ 230 F Crime Scene Techniques 3
- PHOT 101 F Introduction to Photography 3

Total Units: 17
## P.O.S.T. Law Enforcement Skills Development Certificate

The P.O.S.T. Law Enforcement Skills Development Certificate program is intended to meet the basic requirements of California Penal Code 13510 in raising the competence level of current and aspiring law enforcement personnel. The certificate requires the completion of 17 units, of which 9.5 units are in required courses. An additional 7.5 units must be taken from the restricted electives listed below. All restricted electives are certified by the California Commission on Peace Officer Standards and Training (P.O.S.T.). A minimum grade of “C” is needed for each required course taken, with the exception of AJ 079 F (CR/NC). At least one half of the units toward the certificate must be completed at Fullerton College.

ART COMPUTER GRAPHICS

**Computer Animation/Multimedia Certificate**

The Computer Animation/Multimedia Certificate program requires a total of 32 units of which 20 units are in required courses. An additional 12 units must be chosen from the restricted units listed below. This certificate provides the skills necessary to create animated and/or interactive projects for distribution on a variety of media, including DVD, web pages, videotape, CD-ROM, etc. A minimum grade of “C” is required in each course taken.

**Select one of the Introduction classes (3 units)**

**Total Units:** 30
3D Animation Certificate — Level II

3-D Animation Certificate — Level II is a continuation of the level I Basic Computer Graphics certificate with emphasis in 3-D animation software. This certificate provides the skill set required for entry-level employment in the 3-D animation and modeling industry. The Program requires a total of 15 units of which 9 units are in required courses. An additional 6 units must be chosen from the restricted units listed below. Units earned from level I certificate may not be used for level II certificate. Any advanced ACG course may replace required introduction to class of level II if introduction was completed as part of the Level I certificate.

Required Courses (9 units) Units
ACG 104 F Intro: 3D Graphics/Mac 3
ACG 120 F 3D Modeling 3
ACG 150 F 3D Computer Animation for Macintosh 3

Restricted Electives (6 units) Units
ART 120 F Basic Design 3
ART 182 F Basic Drawing 3
ART 121 F Three-Dimensional Design 3
ART 186 AF Beginning Life Drawing 3

Total Units: 15

Art — Associate in Arts Degree

Curriculum leads to the Associate in Arts Degree. This degree requires 18 units from the following:

One Art History course (3 units) Units
ART 112 F Art History: Ancient and Medieval or 3
ART 113 F Art History: Renaissance to Modern or 3
ART 114 F Art History: Impressionism to the Present or 3
ART 116 F Art History — Mexico or 3
ART 212 F Asian Art History 3

One course required from: (3 units) Units
ART 120 F Basic Design or 3
ART 182 F Basic Drawing 3

One course required from: (3 units) Units
ART 121 F Three-Dimensional Design 3
ART 150 AF Ceramics: Beginning Handbuilding 3
ART 160 F Fundamentals of Sculpture 3
ART 174 AF Jewelry: Fabrication 3
ART 176 F Stained Glass 3
ART 185 F Life Sculpture 3

And required (9-10 units) Units
Any ART course except ART 110 F, ART 119 F, ART 179 F, ART 187 F, ART 190 F, or ART 194 F

Total Units: 18-19

Advertising and Graphic Design Certificate

The Advertising and Graphic Design Certificate requires a total of 37 units of which 31 are in required courses. An additional 6 units must be chosen from the restricted units listed below. This certificate prepares students for a position in advertising, graphic and packaging design. A minimum grade of “C” is required in each course taken.

Required Courses (31 Units) Units
ACG 100 F Intro: Computer Graphics/MAC 3
ACG 112 F Electronic Illustration 3
ACG 132 F Electronic Paint for Macintosh 3
ACG 140 F Desktop Publishing I for Mac or 3
ACG 146 F Desktop Publishing II — MAC 3
ART 123 F Business Practices in Art 3
ART 140 F Intro to Advertising and Graphic Design 3
ART 145 F Publication Design 3
ART 146 F Advertising Design 3
ART 147 F Production Techniques/Graphic Designers 3
ART 148 F Packaging Design 3
ART 299 F Art Independent Study 1-2

Total Units: 31
Illustration Certificate

The Illustration Certificate program consists of 30-31 units. There are a total of 21-22 required units and a total of 8 restricted elective units. This certificate is designed to emphasize concepts, strategies and skill development in order to facilitate the student's portfolio presentation, which may be appropriate for a variety of careers in the Commercial Arts field, including editorial and advertising illustration, conceptual art for the game and entertainment industry, and illustration for the toy and theme park industries. A minimum grade of "C" or better is required for each course taken.

Required Art Courses:  
ART 120 F Basic Design 3
ART 180 F Perspective Drawing and Rendering 3
ART 182 F Basic Drawing 3
ART 186AF Beginning Life Drawing 3
ART 244 F Illustration 3
ART 299 F Art Independent Study 1-2

Required Computer Graphics courses:  
ACG 100 F Intro: Computer Graphics/MAC or 3
ACG 102 F Intro: Web Graphics/MAC 3
ACG 112 F Electronic Illustration 3

Restricted Electives:  
Select 8 units from the list below:  
ART 118 F Color Theory 3
ART 123 F Business Practices in Art 3
ART 131 F Printmaking 3
ART 139 F Fashion Sketching 2
ART 140 F Intro to Advertising and Graphic Design 3
ART 144 F Fundamentals of Cartooning 2
ART 146 F Advertising Design 3
ART 181 F Drawing from the Masters 2
ART 183 F Representational Drawing 2
ART 184 F Expressive Drawing 2
ART 188 F Watercolor Painting 3
ART 189AF Beginning Painting 3
ART 195 F Anatomical Figure Drawing 2
ACG 120 F 3D Modeling 3
ACG 150 F 3D Computer Animation for Macintosh 3

Total Units: 37

AUTOMOTIVE TECHNOLOGY

Associate in Science Degree

Curriculum leads to the Associate in Science Degree and employment in automotive specialties: tune-up and electrical, engine repair, automatic transmissions, brakes and suspensions, power trains, air conditioning, service writing, parts control.

Complete 24 or more units from the following list:  

Units
Any Automotive course 3
MACH 116 F Machine Tools 2
TECH 081 F Technical Mathematics I 3
WELD 121AF Introduction to Welding 2

Automatic Transmission Specialist Certificate

The Automatic Transmission Specialist Certificate program requires a total of 18 units in required courses. This program will help the student become employed as an automatic transmission specialist.

Required Courses (18 units):  

Units
AUTO 050 F Automotive Specialty Practice 2
AUTO 065 F Automotive Electrical & Electronic Systems 5
AUTO 084 F Automatic Transmission 8
AUTO 086 F Automatic Transmission Fundamentals 3

Automotive Chassis Specialist Certificate

The Automotive Chassis Specialist Certificate program requires a total of 14 units of which 14 units are in required courses.

Required Courses (14 units):  

Units
AUTO 050 F Automotive Specialty Practice 2
AUTO 065 F Automotive Electrical & Electronic Systems 4
AUTO 083 F Brake and Suspension Systems Repair 8

Total Units: 14

Total Units: 30-31
### Automotive Maintenance Specialist Certificate

The Automotive Maintenance Specialist Certificate program requires a total of 16 units of which 16 units are in required courses. This program will help the student become employed as an entry level automotive maintenance specialist.

### Biological Technician — Associate in Science Degree

The **Biological Technician Associate in Science Degree** program requires a total of 18 units, of which 9-10 units are in required courses. An additional 8-9 units must be chosen from the restricted units listed below.

Complete 9-10 units from the following:

<table>
<thead>
<tr>
<th>Units</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>5</td>
<td>BIOL 101 F  General Biology or</td>
</tr>
<tr>
<td>5</td>
<td>BIOL 170 F  Organismal Biology</td>
</tr>
<tr>
<td>3</td>
<td>BIOL 109 F  Genetics and Biotechnology in Society</td>
</tr>
<tr>
<td>2</td>
<td>BIOL 109LF Genetics and Biotechnology in Society Lab</td>
</tr>
<tr>
<td>5</td>
<td>CHEM 101 F  Introduction to Chemistry or</td>
</tr>
<tr>
<td>5</td>
<td>CHEM 107 F  Elementary Chemistry</td>
</tr>
<tr>
<td>3</td>
<td>CIS 111 F  Introduction to Information Systems</td>
</tr>
<tr>
<td>1-4</td>
<td>ELEC 100 F Direct Current/Alternating Current Theory</td>
</tr>
<tr>
<td>1-2</td>

</tr>
</tbody>
</table>

Total Units: **17-19**

### BUSINESS

#### Business Administration

**Associate in Arts Degree**

Curriculum leads to the **Associate in Arts Degree**. This degree requires 18 units chosen from the list below. Any courses listed below taught as Honors courses will also apply to this AA degree.

Complete 18 units from the following:

<table>
<thead>
<tr>
<th>Units</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>4</td>
<td>ACCT 101AF Financial Accounting</td>
</tr>
<tr>
<td>4</td>
<td>ACCT 101BF Managerial Accounting</td>
</tr>
<tr>
<td>3</td>
<td>BUS 100 F Intro to Business</td>
</tr>
<tr>
<td>3</td>
<td>BUS 131 F Principles of International Business</td>
</tr>
<tr>
<td>3</td>
<td>BUS 211 F Writing for Business</td>
</tr>
<tr>
<td>3</td>
<td>BUS 240 F Legal Environment of Business or</td>
</tr>
<tr>
<td>3</td>
<td>BUS 241AF* Business Law</td>
</tr>
<tr>
<td>3</td>
<td>BUS 241BF Business Law</td>
</tr>
<tr>
<td>3</td>
<td>CIS 111 F Intro to Information Systems</td>
</tr>
<tr>
<td>3</td>
<td>ECON 101 F Principles of Economics — Micro</td>
</tr>
<tr>
<td>3</td>
<td>ECON 102 F Principles of Economics — Macro</td>
</tr>
<tr>
<td>4</td>
<td>MATH 120 F Introductory Probability and Statistics</td>
</tr>
<tr>
<td>4</td>

**Total Units:** 38-44
One course from the following for a total of 3 units: 
- BUS 090 F: Current Issues in Business (0.5-3)
- BUS 262 F: Principles of Management (3)
- BUS 271 F: Leadership and Business Ethics (3)
- BUS 298 F: Advanced Topics in Business (0.5-3)

One course from the following for a total of 3 units: 
- BUS 266 F: Human Relations in Business (3)
- BUS 267 F: Principles of Supervision (3)

One course from the following for a total of 2 units: 
- CIS 150 F: Introduction to the Internet (2)
- MKT 151 F: Internet Marketing (2)
- BUS 269 F: Managing Business Projects (2)

One course from the following for a total of 3 units: 
- MKT 100 F: Intro to Marketing (3)
- BUS 224 F: International Marketing (3)

Total Units: 29-30

**E-Business Development Certificate**

The **E-Commerce Business Development Certificate** requires a total of 15-17 units of which 15-17 units are required courses.

**Required Courses (9 units)**

- BUS 170 F: Principles of E-Business (3)
- BUS 182 F: Doing Business Online (2)
- CIS 150 F: Introduction to the Internet (2)
- MKT 151 F: Internet Marketing (2)

One course from the following for a total of 2-3 units: 
- BUS 180 F: Small Business Management (3)
- BUS 181 F: Business Plan Developments (2)

One course from the following for a total of 3 units: 
- CIS 100 F: Intro to Personal Computers (3)
- CIS 105 F: Spreadsheet I (2)

One course from the following for a total of 2 units: 
- CIS 050 F: Web Page Design I (2)
- CIS 152 F: Web Page Design II (HTML) (2)

Total Units: 15-17

**Entrepreneurship Associate in Science Degree**

The **Associate in Science Degree in Entrepreneurship: Small Business Management** requires a total of 29-30 units of which 29-30 units are required courses.

**Required Courses (6 units)**

- CIS 100 F: Intro to Personal Computers (3)
- BUS 180 F: Small Business Management (3)

**Choose one course from the following for a total of 2-3 units:**

- ACCT 001 F: Accounting for Small Business (3)
- ACCT 100BF: Financial Accounting Principles (3)
- ACCT 101AF: Financial Accounting (4)

**Choose one course from the following for a total of 3 units:**

- BUS 111 F: Business Communications (3)
- BUS 211 F: Writing for Business (3)

**Choose one course from the following for a total of 3 units:**

- BUS 100 F: Intro to Business (3)
- BUS 170 F: Principles of E-Business (3)

**Choose one course from the following for a total of 3 units:**

- BUS 162 F: Business Economics (3)
- ECON 101 F: Principles of Economics — Micro (3)
- BUS 251 F: Business Finance (3)

**Choose one course from the following for a total of 2 units:**

- BUS 181 F: Business Plan Developments (2)
- BUS 182 F: Doing Business Online (2)

**Choose one course from the following for a total of 3 units:**

- BUS 240 F: Legal Environment of Business (3)
- BUS 241AF: Business Law (3)

**Choose one course from the following for a total of 3 units:**

- BUS 266 F: Human Relations in Business (3)
- BUS 267 F: Principles of Supervision (3)

**Choose one course from the following for a total of 3 units:**

- MKT 100 F: Intro to Marketing (3)
- MKT 201 F: Small Business Promotions (3)

Total Units: 29-30
Entrepreneurship Certificate

The Certificate in Entrepreneurship: Small Business Management requires a total of 29-30 units.

**EDUCATION DEGREES**

### Associate in Arts Degree, Elementary Education

The program is designed to prepare students for working with young children from birth through the age of 8 and for employment in child development programs, public and private preschools, and children's centers. The program meets the basic course requirements for teachers in private preschools licensed by the California State Department of Social Services, and the Child Development Permit at the Associate Teacher Level issued by the Commission for Teacher Preparation and Licensing for teachers in public infant care; preschools, school age and children center programs. Upon completion of the Associates degree with a major in Early Childhood Education and after meeting the required employment experience hours, students would be eligible to apply for a Child Development Permit, Teacher Level. This requires the Associates degree plus an additional seven units early childhood education and the required hours of employment experience. Program: Total # of units: 23

<tr>
<td>CIS 280 F Intro to Oracle: SQL and PL/SQL</td>
</tr>
</tbody>
</table>

**Total Units:** 10
**Internet Certificate**

The Internet Certificate requires the completion of 15 units chosen from the required courses listed below. A minimum grade of “C” is required in each course taken. At least one half of the units toward the certificate must be completed at Fullerton College.

Required Courses (11 units) | Units
---|---
CIS 050 F | Web Page Design I | 2
CIS 107 F | Intro to Operating Systems | 2
CIS 149 F | Internet Entertainment | 3
CIS 152 F | Web Page Design II (HTML) | 2
MKT 151 F | Internet Marketing | 2

Choose one of the following for a total of 2 units: | Units
---|---
CIS 150 F | Introduction to the Internet | 2
CIS 151 F | Internet Research | 2

Choose one of the following for a total of 2 units: | Units
---|---
CIS 153 F | Business Web Graphics | 2
CIS 155 F | Web Page Multimedia Design I | 2

Total Units: 15

---

**PC Applications Certificate**

The PC Applications Certificate requires the completion of 16 units chosen from the required courses listed below. A minimum grade of “C” is required in each course taken. At least one half of the units toward the certificate must be completed at Fullerton College.

Required Courses (10 units) | Units
---|---
CIS 104 F | Presentation Graphics | 2
CIS 105 F | Spreadsheet I | 2
CIS 107 F | Intro to Operating Systems | 2
CIS 142 F | Database I | 2
CIS 242 F | Database II | 2

Choose one of the following for a total of 2 units: | Units
---|---
CIS 050 F | Web Page Design I | 2
CIS 150 F | Introduction to the Internet | 2

Choose one of the following for a total of 2 units: | Units
---|---
CIS 048 F | Intro to PC Communications | 2
CIS 109 F | Personal Computer Security | 2

Choose one of the following for a total of 2 units: | Units
---|---
CIS 205AF | Spreadsheet II | 2
CIS 205BF | Macro Programming | 2

Total Units: 16

---

**Networking Certificate**

The Networking Certificate prepares the student for a career using computer networks in business. This will include skills in installing and managing Windows networks. The Networking Certificate program requires a total of 15 units of which 12 are required and 3 may be chosen from the restricted electives listed. A minimum grade of “C” is required in each course taken. At least one half of the units toward the certificate must be completed at Fullerton College.

Required Courses (12 units) | Units
---|---
CIS 180 F | Intro to Networking Concepts | 3
CIS 183 F | Network Security Fundamentals | 3
CIS 285 F | Windows Server | 3
CIS 291 F | Enterprise Networking | 3

Restricted Electives (3 units) | Units
---|---
CIS 260 F | Solaris System Administration | 3
CIS 281 F | Intro to Networking Hardware | 3
CIS 286 F | Web Server Management | 3
CIS 287 F | Exchange Server | 3
CIS 289 F | Windows Active Directory | 3
CIS 290 F | UNIX Operating System | 3

Total Units: 15

---

**Programming Certificate**

The Programming Certificate requires a total of 15 units of which 12 units are in required classes. An additional 3 units must be chosen from the restricted units listed below. A minimum grade of “C” is required in each course taken. At least one-half of the units toward the certificate must be completed at Fullerton College.

Required Courses (12 units) | Units
---|---
CIS 211 F | Basic Programming for Business | 3
CIS 217 F | Visual Basic Programming I | 3
CIS 218 F | Visual Basic Programming III | 3
CIS 226 F | Java Programming I or | 3
CIS 223 F | Programming in C++ | 3

Restrictive Electives (3 units) | Units
---|---
CIS 212 F | Robotic Programming or | 3
CIS 219 F | Visual Basic Programming II or | 3
CIS 222 F | CGI/Perl Scripting or | 3
CIS 228 F | Java Programming II or | 3
CIS 229 F | XML Programming or | 3
CIS 230 F | PHP and MySQL Programming | 3

Total Units: 15
### Spreadsheet Applications Certificate

The **Spreadsheet Applications Certificate** prepares the student for a career using spreadsheet applications software. This certificate requires a total of 7 units of which 7 units are in required courses.

<table>
<thead>
<tr>

Total Units: 24

Construction Technology Certificate

The Construction Technology Certificate program requires a total of 29 units of which 17 units are in required courses. An additional 12 units must be chosen from the restricted electives listed below. A minimum grade of “C” is required in each course taken. At least one half of the units toward the certificate must be completed at Fullerton College. Any course offered in the construction technology department (ARCH, CSTR or WOOD) will fulfill requirements for the restricted electives. The certificate leads to entry-level employment in the construction industry.

COSMETOLOGY

Associate in Science Degree

Curriculum leads to the Associate in Science Degree and prepares the student to pass the California Bureau of Barbering and Cosmetology board examination. The program requires 55 units in required courses.

Required Courses (55 units):
- COSM 055AF Cosmetology: Level 1 11 units
- COSM 055BF Cosmetology: Level 2 11 units
- COSM 055CF Cosmetology: Level 3 11 units
- COSM 055DF Cosmetology: Level 4 11 units
- COSM 055EF Cosmetology: Level 5 11 units

Total Units: 55

Cosmetology Certificate

The Cosmetology Certificate requires the completion of 55 units with a grade of "C" or better in each course taken. At least one half of the units completed must be taken at Fullerton College.

Required Courses (55 units)
- COSM 055AF Cosmetology: Level 1 11 units
- COSM 055BF Cosmetology: Level 2 11 units
- COSM 055CF Cosmetology: Level 3 11 units
- COSM 055DF Cosmetology: Level 4 11 units
- COSM 055EF Cosmetology: Level 5 11 units

Total Units: 55

Cosmetology Instructor

Associate in Science Degree

Curriculum leads to the Cosmetology Instructor Associate in Science Degree requires a total of 18-19 units of which 15 units are in required courses. An additional 3-4 units must be chosen from the restricted electives listed below. This program is designed to introduce and/or expand Pivot Point principles and advanced techniques.

Required Courses (15 units)
- COSM 060F Instruction Techniques in Cosmetology 15 units

Restricted Electives (3-4 units)
- COSM 061AF Pivot Point Instruction I 1 unit
- COSM 061BF Pivot Point Instruction II 1 unit
- COSM 061CF Pivot Point Instruction III 1 unit
- COSM 070F Cont. Ed. Instruction Techs./Cosmetology 2 units

Total Units: 20

Esthetician Certificate

The Esthetician Certificate requires the completion of 20 units with a grade of "C" or better in each course taken. At least one half of the units completed must be taken at Fullerton College.

Required Courses (20 units)
- COSM 041F Esthetician: Level 1 10 units
- COSM 042F Esthetician: Level 2 10 units

Total Units: 20

DANCE

Associate in Arts Degree

The Dance Associate in Arts Degree program requires a total of 18 units of which 14 units are in required courses. An additional 4 units must be chosen from the restricted units listed below.

Required Courses (14 Units)
- DANC 103F Dance Technique I 1 unit
- DANC 104F Dance Technique II 1 unit
- DANC 105F Ballet I 1 unit
- DANC 106F Ballet II 1 unit
- DANC 107F Modern Dance I 1 unit
- DANC 108F Modern Dance II 1 unit
- DANC 111F Jazz I 1 unit
- DANC 112F Jazz II 1 unit
- DANC 120F Dance History 3 units
- DANC 202F Dance Composition/Choreography 2 units
- DANC 203F Dance Production 2 units
- DANC 204F Dance Rehearsal and Performance 1 unit
- DANC 205F Dance Ensemble 2 units

Restricted Electives (2 Units)
Select 2 units from the following:
- DANC 110F Ballet Folklorico 1 unit
- DANC 115F Hip Hop Dance I 1 unit
- DANC 130F Afro-Caribbean Dance 1 unit
- DANC 132F Flamenco Dance I 1 unit

Restricted Electives (2 units)
Select 2 units from the following:
- DANC 102F Conditioning for Dance 1 unit
- DANC 113F Tap Dance I 1 unit
- DANC 114F Tap Dance II 1 unit
- DANC 119F Dance for Theatre 1 unit
- DANC 214F Dance Repertory 2 units

ENVIRONMENTAL TECHNOLOGY

Associate in Science Degree

The curriculum leads to an Associate in Science Degree for employment as an Environmental Hazardous Materials Technician. The knowledge and skills gained in this program allows a person to work with hazardous materials in compliance with governmental regulations and at the same time protect human health and the environment. This program currently does not fulfill requirements for transfer to any four-year university. The degree requires 32 units of which 18 units are in required courses. An additional 14 units must be chosen from the restricted electives listed below.

Required Courses (18 units) Units
ET 110 F Waste Stream Gen./Reduction/Treatment 3
ET 130 F Health Effects of Hazardous Materials 3
ET 150 F Hazardous Waste Management Applications 4
ET 200 F Hazardous Mats. Management Applications 4
ET 230 F Safety and Emergency Response 4

Restricted Electives (14 units) Units
BIOL 102 F Human Biology or 3
BIOL 170 F Organismal Biology 5
CHEM 101 F Intro to Chemistry or 5
CHEM 111AF General Chemistry or 5
CHEM 200 F Elementary Organic Chemistry 3
ET 100 F Intro to Environmental Technology 3
ENVS 105 F Environmental Biology 3
BUS 211 F Writing for Business or 3
CIS 100 F Intro to Personal Computers or 3
SPCH 100 F Public Speaking 4

Total Units: 32
**Environmental Technology (ET) Certificate Program**

Curriculum leading to the Environmental Technology (ET) Certificate program refers to the knowledge and skills that allow a person to work with hazardous materials in compliance with governmental regulations and at the same time protect human health and the environment. The ET Certificate is designed to be a one-year program that can either prepare students or upgrade working individuals with technician-level skills. This certificate requires completion of 35 units of which 32 units are in required courses. An additional 3 units must be chosen from the restricted electives listed below. A minimum grade of “C” is required in each course taken.

**Image Consultant Certificate**

The **Image Consultant Certificate** program requires the completion of 20 units of which 19 units are in required courses. An additional 1 unit must be chosen from the restricted electives listed below. The curriculum leads to a certificate that prepares students for a career as a wardrobe and color consultant. The demand for professional image consultants is quickly growing, and the program will prepare students for entry-level employment with major retailers, image consulting firms, or self-employment. A minimum grade of "C" is required for all courses.

**Product Development Apparel Certificate**

The **Product Development Apparel Certificate** requires a total of 17 units of which 14 units are in required courses. An additional 3 units must be chosen from the restricted units listed below. The curriculum leads to a certificate that prepares students to work in the fashion design or merchandising fields developing apparel design and/or lines of apparel for specific target customers. The certificate can be completed in a single school year and the courses can be applied to the more advanced Fashion Merchandising Certificate or Associate in Arts degree.

### Ornamental Horticulture

#### Associate in Science Degree

Curriculum leads to the Ornamental Horticulture Associate in Science Degree. This degree requires completion of 21 units of which 9 units are in required courses. An additional 12 units must be chosen from the restricted electives listed below.

**Required Courses (9 units)**

- HORT 153 F Landscape Irrigation or 3
- HORT 157 F Irrigation Principles 3
- HORT 155 F Soils 3
- HORT 160 F Plant Identification (Ornamental Trees) or 3
- HORT 161 F Plant Identification (Ornamental Shrubs) or 3
- HORT 162 F Landscaping for Dry Climates or 3
- HORT 164 F Plant Ident. (Annuals/Perennials/House) 3

**Restricted Electives (12 units)**

- HORT 156 F Plant Nutrition 3
- HORT 165 F Landscape Management 4
- HORT 173 F Greenhouse and Nursery Production 3
- HORT 174 F Plant Propagation 3
- HORT 177 F Turfgrass Management 3
- HORT 200 F Landscape Design 3
- HORT 201 F Advanced Landscape Design 3
- HORT 219 F CAD Application in Horticulture 3

**Total Units:** 21

### Ornamental Horticulture Certificate

The Ornamental Horticulture Certificate program requires 30 units of which 9 units are in required courses. An additional 12 units must be chosen from restricted electives group A, and at least 9 units from restricted electives group A or B.

**Required Courses (9 units)**

- HORT 005 F Basic Landscape Plants 3
- HORT 006 F Basic Landscape Plants or 3
- HORT 160 F Plant Identification (Ornamental Trees) 3
- HORT 161 F Plant Ident. (Ornamental Shrubs) and 3
- HORT 155 F Soils 3

**Restricted Electives — Group A (12 units)**

- HORT 001 F Principles of Horticulture I 4
- HORT 002 F Principles of Horticulture II 4
- HORT 152 F Applied Botany 4
- HORT 153 F Landscape Irrigation 3
- HORT 156 F Plant Nutrition 3
- HORT 164 F Plant Ident. (Annuals/Perennials/House) 3
- HORT 173 F Greenhouse and Nursery Production 3
- HORT 174 F Plant Propagation 3
- HORT 177 F Turfgrass Management 3
- HORT 200 F Landscape Design 3
- HORT 205 F Applied Entomology 3
- HORT 207 F Plant Pathology 3
- HORT 215 F Diseases and Pests of Ornamental Plants 4

**Total Units:** 30

### Pest Management Certificate

The Pest Management Certificate program prepares students for licensing and employment as pest control applicators and advisors. The Pest Management Certificate program requires a total of 30 units of which 10 are in required courses. An additional 8 units must be chosen from restricted units from restricted electives group A, and at least 12 units from restricted electives group A or B.

**Required Courses (10 units)**

- HORT 045 F Training Pest Control Professionals 3
- HORT 188 F Integrated Pest Management 2
- HORT 205 F Applied Entomology 3
- HORT 207 F Plant Pathology 3

**Restricted Electives — Group A**

- HORT 001 F Principles of Horticulture I 4
- HORT 002 F Principles of Horticulture II 4
- HORT 005 F Basic Landscape Plants I 3
- HORT 006 F Basic Landscape Plants II 3
- HORT 046 F Pest Safety for Landscape Workers 2
- HORT 152 F Applied Botany 4
- HORT 156 F Plant Nutrition 2

Industrial Laboratory Technician (Chemistry)
Associate in Arts Degree
Curriculum leads to an Industrial Laboratory Technician Associate in Arts Degree for employment in the research and product-testing departments of petroleum companies, soil laboratories, food processing plants, chemical plants, etc. It is not intended to fulfill requirements to transfer for a Bachelor's Degree in Chemistry.

High School Preparation: Three years of college-preparatory mathematics, chemistry, further mathematics, biology, and physics recommended.

This degree requires completion of 18 units of which 10 units are in required courses. An additional 8 units must be chosen from the restricted electives listed below.

Required Courses (10 units)

For specialized technical courses in construction, electronics or manufacturing, see your counselor.

INTERDISCIPLINARY STUDIES
Associate in Arts Degree
Interdisciplinary Studies with an Emphasis in Science and Mathematics: These courses emphasize the development of mathematical and quantitative reasoning skills beyond the level of intermediate algebra. Students will be able to demonstrate an understanding of the methodologies of science as investigative tools. Students will also examine the influence that the acquisition of scientific knowledge has on human experience. This emphasis includes lower-division coursework that prepares students for majors in science, math, and health related fields.
### Interdisciplinary Studies cont’d.

Choose at least one course from each category (A and B) and then complete additional courses in categories A and/or B to total 18 units:

### Interdisciplinary Studies with an Emphasis in Arts and Human Expression:

These courses emphasize the study of cultural, literary, humanistic activities and artistic expression of human beings. Students will evaluate and interpret the ways in which people through the ages in different cultures have responded to themselves and the world around them in artistic and cultural creation. Students will also learn to value aesthetic understanding and incorporate these concepts when constructing value judgments. This emphasis includes lower division coursework that prepares students for majors in fine arts, foreign languages, literature, and philosophy.
Choose 18 units of coursework, including two or more disciplines, from the following list:

Interdisciplinary Studies with an Emphasis in Social Sciences:

These courses emphasize the perspective, concepts, theories and methodologies of the variety of disciplines that comprise study in the social sciences. Students will study human experience in the context of the larger society. Students will study how individuals, social subgroups, and societies operate in relation to each other. This emphasis includes lower division coursework that prepares students for majors in the social sciences.

Choose 18 units of coursework, including two or more disciplines, from the following list:

### Interdisciplinary Studies with an Emphasis in Social Behavior and Self-Development

These courses provide students knowledge and understanding of social behavior and self-development. This area of emphasis is designed to prepare students to use their understanding of themselves and others to communicate and collaborate more effectively. It combines knowledge of theory with attention to personal growth and purpose, as well as health and wellness. Students learn to become citizens who care for themselves and others, ready to work with people in their communities. Participation in group activities and collaborative projects is a central focus of this emphasis, allowing students to experience group interactions in a variety of contexts. This emphasis includes lower division coursework that prepares students for social/health/human services majors and careers in people/community oriented professions including social, health and recreational services.

Choose at least one course from each category below (A, B, and C), Then complete additional courses from categories A, B, and/or C to reach a total of 18 units:

#### A) Theory and Knowledge

Total Units: 26
Journalism Certificate

The Journalism Certificate program will provide students with sufficient background for reporting, writing and production jobs on community newspapers and weekly publications. The certificate requires a total of 30 units of which 24 units are in required courses. An additional 6 units must be completed from the restricted electives listed below. A minimum grade of “C” is required in each course taken.

Required Courses (24 units) Units
ACG 100 F Intro: Computer Graphics/MAC 3
CRTV 129 F Broadcast News 3
JOUR 101 F Reporting and Writing 3
JOUR 102 F Reporting and Writing 3
JOUR 110 F Mass Media Survey 3
JOUR 135 F Magazine Production 3
JOUR 140 F Public Relations and Publicity 3
JOUR 225 F Newspaper Production 3

Restricted Electives (6 units) Units
ART 145 F Publication Design 3
JOUR 135 F Magazine Production 3
JOUR 199 F Communications Independent Study 1-3
JOUR 225 F Newspaper Production 3
PHOT 101 F Intro to Photography 3

Total Units: 30

Public Relations Certificate

The Public Relations Certificate program requires the completion of 27 units of which 21 units are required. An additional 6 units must be selected from the restricted electives. A minimum grade of “C” is required in each course taken.

Required Courses (21 units) Units
ACG 100 F Intro: Computer Graphics/MAC 3
BUS 270 F Management Communications 3
JOUR 101 F Reporting and Writing 3
JOUR 102 F Reporting and Writing 3
JOUR 110 F Mass Media Survey 3
JOUR 135 F Magazine Production 3
JOUR 140 F Public Relations and Publicity 3
JOUR 225 F Newspaper Production 3

Required Courses (14 units) Units
MACH 086 F CNC Machine Set-Up and Operation 3
MACH 087 F CNC Parts Programming 3
MACH 088 F Advanced CNC Machining 3
MACH 091 F Intro to Machine Tools 5

Total Units: 14

MACHINE TECHNOLOGY

CNC Operator Certificate

The CNC Operator Certificate program requires a total of 14 units of which 14 units are in required courses with a minimum grade of “C” in each course taken. At least one-half of the units toward the certificate must be completed at Fullerton College. The goal of this certificate is to prepare students for entry-level employment as CNC (Computer Numerical Control) machine tool operators and to enhance the skills of machinists who are currently employed in the trade.

Required Courses (14 units) Units
MACH 086 F CNC Machine Set-Up and Operation 3
MACH 087 F CNC Parts Programming 3
MACH 088 F Advanced CNC Machining 3
MACH 091 F Intro to Machine Tools 5

Total Units: 14
Computer Numerical Control (CNC) Certificate

The Computer Numerical Control (CNC) Certificate program requires the completion of 43-44 units of which 35 units are in required courses. An additional 9 units must be chosen from the restricted electives listed below. A minimum grade of “C” is required in each course taken. At least one half of the units toward the certificate must be completed at Fullerton College.

Required Courses (34-35 units) Units
DRAF 070 F Blueprint Reading for the Metal Trades 2
DRAF 140 F AutoCAD for Industry 2
DRAF 173 F Geometric Dimensioning and Tolerancing 2
MACH 050 F CNC Programming Using Mastercam 3
MACH 060 F CNC Programming Using SURFCAM 3
MACH 052 F Adv. CNC Programming Using Mastercam or 3
MACH 062 F Adv. CNC Programming Using SURFCAM 3
MACH 086 F CNC Machine Set-Up and Operation 3
MACH 087 F CNC Parts Programming 3
MACH 091 F Intro to Machine Tools or 5
MACH 116 F Machine Tools 2
METL 192 F Fundamentals of Metallurgy 5
TECH 081 F Technical Mathematics I 3
TECH 108 F Manufacturing Processes 3

Restricted Electives (9 units) Units
DRAF 145 F CAD/CAM 2
MACH 040 F CNC Wire EDM: Programming & Operation 3
MACH 052 F Adv. CNC Programming Using Mastercam or 3
MACH 062 F Adv. CNC Programming Using SURFCAM 3
MACH 088 F Advanced CNC Machining 3
MACH 092 F Intermediate Machine Tools 5
TECH 088 F Technical Science 3
TECH 127 F Industrial Safety 1
WELD 121AF Intro to Welding 2

Total Units: 43-44

Machine Technology — Level I Certificate

The Machine Technology — Level I Certificate program requires the completion of 17-18 units with a minimum grade of “C” in each course taken. At least one half of the units toward the certificate must be completed at Fullerton College.

Required Courses (17-18 units) Units
MACH 086 F CNC Machine Set-Up and Operation 3
MACH 091 F Intro to Machine Tools or 5
MACH 116 F Machine Tools 2+2
MACH 092 F Intermediate Machine Tools 5
MACH 093 F Advanced Machine Tools 5

Total Units: 17-18

Machine Technology — Level II Certificate

The Machine Technology — Level II Certificate program requires the completion of 34 units of which 25 units are in required courses. An additional 9 units must be chosen from the restricted electives listed below. A minimum grade of “C” is required in each course taken. At least one half of the units toward the certificate must be completed at Fullerton College.

Required Courses (24-25 units) Units
DRAF 070 F Blueprint Reading for the Metal Trades 2
DRAF 173 F Geometric Dimensioning and Tolerancing 2
MACH 086 F CNC Machine Set-Up and Operation 3
MACH 091 F Intro to Machine Tools or 5
MACH 116 F Machine Tools 2
MACH 092 F Intermediate Machine Tools 5
MACH 093 F Advanced Machine Tools 5
TECH 081 F Technical Mathematics I 3

Restricted Electives (9 units) Units
DRAF 171 F Fundamentals of Drafting 2
MACH 010 F Machining Skills Lab ,5-2
MACH 040 F CNC Wire EDM: Programming & Operation 3
MACH 088 F Advanced CNC Machining 3
METL 192 F Fundamentals of Metallurgy 3
TECH 088 F Technical Science 3
TECH 108 F Manufacturing Processes 3
TECH 127 F Industrial Safety 1
WELD 121AF Intro to Welding 2

Total Units: 34

Mastercam Certificate

The Mastercam Certificate requires a total of 6 units. Both classes must be completed with a grade of “B” or better.

Required Courses (6 units) Units
MACH 050 F CNC Programming Using Mastercam 3
MACH 052 F Adv. CNC Programming Using Mastercam 3

Total Units: 6

Surfcam Certificate

The Surfcam Certificate requires a total of 6 units. Both classes must be completed with a grade of “B” or better.

Required Courses (6 units) Units
MACH 060 F CNC Programming Using SURFCAM 3
MACH 062 F Adv. CNC Programming Using SURFCAM 3

Total Units: 6
MANUFACTURING TECHNOLOGY
Technology and Engineering Division
Office: Bldg 700
714.992.7211
Dean: Scott McKenzie
Website: techneng.fullcoll.edu

Associate in Science Degree
Curriculum leads to the Associate in Science Degree. The Manufacturing Technology Major incorporates courses from a number of departments within the Technology and Engineering Division. A student pursing the Manufacturing Technology Major must take core courses from all of these departments in addition to a concentration in one or more of the major areas. The areas of concentration are: Drafting, Machine Technology, and Welding. Requires 24 units from courses listed.

Complete 24 or more units from the following list:
Required CORE Courses (9 units) Units
DRAF 171 F Fundamentals of Drafting 2
MACH 116 F Machine Tools 2
TECH 108 F Manufacturing Processes 3
WELD 121AF Intro to Welding 2

Additional (15 units) Units
Any Drafting course
Any Machine Technology course
Any Welding course except WELD 095 F
METL 192 F Fundamentals of Metallurgy 3
TECH 127 F Industrial Safety 1
Total Units: 24

MARKETING MANAGEMENT
Marketing Management
Associate in Science Degree
Curriculum leads to the Associate in Science Degree and/or employment in an entry-level position in the field of marketing. This degree requires 29-30 units following the requirements listed below.

Required Courses Units
CIS 100 F Intro to Personal Computers 3
MKT 151 F Internet Marketing 2

One course from the following for a total of 3-4 units: Units
ACCT 001 F Accounting for Small Business 3
ACCT 100BF Financial Accounting Principles 3
ACCT 101AF Financial Accounting 4

Marketing Management Certificate
The Marketing Management Certificate requires completion of 28-30 units following the requirements listed below. A minimum grade of "C" is required in each course taken. At least one half of the units toward the certificate must be completed at Fullerton College.

Required Courses Units
CIS 100 F Intro to Personal Computers 3
MKT 151 F Internet Marketing 2

One course from the following for a total of 3-4 units: Units
ACCT 001 F Accounting for Small Business 3
ACCT 100BF Financial Accounting Principles 3
ACCT 101AF Financial Accounting 4

One course from the following for a total of 3-4 units: Units
Acct 001 F Accounting for Small Business 3
Acct 100BF Financial Accounting Principles 3
Acct 101AF Financial Accounting 4

One course from the following for a total of 3-4 units: Units
Bus 111 F Business Communications 3
Bus 211 F Writing for Business 3
One course from the following for a total of 3 units: Units
BU S 100 F Intro to Business 3
BU S 180 F Small Business Management 3

One course from the following for a total of 3 units: Units
BU S 162 F Business Economics 3
BU S 170 F Principles of E-Business 3
ECON 101 F Principles of Economics — Micro 3

One course from the following for a total of 3 units: Units
(See counselor for determination of correct course) BUS 240 F Legal Environment of Business 3
BUS 241 AF Business Law 3

One course from the following for a total of 3 units: Units
BUS 224 F International Marketing 3
MK T 100 F Intro to Marketing 3

One course from the following for a total of 3 units: Units
MK T 103 F Principles of Advertising 3
MK T 205 F Multicultural Markets in U.S. 3

One course from the following for a total of 2-3 units: Units
BUS 269 F Managing Business Projects 2
MK T 090 F Current Issues in Marketing .5-3
(Minimum of 2 units meets requirement)
MK T 201 F Small Business Promotions 3
MK T 208 F Principles of Selling 3
Total Units: 28-30

MATHEMATICS

Associate in Arts Degree

The Mathematics Associate in Arts Degree program requires 18 units of which 12 units are in required courses. An additional 6 units must be chosen from the restricted electives listed below. A minimum of 10 units in the major must be completed at Fullerton College. A minimum grade of “C” is required in all courses.

Required Courses: (12 units) Units
MATH 150AF Calculus I 4
MATH 150BF Calculus II 4
MATH 250AF Multivariable Calculus 4

Restricted Electives: (6 units) Units
CSCI 123 F Intro to Programming Concepts in C++ 4
MATH 120 F Introductory Probability and Statistics 4
MATH 171 F Discrete Mathematics 4
MATH 172 F Graph Theory and Linear Algebra 4
MATH 250BF Linear Algebra and Differential Equations 4
MATH 250CF Additional Topics in Linear Algebra 2
PHYS 221 F General Physics I 4
Total Units: 18

MUSIC
Associate in Arts Degree
Curriculum leads to the Associate in Arts Degree. This degree requires a total of 32-38 units of which 31 units are in required courses. An additional 3-7 units must be chosen from the restricted electives listed below.

Required Courses (29*-31 units) Units
MUS 108 F Intro to Music Technology 2
MUS 106 F Intro to Music Theory 3
MUS 104AF Beginning Musicianship 1
MUS 104BF Intermediate Musicianship 1
MUS 107AF Harmony I 3
MUS 107BF Harmony II 3
MUS 204AF Advanced Musicianship 1
MUS 135AF* Beginning Piano 1
MUS 135BF* Piano 1
MUS 120 F Survey of Music History 3
MUS 225 F Applied Music — Private Study or 1
MUS 228 F Advanced Voice or 1
MUS 237 F Advanced Piano or 1
MUS 244 F Advanced Strings or 1
MUS 247 F Advanced Woodwinds or 1
MUS 250 F Advanced Brass or 1
MUS 253 F Advanced Percussion 1
MUS 123 F Concert Hour 1
Major performance group each semester 1, 1, 1, 1
Applied Music — Private study or Advanced Instrument study each semester 1, 1, 1, 1
Music 123 F Concert Hour each semester 1, 1, 1, 1

Restricted Electives (3-7 units) Units
MUS 030 F Music Notation Software 2
MUS 203 F Counterpoint 3
MUS 204BF Pop/Commercial Musicianship 1
MUS 205 F Pop/Commercial Music Theory 3
MUS 207 F Pop/Commercial Arranging/Composing 3
Total Units: 32-38

*Proficiency exam or equivalent course work will be accepted for this requirement.

Music: Commercial
Associate in Arts Degree
Curriculum leads to the Music: Commercial Associate in Arts Degree and provides training for those who do not plan to transfer to a four-year university or college. The emphasis is upon preparation of the performer, composer, or arranger. While most of the courses suggested are transferable, the curriculum does not meet the general education requirements for the lower division of a four-year university or college. This degree requires 22 units of which 19 units are in required courses. An additional 3 units must be chosen from the restricted electives listed below.

Required Courses (19 units) Units
MUS 108 F Intro to Music Technology 2
MUS 123 F Concert Hour (4 terms required) .5
MUS 135BF Piano (3rd term) 1
MUS 207 F Pop/Commercial Arranging/Composing 3
MUS 224 F Recording Studio II 3
Performance group each semester 1
Applied music class each semester (200 level) 1

Restricted Electives (3 units) Units
MUS 112 F The Music Business 2
MUS 113 F Jazz History: An Appreciation 3
MUS 119 F History of Rock Music 3
MUS 120 F Survey of Music History 3
MUS 156 F Beg. Jazz Improvisation: Instrumental or 1
MUS 157 F Beg. Vocal Styling and Improvisation 1
MUS 208 F Music Copying 2
MUS 256 F Adv. Jazz Improvisation: Instrumental or 1
MUS 257 F Adv. Vocal Styling and Improvisation 1
Total Units: 22

Certificate in Piano Teaching
The Certificate in Piano Teaching is a two-semester program that is intended for anyone seeking to expand their teaching and playing skills. The certificate program is for potential piano teachers and the sequence of courses is designed to provide the technical skills, theoretical background, musical understanding and historical background needed for effective teaching. This certificate requires completion of 24 units. MUS 021 F and MUS 022 F Teaching of Piano must be completed at Fullerton College.

Required Courses (24 units) Units
CDES 120 F Child Development 3
MUS 021 F The Teaching of Piano I 3
MUS 022 F The Teaching of Piano II 3
MUS 107AF Harmony I 3
MUS 107BF Harmony II 3
MUS 104AF Beginning Musicianship 1
MUS 104BF Intermediate Musicianship 1
MUS 120 F Survey of Music History 3
MUS 225 F Applied Music: Private Study 1
MUS 265 F Piano Ensemble 1
Total Units: 24
Recording/Production Certificate

The Recording/Production Certificate in Music requires the completion of the 33 units listed below with a minimum grade of "C" in each course taken.

- **MUS 108 F** Intro to Music Technology 2
- **MUS 110 F** Electronic Music I 3
- **MUS 112 F** The Music Business 2
- **MUS 113 F** Jazz History: An Appreciation or 3
- **MUS 119 F** History of Rock Music 3
- **MUS 116 F** Music Appreciation 3
- **MUS 124 F** Recording Studio I 3
- **MUS 135AF** Beginning Piano 1
- **MUS 135BF** Piano* 1
- **MUS 224 F** Recording Studio II (1st/2nd terms) 3
- **MUS 910 F** Electronic Music II* (1st/2nd/3rd terms) 3

**Total Units:** 33

*(Proficiency examination or equivalent curriculum will be accepted for this requirement.

Music Major General Requirements

As a music major, you are expected to declare a performance area (voice, piano, or other instrument), to participate in at least one large performing group each semester, to be enrolled in Concert Hour each semester, to be enrolled in music theory and musicianship each semester, and to perform for student recitals and faculty juries on your major instrument each semester unless special exemption has been allowed. In addition to studying your major instrument each semester, you are urged to develop as much facility on the piano as possible because of its importance in other areas of your musical training.

APPLIED MUSIC: Four-year colleges vary in the amount of applied music credit that may be applied to the Baccalaureate degree. Students are cautioned to check the catalog of the college they plan to attend for its specific statement on the amount of applied music credit that will count toward the degree.

OFFICE TECHNOLOGY

Administrative Office Assistant Associate in Science Degree

Curriculum leads to the Administrative Office Assistant Associate in Science Degree and/or employment in the office management position. This degree requires 60 units of which 26-27 units must be chosen from the following requirements listed below. An additional 5-6 units must be chosen from the restricted electives listed below. *See this catalog for options for the Associate in Science Degree general education requirements.

Required Courses (26-27 units) Units
- **ACCT 100BF** Financial Accounting Principles or 3
- **ACCT 101AF** Financial Accounting 4
- **BUS 100 F** Intro to Business 3
- **BUS 111 F** Business Communications 3
- **BUS 266 F** Human Relations in Business 3
- **CIS 104 F** Presentation Graphics 2
- **CIS 105 F** Spreadsheet I 2
- **CIS 109 F** Personal Computer Security 2
- **CIS 123AF** Word Processing I 2
- **CIS 123BF** Word Processing II 2
- **CIS 142 F** Database I 2
- **OT 070 F** Business Protocol and Ethics 2
- **OT 080 F** Keyboarding — Beginning 1.5
- **OT 081 F** Keyboarding — Speed and Accuracy 1.5

Restricted Electives (5-6 units) Units
- **BUS 151 F** Business Mathematics 3
- **CIS 150 F** Intro to Internet 2
- **CIS 048 F** Intro to PC Communications 2
- **CIS 120AF** Project Management I 2
- **CIS 120BF** Project Management II 2
- **CIS 151 F** Internet Research 2

**Total Units:** 60

Administrative Office Assistant Certificate

The Administrative Office Assistant Certificate requires the completion of 33-34 units of which 26-27 must be chosen from the required courses. An additional 5-6 units must be chosen from the restricted electives listed below. A minimum grade of "C" is required in each course taken. At least one half of the units toward the certificate must be completed at Fullerton College.

Required Courses (26-27 units) Units
- **ACCT 100BF** Financial Accounting Principles or 3
- **ACCT 101AF** Financial Accounting 4
- **BUS 111 F** Business Communications 3
- **BUS 266 F** Human Relations in Business 3
- **CIS 104 F** Presentation Graphics 2
- **CIS 105 F** Spreadsheet I 2
- **CIS 109 F** Personal Computer Security 2
- **CIS 123AF** Word Processing I 2
- **CIS 123BF** Word Processing II 2
- **CIS 070 F** Current Computer Topics 1-3
- **CIS 142 F** Database I 2
- **OT 080 F** Keyboarding — Beginning 1.5
- **OT 081 F** Keyboarding — Speed and Accuracy 1.5
Restricted Electives (5-6 units) | Units
---|---
BUS 151 F | Business Mathematics | 3
CIS 048 F | Intro to PC Communications | 2
CIS 102 F | Intro to Open Source Software | 3
CIS 120AF | Project Management I | 2

PARALEGAL STUDIES

The Fullerton College's Paralegal Studies Program approved by the American Bar Association (ABA) offers an Associate in Science Degree and a Certificate to qualified students. The goal of the program is to educate students to become paralegals who perform effectively in a variety of legal settings and adapt to changes in the ever-evolving field of law. This program prepares the student for a career as a paralegal working under the supervision of an attorney in either the public or private sector.

The objectives of the program are as follows:

• To maintain a program that is dedicated to quality education and occupational competency for the paralegal student in the field of law;
• To ensure that students receive specific instruction and training in the skills necessary to succeed in any legal environment;
• To offer an ever-expanding curriculum which provides not only a broad understanding of the substantive law, but demonstrates and teaches the practical application of this knowledge in today’s legal environment;
• To stress the importance of upholding the general principles of ethics, professional responsibility, and the prohibitions against the unauthorized practice of law;
• To periodically review and revise the curriculum in response to the recommendations of the Fullerton College Paralegal Studies’ Advisory Committee, the demands of the legal community and the American Bar Association, as well as statutory provisions contained within California’s Business and Professions Code;
• To provide the student with the opportunity to apply the skills and knowledge taught in the program by offering the student the ability to enroll and participate in an internship, thereby providing the student with a modicum of legal experience before entering the job market.

Students who wish to transfer course work into the Fullerton College Paralegal Studies Program from another school will be able to transfer in no more than six (6) units of legal specialty classes provided the course is the same as a course offered at Fullerton College and awards exactly the same amount of units. Students who wish to attain an Associate in Science Degree or a Certificate from Fullerton College’s Paralegal Studies Program must complete the 18 units of required courses for the major at Fullerton College.
# Associate in Science Degree

The Paralegal Studies Program is approved by the American Bar Association (ABA). Curriculum leads to the **Associate in Science Degree** and/or employment in a paraprofessional capacity as an assistant to an attorney in private practice, in a governmental agency, or in private industry. Paralegals may perform many tasks under the supervision of a licensed attorney including preparation of forms and pleadings, interviewing clients, researching and writing legal documents, managing a law office, and preparing word processing forms and documents. This program is not intended to prepare students for the practice of law.

This degree requires 27 units, of which 18 are in required courses; an additional 9 units must be chosen from the restrictive electives listed below. A minimum grade of “C” is required in each course taken. Additionally, students must achieve a minimum typing proficiency of 45 wpm before being awarded this degree. See Paralegal Studies Coordinator for more program information.

# Paralegal Studies Certificate

The Paralegal Studies Program is approved by the American Bar Association (ABA). The **Paralegal Studies Certificate** will be awarded to those students possessing an Associate in Science Degree, an Associate in Arts Degree, or a Bachelor’s or higher degree from a regionally-accredited college or university. All students with an Associate Degree must have their transcripts evaluated for General Education requirements for the Associate in Science Degree in Paralegal Studies.

This certificate requires the completion of 30 units of which 18 are in the required courses listed below. An additional 12 units must be chosen from the restricted electives listed below. A minimum grade of “C” is required in each course taken. All required courses, and at least one half of the restricted units toward the certificate must be completed at Fullerton College. Additionally, students must achieve a minimum typing proficiency of 45 wpm before being awarded this degree. See Paralegal Studies Coordinator for more program information.

**Therapeutic and Sports Massage Therapist Level I Certificate**

The **Therapeutic and Sports Massage Therapist Level I Certificate** program requires a total of 26 units (528 hours) of which are all in required courses. This certificate is designed to prepare students with the necessary entry level professional skills for employment in the field of massage therapy. All classes must be completed with a “C” or better. Students must present current CPR and First Aid cards to receive certificate.

**Required Courses (26 Units) | Units**
--- | ---
WELL 110 F Pathology: The Massage Connection | 3
WELL 230 F The Body-Mind Connection | 3
WELL 232 F Basic Intro to Massage | 4
WELL 233 F Intermediate Massage | 3
WELL 234 F Advanced Massage | 3
WELL 236 F Sports Massage | 3
WELL 238 F Massage and Bodywork Lab | 2
WELL 239 F Internship Massage and Bodywork | 1-4
WELL 265 F Kinesiology | 3

*2 units required from WELL 239 F

Total Units: **26**

*Students must present current CPR and First Aid cards to receive certificate.

---

**Therapeutic and Sports Massage Therapist Certificate — Level II**

The **Therapeutic and Sports Massage Therapist Certificate — Level II** program requires a total of 14 required units and 8 units from restricted electives totaling 22 units (474 hours). All courses must be completed with a minimum grade of “C.” The two certificates together equal 1002 hours. Students must present current CPR and First Aid cards to receive certificate.

**Required Courses: (14 units) | Units**
--- | ---
WELL 239 F Internship Massage and Bodywork | 1-4
WELL 265 F Kinesiology | 3

*1 unit required from WELL 239 F.
*Students must present current CPR and First Aid cards to receive certificate.
Restrictive Electives: (8 units) Units

ANTH 102 F Cultural Anthropology 3
PE 102 F Yoga 1
PE 103 F Aikido 1
PE 110 F Pilates (Alignment/Correctives) 1
PE 270 F Diet and Exercise for Athletes 3
WELL 119 F Applied Biomechanics 2
WELL 221 F Personal Training Internship 1-2
WELL 239 F Internship Massage and Bodywork 1-4

*WELL 239 F Units earned beyond the 1 required will count towards restricted electives.

POLITICAL SCIENCE

Associate in Arts Degree

Curriculum leads to the Associate in Arts Degree program requiring the completion of a total of 18 units of which 12 units are in required courses. An additional 6 units must be chosen from the restricted units listed below.

Required Courses (12 units) Units

I. Required Class — 3 Units
POSC 100 F American Government 3

II. Category A — 6 Units from the following:
POSC 110 F Contemporary American Politics 3
POSC 120 F Intro to Political Theory 3
POSC 150 F California Government and Politics 3
POSC 275 F Intro to Public Law 3

Category B — 3 Units from the following:
POSC 200 F Intro to the Study of Politics 3
POSC 215 F Comparative Political Systems 3
POSC 216 F Government and Politics in the Middle East 3
POSC 230 F Intro to International Relations 3

Restricted Electives (6 units) Units

Select two of the following categories and choose one class from each category:

Category A
ETHS 101 F American Ethnic Studies 4
ETHS 130 F African-American History I 3
ETHS 141 F Chicano/Chicana History 3
HIST 270 F Women in the United States History 3
SOC 225 F Sociology of Women 3

Category B
HIST 111 F Western Civilization II 3
HIST 113 F World Civilizations II 3
HIST 127 F Survey of American History 3
HIST 152 F Survey of British History II 3
HIST 160BF Modern China and Japan 3
HIST 170 F History of the United States I 3
HIST 171 F History of the United States II 3

Category C
ANTH 102 F Cultural Anthropology 3
GEOG 100 F Global Geography 3
GEOG 160 F Cultural Geography 3
GEOG 281AF Intro to Geographic Info. Systems 3
POSC 180 F Capital Field Trip: Sacramento Seminar 3

Category D
ECON 102 F Principles of Economics — Macro 3
PHIL 160 F Intro to Ethics 3

### Real Estate Sales Certificate

The Real Estate Sales Certificate requires the completion of 16-17 units of which 13-14 must be chosen from the required courses listed below. An additional 3 units must be chosen from the restricted electives listed below. A minimum grade of "C" is required in each course taken. At least one half of the units toward the certificate must be completed at Fullerton College. Real Estate courses required may not be offered each semester. For information regarding course offerings, contact the Business and CIS Division Office.

By completing the Real Estate Sales Certificate, the student will meet the educational requirements for the Renewable Salesperson Licensure.

### Assistant Costume Designer Certificate

(pending State approval)

This high level certificate provides the student with expertise in order to assist the Costume Designer in costing for film, television, theme park entertainment and theater. The Assistant Costume Designer should be able to utilize the skills acquired in the Cutter/Draper and Stitcher certificates, be able to illustrate fashion and implement design skills and practices. This certificate is designed to provide the student with a course of study leading to certification and employment in the entertainment industry as an Assistant Costume Designer. The Assistant Costume Designer certificate program requires the completion of 40.5 to 43 units of which 34.5 to 37 units are in required courses. All courses must be completed with a grade of “C” or better.

### Costume Cutter/Draper Certificate

(pending State approval)

This course of study provides the student with training in order to create patterns for costumes using both flat-pattern and draping methods, in addition to cutting and assembling costumes for the entertainment industry. Students also receive training in basic theatrical production process. This certificate is designed to provide the student with a course of study leading to certification and employment in the entertainment industry as a Costume Cutter/Draper. This certificate program requires the completion of 33.5-36 units of which 27.5-30 units are in required courses. All courses must be completed with a grade of “C” or better.

Theatrical Costumer Certificate

The Theatrical Costumer Certificate requires the completion of 34 units of which 28 units are in required courses. An additional 6 units must be chosen from the restricted electives listed below. This certificate leads to employment with regional theatre and performing groups as a technician.

Required Courses (28 units) Units
ART 139 F Fashion Sketching 2
FASH 101 F Clothing I 2
FASH 108AF Flat Pattern Methods and Design I 2
FASH 188 F Apparel Production 2
FASH 190 F Pattern Grading 1
FASH 206 F Textiles 3
FASH 209AF Draping 2
FASH 242 F History of Costume 3
THEA 100 F 3 units
THEA 145 F 3 units (1st semester)
THEA 149 F 1 unit
THEA 255 F 2 units (1st and 2nd semesters)

Restricted Electives (6 units) Units
FASH 085 F Bridal and Special Occasion Wear 2
FASH 107 F Apparel Analysis 3
FASH 108BF Flat Pattern Methods and Design II 2
FASH 186 F Workroom Sketching 2
FASH 205AF Tailoring 2
FASH 244 F Ethnic Costume 2
THEA 075 F Theatrical City Tours: New York 2
THEA 076 F Theatrical City Tours: London 2
THEA 145 F Theatrical Costuming (2nd semester) 3
THEA 147AF Stage Makeup 3

Total Units: 34

Advanced Theatrical Costumer Certificate

In addition to the basic 34 unit requirements of the Theatrical Costumer Certificate, the student must complete 19 more units for an Advanced Theatrical Costumer Certificate, 13 of which are in required courses and an additional 6 units restricted electives.

Required Courses (13 units) Units
FASH 085 F Bridal and Special Occasion Wear 2
FASH 107 F Apparel Analysis 3
FASH 108BF Flat Pattern Methods and Design II 2
FASH 244 F Ethnic Costume 2
FASH 297 F Fashion Design Portfolio 1
THEA 147AF Stage Makeup 3

Restricted Electives (5 units) Units
DRAF 070 F Blueprint Reading for the Metal Trades 2
DRAF 171 F Fundamentals of Drafting 2
MACH 116 F Machine Tools 2
METL 192 F Fundamentals of Metallurgy 3
TECH 081 F Technical Mathematics I 3
TECH 108 F Manufacturing Processes 3

Total Units: 24

Cost of Classes: Most Theatre Art classes require that equipment and supplies be purchased or supplied by students. The cost of basic materials necessary to begin a class, if the student has none to begin with, is between $5 and $50 unless otherwise specified in the course description. Equipment can usually be used in several related classes and need not be duplicated for each class.

WELDING

Welding Technology Certificate

The Welding Technology Certificate program requires the completion of not less than 24 units of which 19 units are in required courses. An additional 5 units must be chosen from the restricted electives listed below. A minimum grade of “C” is required in each course taken. At least one half of the units toward the certificate must be completed at Fullerton College.

Required Courses (19 units) Units
WELD 091AF Industrial Welding Fundamentals or 5
WELD 121AF Intro to Welding and 2
WELD 121BF Fundamentals of Inert Gas Welding 2
WELD 091BF Semi-Automatic Welding Applications 5
WELD 091CF Manual Arc Welding Fundamentals 5
WELD 091DF Structural Welding Certification 5

Restricted Electives (5 units) Units
DRAF 070 F Blueprint Reading for the Metal Trades 2
DRAF 171 F Fundamentals of Drafting 2
MACH 116 F Machine Tools 2
METL 192 F Fundamentals of Metallurgy 3
TECH 081 F Technical Mathematics I 3
TECH 108 F Manufacturing Processes 3

Total Units: 24

Participation in at least one production is required of each theatre arts major each semester. During residency at Fullerton College, all theatre arts majors are required to perform in as many areas of production as possible. Recommendations by staff for the theatre arts major will be based upon the satisfactory fulfillment of above requirements.
WOOD TECHNOLOGY

Cabinetmaking and Millwork Technology Certificate

The Cabinetmaking and Millwork Technology Certificate requires the completion of 35 units of which 26 units are in required courses. An additional 9 units must be chosen from the restricted electives listed below. A minimum grade of “C” is required in each course taken. At least one half of the units toward the certificate must be completed at Fullerton College.

Required Courses: (26 units)

Course Descriptions

NOTE: This publication must be prepared well in advance of the time period it covers; therefore, changes in some programs and policies may occur. Courses as described are subject to change without notice, and some listed courses are not offered each year. In addition, some courses or programs that are offered may have to be canceled because of insufficient enrollment, elimination, or reduction in programs or for any other reason considered sufficient by the College president or designee.

All courses meet the standards and criteria for courses and classes set forth in the California Education Code Title V regulations, Section 55002 and 55806.

Courses fall into one of two categories: (1) an associate degree credit course or (2) a course.

An associate degree credit course is a course which has been designated as college level, which is appropriate to the associate degree in accordance with the requirements of Section 55805.5 and “which has been recommended by the college and/or district curriculum committee and approved by the district governing board as a collegiate course meeting the needs of the students eligible for admission.”

Only courses that conform to the standards specified in Section 55002 and that fall into the following categories may be offered for associate degree credit:

1. All lower division courses accepted toward the baccalaureate degree by the California State University or University of California or designed to be offered for transfer.

2. Courses that apply to the major in non-baccalaureate occupational fields.

3. English courses not more than one level below the first transfer level composition course, typically known as English 1A or English 100. Each student may count only one such course as credit toward the associate degree.

4. All mathematics courses above and including Intermediate Algebra.

5. Credit courses in English and mathematics taught in or on behalf of other departments and which, as determined by the local board of trustees require entrance skills at a level equivalent to those necessary for the courses specified in subsections (3) and (4).

Non-degree credit courses are courses that earn credit but are not counted toward the 60 units required for the associate degree. Non-degree courses are intended to assist students in performing the skills needed for college level courses. Non-degree courses do apply toward: residency, athletic eligibility, work study and financial aid, veterans benefits, associated student body office, and full-time status.

Course Numbering System Defined

Each course is designated by a number, the first number on the line. A descriptive title and the units allowed for the course follow the course number.

The following numbering system governs the applicability of courses toward completion of programs:

100-299 Courses numbered 100 and above are parallel to baccalaureate-level courses and, as such, are offered for transfer to colleges and universities. The California State University system accepts all courses in this number category for credit. The University of California system accepts only those courses that are also designated “UC” to the University of California system. Those courses that are not marked “UC” are not transferable to the University of California system.

As a general rule, numbers 200-299 are used to designate higher level courses and usually require introductory courses as prerequisites.

To expedite transfer acceptance, articulation agreements have been negotiated with several nearby institutions and the student is advised to consult his/her counselor to ensure proper transfer and acceptance of earned credits.

198 A-Z Special Topics Courses formerly known as 198 Special Topics will now be designated Special Topics 198 A-Z. These courses are designed to allow faculty to teach transfer level courses in their particular areas of interest and expertise. These courses can also address special interests and needs of students. The letter following the 198 does not represent repeatability but rather identifies each unique course with a specific title.

900 Courses numbered 900 are unique and currently do not have equivalent lower division courses offered at a California State University or University of California. However, these courses typically have the rigor and content of baccalaureate level courses. The transferability will be determined by the receiving institution. Students are advised to keep their syllabi and all assignments and work completed in class as a means to verify course content. Course outlines are available from the Fullerton College Office of Academic Services.
001-099 Courses numbered less than 100 are not designed for transfer. Courses numbered 001-099 are precollegiate, occupational and/or technical. Some of these courses are college preparatory. Course content is related to both skill development and acquisition of knowledge. Several courses that are typically intended for certificate and associate degree programs are included in this category. Occasionally these courses are accepted for transfer credit by four-year institutions. The determination of acceptance of these courses will be made by the receiving institution.

Course Prerequisite, Corequisite, Advisory

- **Prerequisite** When a course has a “prerequisite,” it means that a student must have certain documentable skills and/or knowledge before entering the course. This knowledge is considered necessary for a student to succeed in the course. The prior knowledge may be a skill (type 35 words per minute), some experience (has worked as a tax preparer), an ability (speaks and writes Spanish fluently), a test score (475 on the SAT Verbal Examination), or successful completion of a prior course (ENGL 060 F with a grade of Pass [P]). The student must complete the prerequisite successfully, with a grade of “P” or “C” or better, before enrolling in the course; “D,” “F” or “NP” grades are not acceptable.
• Corequisite A “corequisite” is just like a prerequisite (see above) with this exception: a student may take the corequisite concurrently with the course for which it is required. For example, with many lab courses in the sciences, students may take the required lecture course either prior to the lab or concurrently with it. When dropping or withdrawing from a course that has a corequisite, both courses must be dropped or withdrawn concurrently.

• Advisory When a course has “advisory,” it means that certain preparation is recommended before a student enters the course. The preparation is considered advantageous for a student to succeed in the course. Since the preparation is recommended, the student is advised, but not required, to meet the condition before or in conjunction with enrollment in the course or educational program. For example, an introductory course in design concepts is advised to help give students the skills to succeed in more specialized art courses.

• Challenges or Exceptions Prerequisites and corequisites for all courses will be listed in the college catalog under the entry for each class. Students are obligated to know and meet prerequisites and corequisites. Prerequisites and corequisites will be enforced, and students may be required to show proof of having met them. Challenges and exceptions may be granted only if students follow the appropriate challenge procedures. These procedures are found in the “Matriculation” section of the catalog. Students should go to the Counseling/Matriculation Office for copies of procedures and forms.

Credit Values

The number in parentheses following the title of the course is the semester credit value of the course.

Definition of Unit

Coursework at Fullerton College is measured in terms of semester units. A one-unit course requires a minimum of 48 hours of lecture, study and/or lab work on a semester system.

Open Enrollment Policy

It is the policy of the District that, unless specifically exempted by statute, every course, course section or class, the average daily attendance of which is to be reported for State aid, wherever offered and maintained by the District, shall be fully open to enrollment and participation by any person who has been admitted to the college(s) and who meets such prerequisites as may be established pursuant to Chapter 11 Division Two Part VI, Title 5 of the California Administrative Code, commencing with Section 51820.

Repeatable Activity Courses

A student may enroll more than once in an activity, performance, and/or studio art course that is designated as repeatable in the schedule or catalog. Courses that have a designated skills level (beginning, intermediate, advanced) may be taken for a combined total of four times. Example: A student who has taken beginning volleyball three times and intermediate volleyball once has completed the maximum number of repetitions allowed for the course, despite the different skills level.

Transfer Designation

All courses marked UC are transferable to the campuses of the University of California system. All courses with numbers of 100 and higher are transferable to the campuses of the California State University system. Those courses that are not marked UC are not transferable to the University of California campuses.

UC Credit Limitation indicates that there is a total maximum credit limitation of several courses. Students need to see the articulation agreement/counselor to determine the specific limitation.

In order to determine if a specific course meets a general education/breadth transfer requirement at a specific institution or if a course meets a specific major requirement at a transfer institution, students are advised to confer with their counselor regarding the transferability of the course to a particular college or university.

Some courses are marked by the following codes, they are defined as follows:

AA GE = These courses meet the Fullerton College General Education Requirement for the Associate degree.

CSU GE = These courses meet the lower division General Education requirements to the California State University (CSU) System.

IGETC = These courses meet the lower division General Education requirements to either the University of California (UC) or California State University (CSU) System.

MULT CULT REQ = Courses marked MULT CULT REQ, beginning Fall semester 1996 meet the Multicultural Education Requirement for the Associate degree.

### Accounting Courses

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACCT 001 F</td>
<td>Accounting for Small Business</td>
<td>(3)</td>
<td>Three hours lecture per week. This course is ideal for the student who wishes to attain a solid foundation in the basic fundamentals of accounting. This includes business students who are planning more advanced studies of accounting and business at four-year institutions, as well as students who desire knowledge in accounting for small businesses, but do not necessarily intend to major in accounting or transfer to a four-year university. Topics include fundamentals of double entry journals; preparation of trial balances; worksheets and simple financial statements for service or retail types of businesses; use of controlling accounts; special journals; cash journals; accrual and cash basis accounting; cash controls and bank reconciliation; payroll accounting including employee earnings and deductions and employer’s taxes and payments. (Degree Credit)</td>
</tr>
<tr>
<td>ACCT 011 F</td>
<td>Payroll Accounting</td>
<td>(2)</td>
<td>Three hours of lecture per week. This course is designed to provide an overview of social security, state and federal payroll taxes. The course is of a non-technical nature and is intended to give business students a practical working knowledge of the current tax laws and actual experience in applying the regulations. (Degree Credit)</td>
</tr>
<tr>
<td>ACCT 090 F</td>
<td>Current Topics in Taxation</td>
<td>(.5-3)</td>
<td>Variable hours of lecture and/or lab. This course offers timely and contemporary income tax-related topics designed to enhance job skills, expand the student’s knowledge of the most current tax practice environment, and increase employment opportunities. Unit credit may vary in any given semester. Consult the class schedule to verify specific topics and credit offered in a particular semester. May be taken for credit four times. (Degree Credit)</td>
</tr>
<tr>
<td>ACCT 100AF</td>
<td>Financial Accounting Principles</td>
<td>(3)</td>
<td>Four hours lecture per week. This course is the first part of a two-part financial accounting course that is equivalent to ACCT 101AF after the completion of ACCT 100AF and ACCT 100BF. This course covers the entire accounting cycle, cash, bank reconciliations, receivables, temporary investments, and incorporates a practical approach with the use of business papers and computer applications integrated into the homework. Not open to students who have completed ACCT 101AF with a grade of “C” or better. (CSU) (UC Credit Limitation) (Degree Credit)</td>
</tr>
<tr>
<td>ACCT 100BF</td>
<td>Financial Accounting Principles</td>
<td>(3)</td>
<td>Four hours lecture per week. This course is a continuation of 100AF Financial Accounting Principles with emphasis on the basic concepts of accounting for plant assets, intangible assets, payroll, notes payable and other liabilities, partnerships and corporations, long term liabilities and investments in bonds, inventories, statement of cash flow, and analysis of financial statements. The practical approach is continued with the use of business papers and computer applications integrated into the homework. Upon completion of this course, the student will have fulfilled the equivalent of ACCT 101AF requirement. Not open to students who have completed 101AF with a grade of “C” or better. (CSU) (UC Credit Limitation) (Degree Credit)</td>
</tr>
<tr>
<td>ACCT 101AF</td>
<td>Financial Accounting (4)</td>
<td>Five hours lecture per week. A course in beginning accounting meeting all transfer requirements to most four-year colleges and universities and providing a foundation for advanced work in vocational accounting or in other branches of business administration. This course covers accounting concepts and techniques fundamental to the administration of a business enterprise by analyzing and recording financial transactions, measuring and communicating economic information and the preparing, analyzing and interpreting of financial statements. Computer applications are integrated into the homework. This course is required of all accounting and business administration majors. (CSU) (UC) (Degree Credit)</td>
<td></td>
</tr>
<tr>
<td>ACCT 101BF</td>
<td>Managerial Accounting</td>
<td>(4)</td>
<td>Five hours lecture per week. This course provides a foundation for advanced courses in managerial accounting. The nature of the management process and the essential role of managerial accounting in this process are emphasized. Instructional topics include the application of managerial accounting to a manufacturing environment, job and process accounting systems, cost allocation, common cost classifications and estimation, cost-volume-profit analysis, absorption and variable costing, differential analysis for decision making, capital investment analysis, inventory management and analysis, budgeting, standard costing, responsibility accounting in a decentralized operation, and transfer pricing. Computer applications are integrated into the homework. This course is required of all accounting and business administration majors. (CSU) (UC) (Degree Credit)</td>
</tr>
</tbody>
</table>
| ACCT 104 F | Computerized Accounting | (2) | Letter Grade or Pass/No Pass option  
*Prerequisite:* ACCT 100AF with a grade of “C” or better  
*Corequisite:* ACCT 101AF with a grade of “C” or better  
One and one-half hour lecture and one and one-half hour lab per week. This course provides hands-on experience in accounting on a microcomputer. Systems included are the general ledger, accounts receivable and accounts payable, financial statements analysis, depreciation, inventory, and payroll. (CSU) (Degree Credit) |
ACCT 107 F QuickBooks (2)
One and one-half hour lecture and one and-one-half hour lab per week. This course will introduce students to basic financial record keeping software using the double-entry system for recording transactions. Emphasis will be placed on how to use accounting application software in a small business environment. (CSU) (Degree Credit)

ACCT 112 F Income Tax Procedure (3)
Three hours lecture per week. This course offers a simple and non-technical presentation of the information needed in preparing Federal Income Tax returns for individuals whose income is derived from wages and other various sources. Tax deductions and credits are also covered in detail. (CSU) (Degree Credit)

ACCT 201AF Intermediate Accounting (4)
Prerequisite: ACCT 101BF
Five hours lecture per week. A course in second-year accounting dealing with adjustments, working papers, cash and receivables, inventories, plant and equipment, intangibles, deferred charges, liabilities, income tax allocation and accounting for premiums. Required of all vocational accounting majors. (CSU) (Degree Credit)

ACCT 201BF Intermediate Accounting (4)
Prerequisite: ACCT 101BF
Five hours lecture per week. This course is a continuation of ACCT 201AF, involving a study of earnings per share, revenue recognition, accounting for pensions and other post-employment benefits, accounting changes and error corrections, cash flow statements, the impact of changing prices, and financial statement analysis. (CSU) (Degree Credit)

ACCT 202 F Introduction to Cost Accounting (4)
Prerequisite: ACCT 101BF
Five hours lecture per week. This course covers the theory of cost accounting including job order costs, estimated costs, standard costs, miscellaneous costs, and distribution cost systems as applied to the control and management of business through cost accounting procedures. Parallels cost account courses in four-year colleges. Required of all vocational accounting majors. (CSU) (Degree Credit)

ACCT 203 F Auditing (3)
Prerequisite: ACCT 101BF
Three hours lecture per week. This course emphasizes internal auditing with questions and separate cases. Incorporated into the course is one long case for application of auditing principles. (CSU) (Degree Credit)

ACCT 204 F Analysis of Financial Statements (3)
Prerequisite: ACCT 101AF with a grade of “C” or better
Three hours lecture per week. This course deals with characteristics of financial statements and financial statement analysis. A study of goals, methods, and tools for analysis is studied. In addition, accounts receivable, inventories, projected statements, cash budgets, and cash flow are studied. Emphasis is placed on financial analysis from a banking viewpoint. (CSU) (Degree Credit)

Administration of Justice Courses

AJ 059AF Basic Police Academy, Extended Format I (26)
Prerequisite: AJ 094 F or pre-service status with a law enforcement agency. No felony convictions. Valid California Driver’s license.
Advisory: AJ 080 F
Twenty-four hours of lecture and six hours of lab per week. This is the first semester of a course that meets all the requirements set forth by the California Commission on Peace Officer Standards and Training. A course study of statutory and case law relating to arrests, searches, seizures, related legal provisions governing the performance of peace officers, and Spanish for law enforcement. This includes the decision making process and moral and legal aspects of the use of force in making arrests. A study of the most modern firearm safety principles, capabilities and techniques of today's weapons and public and organizational policies involving the use of deadly force, in addition to other updated facets of a peace officer's functions. The academy stresses community oriented policing as a value system, a philosophy or management style that permits equal partnerships between the community and law enforcement to address crime and the fear of crime. Additionally, group discussions are held to increase the student's knowledge of Orange County demographics, the diversity of communities and other aspects of community policing. (Degree Credit)

AJ 059BF Basic Police Academy, Extended Format II (26)
Prerequisite: AJ 059AF
Twenty-four hours of lecture and six hours of lab per week. This is the second semester of a course that meets all the requirements set forth by the California Commission on Peace Officer Standards and Training. A course study of statutory and case law relating to arrests, searches, seizures, related legal provisions governing the performance of peace officers, and Spanish for law enforcement. This includes the decision making process and moral and legal aspects of the use of force in making arrests. A study of the most modern firearm safety principles, capabilities and techniques of today's weapons and public and organizational policies involving the use of deadly force, in addition to other updated facets of a peace officer's functions. The academy stresses community oriented policing as a value system, a philosophy or management style that permits equal partnerships between the community and law enforcement to address crime and the fear of crime. There is instruction to enhance the student's perception of law enforcement from a citizen's perspective. Additionally, group discussions are held to increase the student's knowledge of Orange County demographics, the diversity of communities and other aspects of community policing. (Degree Credit)
AJ 067 F Current Issues in Administration of Justice (.5-3)
Pass/No Pass only
Variable hours of lecture and/or lab. This course offers timely and current topics in the field of Justice Administration to enhance job skills, expand student knowledge, and increase employment opportunities. Unit credit may range from .5 to 3 units in any given semester. Consult the class schedule to verify specific topic area and credit offered in a particular semester. Course may be taken four times for credit.

AJ 068 F Parolee Contacts (1.5)
Pass/No Pass only
Prerequisite: Peace Officer Status
Twenty-four hours lecture per semester. This course is designed to improve the police officer’s ability to understand and deal with state prison paroles in many types of settings. It covers a basic understanding of the California prison system, typical parolee behavior, communicating with parolees and understanding conditions of parole. It also emphasizes teaching the officer the cognitive skills needed in a law enforcement field environment including proper field interrogation. Investigative recourses within the Department of Corrections are discussed as well as controlled interviews. (Degree Credit)

AJ 069 F H&S 11550 Drug Influence (.5)
Pass/No Pass only
Eight hours lecture per semester. This course is designed to improve the police officer’s ability to recognize the objective symptoms of drug intoxication, with emphasis placed on the proper application of California Health and Safety Code 11550. The course covers how the peace officer can develop techniques to better identify signs of specific drug ingestion, use proper drug testing methods and write effective reports to aid in successful prosecution. (Degree Credit)

AJ 070 F Emergency Management (1.5)
Pass/No Pass only
Twenty-four hours lecture per semester. This course is designed to introduce important tactical concepts when planning for natural and technological disasters and other critical incidents that require law enforcement response. It focuses on basic emergency management principles, including disaster preparedness, mitigation, response and recovery. Emphasis is placed on the use of the Standardized Emergency Management (SEMS) and Law Enforcement Incident Command (ICS) Systems. (Degree Credit)

AJ 071 F Preventing Racial Profiling (.5)
Pass/No Pass only
Eight hours lecture per semester. This course is designed to familiarize students with the conceptual and legal issues surrounding the unlawful practice of racial profiling. It examines critical cultural, legal and societal factors that ultimately lead to racial profiling as a discriminatory practice. The course emphasizes the need for the student to develop an understanding and respect for racial and cultural differences, and non-combative methods of carrying out law enforcement duties in a racially and culturally diverse environment. (Degree Credit)

AJ 072 F Investigating Domestic Terrorism (1)
Pass/No Pass only
Sixteen hours lecture per semester. This course is designed to give the student essential background information about domestic terrorism and demonstrate how law enforcement personnel can properly investigate terrorist crimes. An analysis of the historical, legal and political perspective of terrorist activity as well as assessing philosophical and psychological typologies of terrorists. The curriculum emphasizes how law enforcement can develop investigative and intelligence capabilities to counter terrorist activity as a part of American national security policy.

AJ 073 F Interview and Interrogation Update (1.5)
Pass/No Pass only
Twenty-four hours lecture per semester. This course is designed to improve a police investigator's ability to legally gather testimonial evidence from victims, witnesses and suspects. It covers basic communication theory, interview/interrogation preparation, behavioral analysis and investigative tactics. The curriculum emphasizes a legal centered approach to the taking of statements from suspects and witnesses by analyzing current state and federal law. It is intended for the full-time investigator. (Degree Credit)

AJ 074 F Conflict Resolution for Police Officers (.5)
Pass/No Pass only
Eight hours lecture per semester. The class will prepare law enforcement officers, and those interested in a career in law enforcement, to recognize the types of conflict encountered in law enforcement, communication styles that enhance and hinder conflict resolution, various methods of conflict resolution, and the resources available to law enforcement officers to assist in resolving conflict. (Degree Credit)

AJ 075 F Cultural Diversity (1)
Pass/No Pass only
Sixteen hours lecture per semester. This course is designed to give students a perspective of public safety professionals and their relationship to major cultural, racial, and ethnic groups including persons with disabilities as well as gays and lesbians. This course will also examine law enforcement personnel issues that deal with gender, sexual harassment, diversity, affirmative action, and other contemporary challenges. (Degree Credit)

AJ 076 F Community-Oriented Policing and Problem Solving (.5)
Pass/No Pass only
Eight hours lecture per semester. This course examines the community-oriented policing and problem solving (COPPS) philosophy and its impact on current law enforcement practices. The course explores the concept of police officers and private citizens working together in creative ways to help solve contemporary community problems related to crime, fear of crime and neighborhood decay. Emphasis is placed on how the implementation of the COPPS philosophy influences police planning and operations. (Degree Credit)

AJ 077 F Organized Crime (1)
Pass/No Pass only
Sixteen hours lecture per semester. This course will analyze the effects of International Organized Crime Groups in the United States and the American law enforcement effort to combat those criminal organizations. The class will review cooperative efforts between the United States and foreign governments to impact those organizations, the pitfalls encountered, and the success and failures that result. It will also examine the secret world of the “Men of Honor.” (Degree Credit)

AJ 078 F Multi-Agency Task Forces (.5)
Pass/No Pass only
Eight hours lecture per semester. This course will analyze the need, benefits, and procedures in the establishment of federal, state, and local task forces. Emphasis will be placed on working together in a multi-agency environment and achieving desired outcomes. (Degree Credit)
AJ 079 F Law Enforcement Career Preparation (.5)
Pass/No Pass only
Eight hours lecture per semester. This class will assist the student in identifying and utilizing effective performance strategies toward entry-level law enforcement employment examinations. Emphasis is placed on specific civil service testing procedures, including written exams, physical agility tests, oral board interviews, and the background investigation process. (Degree Credit)

AJ 080 F Lifetime Fitness for Law Enforcement (2)
Pass/No Pass only
Two hours lecture and two hours lab per week. This course is designed to introduce important wellness concepts to law enforcement personnel. Through the use of lecture, group discussion and practical demonstration, this course discusses how those in law enforcement can develop and maintain successful fitness habits and minimize job related stress. The course design emphasizes proper fitness assessment, effective anaerobic/aerobic fitness principles, the prevention of physical disablers through stress reduction, current nutrition guidelines and proper fitness program design. Course may be taken four times for credit. Intended to meet the basic requirements of Penal Code 13510 in raising the level of competence of California law enforcement officers. (Degree Credit)

AJ 081 F Use of Force (.5)
Pass/No Pass only
Eight hours lecture per semester. This class will make each student aware of use of force situations in field police activities and demonstrate the necessity for detailed follow-up investigations. In addition the class will cover the involved officer’s responsibility when using force and the supervisor’s follow-up responsibilities. (Degree Credit)

AJ 082 F Tactical Awareness (.5)
Pass/No Pass only
Eight hours lecture per semester. The class will aid the student in developing the positive mental awareness together with the physical consideration to handle tactical police situations. The realization is that in most situations officers respond and function as individuals, however, the importance of team work, control and supervision is reinforced. (Degree Credit)

AJ 083 F Narcotics Training for Field Officers (.5)
Pass/No Pass only
Eight hours lecture per semester. This class will allow the student to be able to identify PCP and cocaine, recognize the objective symptoms of a suspect under the influence, understand the law and what is required in reporting to gain a filing and conviction of the suspect. (Degree Credit)

AJ 084 F Domestic Violence (.5)
Pass/No Pass only
Eight hours lecture per semester. This class will demonstrate to the student that the intent of the Legislature in domestic violence cases is to stress enforcement of the laws to protect the victim and communicate the attitude that violent behavior is criminal behavior and will not be tolerated. The investigative process, arrest, court protective orders and victim assistance will be stressed. (Degree Credit)

AJ 085 F Police Vehicle Pursuits (2)
Pass/No Pass only
Two hours lecture per week. A study of police pursuits in California and the nation. Specific emphasis on California laws, both criminal and civil, affecting public agencies and violators involved in police pursuits. An analysis of officer and violator behavioral patterns both during and after police pursuits. This class will establish a better understanding of the dynamics and contemporary issues associated with high speed police chases.

AJ 086 F Values, Principles, and Ethics (.5)
Pass/No Pass only
Eight hours lecture per semester. This class will discuss the principles of honesty and morality within an organization and for the individual. Discussion on the acceptable rules of conduct as they relate to a police department are stressed. Practical guidelines will be given to the student concerning their professional on-duty conduct and their personal off-duty conduct. (Degree Credit)

AJ 087 F Supervisory Response to Officer Involved Shooting (1)
Pass/No Pass only
Sixteen hour lecture per semester. The class will prepare the supervisor to handle the necessary steps to ensure a proper at scene investigation, officer interview, completed report and review process. (Degree Credit)

AJ 088 F Gang Awareness Update (1.5)
Pass/No Pass only
Prerequisite: Peace Officer status or approval of Department Coordinator with completion of AJ 110AF, AJ 220 F, AJ 223 F, AJ 226 F, AJ 252 F, and AJ 278 F required
Twenty-four hours lecture per semester. The class will prepare the officer or student to understand the history, dynamics and the problems associated with today’s gangs. This class will help the student identify certain gang characteristics and activities. (Degree Credit)

AJ 089 F Child Abuse/Child Pornography (.5)
Pass/No Pass only
Eight hour lecture per semester. The class will prepare the student to identify, arrest and investigate child abuse and child pornography crimes. (Degree Credit)

AJ 090 F Weaponless Defense/Baton Training (.5)
Pass/No Pass only
Eight hour lecture per semester. The class will give the officer/student an understanding of the proper methods on use of weaponless defense and baton training. Also, the civil liabilities attached to the use of force will be discussed. (Degree Credit)

AJ 091 F Law Enforcement Instructor Development (2)
Pass/No Pass only
Two hours lecture per week. This course is designed to assist both current and future law enforcement instructors to maximize their instructional skills and improve the learning process. The course will introduce law enforcement instructors to current adult learning techniques and developing instructional technology. The instructors will be required to participate in both group and individual activities designed to enhance instructional skills. (Intended to meet the basic requirements of Penal Code 13510 in raising the level of competence of California law enforcement officers.)

AJ 092 F Crime Scene Investigation (1)
Pass/No Pass only
Twelve hours lecture and twelve hours lab per semester. This class will give the police officer the knowledge and practical application to collect and preserve evidence at crime scenes. Students are required to supply 35mm SLR/camera, two rolls of 24 exposure film and the cost of processing the film. (Degree Credit)
AJ 093 F DNA Genetic Fingerprinting (.5)
Pass/No Pass only
Eight hours lecture per semester. The class will prepare the officer/student to properly handle DNA evidence collection and preservation. An understanding of the fundamentals of DNA and the current techniques of analysis will be presented. (Degree Credit)

AJ 094 F Basic Police Academy Orientation (1)
Pass/No Pass only
Sixteen hours lecture and eight hours lab. This course is designed to have the student complete a series of competitive tests and evaluations which are a prerequisite to being admitted into the upcoming Police Academy. An in-depth dissemination of the recruit curriculum, which is specifically designed to achieve technical competence and physical proficiency in all areas of police training. (Degree Credit)

AJ 095 F Preventing Sexual Harassment (.5)
Pass/No Pass only
Eight hours lecture per semester. To provide the student with a basic understanding of the diverse and changing work force, a brief history and an in-depth study of the current laws which define discrimination/sexual harassment. (Degree Credit)

AJ 096 F CAD/Crime Scene Application (.5)
Pass/No Pass only
Eight hours lecture and sixteen hours lab per week. A twenty-four hour short course to provide the student with a working knowledge of CAD functions utilized in crime scene investigation by using computer drafting to draw various applications for criminal and traffic collision investigations. This course is certified by Peace Officer Standards and Training (POST) for continuing education for peace officers.

AJ 097 F Law Enforcement Supervisory Update (1.5)
Letter Grade or Pass/No Pass option
Twenty-four hours lecture to provide the student with basic skills utilized in supervising law enforcement personnel. (Degree Credit)

AJ 100 F Introduction to Law Enforcement (3)
Three hours lecture per week. Acquaints the student with the historical development of the criminal justice system, criminal behavior, the purpose of criminal law, and the advancement of the ethics and professionalism in the justice system. Provides an overview of the organization of local, state, and federal law enforcement agencies and an analysis of professional career opportunities. (CSU) (UC) (Degree Credit)

AJ 102 F Introduction to Probation and Parole (3)
Three hours lecture per week. This course examines the organization and operations of correctional, probation and parole agencies as part of the United States criminal justice system. It introduces the learner to the basic principles of parole and probation at the federal, state and local levels of government. Emphasis is placed on how the parole and probationary functions impact the justice process, particularly at the law enforcement and court levels. (CSU) (Degree Credit)

AJ 110AF Criminal Law (3)
Three hours lecture per week. A legal orientation of crime and the nature of criminal responsibility. Legal philosophy, processes and institutions are examined. Leading principles of law are explored with special emphasis given to laws of arrests, including an examination of the United States Constitution and the Bill of Rights. (CSU) (UC Credit Limitation) (Degree Credit)

AJ 110BF Advanced Criminal Law (3)
Prerequisite: AJ 110AF
Three hours lecture per week. A study of the elements of crimes against persons, property, and the State as they are recognized in the Penal Code and General Laws of California. Parties in crime, culpability, and incomplete offenses are presented from the point of view of the peace officer and the courts. (CSU) (UC Credit Limitation) (Degree Credit)

AJ 111 F Traffic Enforcement (3)
Three hours lecture per week. A study of the California Vehicle Code with emphasis on those sections which are most violated. Special study is made of traffic enforcement procedures, policies and issues which affect highway safety in today's society. (CSU) (Degree Credit)

AJ 128 F Police-Community Relations (3)
Three hours lecture per week. Relationship between law enforcement agencies, ethnic groups, news media, and other segments of the public. Areas of conflict and cooperation are explored. Public-relations programs and their effect upon law enforcement are studied. (CSU) (UC Credit Limitation) (Degree Credit)

AJ 135 F Weaponless Defense (1)
One hour lecture and one hour lab per week. Provides the student an opportunity to develop proficiency in the utilization of the police baton, the control of combative individuals, and the handling of passive, uncooperative, or armed-aggressive individuals. Meets one semester of physical education requirement. Course may be taken four times for credit. (CSU) (Degree Credit)

AJ 137 F Firearms (1)
Prerequisite: AJ 110AF
One hour lecture and one hour lab per week. The moral aspects, legal provisions, safety precautions and restrictions covering the use of firing of the sidearm and shotgun. Course may be taken four times for credit. (CSU) (Degree Credit)

AJ 140 F Juvenile Procedures (3)
Three hours lecture per week. A study of juvenile crime, laws and social issues relating to youthful offenders. Examination of child abuse, domestic violence and gang membership. Law enforcement responses to issues relating to juveniles, including the courts, probation and the California Youth Authority. (CSU) (Degree Credit)

AJ 151 F Report Writing (3)
Three hours lecture and three hours lab per week. This course examines the proper writing of police crime reports and their importance in the successful prosecution of cases. Emphasis is placed on developing the students' ability to accurately take notes, employ appropriate methods of obtaining information from victims, witnesses, and suspects, formulate investigative techniques, and recognize proper report language. (CSU) (Degree Credit)

AJ 220 F Criminal Procedure (3)
Three hours lecture per week. Provides a background of operational procedures in California law. Sets forth those procedures necessary for the understanding of legal proceedings pertaining to laws of arrest, search and seizure, admissibility of evidence, and jurisdiction of the courts. (CSU) (Degree Credit)
AJ 222 F Rules of Evidence (3)
Three hours lecture per week. An introduction to the basic rules of evidence admissibility in criminal proceedings. Explains legal principles on how courts determine reliable, relevant and probative evidence in a court of law. Assesses how courts categorize and type evidence into a working framework for use in a criminal trial. Emphasis is placed on developing the law enforcement officers’ skills in courtroom evidentiary presentation. (CSU) (Degree Credit)

AJ 223 F Criminal Investigation (3)
Three hours lecture per week. Includes preliminary investigation, follow-up investigation, and courtroom presentation related to criminal offenses and includes specialist lectures on the scientific elements. Emphasis is placed on the investigative process and the legal requirements of criminal inquiry. (CSU) (Degree Credit)

AJ 226 F Narcotics and Vice Control (3)
Three hours lecture per week. Types of narcotics and their uses, with resultant law enforcement problems. Covers narcotics and vice enforcement, curfew, and rehabilitation programs. (CSU) (Degree Credit)

AJ 230 F Crime Scene Techniques (3)
Three hours lecture per week. This class will introduce the student to field techniques for the collection and preservation of physical evidence at the scene of the crime. The course will cover physical and testimonial evidence, scene responsibilities, processing the scene, fingerprint evidence, ammunition, blood and bodily fluids, impression evidence, firearms evidence, dangerous drugs and clandestine laboratories, sexual assaults, domestic abuse, elder abuse, burglaries and homicide crime scenes. (CSU) (Degree Credit)

AJ 252 F Police Patrol (3)
Three hours lecture per week. The fundamentals of proper patrol procedures and techniques, with particular emphasis on officer safety, public relations, and crime prevention. Designed to develop competency in handling frequently encountered police problems through the analysis of actual situations. The course will focus on developing officer survival skills through threat-based decision making. (CSU) (Degree Credit)

AJ 276 F Investigation of Homicidal Behavior (3)
Three hours lecture per week. This course is a historical perspective of homicide in America today. Topics include motives for murder, psychology of murder, criminal investigation into homicide, victims of murder, those who murder and various methods of murder. The course will also examine the phenomena of serial and mass murderers. (CSU) (Degree Credit)

AJ 277 F PC832 Arrest, Control and Firearms Training (4.5)
Pass/No Pass only
Sixty-four lecture and twelve lab hours are required in professional orientation, law, evidence, investigation, community relations, communications, arrest and control and firearms safety and range training. This training is certified by the Commission on Peace Officer Standards and Training and will lead to employment in both the public and private sector. Such jobs as safety and security officers are available to those that satisfactorily complete the training. (CSU) (Degree Credit)

AJ 278 F Multicultural Issues Within Administration of Justice (3)
Three hours lecture per week plus a series of practical exercises. A theoretical and conceptual overview of multicultural concepts and issues; an application of those concepts and issues to Administration of Justice; identification of problems related to our increasingly diverse population; examination of strategies to overcome those problems, particularly in relation to the maintenance of social order. This course fulfills the Multicultural Education Requirement for graduation. (CSU) (UC Credit Limitation) (Degree Credit) MULT CULT REQ

AJ 279 F Contemporary Issues in Law Enforcement (3)
Three hours lecture per week. This course explores major legal, societal and organizational issues affecting the law enforcement profession as it moves into the 21st century. Topics include ethics, police use of force, high-speed vehicle pursuits, cultural awareness, workplace diversity, and community-oriented policing and problem solving. The course emphasizes the development of problem solving strategies as a way to effectively deal with the challenges that police face. (CSU) (Degree Credit)

AJ 901 F Organized Crime and the Criminal Justice System (3)
Three hours lecture per week. This course will analyze the effects of international Organized Crime Groups on the United States and the American law enforcement effort to combat those criminal organizations. The class will review cooperative efforts between the United States and foreign governments to impact those organizations, the pitfalls encountered, and the successes and failures that result. It will also look into the secret world of the mafia “Men of Honor.” (Degree Credit)

Anthropology Courses

ANTH 101 F Physical Anthropology (3)
Three hours lecture per week. This course is a study of the theories of human origin and evolutionary development using genetic, fossil evidence, plus a comparison of humankind anatomically and behaviorally with the higher primates. This field includes current research on the intellectual and cultural equality of the human races. At a number of California State universities and other four-year institutions, this course may be used for social sciences or biological science credit. (CSU) (UC) (Degree Credit) CSU GE, IGETC

ANTH 101HF Honors Physical Anthropology (3)
Three hours lecture per week. This course is a study of the theories of human origin and evolutionary development using genetic, fossil evidence, plus a comparison of humankind anatomically and behaviorally with the higher primates. This field includes current research on the intellectual and cultural equality of the human races. At a number of California State universities and other four-year institutions, this course may be used for social sciences or biological science credit. As an honors section, this class will employ enhanced teaching methods such as a seminar approach, more research-based writing assignments and a higher level of critical thinking. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

ANTH 102 F Cultural Anthropology (3)
Three hours lecture per week. This course is an introduction to the cultural aspects of man's behavior and the nature of culture. It includes the uniformities and variabilities of culture, social organization, family structure, religion, language, and other basic topics. This course fulfills the Multicultural Education Requirement for graduation. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC, MULT CULT REQ

ANTH 102HF Honors Cultural Anthropology (3)
Three hours lecture per week. This course is an introduction to the cultural aspects of man's behavior and the nature of culture. It includes the uniformities and variabilities of culture, social organization, family structure, religion, language, and other basic topics. As an honors section, this class will employ enhanced teaching methods such as a seminar approach, more research-based writing assignments, and a higher level of critical thinking. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC, MULT CULT REQ

ANTH 103 F Introduction to Archaeology (3)
Three hours lecture per week. Anthropological archaeology is a specialized branch of anthropology that studies cultural and physical anthropological evolutionary development; archaeology uses scientific methods and theories to trace human ecology from the past to the present. Archaeologists deal with remains of past societies such as tools, shelter, remains of animals eaten for food, and other objects that have survived. These remains, termed artifacts, are used to reconstruct past behavior. (CSU) (UC) (Degree Credit) CSU GE, IGETC

ANTH 105 F Language and Culture (3)
Three hours lecture per week. Students explore the nature of language in relation to culture and how language processes develop and change. Students will examine how cultural knowledge is linguistically organized and how language shapes our perception of the world, and how it acts as a guide, both symbolic and practical, to understanding human actions. A basic introduction into the primary concepts of the discipline help students to understand what language reveals about human beings as bearers of culture. This course fulfills the Multicultural Education Requirement for graduation. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC, MULT CULT REQ

ANTH 107 F The Anthropology of Magic, Witchcraft and Religion (3)
Three hours lecture per week. An anthropological survey of systems of magic, witchcraft, and religion from the past and the present, from societies around the world. It examines beliefs and practices in cultural settings with respect to the role of the supernatural. Special topics include myth, religious healing, witchcraft and sorcery, ritual and millenarian movements. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC, MULT CULT REQ
ANTH 109 F Primate Behavior (3)
A survey of primates from around the world, with in-depth examinations of their behavior, ecology, taxonomy and anatomy. Students will gain experience in the collection and analysis of behavioral data. Current issues in primate conservation will also be explored. Specific primate species will be used as case studies to further enhance students' knowledge of prosimians, monkeys, and apes. (CSU) (UC) (Degree Credit)

ANTH 199 F Anthropology Independent Study (1)
One hour lecture or scheduled conference per week. This course is offered for students who wish to increase their knowledge of the Social Sciences through individual study and small group conferences. Students successfully completing this course will be awarded elective credit in the Social Sciences area. Course may be taken four times for credit. (CSU) (UC) (Degree Credit) (Degree Credit)

ANTH 209 F Cultures of Latin America (3)
Three hours lecture per week. The scope of this course focuses on the exploration of the diverse cultures of Ancient Latin America and Mesoamerica, from the origins of civilization, to the period of the Spanish conquest and some of the current issues indigenous people face in Latin America. The study would be done by integrating an anthropological holistic approach using all five fields of anthropology. The study of ancient Latin American cultures will be based on fields of anthropology. The study will be based on archeological investigations, ethnographical research and various theoretical frameworks to enhance the understanding of the human experience in Latin America. The course will attempt to recreate the lifestyle, social structures, agricultural methods, religious practices and other various culture aspects of Mesoamerican civilizations in order to have a better understanding of the current conditions and aspects of the various diverse cultural groups from Latin America. The focus will be on Mesoamerican civilization as well as the Inca and other indigenous groups from South America. (CSU) (UC) (Degree Credit) CSU GE, IGETC

ANTH 211 F Celtic Cultures (3)
Three hours lecture per week. This course will utilize data from archeology, genetics, historical linguistics and classical Greek and Roman texts to explore the origins, conquests and migrations of the ancient Celts. The complex whole that encompasses Celtic society and culture, from the past to the present, and in different geographic areas will be studied including Celtic religion, myth and ritual, roles of females and males, art, warfare, ways of life, as well as current struggles for social, linguistic and political rights. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

ANTH 231 F Field Course in Archaeology (3)
Thirty-six hours plus fifty-four hours lab per semester. First five weeks of lecture in the classroom; remainder of lecture and lab hours in the field at a selected archaeological site. This class is designed to provide a basic understanding of archaeological scientific field methods used in the investigation of an archaeological site. Field trips to local archaeological sites are a required part of instruction and will emphasize surveying and/or excavation. Site mapping, photography and other recordation techniques will be utilized. Cataloging, appropriate preservation, and the interpretation of surface and/or sub-surface artifacts will be completed. Students will begin the process of proper site survey report writing. Students repeating the course (second semester of 231 F) will be expected to perform survey and excavation tasks at a higher skill level and to have rudimentary skills in tasks not expected of students taking the course for the first time (first semester of 231 F). Course may be taken twice for credit. (CSU) (Degree Credit)

Arabic (ARAB)
Humanities Division
Office: Bldg 500, Room 522-O
714.992.7036
Dean: Dan Willoughby
Website: www.humanities.fullcoll.edu

Arabic Courses

ARAB 101 F Elementary Arabic I (5)
Advisory: Reading clearance is recommended
Five hours lecture plus one arranged lab hour per week. This course focuses on the four major skills of language learning — listening comprehension, speaking, reading, and writing — and the grammar and vocabulary necessary to acquire these skills. Included is an introduction to customs, culture, and civilization of Arabic-speaking countries. This course is conducted primarily in Arabic. (CSU) (UC) (Degree Credit) AA GE, CSU GE

ARAB 102 F Elementary Arabic II (5)
Prerequisite: ARAB 101 F with a grade of “C” or better OR one year of high school Arabic with a grade of “C” or better.
Five hours lecture per week plus one arranged lab hour per week. This course continues to focus on the four major skills of language learning — listening comprehension, speaking, reading and writing — and the grammar and vocabulary necessary to acquire these skills. A continued emphasis on the acquisition of vocabulary, structures and grammatical patterns necessary for comprehension of classical Arabic in conjunction with Modern Standard Arabic as spoken in the Eastern Arabic countries and in Egypt. This course includes an expanded discussion of Arabic world, culture and daily life. This course is conducted primarily in Arabic. (CSU) (UC) (Degree Credit) AA GE, CSU GE

Architecture Courses

ARCH 111 F Introduction to Architecture (3)
Three hours lecture per week. This course is designed for architecture majors as well as people interested in learning more about the architectural profession. The focus is split into two areas of emphasis. Architectural theory and history are explored from ancient civilizations to the present trends in design. The practical/business side of architecture is discussed; the topics include education requirements and job opportunities as well as the architect’s perceived role in our society. (CSU) (UC) (Degree Credit)
ARCH 113 F Architectural Drawing I (3)
Two hours lecture and four hours lab per week. An introductory course designed to develop graphic and visualization skills, and its link as a means of externalizing, evaluating and communicating ideas. It will include both freehand and mechanically constructed type of orthographic, axonometric, oblique and lineal perspective drawings on two-dimensional surfaces. It is intended to develop the use of instruments, lettering, line weights, graphics and presentation layout. The media to be used will include pencil, ink, colored pencil and markers. (CSU) (UC) (Degree Credit)

ARCH 124 F Architectural CAD I (3)
Two hours lecture and three hours lab per week. This is a beginning course in using the CAD system for architectural applications. The course covers elementary principles associated with the various menu and command structures in computer-assisted drafting. Topics included are file management, layering, symbol libraries, orthographic projection, dimensioning, line types and the generation of text. (CSU) (Degree Credit)

ARCH 125 F Design Studio I (4)
Prerequisite: ARCH 113 F
Three hours lecture and three hours lab per week. This course introduces the student to the formal and spatial language of architecture. Assignments will be explored in the form of studio projects. Such projects will be the analysis of case studies, and their integration in the design process. (CSU) (Degree Credit)

ARCH 215 F Design Studio II (4)
Prerequisite: ARCH 125 F
Three hours lecture and three hours lab per week. The course is a continuation of Design Studio I to further enhance skills in the development of a personal theory of design. Students will extend their understanding in such areas as visualization, decision making, and evaluation. (CSU) (Degree Credit)

ARCH 225 F Design Studio III (4)
Prerequisite: ARCH 215 F
Three hours lecture and three hours lab per week. This course is a continuation of Design Studio II to further enhance skills in understanding the organization of design and emphasis on the means of architecture. Site analysis and building orientation will be explored. Two and three-dimensional drawings and model building will be produced. (CSU) (Degree Credit)

ARCH 227 F Internship in Architecture (1-4)
One hour lecture per week and five hours of supervised employment per week in an architectural office. An additional five hours per week of supervised employment is to be completed for each additional unit of credit. This course is designed to provide learning opportunities through employment in an architectural firm or related type of business. No more than three units may be applied toward the degree or certificate. (CSU) (Degree Credit)

ARCH 924 F Architectural CAD II (3)
Prerequisite: ARCH 124 F
Two hours lecture and three hours lab per week. This is an intermediate course that utilizes the CAD system for architectural applications. The course incorporates principles associated with the various menu and command structures in computer-assisted drafting to develop solutions to 2-D and 3-D design problems. (Degree Credit)

ARCH 934 F Architectural CAD III (3)
Prerequisite: ARCH 924 F
Two hours lecture and three hours lab per week. This is an advanced course utilizing the CAD system to produce a set of construction documents. This course deals with two-story residential construction as applicable to the present professional standards in terms of technical drafting and 2-D and 3-D computer drafting. (Degree Credit)

ARCH 944 F Architectural CAD IV (3)
Prerequisite: ARCH 934 F
Two hours lecture and three hours lab per week. This course covers applied usage of computer-assisted drafting (CAD) to special problems in architecture. The student will learn various techniques in the generation of architectural projections such as isometric, oblique, one and two point perspective. Three-dimensional solids modeling will also be explored. (Degree Credit)

Computer Animation/Multimedia Certificate
Computer Graphics Certificate
Desktop Publishing Certificate
3D Animation Certificate — Level II

Art Computer Graphics Courses

ACG 100 F Intro: Computer Graphics/MAC (3)
Two hours lecture and three hours lab per week. This class teaches the fundamentals of computer graphics to input, create, manipulate and output a variety of images. Students learn and use a varied selection of visual arts software while gaining insights into the basic principles of digital computers and digital graphics. Extensive hands-on use of computers and other hardware allows students to build a portfolio and acquire the experience levels necessary to advance in this field. (CSU) (Degree Credit)

ACG 102 F Intro: Web Graphics/MAC (3)
Two hours lecture and three hours lab per week. This is a study of page development, navigation, graphics, animation, video, and sounds media for use on the Internet. During the course of the semester, the student builds an assigned web site and a personal Web site. This class is intended as a gateway to a web certificate. Students can pursue additional in-depth study on the topics(s) that most attracted them during the semester. (CSU) (Degree Credit)

ACG 104 F Intro: 3-D Graphics/Mac (3)
Two hours lecture and three hours lab per week. The course emphasis is on the introduction of three dimensional computer modeling and animation with a program that uses standard industry tools and techniques. The course evolves from typical three-dimensional concepts, varied modeling techniques, texture mapping, lighting, basic motion control, parenting, to the use of FK and IK structures, and other modeling and animation skills. Additional open lab work may be needed to complete assignments. (CSU) (Degree Credit)
ACG 105 F 2-D Computer Graphics and Paint for DOS (3)
Two hours lecture and three hours lab per week. This course focuses on computer generated 2-D drafting and design techniques, employed as a tool by graphic designers, through use of micro-computer based design and paint programs. Open lab work may be required to complete assignments. (CSU) (Degree Credit)

ACG 106 F Intro: Dimensional Design/MAC (3)
Two hours lecture and three hours lab per week. An introduction to 3D modeling and drafting where the final result is scaled drawings. A focus on design presentation techniques includes colored output in static, animated, and virtual reality forms, making this an ideal course for scene designers, architects and other dimensional designers whose final presentation must be of the highest quality. Open lab work may be required to complete assignments. (CSU) (Degree Credit)

ACG 108 F Survey of Graphics Software (3)
Two hours lecture and three hours lab per week. This is a survey of the many uses of computer multimedia. Lectures and demonstrations show how to use a number of computer programs to create Internet-ready works. In the course of the semester, the students build a personal web page enriched with such audiovisual elements as animation, sound, video, 3-D and different types of still images. This class is intended as a gateway into the varied offerings of the Art Computer Graphics program where students can pursue more in-depth study on the topic(s) that most attracted them during this initial exploration. (CSU) (Degree Credit)

ACG 112 F Electronic Illustration (3)
Two hours lecture and three hours lab per week. The study of digital tools to make visual art intended for publication. Demonstrates the resolution of artistic and conceptual problems faced by professional illustrators, using vector graphics programs as visual medium. Vector graphics is the technology of choice for adaptable artwork suitable for traditional print formats as well as new electronic media such as Web pages on the Internet. Vector images are often characterized by a stylized, hard-edge appearance. These programs are less appropriate for photographic or painterly material. The course covers leading vector graphics software with plenty of hands-on use of the computer to build a portfolio and acquire the experience levels demanded by employers and clients. (CSU) (Degree Credit)

ACG 120 F 3-D Modeling (3)
Two hours lecture and three hours lab per week. This course is a study of digital tools to represent objects in 3D space. Learn the basics of 3D computer graphics. This is the foundation for special effects in movies and computer games. The course covers leading 3-D graphics software with plenty of hands-on use of the computer to build a portfolio and acquire the experience levels demanded by employers and clients. (CSU) (Degree Credit)

ACG 132 F Electronic Paint for Macintosh (3)
Two hours lecture and three hours lab per week. This course teaches students how to make pictures using raster graphics programs. Raster graphics is the technology of choice for continuous-tone artwork, suitable for traditional print formats as well as new electronic media such as Web pages on the Internet. Visually, raster images are often characterized by a photographic or painterly appearance. These programs are less appropriate for a stylized, hard-edge material. The course covers leading raster graphics software, with plenty of hands-on use of the computer to build a portfolio and acquire the experience levels demanded by employers and clients. (CSU) (Degree Credit)

ACG 140 F Desktop Publishing I for Macintosh (3)
Two hours lecture and three hours of lab per week. This course focuses on the use of computers as a design aid to general “camera ready” page layouts, integrating graphics and text. Emphasis is on design of the page, use of the computer programs, and printing skills required for a finished product. Open lab work may be required to complete assignments. (CSU) (Degree Credit)

ACG 146 F Desktop Publishing II (3)
Two hours of lecture and three hours of lab per week. This course focuses on the use of advanced options of desktop publishing programs as a design aid to generate “camera ready” page layouts. Emphasis is on developing experience in varied types and sizes of commercial projects. Open lab work may be required for completing assignments. (CSU) (Degree Credit)

ACG 150 F 3-D Computer Animation for Macintosh (3-3)
Two hours of lecture and three hours of lab per week. This course is a study of digital tools to represent moving objects in 3-D space. Learn the basics of 3-D computer animation. This is the most widely used technique for special effects in movies and computer games. The course covers leading 3-D graphics software, with plenty of hands-on use of the computer to build a demo reel and acquire the experience levels demanded by employers and clients. Course may be taken twice for credit. (CSU) (Degree Credit)

ACG 158 F Multimedia Authoring (3)
Two hours lecture and three hours lab per week. This course focuses on designing interactive multimedia presentations by integrating a variety of programs and media (sound, text, graphics, and video). Final output may take the form of DVDs, CD-ROMs, websites, videos, cartoons, animated shorts, games, educational software, and creative self-expression. Open lab work may be required to complete assignments. (CSU) (Degree Credit)

ACG 162 F Multi Media for Macintosh (3)
Two hours lecture and three hours lab per week. This course is a study of digital tools to represent moving objects in 2D space. Learn how to create 2D computer animation. Final output may integrate additional media (sound, text, graphics, and video), and find distribution of CD-ROMs, web pages, complete websites, videos, cartoons, animated shorts, games, educational software, and creative self-expression. (CSU) (Degree Credit)

ACG 164 F Multimedia Authoring (3)
Two hours lecture and three hours lab per week. This course focuses on designing interactive multimedia presentations by integrating a variety of programs and media (sound, text, graphics, and video). Final output may take the form of DVDs, CD-ROMs, websites, videos, cartoons, animated shorts, games, educational software, and creative self-expression. Open lab work may be required to complete assignments. (CSU) (Degree Credit)

ACG 166 F Digital Photography (3)
Two hours lecture and three hours lab per week. This course will focus on digital photography and the advanced usage of software for the manipulation of raster images for the development of fine art and photographic images appropriate for advertising design. Digital cameras, scanners, photo CDs, and video images provide the basis for image manipulation pushing to the extreme of digital photography. Course topics include camera selection, image enhancement editing, compositing, retouching, photomontages, pre-press, color management, color separations and service bureaus. (CSU) (Degree Credit)

ACG 180 F Digital Video (3)
Two hours lecture and three hours of lab per week. The course includes the study and hands-on use of computers, assorted software, CD-ROMs, video cameras, and other tools and techniques used for digitizing, editing, and composition of video and audio sources. The course provides an in-depth introduction to the world of desktop video used in the fields of multimedia, video editing (both online and offline) and the creation of engrossing websites. (CSU) (Degree Credit)

Art — Associate in Arts Degree
Illustration Certificate

Art Courses

ART 110 F Introduction to Art (3)
Letter Grade or Pass/No Pass option
Three hours lecture per week. This course provides an introduction to art from prehistoric times to the present. While examining the role that the visual arts have played in the development of the world’s cultures, the student is exposed to a wide variety of artistic media. Classroom presentations are supplemented by gallery and museum visits. In a full semester course an additional 15 minutes per week will be spent in the art gallery, pro-rated per semester for short-term courses. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

ART 112 F Art History — Ancient and Medieval (3)
Three hours lecture per week. This course presents a study of Western art, including architecture, sculpture and painting from Prehistory through the Middle Ages. Art history courses may be taken in any sequence; at least two semesters are required of art majors. In a full semester course an additional 15 minutes per week will be spent in the art gallery, pro-rated per semester for short-term courses. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

ART 113 F Art History — Renaissance to Modern (3)
Three hours lecture per week. This course is a survey of architecture, sculpture and painting from the Renaissance through the Twentieth century. Art history courses may be taken in any sequence; at least two semesters are required of art majors. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

ART 114 F Art History — Impressionism to the Present (3)
Three hours lecture per week. The development of modern architecture, sculpture and painting from their origins in the 19th century to the present. Art history courses are open to all students and may be taken in any sequence; at least two semesters are required for art history majors. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

ART 115 F Museum Survey (3)
Three hours lecture per week. This is a basic course in the study of museums and their collections. The course includes on-site lectures pertaining to the function of museums, the history of the art collections, the analysis and interpretation of the art in each collection and exhibition design. (CSU) (Degree Credit) AA GE

ART 116 F Art History — Mexico (3)
Three hours lecture per week. This course is a survey of the visual arts of Mexico from the earliest civilizations to contemporary Mexican and Chicano art. Both traditional and popular art forms are studied in the context of the cultures that produced them. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

ART 117 F History of American Art (3)
Three hours lecture per week. This course is a survey of American art and architecture from the 17th century to the present. Lectures will present an overview of painting, sculpture, photography, and architecture from Colonial beginnings through recent Post-Modern developments. Emphasis will be placed on discovering what is American in American art. (CSU) (UC) (Degree Credit) CSU GE, IGETC

ART 118 F Color Theory (3)
Two hours lecture and 4 hours lab per week. Introduction to fundamentals of color theory through lecture and applied exercises in paint and collage. Includes discussion of cultural differences in color symbolism and the historical development of conceptual models of color usage in both science and art. Theoretical focus will be on the Brewer, Munsell and Ostwald systems of color organization and the emphasis of the studio exercises is on practical applications of color theory in the visual arts professions. The course concludes with an introduction to digital color as used in computer graphics. (CSU) (UC) (Degree Credit) CSU GE

ART 119 F Design and Color for Non-Art Majors (2)
One hour lecture and three hours lab per week. This course covers the elements of art, principles of design and color theory with emphasis on creative experiences in two-dimensional design. Media include pencil, ink, paint, and collage. Recommended for non-art majors. (CSU) (UC) (Degree Credit) AA GE, CSU GE

ART 120 F Basic Design (3)
Two hours lecture and four hours lab per week. This course includes an introduction to the art elements of line, shape, value, texture, pattern, color, and the principles of composition. These design elements and principles will be used to create two-dimensional visual images. Various media are used. (CSU) (UC credit) (Degree Credit) AA GE, CSU GE

ART 121 F Three-Dimensional Design (3)
Advisory: ART 120 F
Two hours lecture and four hours lab per week. An introduction to three-dimensional design. This course defines the contrast of three-dimensional form to the two-dimensional format. The focus is on 360 degree design, in materials selected to best depict this contrast. This course involves the use of hand tools and some power equipment. Course may be taken one time for credit. (CSU) (UC) (Degree Credit) CSU GE

ART 122 F Gallery Design and Exhibition (3)
Two hours lecture and four hours lab per week. This course provides an introduction to all elements of designing and installing art exhibitions in the Fullerton College Art Gallery. This course includes the basic skills of installing art, lighting, labeling, advertising and includes field trips to museums and galleries. In a full semester course, an additional 15 minutes per week will be spent in the art gallery, prorated per semester for short-term courses. Recommended for Art Majors. Course may be taken three times for credit. (CSU) (Degree Credit)
ART 131 F Printmaking (3)
Advisory: ART 120 F or ART 182 F, both with a grade of "C" or better
Two hours lecture and four hours lab per week. This course provides experience with materials and processes involved in non-toxic approaches to relief, intaglio, screen-print and lithography, including the exploration of digital print processes. Designed to encourage graphic creativity and professional skill in the development of plates and their printing augmented by an awareness of traditional and contemporary methods and styles. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)

ART 139 F Fashion Sketching (2)
One hour lecture and three hours studio per week. Designed for the student interested in a fashion career or the graphic design or illustration major wanting to develop fashion sketching skills. The course will include refinement of basic skills in drawing of the clothed figure as well as rendering of fabrics and patterns. Media used includes graphite, ink, marking pens, charcoal, colored pencils, photocopy, and mixed media. Development of a personal sketching style will be encouraged. Course may be taken three times for credit. (CSU) (Degree Credit)

ART 140 F Introduction to Advertising and Graphic Design (3)
Two hours lecture and four hours lab per week. This is a basic course in advertising and graphic design with an emphasis on communication through use of concepts, type and images. Includes development of layout and computer skills, style and an introduction to logotype design. (CSU) (Degree Credit)

ART 144 F Fundamentals of Cartooning (2)
Advisory: ART 182 F or ART 179 F
One hour lecture and three hours lab per week. An introduction to basic cartooning techniques. Includes sketching, inking, and the development of characters. Projects include gag line cartooning, political cartooning, and the development of a weekly cartoon strip. In addition, there will be an analysis of the elements of both the humorous and the dramatic in cartoon art. This analysis will include a review of historically significant Sunday funnies and comic book characters, as well as an examination of major trends in comic art from 1895 to the present. May be taken two times for credit. (CSU) (Degree Credit)

ART 145 F Publication Design (3)
Advisory: ART 140 F and ACG 100 F
Two hours lecture and three hours lab per week. This is an advanced course with emphasis on the design of publications such as brochures and magazines layouts to simulate real world assignments. Finished comprehensive projects will be created on the computer to a professional quality suitable for inclusion in a student's portfolio. (CSU) (Degree Credit)

ART 146 F Advertising Design (3)
Advisory: ART 140 F and ACG 100 F
Two hours lecture and three hours lab per week. This is an advanced course with emphasis on design for advertising. The assignments are intended to simulate real world experience and may include advertising campaigns, posters, and billboards. Finished comprehensive projects will be created on the computer to a professional quality suitable for inclusion in a student's portfolio. (CSU) (Degree Credit)

ART 147 F Production Techniques for Graphic Designers (3)
Advisory: ART 140 F
Two hours lecture and three hours lab per week. A study of methods and techniques necessary in preparing artwork for reproduction. Areas emphasized are: computer-generated preparation of mechanical art, electronic pre-press, typography, paper specification, and commercial printing methods. This course is oriented specifically to the needs of graphic design students. (CSU) (Degree Credit)

ART 148 F Packaging Design (3)
Advisory: ART 140 F and ACG 100 F
Two hours lecture and three hours lab per week. This is an advanced level course with emphasis on design for packaging. The assignments are intended to simulate real world experience and will include designing for a range of 3D surfaces. Finished comprehensive projects will be created on the computer to a professional quality. Students will be introduced to basic digital photography concepts for recording their work and creating images suitable for portfolio inclusion. (CSU) (Degree Credit)

ART 150AF Ceramics, Beginning Handbuilding (3)
Two hours lecture and four hours lab plus one hour arranged per week. This class is a survey course dealing with three-dimensional design in clay as an entry in appreciation of the creative process and its physical execution using ceramic handbuilding techniques. Emphasis is placed on imagining, designing, creating, and evaluating vessel and sculptural form using the coil, slab and pinch processes, and on textural and sculptural embellishment of surface. In addition, review of historical and traditional models, glazing techniques, kiln loading, and basic technology of clay, glazes and firing are included. Approximately 100 hours class time. (CSU) (UC) (Degree Credit) AA GE, CSU GE
ART 150BF Ceramics, Beginning Throwing (3)  
**Prerequisite:** ART 150AF  
Two hours lecture and four hours lab plus one hour arranged per week. Developing technique in the use of the potter’s wheel is emphasized. An introduction to design, decoration, and glazing of wheel-thrown utilitarian forms. Kiln loading and basic technology of clay, glazes, and firing are included. (CSU)(UC) (Degree Credit) CSU GE

ART 150CF Ceramics, Advanced (3)  
**Prerequisite:** ART 150AF or ART 150BF  
Two hours lecture and four hours lab plus one hour arranged per week. This course is advanced study of handbuilding and/or throwing techniques, design of forms, and surface decoration. Kiln operation is also emphasized. Development of further skills, knowledge, and conceptual ability is accomplished through individually determined projects. Approximately 100 hours class time. Course may be taken twice for credit. (CSU)(UC) (Degree Credit)

ART 151 F Technical Ceramics (2)  
One hour lecture and three hours studio and one hour open studio per week. An introduction to the concepts and techniques in the design and construction of ceramics. Materials covered will include sources of base, neutral and acid oxides, and an investigation of colorants for clays and glazes of various types. Basic glaze calculation will be stressed. FIRST SEMESTER: emphasizes clay materials and formulation. SECOND SEMESTER: emphasizes glaze material and formulation. Course may be taken three times for credit. (CSU)(UC) (Degree Credit)

ART 152 F Ceramics Lab (1)  
Pass/No Pass only  
**Corequisite:** ART 150AF, ART 150BF, ART 150CF, ART 151AF, ART 261F, or completion of ART 150AF, ART 150BF, ART 150CF.  
Forty-eight hours lab per unit in the Ceramics Lab doing studio ceramics activities including handbuilding techniques, slab, coil, pinch construction, glaze preparation and application, throwing on the potters wheel, sculptural and combined building techniques and other studio activities. For each 48 hours that the student spends working in the Ceramics Lab beyond the Ceramics Lab requirements of the concurrent course, one unit of credit will be granted. Course may be taken four times for credit. (CSU)(UC) (Degree Credit)

ART 159 F Master Potters (2)  
Letter Grade or Pass/No Pass option  
One hour lecture and three hours studio per week. This course offers the experienced student an expanded knowledge of the Ceramic Arts through an in-depth study of the work of a featured Master Potter. Each semester the work of a different Master Potter will provide inspiration for the students to analyze and emulate in their own work. Course may be taken four times for credit. (CSU)(UC) (Degree Credit)

ART 160 F Fundamentals of Sculpture (3)  
Two hours lecture and four hours studio and one hour arranged per week. An introduction to sculpture using basic concepts, materials, techniques and terminology. This course focuses on modeling, casting and mold-making. This course is appropriate for the beginning student and those with limited sculpture experience. May be taken twice for credit. (CSU)(UC) (Degree Credit) AA GE

ART 161 F Advanced Sculpture (3)  
**Advisory:** ART 160 F  
Two hours lecture and analysis and four hours studio and one hour arranged per week. An introduction to the support processes of sculpture, to expand the development of techniques, materials and processes. Class requirements are arranged by contract to allow a wide diversity of projects. Emphasis is on development on individual style and the ability to plan and direct a semester of sculpture. May be taken twice for credit. (CSU)(UC) (Degree Credit)

ART 162 F Sculpture — Cast Metal (3)  
**Advisory:** ART 160 F or ART 185 F  
Two hours lecture and analysis and four hours studio per week plus one hour open studio per week. An introduction to the lost wax bronze casting process, investment, vacuum sand casting. This class includes wax model production and mold making. Metal chasing and patination complete the cast bronze sculpture. In consecutive semesters, the complexity of the projects require alternative skills, techniques and materials. Course may be taken four times for credit. (CSU)(Degree Credit)

ART 163 F Sculpture Open Studio (1)  
Pass/No Pass only  
**Corequisite:** Enrollment or completion of any one of these courses: ART 160AF, ART 160BF, ART 161AF, ART 161BF, ART 162AF, ART 162BF, ART 162CF, ART 162DF, ART 173AF, ART 173BF, ART 173CF, ART 173DF, ART 174AF, ART 174BF, ART 174CF, ART 174DF, ART 176AF, ART 176BF, ART 176CF, ART 176DF or ART 121 F  
Fifty-four hours of studio time in the sculpture and three-dimensional design facility. The lab course gives access to the facility and equipment. For each 54 hours that students spend in the studio beyond their class hours, one unit of credit will be earned. A sign-in sheet must verify all hours. Course may be taken four times for credit. (CSU)(Degree Credit)

ART 164 F Sculpture: Metal Fabrication (3)  
Two hours lecture and four hours studio and one hour arranged per week. An introduction to the support processes of sculpture, to expand the development of techniques, materials and processes. This course will focus on basic techniques and processes used for fabricating metal sculpture. The primary methods that will be explored for the purpose of sculpture are oxyacetylene and MIG welding. This course is not a substitute for any welding course. Course may be taken four times for credit. (CSU)(Degree Credit)

ART 173 F Jewelry Casting (3)  
Two hours lecture and four hours studio per week. This course is an introduction to basic concepts and techniques in designing and casting jewelry including reproduction techniques and wax models. The focus of this class is originality in jewelry design relating to contemporary and historical aesthetics. The additional semesters involve advanced problems in jewelry casting. Course may be taken four times for credit. (CSU)(Degree Credit)

ART 174AF Jewelry: Fabrication (3)  
Two hours lecture and four hours studio per week. This class is an introduction to the concepts and techniques in the design and construction of jewelry and small metal objects. Fabrication techniques will require the cutting, forming, and soldering techniques of sheet metals. The focus of this course is on original design in fine art jewelry in previous metals. (CSU)(Degree Credit) CSU GE
ART 174BF Jewelry: Fabrication (3)
**Prerequisite:** ART 174AF
Two hours lecture and four hours studio per week. This class is a continuation of ART 174AF. Further development of jewelry fabrication techniques are explored which include hollow form, articulation, surface treatment, repousse, patina and inlay. This class discusses advanced concepts and techniques in the design and construction of jewelry and small metal objects. Fabrication techniques will require the cutting, forming, and soldering techniques of sheet metals. The focus of this course is on original design of fine art jewelry in previous metals. (CSU) (Degree Credit)

ART 176 F Stained Glass (Architectural Fabrication for Residential and Commercial) (3)
Two hours lecture and four hours studio per week. SECTION 1: Students learn the basics of designing and constructing both two- and three-dimensional stained glass projects using the "Tiffany Foil" technique and other cold glass processes such as mosaic. Proper use of tools, materials and vocabulary will be emphasized. Project emphasis will be in the design and fabrication of residential and commercial pieces. SECTION 2: Students continue developing skills learned in prior semesters in addition to learning alternative processes such as overlay, sandblasting, and fusing. Project emphasis will be in the design and fabrication of residential and commercial pieces. SECTION 3: Students are involved in three-dimensional and large scale projects; also independent, instructor-approved fabrications of real world commission-type projects utilizing all processes and vocabulary learned in first and second semesters. Project emphasis will be in the design and fabrication of residential and commercial pieces. Course may be taken a total of four times with Section 1 and two taken each and Section 3 taken two times. Production hours outside of class time are required. (CSU) (Degree Credit)

ART 179 F Drawing for Non-Art Majors (2)
One hour lecture and three hours studio per week. Beginning course in traditional and contemporary drawing techniques and terminology with an emphasis on representational drawing accomplished with a variety of media, including, but not limited to, graphite, charcoal, conte, ink, oil and/or chalk, pastel, and colored pencil. (CSU) (UC) (Degree Credit) AA GE, CSU GE

ART 180 F Perspective Drawing and Rendering (3)
**Prerequisite:** ART 182 F
Two hours lecture and four hours studio per week. The main objective of this class is creating the illusion of three dimensions on a two-dimensional drawing surface. The lectures cover the basics of the visual perception of space, and the artistic techniques based on it. Perspective topics include its use as a descriptive and compositional device, and a discussion of the limits of linear perspective and of alternative ways to represent space. Rendering topics include explanations of the surface qualities of various materials, and the accurate depiction of the materials' interaction with light. This course also meets student needs in advertising, illustration, and industrial design. Course may be taken three times for credit. (CSU) (Degree Credit)

ART 181 F Drawing from the Masters (2)
One hour lecture and three hours lab per week. The lecture portion of this class covers working methods and media of master draftsmen from previous centuries. The lab consists of analyzing and copying master drawings in a variety of media. Emphasis is placed on the traditional approach to drawing as practiced by masters such as Durer, Michelangelo, Da Vinci, Raphael, Rubens and others. Course may be taken three times for credit. (CSU) (UC) (Degree Credit)

ART 182 F Basic Drawing (3)
Two hours lecture and four hours studio per week. An introduction to the fundamentals of representational drawing. Media used may include pencil, ink, charcoal, conte, pastels, watercolor, and mixed media. Designed for art majors. (CSU) (UC) (Degree Credit) AA GE, CSU GE

ART 183 F Representational Drawing (2)
**Prerequisite:** ART 182 F
One hour lecture and three hours studio per week. This course is a study in contemporary and traditional realism in the area of drawing. Media may include pencil, ink, charcoal, conte, pastel, watercolor, and/or mixed media. Recommended for art majors. (CSU) (UC) (Degree Credit)

ART 184 F Expressive Drawing (2)
**Advisory:** ART 182 F or ART 186AF
One hour lecture and three hours studio per week. Surveys a variety of drawing styles introduced by artists whose mark-making itself communicates emotion, whether or not recognizable objects are depicted. Starting with Van Gogh and continuing through German Expressionism and Abstract Expressionism, the course leads toward the development of a personal, contemporary drawing style. Media covered include ink, pastel, watercolor, collage, and mixed media. (CSU) (UC) (Degree Credit) CSU GE

ART 185 F Life Sculpture (3)
Two hours lecture and four hours studio per week. This class is an introduction to figurative sculpture with emphasis on accurate anatomical training in sculpture. Designed to develop an understanding of the human form, this class focuses on structure, gesture and detail. The skeleton, plaster casts, and the life model are used in this process. May be taken four times for credit. (CSU) (UC) (Degree Credit) AA GE

ART 186AF Beginning Life Drawing (3)
Two hours lecture and four hours studio per week. This course is an introductory course in drawing from the human figure. Course emphasis is on the development of a basic understanding of structure, anatomy and movement. The focus of this course is the accurate anatomy study through continued use of the skeleton and life models. Required for all art majors. (CSU) (UC) (Degree Credit) AA GE

ART 186BF Intermediate Life Drawing (3)
**Prerequisite:** ART 186AF
Two hours lecture and four hours studio per week. An intermediate course in drawing the human figure. The course emphasis is on the refinement of basic skills, exercises and anatomy. Complex techniques reinforce the understanding gesture, structure and anatomy, through the continued use of the skeleton and life models. Recommended for all art majors. (CSU) (UC) (Degree Credit)
ART 186CF Advanced Life Drawing (3)  
**Prerequisite:** ART 189BF  
Two hours lecture and four hours studio per week. An advanced course in drawing the human figure, the emphasis of this course is a focused review of previous drawing exercises and the refinement of techniques. Advanced studio problems will be addressed, with historical and contemporary examples. Recommended for all art majors. (CSU) (UC) (Degree Credit)

ART 187 F Watercolor for Non-Art Majors (2)  
Letter Grade or Pass/No Pass option  
One hour lecture and three hours studio per week. This is an introductory course in watercolor painting with emphasis on a wide variety of traditional and contemporary techniques and skills. Creative self-expression is encouraged in still life, landscape, figurative, and abstract approaches. Media includes both transparent and opaque watercolor and related materials. May be taken twice for credit. (CSU) (UC) (Degree Credit) AA GE

ART 188 F Watercolor Painting (3)  
Two hours of lecture and four hours of studio per week. This course is designed specifically for the art major. This course will provide a better understanding of the structure, techniques, and vocabulary of transparent watercolor painting as well as encourage the student to develop conceptual, perceptual, and technical knowledge of all the design elements. A variety of traditional and contemporary methods are presented through demonstration, lecture, videotapes, individual instruction, critiques, class discussions, and field trips. Advanced students are encouraged to develop their own style and means of expression through a creative, experimental approach to watercolor painting. This class may be taken four times for credit. (CSU) (UC) (Degree Credit) AA GE

ART 189AF Beginning Painting (3)  
Two hours lecture and four hours studio per week. This course approaches painting as a creative process while developing the elementary skills of painting as a means of self-expression. In this course emphasis is upon the fundamentals of composition, color theory, and craftsmanship as applied to painting. Required by art majors. (CSU) (UC) (Degree Credit) AA GE, CSU GE

ART 189BF Intermediate Painting (3)  
**Prerequisite:** ART 189AF  
Two hours lecture and four hours studio per week. This course is a continued study of painting techniques and media. As a creative process, emphasis is placed upon individual experimentation with multi-media application as well as continued skills development and conceptual application to issues in painting. Recommended for art majors. (CSU) (UC) (Degree Credit)

ART 189CF Advanced Painting (3)  
**Prerequisite:** ART 189BF  
Two hours lecture and four hours studio per week. This course constitutes a study of advanced painting problems stressing experimentation, traditional and contemporary painting composition and methods. Course may be taken twice for credit. The second semester of the class, emphasis is upon a body of work demonstrating individual conceptualism and material exploration. (CSU) (UC) (Degree Credit)

ART 190 F Art Seminar (.5-2)  
**Prerequisite:** ART 189AF  
Lecture/Lab hours may vary with credit given. Various classes may be offered from semester to semester, which are designed to meet the interests and needs of students and faculty. Students may enroll up to a maximum of four semesters. (Not currently being offered — if interested, contact Division Office.) (UC credit limitation depending on course content) (CSU) (Degree Credit)

ART 194 F Studio Painting Lab (1-2)  
Pass/No Pass only — Open Entry/Open Exit  
**Prerequisite:** ART 189AF  
Fifty-four hours of lab in the painting studio. The lab course provides the opportunity for the painting student to work on new or ongoing projects; to learn to operate studio equipment; to have available the supervision of a painting instructor for advice and guidance; to work with a peer group; and to expand and complete work for a portfolio. May be taken four times for credit. (CSU) (Degree Credit)

ART 195 F Anatomical Figure Drawing (2)  
One hour lecture and three hours studio per week. The course explains and demonstrates how a specific area of the human body is constructed, how it moves and how it looks in different positions. A full size human skeleton, plaster casts and slides of master’s anatomy studies are used as reference. The lab consists of copying and analyzing a variety of anatomical studies to compile a note book representing all the components of the figure. This class serves the needs of the student in drawing, painting and sculpting the human figure. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)

ART 196HF Honors Creative Arts — Art (3)  
Three hours lecture plus one hour per week arranged in the attendance at museums, concerts, and theatrical performances. This course explores the nature of creativity through exposure to the performing arts, literature, and the fine arts. Honors students will make independent investigations into the various art forms and apply aesthetic theory to discover interrelationships between genres. Students who receive credit in this course may not receive credit in MUS 196HF or THEA 196HF. (CSU) (UC credit limitation) (Degree Credit) AA GE, CSU GE, IGETC

ART 197 F Mural and Faux Painting (3)  
Two hours lecture and four hours of studio lab per week. This course is for the beginning through advanced student intended to teach the fundamentals of faux (fake) finishes and mural painting. Students will learn how to execute a variety of finishes and create murals, how to bid jobs and how to work with a variety of materials. May be taken three times for credit. (CSU) (Degree Credit)

ART 210 F Life Painting (3)  
**Prerequisite:** ART 189 F and ART 186 F, or a portfolio review by the instructor  
Two hours lecture and four hours lab per week. This course is an introduction to painting the human figure, nude and clothed. The emphasis is on realistic representation of the human form in oils using structure, color, value, lighting and composition. Historical and contemporary uses of the figure in art as well as various styles of painting will be explored. Course may be taken four times for credit. (CSU) (UC) (Degree Credit) AA GE
ART 212 F Asian Art History (3)
Three hours lecture and slide presentation per week. This course surveys the arts of China and Japan from Prehistory through the 19th century. It examines the role of the visual arts in relation to society, religion, and history, while identifying major themes and techniques in these arts. Classroom presentations are supplemented by gallery and museum visits. In a full semester course an additional 15 minutes per week will be spent in the art gallery, pro-rated per semester for short-term courses. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

ART 213 F Pre-Columbian Art (3)
Three hours lecture per week. This course surveys the architecture, sculpture, painting and ceramics of Pre-Columbian Mexico, Central, North and South America from formative through post-classic times. Slide lectures, videos and museum visits will supplement the course. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

ART 244 F Illustration (3)
Advisory: ART 182 F and ART 120 F
Two hours lecture and four hours lab per week. The lecture portion of the class covers problems of creating finished illustrations from thumbnail sketches to final art. Emphasis in this course is on illustration for printed media such as books, newspapers, and magazines, as well as conceptual design for industrial products, and illustration for the electronic entertainment, theme park, and motion picture industries. Projects are designed to prepare the student for the professional skills necessary in creating an industry appropriate portfolio of work. Course may be taken four times for credit. (CSU) (Degree Credit)

ART 261 F Sculpture — Ceramics (2)
Prerequisite: ART 160 F or ART 150 AF
One hour lecture and three hours studio per week. An exploration of the methods, limitations, and characteristics of various clays when used to create sculpture in the round and bas-relief. (CSU) (UC) (Degree Credit)

ART 290 F Portfolio Preparation and Artwork Presentation (3)
Prerequisite: ART 120 F or ART 182 F, both with a grade of “C” or better
Three hours lecture per week. This course will help Studio Arts and Design majors in the creation of a portfolio that will assist in the transfer to a BA or BFA University Art program. In addition, major emphasis is placed on the development of a professional portfolio and the quality of the artwork in it. Course may be taken twice for credit. (CSU) (Degree Credit)

ART 299 F Art Independent Study (1-2)
One unit of credit will be awarded for each 54 hours of lab time. For advanced students who wish to pursue a particular area of art through individual study. Instructor approval needed. Course may be taken four times for credit. NOTE: Students must sign up with an instructor in the Art Dept before registering for this class. Completed forms must be in the Art Dept office by the second week of class. (CSU) (UC Credit Limitation depending on course content) (Degree Credit)

Automotive Technology (AUTO)
Technology & Engineering Division

Automotive Courses

AUTO 131 F Automotive Fundamentals (4)
Four hours lecture and two hours demonstration and lab per week. Emphasis is placed on the basic operating principles, nomenclature, care, inspection, preventive maintenance and minor repair procedures. (CSU) (Degree Credit) (For Industrial Arts Vocational Majors)

AUTO 050 F Automotive Specialty Practice (2)
Corequisite: Concurrent enrollment in any automotive technology course
One hour lecture and up to six hours lab practice per week. Emphasis is placed on the development of skill in the specialty areas of the students’ preparation. Lectures cover service department organization, job analysis and information relative to the employer, employee and customer relations. Course may be taken four times for credit. (Degree Credit)

AUTO 051 F Internship in Automotive (1-4)
Corequisite: Any vocational automotive class
One hour lecture per week and five hours of supervised employment per week in an automotive dealership or independent service facility. An additional five hours per week of supervised employment is to be completed for each additional unit of credit. This course is designed to provide vocational learning opportunities through employment in an automotive servicing/repair business. No more than three units may be applied toward the degree or certificate. Course may be taken four times for credit. (Degree Credit)
AUTO 055 F Automotive Business Management (5)
Advisory: AUTO 131 F
Four hours lecture and three hours lab per week. The course covers the automotive service management operations of an automotive business/dealership as related to service advisor/manager by focusing on the repair order as a legal document. It also covers the appointment system, telephone skills, warranties, communications strategies, product knowledge, selling skills, proactive customer handling, and multiple ways to reduce costs and improve profits. (Degree Credit)

AUTO 060 F Automotive Powertrains (5)
Advisory: AUTO 131 F
Four hours demonstrated lecture and four hours lab per week. Repair of the manual Rear Wheel Drive (RWD)/Front Wheel Drive (FWD) powertrains including the study of principles of operation, gears, bearings, drive lines, universal joints, CV joints, drive train electrical/electronic systems, and rear axles. The student will perform hands-on lab assignments. (Degree Credit)

AUTO 065 F Automotive Electrical and Electronic Systems (5)
Advisory: AUTO 131 F
Four hours lecture and four hours lab per week. An introductory course in the concepts of the electrical system and the electronic control of the automobile. Course instruction will include lecture, demonstration and student application in the use of test equipment on simulator board and in-car diagnosis and repair with electrical diagrams and charts. Instruction for this class will closely parallel topics addressed on the National Institute for Automotive Service Excellence (ASE) Electrical Systems (A6) examination. (Degree Credit)

AUTO 070 F Engine Reconditioning (7)
Advisory: AUTO 131 F
Six hours demonstrated lecture and three hours lab per week. This course covers operating principles, nomenclature, design, diagnostic inspection and reconditioning procedures on contemporary high-tech automotive engines. Use of a computer database and engine improvement software is also covered. (Degree Credit)

AUTO 072 F Automotive Engine Performance (7)
Advisory: AUTO 131 F
Six hours demonstrated lecture and three hours lab per week. Instruction is given on engine tune-up, diagnosis, and repair of the electronic ignition system, emissions control system, and electronic powertrain management systems, including electronic fuel injection. Instruction will be given to prepare the student for the National Institute of Automotive Service Excellence (ASE) Engine Performance (A8) test. Modern test equipment will be utilized in the lab sessions. (Degree Credit)

AUTO 073 F Brake Systems Repair (7)
Advisory: AUTO 131 F
Six hours demonstrated lecture and three hours lab per week. Operation, nomenclature, diagnosis, adjustment and repair procedures of automotive brake components, including electronically controlled anti-lock braking systems. Course instruction will include lecture, demonstration, and student application on vehicles in the lab. Instruction for this class will closely parallel topics addressed on the National Institute for Automotive Service Excellence (ASE) Brake Systems (A5) examination. (Degree Credit)

AUTO 081 F Engine Rebuilding and Repair (8)
Advisory: AUTO 131 F
Six hours demonstrated lecture and six hours lab per week. Operating principles, nomenclature, design, and repair procedures on the modern automotive engines. Emphasis is upon procedures of rebuilding an engine while out of the chassis and repairing while in the chassis. Instruction for this class will closely parallel topics addressed on the National Institute for Automotive Service Excellence (ASE) Engine Repair (A1) examination. (Degree Credit)

AUTO 082 F Automotive Engine Performance and Drivability (8)
Advisory: AUTO 131 F
Six hours demonstrated lecture and six hours lab per week. Engine tune-up, diagnosis, and repair of the ignition system (electronic, distributor-less, and electromechanical), fuel injection system, including the computer control system, and the emission control system. Diagnosis of engine performance and drivability problems is emphasized. Instruction is provided on domestic and imported vehicles. Modern test equipment will be utilized in lab sessions where live cars are repaired. Instruction for this class will closely parallel topics addressed on the National Institute for Automotive Excellence (ASE) Engine Performance (A8) examination. Course may be taken twice for credit. First semester students will concentrate on General Motors electronic control systems; those repeating the course will concentrate on Ford, Chrysler and import vehicle electronic control systems. (Degree Credit)

AUTO 083 F Brake and Suspension Systems Repair (8)
Advisory: AUTO 131 F
Six hours demonstrated lecture and six hours lab per week. Operation, nomenclature, adjustment and repair procedures of automotive brake, suspension, and steering systems. Instruction will closely parallel topics addressed on the National Institute for Automotive Service Excellence (ASE) Suspension and Steering (A4) and Brakes (A5) examinations. (Degree Credit)

AUTO 084 F Automatic Transmission (8)
Advisory: AUTO 131 F
Six hours demonstrated lecture and six hours lab per week. Technical principles of automatic transmissions. Theory and principles of operation of planetary gear systems and hydraulic systems of automatic transmission. Operating principles, overhaul and adjustment and servicing procedures of automatic transmissions. Design and operation of fluid couplings of torque converters. Students to perform testing, diagnosis, maintenance, and overhaul on various types of automatic transmissions including electronically controlled transmissions and transaxles. Instruction for this class will closely parallel topics addressed on the National Institute for Automotive Service Excellence (ASE) Automatic Transmission/Transaxle (A2) examination. (Degree Credit)
AUTO 086 F Automatic Transmission Fundamentals (3)
Advisory: AUTO 131 F
Two hours lecture and three hours lab per week. Fundamentals of automatic transmissions, theory and operation of planetary gear sets and related gear systems, principles of hydraulic systems, design and operation of torque converters and lock-up type converters, and operation of electronic controls. Emphasis will be on rear wheel drive transmissions. Diagnosis and maintenance fundamentals, along with service, adjustment and overhaul procedures, also will be emphasized. Instruction for this class will closely parallel topics addressed on the National Institute for Automotive Service Excellence (ASE) Automatic Transmission and Transaxle (A2) examination. The course may be taken twice for credit. First semester students will study hydraulic controlled transmission; students repeating the course will study electronically controlled transmissions. (Degree Credit)

AUTO 088 F Fuel Systems and Advanced Drivability Diagnosis (4)
Advisory: AUTO 131 F
Three hours demonstrated lecture and three hours lab per week. Instruction includes the theory and principles of engine control systems diagnosis and automotive emission control systems. This course prepares students for the National Institute of Automotive Service Excellence (ASE) A8 and L1 tests. Modern diagnostic equipment including the exhaust gas analyzer, digital meters, scan tools, and digital oscilloscope will be used in lab sessions. (Degree Credit)

AUTO 089 F Automotive Air Conditioning (4)
Advisory: AUTO 131 F
Four hours demonstrated lecture and two hours lab per week. Theory and principles of automotive air conditioning. Study of design features of various type systems. Demonstrated lectures on servicing, maintenance, diagnosis, and repair procedures. Students to perform on lab units or on other vehicles. (Degree Credit)

AUTO 090 F Emission Control Systems and Advanced Diagnosis (6)
Advisory: AUTO 131 F
Six hours lecture and two hours lab per week. Instruction includes the theory and principles of automotive emission control systems. This course prepares students for the State of California Smog Check Mechanic Test and for the National Institute for Automotive Service Excellence (ASE) A8 and L1 examinations. Modern diagnostic equipment including the exhaust gas analyzer, digital meters, and engine oscilloscope will be used in lab sessions. (Degree Credit)

AUTO 091 F Cylinder Head Repair (4)
Three hours demonstrated lecture and three hours lab per week. Covers operating principles, nomenclature, design and repair procedures on modern cylinder heads. Emphasis is on cylinder head repair procedures that are performed by small garages, including diagnosis, bench work and removal and installation. (Degree Credit)

AUTO 096 F Performance Technology (4)
Advisory: AUTO 131 F
Three hours lecture and three hours lab per week. Practical applications of performance and durability pertaining to motorized vehicles. Covers areas of engine, drivelines, brakes, and suspension necessary for better performance and increased safety and durability. (Degree Credit)

Biology (BIOL)
Natural Sciences Division
Office: Bldg 1000

Associate in Arts Degree
Biological Technician — Associate in Science Degree

Biology Courses

BIOL 060 F Fundamentals of Biology (3)
Four hours lecture/discussion per week for twelve weeks. This course is intended to provide an introduction to the fundamental concepts and terminology necessary for the basic understanding of science and especially biology. This class is designed for students with limited high school background in science that wish to take college level biology classes. Topics covered will include scientific method, taxonomic system, basic chemistry, cells, energetics, heredity, ecology, and evolution.

BIOL 100 F Principles of Biology (4)
Four hours lecture or equivalent per week. This course is an introductory non-majors course that will 1) emphasize the fundamental understanding of basic biological principles, 2) illustrate the structure and function of living organisms and their relationship to the physical world, and 3) develop the student's ability to make effective decisions regarding contemporary issues in natural sciences. Topics include 1) the structure and function of life at the cellular and organismic levels, 2) metabolism, photosynthesis and energetics, 3) cell division and animal development, 4) classical and molecular genetics, 5) biotechnical development and applications, 6) evolution and adaptations of living organisms, and 7) ecological relationship and environmental conservation. (CSU) (UC Credit Limitation: BIOL 100 F and 101 F combined: maximum credit one course) (Degree Credit) CSU GE, IGETC

BIOL 101 F General Biology (5)
Four hours lecture and three hours lab per week. This integrated lecture-lab course will 1) emphasize the fundamental understanding of basic biological principles, 2) illustrate the structure and function of living organisms and their relationship to the physical world, and 3) develop the student's ability to make effective decisions regarding contemporary issues in natural sciences. Lecture topics include 1) the structure and function of life at the cellular and organismic levels, 2) metabolism, photosynthesis and energetics, 3) cell division and animal development, 4) classical and molecular genetics, 5) biotechnical development and applications, 6) evolution and adaptations of living organisms, and 7) ecological relationships and environmental conservation. (CSU) (UC; no UC credit if taken after a 200 level Biology) (Degree Credit) AA GE, CSU GE

—177—
BIOL 101HF Honors General Biology (5)
Four hours lecture and three hours lab per week. This integrated lecture-lab course will 1) emphasize the fundamental understanding of basic biological principles, 2) illustrate the structure and function of living organisms and their relationship to the physical world, and 3) develop the student's ability to make effective decisions regarding contemporary issues in natural sciences. Lecture topics include 1) the structure and function of life at the cellular and organismic levels, 2) metabolism, photosynthesis and energetics, 3) cell division and animal development, 4) classical and molecular genetics, 5) biotechnological development and applications, 6) evolution and adaptations of living organisms, and 7) ecological relationships and environmental conservation. The honors section will include extra computer simulations, reading, writing assignments and field trips. (CSU)(UC)(Degree Credit)

BIOL 102 F Human Biology (3)
Three hours lecture per week. Integrated lectures, discussions and films are designed to study modern biological chemistry, cellular basis of life, energetics, demography, ecology and evolution. Included in the course are discussions of current topics on environmental, nutritional and public health issues as they relate to the human condition. (CSU)(UC; no UC credit if taken after BIOL 101 F or 101HF) (Degree Credit) AA GE, CSU GE, IGETC

BIOL 102LF Human Biology Lab (1)
Corequisite: BIOL 102 F
Three hours lab per week. This lab supplements the BIOL 102 F Human Biology lecture. This is a general education course for non-biology majors providing direct participation in experiments, demonstrations, and discussions. Topics include: elements of human anatomy and physiology, fitness, nutrition, disease, elements of human heredity and environmental adaptations. (CSU)(UC; no UC credit if taken after BIOL 101 F or 101HF) (Degree Credit) CSU GE, IGETC

BIOL 104 F Biology of Insects and Spiders (3)
Three hours lecture per week. This course familiarizes students with basic biological principles as illustrated by insects and spiders. Special emphasis is placed on their relations to plants and animals including humans. Living and preserved insects and spiders and many other visual aids will be used to help describe in detail life cycles, evolution, adaptations to local environment and the major taxonomic groups. (CSU)(UC) (Degree Credit) AA GE, CSU GE

BIOL 108 F Plants and People (3)
Letter Grade or Pass/No Pass option
Three hours lecture per week. This class introduces the history, uses of plants and plant products that have played major roles in the molding of civilization. Plants used by native Americans will be observed and studied. Lectures are integrated with discussion, demonstration and hands-on learning activities. Specific topics include plant structure, function, origins of agriculture and domestication. Historical and contemporary uses of important plant products such as drugs, medicines, oils, resins, beverages, foods and industrial products are included. The nutritional values of major food plants are evaluated. (CSU)(UC) (Degree Credit) CSU GE, IGETC

BIOL 109 F Genetics and Biotechnology in Society (3)
Three hours lecture per week. This introductory survey course will cover the basic concepts of heredity and current advanced in biotechnology, such as cloning, recombinant DNA technology, DNA fingerprinting and gene therapy. This course will emphasize the applications, social consequences and ethical implications of biotechnology in medicine and agriculture. (CSU)(UC; no UC credit if taken after a 200 level Biology) (Degree Credit) AA GE, CSU GE, IGETC

BIOL 109LF Genetics and Biotechnology in Society Lab (2)
Six hours lab per week. A semester course introducing students to the modern biological lab. Various instruments used to sample, measure, and collect data under lab and natural conditions. Course includes units on lab safety; basic microbiology; culture techniques; molecular analysis; and applications of the computer. Class emphasizes practical hands-on experience and an understanding of the basic principles behind the technologies. (CSU)(Degree Credit)

BIOL 141 F Marine Mammal Biology and Conservation (3)
Three hours lecture per week. This course will provide an overview of the diversity of marine mammal species, along with their natural history, behavior, physiology, and ecology. It will introduce students to the techniques used to study marine mammals, and their applications to conservation and management issues. Required field trips are included. (CSU)(UC)(Degree Credit) AA GE, CSU GE

BIOL 170 F Organismal Biology (5)
Prerequisite: High School Biology with a grade of “B” or better and MATH 040 F with a grade of “C” or better
Advisory: BIOL 101 F with a “C” or better or advanced placement high school biology with a grade of 3 or better on the placement exam
Three hours lecture, three hours lab, and one hour of discussion per week. This course is designed to familiarize students with the diversity and biology of living organisms. Integrated lab and lecture sessions emphasize the classification of organisms with respect to the evolution of anatomical and physiological adaptations. There are required field trips for this class. This class is designed for Biological Science majors in transfer programs. (CSU)(UC)(Degree Credit) AA GE, CSU GE, IGETC

BIOL 222 F Marine Biology (3)
Prerequisite: A biological science lab course with a grade of “C” or better
Two hours lecture and three hours lab and field work per week. This course presents an overview of life in the sea. Lectures, labs and fieldwork provide an introduction to the diversity of marine organisms and the physical and biological processes that influence their structure, life history, behavior, and distribution. An emphasis is placed on the interactions of these organisms and processes in a variety of marine habitats. Marine ecology and conservation are also discussed. Both lab and field exercises will be used to provide hands-on experience with marine organisms, habitats, and research techniques. (CSU)(UC)(Degree Credit) AA GE, CSU GE, IGETC

BIOL 266 F General Zoology (5)
Three hours lecture and six hours lab per week. This course is designed to familiarize students with the animal kingdom. Integrated lab and lecture sessions emphasize the evolution of anatomical, physiological and behavioral adaptations. This class is designed for Biological Science majors in transfer programs. (CSU)(UC)(Degree Credit) CSU GE, IGETC
BIOL 268 F General Botany (5)
Prerequisite: A biological science lab course with a grade of “C” or better
Three hours lecture and six hours lab/field work per week. Study of structure and function of roots, stems, leaves, flowers, fruits, and seeds of the flowering plants. Characteristics and life cycles of some of the algae, fungi, mosses, ferns, club mosses, and cone-bearing plants are covered. Environmental relationships, classification, genetics, propagation, and the applications of these to agriculture and forestry are included. (CSU) (UC) (Degree Credit) CSU GE, IGETC

BIOL 272 F Cell and Molecular Biology (4)
Prerequisite: BIOL 170 F and one semester of college chemistry with a grade of “C” or better
Three hours of lecture/discussion and three hours of lab per week. Integrated lectures and laboratories are designed to 1) develop a strong foundation in biological facts, concepts, and theoretical models, 2) extend the student’s ability to solve scientific problems through data collection and analysis, and 3) provide training in a variety of lab techniques and instrumentation used in modern biology. Discussion topics which are supported by lab experiences include (a) the molecular basis of life, (b) tissue, (c) enzyme kinetics, (d) gene expression, (e) development, and (f) immunology. Designed for Biological Sciences majors in transfer programs. (CSU) (UC) (Degree Credit) CSU GE, IGETC

BIOL 274 F General Ecology (4)
Prerequisite: BIOL 170 F
Three hours classroom lecture, and three hours of lab/field work per week. Two weekend field trips are required. Field trips, including an overnight trip, are required. This course is designed to familiarize students with basic principles governing interactions between organisms and the environment. Integrated lectures, field trips, and lab sessions emphasize basic ecological principles and relationships. These include identification of plants and animals, community analysis, environmental survey techniques, laws of thermodynamics, behavioral and physiological adaptations of organisms, and ecological models. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

BIOL 276 F Genetics and Evolutionary Biology (4)
Prerequisite: BIOL 272 F or equivalent
Three hours lecture and three hours lab per week. This course is a comprehensive survey of the processes and products of genetics. Through a review of experimental evidence, students evaluate the basic tenets of molecular, transmission and population genetics, and use the science of genetics to appraise the relationship of genetics to the processes and products of microevolution and macroevolution. Lab topics include DNA replication/repair, transcription and translation and regulation of gene expression. The philosophy and methods of science, as well as the theory of evolutionary thought are integrated throughout. Field trips may be required. (CSU) (UC) (Degree Credit)

BIOL 299 F Biological Science Independent Study (1)
Prerequisite: A 200-level course in the Biological Sciences Division with a grade of “B” or better
Lab and/or field investigations with the guidance of members of the Life Sciences faculty. Hours to be arranged. Primarily for majors in Life Sciences who wish to increase their knowledge of the sciences through individual study and small group conferences. Independent lab research problems with staff supervision may be approved. Outside reading and written report required. Elective credit in the sciences area. Course may be taken three times for credit. (CSU) (UC review required.) (Degree Credit)
BUS 024 F Stock Options (1)
Pass/No Pass only
Advisory: BUS 021 F
One hour lecture per week. This course provides an introduction to put and call options. Topics to be discussed include the options market, mechanics of investing in options, basic options strategies, and return-risk characteristics. (Degree Credit)

BUS 025 F Investment and Retirement Plans (1)
Pass/No Pass only
One hour lecture per week. This course provides the fundamental concepts of mutual fund investing. The different types of investment companies, unique features, and advantages and disadvantages are covered. An overview of tax-deferred retirement plans is presented. Focus will be on managing self-directed IRA’s and Keogh Plans. (Degree Credit)

BUS 055 F Business English (3)
Three hours lecture per week. A basic business English review course intended for the vocational business student. Practice is provided in essentials of grammar, punctuation, English usage, capitalization, number usage, sentence structure, and spelling. Basic principles of letter writing are introduced. (This course does not meet English requirements for transfer to CSU)

BUS 061 F Business Skills Internship (1-4)
Pass/No Pass only
One hour lecture per week and five hours of supervised employment or volunteer work per week in business or industry for each unit for a maximum of 4 units (20 hours). This course provides vocational learning opportunities for a student through employment in business or industry. Students must have completed 7 units or 20 percent of the Business and Technology Skills Certificate prior to enrolling in this course. Students must be enrolled in at least 6 units of required or restricted courses, which may include the internship course, in the Business and Technology Skills Certificate. (Degree Credit)

BUS 090 F Current Issues in Business (.5-3)
Zero to three hours lecture plus 0-9 hours lab. This course offers timely business-related topics designed to enhance job skills, expand the student's knowledge of the business world, and increase employment opportunities. Unit credit may range from .5 to 3 units in any given semester. Consult the class schedule to verify specific topic area and credit offered for a particular semester. May be taken for credit four times.

BUS 100 F Introduction to Business (3)
Three hours lecture per week. An introductory business course designed to give an understanding and appreciation of the American business/economic system. The course surveys the nature of business, ownership, physical factors, personnel relations, marketing, finance, corporate ownership, management control, business regulations, law, taxation, and the international business environment. (CSU) (UC) (Degree Credit)

BUS 101 F Personal Financial Management (3)
Three hours lecture per week. This basic course covers the proper management of personal incomes and expenditures. The course includes a study of inflation and business cycles; commercial and savings accounts; budgets, charge accounts, installment buying, and borrowing money; property, income, estate, inheritance, and gift taxes; life, health, accident, property and miscellaneous insurance; pension plans and Social Security; owning a home; investing in securities; and trust funds and wills. (CSU) (Degree Credit)

BUS 111 F Business Communications (3)
Three hours lecture per week. This course provides instruction and practice in writing in English usage, writing business letters, interoffice memorandum, and reports. Business English, mechanics, and appearance. Included are letters of inquiry, order and acknowledgement, sales, application, claims and adjustment and collection. One original research report is required. Meeting the needs of the readers underlies each section of study. (CSU) (Degree Credit)

BUS 131 F Principles of International Business (3)
Three hours lecture per week. This course provides an overview of the global business environment by examining the similarities and differences in comparison with the United States of doing business in various contemporary foreign cultural settings. It focuses on the differences of the economic, political, financial, and legal systems. It also discusses the ways of managing these differences through understanding the principles of marketing, exporting, financing, production, and human resource management in the context of a multicultural business environment. This course is recommended for all business management/international business majors. This course fulfills the Multicultural Education Requirement for graduation. (CSU) (Degree Credit) AA GE, MULT CULT REQ

BUS 132 F Principles of Import/Export (3)
Three hours lecture per week. This course provides a thorough and practical treatment of the importing and exporting activities involved in international trade. The course is designed to acquaint the student through a comprehensive approach to import/export as a continuous activity. It allows gaining firsthand how-to knowledge for those seeking to either get familiarized or work in the international trade industry, contemplating to start an import/export activity, or for managers wishing to expand their company's market opportunities. Special emphasis is placed on agencies involved, terms and conditions, documentation requirements and formalities, transportation, insurance, banking and finance, marketing, and sources of information. (CSU) (Degree Credit)

BUS 151 F Business Mathematics (3)
Prerequisite: MATH 020 F or math skills clearance
Three hours lecture per week. Reviews the essentials of business arithmetic in fundamental computation and problem solving. Includes problems in interest and bank discount, taxation, business ownership, retailing, annuities, sinking funds, compound interest, and amortization. This course is recommended for all Business majors; however, it does not meet the GE math requirement for transfer to CSU. (CSU) (Degree Credit) AA GE

BUS 162 F Business Economics (3)
Three hours lecture per week. Economic principles and problems of today's business world are emphasized. An elementary and practical course intended to acquaint the student with the present-day operation of the American free enterprise system. Business terminology, price competition, labor problems, business cycles, national income, public and international finance, and government control are emphasized. This course provides an independent, business-related study of economics for the student of business management courses. (CSU) (Degree Credit) AA GE

BUS 170 F Principles of E-Business (3)
Three hours lecture per week. This course will provide a comprehensive introduction to the field of e-business and integration of the Internet into existing business, taking into consideration the four critical infrastructures: technology, capital, public policy and media. This course focuses on presenting a working definition and framework for the study and practice of electronic commerce, e-business and Internet integration strategies. (CSU) (Degree Credit)
BUS 180 F Small Business Management (3)
Three hours lecture per week. This course studies various small business enterprises including retail, wholesale, manufacturing, service, and home-based business. Factors in business success and advantages and disadvantages of business ownership are analyzed. This course covers the problems encountered in organizing and operating a small business, including financial sources, accounting information, marketing and other related information. (CSU) (Degree Credit)

BUS 181 F Business Plan Development (2)
One and one-half hour lecture and one and one-half hour lab per week. This course focuses on strategies and techniques to write an effective business plan for small businesses. Students will research, evaluate, and prepare a comprehensive business plan, utilizing business planning software. (CSU) (Degree Credit)

BUS 182 F Doing Business Online (2)
One and one-half hour lecture and one and one-half hour lab per week. This course will prepare students to use the Internet with a business or home-based business. Emphasis will be placed on planning and organizing the Internet business. Students will learn how to connect to the Internet; create a secure Web site; organize E-mail, use FTP and Telnet; create a Web-based business or integrate the Internet in an existing business; and write an Internet business plan. (CSU) (Degree Credit)

BUS 201 F Personal Investments (3)
Three hours lecture per week. This course provides a comprehensive study of stocks, bonds, and related securities that includes a detailed study of the nature of these securities and their markets. Emphasis is placed on personal investment objectives for growth, growth with income, and income with preservation of capital together with taxes that affect investment policy. (CSU) (Degree Credit)

BUS 211 F Writing for Business (3)
Prerequisite: ENGL 100 F or ENGL 100HF with a grade of “C” or better; the prefix for this course is BUS but this writing course has sequential skills to those taught in ENGL 100 F or ENGL 100HF. Three hours lecture per week. This course is an introduction to communication skills and knowledge needed in organizations today. The course will include communication fundamentals; ethical, legal, and multicultural issues; correspondence applications; employment communication; oral and nonverbal communication; report writing; management presentations; team/group building skills; research methods; and running effective meetings and conferences. Computer-mediated applications will be presented throughout the course. (CSU) (Degree Credit)

BUS 211HF Honors Writing for Business (3)
Letter Grade or Pass/No Pass option
Prerequisite: ENGL 100 F or ENGL 100HF. Three hours lecture per week. An intermediary course to communication skills and knowledge needed in organizations. This course will include communication fundamentals; ethical, legal and multicultural issues; correspondence applications; employment communication; oral and nonverbal communication; report writing; management presentations; team/group building skills; research methods; and running effective meetings and conferences. Computer-mediated applications will be presented throughout the course. As an Honors course, this class will use enhanced teaching methods such as a seminar approach, more research-based writing assignments, and assignments calling for a higher level of critical thinking. (CSU) (Degree Credit)

BUS 224 F International Marketing (3)
Three hours lecture per week. This course provides an analysis of worldwide marketing opportunities through a consideration of political, legal, economic, and cultural factors in the international context. Special emphasis will be placed on international market research, product development and positioning, pricing, distribution, and promotion. Recommended for students pursuing business management and international business degrees. (CSU) (Degree Credit)

BUS 225 F International Management (3)
Three hours lecture per week. This course provides practical knowledge with specific applications in international business management. Topics include import/export management, international financial management, foreign joint venture, foreign joint venture, foreign licensing and franchising, and countertrade. The course combines integrated text materials with carefully selected comprehensive case studies that are designed to demonstrate the practical experience of firms of all sizes as they come to grips with an increasingly competitive global environment. Recommended for students pursuing business management and international business degrees. (CSU) (Degree Credit)

BUS 240 F Legal Environment of Business (3)
Three hours lecture per week. This course is an introduction to the legal environment in which a business firm operates. Topics include an introduction to the American legal system, contracts, torts, product liability, forms of business organization, trade regulation, labor law, environmental law, and international business law. (CSU) (UC Credit Limitation) (Degree Credit) AA GE

BUS 240HF Honors Legal Environment of Business (3)
Letter Grade or Pass/No Pass option
Three hours lecture per week. This course is an introduction to the legal environment in which a business firm operates. Topics include an introduction to the American legal system, contracts, torts, product liability, forms of business organization, trade regulation, labor law, environmental law, and international business law. As an Honors course, students will conduct independent legal research and prepare class presentations of court cases and legal arguments. This class will use the Socratic method of instruction. (CSU) (UC Credit Limitation) (Degree Credit)

BUS 241AF Business Law (3)
Three hours lecture per week. This course is an introduction to business law principles and cases, including a review of the classes and sources of law, agencies for enforcement, court procedure, and civil and criminal liability. The major subject area studied is the law of contracts. A special study is made of sales of goods based upon the Uniform Commercial Code with emphasis placed on consumer protection. (CSU) (UC Credit Limitation) (Degree Credit) AA GE

BUS 241BF Business Law (3)
Prerequisite: BUS 241AF
Three hours lecture per week. This course is a continuation of BUS 241AF Business Law with emphasis on business organizations. Areas of study include commercial paper, agency employment, partnerships, corporations, antitrust, securities, and bankruptcy law. (CSU) (UC Credit Limitation) (Degree Credit)
BUS 242 F International Business Law (3)
Three hours lecture per week. This course provides an introduction to the legal and cultural issues raised in formulating an international business strategy and engaging in international business transactions. Topics include international contracting, export-import, licensing and technology transfer, and sales of services. This course fulfills the Multicultural Requirement for graduation. (CSU) (Degree Credit) AAGE, MULT CULT REQ

BUS 251 F Business Finance (3)
Three hours lecture per week. An introductory course to the field of finance, the focus is on the practical significance of the fundamental concepts of finance. The class will include the analysis of financial markets, financial statements, planning and control, working capital management, time value of money, valuation models, capital budgeting, dividend policy, and mergers and acquisitions. (CSU) (Degree Credit)

BUS 262 F Principles of Management (3)
Three hours lecture per week. This course covers the principles, methods, and procedures essential to the successful management of human and financial resources. Planning, decision making, staff, directing, communication, controlling, and the application of managerial skills are discussed. (CSU) (Degree Credit)

BUS 266 F Human Relations in Business (3)
Three hours lecture per week. This course examines human behavior in the workplace and the most important and useful practices found in the management of organizations. Typical employment situations are analyzed for the purpose of establishing sound practices in the working environment. Topics include communications, leadership development, job conflict, motivation, human relations training, workforce diversity, group dynamics, job politics, organizational change, and stress management are covered. (CSU) (Degree Credit) AA GE

BUS 267 F Principles of Supervision (3)
Three hours lecture per week. A course designed for first-line, new, or future managers covering the skills required to effectively supervise and manage employees in organizations. This class emphasizes the supervisor's need for a working understanding of the functions of management and the practical supervisory skills relating to employees, work teams, workplace diversity, ethics and special concerns. Topics include the role and function of supervisors, recruitment and evaluation of workers, task delegation, motivation, employee discipline, training and professional development, conflict management, labor relations and legislation, communication, employee safety, and time management. (CSU) (Degree Credit)

BUS 269 F Managing Business Projects (2)
Two hours lecture per week. An introductory course in the study of project management. This course covers the principles and methods necessary to create an effective plan and schedule for a project; the techniques to monitor, control, and measure performance of the project once it is underway; and the relationships of timing, costs, and resources (including personnel). (CSU) (Degree Credit)

BUS 271 F Leadership and Business Ethics (3)
Three hours lecture per week. This applications-oriented course focuses on leadership and ethics in business today. It addresses leadership models and principles of ethical business issues. Leadership topics include leading and motivating individuals to work teams, workplace diversity, followership, self-assessment and skills development. Business ethics topics include ethical leadership and decision making, organizational value systems and identifying and developing tools needed to effectively deal with ethical dilemmas. (CSU) (Degree Credit)

BUS 290 F Managerial Communications (3)
Three hours lecture per week. This course covers a variety of communication challenges that typically arise in management and emphasizes the development of communication skills to successfully manage individuals and groups. Topics include leadership and management skills, developing work relationships, issues of diversity, managing meetings, making presentations, interviewing, performance appraisals, negotiation, conflict resolution, using electronic communications technology, and group communication strategies. (CSU) (Degree Credit)

BUS 298 F Advanced Topics in Business (.5-3)
Zero to three hours lecture and/or zero to nine hours lab per week. This course offers timely business-related advanced concepts designed to enhance job skills, expand the student's knowledge of the business world, and increase employment opportunities. Unit credit may range from .5 to 3 units in any given term. Consult the class schedule to verify specific topic area and credit offered for a particular term. (CSU) (Degree Credit)

Chemistry (CHEM)
Natural Sciences Division
Office: Bldg 1000
714.992.7043
Dean: Bruce Cordell
Website: http://natsci.fullcoll.edu/

Associate in Arts Degree

Chemistry Courses

CHEM 100 F Chemistry for Daily Life (4)
Three hours lecture and three hours lab per week. The focus is on the practical significance of the fundamental concepts of chemistry in the context of societal, political and economic issues that impact our world. Units may include, but are not limited to the following: the chemistry of the atmosphere and water, fission and fusion, energy, chemistry, and society, pharmaceutical, new materials, the chemistry of nutrition and agriculture. Student participation is stressed individually and in groups, through written and oral assignments. The lab provides hands-on experience with chemical phenomena. The course is designed for the non-science major seeking a lab science. (CSU) (UC; no credit if taken after CHEM 111AF.) (Degree Credit) AA GE, CSU GE, IGETC
CHEM 101 F Introduction to Chemistry (5)
Prerequisite: MATH 040 F with a grade of "C" or better
Four hours of lecture, one hour problem solving, three hours of lab per week. This introductory course emphasizes the principles of inorganic and organic chemistry and includes a lab. It will meet physical science transfer requirements and is required of numerous allied health sciences majors. (CSU) (UC Credit Limitation: no credit if taken after CHEM 111AF) (Degree Credit) AA GE, CSU GE, IGETC

CHEM 103 F Chemistry in a Changing World (3)
Three hours lecture per week. This course is intended for non-science students seeking general education credit in a physical science course without a lab. The course emphasizes basic principles of chemistry and their relationship to the modern world. This course will foster an interest in science by preparing students to make effective decisions, and by developing thinking skills that can be applied to challenges in a changing world. Topics include air and water pollution, energy resources, basic biochemistry, and current scientific developments involving chemistry. (CSU) (UC Credit Limitation: no credit if taken after CHEM 111AF) (Degree Credit) AA GE, CSU GE, IGETC

CHEM 107 F Elementary Chemistry (5)
Prerequisite: MATH 040 F with a grade of "C" or better
Four hours lecture, three hours lab, and one hour problem solving per week. This course is strongly recommended for students who have not had high school chemistry or who earned a grade of "C" or less in the high school course. The fundamental principles of chemistry are stressed, with emphasis on the chemistry of inorganic compounds. Includes atomic structure, chemical bonding, descriptive chemistry, stoichiometry, gas laws, solutions, equilibrium and redox. This course is intended to prepare students specifically for 111AF/111BF General Chemistry. Lab work supports topics of Chemistry 107 F. (CSU) (UC Credit Limitation: no credit if taken after CHEM 111AF) (Degree Credit) AA GE, CSU GE, IGETC

CHEM 111F General Chemistry (5)
Prerequisite: CHEM 107 F with a grade of “C” or better or a passing score on the Chemistry Proficiency Test; and MATH 040 F with grade of "C" or better or two years of high school algebra
Three hours lecture, two hours of problem solving, three hours lab, and one hour discussion per week. Lecture topics include: course introduction, chemical reactions and stoichiometry; thermochemistry and calorimetry; atomic structure and chemical periodicity; chemical bonding; molecular structure; gases; physical properties of solids, liquids and solutions. Lab work supports topics of Chemistry 111AF. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

CHEM 111BF General Chemistry (5)
Prerequisite: CHEM 111AF with a grade of “C” or better
Three hours lecture, two hours of problem solving, three hours lab, and one hour discussion per week. Chemistry lecture topics are selected from kinetics, equilibria, acid-base, thermodynamics, electrochemistry, transition metals and coordination compounds. Lab work supports topics of Chemistry 111BF. (CSU) (UC) (Degree Credit) CSU GE, IGETC

CHEM 200 F Elementary Organic Chemistry (3)
Prerequisite: CHEM 111AF with a grade of “C” or better
Three hours lecture per week. This is a brief introductory organic chemistry course intended for students majoring in areas other than chemistry. Emphasis is upon nomenclature, structure, reactivity, chemical and physical properties, reaction mechanisms, and structure determination using spectroscopy. (CSU) (UC credit limitation) (Degree Credit)

CHEM 201 F Basic Concepts of Organic and Biochemistry (5)
Prerequisite: CHEM 101 F with a grade of “C” or better
Four hours lecture, one hour of problem solving, two hours lab, and one hour discussion per week. This course is the second semester of a two semester sequence (CHEM 101 F and CHEM 201 F). This course is a study of organic chemistry: structures, nomenclature, reactions and functions of organic and biochemical compounds; cell structure, metabolism, bioenergetics, biochemical genetics, and mechanisms of vitamin and enzyme action. This course is designed for the health professions. (CSU) (UC credit limitation) (Degree Credit)

CHEM 211AF Organic Chemistry (5)
Prerequisite: CHEM 101 F with a grade of “C” or better
Three hour lecture, four hours lab, and two hours discussion per week. This course is the first part of a full year organic chemistry course designated primarily for chemistry majors but strongly recommended for pre-medical, pre-dental, pre-veterinary, pre-chiropractic, and biology majors. Emphasis is upon fundamental concept and application to molecular structure and chemical reactivity. Considerable stress is placed upon reaction mechanism, energetics, syntheses, stereochemistry, and molecular spectroscopy. Lab work includes techniques such as distillation, extraction, chromatography, and synthesis and qualitative analysis. (CSU) (UC Credit Limitation) (Degree Credit)

CHEM 211BF Organic Chemistry (5)
Prerequisite: CHEM 211AF with a grade of “C” or better
Three hour lecture, four hours lab, and two hours discussion per week. This course is the second part of a full year organic chemistry course designed primarily for chemistry majors but strongly recommended for pre-medical, pre-dental, pre-veterinary, pre-chiropractic, and biology majors. Aliphatic and aromatic compounds are integrated with the functional group approach maintained. Considerable emphasis is placed upon reaction mechanism, energetics, syntheses, stereochemistry, and spectroscopy. Lab work is on synthesis and qualitative analysis employing techniques learned in CHEM 211AF. (CSU) (UC) (Degree Credit)

Child Development and Educational Studies Courses

CDES 110 F Anti-Bias Perspective Seminar (3)
Three hours lecture per week. This course places an emphasis on addressing issues of bias that individuals, children and families experience on a daily basis. The focus of this seminar is to prepare the student to create a culturally relevant teaching environment where adults and/or children actively foster cognitive, emotional and behavioral skills needed to respectfully and effectively learn about differences and similarities. Students are required to examine their own world views. This course fulfills the Multicultural Education Requirement for graduation. (CSU) (Degree Credit) MULT CULT REQ

CDES 112 F Teaching Peace (2)
Two hours of lecture per week. This course provides an overview of peace education and a framework for creating environments and curriculum that promote peace. Students gain skills in communication, conflict management, the anti-bias perspective, promoting non-violence and community building. (CSU) (Degree Credit)

CDES 115 F Introduction to Early Childhood Education Curriculum (3)
Three hours of lecture per week. This course focuses on the appropriate use of assessment and observation strategies to document development, growth, play and learning to join with families and professionals in promoting children's success. Recording strategies, rating systems, portfolios, and multiple assessment tools are explored. (CSU) (Degree Credit)

CDES 120 F Child Development (3)
Three hours lecture per week. Students study the entire scope of developmental theories addressing physical, intellectual, moral, social and emotional development. Periods of development from prenatal through adolescence are presented in a chronological sequence. Research methodologies are discussed as students are expected to think critically about theory and research. Inclusive viewpoints of theory and practice are addressed. (CSU) (UC Credit Limitation) (Degree Credit) AA GE, CSU GE

CDES 121AF Introduction to Early Childhood Teaching (2)
Prerequisite: CDES 120 F and CDES 122 F
Corequisite: CDES 121BF
Two hours lecture per week. This course is designed to provide students interested in educating young children (preschool through the early primary grades) an introduction to teaching and learning. Current standards, policies and mandates within the early childhood profession are explored. (Not limited to Child Development majors). (CSU) (Degree Credit)

CDES 121BF Introduction to Early Childhood Teaching Lab (1)
Prerequisite: CDES 120 F and CDES 122 F
Corequisite: CDES 121AF
One hour lab per week. The purpose of this course is to provide students interested in early childhood and early primary teaching weekly opportunities to develop observational strategies as well as opportunities to engage in the learning experiences of the classrooms. There will also be opportunities to develop, present, and evaluate learning activities for a wide age range of children in the Fullerton College Child Development Lab School as well as early primary grades. Not limited to Child Development majors. (CSU) (Degree Credit)

CDES 122 F Principles of Early Childhood Education (3)
Three hours lecture per week. Emphasis is placed on the development of the teacher and the construction of quality programs. Issues included are developmentally appropriate practice, professional ethics, cross-cultural/non-sexist education, curriculum, health and safety, working with parents and the role of the adult as teacher and advocate. Students gain observation skills at the Fullerton College Lab. (CSU) (Degree Credit)

CDES 123AF Early Childhood Art Education (2)
Prerequisite: CDES 115 F
A total of 32 lecture hours. This course examines the teacher's role in children's artistic growth. Emphasis is on the child as the artist, learner and creator. Students explore, analyze, develop and present artistic experiences that support children's use of art as a tool for communication and understanding. (CSU) (Degree Credit)

CDES 123BF Early Childhood Language and Literary Education (2)
Prerequisite: CDES 115 F
A total of 21 lecture hours. This course examines the teacher's role in children's language and literacy development. Emphasis is on the child as listener, reader and writer. Students explore, analyze, develop and present artistic experiences that support children's use of art as a tool for communication and understanding. (CSU) (Degree Credit)
CDES 123CF Early Childhood Science and Math Education (2)
**Prerequisite:** CDES 115 F
A total of 32 lecture hours. Students gain insight and learn techniques for creating a scientific early childhood classroom environment that promotes a constructivist approach. Emphasis is on the child as researcher, explorer and investigator. Students explore processes that promote in-depth scientific investigation and early math understanding. (CSU) (Degree Credit)

CDES 123DF Early Childhood Music Education (2)
**Prerequisite:** CDES 115 F
Two hours lecture per week. Students learn to create musical environments as they explore brain research. Both vocal and instrumental music are explored. Using a multicultural lens, the role of the teacher as bridge between music and the child and family is emphasized. (CSU) (Degree Credit)

CDES 125 F Observation and Assessment for Early Learning and Development (3)
Three hours of lecture per week. This course focuses on the appropriate use of assessment and observation strategies to document development, growth, play and learning to join with families and professionals in promoting children’s success. Recording strategies, rating systems, portfolios, and multiple assessment tools are explored. (CSU) (Degree Credit)

CDES 131 F Business Principles of Family Child Care (3)
Three hours lecture per week. This course addresses the theory, practice and principles of operating a quality family child care home. Philosophy, goals, regulations, parent communication, business policies, record-keeping, safety, physical space requirements, and nutrition are the primary focus. Accreditation/certification options and family child care support services are discussed. (CSU) (Degree Credit)

CDES 132 F Environments and Programs for Family Child Care (3)
Three hours lecture per week. This course prepares the family child care provider with the knowledge and techniques to create culturally relevant, quality environments and programs. Current brain research, developmental theories and innovative models will be explored. This course is relevant for the new and experienced family child care providers. (CSU) (Degree Credit)

CDES 135 F Early Childhood CPR and First Aid (1)
Pass/No Pass only
One hour lecture per week. This course is designed to prepare the student to respond to emergency situations utilizing Cardio-Pulmonary Resuscitation (CPR) techniques and/or pediatric first aid. Topics such as injury prevention and disaster preparedness are also covered. This course meets, in-part, the California Department of Social Services health/safety requirements for family child care and center-based providers. Upon successful completion of the course American Red Cross certification is earned. (CSU) (Degree Credit)

CDES 140 F Infant/Toddler Development and Observation (3)
Three hours lecture per week. This course studies the child from birth to age three including prenatal development with an emphasis on physical, intellectual, social and emotional growth and development. Family inter-relationships, establishment of basic trust and autonomy, and cultural variations on nurturing are included. Interwoven into this course are appropriate observation and assessment techniques. (CSU) (Degree Credit) AA GE

CDES 141 F Principles of Infant/Toddler Care and Education (3)
Three hours lecture per week. This course provides the student with an overview of the organization and operation of infant-toddler programs including: goals, philosophy, infant and family needs, activities and routines, physical space and equipment. An emphasis is on developmentally appropriate, culturally sensitive care for infants in group settings. (CSU) (Degree Credit)

CDES 151 F School-Age Child: Program, Curriculum, Guidance (3)
Three hours lecture/demonstration per week. This course is for those working in school-age extended-day programs. Emphasis is on philosophy, guidance and discipline, legal issues program/curriculum development and developmentally appropriate activities reflecting issues of diversity. Students develop criteria for evaluating quality programs. (CSU) (Degree Credit)

CDES 173 F The Process of Parenting (3)
Three hours lecture/demonstration per week. This course applies a developmental framework in examining theoretical and practical approaches to the process of parenting. It explores expectations, influences and strategies of parenting with focus on attitudes and behaviors. Topics include: facilitating the parent-child relationship from birth through adolescence; adaptations of parenting techniques for working parents, single parents, and step-parents. These topics are addressed within the context of cultural diversity. (CSU) (Degree Credit) AA GE

CDES 199 F Child Development Independent Study (1)
One hour lecture or scheduled conference per week. This course is offered for students who wish to increase their knowledge of the Social Sciences through individual study and small group conferences. Students successfully completing this course will be awarded elective credit in the Social Sciences area. Course may be taken four times for credit. (CSU) (UC Credit Limitation depending upon course content; UC review required.) (Degree Credit)

CDES 200 F Adolescent Development (3)
Three hours lecture per week. This course examines the developmental period of adolescence. Emphasis is on physical, social, intellectual, moral and identity development in a framework reflecting the growing diversity of our population. While theoretical understanding is emphasized, issues such as teen pregnancy, family relationships, and education are addressed. (CSU) (UC Credit Limitation) (Degree Credit)

CDES 201 F Child in the Home and Community (3)
Three hours lecture per week. This course provides a sociological and environmental study of the interaction of the family, school and community in the life of the developing child. Students explore the diversity of families and the support of these families throughout various social structures. Emphasis is on early childhood education, schools, community agencies and the responsibility of the professional as advocate. Course fulfills the Multicultural Education Requirement for graduation. (CSU) (Degree Credit) AA GE, MULT CULT REQ

CDES 204 F Introduction to Special Education (3)
Three hours lecture per week. This course provides an overview of special education. It includes the theoretical and educational foundations of special education, a historical background to the field of special education, legal issues, and techniques for inclusion of individuals with special needs in all settings. Various implications of full inclusion are discussed. (CSU) (Degree Credit)
CDES 205 F Creating Environments for Young Children (2)
Two hours lecture per week. This course is designed for adults interested in planning inclusive environments for children. It is valuable for administrators, interior designers, and teachers. Students develop ways of examining the environmental settings for children and evaluate the use of physical space and the selection of activity settings in terms of program goals. The study of environmental planning to enrich children’s experience is emphasized. Students design both indoor and outdoor environments for a group setting. (CSU) (Degree Credit)

CDES 206 F Perceptual-Motor Development for Children (2)
Two hours lecture per week. This course provides early childhood education teachers and parents with a better understanding of the motor development of young children. Guidelines used to develop daily programs in perceptual-motor curriculum and activities are explored. Techniques for early identification of learning and emotional problems and strategies for establishing an environment to enhance physical development are addressed. (CSU) (Degree Credit)

CDES 207 F Principles and Techniques for Early Childhood Special Education with Field Experience (3)
Two hours lecture and seven hours lab per week. This course is designed for those who are or will be working with groups of young children. Identifying the teacher’s role in early diagnosis, using IEP’s working with specialists, and working with families are discussed. Teaching techniques, appropriate teaching goals, and curriculum adaptations are emphasized in relation to all the federally recognized categories of special education. Specific behavior management techniques and the importance of environmental adaptations for effective programs are included. Full inclusion policies and natural environments are discussed. Field experience in an inclusive setting will be incorporated into the course content. (CSU) (Degree Credit)

CDES 208 F Working with Families of Children with Special Needs (3)
Three hours lecture per week. This course is designed for teachers, administrators, parents, and others interested in supporting children with special needs and their families. The first part of this course focuses on supporting families of children with special needs in early childhood settings. Developing techniques and strategies to provide this support is emphasized, as well as building a knowledge base of resources available to parents and early childhood programs. There is a focus on creating inclusive environments for young children and their families. (CSU) (Degree Credit)

CDES 209 F The Role of the Para-Professional in Diverse Settings (3)
Three hours lecture per week. This course is an overview of the roles and responsibilities of para-professional including legal, instruction, evaluation and behavioral components. It is designed to train persons to work as classroom teaching assistants in public schools. This course meets the current legislative requirements for para-professional. (CSU) (Degree Credit)

CDES 211 F Classroom Practices for Diverse Learners (3)
Three lecture hours per week. This course is designed for those who are or will be assisting in the elementary through secondary educational setting. Students will be prepared to facilitate classroom and community practices for diverse learners (individuals who have disabilities, second language learners, are gifted, etc.). Topics will include literacy, language, and behavior support. Introductory knowledge in the assessment, design and implementation of life-span curriculum and methodology will be covered. (CSU) (Degree Credit)

CDES 215 F Health, Safety, Food, and Nutrition for Children (3)
Three hours lecture per week. This course focuses on health and safety and the use of food as an instructional medium in early childhood settings. Emphasis is placed on the planning and organization of food-related activities for young children, including safety, and sanitation issues; the application of basic nutrition principles to menu planning/evaluation; the resolution of common food-related problems such as obesity and caregiver manipulation; and techniques and resources for providing culturally-appropriate foods and nutrition education. Health practices such as the prevention of infectious diseases and injury prevention are also covered. This course, in-part, meets the California Department of Social Services health/safety requirements for family child care and center-based providers. (CSU) (Degree Credit)

CDES 225 F Early Childhood Teaching with Field Experience (3)
Prerequisite: CDES 120 F, CDES 122 F, CDES 123AF/123BF/123CF/123DF (two courses), and CDES 201 F all with a grade of “C” or better
Corequisite: CDES 238 F all with a grade of “C” or better
Two hours lecture and seven hours lab per week. Placement may be in the Fullerton College Development Lab or a Mentor Teacher site. Students observe and document the behavior of a diverse group of children in order to design, implement and evaluate constructivist curriculum. Other elements of teaching such as environmental design, parent-teacher conferences and parent communication are explored. (CSU) (Degree Credit)

CDES 230 F Early Childhood Education Administration (3)
Prerequisite: Completion of the Basic Children’s Program Certificate at Fullerton College or completion of the California Department of Social Services required core courses as required by Title 22 Child Day Care General Licensing requirements
Forty-eight hours lecture per semester. This course is required for the Early Childhood Education Administration Certificate and meets the State Department of Social Services licensing regulations for administrators. The course emphasizes the following components: facility and financial management, marketing, enrollment, managing health and safety, food service, and legal considerations for child care centers. This is one course in a series of administrative course offerings. (CSU) (Degree Credit)
CDES 231 F Early Childhood Education Administration II (3)
Prerequisite: Completion of the Basic Children's Program Certificate at Fullerton College or completion of the California Department of Social Services required core courses as required by Title 22 Child Day Care General Licensing requirements
Forty-eight hours lecture per semester. This course is required for the Early Childhood Education Administration Certificate and meets the State Department of Social Services licensing regulations for administrators. This course emphasizes the following components: Child development and educational theory and philosophy; effective administrative, supervisory, and leadership skills; quality child care and development programming; planning, organizing, staffing, and evaluating child care centers; effective communication; and advocacy. This is one course in a series of administrative course offerings. (CSU) (Degree Credit)

CDES 235 F Bilingual/Cross-Cultural Teacher Aide Methods (3)
Corequisite: ETHS 101 F or ETHS 118 F
Three hours lecture per week. This course is for students preparing to become bilingual/crosscultural teacher aides. It includes the role of the teacher/aide team with emphasis on effective use of the bilingual aide, practical classroom skills and techniques, and ways of establishing an effective learning environment. It covers current bilingual/crosscultural curriculum methods and evaluation. Information on employment trends, ways to find jobs, and ways to further career will be provided. (CSU) (Degree Credit)

CDES 238 F Advanced Curriculum Design Seminar (3)
Prerequisite: CDES 115 F with a grade of “C” or better
Three hours lecture per week. Students examine the role of the teacher in curriculum design based on inspirations from the Reggio Emilia preschools in Italy. Constructivist, child centered and play-based theoretical curricular approaches are explored as the students apply theory to practice. Observation, reflection, children’s theory building, emergent curriculum and documentation are included. Course meets the specialization unit requirements for the Master Teacher level Child Development Permit Matrix. (CSU) (Degree Credit)

CDES 240 F Leadership in the Early Childhood Profession (3)
Prerequisite: Student must meet requirement for the Associate Teacher on the Child Development Permit Matrix, California Commission on Teacher Credentialing, and the Child Development Division, State Department of Education
Three hours lecture per week. This course explores leadership strategies for positive growth and change in the early childhood profession. Course focuses on the promotion of quality professional teaching environments including the study of the following: mentoring, supervising, communication skill development, effective working relationships and innovations in the field. Class lectures include the exploration of the following leadership development topics: creating a vision, planning for change, implementing change, building a team, ethical responsibilities, exploration of bias, professional development and the need for advocating and leading change. Course meets requirements for adult supervision and application to the Mentor Teacher Project. (CSU) (Degree Credit)

CDES 242 F Introduction to Liberal Studies (3)
Prerequisite: ENGL 100 F with a grade of “C” or better
Three hours of lecture with discussion per week. This course is a survey of the historical foundations and interdisciplinary nature of liberal studies, including an introduction to the values, modes of inquiry, and means of expression in the natural sciences, social sciences, and arts and humanities. (CSU) (Degree Credit) CSU GE, IGETC

CDES 245 F Personal Proficiency in Educational Technologies for Secondary Teachers (3)
Three hours of lecture per week. The purpose of this course is to provide students interested in secondary teaching (grades 7-12) personal proficiency in educational technologies that facilitate the teaching process and enhance student learning. Training includes educational technology terminology, development of a teaching portfolio that includes a specific unit plan in the student’s designated discipline, multimedia presentation samples, internet search and retrieval literacy, electronic communication applications, evaluation tools, support materials, and awareness of legal and ethical issues. (CSU)

CDES 248 F Introduction to Secondary Teaching (3)
This course provides students with an overview of secondary teaching as a profession through observations, readings, interactive classroom participation and selected developmental assignments. Students analyze fieldwork experience while examining the history, philosophy and social foundations of education. The California Teaching Performance Expectations and Assessment (TPEs and TAPs) are introduced. The course overviews content standards, the needs of special populations, and accommodations for English Language Learners (ELL) and struggling readers. Curriculum Development and curriculum reform are reviewed. Students complete the initial development of a Teaching Assessment Documentation. Forty hours of observation/fieldwork are required. (CSU)

CDES 261AF Introduction to Elementary Classroom Teaching (2)
Corequisite: CDES 261BF with a grade of “C” or better
Two hours lecture per week. The purpose of this course is to provide students interested in elementary teaching an introduction to teaching and learning, an overview of the scope and sequence of curriculum planning, the understanding of content standards, California Standards of the Teaching profession, experience in the development, presentation and evaluation of learning activities. (CSU) (Degree Credit)

CDES 261BF Introduction to Elementary Classroom Teaching: Observation (1)
Corequisite: CDES 261AF. Three lab hours per week
The purpose of this course is to provide students interested in elementary teaching weekly observation and participation experiences in elementary classrooms and opportunities to develop, present and evaluate learning activities. Students will observe three hours/week. (CSU) (Degree Credit)

PE 232 F Games and Rhythms for Elementary Schools (2)
One hour lecture and two hours lab per week. This course provides theory and practical experience in teaching the elementary school child. This course will survey social, psychological, and physical development, and capacities of children ages 5 through 12. Games of low organization, team sports, and rhythmic skills are included. (CSU) (Degree Credit)
Chinese (CHIN)

Chinese Courses

CHIN 101 F Elementary Chinese — Mandarin I (5)
Letter Grade or Pass/No Pass option
Five hours lecture plus one arranged lab hour per week. The course focuses on the four major skills of language learning, listening comprehension, speaking, reading and writing, and the grammar and vocabulary necessary to acquire these skills. Included is an introduction to customs, culture, and civilization of Chinese-speaking countries. This course is conducted primarily in Chinese. (CSU) (UC) (Degree Credit)

CHIN 102 F Elementary Chinese — Mandarin II (5)
Letter Grade or Pass/No Pass option
Prerequisite: CHIN 101 F with a grade of "C" or better or one year of high school Chinese with a grade of "C" or better
Five hours lecture per week plus one arranged lab hour per week. The course continues to focus on the four major skills of language learning, listening comprehension, speaking, reading and writing, and the grammar and vocabulary necessary to acquire these skills. Included is an introduction to customs, culture, and civilization of Chinese-speaking countries. This course is conducted primarily in Chinese. (CSU) (UC) (Degree Credit)

CHIN 203 F Intermediate Chinese — Mandarin III (4)
Letter Grade or Pass/No Pass option
Prerequisite: CHIN 102 F with a grade of "C" or better or two years high school Chinese with a grade of "C" or better
Four hours lecture per week. This course is a review of grammar with written and oral practice. Conversation is based on cultural and literary materials. (CSU) (UC) (Degree Credit)

CHIN 204 F Intermediate Chinese — Mandarin IV (4)
Letter Grade or Pass/No Pass option
Prerequisite: CHIN 203 F with a grade of "C" or better or three years high school Chinese with a grade of "C" or better
Four hours lecture per week. This course is a review of grammar with written and oral practice. Conversation is based on cultural and literary materials. The course includes an introduction to Chinese literature. Instruction is in Chinese. (Not currently being offered — if interested, contact Division Office.) (CSU) (UC) (Degree Credit)

Radio Broadcasting Certificate
Sports Broadcasting Certificate
Television/Film Associate in Arts Degree
Television/Film Production Certificate

Cinema-Radio-Television Courses

CRTV 030 F Media Industry Independent Contractor (1)
One hour lecture per week. This course will present the basics of working as an independent freelance professional in the media industry. Subjects to be covered include choosing a business structure, basic business practice, handling finances and taxes, marketing and managing your personal life. This course uses discussions and exercises, expert guest speakers and videotaped interviews with independent professionals from around the country. This course is designed for anyone who is thinking about, or currently working as an independent contractor in the areas of writing, producing, directing, technical crew or performing talent.

CRTV 118 F Introduction to Radio, Television and Film (3)
Three hours lecture per week. This course is designed to assist the beginning student in understanding radio, television, cable, film, and electronic mass media. For those who plan to pursue a career in broadcasting or film, this course will provide guidance for career decisions and background for more specialized courses. For those with a general interest in broadcasting and film, this course will provide a broad understanding of the electronic mass media, including: regulation of broadcasting and film, the effects of broadcasting and film, non-commercial broadcasting, ratings and research, production and marketing of films, and electronic mass media. (CSU) (Degree Credit) AA GE

CRTV 120 F Media Aesthetics (3)
Three hours lecture per week. This course provides a background in understanding aesthetics used in television, motion pictures, and video games and explores the development and impact of mediated messages. The interplay and structuring of elements of sight, sound, and motion as message components, and their capacity to generate impressions, stimulate feelings, shape attitudes, and convey information are examined. (CSU) (Degree Credit) AA GE, CSU GE

CRTV 121 F The American Cinema (3)
Three hours lecture per week. This course examines the American motion picture industry as a unique economic, industrial, aesthetic, and cultural institution. Development and changes are examined related to technology; industrial and economic models; aesthetic styles and genres; production, marketing, and distribution processes; and audiences. (CSU) (UC) (Degree Credit) AA GE, CSU GE
CRTV 122 F Audio Production Techniques (3)
Advisory: CRTV 118 F
Two hours lecture and four hours lab per week. This course provides instruction in the operation of radio and television audio equipment, broadcast microphones, and computer software associated with media recording and internet radio. Projects will include production of radio commercials, television commercial soundtracks, digital audio editing, and special radio and television broadcast procedures with an emphasis on smooth operation of the audio control board and other audio equipment. (CSU) (Degree Credit)

CRTV 124 F Broadcast Advertising Sales (1)
One hour lecture per week. This course covers the analysis of the sales function in commercial radio and television stations, and cable television franchises. The students examine the methodology and practical application of electronic media advertising, sales, and research. Audience demographics, market surveys, rate structure, and client relationships are included. Students will learn to write standard length commercials that focus on the targeted consumer and produce results for the advertiser. Discussion of media competitive advantages and disadvantages, as well as vocabulary and techniques of broadcast sales are also examined. (CSU) (Degree Credit)

CRTV 126 AF World Cinema to 1945 (3)
Three hours lecture per week. This is the first course in a two-course sequence that will provide a background in cinema history with a global perspective, following the growth of cinema from primarily a U.S. and European form of entertainment and communication to an international medium with significant production centers, cultural traditions, and production styles found in a variety of locations around the world. This course will focus on world cinema from its early development through the end of World War II. This course fulfills the Multicultural Education Requirement for graduation. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC, MULT CULT REQ

CRTV 126BF World Cinema 1946 to Present (3)
Three hours lecture per week. This is the second course in a two-course sequence that will provide a background in cinema history with a global perspective, following the growth of cinema from primarily a U.S. and European form of entertainment and communication to an international medium with significant production centers, cultural traditions, and production styles found in a variety of locations around the world. This course will focus on world cinema after World War II to the present. This course fulfills the Multicultural Education Requirement for graduation. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC, MULT CULT REQ

CRTV 127 F Screenwriting (3)
Three hours lecture/discussion per week. This course covers the concepts and practices in the various types of dramatic writing for television and motion picture production. Students will learn about characterization, conflict, structure, and commercial prospects. Course may be taken twice for credit. (CSU) (Degree Credit)

CRTV 128 F Writing for Radio-Television-Film (3)
Three hours lecture per week. This course covers the concepts, practices and forms for commercials, interviews, corporate and dramatic presentations for radio, television, film and the Internet. This is a course in all forms of media writing. (CSU) (Degree Credit)

CRTV 129 F Broadcast News (3)
Two hours lecture and four hours lab per week. This course provides instruction and practice in gathering and writing news for radio and television. The emphasis is on writing copy and familiarization with professional practices in radio and television news operations, including the use of local news sources, international wire services, and other news material. Course activities include planning, writing, and delivering news for radio and television. Course may be taken four times for credit. (CSU) (Degree Credit)

CRTV 130 F Broadcast Audio Production (3)
Prerequisite: CRTV 122 F with a grade of “C” or better
Two hours lecture and four hours lab per week. This course is designed to increase digital audio production skills for radio and television. Projects are designed to give students the opportunity to use the audio production room for a variety of production purposes for radio, television, film, internet and media production. (CSU) (Degree Credit)

CRTV 131 F Contemporary Cinema (3)
Three hours lecture per week. This course focuses on the American motion picture industry beginning with the film school generation and the production processes, economic factors, and social influences that have shaped the industry and been shaped by the industry. This will include changes in practices related to production aesthetics and techniques, marketing, distribution, and technology. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

CRTV 133 F Traffic Reporting (3)
Two hours lecture and three hours lab per week. This course provides instruction and practice in gathering and reporting traffic for radio and television. The emphasis is on gathering information and writing and announcing traffic updates and familiarization with professional practices in radio and television traffic operations, including the use of local maps, CHP sources, Cal Trans cameras, and other online material. Course activities include compiling, composing, and delivering traffic reports for radio and television. (CSU) (Degree Credit)

CRTV 135 F Broadcast TV and Radio Announcing (3)
Two hours lecture, three hours lab per week. This is a course in announcing technique focusing on the announcing and voiceover skills most needed in contemporary radio and television. This course concentrates on announcer voice technique on and off camera, talk radio hosting skills, commercial interpretation, news announcing, podcasting and ad-libbing. (CSU) (Degree Credit)

CRTV 137 F Television Announcing (3)
Three hours lecture/discussion per week. This course covers on-camera television announcing for newscasts, commercials, interviewing, and ad-lib productions. Students develop non-dramatic television announcing skills through practice and evaluation. (CSU) (Degree Credit)

CRTV 145 F Radio/TV Sports Broadcasting (3)
Two hours lecture, four hours lab per week. Class members will be involved in the broadcast of local sports on radio station KBPK, 90.1 FM and the Fullerton College Cable Television Network. The sports to be broadcast include football, basketball, baseball and soccer. Students will also perform as sportscasters on news programs for KBPK. Students will interview local athletes, write, and produce feature material for broadcast. Course may be taken four times for credit. (CSU) (Degree Credit)
CRTV 150 F Television Studio Production (3)
Advisory: CRTV 118 F
Two hours lecture/discussion and three hours lab per week. This course covers the basic use and operation of television equipment utilizing camera, lenses, switching, sound, lights, graphics, videotape recording, and character generator. Lab work will center on video programs. (CSU) (Degree Credit)

CRTV 157 F Digital Production/Non-Linear Editing for Video/Film (formerly CRTV 164AF) (3)
Two hours lecture and four hours lab per week. This course introduces single-camera video and filmmaking production techniques; including operation of digital video cameras and recorders and sound, lighting, and non-linear editing equipment. Students will use professional procedures from pre-production through post-production to develop, produce, and execute to completion various non-fiction and fiction program formats applicable to television and motion pictures. (CSU) (Degree Credit)

CRTV 160 F Introduction to Filmmaking (3)
Prerequisite: CRTV 157 F with a grade of “C” or better
Two hours lecture and three hours lab per week. Introduction to the fundamental techniques and aesthetics of film production. The lecture/lab will emphasize camera operation, editing, lighting, cinematography and directing. Study and analysis of classic films as well as student’s own work will be viewed. (CSU) (Degree Credit)

CRTV 164 F Advanced Digital Production/Non-Linear Editing for Video (formerly CRTV 164BF) (3)
Prerequisite: CRTV 157 F with a grade of “C” or better
Two hours lecture and four hours lab per week. This course is designed to provide students with training and experience related to the design and execution of professional quality single-camera productions that would comprise a demo tape appropriate to pursue employment in the television/film industry. The focus will be on achieving levels of design and execution that are effective in meeting project/client and industry needs. Elements include multi-camera editing, green screen, key framing and color correction. (CSU) (Degree Credit)

CRTV 175 F Documentary Filmmaking (3)
Advisory: CRTV 157 F with a grade of “C” or better, or knowledge of camcorder usage and Apple computers
Three lecture hours per week. This course gives an introduction to modern digital documentary filmmaking techniques. Practical narrative and technical approaches to documentary productions are examined and demonstrated. Students will participate in production of a documentary project(s). (CSU) (Degree Credit)

CRTV 196 F Communications Seminars (.5-3)
Lecture and lab hours will vary according to the nature of the seminar. Communications Seminars are courses designed to expose students to up-to-date equipment, methods, techniques, and materials. These courses offer the student opportunities for specialized training in greater depth than can be offered in a general course. These courses will vary from semester to semester depending on student interest, industry developments, and need for specialized training. See class schedule for current offerings. Course may be taken four times for credit or a maximum of four units. (CSU) (Degree Credit)

CRTV 199 F Cinema-Radio-Television Independent Study (1-3)
Prerequisite: Approval of Communications Department Coordinator
One hour lecture or scheduled conference or three hours independent lab research per week per unit of credit. This course is designed for students who wish to increase their knowledge of cinema, radio, or television through individual study. Project with written report or outside reading with written report is required. Independent lab research problems with staff supervision may be approved. Course may be taken four times for credit. (CSU) (UC review required.) (Degree Credit)

CRTV 235 F On-Air Radio Broadcasting (3)
Prerequisite: CRTV 122 F and CRTV 135 F with a grade of “C” or better
One hour lecture/discussion and six hours lab per week. Course includes daily broadcast preparation and presentation of on-the-air programs. Students gain actual on-the-air experience on College FM station, KBPK, 90.1 MHz. Course may be taken four times for credit. (CSU) (Degree Credit)

CRTV 245AF Digital Editing, Graphics and Effects (3)
Prerequisite: CRTV 157 F with a grade of “C” or better
Two hours lecture and four hours lab per week. This course builds on the knowledge and skills received in CRTV 157F Digital Production and Non-Linear Editing for Television/Film. Students learn the aesthetics and techniques of incorporating graphics and special effects while practicing advanced non-linear video editing skills. (CSU) (Degree Credit)

CRTV 245BF Advanced Digital Editing, Graphics and Effects (3)
Prerequisite: CRTV 245AF with a grade of “C” or better
Two hours lecture and four hours lab per week. This course is designed to provide students with more advanced training in non-linear editing, incorporating graphics, audio mixing and utilizing special effects in editing. Special emphasis will be placed on in-depth knowledge of equipment, speed, accuracy, aesthetics and special effects. (CSU) (Degree Credit)

CRTV 280 F Television Production Workshop (2-5)
Prerequisite: CRTV 150 F with a grade of “C” or better
One hour lecture and one hour lab per week. Three hours arranged per week for the first two units. An additional three hours lab per week is required for each additional unit for a maximum of five units each semester and a cumulative total of 20 units. Students participate as crewmembers on Media Services and Communication Department cable and campus productions utilizing four camera remote van, studio and EFP Equipment. Instruction in equipment operation, production management and production design. The course prepares students for employment in the industry through development of advanced hands-on skills and in-depth, varied production experience. Course may be taken four times for credit. (CSU) (Degree Credit)
**CIS 048 F Intro to PC Communications (2)**  
*Advisory: CIS 150 F*  
One and one-half hour lecture and one and one-half hour lab per week. This course is an introduction to personal electronic communications and management using state-of-the-art email and scheduling software. Students learn how to connect the software with Internet email servers and how to receive and manage email. Students will also learn to manage an electronic calendar, schedule appointments, and manage appointment information. (Degree Credit)

**CIS 050 F Web Page Design I (2)**  
*Advisory: CIS 150 F*  
One and one-half hour lecture and one and one-half hour lab per week. This course is an introduction to automatic Web page creation using state-of-the-art software. Students will learn the operation of the software and how the software connects with Web servers. Students will also learn to insert graphics, components, multimedia content, and other Web-related components. Students will also learn to create and use Web page templates and other design tools. (Degree Credit)

**CIS 070 F Current Computer Topics (1-3)**  
One to three hours lecture and zero to three hours lab per week. This course is for students who wish to increase their knowledge and skills in various Office Technology related topics. Unit credit may range from 1 to 3 units in any given semester. Consult the class schedule to verify course topics being offered for a particular semester. May be taken for credit four times.

**CIS 090 F Office Certification Preparation (1-3)**  
Variable hours of lecture and/or lab. This course is for students who wish to prepare for the Microsoft Office Specialist tests. Unit credit may range from 1-3 units in any given semester. Consult the class schedule to verify topics and credit offered in a particular semester. May be taken for credit four times. (Degree Credit)

**CIS 100 F Introduction to Personal Computers (3)**  
Three hours lecture and two hours lab per week. This course introduces students as well as the business professional to the use of the personal computer using state-of-the-art software. Topics include an overview of personal computer applications including a brief introduction to computer concepts, use of a word processor, spreadsheet application, presentation manager application, and how to use the Internet. (CSU) (UC) (Degree Credit) AA GE

**CIS 102 F Intro to Open Source Software (3)**  
Three hours lecture and two hours lab per week. This course teaches students to use various Open Source software on a Windows computer. Topics include finding Open Source Software, downloading and installing software, and using typical packages like Open Office and Open CD. Students will also learn how to participate in the Open Source community. (CSU) (Degree Credit)

**CIS 104 F Presentation Graphics (2)**  
One and one-half hour lecture and one and one-half hour lab per week. This course is an introduction to business presentation graphics. Topics include planning presentations, creating business presentations and templates, enhancing presentations with graphics, sound, animation, transition, and video and using presentations on a Web server. State-of-the-art software will be used. (CSU) (Degree Credit)

**CIS 105 F Spreadsheet I (2)**  
One and one-half hour lecture and one and one-half hour lab per week. This provides an introduction to spreadsheets in the solution of business problems. Students will create, format and print worksheets that include formulas, functions, charting, relative and absolute cell references, work with large worksheets. Also covered are creation of static and dynamic Web pages and design and manipulation of databases. State-of-the-art software will be used. (CSU) (Degree Credit)
CIS 107 F Intro to Operating Systems (2)
One and one-half hour lecture and one and one-half hour lab per week. This course is designed to introduce the operating system on the personal computer. This course will cover the fundamentals of the graphical user interface, mouse operations, how to manipulate the interface, how to use Help, Search, launch applications, manage files and folders and add/delete hardware and software. Additional topics include accessories and system tools. (CSU) (Degree Credit)

CIS 109 F Personal Computer Security (2)
One and one-half hour lecture and one and one-half hour lab per week. This class introduces the student to personal security on individual computers and across the Internet. Students will learn how to protect their own computers from viruses, Trojan Horse programs, and other intrusive software. Students will also learn to protect their personal information over the Internet and how to securely send information. (CSU) (Degree Credit)

CIS 110 F Introduction to Information Systems (3)
Three hours lecture and two hours lab per week. This course is an introduction to computer information systems; computer organization and problem-solving concepts, computer operating systems, spreadsheet and database management application software, and programming in a modern high level programming language. (CSU) (Degree Credit)

CIS 111 F Introduction to Information Systems (3)
Three hours lecture and two hours lab per week. This course is an introduction to computer information systems, computer organization and problem-solving concepts, computer operating systems, spreadsheet and database management application software, and programming in a modern high-level programming language. As an honors course, this class will include enrichment content and activities requiring independent problem-solving and critical thinking skills and collaborative group projects and presentations. (CSU) (UC Credit Limitation) (Degree Credit) AA GE

CIS 111 HF Honors Introduction to Information Systems (3)
Three hours lecture and two hours lab per week. This course is an introduction to computer information systems, computer organization and problem-solving concepts, computer operating systems, spreadsheet and database management application software, and programming in a modern high-level programming language. As an honors course, this class will include enrichment content and activities requiring independent problem-solving and critical thinking skills and collaborative group projects and presentations. (CSU) (UC Credit Limitation) (Degree Credit) AA GE

CIS 120 AF Project Management I (2)
One and one-half hour lecture and one and one-half hour lab per week. This course covers project management application skills including planning a project, creating project schedules, communicating project information, adding tasks and durations, changing relationships, tracking progress, and closing the project. Also covered are customizing project management software, Web resources and project management certifications. State-of-the-art software will be used. (CSU) (Degree Credit)

CIS 120 BF Project Management II (2)
Advisory: CIS 120 AF
One and one-half hour lecture and one and one-half hour lab per week. This course covers project management concepts and application skills including tracking project work, analyzing and adjusting schedules, advanced formatting and printing, project communications, managing multiple projects and exchanging project data. The course will be taught with state-of-the-art project management software. (CSU) (Degree Credit)

CIS 123 AF Word Processing I (2)
Advisory: CIS 123 AF
One and one-half hour lecture and one and one-half hour lab per week. This course is designed as an introduction to word processing software. The course will cover the fundamental operations of word processing; typing text, saving, editing, copying, moving, printing, formatting, margins, tabs, footers and headers, footnotes, vertical and horizontal alignment and line spacing. State-of-the-art software will be used. (CSU) (Degree Credit)

CIS 123 BF Word Processing II (2)
Advisory: CIS 123 AF
One and one-half hour lecture and one and one-half hour lab per week. This course introduces advanced topics using word processing software. Covered topics include creating tables and charts, columns, adding graphics and multimedia elements, managing and printing files, merged documents, table of contents, and indexes. State-of-the-art software will be used. (CSU) (Degree Credit)

CIS 142 F Database I (2)
One and one-half hours lecture and one and one-half hours of lab per week. This course is designed as an introduction to the organizational, operational, and technical aspects of the Internet. Students will learn how to use a personal computer to access the Internet and the World Wide Web to search for its wealth of online resources. Topics include an overview of personal computer operations; the history and philosophy of the Internet; configuring a personal computer to connect to the Internet; selecting an Internet service provider; sending and receiving electronic mail (E-mail); log in to remote computers using Telnet; locating network resources using Search Engines; participating in discussion groups using Usenet; downloading software, online text, graphics, sound and video files using file transfer protocol (FTP) and ethical uses of the Internet. Other topics include developing, creating and posting personal and business Web pages using the hypertext markup language (HTML). (CSU) (Degree Credit)

CIS 149 F Internet Entertainment (3)
Three hours lecture and two hours lab per week. This class teaches the various elements of entertainment on the Internet. These include how media companies are using the Internet for content distribution and marketing, how various types of Internet Entertainment programs work with client operating systems like Windows, and how to configure clients to use various Internet Entertainment packages. (CSU) (Degree Credit)

CIS 150 F Introduction to Internet (2)
One and one-half hour lecture and one and one-half hour lab per week. This course is an introduction to the organizational, operational, and technical aspects of the Internet. Students will learn how to use a personal computer to access the Internet and the World Wide Web to search for its wealth of online resources. Topics include an overview of personal computer operations; the history and philosophy of the Internet; configuring a personal computer to connect to the Internet; selecting an Internet service provider; sending and receiving electronic mail (E-mail); log in to remote computers using Telnet; locating network resources using Search Engines; participating in discussion groups using Usenet; downloading software, online text, graphics, sound and video files using file transfer protocol (FTP) and ethical uses of the Internet. Other topics include developing, creating and posting personal and business Web pages using the hypertext markup language (HTML). (CSU) (Degree Credit)

CIS 151 F Internet Research (2)
Advisory: CIS 150 F
One and one-half hour lecture and one and one-half hour lab per week. This course is designed as an introduction to the information resources available on the Internet, for the purpose of performing research. Students will learn how to use Internet search tools and methods to locate useful, accurate, and reliable information on the Internet. Topics include search engines; advanced search strings and options; comparison of search engines; Boolean operators, locating people, businesses, libraries, and multimedia; industry specific search engines, methods, and sources; electronic bulletin board services; Listserv; archives; File Transfer Protocol, and information literacy. Other topics include evaluation of Internet materials; legal issues and copyrights of Internet information; and citing Web and Internet resources. (CSU) (Degree Credit)
CIS 152 F Web Page Design II (2)
One and one-half hour lecture and one and one-half hour lab per week. This course will prepare students to create Internet Web pages for personal and business purposes. Students will learn basic Internet concepts, using an Internet browser, and Web page creation. Emphasis is placed on learning the Hypertext Markup language, using and editing graphic files, and creating various types of Web pages. (CSU) (Degree Credit)

CIS 153 F Business Web Graphics (2)
Advisory: CIS 150 F
One and one-half hour lecture and one and one-half hour lab per week. This course teaches the skills necessary to create business graphics for Web pages. Topics include graphic file formats used on Web pages, designing Web components using a graphical editor and using graphical elements in Web page design. Students should be familiar with using the Internet. (CSU) (Degree Credit)

CIS 154 F JavaScript Programming I (2)
Prerequisite: CIS 150 F or CIS 152 F, both with a grade of “C” or better
One and one-half hour lecture and one and one-half hour lab per week. This course teaches the student to use the JavaScript programming language with Hyper-Text Markup Language (HTML) pages. Emphasis is placed on creating HTML pages that include JavaScript programs. The student will learn the basic syntax of the JavaScript language, how to create JavaScript programs inside HTML documents, and how to use JavaScript programs to enhance Web pages. (CSU) (Degree Credit)

CIS 155 F Web Page Multimedia Design I (2)
Advisory: CIS 152 F with a grade of “C” or better
One and one-half hour lecture and one and one-half hour lab per week. This course introduces students to multimedia Web design. Topics include how to create multimedia content for Web pages, how to choose the right multimedia material, how to edit the material, and how to include the material in Web pages. (CSU) (Degree Credit)

CIS 156 AF WebMaster — Foundations (2)
One and one-half hour lecture and one and one-half hour lab per week. This course covers an introduction to the structure, operation, and technical aspects of the Internet. Students will learn how to use a personal computer to access the Internet and the World Wide Web to search for its wealth of online resources. Topics include an overview of personal computer operations; the history and philosophy of the Internet; configuring a personal computer to connect to the Internet; selecting an Internet Service Provider; sending and receiving electronic mail (E-mail); locating network resources using Search Engines; downloading software, online text, graphics, sound and video files using file transfer protocol (FTP) and ethical uses of the Internet. Other topics include developing, creating and posting personal and business Web pages using the hypertext markup language (HTML). The course also covers CIW [Certified Internet WebMaster] material so it will prepare students for the all other CIW exam(s) (CSU) (Degree Credit).

CIS 156 BF WebMaster — Designer (3)
Three hours lecture and two hours lab per week. This course covers designing web sites that have e-commerce capabilities. Topics include using web programs and editors to create, set-up, and edit B2C and B2B web sites. Information on design methodology, e-commerce strategies, and web site structure will be examined. Students must have a working knowledge of basic Internet concepts, HTML/DHTML, and some programming language. The course also covers CIW [Certified Internet WebMaster] material so will prepare students for the 1DO-420, and 1DO-425 test. These exams fulfill the requirements for CIW Designer certification. (CSU) (Degree Credit)

CIS 156CF WebMaster — Administration (3)
Advisory: CIS 156 AF, CIS 150 F or CIS 152 F, and some knowledge of a programming language
Three hours lecture, two hours lab per week. This course covers administration of web resources. Topics include using web programs and editors to set-up, edit, and manage web sites. Information on server administration, Internetworking, and web security will be examined. Students must have a working knowledge of basic Internet concepts, HTML, basic networking and some programming language. The course also covers CIW [Certified Internet Webmaster] material so will prepare students for the 1DO-450, 1DO-460, and 1DO-470. These exams fulfill the requirements for CIW Administrator certification. (CSU) (Degree Credit)

CIS 157 F Dreamweaver I (3)
Three hours of lecture and two hours of lab per week. This course covers using Dreamweaver to create Web pages. Topics include creating web pages with graphics, links, and multimedia elements. Students will also learn how to import files and graphics into Dreamweaver from other programs. Students should be familiar with the Internet. (CSU) (Degree Credit)

CIS 157BF Dreamweaver II (3)
Three hours of lecture and two hours lab per week. This project-based, hands-on course uses intermediate development techniques in Dreamweaver to enhance business webpages. Topics include the use of stylesheets to create custom classes, link styling, toggle submenus; manage template-controlled sites, and navigation element control. Students will also learn to manage Dreamweaver extensions. (CSU) (Degree Credit)

CIS 159 F Introduction to XML (2)
Advisory: CIS 152 F
One and one-half hour lecture and one and one-half hour lab per week. This course teaches the basic concepts of XML. Topics include the structure of an XML document, creating XML documents, using Data Definitions, and linking XML documents to other web components. Students should have a working knowledge of HTML. (CSU) (Degree Credit)

CIS 160 F Introduction to Computer Forensics (3)
Three hours lecture and one hour lab per week. Students will learn basic concepts behind computer security, evidential process, and handling electronic evidence. Topics include securing and analyzing a computer system, securing and analyzing a network system, working with law enforcement, and information warfare. (CSU) (Degree Credit)

CIS 165 F Computer Forensics and Networking (3)
Advisory: Basic knowledge of computer networking
Three hours lecture and one hour lab per week. This class teaches the student how to use computer forensic techniques and tools to investigate and reconstruct network-based data. Students learn the basic operation and structure of a computer network, the various network devices and their operation, and the tools used to investigate a network. Topics include trapping network data, retrieving and analyzing email, tracing network packets, and other security and forensic topics. (CSU) (Degree Credit)
CIS 166 F Operating Systems and Computer Forensics (3)
Advisory: Basic knowledge of computer forensics
Three hours lecture and one hour lab per week. This course teaches students how to perform computer forensic analysis of data on the Windows, Linux, and Macintosh operating systems. Students will learn about the internals of the operating system, the potential security problems with the operating system, and how to capture static and live data from an operating system. Students will also learn to use some typical network software and hardware forensic tools and how to protect gathered data in a legally acceptable manner. (CSU) (Degree Credit)

CIS 168 F Tools for Computer and Network Forensics (3)
Advisory: Basic knowledge of C++
Three hours lecture and one hour lab per week. This course teaches students how to use various hardware and software tools to engage in computer and network forensics. Topics include installing, configuring, and using common open source forensic tools, building custom tool kits, modifying tools, and creating new tools. Students will learn how to use C++ to write custom computer and network forensic software tools. (CSU) (Degree Credit)

CIS 171 F Network Intrusion and Detection (3)
Advisory: Basic knowledge of a network operating system and basic networking concepts
Three hours lecture and one hour lab per week. Students learn how computer network security is compromised by use of common intrusion tools. Students also learn how to detect such network intrusions and how to monitor and trap the intruder. Topics include how to successfully penetrate Windows and Linux networks and how to install and use open source tools to detect and protect from such penetration. (CSU) (Degree Credit)

CIS 180 F Introduction to Networking Concepts (3)
Three hours lecture per week. This class introduces the student to data communications and networking concepts used in businesses. Topics include the major components of a data communications networks, local area networks, wide area networks, networking topologies, network protocols, internetworking, and categorizing network operating systems. (CSU) (Degree Credit)

CIS 183 F Network Security Fundamentals (3)
Advisory: Complete CIS 107 F and CIS 180 F with a grade of “C” or better
Three hours lecture and one hour lab per week. This course covers terminology, technology, and software used with network security. This course is designed to provide students with an overview of network security. Students will learn about communication security, infrastructure security and cryptography. Business plans for disaster recovery will be covered. This course may be taken four times for credit. (CSU) (Degree Credit)

CIS 205AF Spreadsheet II (2)
Advisory: CIS 105 F
One and one-half hour lecture and one and one-half hour lab per week. Building upon knowledge gained in CIS 105 F Spreadsheet I, advanced applications including worksheet design, worksheet text enhancements, graphs and formatting capabilities will be covered. Advanced concepts on the creation and use of databases, integration with other database software, and how spreadsheet software can be used as a repository and report writer for data queried from other databases or from a corporate SQL relational database will be covered. Development of complex formulas using functions, and an in-depth study of macros, including the design of custom menus to automate spreadsheet applications will also be included. This course will cover integration of spreadsheet software with other window-based software. State-of-the-art software will be used. (CSU) (Degree Credit)

CIS 205BF Macro Programming (2)
Advisory: CIS 105 F
One and one-half hour lecture and one and one-half hour lab per week. This course covers using the macro and programming features spreadsheet application programs. Students will learn how macros work, how to define macros by capturing actions, and how to create custom macros. Students will also learn the Visual Basic for Applications programming language including looping, input and output, and decisions. This course may be taken four times for credit. (CSU) (Degree Credit)

CIS 211 F Basic Programming for Business (3)
Three hours lecture and two hours lab per week. This class teaches fundamental programming concepts using a modern programming language. Students learn the concepts behind program design and operation, how to use decision-making commands, how to perform input and output, how to create and use looping instructions, and how to use other current programming concepts. (CSU) (UC Credit Limitation) (Degree Credit)

CIS 212 F Robotic Programming (3)
Three hours lecture and two hours lab per week. This class teaches basic programming concepts by creating applications for physical robotic devices. Students will learn how to connect to these robotic devices, how to design a program that controls the device, and how to download their program to the device. Programming topics include looping, making decisions, variables, and arrays. (CSU) (Degree Credit)

CIS 217 F Visual Basic Programming I (3)
Three hours lecture and two hours lab per week. This course is an introduction to Visual Basic Programming. The course provides a study of the use and implementation of Visual Basic Programming including objects, events, methods, properties, project windows, forms, strings, control structures, custom menus, custom procedures, sequential files, random access files, color, drawing, and error trapping. (CSU) (UC Credit Limitation) (Degree Credit)

CIS 218 F Visual Basic Programming III (3)
Advisory: CIS 105 F and CIS 142 F
Three hours lecture and two hours lab per week. This class introduces Visual Applications programming. Topics include the structure of a VBA program, programming logic, and using VBA to create Microsoft Office applications. Additional topics include using VBA in Excel, Word, Access, and Outlook. This course may be taken four times for credit. (CSU) (Degree Credit)

CIS 219 F Visual Basic Programming II (3)
Prerequisite: CIS 217 F with a grade of “C” or better
Three hours lecture and two hours lab per week. This course covers various specialized visual basic programming tasks including database management, component level programming, XML processing, distributed network programming, and embedded device programming. Students learn to create programs that read and write to databases, which are structured as components, process XML files, and can be distributed across a network. (CSU) (Degree Credit)

CIS 220 F Web Server Programming (3)
Advisory: CIS 152 F and CIS 217 F
Three hours lecture and two hours lab per week. This course covers topics on Web programming for the Internet and Intranets. Topics include an explanation of how programs are run across the Internet, the various types of Web programs, and how information is loaded into network databases. Programming for both clients and servers will be covered in this class. Students should have a background in Web page design with HTML and have a background in Visual Basic programming. (CSU) (Degree Credit)
CIS 221 F Introduction to C# Programming (3)
Three hours lecture and one hour lab per week. Students will learn basic programming concepts including variables, logical constructions, and data access. Students will also learn to use the C# programming language to create Graphical User Interface programs, web programs, and database computers. (CSU) (Degree Credit)

CIS 222 F CGI/Perl Scripting (3)
Advisory: Complete CIS 152 F
Three hours lecture and two hours lab per week. This course teaches the Perl scripting language. Topics include using Perl in Web Pages with CGI. Topics include basic Perl syntax, data types, and functions. Topics also include using Perl with files and databases. Students must have a working knowledge of HTML. (CSU) (Degree Credit)

CIS 223 F Programming in C++ (3)
Advisory: CIS 226 F or CIS 211 F
Three hours lecture and two hours lab per week. This course is designed for students who have some experience with structured programming techniques. Students will learn the C++ programming language as it applies to business applications. Documenting, coding, entering, computing, and executing programs will take place on the personal computer. (CSU) (UC Credit Limitation — CIS 223 F and CSCI 233 F combined: maximum credit one course) (Degree Credit)

CIS 225 F Netware System Manager (3)
Three hours lecture and two hours lab per week arranged. This course covers terminology, technology, topologies, and software used in local area networks. The course is designed for computer users and managers of local area networks. System administrators will learn to support users, save user accounts, implement levels of security, apply diagnostics, and back up and maintain LAN software. Course may be taken twice for credit. (CSU) (Degree Credit)

CIS 226 F Java Programming I (3)
Advisory: CIS 211 F or CIS 217 F or CIS 223 F with a grade of “C” or better
Three hours lecture and two hours lab per week. This course is an introduction to designing, creating, and debugging Java programs. Students will learn the syntax of the Java programming language, how to design programs using Object Oriented Analysis and Design, and how to create programs that run over the Internet as well as stand-alone programs. Emphasis is placed on program design, using Java programs with HTML pages, and software re-use. (CSU) (UC) (Degree Credit)

CIS 227 F Advanced C# Programming (3)
Advisory: Basic knowledge of the C# programming language
Three hours lecture and two hours lab per week. Students learn how to create C# networking programs, Web Server programs, and complex database programs. (CSU) (Degree Credit)

CIS 228 F Java Programming II (3)
Advisory: CIS 226 F and CIS 107 F with a grade of “C” or better
Three hours lecture and two hours lab per week. This course covers advanced topics in Java programming. Topics include using the Java Swing programming environment, the COBRA programming models, event driven and messaging based structure of programs, and Java network programming. Students should be familiar with Microsoft Windows and with the Java programming language. (CSU) (Degree Credit)

CIS 229 F XML Programming (3)
Advisory: CIS 159 F
Three hours lecture and two hours lab per week. This course covers XML programming. Topics include using XML parsers in JavaScript and Java, using XML for file input/output, and connecting to XML databases. Students must have a working knowledge of XML. (CSU) (Degree Credit)

CIS 230 F PHP and MySQL Programming (3)
Advisory: CIS 152 F and CIS 154 F
Three hours lecture and two hours lab per week. This class teaches how to use the PHP Web programming language and MySQL database program to create interactive, database-driven Web sites. Students learn how to create PHP enhanced pages, how to install and configure MySQL, and how to connect Web clients to the database. This course may be taken four times for credit. (CSU) (Degree Credit)

CIS 242 F Database II (2)
Advisory: CIS 142 F
One and one-half hour lecture and one and one-half hour lab per week. This course teaches advanced topics in personal databases using state-of-the-art database software. Students will learn how to design and implement complex databases, how to create complex queries and how to use Structured Query Language, how to create personal databases with other applications, and how to write database macro programs. Other topics include the theory of database design, interfacing personal databases with external databases, and creating internet personal databases. Students in this course should have fundamental skills in using a personal database. (CSU) (Degree Credit)

CIS 252 F Web Page Design III (2)
Advisory: CIS 152 F
One and one-half hour lecture and one and one-half hour lab per week. This course presents advanced topics in Web page design. Students will learn how to create Web pages that include style sheets, how to use multimedia objects, how to plan and manage large-scale Web sites, how to use client plug-ins, how to work with CGI, Java, and other server side technologies, how to design effective user interfaces, and how to use elements of dynamic HTML. Other topics include using JavaScript, using VBScript, working with different types of graphic objects, and working with the Document Object Model. Students should have a working knowledge of HTML and have created Web pages with HTML. (CSU) (Degree Credit)

CIS 254 F JavaScript Programming II (2)
Advisory: CIS 154 F
One and one-half hour lecture and one and one-half hour lab per week. This course teaches advanced concepts in JavaScript. Students learn how to use JavaScript for client and server side design and implementation. Students must have a working knowledge of JavaScript (completing CIS 154 F with a grade of “C” or better). (CSU) (Degree Credit)

CIS 255 F Web Page Multimedia Design II (2)
Advisory: CIS 152 F
One and one-half hour lecture and one and one-half hour lab per week. This course teaches advanced concepts in Flash. Students learn how to use advanced features of Flash to create and script Web pages. Topics include using Flash interactively, connecting Flash scripts to servers, and connecting Flash scripts to databases. Students should have a working knowledge of Flash. (CSU) (Degree Credit)
CIS 257 F Dreamweaver III (3)
Advisory: CIS 157 AF
Three hours lecture and two hours lab per week. This course covers advanced topics in Dreamweaver. Topics include using layers, styles, and automation to create web pages. Topics also include using Dreamweaver with JavaScript and other Web components. Students should be familiar with Dreamweaver. (CSU) (Degree Credit)

CIS 260 F Solaris System Administration (3)
Advisory: CIS 290 F
Three hours lecture and 2 hours lab per week. This course provides students with the necessary knowledge and skills to perform essential system administration tasks in the Sun Solaris Unix Operating System. Students must have a working knowledge of Unix. Topics include file system management, security, process control, user administration, device management, name services, backup procedures, installation, and application of patches. (CSU) (Degree Credit)

CIS 270 F SQL Server Administration (3)
Advisory: CIS 180 F and CIS 107 F with a grade of “C” or better
Three hours lecture and one hour lab per week. This course introduces students to the administration of Microsoft SQL Server. Students learn an overview of the SQL server environment, installing and administering SQL server, user and database management, and operating SQL server in a networking environment. Emphasis is placed on installing and administering SQL server, setting up user accounts and use access, and managing resources. (CSU) (Degree Credit)

CIS 280 F Intro to Oracle: SQL and PL/SQL (3)
Advisory: CIS 142 F
Three hours lecture and two hours lab per week. This course offers students an extensive introduction to database technology. The class covers the concepts of relational databases and the powerful SQL and PL/SQL programming languages. Students are taught to create and maintain database objects and to store, retrieve, and manipulate data. In addition, students learn to create PL/SQL blocks of application code that can be shared by multiple forms, reports, and data management applications. Demonstrations and hands-on practice reinforce the fundamental concepts. (CSU) (Degree Credit)

CIS 281 F Introduction to Networking Hardware (3)
Three hours of lecture and one hour of lab per week. This course builds on students' knowledge of basic networking concepts and theory through hands-on experience. The course will provide students with an in-depth understanding of network infrastructure, standards and technologies. Students will gain hands-on experience with current network design issues, protocols, and components. Hands-on experience will also include working with wired and wireless standards and network components such as servers, routers, switches, hubs and firewalls. (CSU) (Degree Credit)

CIS 284 F Windows Professional (2)
Advisory: CIS 180 F and CIS 107 F with a grade of “C” or better
One and one-half hour lecture and one and one-half hour lab per week. This course introduces students to Microsoft Windows Professional. Students learn an overview of the Windows environment, installing and administering Professional, software management, performance tuning, and connecting to a network. Emphasis is placed on configuring Windows Professional as a network client. (CSU) (Degree Credit)

CIS 285 F Windows Server (3)
Advisory: CIS 180 F and CIS 107 F both with a grade of “C” or better
Three hours lecture and one hour lab per week. This course introduces students to Microsoft Windows Server and enterprise networks. Students learn an overview of the Windows environment, installing and administering servers, domain management and networking. Emphasis is placed on managing a Windows network, setting up user accounts and user access, and managing resources. (CSU) (Degree Credit)

CIS 286 F Web Server Management (3)
Advisory: CIS 180 F and CIS 107 F with a grade of “C” or better
Three hours lecture and one hour lab per week. This course introduces students to Microsoft Windows Information Server and enterprise networks. Students learn an overview of the Windows environment, installing and administering Internet information server, domain management and networking. Emphasis is placed on managing Internet information server, setting up user accounts and user access, and managing resources. (CSU) (Degree Credit)

CIS 287 F Exchange Server (3)
Advisory: CIS 180 F and CIS 107 F with a grade of “C” or better
Three hours lecture and one hour lab per week. This course introduces students to the administration of Microsoft Exchange Server. Students learn an overview of the Exchange server environment, installing and administering Exchange server, user and database management, and operating Exchange server in a networking environment. Emphasis is placed on installing and administering Exchange server, setting up user accounts and user access, and managing resources. (CSU) (Degree Credit)

CIS 289 F Windows Active Directory (3)
Advisory: CIS 180 F and CIS 107 F with a grade of “C” or better
Three hours lecture and one hour lab per week. This course introduces students to Microsoft Windows Active Directory and enterprise networks. Students learn an overview of the Windows environment, installing and administering DNS servers, Active Directory management and networking. Emphasis is placed on managing a Windows Active Directory network, setting up user accounts and user access and managing resources. (CSU) (Degree Credit)

CIS 290 F Unix Operating System (3)
Advisory: CIS 107 F
Three hours lecture and two hours lab per week. This course is an introduction to the Unix operating system. Topics include installing and configuring Unix, using Unix utilities to manage files and resources, and using Unix on a network. Other topics include installing and configuring Unix graphical user interfaces, solving operating system problems, and interfacing Unix with other operating systems. Students should be familiar with another operating system such as Microsoft Windows or Windows NT. (CSU) (Degree Credit)

CIS 291 F Enterprise Networking (3)
Advisory: CIS 180 F and either CIS 285 F, CIS 225 F or CIS 260 F
Three hours lecture and two hours lab per week. This class teaches concepts and skills in enterprise networking. Topics include cross platform and enterprise level networking hardware and software including DNS, routing, backups, security, and integrating and managing servers running different network operating systems. Students will get hands-on experience configuring different network operating systems to work in an enterprise network. (CSU) (Degree Credit)
CIS 298 F Advanced Computer Topics (.5-3)
Zero to three hours lecture and/or zero to nine hours lab per week. This course introduces advanced topics for students who wish to increase their knowledge and skills in various areas of computer information systems. Unit credit may range from 1-3 units in any given term. Consult the class schedule to verify credit for a particular term. (CSU) (Degree Credit)

Computer Information Systems — Gaming (CISG)
Business/CIS Division

Pending State Approval
Computer Game Design Certificate
Computer Game Programming Certificate

Computer Information Systems — Gaming Courses

CISG 100 F Introduction to Computer Game Design (3)
Three hours lecture and one hour lab per week. This is an introductory survey class in computer game design. Students will learn the basics of how computer games are designed and created. This includes an overview of computer game graphics, computer game programming, game level design, game music development, computer game strategy and playability, and the entire computer game development process as well as the current gaming business. (CSU) (Degree Credit)

CISG 110 F Introduction to Programming for Computer Games (3)
Advisory: Basic knowledge of a procedural or object-oriented programming language
Three hours lecture and one hour lab per week. This is an introductory survey course on computer game programming. Students will learn the basic game programming design process, the use and creation of game programming tools, basic game data structures, programming artificial intelligence, graphics programming, online and multi-user game design, 3-D engine design, and how game programmers interact with game designers. (CSU) (Degree Credit)

CISG 160 F C# for Game Programming (3)
Advisory: Basic knowledge of C# programming language
Three hours lecture and one hour lab per week. This course teaches use of the C# programming language to create computer games. Students will review the C# programming language, learn how C# uses .NET resources, and learn how to use DirectX. Topics also include using 3-D, sound, and animation. (CSU) (Degree Credit)

CISG 165 F C++ for Game Programming (3)
Advisory: Knowledge of basic C++ programming
Three hours lecture and one hour lab per week. This course teaches students how to use C++ to write computer games. Topics include a review of basic C++, how to use various data structures in C++, how to access hardware devices, how to use various graphics libraries, and how to use basic networking resources in C++. Students will learn how to create basic graphics and text-based games in C++. (CSU) (Degree Credit)

CISG 167 F C++ for Game Programming (3)
Advisory: Knowledge of C++
Three hours lecture and one hour lab per week. This course teaches students how to use C++ to write computer games. Topics include a review of basic C++, how to use various data structures in C++, how to access hardware devices, how to use various graphics libraries, and how to use basic networking resources in C++. Students will learn how to create basic graphics and text-based games in C++. (CSU) (Degree Credit)

CISG 170 F Java for Game Programming (3)
Advisory: Basic knowledge of Java programming language
Three hours lecture and one hour lab per week. This course teaches students how to use Java to write computer games. Topics include a review of basic Java, how to use various data structures in Java, how to access hardware devices, how to use various graphics libraries, and how to use basic networking resources in Java. Students will learn how to create basic graphics and text-based games in Java. (CSU) (Degree Credit)

CISG 175 F Game Programming in Flash (3)
Advisory: Basic knowledge of Flash
Three hours lecture and one hour lab per week. This course teaches students how to use Macromedia Flash to create games. Topics include a review of basic Flash concepts, basic ActionScript programming, creating Flash 3-D effects, using physics and motion in a game, including sound in a game, and creating the overall game design structure. (CSU) (Degree Credit)

CISG 182 F DirectX Graphics Programming (3)
Advisory: Basic knowledge of C++ and .NET
Three hours lecture and one hour lab per week. This course introduces the student to using the DirectX graphics programming tools using C++. Students learn the basics of DirectX, the general structure of the graphic libraries, and how to use DirectX to create 2-D and 3-D graphics, transform graphics, manage sound, and how it is used to create computer games. (CSU) (Degree Credit)

CISG 185 F Artificial Intelligence in Game Programming (3)
Advisory: General knowledge of the C++ or Java programming language
Three hours lecture and one hour lab per week. This course introduces the use of Artificial Intelligence techniques in game programming. Students learn the foundation of computer artificial intelligence (AI), basic AI techniques, and how such techniques are implemented in computer code and how they are used in different kinds of computer games. (CSU) (Degree Credit)

CISG 190 F Programming Multi-User Online Games (3)
Advisory: Basic knowledge of a modern object-oriented programming language and general network concepts
Three hours lecture and one hour lab per week. This class is an introduction to programming online multi-player games. Students learn basic networking technology, network programming, and are introduced to the operation of network servers. Students also learn how to write code to link client computer games with network game servers and how to create server side game scripts. (CSU) (Degree Credit)
Computer Science (CSCI)

Computer Science Associate in Science Degree

Computer Science Courses

CSCI 123 F Introduction to Programming Concepts in C++ (4)
Prerequisite: MATH 141 F or MATH 142 F, or equivalent with a grade of "C" or better
Four hours lecture and one hour arranged per week. This course is an introduction to the basic principles of programming using C++ as the development tool. Topics include the structure and design of algorithms, input/output, branching structures, functions, recursion, built-in data types, arrays, structures, files, pointers and elementary operations on linked structures. The object-oriented programming paradigm will be introduced. Topics include encapsulation, polymorphism, libraries, streams, inheritance and abstract data types. Students will design algorithms, write external and internal documentation and design and write source code in C++. (CSU)(UC)(Degree Credit) AA GE

CSCI 133 F Data Structures in C++ (4)
Prerequisite: CSCI 123 F or equivalent, with a grade of “C” or better
Four hours lecture and one hour arranged per week. This is a course in algorithm design and data structures implemented using C++. Data structures examined are arrays, linked lists, stacks, queues, trees, tables, and graphs. Algorithm topics include hashing, sorting, heaps, searches and algorithm efficiency using Big-O notation. Students will create and modify class libraries to implement these structures. (CSU)(UC)(Degree Credit)

CSCI 223 F C Language for Mathematics and Science (4)
Prerequisite: CSCI 123 F or one prior programming language with a grade of "C" or better
Four hours lecture and one hour arranged per week. This course is an introduction to the C programming language. One of the latest C compilers will be used on a personal computer. Topics include data types, functions, pointers, bit manipulation and file I/O. Students will design, code and test program applications in the mathematics, scientific and engineering environments. (CSU)(UC)(Degree Credit)

CSCI 241 F Computer Organization and Assembly Language Programming (4)
Prerequisite: CSCI 133 F or CSCI 223 F, both with a grade of “C” or better
Four hours lecture and one hour arranged per week. This course is an introduction to assembly language programming. It includes reviews of computer organization, programming techniques and concepts, addressing techniques, input/output, hardware architecture, and data structures. (CSU)(UC credit limitation)(Degree Credit)

Construction Technology Certificate

Construction Courses

CSTR 005 F Construction Technology Lab (.5-2)
Open Entry/Open Exit
Twenty-four hours lab for each .5 unit credit. This course offers students the opportunity to further develop their skills at hand and power tool operations, and to devote more time to construction projects. One-half unit credit will be given for each twenty-four hours of lab participation. Course may be taken four times for credit for a maximum of 8 units. (Degree Credit)

CSTR 006 F Introduction to Residential Plumbing and Mechanical Systems (3)
Three hours lecture per week. Fundamentals of residential plumbing, heating, air conditioning, and ventilation. (Degree Credit)

CSTR 007 F Residential Electrical Systems (2)
One and one-half hours lecture and one and one-half hours lab per week. This course is an introduction to load center sizing, wiring circuits and grounding systems used in residential construction. Lab exercises will cover the wiring of lighting and power circuits, dedicated circuits, grounding and troubleshooting. (Degree Credit)

CSTR 014 F Contractors' License Law (3)
Three hours lecture per week. Covers the problems in the legal and practical aspects of contracting: Contractors' License Law, the Mechanic's Lien Law, labor code, Worker's Compensation, and Insurance. Business management for both the private and public sector will also be covered. This course will prepare the student to pass the Law and Business Exam required for a Contractors' License in the state of California. (Degree Credit)

CSTR 015 F Construction Management (3)
Three hours lecture per week. The course covers the organization and problems associated with managing a building construction business. Topics will include sales, bidding, contracts, purchasing, scheduling, safety, and community relations. (Degree Credit)
CSTR 016 F Business Administration for the Construction Industry (3)
Three hours lecture per week. Provides the student with instruction in the practical aspects of business administration concepts and practices within the construction industry. The course surveys successful operating techniques, business structure, business plans, ownership, accounting, marketing, finance, taxation and business regulations. (Degree Credit)

CSTR 018 F Residential Construction Practice II (4)
Prerequisite: CSTR 102 F
Two hours lecture and six hours lab per week. Provides actual practice in the finish work of the house project. Course work includes: insulating, dry walling, door installation, finish hardware, finish plumbing, finish electrical, finish trim, painting, and any finishing processes that are deemed necessary to complete the house project. (Degree Credit)

CSTR 020 F Remodeling and Additions Construction I (4)
Prerequisite: CSTR 100 F
Two hours lecture and six hours lab per week. Provides actual practice in the experiences in room additions and remodeling construction with emphasis on: starting the job, scheduling, estimating, job progress, and people relations. Tie-ins, foundations, plumbing, framing, roofing, electrical and mechanical areas will be covered. (Degree Credit)

CSTR 022 F Remodeling and Additions Construction II (4)
Prerequisite: CSTR 102 F
Two hours lecture and six hours lab per week. This course will provide the experiences in finish work in remodeling and additions to include patching and finish carpentry, electrical, plumbing, and heating. (Degree Credit)

CSTR 028 F Introduction to Alternate Energy (2)
Two hours lecture per week. Course provides an overview of the world energy situation and a study into alternate energy sources. Solar water heating, solar space heating and cooling, photovoltaics, geothermal, wind generators, and others will be studied. (Degree Credit)

CSTR 030 F Construction Blueprint Reading (3)
Three hours lecture per week. Interpretation of architectural working drawings as they relate to residential and light commercial construction. The meaning of various lines, symbols, and conventions as well as construction documents will be covered. (Degree Credit)

CSTR 031 F International Building Code (3)
Three hours lecture per week. Topics of instruction will follow the content of the most recent published adoption of the International Building Code. The student will study the building codes as they pertain to commercial and industrial construction. (Degree Credit)

CSTR 032 F Uniform Plumbing Code (3)
Three hours lecture per week. Topics of instruction will follow the content of the most recent Uniform Plumbing Code as published by the International Association of Plumbing and Mechanical Officials. (Degree Credit)

CSTR 033 F Commercial Construction Blueprint Reading (3)
Three hours lecture per week. Course emphasizes the interpretation of commercial architectural drawings as they relate to commercial construction industry. Contract documents, specifications, site work, structural steel construction, reinforced concrete, mechanical systems, and electrical systems will be covered. Knowledge and understanding of residential blueprints are recommended. (Degree Credit)

CSTR 034 F National Electrical Code (3)
Three hours lecture per week. Topics of instruction will follow the content of the most recent National Electrical Code as published by the National Fire Protection Association. (Degree Credit)

CSTR 035 F California Accessibility & Energy Costs (3)
Three hours lecture per week. Interpretation and application of the California Code of Regulations (Title 24) as it pertains to various types of structures within the building industry. Special emphasis will be placed on California Energy Regulations and modifications for the disabled for accessibility requirements. (Degree Credit)

CSTR 036 F Uniform Building Code — Residential (3)
Three hours lecture per week. Topics of instruction will follow the content of the most recent Uniform Building Code as published by the International Conference of Building Officials. The course will study the codes related to residential construction. (Degree Credit)

CSTR 037 F Uniform Building Code — Commercial/ Industrial (3)
Three hours lecture per week. Topics of instruction will follow the content of the most recent Uniform Building Code as published by the International Conference of Building Officials. The course will study the codes related to commercial and industrial construction. (Degree Credit)

CSTR 038 F Uniform Mechanical Code (3)
Three hours lecture per week. Topics of instruction will follow the content of the most recent Uniform Mechanical Code as published by the International Conference of Building Officials. The course will study the codes related to commercial and industrial construction. (Degree Credit)

CSTR 039 F Commercial Mechanical Code (3)
Three hours lecture per week. This course has been designed for the individual who deals with the design of heating, cooling, ventilation and refrigeration in larger, more complex type buildings. Training received in this course will make the individual aware of the areas where the Building and Mechanical Codes overlap. (Degree Credit)

CSTR 040 F Building Design for Hazardous Materials (3)
Advisory: ET 200 F
Three hours lecture per week. The course is designed to introduce the student to the provisions of the Building and Fire Codes affecting the storage, handling and use of hazardous materials. Emphasis will be placed on the requirements for the safety aspects of the codes and recognized standards for solutions. Instruction will focus on problem solving with compliance to the building standards. (Degree Credit)

CSTR 041 F International Residential Code (3)
Three hours lecture per week. Topics of instruction will follow the content of the most recent published adoption of the International Residential Code. The student will study the residential codes as they pertain to residential construction. (Degree Credit)

CSTR 042 F Residential Steel Frame Construction (4)
Three hours lecture and three hours lab per week. This is a comprehensive course that covers the fundamentals of utilizing light frame steel for residential and light commercial. Course emphasizes the safe use of hand and power tools, construction terminology, plan interpretation, and construction practices for foundation systems, and wall, ceiling, and roof framing. (Degree Credit)
CSTR 050 F Computer Design Software for the Contractor (2)
One and one-half hours lecture and two and one-half hours lab per week. This course provides the student with instruction in the concepts and practices associated with using computer architectural design software to prepare students in the preparation of designs, blueprints, and material lists for the construction industry. Students will process programs that demonstrate features and functions of the architectural design software. (Degree Credit)

CSTR 060 F Computer Estimating in Construction (3)
Two hours lecture and three hours computer lab per week. This course provides the student with instruction in the concepts and practices with using computer estimating software for estimating positions within the construction industry. Students will process programs that demonstrate features and functions of the estimating software. Knowledge and understanding of blueprint reading is beneficial. (Degree Credit)

CSTR 065 F Construction Project Scheduling (3)
Two hours lecture and three hours lab per week. This course provides the student with instruction in the concepts and practices associated with using project scheduling software currently used in the construction industry. Students will learn the practical application practices and demonstrate their ability to use the software and concepts associated with construction scheduling. (Degree Credit)

CSTR 100 F Beginning Residential Construction (4)
Three hours lecture and three hours lab per week. Course emphasizes the safe use of hand and power tools, construction terminology, plan interpretation and construction practices in: groundwork, foundation systems, wall framing, ceiling framing, roof framing, and roofing materials. (CSU) (Degree Credit)

CSTR 102 F Residential Finish Construction (4)
Three hours lecture and three hours lab per week. Units of instruction to include: tool usage and safety, terminology, drywall installation and finishing, setting of door frames and hanging doors, installation of casing and base, finish hardware, paneling, railings, stairs, and trim/detail. (CSU) (Degree Credit)

CSTR 104 F Concrete and Masonry (3)
Two and one-half hour lecture and one and one-half hour lab per week. The course includes units of instruction in basic concrete technology, concrete testing, concrete placing and finishing, masonry units — block and brick, masonry tools and methods. (CSU) (Degree Credit)

CSTR 108 F Surveying for Builders (2)
One hour lecture and three hours lab per week. This is a course for builders and contractors, both general and sub. It includes surveying instruments, surveying practice for construction limited to plot layouts, simple topography as on hillside lots, establishing grade points, using bench marks and other references. Basic applied trigonometry will be reviewed. (CSU) (Degree Credit)

CSTR 110 F Residential Estimating (3)
Three hours lecture per week. Stresses residential blueprint reading, estimating, and material listing. Includes site preparation, foundations, framing, exterior finish, interior finish, roofing, hardware, and various specialty trade subcontracts. (CSU) (Degree Credit)

CSTR 112 F Construction Materials, Specifications, and Purchasing (2)
Two hours lecture per week. The course covers the study of building materials as used in modern building construction and how they are represented in working drawings and specifications. (CSU) (Degree Credit)

CSTR 116 F Residential Construction Practice I (4)
Prerequisite: CSTR 100 F
Two hours lecture and six hours lab per week. Provides actual practice in the construction of a house project. Course emphasizes the correct and safe use of tools, rough framing problems, rough electrical, rough plumbing, mechanical systems, roofing, flashing, and exterior finish. (CSU) (Degree Credit)

Cosmetology (COSM)
Technology and Engineering Division
Office: Bldg 700, Room 711
714.992.7123
Dean: Scott McKenzie
Website: techneng.fullcoll.edu

Associate in Science Degree
Cosmetology Certificate
Esthetician Certificate
Cosmetology Instructor — Associate in Science Degree

Cosmetology Courses

COSM 041 F Esthetician: Level 1 (10)
Prerequisite: 10th grade education or equivalent
Advisory: Must be 17 years of age when applying for State Board Examination
This course includes basic skin care procedures and techniques; analysis of the skin; facial treatments (manual, electrical and chemical); facial massage manipulations; temporary hair removal (tweezing and waxing); makeup techniques and applications; health, safety and sanitation precautions and procedures; bacteriology, chemistry, electricity, anatomy and physiology; professional ethics, hygiene, personality development, personal and professional management. Related subjects, as they are applicable to Esthetics, are covered. This program is designed toward preparation for the Board of Barbering and Cosmetology Examination, and a successful career as an esthetician. Ten (10) units are given for 300 hours of coursework completed with a “C” or better average. This is the first of two consecutive segments. (Degree Credit) Pivot Point Member School.
COSM 042 F Esthetician: Level 2 (10)
Prerequisite: COSM 041 F with a grade of “C” or better; or equivalent
Advisory: Must be 17 years of age when applying for State Board Examination
This course includes an advanced study of skin care procedures and techniques; analysis of the skin; facial treatments (manual, electrical and chemical); facial massage manipulations (European, lymphatic and acupressure); temporary hair removal (tweezing and waxing); makeup techniques and applications; hygiene, health, safety and sanitation precautions and procedures; chemistry, electricity; professional ethics, growth and personality development; personal, professional and business management; advanced topics and procedures (aromatherapy, spa treatments, chemical exfoliation). Related subjects, as they are applicable to Esthetics, are covered. This program is designed toward preparation for the Board of Barbering and Cosmetology Examination, and a successful career as an esthetician. Ten (10) units are given for 300 hours of coursework completed with a “C” or better average. This is the first of two consecutive segments. (Degree Credit) Pivot Point Member School.

COSM 043 F Advanced Topics in Esthetics (.5-3)
Prerequisite: COSM 042 F or COSM 055EF or a valid Esthetician or Cosmetology License
Advisory: Completed 10th grade level or its equivalent
Zero to three lecture and/or zero to nine lab hours per week. This course is designed to meet the needs of the Esthetician industry that requires advanced training, continuing education, and provides professional growth for licensed Estheticians and Cosmetologists. This course will be offered in modules of advanced topics. Unit credit ranges from .5-3 units per module. Consult the class schedule to verify specific topic areas, credit offered for each topic and fees. Fullerton College is a Pivot Point Member School. (Degree Credit)

COSM 055AF Cosmetology: Level 1 (11)
Prerequisite: 10th grade education or equivalent
Advisory: Must be 17 years of age when applying for State Board Examination
This course includes basic hair styling, manicuring, facial, and day make-up, permanent waving, scalp treatments, hair cutting, tinting, and bleaching. Related subjects, as they are applicable to cosmetology, are covered. The program is designed toward preparation for the Board of Barbering and Cosmetology examination, and a successful career as a cosmetologist. Eleven (11) units will be given for 320 hours of classwork completed with a “C” or better average. This is the first of five consecutive segments. (Degree Credit) Pivot Point Member School.

COSM 055BF Cosmetology: Level 2 (11)
Prerequisite: COSM 055AF with a grade of “C” or better; or equivalent
Advisory: Must be 17 years of age when applying for State Board Examination
The course includes basic hair styling, manicuring, facial, make-up, permanent waving, scalp treatments, hair cutting, tinting and bleaching, soft permanent wave and chemical relaxing-sodium hydroxide. Related subjects, as they are applicable to cosmetology, are covered. The program is designed toward preparation for the California Bureau of Barbering and Cosmetology examination, and a successful career as a cosmetologist. Eleven (11) units are given for 320 hours of classwork completed with a “C” or better average. This is the second of five consecutive segments. (Degree Credit) Pivot Point Member School.

COSM 055CF Cosmetology: Level 3 (11)
Prerequisite: COSM 055BF with a grade of “C” or better; or equivalent
Advisory: Must be 17 years of age when applying for State Board Examination
The course includes hair design, manicuring and pedicuring, acrylic nails, facials and corrective make-up, salon permanent waving/chemical texturizing scalp treatments, hair sculpting, color design, soft curl permanent wave/chemical texturizing and chemical relaxing/texturizing. Related subjects, as they are applicable to cosmetology, are covered. The program is designed toward preparation for the California Bureau of Barbering and Cosmetology examination, and a successful career as a cosmetologist. Eleven (11) units are given for 320 hours of classwork completed with a “C” or better average. (Degree Credit) Pivot Point Member School.

COSM 055DF Cosmetology: Level 4 (11)
Prerequisite: COSM 055CF with a grade of “C” or better; or equivalent
Advisory: Must be 17 years of age when applying for State Board Examination
The course includes advanced hair design, advanced manicuring, advanced facials and make-up, advanced permanent waving/chemical texturizing, advanced hair sculpting, extensions, advanced color design, and advanced chemical relaxing-sodium hydroxide. Related subjects, as they are applicable to cosmetology, are covered. The program is designed toward preparation for the California Bureau of Barbering and Cosmetology examination, and a successful career as a cosmetologist. Eleven (11) units are given for 320 hours of classwork completed with a “C” or better average. (Degree Credit) Pivot Point Member School.

COSM 055EF Cosmetology: Level 5 (11)
Prerequisite: COSM 055DF with a grade of “C” or better; or equivalent
The course includes salon hair design, salon hair sculpting, salon manicuring and pedicuring, salon facials and makeup, salon hair removal, salon permanent design, electrical and manual scalp relaxing-sodium hydroxide. Related subjects, as they are applicable to cosmetology, are covered. The course also includes State Board of Barbering and Cosmetology mock written and performance examinations. The program is designed toward preparation for the Board of Barbering and Cosmetology Examination, and a successful career as a cosmetologist. Eleven (11) units are given for 320 hours of classwork completed with a “C” or better average. This is the fifth of five consecutive segments. (Degree Credit) Pivot Point Member School.

COSM 060 F Instruction Techniques in Cosmetology (15)
Prerequisite: COSM 051AF, COSM 051BF, COSM 051CF, COSM 051DF with a “B” average or better. Valid California cosmetology license. Verified work experience as a cosmetologist in a licensed cosmetological establishment. Minimum of five year’s experience, one year of which is within the last two years.
Designed to prepare the student for the teacher’s examination required by the California Bureau of Barbering and Cosmetology and enable the student to secure employment as an instructor in a private beauty school. The lecture section consists of demonstrations in teaching with the student participating in both lectures of related information and practical trade demonstrations. A lab period involves the instructor trainee in the teaching of Cosmetology students in practical salon work. Fifteen units for 600 clock hours of technical instruction. Offered as a self-pacing, open entry course with flexible hours with a minimum of twelve lab hours per week. Pivot Point Member School. (Degree Credit)
**COSM 061AF Pivot Point Instruction (1)**
*Prerequisite:* Valid California Cosmetology License and Cosmetology Instructor’s License or proof of enrollment in an Instructor Trainee Program
This course is specifically designed for cosmetologists, instructors, and instructor trainees that need to know and teach Pivot Point techniques to obtain employment in most community college Cosmetology departments and progressive salons or private schools. Pivot Point Member School. (Degree Credit)

**COSM 061BF Pivot Point Instruction (1)**
*Prerequisite:* Valid California Cosmetology License and Cosmetology Instructor’s License or proof of enrollment in an Instructor Trainee Program
This course is specifically designed for cosmetologists, instructors, and instructor trainees that need to know and teach Pivot Point techniques to obtain employment in most community college Cosmetology departments and progressive salons or private schools. Pivot Point Member School. (Degree Credit)

**COSM 061CF Pivot Point Instruction (1)**
*Prerequisite:* Valid California Cosmetology License and Cosmetology Instructor’s License or proof of enrollment in an Instructor Trainee Program
This program course is specifically designed for cosmetologists, instructors, and instructor trainees that need to know and teach Pivot Point techniques to obtain employment in most community college Cosmetology departments and progressive salons or private schools. Pivot Point Member School. (Degree Credit)

**COSM 070 F Continuing Education Instruction Techniques in Cosmetology (2)**
Open Entry/Open Exit
*Prerequisite:* Valid California Cosmetology Instructor’s License
Designed to meet the criteria for minimum hours of continuing education required for renewal of an instructor’s license. The lecture consists of demonstration in teaching with student participating in both lectures of related information and practical trade demonstration. Mandatory four hours lab per week. Course may be taken four times for credit. Pivot Point Member School. (Degree Credit)

*Dean:* Lisa Campbell
*Website:* counseling.fullcoll.edu

**Counseling and Guidance Courses**

**COUN 050 F College Orientation (1)**
Pass/No Pass only
Eighteen hours lecture and activities per term. This course is designed to satisfy the California Community Colleges Matriculation requirements of Assessment, Orientation, and Counseling/Advising. The course will familiarize the student with Fullerton College associate degree, certificate and transfer requirements. Students will explore the rules, policies and campus resources of Fullerton College. (Degree Credit)

**COUN 060 F Academic Success (1)**
Pass/No Pass only
Eighteen hours lecture and activities per term. This course is designed to promote student success. Students will develop skills in time management, decision making, study techniques and learning strategies. Students will increase their awareness of community resources, current college policies and procedures and cultural diversity. (Degree Credit)

**COUN 093 F Managing College Finances (1)**
One hour of lecture per week or equivalent. This course is designed to assist students in analyzing and incorporating basic strategies for managing college finances. Students will identify adult related tasks such as personal budget management, maximizing their financial aid benefits and other financial resources, distinguishing between various repayment options and the consequences related to mismanagement of funds. Recognize and minimize the factors leading to financial aid probation, thereby ensuring a successful degree completion and/or transfer program.

**COUN 101 F The College Experience (2)**
Thirty-six hours lecture and activities per term. This course will facilitate an understanding of the issues involved in having a successful college experience. The emphasis includes four major components of study: self-exploration; development of academic and survival skills; awareness of higher education; and transfer exploration and vocational options. Topics will include: student development theory, purpose for attending college, maintaining health, development of positive self-esteem, strategies for living a balanced life, and acquisition of academic and survival skills. Students will develop knowledge of college resources, policies and procedures. (CSU) (Degree Credit)

**COUN 110 F Teaching as a Career (3-4)**
Letter Grade or Pass/No Pass option
Thirty-six hours lecture and 50-100 fieldwork hours per term. Orientation to teaching as a profession. This course surveys the nature of the work, qualifications, supply and demand for teachers. A field work experience including observation and assistance in a school and/or community agency is required. This course is designed for prospective teachers. (CSU) (Degree Credit)

**COUN 135 F Introduction to Leadership Development (same as STSV 135 F) (3)**
Three hours lecture per week. This course is designed to provide emerging and existing student leaders the opportunity to explore the concept of leadership and to develop and improve their leadership skills for application in multiple roles throughout their lifetime. Students will learn the role that communication, motivation, delegation, self-assessment, planning, time management, stress management, evaluation and governance play in developing successful leaders, working relationships, and organizations. Focus will include parliamentary procedure, program development, stress reduction, and time management. Students who receive credit in this course will not receive credit in STSV 135 F. (CSU) (Degree Credit)

**COUN 136 F Applied Leadership (same as STSV 136 F) (3)**
One hour lecture and two hours participation in campus organizations required each week. The course is designed to give students the skills and proper knowledge to participate in student government. Students critically reflect on their goals, objectives and action plans and review their own performance along with assessing the organizational environment. This course is equivalent to STSV 136 F, three units maximum can be earned for any combination. (CSU) (Degree Credit)
COUN 140 F Educational Planning (.5)  
Letter Grade or Pass/No Pass option  
Eighteen hours of lecture and activities per term. Students taking this course will receive an overview of graduation requirements, transfer requirements, campus policies, student services and career planning. Strongly recommended for first-time students with declared majors or enrollment in specific programs. Course sections may be designated for specific majors or programs. (CSU) (Degree Credit)

COUN 141 F Career Exploration (1)  
Letter Grade or Pass/No Pass option  
Eighteen hours of lecture and activities per term. This course is designed to introduce students to the career decision-making process which includes both evaluation of the self and exploration of the world of work. Self-evaluation activities include identification of personality/temperament, interests, skills, goals and values. Career research activities are utilized to examine the world at work. The focus of the course is on self-description in relation to the choice of occupation and career. (CSU) (Degree Credit)

COUN 143 F Creative Job Search (1)  
Letter Grade or Pass/No Pass option  
Eighteen hours of lecture and activities per term. This course will cover the basic practical aspects of conducting a successful job search. The focus will be on application, cover letter, resume, and interview as well as labor market research. (CSU) (Degree Credit)

COUN 144 F Career Motivation and Self-Confidence (1)  
Letter Grade or Pass/No Pass option  
Eighteen hours of lecture and activities per term. This course is designed to help students identify individual differences, examine personal characteristics and behavior, and evaluate self-concept. Students will interpret information and apply knowledge of self as related to career demands and opportunities with increased motivation and self-confidence. (CSU) (Degree Credit)

COUN 148 F Human Potential (1)  
Letter Grade or Pass/No Pass option  
Eighteen hours of lecture and activities per term. This course will help students understand and enhance their self-concept through an exploration of how that self-concept directs behavior patterns. This course will also enable students to examine and assess their strengths and potential, values and decision-making skills in order to develop an improved self-concept, and improve communication and listening skills. By becoming aware of their individual potential, students can plan and achieve their educational goals. (CSU) (Degree Credit)

COUN 151 F Career/Life Planning (3)  
Letter Grade or Pass/No Pass option  
Fifty-four hours of lecture and activities per term. A course designed for, but not restricted to, undecided students and persons in career transition. Includes self-exploration, career exploration and job search strategies. Specific topics include adult development theory and the changes that occur over the life span, extensive exploration and assessment of one's skills, values, interests and personality, analysis of career possibilities to determine individual fit, introduction to resources for educational and career planning, an intensive career investigation, decision making, goal setting and motivation, and job search and interview techniques. (CSU) (Degree Credit) CSU GE

COUN 161 F Assertion Skills/Communication (1)  
Letter Grade or Pass/No Pass option  
One hour of lecture per week or equivalent. Course will equip students with a basic understanding of assertive communication and present skills, techniques and strategies for implementation of assertive communication behaviors. Course may be taken twice for credit. (CSU) (Degree Credit)

COUN 163 F Personal Growth and Life Transitions (3)  
Three hours lecture per week. This course will introduce students to life skills that can help them to achieve greater success in their educational, professional and personal lives. Topics include exploring one's life purpose, managing changes and transitions, achieving academic and career satisfaction, internal and external influences on educational and career pursuits, creating and maintaining a healthy lifestyle, and learning and employing effective communication skills and success strategies. Students will assess the impact these factors have on their lives in regards to decision making and assist them in identifying proactive skills for leading a purposeful life. (CSU) (Degree Credit) AA GE, CSU GE

COUN 199 F Counseling and Guidance Independent Study (.5-2)  
Letter Grade or Pass/No Pass option  
Selected hours depend upon units assigned. Designed for students who wish to explore in depth various guidance-related topics. Unit credit may range from one-half to two units in any given semester. Consult class schedule for list of topics and to verify credit for the particular term. Students may enroll up to a maximum of three semesters. Course may be taken three times for credit. (CSU) (UC review required.) (Degree Credit)

Dance (DANC)  
Physical Education Division  
Office: Bldg 2200  
714.992.7045  
Dean: Peter Snyder

Associate in Arts Degree  
Dance Technique Certificate

Dance Courses

DANC 100 F Introduction to Dance (3)  
One and one-half hours lecture and one and one-half hours lab per week. Introduction to Dance Appreciation explores historical, multicultural and contemporary dance forms. The course will consist of a combination of lecture and activity. The student will experience various dance forms such as ballet, modern, jazz, folk, and ethnic. The emphasis will be on the history and understanding dance as an art form. Recommended for non-majors. (CSU) (UC) (Degree Credit) AA GE, CSU GE
DANC 101 F Introduction to Dance World Culture (2)
Three lab hours per week. This course will introduce social, folk, and square dancing from the different cultures of the world. Dance cultures that will be studied will include the dances of: Asia, Africa, Europe, Latin America, Middle East, Mexico, Native American, Polynesia, and Spain. This class will include research and study of the backgrounds of dances and cultures, and will provide opportunities for development of acceptable performance as preparation for more advanced technique courses. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (DegreeCredit) CSU GE

DANC 102 F Conditioning for Dance (1)
Two hours lab per week. This class is designed to prepare a student mentally and physically for dance. Students will learn floor mat exercises and a floor barre to increase flexibility, strength, body alignment and use of turn out. Relaxation and visualization techniques will be covered. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (DegreeCredit) CSU GE

DANC 103 F Dance Technique I (1)
Three hours lab per week. The course focuses on basic movement techniques to prepare the body for dance. This class also meets the needs of students who are interested in achieving fitness and contouring of the body by the use of dance technique. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (DegreeCredit) AA GE, CSU GE

DANC 104 F Dance Technique II (1)
Prerequisite: DANC 103 F or instructor approval
Three hours lab per week. This class focuses on basic movement techniques to prepare the body for dance. This class also meets the needs of students who are interested in achieving fitness and contouring of the body by the use of dance technique. Course may be taken two times for credit. (CSU) (UC Credit Limitation) (DegreeCredit) AA GE, CSU GE

DANC 105 F Ballet I (1)
Three hours lab per week. This course is designed to instruct the beginning dance student in the fundamentals of ballet technique and terminology as well as acquainting the enrolled student with viewing and practicing ballet as a performing art form. This class includes work at the ballet barre, center floor and across the floor. Course may be taken four times for credit. AA Dance; Liberal Arts; satisfies PE requirement for General Education. (CSU) (UC) (DegreeCredit) CSU GE

DANC 106 F Ballet II (1)
Prerequisite: DANC 105 F or a minimum grade of “C” or better in previous ballet experience or approval of instructor.
Three hours lab per week. This course is designed to continue the ballet training of the dance student. The class includes more advanced techniques at the barre and center floor and more advanced adagio and allegro dance sequences. Course may be taken four times for credit. AA Dance; Liberal Arts; satisfies PE requirement for General Education. (CSU) (UC) (DegreeCredit) CSU GE

DANC 107 F Modern Dance I (1)
Three hours lab per week. This class provides opportunities for the student to develop sensitivity to the use of body movement, space and time for creative expression. This class includes work on skill techniques, movement exploration and beginning dance composition. Course may be taken four times for credit. AA Dance; Liberal Arts; satisfies PE requirement for General Education. (CSU) (UC) (DegreeCredit) CSU GE

DANC 108 F Modern Dance II (1)
Prerequisite: DANC 107 F
Two hours lab per week. This course is designed to give more advanced experiences in skill techniques and compositional factors and devices. Individual and group choreography are incorporated into class structure. Course may be taken twice for credit. (CSU) (UC) (DegreeCredit) CSU GE

DANC 110 F Ballet Folklorico (1)
Two hours lab per week. This course is designed to give a general knowledge of the regional dance styles of Mexico and their cultural aspects. Students will be expected to learn various dance steps. Course may be taken four times for credit. (CSU) (UC) (DegreeCredit)

DANC 111 F Jazz I (1)
Three hours lab per week. This course is designed for the student who is interested in developing a jazz style in dance. This course includes basic techniques unique to the jazz form of dance including dance combinations to classical jazz music and contemporary music. Course may be taken four times for credit. AA Dance; Liberal Arts; satisfies PE requirement for General Education. (CSU) (UC) (DegreeCredit) CSU GE

DANC 112 F Jazz II (1)
Prerequisite: DANC 111 F
Two hours lab per week. This class is designed for the student who wishes to perfect his jazz style. The class includes more advanced work in turns, isolations, and combinations and work with more complex rhythmic elements. Course may be taken twice for credit. (CSU) (UC) (DegreeCredit)

DANC 113 F Tap Dance I (1)
Three hours lab per week. This class is designed to introduce basic tap dance techniques and elementary tap dances, providing an opportunity to develop increased coordination and rhythm. Course may be taken twice for credit. Course may be taken twice for credit. (CSU) (UC) (DegreeCredit) CSU GE

DANC 114 F Tap Dance II (1)
Prerequisite: DANC 113 F or instructor approval
Three hours lab per week. This course provides opportunity for further development of tap dance skills at an intermediate level. Includes some provision for student composition. Course may be taken twice for credit. (CSU) (UC) (DegreeCredit)

DANC 115 F Hip Hop Dance I (1)
Three hours lab per week. Students will learn various forms of beginning hip-hop dancing including pop and rock, hip-hop funk, syncopations and rhythms. A basic history of hip-hop culture will be discussed. Course may be taken four times for credit. (CSU Credit Limitation) (UC) (DegreeCredit) CSU GE

DANC 116 F Social Dance (1)
Three hours lab per week. This course gives students the opportunity to learn various social dance forms. It is designed for students with no dance experience as well as dance students who want to be introduced to new dance forms. Examples of dance forms that may be included are: swing, salsa (mambo), cha-cha, tang, waltz, country and fox trot. The course will focus on exploring the differences and similarities among styles and techniques while developing coordination skills. Historical studies and individual choreography will enhance the student’s knowledge of each dance form as well as encourage creativity. Course may be taken four times for credit. (CSU) (UC) (DegreeCredit) CSU GE
DANC 119 F Dance for Theatre (1)
Three hours lab per week. This class provides opportunities to explore various dance styles: ballet, jazz, modern and tap. The emphasis is on performing each dance style in an informal in-studio setting. Course may be taken four times for credit. (CSU) (UC) (Degree Credit) CSU GE

DANC 120 F Dance History (3)
Three lecture hours per week. Students will study dance forms from primitive to present day through readings, film, and class discussion. Students will also compare various dance techniques, theories, and personalities who have contributed to the art of dance. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

DANC 122 F Middle Eastern Dance (1)
Three hours of lab per week. This course is designed to explore various types of dances that are common in the Middle East (belly dancing and dabke). The students will learn movement, perform, critique and analyze dance performances. Course may be taken four times for credit. (CSU) (Degree Credit)

DANC 130 F Afro Caribbean Dance (1)
Three hours lab per week. Students will learn the dance styles and rhythms of African and Caribbean cultures. Different regions of Africa, Puerto Rico, Brazil, Trinidad, Haiti, and the Dominican Republic. Dance as an inseparable part of the culture will be discussed. Course may be taken four times for credit. (CSU) (UC) (Degree Credit) CSU GE

DANC 132 F Flamenco Dance I (1)
Three hours lab per week. Students will study basic Flamenco Dance technique and learn movement combinations. This class provides students with the opportunity to develop coordination, rhythm, and performance skills. Some history of Flamenco will be included. Course may be taken four times for credit. (CSU) (UC) (Degree Credit) CSU GE

DANC 150 F Commercial Dance (1)
Three hours lab per week. This course will focus on contemporary dance styles made popular from the television, film and video industry. Students will learn and create stylized commercial dance movement combinations using a variety of popular music. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

DANC 151 F Latin Jazz (1)
Three hours lab per week. Students will study and learn basic skills of Latin Jazz dance and styles inherent in Jazz and Afro-Caribbean dance and Latin Popular rhythms such as Cha Cha, Mambo, Salsa, Merengue, Bolero, Cumbia, and Corridos. Students will learn Latin Jazz combinations. This course may be taken four times for credit. Cost of dance concert admission will not exceed $40. (CSU) (Degree Credit)

DANC 202 F Dance Composition and Choreography (2)
Prerequisite: DANC 107 F with a grade of “C” or better
One hour lecture and three hours lab per week. This course allows practical application of choreographic techniques with instructor supervision permitting group work during the class session. This class includes theory and practice in the basic elements of dance composition and provides the opportunity for the student to develop and present solo and group compositions. This course may be taken two times for credit and is transferable to the State and University systems; degree credit for A.A. in Dance; A.A. Liberal Arts; satisfies P.E. requirement for general education. (CSU) (UC) (Degree Credit) CSU GE

DANC 203 F Dance Production (2)
Prerequisite: Any previous dance class; concurrent enrollment in any dance class
Six hours lab per week. This class provides opportunity for creative dance expression. The emphasis of the class is on advanced dance techniques and choreography. Opportunities for public performance are available. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit)

DANC 204 F Dance Rehearsal and Performance (3)
Prerequisite: Any previous dance class or instructor approval
Nine hours lab per week. This class provides an opportunity for a student to stage his own choreography or to participate as a dancer in original choreography by a student, faculty or guest artist. This course is a practical experience in choreography, performance and directing. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)

DANC 205 F Dance Ensemble (2)
One hour lecture and three hours lab per week. A selective dance performing group utilizing advanced resource and movement materials. This class is designed to give the advanced performer an additional opportunity for continued performance and growth in individual dance technique and group repertoire. Course may be taken twice for credit. (CSU) (UC) (Degree Credit)

DANC 210 F Multicultural Dance in the U.S. Today (3)
Three hours lecture per week. Social and theatrical dances of the U.S. today will be viewed and examined in terms of cultural influences, historical and social origins, and the functions they fulfill for individual artists, their cultures, and society in general. African American, Asian, Hispanic, European and Native American dances, choreographers, and dancers will be studied. The class will include readings, discussions, group projects, and analysis of dance performances in the film and live theater. Attendance at a selected group of performances is required. Cost of dance concert admission will not exceed $30. (CSU) (UC) (Degree Credit) CSU GE, IGETC, MULT CULT REQ

DANC 214 F Dance Repertory (2)
Six hours lab per week. This course provides the opportunity to rehearse and perform works choreographed by faculty and/or artist-in-residence. It is an opportunity to experience professional working conditions and requirements. All phases of the dance concert process from audition to rehearsal to backstage preparation will be covered. This course may be taken four times for credit. (CSU) (UC) (Degree Credit) CSU GE
Industrial Drafting (DRAF)

Website: techneng.fullcoll.edu

Associate in Science Degree
AutoCAD for Industrial Drafting Certificate
Industrial Drafting — Level I Certificate
Industrial Drafting — Level II Certificate

Industrial Drafting Courses

DRAF 070 F Blueprint Reading for the Metal Trades (2)
Two hours lecture per week. This course is designed to prepare Machine Tool, Welding and Metal Fabrication students to interpret drawings related to the metal trades. Studies of dimensioning and drawing symbols will be included. (Degree Credit)

ENGR 102 F Engineering Drawing (3)
Prerequisite: Three years of college preparatory mathematics or MATH 040 F and MATH 030 F with grades of “C” or better
Advisory: One year of high school mechanical drawing
Three hours lecture and three hours lab per week. Lettering, geometry constructions, orthographic and pictorial drawing, auxiliary views, sectioning, dimensioning, and fasteners will be covered. (CSU) (UC) (Degree Credit)

DRAF 140 F AutoCAD for Industry (2)
Advisory: DRAF 171 F or equivalent industry experience
Two hours lecture per week. This is a comprehensive introduction to AutoCAD designed for practicing drafters, engineers, and other manufacturing oriented persons. Topics include hardware requirements and operation, database management, terminology, 2-D AutoCAD drawing commands, plotting, symbol libraries, dimensioning, productivity, and basic 3-D commands. (CSU) (Degree Credit)

DRAF 141 F Advanced Computer Aided Design for Industry (2)
Advisory: DRAF 140 F or equivalent industry experience
One and one-half hour lecture and two and one-half hours lab per week. This is an advanced course in computer aided design (CAD) using AutoCAD. Students will learn advanced industrial drafting concepts while strengthening their CAD skills. Emphasis will be on drafting and design areas such as fasteners, gears, cams, surface development and intersections, and weldments. A “2-D” approach to AutoCAD will be used. (CSU) (Degree Credit)

DRAF 142 F Customizing AutoCAD (2)
Advisory: DRAF 140 F or equivalent industry experience
One and one-half hour lecture and two and one-half hours lab per week. This is an advanced level CAD course using AutoCAD software. It is designed for practicing drafters, engineers, and other manufacturing oriented persons who need to increase their AutoCAD productivity and customize the software for their application. Topics will include symbol attributes, system performance and database management, DOS, menu customization, script files, macros, and AutoLisp. (CSU) (Degree Credit)

DRAF 143 F 3-D Applications Using AutoCAD (2)
Advisory: DRAF 140 F or equivalent industry experience
One and one-half hour lecture and two and one-half hours lab per week. This course is designed for the experienced AutoCAD user who needs a working knowledge of AutoCAD’s 3-D environment. Topics will include an introduction to 3-D applications, the 3-D coordinate system, display control wire frame modeling, surface modeling, solids modeling, analysis of a solids model (mass properties), model rendering, hardcopy output, and 2-D/3-D transfer. The course will be taught with an emphasis on mechanical drafting applications. (CSU) (Degree Credit)

DRAF 145 F CAD/CAM (2)
Advisory: DRAF 140 F or equivalent industry experience
Two hours lecture and one hour lab per week. This course will introduce the process of manufacturing using a common database. Students will use popular Computer-Aided-Drafting (CAD) programs to document design ideas and transfer the database for manufacturing purposes using a Computer-Aided-Manufacturing (CAM) program. Students will produce a prototype of their original idea using a CNC machine tool driven by the CAM data. Topics will include the CAD/CAM industry environment, review of basic CAD concepts and design for manufacturing, introduction to CAM, CAD/CAM communication, CNC code generation and editing, set up and operation of machine tools, and inspection techniques. Some previous machining experience would be helpful. (CSU) (Degree Credit)

DRAF 171 F Fundamentals of Drafting (2)
One hour lecture and three hours lab per week. A beginning drafting course. Proper use of drafting instruments, lettering, geometric construction, pictorial drawings, orthographic projection, dimensions, single auxiliary views and sections are introduced. Emphasis is placed on line quality and lettering. Some problems drawn from the industrial field. (CSU) (Degree Credit)

DRAF 173 F Geometric Dimensioning and Tolerancing (2)
Advisory: DRAF 070 F or DRAF 171 F or equivalent industry experience
Two hours lecture per week. This is an introductory course in the application and interpretation of geometric dimensioning and tolerancing concepts per the latest revision of the American National Standards Institute (ANSI) Standard Y14.5M. This course is designed for persons working in the fields of drafting, machining, manufacturing and quality. (CSU) (Degree Credit)

DRAF 944 F Parametric Solid Modeling (3)
Two and one-half hours lecture and one and one-half hour lab per week. This course provides the student with instruction in the concept, practice, and development of feature based solid modeling using popular solid modeling software. Students will demonstrate the features of the software by creating parametric solid models. Course may be taken four times for credit. (Degree Credit)

DRAF 956 F Electronics Drafting Using AutoCAD (2)
Advisory: DRAF 140 F or equivalent industry experience
One hour and one-half hour of lecture and two and one-half hours of lab per week. This course is designed to provide experience in the use and application of microcomputer based computer-aided design (CAD) in the development of block, flow, single line, schematic, logic, and wiring diagrams. The design and development of a printed wiring board along with all necessary documentation is covered as well. Topics include software and hardware configuration, file management, productivity, menu structure, drawing creation, editing, symbol libraries, and hard copy output. (Degree Credit)

Astronomy Associate in Arts Degree

Earth Sciences Courses

ESC 100 F Physical Geology (3)
Letter Grade or Pass/No Pass option
Three hours lecture per week. This introductory course explores the physical composition of the earth and those processes that modify its surface. Topics include rocks and minerals, plate tectonics, earthquakes, volcanoes, landslides, flooding, groundwater, beach processes, and earth resources. Contemporary environmental changes such as global warming and resource acquisition problems will also be discussed. Concurrent enrollment in Physical Geology 100F Lab is recommended. Field trips may be taken. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

ESC 100LF Physical Geology Lab (1)
Letter Grade or Pass/No Pass option
Corequisite: ESC 100 F
Three hours lab per week. The course supplements ESC 100 F. Lab includes identification of minerals and rocks, interpretation of topographic maps and geological folios, study of landforms and rock structures and field studies. (CSU) (UC) (Degree Credit) CSU GE, IGETC

ESC 101 F Earth Science Survey (3)
Three hours lecture per week. Lab not required but recommended. This multidisciplinary course explores the fields of geology, oceanography, meteorology, and astronomy. Topics include earthquake and volcanic processes, global current patterns, beach formation, hurricane and tornado development, and star and planetary evolution. Special emphasis is placed on contemporary human-induced environmental changes such as global warming and resource acquisition. Class discussions will also focus on the interaction between science and society. Field trips may be taken. (CSU) (UC) (Degree Credit) CSU GE, IGETC

ESC 101 LF Earth Science Survey Lab (1)
Corequisite: ESC 101 F
Three hours lab per week. This lab enhances topics covered in the ESC 101 F Earth Sciences Survey lecture course. Included are exercises in identifying minerals and rocks, reading topographic maps, analyzing earthquakes, interpreting coastal processes, forecasting weather, and recognizing the stars and planets. Field trips may be taken. (CSU) (UC Credit Limitation; no credit if taken after a college level class in astronomy, meteorology, geology or oceanography.) (Degree Credit) CSU GE, IGETC

ESC 102 F Survey of Natural Disasters (3)
Three hours lecture per week. This course explores those natural disasters that affect human activities. Topics include earthquakes, floods, landslides, volcanoes, hurricanes, tornadoes and asteroid/meteor impacts. The consequences of pollution and population growth will also be explored. Hypothetical and case histories of natural disasters will also be studied. Class discussions will focus on aspects of regional planning, environmental laws and the interaction between science and society. Field trips are optional. (CSU) (UC) (Degree Credit) AA GE

ESC 103 F Historical Geology (4)
Letter Grade or Pass/No Pass option
Three hours lecture and three hours lab per week. The earth’s origin, geological development through time and history of its life are presented using the plate tectonic theory. The importance of environment to evolution and extinction of life forms are stressed. Study and classification of major rock and fossil groups, interpretation of geologic and topographic maps, and application of rock and fossil interpretations to geologic problems are included. Field trips are required. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

ESC 104 F Geology of National Parks and Monuments (3)
Letter Grade or Pass/No Pass option
Three hours lecture per week. A description of the broad geologic features of North America with special emphasis on U.S. National Parks and Monuments, will be presented. Photographic slides and rock samples will be used to illustrate the geologic significance of the parks and monuments. Utilizing the plate tectonic theory, a geologic history of North America will be deduced from the descriptive geology. Field trips may be taken to national parks or monuments. (CSU) (Degree Credit) AA GE, CSU GE

ESC 105 F Introduction to Meteorology (3)
Three hours lecture per week. A non-mathematical introduction to the science of the Earth’s atmosphere, covering both global climate and local weather. Physical explanations of phenomena familiar in southern California such as temperature changes, sea breezes, Santa Ana winds, cloud patterns, rain showers and steady rain, thunderstorms, fronts, and air pollution as well as those more common elsewhere such as tornadoes and hurricanes. Optical effects such as mirages, rainbows, coronas, glories, haloes, and auroras. Topics of growing international concern include the greenhouse effect, global warming, and the hole in the ozone layer. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

ESC 106 F Geology of the Orange County Area (2)
Two hours of lecture per week. This course examines the physical and historical geology of the Orange County area. The county will be analyzed for faults and folds, rock and fossil occurrences, geologic hazards, and mineral deposits. Pertinent state laws and ordinances relating to geologic concerns will be reviewed. Field trips will be required. (CSU) (Degree Credit)

ESC 116 F Astronomy (3)
Three hours lecture per week. An introduction to the tools and methods of astronomy and the study of the universe, with particular emphasis on the solar system. High school algebra and plane geometry or their equivalents are highly desirable. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC
ESC 116LF Astronomy Lab (2)
Corequisite: ESC 116 F
Four hours lab or field work per week. This course introduces the student to astronomical viewing and measurement as well as analysis of astronomical data. Students will do lab experiments to understand principles of astronomy and data analysis. They will use telescopes to make observations and gather data (or use computer images) and perform exercises relating to the moon, planets, stars, and galaxies. A field trip for dark sky observation may be arranged. (CSU) (UC) (Degree Credit) CSU GE, IGETC

ESC 120 F Geology of California (3)
Three hours of lecture per week or equivalent. This course examines the physical and historical geology of California. Each of California’s natural provinces will be analyzed for tectonic structures, rock and fossil occurrences, geologic hazards, and mineral deposits. Pertinent state laws and ordinances relating to geologic concerns will be reviewed. Field trips may be taken. (CSU) (Degree Credit) AA GE, CSU GE, IGETC

ESC 130 F Introduction to Oceanography (3)
Three hours of lecture per week. The lectures present a survey of the physical, chemical, geological, and biological principles and processes of oceanography. This course examines how these processes interact to form a variety of habitats within the marine ecosystem. An overview is provided of the physical properties of these habitats, along with the distribution and characteristics of organisms found within them. The interactions of humans with the marine environment is presented, as is an introduction to oceanographic tools and their uses. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

ESC 130HF Honors Introduction to Oceanography (3)
Three hours of lecture per week. This course presents a survey of the physical, chemical, geological, biological and ecological principles and processes of ocean and earth systems science. We examine how these processes interact to create a variety of interdependent ocean habitats from surface waters to the abyss in estuarine, coastal and oceanic environments. The role of technology and its application to studying the ocean is woven throughout. As an Honors course, students will develop an understanding of the interaction of humans with ocean processes and the critical scientific, environmental, social and political issues facing our oceans today. Students are expected to critically analyze scientific and journalistic information and engage in written and oral debate to reach a deeper understanding of these issues. (CSU/UC) (Degree Credit) AA GE, CSU GE, IGETC

ESC 130LF Introduction to Oceanography Field Experience (1)
Corequisite: ESC 130 F
Four hours field study per week for eight weeks or the equivalent. Field studies to correspond to material covered in ESC 130 F Introduction to Oceanography. Each field experience will be preceded by an orientation lecture/discussion period. May include field work from boats. (CSU) (UC) (Degree Credit) CSU GE, IGETC

ESC 133 F Navigation and Seamanship (3)
Two hours lecture and three hours lab per week. This course is designed to present the basics of navigation theory and the fundamentals of small boat handling and safety. Lab and field exercises are designed to give practical experience in navigation techniques and small boat seaman-ship. (CSU) (Degree Credit)

ESC 180 F Modern Techniques in Sampling (4)
Three hours lecture and three hours lab per week. An introduction to modern survey and sampling methods in terrestrial and ocean sciences, including geological, physical, chemical and biological techniques. Special emphasis will be placed on interdisciplinary and synoptic measurements, including data acquired from earth-orbiting satellites, weather stations, ocean buoys and seismic networks. Lab experience will include sampling design, field studies, data acquisition and data analysis, covering a range of environments and data types. Students will be responsible for preparing oral and written reports of their work. Basic computer skills are recommended. (CSU) (Degree Credit)

ESC 190 F Environmental Geology (3)
Letter Grade or Pass/No Pass option.
Three hours lecture per week. This course explores those geologic processes that affect human activities. These worldwide processes are occurring today. Topics include the geologic hazards, such as earthquakes, floods, landslides, and volcanoes; the occurrences and limitations of natural resources; and the consequences of pollution and waste disposal on the earth. Hypothetical and case histories of natural disasters will be studied. Class discussions will also focus on geologic aspects of regional planning, environmental laws, and the interaction between science and society. Field trips are optional. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

ESC 196 F Regional Field Studies in Geology (1)
One hour of lecture per week or equivalent. This course involves lecture and field study of geologic processes and features in selected areas throughout the Southwestern United States. During a given semester, multiple sections may be offered to different study areas or for different topics. Lectures will examine the geologic importance of the area to be visited and how to recognize key geologic features in the field. Study areas include, but are not limited to, Mojave Desert, the Sierra Nevada, and coastal areas. Areas outside of California (i.e., Arizona, New Mexico) may also be selected. Students are trained in various field study techniques and the use of scientific instruments. Field trips are required. (CSU) (Degree Credit)

ESC 198AF Geology of California Coastal Areas (2)
Two hours of lecture per week or equivalent. This course involves lecture and field study of geologic processes and features in selected areas along California’s coastline. Lectures will examine the geologic importance of coastal areas and how to recognize key geologic features in the field. Particular attention will be focused on identifying geologic hazards and understanding the natural resource potential. Students are trained in various field study techniques and the use of scientific instruments. Field trips are required. (CSU) (Degree Credit)

ESC 198BF Geology of the Anza-Borrego Desert State Park Area (1)
One hour of lecture per week or equivalent. This course involves lecture and field study of geologic processes and features in the Anza-Borrego Desert State Park area. Lectures will examine the geologic importance of the area and how to recognize key geologic features in the field. Particular attention will be focused on identifying geologic hazards and understanding the natural resource potential. Students are trained in various field study techniques and the use of scientific instruments. Field trips are required. (CSU) (Degree Credit)
ESC 198CF Geology of the Mojave Desert Area (1)
One hour of lecture per week or equivalent. This course involves lecture and field study of geologic processes and features in the Mojave Desert area. Lectures will examine the geologic importance of the area and how to recognize key geologic features in the field. Particular attention will be focused on identifying geologic hazards and understanding the natural resource potential. Students are trained in various field study techniques and the use of scientific instruments. Field trips are required. (CSU) (Degree Credit)

ESC 198DF Geology of the Owens Valley/Mammoth Lakes Area (1)
One hour of lecture per week or equivalent. This course involves lecture and field study of geologic processes and features in the Owens Valley — Mammoth Lakes area. Lectures will examine the geologic importance of the area and how to recognize key geologic features in the field. Particular attention will be focused on identifying geologic hazards and understanding the natural resource potential. Students are trained in various field study techniques and the use of scientific instruments. Field trips are required. (CSU) (Degree Credit)

ESC 198EF Geology of the Southern California Mountain Areas (1)
One hour of lecture per week or equivalent. This course involves lecture and field study of geologic processes and features in the Transverse Ranges area. Lectures will examine the geologic importance of the area and how to recognize key geologic features in the field. Particular attention will be focused on identifying geologic hazards and understanding the natural resource potential. Students are trained in various field study techniques and the use of scientific instruments. Field trips are required. (CSU) (Degree Credit)

ESC 198FF Geology of the Death Valley National Park Area (1)
One hour of lecture per week or equivalent. This course involves lecture and field study of geologic processes and features in the Death Valley National Park area. Lectures will examine the geologic importance of the area and how to recognize key geologic features in the field. Particular attention will be focused on understanding the natural resource potential of the region. Students are trained in various field study techniques and the use of scientific instruments. Field trips are required. (CSU) (Degree Credit)

ESC 198GF Geology of the Joshua Tree National Park Area (1)
One hour of lecture per week or equivalent. This course involves lecture and field study of geologic processes and features in the Joshua Tree National Park area. Lectures will examine the geologic importance of the area and how to recognize key geologic hazards and understanding the natural resource potential. Students are trained in various field study techniques and the use of scientific instruments. Field trips are required. (CSU) (Degree Credit)

ESC 198IF Geology of Colorado Plateau Areas (2)
Two hours of lecture per week. This course involves lecture and field study of geologic features and processes in selected areas of the Colorado Plateau. Lectures will explore the geologic significance of these areas and how to recognize key geologic features in the field. Particular attention will be focused on identifying geologic hazards and natural resources potential. Areas of study may include Grand Canyon, Zion, Bryce Canyon, Capital Reef, Arches and Canyonlands National Parks. Students will be trained in the use of various scientific tools for conducting geologic field studies. Field trips are required. (CSU) (Degree Credit)
Education

Associate in Science Degree

Engineering Courses

ENGR 101AF Surveying I (4)
Corequisite: TECH 081 F and DRAF 171 F or one year high school drafting with a grade of “B” or better
Three hours lecture and three hours lab per week. Principles and practices of measuring distances, directions and elevation. Study of errors, computation of areas, volumes and coordinates. Use and care of instruments and equipment. (CSU) (Degree Credit)

ENGR 101BF Surveying II (4)
Prerequisite: ENGR 101AF with a grade of “C” or better
Three hours lecture and three hours lab per week. Application of surveying techniques to engineering and construction problems. Public and private land, route and topographic surveys. Introduction to photogrametry, triangulation, level adjustments, and applications of astronomical observations. (CSU) (Degree Credit)

ENGR 102 F Engineering Drawing (3)
Prerequisite: Three years of college preparatory mathematics or MATH 040 F and MATH 030 F with grades of “C” or better
Advisory: One year of high school mechanical drawing
Three hours lecture and three hours lab per week. Lettering, geometry constructions, orthographic and pictorial drawing, auxiliary views, sectioning, dimensioning, and fasteners will be covered. (CSU) (UC) (Degree Credit)

ENGR 105 F Engineering CAD (4)
Three hours lecture and three hours lab per week. This is an introductory course which utilizes the CAD system for engineering applications. The course incorporates elementary principles associated with the various menu and command structures in computer-assisted drafting to develop solutions to 2-D and 3-D design problems. Topics included are file management, layering, orthographic projection, dimensioning, line types and axonometric projection. (CSU) (UC) (Degree Credit)

ENGR 110 F Introduction to Engineering (3)
Three hours lecture per week. This course is an introduction to engineering as a profession and its associated career responsibilities and opportunities. The course includes a selection of computational and mathematical methods and tools to be found useful in problem solving. Dimensional analysis, graphical techniques, and design theory in engineering analysis is also studied. The course includes the application of engineering and scientific problem methods to introductory mechanics and electricity. This course also meets requirements for credit in Engineering. (CSU) (Degree Credit)

ENGR 201 F Statics (3)
Prerequisite: MATH 150BF and PHYS 221 F with a grade of “C” or better
Three hours lecture per week. This course applies equilibrium conditions of force and moments to engineering problems. Algebraic and graphical methods are used. Topics include equilibrium of particles and rigid bodies, trusses, beams, levers, pulleys, centroids, friction, fluids and work principles. (CSU) (UC) (Degree Credit)

ENGR 203 F Electric Circuits (4)
Prerequisite: PHYS 222 F, MATH 150BF
Corequisite: ENGR 203LF
Four hours lecture per week. Introduction to the analysis of electric circuits. Analysis techniques include nodal analysis, loop analysis, superposition method, Thevenin’s Theorem, Norton’s Theorem and source transformation. RLC and op-amp networks and are analyzed under DC, AC-steady state and transient conditions using multiple methods including bode plots and Laplace transforms. (CSU) (UC) (Degree Credit)

ENGR 203LF Electric Circuits Lab (1)
Prerequisite: PHYS 222 F and MATH 150BF
Corequisite: ENGR 203 F
Three hours lab per week. Basic electrical measurement techniques and experimental investigation of simple circuits. Computer simulations of transient circuits. (CSU) (UC) (Degree Credit)

English (ENGL)

Associate in Arts Degree

English Courses

ENGL 039 F Basic Writing (4)
Pass/No Pass only
Advisory: Enrollment in READ 036 F
Four lecture hours per week. This course is designed for native speakers of English who require instruction in basic writing including such topics as: sentence and paragraph writing, literal comprehension, vocabulary development and study techniques.
ENGL 059 F Developmental Writing (4)
Pass/No Pass only
Prerequisite: ENGL 039 F with a grade of “Pass” or recommended score
Advisory: READ 056 F
Four hours lecture per week. This course is designed for native speakers of English who need to build basic English skills in writing, reading and thinking. It provides instruction in writing effective sentences, organization of ideas into paragraphs and essays, fundamentals of English, reading short essays, vocabulary building, basic critical thinking, and study skills.

ENGL 060 F Preparation for College Writing (4)
Pass/No Pass only
Prerequisite: ENGL 059 F with a grade of “Pass” or recommended score
Advisory: READ 096 F
Four hours lecture per week. This course is designed to meet the needs of students who are developing the writing and editing skills necessary for college writing. Students will review English fundamentals, read and analyze professional essays, and write essays with an emphasis on exposition and critical thinking.

ENGL 100 F College Writing (3)
Prerequisite: ENGL 060 F with a grade of “Pass” or ESL 186 F with a grade of “C” or better
Advisory: Enrollment in READ 142 F
Four hours lecture per week. This is a college level course in composition designed to develop the reading, critical thinking, and writing strategies necessary for academic success. The emphasis is on reading and writing expository essays. The course includes research and documentation skills. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

ENGL 100HF Honors College Writing (3)
Prerequisite: ENGL 060 F with a grade of “Pass” or ESL 186 F with a grade of “C” or better
Advisory: Enrollment in READ 142 F
Four hours lecture per week. This is a college level course in composition enhanced for honors students designed to develop critical thinking, and writing strategies, including research and documentation skills, necessary for academic success. The emphasis is on reading and writing expository essays. The course will be conducted as a seminar, and it will require a significant independent research project that uses correct documentation skills. (CSU) (UC Credit Limitation) (Degree Credit) AA GE, CSU GE, IGETC

ENGL 102 F Introduction to Literature (3)
Prerequisite: ENGL 100 F or ENGL 100HF, both with a grade of “C” or better
Three lecture hours per week. This course will introduce a variety of literary genres such as fiction, poetry, drama and film. Students will read, analyze, and write about literature. Different critical approaches to literature will also be included. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

ENGL 102HF Honors Introduction to Literature (3)
Prerequisite: ENGL 100 F or ENGL 100HF, both with a grade of “C” or better
Three hours lecture per week. A continuation of ENGL 100 F, this course uses literary works as content for reading and writing with emphasis on analytical and critical approaches to drama, poetry and prose fiction. As an Honors section, this class will employ enhanced teaching methods such as a seminar approach, more researched based writing assignments, and assignments calling for a higher level of critical thinking. The overall content and amount of work required in ENGL 102HF will be the same as non-honors ENGL 102F. (CSU) (UC Credit Limitation) (Degree Credit) AA GE, CSU GE, IGETC

ENGL 103 F Critical Reasoning and Writing (3)
Prerequisite: ENGL 100 F or ENGL 100HF, both with a grade of “C” or better
Three hours lecture per week. This course is designed to develop critical thinking, reading, and writing skills beyond the level achieved in ENGL 100 F. The course will focus on the development of logical reasoning and analytical and argumentative writing skills. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

ENGL 103HF Honors Critical Reasoning and Writing (3)
Prerequisite: ENGL 100 F or ENGL 100HF, both with a grade of “C” or better
Three hours lecture per week. This course is designed to develop critical thinking, reading, and writing skills, beyond the level achieved in ENGL 100 F. The course will focus on the development of logical reasoning and analytical and argumentative writing skills. As an Honors section, this class will offer an enhanced approach to critical thinking, calling on students to take a more active role in the learning process. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

ENGL 104 F Critical Thinking and Writing about Literature (3)
Prerequisite: ENGL 100 F or ENGL 100HF, both with a grade of “C” or better
Three hours lecture per week. This course will develop critical thinking, reading, and writing skills as they apply to the analysis of literature and literary criticism from diverse cultural sources and perspectives. There will be an emphasis on the techniques and principles of effective written argument as they apply to literature. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

ENGL 105 F Introduction to Creative Writing (3)
Letter Grade or Pass/No Pass option
Prerequisite: ENGL 100 F or ENGL 100HF, both with a grade of “C” or better
Advisory: ENGL 102 F
Three hours lecture per week. Introduction to Creative Writing includes writing original fiction, drama, and poetry; study and application of forms, techniques, and literary elements of creative writing; and workshop experience which provides an opportunity for analyzing and critiquing student writing. (CSU) (UC) (Degree Credit) AA GE, CSU GE

</tbody>
</table>
ENGL 214 F Contemporary Literature (3)
Prerequisite: ENGL 100 F or ENGL 100HF, both with a grade of “C” or better
Advisory: ENGL 102 F or ENGL 102HF
Three hours lecture per week. The course is a study of representative poetry, drama, and fiction, concentrating on — but not limited to — recognized world literary figures. The focus of the course is on each text’s social and historical context; consideration is also given to the artistic techniques employed in each work. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

ENGL 218 F California Writers (3)
Letter Grade or Pass/No Pass option
Prerequisite: ENGL 100 F with a grade of “C” or better
Advisory: ENGL 102 F, with a grade of “C” or better
Three hours lecture per week. English 218 F is a survey of the historical and cultural development of the literature of California. This course emphasizes the literary, social, economic, multicultural and environmental contexts of the California writers studied. This course fulfills the Multicultural Education Requirement for graduation. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC, MULT CULT REQ

ENGL 221 F American Literature to the Civil War (3)
Prerequisite: ENGL 100 F or ENGL 100HF, both with a grade of “C” or better
Advisory: ENGL 102 F or ENGL 102HF
Three hours lecture per week. A survey of representative works by American writers from the Colonial period through the Civil War, this course emphasizes historic backgrounds of American fiction, poetry, and prose. The course includes major writers such as Hawthorne, Poe, Melville, Emerson, Douglass, Thoreau, Dickinson, and Whitman. (CSU) (US) (Degree Credit) AA GE, CSU GE, IGETC

ENGL 222 F American Literature from Civil War to the Present (3)
Prerequisite: ENGL 100 F or ENGL 100HF, both with a grade of “C” or better
Advisory: ENGL 102 F or ENGL 102HF
Three hours lecture per week. A survey of representative works by American writers from the Colonial period through the Civil War, this course emphasizes historic backgrounds of American fiction, poetry, and prose. The course includes major writers such as Hawthorne, Poe, Melville, Emerson, Douglass, Thoreau, Dickinson, and Whitman. (CSU) (US) (Degree Credit) AA GE, CSU GE, IGETC

ENGL 224 F World Literature Through the Early Modern Period I (3)
Prerequisite: ENGL 100 F or ENGL 100HF, both with a grade of “C” or better
Advisory: ENGL 102 F or ENGL 102HF
Three hours lecture per week. This course is a study of the great masterpieces of world literature, and the cultures and authors that produced them. The course will trace common themes and changing ideas from classical antiquity through the Early Modern Period in the works of writers such as Homer, Confucius, Virgil, Li Po, Dante, and Chaucer and works such as the Tale of Genji, The Ramayana, and A Thousand and One Nights. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC, MULT CULT REQ

ENGL 225 F World Literature Since the Early Modern Period (3)
Prerequisite: ENGL 100 F or ENGL 100HF, both with a grade of “C” or better
Advisory: ENGL 102 F or ENGL 102HF
Three lecture hours per week. This course is a study of the masterpieces of world literature including a consideration of the authors as well as the cultural context of the works. The course will trace common themes and changing ideas since the Early Modern Period to the present in the works of writers such as Voltaire, Goethe, Akhmatova, Flaubert, Kafka, Ibsen, Dostoevsky, Mahfouz, Borges, and Soyinka. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC, MULT CULT REQ

ENGL 234 F Introduction to Shakespeare (3)
Prerequisite: ENGL 100 F or ENGL 100HF, both with a grade of “C” or better
Advisory: ENGL 102 F or ENGL 102HF
Three lecture hours per week. This course introduces students to William Shakespeare’s tragedies, comedies, histories and romances, as well as poetry. Students will develop an understanding of Shakespeare’s plays, their original context and their relevance for today. This honors seminar course emphasizes discussion and exchange based on students’ presentations and independent research. (CSU) (UC) (Degree credit) AA GE, CSU GE, IGETC

ENGL 234HF Honors Introduction to Shakespeare (3)
Prerequisite: ENGL 100 F or ENGL 100HF, both with a grade of “C” or better
Advisory: ENGL 102 F or ENGL 102HF
Three lecture hours per week. This honors course is designed to introduce students to ten to twelve of the tragedies, comedies and histories of William Shakespeare. Elizabethan context, genre, and critical analysis with regard to theme, poetic devices, plot, character development, and irony will be emphasized. This honors seminar course emphasizes discussion and exchange based on students’ presentations and independent research. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

ENGL 239 F Survey of Children’s Literature (3)
Prerequisite: ENGL 100 F or ENGL 100HF, both with a grade of “C” or better
Advisory: ENGL 102 F or ENGL 102HF
Three lecture hours per week. This course traces the historical and cultural development of children’s literature throughout the world, from its multiple origins in the oral tradition to its contemporary emphasis on written excellence and pictorial artistry. The course focuses on comparative and critical approaches to the multicultural elements in nursery rhymes, poetry, fables, folk tales, myth, sacred literature, picture books, juvenile literature, and works of non-fiction, with emphasis on contemporary literature and the emergence of ethnic writers in children’s literature. This course fulfills the multicultural education requirement for graduation. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC, MULT CULT REQ

—213—
ENGL 243 F Folklore and Mythology (3)
Letter Grade or Pass/No Pass option.
Prerequisite: ENGL 100 F or ENGL 100HF, both with a grade of “C” or better
Advisory: ENGL 102 F with a grade of “C” or better
Three hours lecture per week. This course is an introductory study of the folklore and mythology of representative cultures of the world through literature including such cultures as Greek, Norse, Babylonian, American Indian, European, Mexican, Hindu and Chinese. The course will include a comparative study of mythic elements and patterns with their modern parallels in both Eastern and Western civilizations. This course fulfills the Multicultural Education Requirement for graduation. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC, MULT CULT REQ

ENGL 243HF Honors Folklore and Mythology (3)
Prerequisite: ENGL 100 F or ENGL 100HF, both with a grade of “C” or better
Advisory: ENGL 102 F or ENGL 102HF, both with a grade of “C” or better
Three hours lecture per week. This course is an introductory study of the folklore and mythology of representative cultures of the world through literature including such cultures as Greek, Norse, Babylonian, American Indian, European, Mexican, Hindu, and Chinese. The course will include a comparative study of mythic elements and patterns with their modern parallels in both Eastern and Western civilizations. This honors section is conducted as a seminar and relies on independent student research done outside of class. This course fulfills the Multicultural Education Requirement for graduation. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC, MULT CULT REQ

ENGL 245 F The Bible as Literature (3)
Letter Grade or Pass/No Pass option.
Prerequisite: ENGL 100 F or ENGL 100HF, both with a grade of “C” or better
Advisory: ENGL 102 F with a grade of “C” or better
Three hours lecture per week. Students will study the English Bible as literature, its literary forms and techniques. Readings and discussions emphasize analysis of such forms as short story, poetry, letters, dramatic and narrative prose, wisdom and didactic literature. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

ENGL 246 F The Novel (3)
Prerequisite: ENGL 100 F or ENGL 100HF, both with a grade of “C” or better
Advisory: ENGL 102 F or ENGL 102HF
Three hours lecture per week. This course is a study of the novel as an art form, concentrating on representative novels illustrating the richness of the form. Emphasis will be placed on developing the students’ analytical skills. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

ENGL 247 F Voices of America: Studies in Multicultural Literature (3)
Prerequisite: ENGL 100 F or ENGL 100HF, both with a grade of “C” or better
Three hours lecture per week. Three hours lecture per week. The course is a study of multicultural literature, by both immigrant, and native American writers, which explores varied responses — ethnic, gender, and regional — in the cultural context of a diverse country. Students will critically examine a wide variety of literature that includes such genres as fiction, plays, essays, journals, autobiography, letters, tales, chants and other less traditional literary forms. The course is designed to enrich students’ lives by exploring the multicultural literary resources of America. This course fulfills the Multicultural Education Requirement for graduation. (CSU) (UC) (Degree Credit) AA GE, CSU GE, MULT CULT REQ

ENGL 248 F Science Fiction (3)
Prerequisite: ENGL 100 F or ENGL 100HF, both with a grade of “C” or better
Advisory: ENGL 102 F or ENGL 102HF
This course is a survey of science fiction and speculative fiction. This course emphasizes the literary, social, economic, cultural and environmental contexts of representative works and traces the development of the genre from early scientific romances and speculative works through current trends. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

ENGL 249 F Survey of Chicano/a Literature (3)
Letter Grade or Pass/No Pass option.
Prerequisite: ENGL 100 F or ENGL 100HF, both with a grade of “C” or better
Advisory: ENGL 102 F with a grade of “C” or better
Three hours lecture per week. This course offers students a survey of Chicano/a literature from its beginnings in the nineteenth century to the present day. It emphasizes the literary, historical, social, political and cultural context of Chicano/a fiction, poetry, theater and prose. Students can expect to read major literary classics as well as the works of previously less recognized writers. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

ENGL 250 F Survey of African American Literature (3)
Letter Grade or Pass/No Pass option.
Prerequisite: ENGL 100 F or ENGL 100HF, both with a grade of “C” or better
Advisory: ENGL 102 F with a grade of “C” or better
Three hours lecture per week. This course is a survey of literature by African American writers. It emphasizes the literary, social, economic and environmental context of the works studied and traces the development of African American writing from spirituals and other oral literatures through writing by contemporary African Americans writers in a variety of genres. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

ENGL 251 F Survey of Native American Literature (3)
Letter Grade or Pass/No Pass option.
Prerequisite: ENGL 100 F or ENGL 100HF, both with a grade of “C” or better
Advisory: ENGL 102 F with a grade of “C” or better
Three hours lecture per week. A survey of Native American literary tradition from its beginnings as an oral tradition to contemporary works by representative authors, this course emphasizes the historical, cultural and literary context of work written by Native American authors in a variety of genres including poetry, fiction, autobiography, told-to autobiographies, oral tradition, folklore and mythology, speeches, and mixed genres. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

ENGL 252 F Women's Literature (3)
Prerequisite: ENGL 100 F or ENGL 100HF, both with a grade of “C” or better
Advisory: ENGL 102 F or ENGL 102HF
Three hours lecture per week. This course is a survey of literatures by women and examines traditional and non-traditional forms of women's writing from a variety of critical perspectives. The course focuses on analysis of literary texts both in terms of their aesthetic qualities and cultural contexts. (CSU) (UC) (Degree credit) AA GE, CSU GE, IGETC
ENGL 253 F Survey of Asian American Literature (3)
Letter Grade or Pass/No Pass option.
This course surveys the development of Asian-American literature from
the mid-19th century to the contemporary period in the United States.
Drawing upon such literary genres as fiction, poetry, drama, memoir, and
film, this course examines the literary, cultural, historical, and political
contexts of Asian-American writers. (CSU/UC) (Degree Credit) AA GE,
CSU GE, IGETC

ENGL 254 F Intermediate Creative Writing: Poetry (3)
Prerequisite: ENGL 100 F or ENGL 100HF, both with a grade of “C”
or better
Advisory: ENGL 102 F or ENGL 102HF, both with a grade of “C” or
better
This course continues the development of creative writing skills with an
emphasis on poetry. Students will write original poetry; study forms,
techniques, and literary elements of poetry including classical poetic
forms and the free-verse tradition; study non-fiction essays related to the
writing of poetry and poetics; and utilize creative writing workshops
which provide an opportunity for analyzing and critiquing student writing.
(CSU) (UC)

ENGL 255 F Intermediate Creative Writing: Fiction (3)
Letter Grade or Pass/No Pass option.
Prerequisite: ENGL 105 F with a grade of “C” or better
Advisory: ENGL 102 F or ENGL 102HF, both with a grade of “C” or
better
This course includes writing original fiction; study and application of
forms, techniques and literary elements of fiction including classic short
story and novel forms; study of modern, less traditional forms such as
creative non-fiction; study of essays related to the writing of fiction; and
workshop experience which provides an opportunity for analyzing and
critiquing student writing. (CSU/UC) (Degree Credit) AA GE

ENGL 280 F Language Arts Tutoring Practicum (3)
Prerequisite: ENGL 100 F or ENGL 100HF, both with a grade of “C”
or better, and a recommendation from an English instructor
Corequisite: ENGL 103 F or ENGL 103HF or ENGL 104 F or ENGL
201 F
Two hours lecture and three hours lab per week. This course provides
training for students to acquire specific skills and techniques for tutoring
in writing, and provides strong recommendation for future employment in
Fullerton College’s Writing Center. Supervised, “hands-on” tutoring lab
hours are part of instruction. (CSU) (Degree Credit)

ENGL 299 F Humanities Independent Study (1)
One hour lecture or scheduled conference per week. For able students
who wish to increase their knowledge of literature or language through
individual study or research. Elective credit in the humanities area.
Course may be taken three times for credit. (CSU) (UC review required)
(Degree Credit)

ESL Courses

ESL 025 F Basic English Grammar (3)
Pass/No Pass only
Three hours lecture per week. This course is designed to increase
students' knowledge and usage of verb tenses, sentence structure, and
other basic grammatical topics. It will develop grammatical accuracy in
listening, speaking, reading and writing.

ESL 029 F Idiomatic Expressions for Students of ESL (2)
Pass/No Pass only
Two lecture hours per week. This course provides instruction in common
American English idioms, phrasal verbs, slang and taboo terminology,
proverbs, and other fixed expressions. Additional topics include context
clues, dictionary use, relaxed speech, and cultural aspects of idiomatic
expressions. The course is designed for high beginning to intermediate
students of English as a second language (ESL).

ESL 035 F Intermediate English Grammar (3)
Pass/No Pass only
Three hours lecture per week. This course is designed to increase
students' knowledge and usage of complex verb tenses and sentence
structure. It will also develop grammatical competency in reading and
writing.

ESL 036 F Basic Listening and Speaking (4)
Pass/No Pass only
Four hours lecture per week. This course is designed to improve begin-
ing students' ability to speak and understand English in simple every-
day and academic situations. It will provide practice in basic oral
communication functions as well as beginning academic listening and
speaking skills.

ESL 038 F Fundamentals of American English
Pronunciation (2)
Pass/No Pass only
Two hours lecture per week. This course is designed to develop basic
pronunciation, to establish better oral control of language, and to build
confidence in simple oral expression.

ESL 039 F Vocabulary Expansion Techniques for Students
of ESL (3)
Pass/No Pass only
Two lecture hours per week. This course will provide instruction in
vocabulary expansion principles and techniques for high beginning to
intermediate students of English as a second language (ESL). Topics
include context clues, word parts, mnemonic devices, word relation-
ships, and dictionary use. Also emphasized are grammatical, colloca-
tional, and pragmatic restrictions on vocabulary.
ESL 045 F Advanced English Grammar (3)
Pass/No Pass only
Three hours lecture per week. This course is designed to increase students’ knowledge and usage of advanced English grammar, to improve grammatical accuracy in writing and to develop strong editing skills.

ESL 046 F Intermediate Conversation (2)
Pass/No Pass only
Two hours lecture per week. This course is designed to improve students’ ability to comprehend and communicate in English on a variety of everyday topics. Students will develop and practice techniques for greater composure and confidence in oral expression.

ESL 047 F Academic Preparation for American English Students (2, 2)
Pass/No Pass only
Advisory: ESL skills evaluation
Two hours lecture per week. The course is designed to orient second language students to college life. The course includes information about academic vocabulary, academic textbooks, and college instructor expectations; instruction in exam taking and study skills; and explanation of cultural differences in relation to the college setting. Course may be taken twice for credit.

ESL 048 F Intermediate American English Pronunciation (2)
Pass/No Pass only
Two hours lecture per week. This course is designed to develop intermediate pronunciation skills, to structure more style in oral language, and to build confidence in basic oral expression.

ESL 049 F Academic Vocabulary for Advanced Students of ESL (3)
Pass/No Pass only
Three lecture hours per week. This course provides instruction in academic vocabulary for advanced students of English as a second language (ESL). Emphasis is on the acquisition and consolidation of an expanded university-level vocabulary. Also presented is academic vocabulary learning principles and techniques including context clues, reference works, word parts, derivational forms, as well as grammatical and collocational restrictions on lexical items.

ESL 050 F Occupational English (2)
Pass/No Pass only
Corequisite: Occupational programs as designated in the Schedule of Classes
Two hours lecture and one hour lab per week. This is an intensive course in English as a second language for students in vocational programs. The course emphasizes the development of basic listening, speaking, reading, and writing skills for successful completion of required classes in vocational certificate programs. The class will focus on aspects of employability and workplace culture.

ESL 056 F Advanced Conversation: Academic Topics (2)
Pass/No Pass only
Two hours lecture per week. This course is designed to improve advanced students' comprehension and oral communication in English on a broad range of academic subjects.

ESL 058 F Advanced American English Pronunciation: Foreign Accent Reduction (2)
Pass/No Pass only
Two hours lecture per week. This course is designed to refine pronunciation, to reduce foreign accent, and to build confidence in complex oral expression.

ESL 080 F Fundamental Listening, Speaking, Reading and Writing for Students of American English (5)
Pass/No Pass only
Prerequisite: ESL skills evaluation
Five lecture hours and one hour arranged lab per week. Designed for high-beginning students of English, this course provides practice in all four language skills — listening, speaking, reading, writing — with emphasis on listening comprehension, oral communication, basic reading skills, and basic grammar and writing skills.

ESL 081 F Low Intermediate English for Non-Native Speakers of English (5)
Pass/No Pass only
Prerequisite: ESL skills evaluation or ESL 080 F with a grade of “Pass”
Five lecture hours and one hour arranged lab per week. This is a low intermediate integrated skills course designed to improve the reading, grammar, writing, listening comprehension, and speaking skills of non-native speakers with a basic command of English.

ESL 082 F Intermediate English for Non-Native Speakers of English (5)
Pass/No Pass only
Prerequisite: ESL skills evaluation or ESL 081 F with a grade of “Pass”
Five hours lecture and one hour arranged lab per week. Designed for intermediate students of English, this course provides practice in all four language skills — listening, speaking, reading, and writing — with special emphasis on reading and writing to develop critical thinking, reading comprehension, and writing skills at the paragraph level.

ESL 083 F High Intermediate Reading and Writing for Students of American English (5)
Letter Grade or Pass/No Pass option
Prerequisite: ESL skills evaluation or ESL 082 F with a grade of “Pass”
Five lecture hours and one hour arranged lab per week. This course is for high-intermediate students of English. It provides instruction in critical reading and expository paragraph development. Application of grammar concepts, sentence variety, and vocabulary development are emphasized. The course offers continuing practice in listening and speaking skills.

ESL 184 F Low Advanced English for Non-Native Speakers of English (5)
Letter Grade or Pass/No Pass option
Prerequisite: ESL skills evaluation or ESL 083 F with a grade of “C” or better
Five lecture hours plus one hour arranged lab per week. This course is an advanced course designed to improve the reading, writing and grammar skills of non-native speakers with an advanced command of English. (CSU) (UC Credit Limitation) (Degree Credit)

Environmental Science Courses

ENVS 105 F Environmental Biology (3)
Environmental Biology introduces the student to the basic principles of organismal biology. These principles then are used to assess today’s complex environmental issues. The ultimate concerns in environmental controversies inevitably involve biological processes on the ecological, organismal and cellular level. This course explores how human-caused environmental changes disrupt the normal conduct of the planet's biological systems. Core biological principles include: the philosophy of science, photosynthesis, aerobic respiration, genetic resources, protein synthesis, taxonomy of life, evolutionary principles, ecological structures, wildlife management, and human health. The core topics will be treated in a framework of the following environmental issues: loss of species, human population growth, air pollution, water pollution, energy use, resource consumption, and hazardous chemicals. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

ENVS 105LF Environmental Biology Lab (1)
Corequisite: ENVS 105 F
One hour of lecture and three hours of lab or field study per week for eight weeks or the equivalent. Using experimental and investigative approaches, this course is designed to teach students biological principles and scientific methods of inquiry. Topics will include: development and critique of experimental designs using the scientific method of inquiry; an experimental study of the effects of acid rain on plants; basic concepts in photosynthesis, nutrient cycling, cell division, primary productivity, energy flow, competition, and reproductive strategies in ecosystems; field discovery and analysis of ecological structures in estuarine and arid ecosystems; plant anatomy and functional morphology; plant and animal physiological adaptations; behavioral adaptations; field identification of native and introduced plants and animals; transect distribution analyses; and impact of water distribution systems on wilderness ecosystems. Mathematical tools are accessed in support of data analyses, and “what if” scenarios. The student will submit experimental and investigative findings in a conventional scientific written format. (CSU) (UC) (Degree Credit) CSU GE, IGETC

ENVS 126 F Natural History of California (3)
Three hours lecture per week. This course is designed to acquaint students with the diversity of California’s natural geographic, biologic, and geologic regions. After introductory units on basic ecology and basic geology, each of the natural regions of the state is discussed with an emphasis on the common, conspicuous, or unique plants, animals, and geological features. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

ENVS 126FF Natural History of California Field Lecture (2)
Corequisite: ENVS 126 F
Two hours of lecture per week. This course is designed to accompany ENVS 126 F Natural History of California, and consists of two weekend field trips involving overnight camping. Regions are selected that illustrate California’s remarkable diversity. One field trip, emphasizing mountain habitats, is taken to a selected site in the Sierra Nevada or one of the local mountain ranges. The other trip, emphasizing a desert environment is taken to a site in the local desert such as Anza Borrego Desert State Park, Joshua Tree National Monument, or the Eastern Mojave Natural Area. (CSU) (UC) (Degree Credit)

ENVS 194 F Internship in Environmental Sciences/Newport Bay (2)
Two hours lecture or equivalent per week. The course includes field trips, teaching demonstrations and group activities. This course introduces the basic ecology of estuaries, natural history of marine and terrestrial animals and plants, cultural history of local native Americans, and the environmental importance of coastal wetlands. Students will follow experienced naturalists to learn about habitat restoration, scientific sampling, and/or interpretative techniques in the field. When mastery of selected topics has been achieved, students will design teaching materials and serve as naturalists/tour guides at Newport Bay. (CSU) (Degree Credit)
ENVS 196 F Regional Field Studies/Life Sciences (1-2)
One or two hours of lecture per week or equivalent. Classes are conducted in the short course format, and require participation in fieldwork in a selected biological community in southwestern United States, Mexico, or Costa Rica. Field studies are designed to develop a strong foundation in ecological facts and principles. Emphasis is placed on identifying and studying ecological issues through careful observation, data collection and analysis. Students are trained in various field study techniques and the use of science instruments. Topics include autecological and synecological studies of biological communities, monitoring abiotic factors, field identification of flora and fauna, and human impact on the study area. (CSU) (Degree Credit)

ENVS 197 F Internship in Environmental Sciences/Environmental Concerns (2)
Two hours lecture, teaching demonstrations and small group discussions per week or equivalent. Students will be assisted in selecting and developing teaching modules in defined areas of environmental science or related topics. Students will gain expertise in their selected topics with guidance from the instructor. Students will then serve as teaching interns in K-6 classrooms by presenting teaching modules to specific grade level(s) of choice in area schools within the North Orange County Community College District. (CSU) (Degree Credit)

ENVS 198AF Desert Field Natural History (1)
One hour of lecture per week or equivalent. This course involves lecture and field study of desert ecological principles and concepts in selected areas within California's desert ecosystems. Lectures will provide an overview of field natural history concepts, including identification of plants and animals, adaptations to xeric environments and ecological interrelationships. Students are trained in various field study techniques and in the use of specific scientific equipment. Field trips are required. (CSU) (Degree Credit)

ENVS 198CF Geology and Marine Biology of the Channel Islands (2)
This course involves lecture and field study of geological and marine biological processes and features in the Channel Islands region of Southern California. Lectures will examine the physical and biological factors that influence the geology and the marine life. Students are trained in various field study techniques and the use of scientific instruments. Field trips are required. (CSU) (Degree Credit)

ENVS 198DF Baja California Field Studies (2)
Two hours of lecture per week or equivalent. This course involves lecture and on-site field study of the ecology and biogeography of selected biological communities in Baja California, Mexico. Lectures will cover an introduction to the natural history and unique adaptations of native plants and animals occurring in coastal inter-tidal, desert and riparian habitats. Impacts of humans on these communities will be observed. Lectures will prepare students for planning and executing field projects using appropriate scientific methods and instrumentation. A camping field trip to Baja California is required. Students will arrange personal transportation. (CSU) (Degree Credit)

ENVS 198EF Marine Biology of Baja California (2)
Two hours of lecture per week or equivalent. This course involves lecture and field study of the marine biology of Baja California. Lectures will examine the particular physical and biological features that structure this unique marine environment. The factors shaping the Gulf of California versus Pacific Coasts will be discussed, including the roles of tidal and wind-driven upwelling in dampening El Niño effects in the Gulf. Students are trained in various field study techniques, data analysis, and the use of scientific instruments. Field trips are required. (CSU) (Degree Credit)

ENVS 198FF Marine Vertebrate Ecology of the Channel Islands (1)
One hour lecture per week or equivalent. This course involves lecture and field study of the ecology of marine mammals, seabirds, and fish in the Channel Islands area. Lectures will examine the physical and biological features that structure the marine environment in the region, along with the adaptations and ecological relationships of marine vertebrates living there. Students are trained in various field study techniques, data analysis, and the use of scientific instruments. Field trips are required. (CSU) (Degree Credit)

—218—
ET 130 F Health Effects of Hazardous Materials (3)
Prerequisite: BIOL 101 F
Three hours lecture per week. This course covers the acute and chronic health effects produced by exposure to chemical, physical, and biological agents. Emphasis will be placed on those hazardous materials commonly associated with industrial operations, waste disposal, and remedia- tion sites. Topics will include routes of entry, toxic effects, risk evaluation, permissible exposure limits, medical surveillance, control methods for reducing exposure and understanding a Material Safety Data Sheet (MSDS). (CSU) (Degree Credit)

ET 150 F Hazardous Waste Management Applications (4)
Prerequisite: ET 100 F and CHEM 101 F
Three hours lecture and three hours lab per week. This course provides an overview of hazardous waste regulation with emphasis in generator compliance, site investigation and remediation, permitting, enforcement, and liability. The lecture portion of the course explains the hazardous waste regulatory framework, introduces the student to a wide variety and types of environmental resources available, and develops research skills in the hazardous waste area. The lab portion of the course complements the lectures by providing “hands on” application of the regulations at the technician level. Proper methods of preparing a hazardous waste manifest, labeling of storage containers, sampling and analysis, preparing a Phase I Environmental Audit, and selecting environmental consultants are among the many skills developed in the lab. (CSU) (Degree Credit)

ET 200 F Hazardous Materials Management Applications (4)
Prerequisite: ET 100 F, ET 130 F, and CHEM 101 F
Three hours lecture and three hours lab per week. A study of the requirements and applications of federal, state, and local laws and regulations relating to hazardous materials. The course will emphasize compliance with Department of Transportation, OSHA Hazard Communication, SARA Title II Right-To-Know, Underground Tank, Asbestos, Proposition 65, and Air Toxic Regulations. The lecture portion of the course will provide the student with an understanding of the legal framework of hazardous materials laws; the lab portion will focus on applications of these laws, such as: proper labeling, interpreting Material Safety Data Sheets (MSDS’s), permitting and monitoring functions, as well as planning and reporting functions. (CSU) (Degree Credit)

ET 230 F Safety and Emergency Response (4)
Prerequisite: ET 130 F
Three hours lecture and three hours lab per week. This course is designed to provide students with “hands on” instruction in safety and emergency response to chemical and physical exposures in industrial and field settings. Topics include: hazard analysis, contingency planning, housekeeping and safety practices including proper use and selection of PPE, site control and evaluation, handling drums and containers, field sampling and monitoring, proper use of instruments, incident response planning, emergency response including field exercises in the use of PAPR and SCBA, and an understanding of the ICS system. This course satisfies the requirements for generalized employee training under OSHA (1910.120). (CSU) (Degree Credit)
ETHS 130 F African-American History I (3)
Three hours lecture per week. This course is a survey of the African-American experience in the United States from its African roots to 1865, emphasizing the roles of African Americans in the political, social, and economic development of American society. Topics covered include: the trans-Atlantic slave trade; the process of enslavement in the Americas; slave life on the plantation; slave resistance, the socio-economic conditions of free blacks in the United States; the politico-economic dispute regarding slavery and its consequences in the outbreak of the American Civil War; and the emancipation of the enslaved black population. (CSU) (UC) (Degree Credit) CSU GE, IGETC

ETHS 131 F African-American History II (3)
Three hours lecture per week. This course is a survey of the African-American experience in the United States from the Era of Reconstruction to the present, emphasizing the roles of African Americans in the political, social, and economic development of American society. Topics covered include: the various phases of the Reconstruction period; black life in the "New South"; the debates over educational and socio-economic progress; the migrations to the North and West; the struggles of the black working class; the impact of the two world wars on black life; the Civil Rights Movement; military during the 1960s; and the black experience in contemporary America. (CSU) (UC) CSU GE, IGETC

ETHS 140 F Introduction to Chicano/Chicana Studies (3)
Three hours lecture per week. This is an introductory level course designed to acquaint students with the most significant social, political, economic and historic aspects of the Chicano/Chicana experience in the United States. The course is interdisciplinary in nature and will critically analyze the societal context in which Chicanos/Chicanas have sought to maintain their culture. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

ETHS 141 F Chicano/Chicana History (3)
Three hours lecture per week. This course provides the student with the social and cultural roots of the Chicana/Chicano. The class traces the origins of the Chicana/Chicano from their indigenous and Spanish beginnings to the present. An inter-disciplinary approach is used to develop the understanding of this human experience. (CSU) (UC) (Degree Credit) CSU GE, IGETC

ETHS 142 F The Chicano-a/Latino-a in Contemporary Society (3)
Three hours lecture per week. This course will introduce the student to the contemporary characteristics and significant contributions of the Chicano-a/Latino-a community utilizing the models and paradigms developed within Chicano studies, viewed as an interdisciplinary area of study. The definitions of, and interrelationships among key concepts and/or terms such as a people, nationality, culture, ethnicity, class, race, gender, acculturation, assimilation, domination and liberation will be discussed. The intent is to impart specific information about Chicanos-as, introduce theory, define key concepts, discuss significant contemporary issues, and explore future implications. There will be comparisons and contrasts with other Hispanic/Latino-a groups in the United States. (CSU) (UC) (Degree Credit) CSU GE, IGETC

ETHS 160 F History of the Native Americans (3)
Three hours lecture per week. A historical examination of the native peoples of the Americas from their early beginnings to the present. A socio-cultural approach is utilized to develop a better understanding of the first Americans. (CSU) (UC) (Degree Credit) CSU GE

ETHS 170 F Introduction to Asian American Studies (3)
Three hours lecture per week. This course serves as an introduction to Asian American Studies. The student will be studying the experiences of various Asian and Pacific Islander groups, utilizing the lens of race, class, gender and sexuality. This will be achieved using various disciplinary methods. Throughout the semester students will engage in community studies, critical theory on race, sociological methods, media studies and the arts to explore the rich and diverse Asian and Pacific Islander communities. The course will start with current immigration history and end with contemporary issues and topics within API communities, i.e. garment industry, sexuality, anti-Asian bias/violence, unionization, and gender stereotypes. The course will connect historical issues with contemporary phenomena. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

ETHS 171 F Asian-American History (3)
Three hours lecture per week. This course is a survey of the Asian and Pacific Islander American experience in the United States from the mid-19th century to the present day. Elements of Asian and Pacific Islander American culture (i.e., art, literature, music and photography) will be presented in a historical perspective. (CSU) (UC) (Degree Credit) CSU GE, IGETC

ETHS 199 F Ethnic Studies Independent Study I (1)
One hour lecture or scheduled conference per week. This course is offered for students who wish to increase their knowledge of the Social Sciences through individual study and small group conferences. Students successfully completing this course will be awarded elective credit in the Social Sciences area. Course may be taken three times for credit. (CSU) (UC Credit Limitation depending upon course content; UC review required.) (Degree Credit)

ETHS 299 F Ethnic Studies Independent Study II (1)
One hour lecture or scheduled conference per week. This course is offered for students who wish to increase their knowledge of the Social Sciences through individual study and small group conferences. Students successfully completing this course will be awarded elective credit in the Social Sciences area. Course may be taken three times for credit. (CSU) (UC review required.) (Degree Credit)

MUS 117 F American Popular Music/Jazz Music Survey (3)
Prerequisite: Reading skills evaluation recommended
Three hours lecture per week, plus one hour listening in the Music Library per week. Beginning with the musical influences of India, Africa, and Europe, the course examines the social conditions that made the music happen “that way” and grow into today’s music. Includes Ragtime and Storyville, Blues, Spirituals and the Great Awakening, Jazz Age, Depression and Radio, Swing the King, Big Bands, Boogie Woogie, Rhythm ‘n Blues, Country and Western, Rock ‘n Roll, Progressive Rock, Beatles and Rolling Stones, White Ballad Tradition and Electronic Music.

Fashion Courses

FASH 010 F Clothing Construction Studio (1)
Pass/No Pass only
Corequisite: One semester of clothing construction
Three hours arranged lab per week. A student may pursue individual clothing construction projects under staff supervision during open lab hours. Sign up first week of school for flexible hours. Course may be taken four times for credit.

FASH 020 F Modeling (2)
Two hours lecture for a total of thirty-two hours in each session. This course includes professional skills needed for men and women to enter a career in runway and print modeling. It will cover fashion show procedures and skills, professional makeup, posture enhancement, personal development, modeling for a photographer, developing a modeling portfolio, and working with agencies and contracts. Course may be taken four times for credit.

FASH 045 F Swim and Active Wear (1)
Eight hours lecture and 24 hours lab. Students will learn the techniques needed to create commercial quality swimwear and active wear using both industrial and home equipment. Course may be taken twice for credit. (Degree Credit)

FASH 050 F Careers in Fashion (1)
Letter Grade or Pass/No Pass option
Sixteen hours lecture per semester. This course is an introduction to a variety of career opportunities in designing or creating clothing. Personal qualities and skills needed for various career choices as well as the responsibilities, tools, and working environment will be covered for retailing, apparel manufacturing, couture, wardrobe consulting, theatrical, and entrepreneurial fields. (Degree Credit)

FASH 060 F Professional Image (2)
Letter Grade or Pass/No Pass option
Two hours lecture per week. This course will teach students the skills needed to get a job, develop a strong work ethic, become a valuable employee, and how to dress in a professional manner. The subject areas covered are: time management, goal setting, interview skills, wardrobe planning, personal appearance for men and women, developing skills to work well with others, problem solving, professional etiquette, and self promotion. (Degree Credit)

FASH 080AF Designing and Sewing Leather (2)
Prerequisite: FASH 101 F
One hour lecture and three hours lab per week. The student will learn the skills and techniques needed to design and sew fashionable apparel and accessories of leather and suede.

FASH 080BF Designing and Sewing Leather (2)
Prerequisite: FASH 080AF
One hour lecture and three hours lab per week. The student will learn the advanced specialized skills and techniques needed to design and sew fashionable apparel and accessories of leather and suede.

FASH 085 F Bridal and Special Occasion Wear (2)
Prerequisite: FASH 201 F
One hour lecture and three hours lab per week. This course covers specialized construction techniques used in the manipulation of fancy garment fabrics for bridal and special occasion wear. The resources for these fabrics, notions and embellishments used in the assembly of special occasion wear will also be included. Course may be taken twice for credit. (Degree Credit)

FASH 088 F CAD for Apparel (2)
Advisory: FASH 108AF, FASH 186 F and ACG 104 F
One hour lecture and three hours lab per week. Students will learn the basics of 2-D Microcomputer paint and design programs used in the garment industry for designing apparel and textiles, making patterns and markers, fashion illustrating. Course may be taken twice for credit. (Degree Credit)

FASH 090 F Creative Serging: The Overlock Machine (2)
Letter Grade or Pass/No Pass option
One hour lecture and three hours lab per week. The course is designed for the student to learn the use and care of the modern serger machine. The focus is on the student learning to create an entire wardrobe quickly with the serger. The student will construct samples and garments of children's clothing, men's wear, swimwear and active wear, lingerie, and women's clothing for day and evening. Course may be taken four times for credit. (Degree Credit)

FASH 093 F Pattern Alteration and Fitting (2)
Letter Grade or Pass/No Pass option
One hour lecture and three hours lab per week. A class for dressmaking and design majors who need to make garment pieces fit each other and the body that wears them by altering a commercial pattern to body measurements and making a basic pattern to be used as a basic block for adjusting styles and designing clothing. Students enrolled in the second semester of FASH 093 F will have added opportunity to fit a variety of figures. Course may be taken twice for credit. (Degree Credit)
FASH 101 F Clothing I (2)  
Letter Grade or Pass/No Pass option  
One hour lecture and three hours lab per week. This course is designed for both beginner and experienced seamstress. This course will include custom and speed techniques for developing skills in clothing construction, various techniques for obtaining perfect fit of a garment plus professional methods for constructing clothes. Course may be taken twice for credit. (CSU) (Degree Credit)

FASH 107 F Apparel Analysis (3)  
Three hours lecture per week. This course will study the psychological and sociological significance of clothing and apply the principles and elements of design in the selection of clothing to enhance the individual. (CSU) (Degree Credit)

FASH 108AF Flat Pattern Methods and Design I (2)  
**Prerequisite:** FASH 101 F or two years high school clothing construction  
**Corequisite:** FASH 050 F  
One hour lecture and three hours lab per week. Students will learn to design and make garments by apparel industry techniques by manipulating paper patterns, thereby translating a designer’s sketch or concept into a saleable garment. (CSU) (Degree Credit)

FASH 108BF Flat Pattern Methods and Design II (2)  
**Prerequisite:** FASH 108AF  
One hour lecture and three hours lab per week. Students will make patterns for apparel using basic techniques learned in FASH 108AF and adding more advanced concepts for creating wearable clothing. (CSU) (Degree Credit)

FASH 108CF Flat Pattern Methods and Design (2)  
**Prerequisite:** FASH 108BF  
One hour lecture and three hours lab per week. Students will develop patterns for fashion forward apparel using techniques learned in FASH 108BF, adding more advanced concepts. (CSU) (Degree Credit)

FASH 145 F Field Studies in Fashion (1,)  
A total of 18 hours. This course will acquaint students with the world of fashion through field trips to manufacturers, designers, the California Mart, different types of retail stores, museums, fashion publications and fashion shows. Course may be taken twice for credit. (CSU) (Degree Credit)

FASH 150 F Introduction to the Fashion Industry (3)  
Three hours lecture per week. The course explores four levels of the fashion industry including the development of fashion, fashion designers, apparel producers, retailers, and fiber and fabric producers. (CSU) (Degree Credit)

FASH 152 F Ready-To-Wear Evaluation (3)  
Three hours lecture per week. The student will learn to analyze and evaluate the construction, appearance, pricing, sizing and fit of ready-to-wear and of price and quality indicators for selected accessories. Terminology associated with construction, production, and apparel styles will be included. (CSU) (Degree Credit)

FASH 183 F Fashion Marketing (3)  
**Prerequisite:** FASH 150 F  
Three hours lecture per week. The course will cover the principles behind consumer buying habits. Emphasis is placed on understanding consumer behavior of various socioeconomic and ethnic groups and how to market to them. (CSU) (Degree Credit)

FASH 186 F Workroom Sketching (2)  
Letter Grade or Pass/No Pass option  
One hour lecture and three hours studio/lab per week. This is a course in drawing techniques for garment workroom sketches. Emphasis is placed on developing skills in sketching garments with complete seam and embellishment details in the desired scale for use in the workroom of a manufacturer or custom shop. Drawing ability not necessary. Course may be taken twice for credit. (CSU) (Degree Credit)

FASH 188 F Apparel Production (2)  
**Prerequisite:** FASH 108AF and FASH 050 F  
Corequisite: FASH 297 F  
One hour lecture and three hours lab per week. This course provides an opportunity for students to become familiar with a major segments of the fashion industry. It will prepare students for a job as a design room assistant and includes layout and cutting techniques, power machines, professional pressing techniques, quality control, and production procedures, grading, sorting, and labeling. (CSU) (Degree Credit)

FASH 190 F Pattern Grading (1)  
**Corequisite:** FASH 108AF  
Nine hours of lecture and 27 hours of lab. Students learn to “size up” and “size down” a fashion pattern for all size ranges in missy, junior, children, and men’s wear using industry techniques. (CSU) (Degree Credit)

FASH 196 F International Fashion Studies (3)  
Letter Grade or Pass/No Pass option  
Fifteen hours of lecture before and during extended travel experiences to the major fashion centers of the world, plus ten hours of field trips. This course will introduce the international fashion industries of the world to the student of American fashion. Class members will tour selected fashion houses, textile mills, leading department stores, typical shops, and museums. Sixteen hours of lecture will precede departure to prepare the student for the travel experience. (CSU) (Degree Credit)

FASH 199 F Fashion Independent Study (1-2)  
**Prerequisite:** Completion of at least one semester in the area of study  
Three hours independent lab work per week per unit credit plus scheduled conferences with instructor. This course is designed for advanced students who wish to increase their knowledge of fashion through individual study. Projects must have instructor approval prior to enrollment. At the completion of the project, a written report is required. Students may enroll up to a maximum of three semesters. (CSU) (UC review required.) (Degree Credit)

FASH 201 F Clothing II (2)  
**Prerequisite:** FASH 101 F with a grade of “C” or better or two years high school clothing construction  
One hour lecture and three hours lab per week. This course develops advanced skills in clothing construction including custom couture techniques, the use of special fabrics such as plaids, lace, sheers, leather and pile fabrics, and methods of individualizing clothing with structural and applied designs such as piping, quilting, appliqué and beading. Course may be taken twice for credit. (CSU) (Degree Credit)

FASH 202 F Visual Merchandising (2)  
One hour lecture and three hours lab per week. This course covers the role of display merchandising principles and design principles that are used to create retail displays. The care and handling of equipment will be discussed and demonstrated. Students will practice display techniques with windows and showcases and learn to develop a visual merchandising presentation. The students will be exposed to lectures and guest speakers on the topic of career opportunities in this field. (CSU) (Degree Credit)
FASH 205AF Tailoring (2)
Prerequisite: FASH 201 F
One hour lecture and three hours lab per week. This course presents contemporary and traditional custom tailoring techniques applicable to women’s and men’s tailored garments such as suits and coats. (CSU) (Degree Credit)

FASH 205BF Tailoring (2)
Prerequisite: FASH 205AF
One hour lecture and three hours lab. This course presents contemporary and traditional custom tailoring techniques applicable to women’s and men’s tailored garments such as suits and coats. Students registered for FASH 205BF will construct a garment utilizing techniques they did not use in FASH 205AF. (CSU) (Degree Credit)

FASH 206 F Textiles (3)
Three hours lecture per week. This course surveys and studies fabrics used in clothing and household goods, the production of fibers through fabric manufacturing and finishing. Use, care, and suitability for various end uses will be covered. (CSU) (UC) (Degree Credit)

FASH 209AF Draping (2)
Prerequisite: FASH 108AF and FASH 186 F
One hour lecture and three hours lab per week. The student will learn to manipulate fabrics on a dress form and create designs without the use of a drafted pattern. A variety of fabrics will be used in an exploration of the many possibilities of draping techniques. (CSU) (Degree Credit)

FASH 209BF Draping (2)
Prerequisite: FASH 209AF
One hour lecture and three hours lab per week. Students registered for FASH 209BF will be given more advanced assignments and work independently under the instructor’s supervision. (CSU) (Degree Credit)

FASH 220 F Retail Buying (3)
Three hours lecture/student project participation per week. This course offers a study of the principles of merchandise buying for resale in independent stores, major department stores, chain stores and centralized buying. The lectures will cover retail-buying principles for fashion merchandise, staples and soft merchandise lines. The lecture topics covered are: consumer motivation, merchandise planning and selection, sourcing, legal and trade regulation pricing, vendor relations, pricing analysis, classification systems, merchandise management and control. There will be field trips and guest lectures from major retailers to discuss career opportunities. (CSU) (Degree Credit)

FASH 224 F History of Costume (3)
Three hours lecture per week. This course surveys the evolution of clothing styles through history from Egyptian to the contemporary period. Emphasis will be placed on the role of recurring styles to contemporary fashion, the effect of social and political changes on clothing, and on clothing as a reflection of culture. (CSU) (Degree Credit) AA GE

FASH 243 F Theatrical Costume Construction (2)
Corequisite: FASH 209AF and FASH 242 F
One hour lecture and three hours lab per week. Recommended for Fashion Design and Theatre Arts majors. This course covers the techniques and procedures for constructing costumes for theatrical productions including garments, masks and accessories. (Not currently being offered — if interested, contact Division Office or see THEA 145 F in Theatre Arts.) (CSU) (UC) (Degree Credit)

FASH 244 F Ethnic Costume (2)
Prerequisite: FASH 975 F
Letter Grade or Pass/No Pass option
Total of 32 hours lecture. This course surveys clothing worn as the national dress and daily wear of the people in each of the developed and underdeveloped areas of the world. Emphasis is placed on its influence on contemporary fashion. This course fulfills the Multicultural Education Requirement for graduation. (CSU) (Degree Credit) (Transfers to Woodbury) AA GE, MULT CULT REQ

FASH 250 F Fashion Promotion (3)
Prerequisite: FASH 150 F
Three hours lecture per week. The course provides an overview of sales promotion activities of fashion retailers and manufacturers. Areas covered are advertising, publicity, coordinating fashions, and producing fashion shows. (CSU) (Degree Credit)

FASH 284AF Fashion Design (2)
Corequisite: FASH 108AF, FASH 206 F and FASH 186 F
One hour lecture and three hours lab per week. The students will learn the application of design principles to contemporary fashion for ready-to-wear and couture and how to make it salable. Class work will require garment sketching. Current fashion trends and resources for design ideas will be explored. (CSU) (Degree Credit)

FASH 284BF Fashion Design (2)
Prerequisite: FASH 284AF
One hour lecture and three hours lab per week. This course covers design problems encountered in the various size ranges, style categories, and price ranges in designing seasonal lines and promotional groups in the manufacturing of apparel. Current fashion trends and resources for design ideas will be explored. (CSU) (Degree Credit)

FASH 297 F Fashion Design Portfolio (1)
Prerequisite: FASH 108BF and FASH 209AF
Corequisite: FASH 188 F
Sixteen hours lecture. This course will prepare a student, who has completed the requirements for a Fashion Design Certificate or an AA degree, to begin seeking employment. Included are establishing a portfolio of designs, writing a resume, interview skills, finding job openings, follows up, salaries, and freelancing. (CSU) (Degree Credit)

FASH 299 F Fashion Industry Internship (1-4)
Prerequisite: For Design Majors: FASH 108BF, FASH 209AF and FASH 188 F
Prerequisite: For Merchandise Majors: FASH 150 F, FASH 250 F, and FASH 220 F
One hour lecture, five hours supervised experience per week for each unit of credit with a garment manufacturer or retailer or one of the related businesses in the fashion industry. Course may be taken three times for credit. (CSU) (UC review required.) (Degree Credit)

FASH 975 F Patternmaking: Collections (2)
Prerequisite: FASH 108AF and FASH 209AF
One hour lecture and three hours lab per week. Students will apply design principles to contemporary fashion by designing and producing a group of coordinated garments that will be included in a runway fashion show. (Degree Credit)
FASH 976 F Advanced Patternmaking: Collections (2)
Prerequisite: FASH 975 F
One hour lecture and three hours lab per week. Students continue to advance the skills learned in FASH 975 F using a variety of techniques not previously mastered. (Degree Credit)

Foods and Nutrition (FOOD)
Natural Sciences Division
Office: Bldg 1000

Associate in Arts Degree

Foods Courses

FOOD 060 F Foods for Fitness (2)
One hour lecture and three hours lab per week. This course presents nutrition information to enhance knowledge about food choices. The principles of nutrition and food preparation are presented in a non-technical format. Students are able to apply new knowledge to their personal fitness, diet, and health goals. Labs include the planning and preparation of meals which are emphasized in the current Dietary Guidelines for Americans. (Degree Credit)

FOOD 070 F Nutrition Concepts and Food Preparation for Vegetarians (2)
One hour lecture with three hours lab per week. This course is designed to develop a basic understanding of the vegetarian diet with practical applications in food preparation. Emphasis will be on the practical preparation of health-promoting food for the lacto, lacto-ovo vegetarian and vegan.

FOOD 101AF Introduction to Foods (formerly Foods) (3)
One hour lecture and six hours lab per week. This course is designed to provide the student with knowledge of the fundamental scientific principles involved in food preparation, as well as practical experience in applying these principles to a wide variety of foods representative of those consumed in the U.S. Emphasis is placed on developing skills in utilizing appropriate basic scientific methodology to study the components of food and food products; and on acquiring a knowledge of, as well as applying, generally-accepted quality standards to such foods and food products. (CSU)

FOOD 101BF Introduction to Food Management (formerly Foods) (3)
Prerequisite: FOOD 101AF
One hour lecture and six hours lab per week. This course adds to and reinforces the principles taught in FOOD 101AF. It introduces experiences in managing time, money and human energy in the production of meals which meet the nutrient needs of various population groups. (CSU) (Degree Credit)

FOOD 130 F Cultural Aspects of Foods (2)
One hour lecture and three hours lab per week. This course examines food as an expression of cultural unity and diversity. Students will investigate the many culture influences on food choices and patterns. Preparation techniques and products from a variety of traditions as practiced in the United States will be explored. (CSU) (Degree Credit) MULT CULT REQ

Nutrition Courses

NUTR 210 F Human Nutrition (3)
Three hours lecture per week. This course is an introduction to the science of nutrition. Major principles, functions and sources of nutrients, health and disease, as well as, chemistry and physiology as they relate to nutrition are discussed. General application as it applies to today's students is stressed. Students will analyze their food intake. (Degree Credit) AA GE, CSU GE

CDES 215 F Nutrition and Food Experiences for Children (2)
A total of 32 hours lecture. This course focuses on the use of food as an instructional medium in early childhood settings. Emphasis is placed on the planning and organization of food-related activities for young children, including safety and sanitation issues; the application of basic nutrition principles to menu planning/evaluation; the resolution of common food-related problems such as obesity and caregiver manipulation; and techniques and resources for providing culturally-appropriate foods and nutrition education. (CSU) (Degree Credit)

French (FREN)
Humanities Division
Office: Bldg 500, Room 522-O
714.992.7036
Dean: Dan Willoughby
Website: www.humanities.fullcoll.edu

French Courses

FREN 101 F Elementary French I (5)
Letter Grade or Pass/No Pass option
Five hours lecture per week plus one arranged lab hour per week. The course focuses on the four major skills of language learning — listening comprehension, speaking, reading and writing — and the grammar and vocabulary necessary to acquire these skills. Included is an introduction to customs, culture, and civilization of French-speaking countries. This course is conducted primarily in French. (CSU) (UC) (Degree Credit) AA GE, CSU GE
FREN 102 F Elementary French II (5)
Letter Grade or Pass/No Pass option
Prerequisite: FREN 101 F with a grade of “C” or better or one year of high school French with a grade of “C” or better
Five hours lecture per week plus one arranged lab hour per week.
The course continues to focus on the four major skills of language learning — listening comprehension, speaking, reading and writing — and the grammar and vocabulary necessary to acquire these skills. Included is an introduction to customs, culture, and civilization of French-speaking countries. This course is conducted primarily in French. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

FREN 200 F Conversational French (2)
Letter Grade or Pass/No Pass option
Prerequisite: FREN 102 F with a grade of “C” or better or two years high school French with a grade of “C” or better
This course will focus on improving listening comprehension and speaking skills in simulated real-life situations within the framework of ACTFL Proficiency Guidelines. Reading, writing and cultural components will be included. This course may be taken concurrently with French 203 F and 204 F (preferably after FREN 203 F). Instruction will be in French. Course may be taken four times for credit. (CSU) (Degree Credit)

FREN 203 F Intermediate French III (4)
Letter Grade or Pass/No Pass option
Prerequisite: FREN 102 F with a grade of “C” or better or two years high school French with a grade of “C” or better
Four hours of lecture per week. The course emphasizes the acquisition of an expanded vocabulary and grammatical information to develop speaking, reading and writing skills. New cultural, historic and literary material is introduced through lectures, reading and writing assignments. The course is conducted in French. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

FREN 204 F Intermediate French IV (4)
Letter Grade or Pass/No Pass option
Prerequisite: FREN 203 F with a grade of “C” or better or three years high school French with a grade of “C” or better
Four hours of lecture per week. The course emphasizes the mastery and application of all grammatical rules. It requires more advanced reading of modern and classical French, as well as a continued emphasis on oral and written expression. It is designed to help the student acquire a working knowledge of the language and to form the basis for advanced work in literature and science. Continued readings and discussions of French life and culture are an essential factor. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

FREN 299 F French Independent Study (1)
Prerequisite: Four semesters of the language
One hour lecture or scheduled conference per week. For able students who wish to increase their knowledge of literature, culture, language, or composition through individual study or research. Elective credit in the humanities area. Course may be taken three times for credit. (CSU) (UC review required.) (Degree Credit)

Geography (GEOG)

Associate in Arts Degree

Geography Courses

GEOG 100 F Global Geography (3)
Three hours lecture per week. This course is an overview of the world's geographical regions. It is an introduction to basic geographical concepts, as well as human and physical spatial patterns. The nature of global geography includes population dynamics and the social, political and economic organization of space. Fulfills the Multicultural Education Requirement for graduation. (CSU) (UC Credit Limitation) (Degree Credit) AA GE, CSU GE, IGETC, MULT CULT REQ

GEOG 100HF Honors Global Geography (3)
Three hours lecture per week. This course is an overview of the world's geographical regions enhanced for honors students. It is an introduction to basic geographical concepts, as well as human and physical spatial patterns. The nature of global geography includes population dynamics and the social, political and economic organization of space. This course fulfills the Multicultural Education Requirement for graduation. (CSU) (UC Credit Limitation) (Degree Credit) AA GE, CSU GE, IGETC, MULT CULT REQ

GEOG 102 F Physical Geography (3)
Three hours lecture per week. This course is an overview of the interrelationships, geographic patterns and basic physical processes that create the physical landscapes of the world. The study of geosystems involves the connections between the atmosphere, lithosphere, hydrosphere and biosphere. Topics covered include weather, climate, soils, natural vegetation and the forces and processes that modify the surface of the earth. Special emphasis is given to contemporary ecological problems. This course meets a physical science requirement at most four-year institutions. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

GEOG 102LF Physical Geography Lab (1)
Corequisite: GEOG 102 F within the past three semesters
Three hours lab/field study per week designed to supplement GEOG 102 F Physical Geography. This course examines the processes of weather and climate, the construction/destruction of the earth's land surface focusing on internal and external forces, and the evolution of associated flora and fauna. The course will emphasize the understanding of the spatial distributions of the earth's physical characteristics and the relative importance of natural and human induced environmental changes such as global warming, human land-use and resources acquisition, and the transformation and creation of human environments. (CSU) (UC) (Degree Credit) CSU GE, IGETC
GEOG 120 F Global Environmental Problems (3)
Three hours lecture per week. This course is a geographical evaluation of society-nature relationships and the analysis of global environmental problems. The focus is on the spatial dimensions of global environmental crises as they relate to social, political and economic issues. Topics examine the historical evolution of environmental issues including population growth, agriculture and pesticides, climate change, forestry and fishing, energy, endangered species and appropriate development. (CSU) (Degree Credit) AA GE, CSU GE, IGETC

GEOG 131 F Introduction to Desktop GIS (2)
Letter Grade or Pass/No Pass option
This course provides an introduction to concepts and the use of a Geographic Information System (GIS), and its role in analysis and decision-making. Various applications of GIS technology used in business, economics and government will also be presented. Specific topics and skills taught will include an understanding of GIS terminology, verification of data sources and accuracy, methods of data acquisition, conversion and input, requirements for metadata, working with spatial databases (map features and attribute tables), and spatial analysis (map overlays, buffers, networks). (CSU) (Degree Credit)

GEOG 160 F Cultural Geography (3)
Three hours lecture and discussion per week. This course provides a study of variations in the world’s cultural landscapes, focusing on spatial patterns of population growth and distribution, settlement and livelihoods in the context of social, religious and political belief systems. This course fulfills the Multicultural Education Requirement for graduation. (CSU) (Degree Credit) AA GE, CSU GE, IGETC, MULT CULT REQ

GEOG 170 F Urban Geography: Introduction to the City (3)
Three hours lecture and discussion per week. This course provides an analysis of variations in the urbanization process of great American and world cities. The focus will be on the city as a built environment. Topics will include historic evolution, patterns of distribution, internal spatial structures, urban systems and urban social issues. (CSU) (UC) (Degree Credit)

GEOG 199 F Geography Independent Study (1)
One hour lecture or scheduled conference per week. This course is offered for students who wish to increase their knowledge of the Social Sciences through individual study and small group conferences. Students successfully completing this course will be awarded elective credit in the Social Sciences area. Course may be taken four times for credit. (CSU) (UC Credit Limitation depending upon course content) (UC) review required. (Degree Credit)

GEOG 241 F Basic Crime Mapping (3)
Letter Grade or Pass/No Pass option
Prerequisite: GEOG 131 F
This course provides an introduction to the basic concepts and use of a Geographic Information System (GIS) for crime mapping and analysis. Students will engage in hands-on training in GIS as it relates to Law Enforcement and Criminal Justice activities. Students will also be introduced to extensions of ArcView software such as Network Analyst and Tracking Analyst. These add-on modules extend the analytical capabilities of ArcView and allow input of routing and temporal map features to existing databases. Students will generate production quality maps, documents and reports for use in spatial analysis and decision-making. (CSU) (Degree Credit)

GEOG 242 F Advanced Crime Mapping (3)
Letter Grade or Pass/No Pass option
Prerequisite: GEOG 241 F
This advanced course provides further study in crime mapping and analysis applications of Geographic Information Systems (GIS). Students will engage in expanded hands-on training in GIS as it relates to Law Enforcement and Criminal Justice activities and be introduced to 3-D Analyst and Spatial Analyst add-on modules of ArcView software. These modules extend the analytical capabilities of ArcView and allow input of map features and conversion of feature themes from raster to vector. Spatial analysis will include neighborhood and zone analysis. 3-D Analyst will include conversion of data to a three dimensional format for analysis of real world relationships that would be abstract in two dimensions. Students will produce professional quality documents and reports for use in spatial analysis and decision-making. (CSU) (Degree Credit)

GEOG 281 AF Introduction to Geographic Information Systems (3)
Letter Grade or Pass/No Pass option
Three hours lecture per week. This course provides an introduction to concepts and use of Geographic Information Systems (GIS), and its role in geographic analysis and decision-making. This course will include an introduction to basic cartographic principles, maps, scales, coordinate systems and amp projections. Varied applications and examples of GIS technology used in environmental science, business, government and social sciences will also be presented. Specific topics and skills taught will include an understanding of GIS terminology, raster and vector data structures, verification of data sources and accuracy, methods of data acquisition, conversion and input, requirements for metadata, working with spatial databases (map features and attribute tables), and spatial analysis (map overlays, buffers, networks). (CSU) (Degree Credit)

GEOG 281 BF Advanced GIS Applications (3)
Letter Grade or Pass/No Pass option
Prerequisite: GEOG 281 AF
This course provides an introduction to advanced applications of Geographic Information Systems (GIS) using ArcView. The course will provide hands on training in new plug in modules and extensions of ArcView. The course will also briefly review Avenue programming for customizing ArcView. The add-on modules extend the analytical capabilities of ArcView and allow input of map features and conversion of feature themes from raster to vector. Spatial analysis will include slope and aspect maps, neighborhood and zone analysis. Network Analyst will include problem-solving techniques for geographic networks (point to point routing) or closest points. 3-D Analyst will include conversion of data to a three dimensional format for analysis of real world relationships that would be abstract in two dimensions. Use of ArcView software to product professional quality documents for use in spatial analysis and decision-making. (CSU) (Degree Credit)

GEOG 295 F GIS Internship (1-5)
Letter Grade or Pass/No Pass option
Three to fifteen hours lab per week. A directed field study program whereby students will apply classroom instruction to real-world Geographic Information Systems (GIS) projects in the community. The student will be under the supervision of a faculty advisor from the college while participating in a short-term internship program in a business or government agency using GIS. Students should arrange for an advisor prior to enrolling in an internship. Students in internship programs will meet periodically with their advisor, complete interim reports and present a final report. (CSU) (Degree Credit)
German (GERM)

Humanities Division
Office: Bldg 500, Room 522-O
714.992.7036
Dean: Dan Willoughby
Website: www.humanities.fullcoll.edu

German Courses

GERM 101 F Elementary German I (5)
Letter Grade or Pass/No Pass option
Five hours lecture per week plus one arranged lab hour per week. The course focuses on the four major skills of language learning — listening comprehension, speaking, reading and writing — and the grammar and vocabulary necessary to acquire these skills. Included is an introduction to customs, culture, and civilization of German-speaking countries. This course is conducted primarily in German. (CSU) (UC) (Degree Credit) AA GE, CSU GE

GERM 102 F Elementary German II (5)
Letter Grade or Pass/No Pass option
Prerequisite: GERM 101 F with a grade of “C” or better or one year of high school German with a grade of “C” or better
Five hours lecture per week plus one arranged lab hour per week. The course continues to focus on the four major skills of language learning — listening comprehension, speaking, reading and writing — and the grammar and vocabulary necessary to acquire these skills. Included is an introduction to customs, culture, and civilization of German-speaking countries. This course is conducted primarily in German. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

GERM 200 F Conversational German (2)
Letter Grade or Pass/No Pass option
Prerequisite: GERM 102 F with a grade of “C” or better or two years high school German with a grade of “C” or better
This course will focus on improving listening comprehension and speaking skills in simulated real-life situations within the framework of the ACTFL Proficiency Guide lines. Reading, writing and cultural components will be included. This course may be taken concurrently with GERM 203 F and GERM 204 F. Instruction will be in German. Course may be taken four times for credit. (CSU) (Degree Credit)

GERM 203 F Intermediate German III (4)
Letter Grade or Pass/No Pass option
Prerequisite: GERM 102 F with a grade of “C” or better or two years high school German with a grade of “C” or better
Four hours of lecture per week. The course emphasizes the acquisition of advanced skills in listening, speaking, reading, and writing. Students will be introduced to further elements of the culture, history, and geography of Germany through lectures, slides, films, dialogues and reading assignments. Instruction will be in German. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

GERM 204 F Intermediate German IV (4)
Letter Grade or Pass/No Pass option
Prerequisite: GERM 203 F with a grade of “C” or better or three years high school German with a grade of “C” or better
Four hours of lecture per week. The course emphasizes the acquisition of more advanced listening, speaking, reading, and writing. Students will be introduced to the further elements of culture, history and geography of Germany through lectures, slides, films, dialogues and reading assignments. Instruction will be in German. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

GERM 299 F German Independent Study (1)
Prerequisite: Four semesters of the language
One hour lecture or scheduled conference per week. For able students who wish to increase their knowledge of literature, culture, or language through individual study or research. Elective credit in the humanities area. Course may be taken three times for credit. (CSU) (UC review required.) (Degree Credit)

Health Education (HED)

Natural Sciences Division
Office: Bldg 1000
714.992.7043
Dean: Bruce Cordell
Website: http://natsci.fullcoll.edu/

Health Education Courses

HED 140 F Health Science (3)
Three hours lecture per week. Integrated lectures, discussions and videotapes are designed to study modern medical concepts. Lecture and discussion topics include personal responsibility, mental health, nutrition, weight control, exercise, sexuality, relationships, immunity, alcohol, tobacco, drugs, current health problems and health care services. Basic concepts will be presented from a holistic perspective to inform students of health issues that affect their individual lives and society. (CSU) (UC) (Degree Credit) AA GE, CSU GE

HED 197 F Internship in Health Education (2)
Letter Grade or Pass/No Pass option
One hour lecture per week, and a total of forty hours at the internship site required. Professionals from the biological sciences and allied health fields will be invited for informative discussions and to answer questions in their field. Students will be assisted in selecting an area of career interest within the biological, allied health and related science fields, and will be directed to locations that will be willing to provide internships. Students will gain experience in their selected areas of interest by working in a “hands on” environment. (CSU) (Degree Credit)

HIST 160AF Asia: Basic Heritage (3)
Three hours lecture per week. This course is a study of the historical developments of Asia's three great civilizations: India, China and Japan. Concentration will be on the traditional institutions shaped by the religious and philosophical concepts of these civilizations. Certain concepts in Hinduism, Buddhism, Confucianism, Taoism, and Shintoism will be studied as they affected major Asian historical developments. (CSU) (UC) (Degree Credit) CSU GE, IGETC

HIST 160BF Modern China and Japan (3)
Letter Grade or Pass/No Pass option
Three hours lecture per week. This course is a study of the revolutionary changes that have taken place in basic Asian traditions and institutions. Focus will be on the efforts of the Chinese and the Japanese to replace traditional institutions with something “modern” in their response to the coming of the West to Asia and to the challenge of Western ideas. Examination will be made of the impact of such concepts as Capitalism, Democracy, Imperialism, Nationalism, and Communism on the traditional culture of these countries. (CSU) (UC) (Degree Credit) CSU GE, IGETC

HIST 162AF History of the Americas I (3)
Three hours lecture per week. This course is a survey of the history of the Western Hemisphere from its discovery to the wars of independence. Emphasis is placed upon the European inheritance, the interaction of this inheritance with the native and African cultures and the planting of colonial societies in the new world. Spanish America, Brazil, Canada, and the United States are compared as to their socio-cultural, economic, and political development during the colonial and independence periods. This course satisfies the State requirements in American History and Institutions. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

HIST 162BF History of the Americas II (3)
Three hours lecture per week. This course is a comparative study of the political, social and economic development of the independent nations of the Western Hemisphere from the wars of independence to the present. Emphasis is placed upon present international relations of these nations. This course satisfies the State requirements in American history and institutions. HIST 162AF not a prerequisite. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

HIST 165 F Introduction to the Middle East (3)
Three hours lecture per week. This course is a historical development of the Middle East from the prophet Mohammed to the present, emphasizing the Islamic religion, art, philosophy, and key political and social conflicts of modern times. (CSU) (UC) (Degree Credit) CSU GE, IGETC

HIST 170 F History of the United States I (3)
Three hours lecture per week. This course is a survey of American History from the colonial foundations to 1877. (CSU) (UC) Credit Limitation. Credit will be granted for either HIST 127 F or HIST 170 F or HIST 170HF and HIST 171 F or HIST 171HF as of F08) AA GE, CSU GE, IGETC

HIST 170HF Honors History of the United States I (3)
Three hours lecture per week. This course is a survey of American History from the colonial foundations to 1877. As an honors section, this class will employ enhanced teaching methods such as a seminar approach and more research-based writing assignments calling for a higher level of critical thinking. (CSU) (UC Credit Limitation. Credit will be granted for either HIST 127 F or HIST 170 F or HIST 170HF and HIST 171 F or HIST 171HF as of F08) (Degree Credit) AA GE, CSU GE, IGETC

HIST 171 F History of the United States II (3)
Three hours lecture per week. This course is a survey of American History from 1877 to the present time. (CSU) (UC Credit Limitation. Credit will be granted for either HIST 127 F or HIST 170 F or HIST 170HF and HIST 171 F or HIST 171HF as of F08) (Degree Credit) AA GE, CSU GE, IGETC

HIST 171HF Honors History of the United States II (3)
Three hours lecture per week. This course is a survey of American History from 1877 to the present time. As an honors section, this class will employ enhanced teaching methods such as a seminar approach and more research-based writing assignments calling for a higher level of critical thinking. (CSU) (UC Credit Limitation. Credit will be granted for either HIST 127 F or HIST 170 F or HIST 170HF and HIST 171 F or HIST 171HF as of F08) (Degree Credit) AA GE, CSU GE, IGETC

HIST 175 F History of California and the Pacific Coast (3)
Three hours lecture per week. Economic, social, intellectual, and political history of California from the earliest times to the present. Special emphasis is placed upon the geography of the state and the 20th century development of Southern California. (CSU) (UC) (Degree Credit) CSU GE, IGETC

Horticulture Courses

HORT 001 F Principles of Horticulture I (4)
Three hours lecture and three hours lab per week. Identification and use of ornamental plants; culture of landscape plantings; survey of soil properties and fertilizers; morphology of leaves, flowers and fruit, and landscape design principles for basic horticultural skills in the gardening and nursery trade. (Degree Credit)

HORT 002 F Principles of Horticulture II (4)
Three hours lecture and three hours lab per week. Plant propagation techniques; weed control in landscapes, plant disease control; responsible and safe use of pesticides and their alternatives and turf grass management techniques for basic horticulture skills in the gardening and nursery trade. (Degree Credit)

HORT 005 F Basic Landscape Plants I (3)
Three hours lecture per week. The identification and study of trees, shrubs, vines; tropical and herbaceous plant material of landscape value. Special emphasis is placed on fall-blooming as well as broadleaf and narrow-leaf plants. This course designed for non-majors, homeowners, and those engaged in the fields of landscaping and horticulture. Not open for transfer credit for majors in Ornamental Horticulture and Landscape Architecture as a substitute for HORT 160 F Plant Identification. (Degree Credit)

HORT 006 F Basic Landscape Plants II (3)
Three hours lecture per week. The identification and study of trees, shrubs, vines and herbaceous plant material of landscape value. Additional plants not covered in HORT 005 F, with special emphasis on spring-blooming deciduous plants. This course designed for non-majors, homeowners, and those engaged in the fields of landscaping and horticulture. Not open for transfer credit for majors in Ornamental Horticulture and Landscape Architecture as a substitute for HORT 161 F Plant Identification. (Degree Credit)

HORT 008AF Landscape Pruning Practices (1)
Letter Grade or Pass/No Pass option
Two hours of lecture and three hours lab per week for six weeks or the equivalent. Principles and practices used in pruning ornamental shrubs, trees, vines, herbaceous perennials, groundcovers and fruit trees found in residential and commercial landscapes will be covered. Special attention is given to appropriate plant use and maintenance. (Degree Credit)

HORT 008BF Basic Turf Care (1)
Letter Grade or Pass/No Pass option
Two hours lecture and three hours lab per week for six weeks or the equivalent. Fundamentals of lawn care for homeowners including planting, fertilization, irrigation, weed control, and pest control. Special techniques and equipment used for lawn renovation are also covered. (Degree Credit)

HORT 008CF Home Pest Control (1)
Letter Grade or Pass/No Pass option
Two hours lecture and three hours lab per week for six weeks or the equivalent. Fundamentals of pest control for homeowners including identification and control of weeds, insects, vertebrates, arachnids, mollusks and diseases. Special emphasis is given to Integrated Pest Management as a home pest control technique. (Degree Credit)

HORT 010AF Landscape Lighting (3)
Two hours lecture and three hours lab per week for nine weeks. Principles and practices used in lighting outdoor trees, shrubs, planter beds and living spaces. Emphasis is given to appropriate selection of code-approved low voltage electrical components, wiring and lighting fixtures for residential use.

HORT 010BF Landscape Water Features (3)
Two hours lecture and three hours lab per week for nine weeks. Design and installation of landscape water features including ponds, garden streams, fountains and container water gardens. Students learn current construction techniques through an on-site installation.

HORT 045 F Training Pest Control Professionals (3)
Three hours lecture per week. Designed to assist persons desiring to be licensed as Pest Control Advisers or Pest Control Operators or pesticide dealers. Instruction involves laws and regulations, pesticide safety, control of insects, mites, nematodes and other invertebrate pests, plant disease control, and plant growth regulators used in the landscaping business. California Department of Food and Agriculture continuing education hours are available for this course. Course may be taken twice for credit. (Degree Credit)

HORT 046 F Pesticide Safety for Landscape Workers (2)
Letter Grade or Pass/No Pass option
Two hours lecture per week. A course designed to teach pesticide safety to Spanish and English-speaking landscape workers. Students learn safe operations of application equipment, pesticide toxicity ratings, methods of exposure and pesticide labeling along with information about pest and disease life cycle and post host relationships. (Degree Credit)
HORT 058 F Irrigation Controller Programming (2)
Letter Grade or Pass/No Pass option
Three hours lecture and three hours lab per week for eight weeks or the equivalent. This course provides hands-on experience in which students will learn the fundamentals of programming irrigation controllers and the steps involved in programming some of the most popular irrigation controllers available in the industry. Practical situations will be used to show the applications of basic and advanced controller features. The course will also provide a review of various central control computer irrigation systems. Three field trips will be scheduled to give students the opportunity to examine central control systems as water management tools in large commercial and recreational areas. (Degree Credit)

HORT 070 F Volunteer Naturalist Training (2.5)
Letter Grade or Pass/No Pass option
Two hours lecture and one and one-half hour lab per week. A basic ecological course dealing specifically with the ecosystems represented in the wilderness parks and nature preserves of Orange County. Special emphasis will be placed on the natural history, geology and cultural history of our undeveloped areas. Training will also be given in the skills required to give nature tours in the parks. Assumes no science background. Weekly field trips required. (Degree Credit)

HORT 075 F Habitat Assessment and Restoration (2.5)
Letter Grade or Pass/No Pass option
Two hours lecture and one and one-half hour lab per week. An eight week course designed to introduce students to the ecological theory, and practical application of a variety of field assessment, restoration and monitoring techniques. Scientific, social and legal aspects of restoration will be discussed. Training will emphasize habitat evaluation and restoration techniques used by industry, government agencies and environmental organizations. Weekly field trips will visit and assist in assessment and restoration projects.

HORT 152 F Applied Botany (4)
Three hours lecture and three hours lab per week. A course in applied botany covering the basic concepts in plant structure and functions. Includes the study of plant growth and development, horticultural practices, and an overview of horticulture as a science and art and an industry. Practical exercises and field trips are part of the lab work. (CSU) (Degree Credit) CSU GE

HORT 153 F Landscape Irrigation (3)
Two hours lecture and three hours lab per week. This course covers the principles and practices of installing basic irrigation systems. It includes the study of fittings, piping, valves, backflow preventers, controllers, and sprinklers; basic hydraulics, friction loss calculations and beginning irrigation design are also covered. (CSU) (Degree Credit)

HORT 154 F Irrigation Design (3)
Prerequisite: HORT 153 F
Two hours lecture and three hours lab per week. This course covers the principles and practices of designing residential and small commercial irrigation systems. It includes the study of component selection, sprinkler spacing and location, hydraulic calculations, graphics presentation and current practices in water conservation in irrigation. Field trips and on-site analysis will be included as part of the lab. (CSU) (Degree Credit)

HORT 155 F Soils (3)
Two hours lecture and three hours lab per week. This course covers the following physical, chemical, and biological properties of soils: formation, texture, structure, compaction, stability and drainage, permeability and water-holding capacity, soil reaction, ionic exchange, organic matter, soil classification, water conservation, and soil conservation. (CSU) (UC)

HORT 156 F Plant Nutrition (3)
Two hours lecture and three hours lab per week. This course covers the composition, value and use of fertilizers, soil correctives and soil amendments. Methods and techniques employed in detailed fertility analysis and horticultural suitability of soil media. Application equipment and fertilizer injection techniques. (CSU) (Degree Credit)

HORT 157 F Irrigation Principles (3)
Prerequisite: HORT 153 F
Two hours lecture and three hours lab per week. This course covers the study and application of plant, soil and water relationships as they relate to irrigation. Sprinkler precipitation rates, soil infiltration rates and plant evapotranspiration rates are investigated to determine optimal irrigation, programming and efficient water usage. Lab hours will include field trips, lab investigations and on-site analysis. (CSU) (Degree Credit)

HORT 160 F Plant Identification (Ornamental Trees) (3)
Three hours lecture per week. The study of broadleaf and conifer trees used in California landscapes, with special emphasis on identification. Recommended as a transfer course for majors in horticulture and landscape architecture. (CSU) (UC; HORT 160 F and 161 F maximum credit one course.) (Degree Credit)

HORT 161 F Plant Identification (Ornamental Shrubs) (3)
Three hours lecture per week. The study of ornamental shrubs, ground covers, vines, tropical and herbaceous plant material used in California landscapes with special emphasis on identification. Recommended as a transfer course in the majors of horticulture and landscape architecture. (CSU) (UC; HORT 160 F and 161 F maximum credit one course.) (Degree Credit)

HORT 162 F Landscaping for Dry Climates (3)
Advisory: HORT 200 F
Two hours lecture and three hours lab per week. A semester course covering the effects of Southern California environment upon plant selection, knowledge of the growth requirements of selected native and exotic species, and their proper usage in landscapes. Emphasis is placed upon functional values and aesthetic qualities of native and exotic drought-tolerant plants. Through development of the design process the student will create landscape plans and make site analysis evaluations using an inventory of appropriate native and drought-tolerant exotic species. Field trips are integrated as part of the lab projects, including one weekend trip, which is required of all students. (CSU) (Degree Credit)

HORT 164 F Plant Identification (Annuals, Perennials, and Houseplants) (3)
Three hours lecture per week. This course covers the study of annuals, perennials, and houseplants used throughout California, with special emphasis on identification. It includes a comparison of the care requirements, culture and landscape usage for approximately 175 herbaceous ornamental plants. Recommended as a transfer course in the majors of horticulture and landscape architecture. (CSU) (Degree Credit)
HORT 165 F Landscape Management (4)
Three hours lecture and three hours lab per week. New plantings and maintenance of existing plantings, including pruning, fertilization, pest control, lawn care, and landscape estimating. (CSU) (Degree Credit)

HORT 166 F Landscape Construction (3)
Three hours lecture per week. Use and cost estimates of various landscape construction materials. Problems dealing with structure, grading, drainage, sprinklers, masonry, and electricity used in landscape construction. Course designed for students qualifying for the State Landscape Contractors Examination. (CSU) (Degree Credit)

HORT 169 LF Landscape Construction Lab (1)
Corequisite: HORT 168 F Landscape Construction
Three hours lab per week. Lab exercises in the use of wood, concrete, brick, blocks, and other materials of construction as they relate to structures, drainage, grading, utilities, and irrigation. (CSU) (Degree Credit)

HORT 170 F Landscape Contracting (3)
Three hours lecture per week. This course covers the legal requirements and obligations of the landscape contractor, including contractor’s law, lien rights, subcontractor regulations and employee labor law. It includes estimating and cost analysis for landscape trades. The course is directed toward preparing the student for passing the State Landscape Contractor’s License Examination. (CSU) (Degree Credit)

HORT 173 F Greenhouse and Nursery Production (3)
Two hours lecture and three hours lab per week. This course covers the current production methods used in producing greenhouse and nursery plants. Greenhouse and nursery facilities, and equipment will be covered along with business practices, computer applications, nursery automation and current irrigation systems. Recommended for students seeking careers in nursery-related trades. (CSU) (Degree Credit)

HORT 177 F Turfgrass Management (3)
Two hours lecture and three hours lab per week. This course covers the theoretical and commercial practices of plant propagation, including seeding and transplanting, preparation of cuttings, layering, division, budding and grafting, and micro propagation techniques. The use of plant hormones, plant physiology and genetic manipulation are discussed. (CSU) (Degree Credit)

HORT 185 F Arboriculture (2)
Letter Grade or Pass/No Pass option
One hour lecture and three hours lab per week. This course covers current practices in maintaining trees through correct pruning, cabling and cavity repair. In addition, tree growth characteristics, local codes and regulations and safety practices related to pruning are covered. This course prepares students for the Certified Arborists examination. (CSU) (Degree Credit)

HORT 188 F Integrated Pest Management (2)
Letter Grade or Pass/No Pass option
One and one-half hour lecture and one and one-half hour lab per week. A course, which provides students with a fundamental knowledge of integrated pest management. During the class, students learn to develop and implement pest control programs using cultural, biological and chemical methods. Emphasis will be placed on pest identification, pest monitoring and analysis of plant symptoms. (CSU) (Degree Credit)

HORT 200 F Landscape Design (3)
Two hours lecture and two hours lab per week. Basic drafting techniques are taught combined with the principles of design leading to formal landscape drawings of homes. Includes the proper association of plant materials according to texture, color, mass, and cultural requirements. (CSU) (UC) (Degree Credit)

HORT 201 F Advanced Landscape Design (3)
Prerequisite: HORT 200 F
Two hours lecture-discussion and three hours lab per week. A continuation of graphics, plant usage, and design theory covered in HORT 200 F, with emphasis on hillside developments and commercial projects. A survey of historical development of landscape. Design of landscape structures (walls, patio overheads, steps, walkways, pools) with focus placed on the basic qualities of the construction materials. Elements of perspective drawings for project presentations. Detailed site analysis and evaluation of ecological factors. Field trips are part of lab, including one weekend trip required of all students. (CSU) (Degree Credit)

HORT 205 F Applied Entomology (3)
Two hours lecture and three hours lab per week. Study of the principles of entomology including external anatomy and internal anatomy and physiology, insect relatives, and insect classification and identification. Concepts of insect pest management techniques will be included. An insect collection with proper identification to order and family will be required of all students with lab and field examination placing emphasis on identification and control. (CSU) (Degree Credit) CSU GE

HORT 207 F Plant Pathology (3)
Three hours lecture and three hours lab per week. Diagnosis and control of parasitic and non-parasitic disease problems in ornamental landscapes. Course also involves determination of insects, mites, and other pest problems affecting ornamental plantings and the methods employed in control. Lab and field trips will be utilized to observe various problems in production areas. Transfer credit to colleges offering similar courses. California Department of Food and Agriculture continuing education hours are available for this course. (CSU) (Degree Credit)
HORT 218 F Landscape Hydraulics (3)
Prerequisite: HORT 153 F
Two hours lecture and three hours lab per week. This course covers the principles of hydraulics related to open and closed piping systems, pipe and channel flow as applied to landscape irrigation and drainage system. It includes problems in water, storage, pumping system, surge and water hammer, fountains and ponds. (CSU) (Degree Credit)

HORT 219 F CAD Applications in Horticulture (3)
Prerequisite: ACG 100 F, HORT 200 F or HORT 154 F
Two hours lecture, three hours lab per week. This course includes the use of computer aided drafting in the creation of landscape and irrigation designs. The use of symbol libraries, layered drawings, macros, and different drawing programs are included. Detail drawings, landscape and irrigation plans will be developed for actual site situations. (CSU) (Degree Credit)

HORT 920 F Advanced CAD Applications in Horticulture (3)
Letter Grade or Pass/No Pass option
Prerequisite: HORT 219 F CAD
Two hours lecture and three hours lab per week. This course covers the use of LandCADD computer aided drafting and design program in the creation of 2-D and 3-D landscape and irrigation designs. It also includes the use of customized plant and irrigation symbols, intelligent drawing blocks, cross-referenced drawings and paper space/model space. Detail drawings, complex irrigation and grading plans will be developed for actual site situations. Presentation 2-dimensional and 3-dimensional rendered drawings and animated walk-throughs are developed using advanced tools in LandCADD. Course may be taken twice for credit. (Degree Credit)

Humanities (HUM)
Humanities Division
Office: Bldg 500, Room 522-O
714.992.7036
Dean: Dan Willoughby
Website: www.humanities.fullcoll.edu

HUM 170 F Education: Tutoring Individuals and Small Groups (2)
This course provides preparation and training for successful tutoring in multiple subject areas. Instruction will focus on tutoring principles, specific tutoring techniques, study skills, communication skills, tutoring the ESL student, cultural differences, learning styles and learning disabilities. Completion of 25 hours of field experience is required. This course is strongly recommended for both students who wish to tutor in the Fullerton College Tutoring Center and students interested in careers in education. (CSU) (UC) (Degree Credit)

Interior Design (IDES)
Technology and Engineering Division
Office: Bldg 700

Dean: Scott McKenzie
Website: techneng.fullcoll.edu

Commercial Design Certificate
Interior Design Assistant: Associate in Science Degree
Interior Merchandising: Level I Certificate
Residential Design Certificate

Interior Design Courses
Fullerton College offers an interdisciplinary Interior Design curriculum partnership in conjunction with three other Southern California Community Colleges: Mount San Antonio College, Orange Coast College, and Saddleback College. (Long Beach City College status is pending at the time of this printing.) This regional program provides multi-level, accredited courses, which prepare students with competencies required to enter the Interior Design profession.

IDES 085 F Kitchen and Bath Design (2)
Prerequisite: IDES 110 F
One hour lecture and three hours lab per week. This course covers functional planning for the kitchen and bath. The emphasis is on layout, materials, appliances and fixtures, lighting and electrical planning, design character, construction and plumbing. This course also covers trends and career options. (Degree Credit)

IDES 100 F Fundamentals of Interior Design (3)
Three hours lecture per week. This course covers the application of design principles and elements in planning of total interior environments that meet individual, functional, legal and environmental needs. The selection of all materials and products used in interior environments will be emphasized for the functional and aesthetic quality. (CSU) (Degree Credit)

IDES 105 F Interior Design Studio I (2)
One hour lecture, three hours lab per week. This studio course is designed to apply concepts and theories presented in the lecture course, IDES 100 F Fundamentals of Interior Design. It is recommended that this course be taken concurrently with the lecture class. Emphasis is placed on design process in developing solutions for design projects. (CSU) (Degree Credit)

IDES 110 F Beginning Drafting for Interior Design (3)
Two hours lecture, three hours lab per week. Applications of methods and theory used for architectural drawings, including basic graphics and projections for design and working drawings. (CSU) (Degree Credit)

IDES 120 F Interior Design Careers (2)
Two hours lecture per week. A survey of the Interior Design profession, industry, related occupations and work sites. The course will emphasize personal, educational and professional qualifications required for entry into the Interior Design profession. (CSU) (Degree Credit).
IDES 130 F Applied Color and Design Theory (4)
Three hours lecture and three hours lab per week. This course covers Basic Design theory and application. Utilization of tools, materials, and equipment to develop technical skills applicable to interior, architectural and other related fields of design. Exploration of cultural heritage and psychological implication of design. (CSU) (Degree Credit)

IDES 147 F Office Planning (3)
Prerequisite: IDES 110 F or ARCH 100 F
Two hours lecture, three hours lab per week. This course will cover large and small office planning including client improvement practices and the use of modular systems. Also covered are code requirements and the use of electrical, plumbing and mechanical systems. (CSU) (Degree Credit)

IDES 150 F Interior Materials and Products (4)
Four hours lecture per week. This course will cover methods of analysis, application and evaluation of products and materials used in Interior Design. Includes interior textiles, furnishings and finish materials and products. (CSU) (Degree Credit)

IDES 170 F Space Planning (3)
Prerequisite: IDES 110 F or ARCH 100 F
Two hours lecture and three hours lab per week. The application of programming, theory and techniques in residential and commercial space planning. Skills in drafting and presentation techniques are emphasized in the studio. (CSU) (Degree Credit)

IDES 180 F History of Interior Architecture and Furnishings I (3)
Three hours lecture per week. The historical relationship between the decorative arts, period furniture and interior architecture is illustrated in this overview of design heritage from antiquity through the 19th century in France. Emphasis is placed on style development as it relates to social, economic and political influences. (CSU) (Degree Credit) AA GE

IDES 190 F History of Interior Architecture and Furnishings II (3)
Three hours lecture per week. The historical relationship between the decorative arts, period furniture and interior architecture is illustrated in this overview of design heritage. This course begins with the sixteenth century England and America and analyzes the influences and changes in design to the present. Emphasis is placed on style development as it relates to social, economic and political forces. (CSU) (Degree Credit)

IDES 200 F Interior Illustration (2)
Prerequisites: IDES 100 F and IDES 130 F
One hour lecture, three hours lab per week. This course covers the application of the methods, techniques and tools used for illustrating interior spaces and products. (CSU) (Degree Credit)

CDES 205 F Creating Environments for Young Children (2)
Two hours lecture per week. This course is designed for adults interested in planning inclusive environments for children. It is valuable for administrators, interior designers, and teachers. Students develop ways of examining the environmental settings for children and evaluate the use of physical space and the selection of activity settings in terms of program goals. The study of environmental planning to enrich childrens' experience is emphasized. Students design both indoor and outdoor environments for a group setting. (CSU) (Degree Credit)

IDES 210 F Fundamentals of Lighting (3)
Three hours lecture per week. The fundamentals of lighting, design, theory and application including the history and vocabulary of lighting; how light affects color and vision, incandescent and fluorescent lamps, lighting techniques for interior designers, codes and energy efficient lighting practices. (CSU) (Degree Credit)

IDES 215 F Interior Design Studio II (2)
Prerequisite: IDES 100 F, IDES 130 F and IDES 170 F
One hour lecture and three hours lab per week. Develop, analyze and apply design concepts to interior environments. Universal design, “green design,” space planning, lighting systems, interior components, architectural elements and specification writing will be integrated into research projects emphasizing a problem solving approach. (CSU) (Degree Credit)

IDES 230 F Business and Professional Practice (3)
Three hours lecture per week. The business and professional management of an interior design practice including legal issues, project management and business practices. (CSU) (Degree Credit)

IDES 240 F Interior Design Internship (2-3)
One hour lecture and three hours lab per week. This course covers the principles of space planning applied to the unique problems of the hospitality industry including design, systems and specifications. (CSU) (Degree Credit)

IDES 248AF Restaurant/Hotel Design (2)
Prerequisite: IDES 215 F, IDES 110 F or ARCH 100 F
One hour lecture and three hours lab per week. This course covers the principles of space planning applied to the unique problems of the medical field including design, systems and specifications. (CSU) (Degree Credit)

IDES 248BF Medical/Health Design (2)
Prerequisite: IDES 215 F, IDES 110 F or ARCH 100 F
One hour lecture and three hours lab per week. This course covers the principles of space planning applied to the unique problems of the medical field including design, systems and specifications. (CSU) (Degree Credit)

IDES 249AF Studies in International Architecture and Design (1)
A total of 18 hours of lecture and guided field trips. This course includes pre-trip lectures and guided trips during travel tour. The course content will vary according to area studied, but will include emphasis on architecture and interior design of specific European countries or areas on the American continent. (CSU) (Degree Credit)

IDES 249BF Studies in International Architecture and Design (2)
A total of 36 hours of lecture and guided field trips. This course includes pre-trip lectures and guided trips during travel tour. The course content will vary according to area studied, but will include emphasis of architecture and interior design of specific European countries or areas on the American continent. (CSU) (Degree Credit)

IDES 249CF Studies in International Architecture and Design (3)
A total of 54 hours of lecture and guided field trips. This course includes pre-trip lectures and guided trips during travel tour. The course content will vary according to area studied, but will include emphasis on architecture and interior design of specific European countries or areas on the American continent. (CSU) (Degree Credit)
IDES 265 F Interior Design Studio III (2)
Prerequisites: IDES 215 F, IDES 110 F
One hour lecture and three hours lab per week. An emphasis is placed on total space planning with advanced problems in interior environments. The analysis of problems allows for the application of the design process, of planning, materials, codes and specialized equipment. (CSU) (Degree credit)

Italian (ITAL)

Humanities Division
Office: Bldg 500, Room 522-O
714.992.7036
Dean: Dan Willoughby
Website: www.humanities.fullcoll.edu

Italian Courses

ITAL 101 F Elementary Italian I (5)
Letter Grade or Pass/No Pass option
Five hours lecture per week plus one arranged lab hour per week. The course focuses on the four major skills of language learning — listening comprehension, speaking, reading and writing — and the grammar and vocabulary necessary to acquire these skills. Included is an introduction to customs, culture, and civilization of Italian-speaking countries. This course is conducted primarily in Italian. (CSU) (UC) (Degree Credit) AA GE, CSU GE

ITAL 102 F Elementary Italian II (5)
Letter Grade or Pass/No Pass option
Prerequisite: ITAL 101 F with a grade of “C” or better or one year of high school Italian with a grade of “C” or better
Five hours lecture per week plus one arranged lab hour per week. The course continues to focus on the four major skills of language learning — listening comprehension, speaking, reading and writing — and the grammar and vocabulary necessary to acquire these skills. Included is an introduction to customs, culture, and civilization of Italian-speaking countries. This course is conducted primarily in Italian. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

ITAL 203 F Intermediate Italian III (4)
Letter Grade or Pass/No Pass option
Prerequisite: ITAL 202 F with a grade of “C” or better or two years of high school Italian with a grade of “C” or better
Four hours lecture per week. Continuation of ITAL 202 F. Includes development of listening and reading comprehension, speaking and writing Italian based on cultural and literary materials. This course emphasizes oral communication and provides an expanded review of key grammatical concepts. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

ITAL 204 F Intermediate Italian IV (4)
Letter Grade or Pass/No Pass option
Prerequisite: ITAL 203 F with a grade of “C” or better or three years of high school Italian with a grade of “C” or better
Four hours lecture per week. Continuation of ITAL 203 F. The course emphasizes the acquisition of more advanced listening, speaking, reading, and writing. Students will be introduced to the further elements of culture, history and geography of Italy through lectures, slides, films, dialogues and reading assignments. Instruction will be in Italian. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

Japanese (JAPN)

Humanities Division
Office: Bldg 500, Room 522-O
714.992.7036
Dean: Dan Willoughby
Website: www.humanities.fullcoll.edu

Japanese Courses

JAPN 101 F Elementary Japanese I (5)
Letter Grade or Pass/No Pass option
Five hours lecture plus one arranged lab hour per week. The course focuses on the four major skills of language learning — listening comprehension, speaking, reading and writing — and the grammar and vocabulary necessary to acquire these skills. Included is an introduction to customs, culture, and civilization of Japanese-speaking countries. This course is conducted primarily in Japanese. (CSU) (UC) (Degree Credit) AA GE, CSU GE

JAPN 102 F Elementary Japanese II (5)
Letter Grade or Pass/No Pass option
Prerequisite: JAPN 101 F with a grade of “C” or better or one year of high school Japanese with a grade of “C” or better
Five hours lecture per week plus one arranged lab hour per week. The course continues to focus on the four major skills of language learning — listening comprehension, speaking, reading and writing — and the grammar and vocabulary necessary to acquire these skills. Included is an introduction to customs, culture, and civilization of Japanese-speaking countries. This course is conducted primarily in Japanese. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

JAPN 203 F Intermediate Japanese III (4)
Letter Grade or Pass/No Pass option
Prerequisite: JAPN 102 F with a grade of “C” or better or two years of high school Japanese with a grade of “C” or better
Four hours lecture per week. The course includes development of listening and reading comprehension, speaking and writing Japanese based on cultural and literary materials. This course emphasizes oral communication and provides an expanded review of key grammatical concepts. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

JAPN 204 F Intermediate Japanese IV (4)
Letter Grade or Pass/No Pass option
Four hours lecture per week. This course continues the development of listening and reading comprehension, speaking and writing Japanese based on cultural and literary materials. This course emphasizes intermediate-advanced oral communication, provides an extended review of key grammatical concepts and vocabulary, and fosters understanding and appreciation of Japanese culture by introducing literary readings. (CSU) (UC) (Degree Credit)
Journalism (JOUR)
Technology and Engineering Division
Office: Bldg 700, Room 714
714.992.7575
Dean: Scott McKenzie
Website: communications.fullcoll.edu

Communications: Journalism Associate in Arts Degree
Advertising Certificate
Journalism Certificate
Public Relations Certificate

Journalism Courses

JOUR 101 F Reporting and Writing (3)
Prerequisite: ENGL 060 F or ESL 186 F, both with a grade of "C" or better or recommended score on English placement test
Three hours seminar and lecture plus one hour lab per week. This class provides an introduction to the skills and practices of news reporting as applied to the various communications media with emphasis on the newspaper. Stress is placed on various story types—news, feature, editorial, online, column sports, and press release. (CSU) (UC) (Degree Credit) AA GE

JOUR 102 F Advanced Reporting and Writing (3)
Prerequisite: JOUR 101 F
Three hours seminar/lecture per week plus one hour lab per week. The study and practice of advanced reporting and news-gathering techniques are the main focus stressing interviewing and research skills, investigative, special assignment and online reporting. (CSU) (Degree Credit)

JOUR 108 F Feature Writing (3)
Three hours seminar/lecture per week. Principles of freelance writing for magazines, newspapers, and other specialized periodicals are introduced. Students receive instruction on query writing, marketing and manuscript preparation and submission. Copyright and libel laws will be included. Both peer and professional evaluations will be utilized. Course may be taken four times for credit. (CSU) (Degree Credit)

JOUR 110 F Mass Media Survey (3)
Three hours lecture per week. This class provides an introduction to the mass communications media and a critical consideration of their roles in our society. Mass media under consideration in this course will include: books, newspapers, magazines, movies, radio, television, film and the Internet. (CSU) (UC) (Degree Credit) AA GE, CSU GE.

JOUR 135 F Magazine Production (3)
Two hours lecture and three hours lab per week. All aspects of the magazine publishing industry will be covered. A soft cover magazine is created by the class. Emphasis is placed on writing longer, in-depth magazine articles, capturing feature photographs and packaging all elements together. Students will also publish stories and photos for the online publication — fctorch.net. Course may be taken four times for credit. (CSU) (Degree Credit)

JOUR 140 F Public Relations and Publicity (3)
Three hours lecture per week. Students will study and practice the techniques and responsibilities of corporate, agency, and non-profit public relations with special attention to publicity writing and public relations campaign development. (CSU) (Degree Credit)

JOUR 196 F Communications Seminar (.5-4)
Lecture and lab hours will vary according to the nature of the seminar. Communications seminars are courses designed to expose the students to up-to-date equipment, methods, techniques, and materials. These courses offer the student opportunity for specialized training in greater depth than can be offered in a general course. These courses will vary from semester to semester depending on student interest, new developments in industry, and need for specialized training. Communications seminars will be offered in photography, journalism, and radio/television. See class schedule for current offerings. Students may enroll in up to a maximum of four semesters. (CSU) (Degree Credit)

JOUR 199 F Journalism Independent Study (1-3)
Prerequisite: JOUR 101 F with a grade of "C" or better
One hour lecture or scheduled conference or three hours independent lab research per week per unit of credit. This course is designed for advanced students who wish to increase their knowledge of journalism and communications through individual study. Independent lab research problems with staff supervision may be approved. Project with written report or outside reading with written report is required. Students may enroll up to a maximum of four semesters. (CSU) (UC review required) (Degree Credit)

JOUR 210 F Multimedia Reporting (3)
Two hours lecture and three hours lab per week. This course focuses on media article writing and digital storytelling. Students will develop multimedia news reporting and writing techniques with an emphasis on the Web. Students research, write, and edit articles as they practice the skills of gathering information from a variety of sources. Students synthesize, edit and prepare stories for dissemination online. Students will learn the basics of visual journalism storytelling, including basic elements of shooting videotape, recording audio, editing video and audio tape, and creating news websites. A culminating project will demonstrate knowledge of reporting and writing for print and broadcast on the web. (CSU) (Degree Credit)

JOUR 219 F Photojournalism (3)
Two hours lecture and three hours lab per week. This course covers the basics of digital photography for publication both print and online such as news, advertising, feature, sports, lifestyle, photo essay, and documentary applications. Students will work with the student publications on campus. (CSU) (Degree Credit)

JOUR 225 F Newspaper Production (3)
Two hours lecture and three hours lab per week. This course includes the following areas of study: reporting, editing, page design, photojournalism, editing and proofreading. Online reporting and publishing techniques are also studied and practiced in the production of The Hornet newspaper and Online Hornet. Course may be taken four times for credit. (CSU) (Degree Credit)

JOUR 227 F Newspaper Management, Makeup and Editing (3)
Two hours lecture and three hours lab per week. This course includes the principles and practices of copy editing, headline and caption writing. Photo evaluation, page makeup and editorial judgment are incorporated. Students will develop supervising abilities in a newspaper production setting. Course may be taken four times for credit. (CSU) (Degree Credit)
JOUR 290 F Internship in Journalism/Public Relations (2-4)
One hour lecture per week and five hours supervised employment or unpaid internship per week in journalism or public relations. An additional five hours per week of supervised employment or unpaid internship for each additional unit of credit. This course offers career development opportunities for students and industry professional who need to strengthen or broaden their skills to retain their current position or wish to advance in their current careers. Students obtain vocational learning opportunities through employment/internships at newspapers, magazines, public relations firms, companies requiring journalism and public relations experts, radio, television, and cable stations. Course may be taken four times for credit. (CSU) (Degree Credit)

Library Technology (LIB)
Library Division
Office: Bldg 800 (LLRC)
714.992.7039
Dean: Jackie Boll
Website: library.fullcoll.edu

LIB 100 F Introduction to Research (1)
One hour lecture per week. This class is designed to introduce students to traditional and electronic library research tools and resources including the Internet. Students learn how to develop research strategies that will enable them to locate/retrieve, analyze, evaluate, and cite appropriate resources on a given topic. Each student will compile and prepare a written bibliography of relevant sources on a topic. The class is of special value to those students intending to transfer to a four-year institution. (CSU) (UC) (Degree Credit)

LIB 100HF Honors Introduction to Research (1)
One hour lecture per week. This is an enhanced course designed to introduce honors students to traditional and electronic library research tools and resources including the Internet. Students will develop critical thinking skills and learn research strategies that will enable them to locate/retrieve, analyze, evaluate, and cite appropriate resources on a given topic. Each student will compile and prepare a written bibliography of relevant sources on a topic. The class is of special value to those students intending to transfer to a four-year institution. (CSU) (UC) (Degree Credit)

LIB 103 F Research in the 21st Century (2)
One and one-half hours lecture and one and one-half hours lab per week. Students will examine the core concepts of information competency for locating, organizing, evaluating and presenting information to conduct academic and personal research. The impact of the Internet on society and academia will be analyzed with special emphasis on copyright and plagiarism issues. Students will identify and analyze the ethical, legal and socio-political implications of information. (CSU)

Machine Technology (MACH)
Technology and Engineering Division
Office: Bldg 900
714.992.7586
Dean: Scott McKenzie
Website: techneng.fullcoll.edu

CNC Operator Certificate
Computer Numerical Control (CNC) Certificate
Machine Technology — Level I Certificate
Machine Technology — Level II Certificate
Mastercam Certificate
Surfcam Certificate

Machine Technology Courses

MACH 010 F Machining Skills Lab (.5-2)
Open Entry/Open Exit
Pass/No Pass only
Twenty-seven hours lab for each .5 unit of credit. This course provides students the opportunity to further develop their skills in machining set up, operation, and programming tasks. One-half unit of credit will be given for each 24 hours of lab participation. This course may be taken a total of four times.

MACH 040 F CNC Wire EDM: Programming and Operation (3)
Two and one-half hours lecture and one and one-half hours lab per week. This course provides the student with instruction in the concepts and practices associated with the set up, operation, and programming of CNC Wire EDMs (Electrical Discharge Machines). Emphasis will be placed on using a wire EDM to cut in a two axis environment. Students will prepare and cut parts on the machine during lab time. (Degree Credit)

MACH 043 F Advanced Topics in Machine Technology (.5-3)
Zero to three hours lecture, zero to nine hours lab per week. This course is designed to meet the needs of the Machine Tool industry that requires advanced training, continuing education and provide professional growth for persons employed in the Machine Tool industry. This course will be offered in modules of advanced topics. Unit credit may range from .5 to 3 units per module. Consult the class schedule to verify topic areas and credit offered for each topic.

MACH 050 F CNC Programming Using Mastercam (3)
Two and one-half hours lecture and one and one-half hours lab per week. This course provides the student with instruction in the concepts and practices associated with using Mastercam software to prepare CNC machine programs for both mills and lathes. Students will process programs that demonstrate the features and functions of the software. (Degree Credit)
MACH 052 F Advanced CNC Programming Using Mastercam (3)
Advisory: MACH 050 F CNC Programming or industry experience using Mastercam in a 2-D environment
Two and one-half hours lecture and one and one-half hour lab per week. This course provides the student with advanced instruction in the concepts and practices associated with using Mastercam software to prepare CNC machine programs for both mills and lathes. Students will build upon prior experience with Mastercam to develop 3-D wire frame models, surface models, derived models, and composite surface models. Students will process programs that demonstrate the features and functions of the software. (Degree Credit)

MACH 060 F CNC Programming using SURFCAM (3)
Two and one-half hours lecture and one and one-half hours lab per week. This course provides the student with instruction in the concepts and practices associated with using SURFCAM software to prepare CNC machine programs for both mills and lathes. Students will process programs that demonstrate the features and functions of the software. (Degree Credit)

MACH 062 F Advanced CNC Programming Using SURFCAM (3)
Two and one-half hours lecture and one and one-half hours lab per week. This course provides the student with advanced instruction in the concepts and practices associated with using SURFCAM software to prepare CNC machine programs for both mills and lathes. Students will build upon prior experience using SURFCAM to develop 3-D wire frame models, surface models, derived models, and composite surface models. Students will process programs that demonstrate the features and functions of the software. (Degree Credit)

MACH 086 F CNC Machine Set-Up and Operation (3)
Two and one-half hours lecture and one and one-half hours lab per week. This is an introductory course designed to teach the fundamentals skills related to the setup and operation of computer numerically controlled machine tools. Safety, tool selection, machine and controller functions, calculation and input of offsets, are also included. (Degree Credit)

MACH 087 F CNC Parts Programming (3)
Two and one-half hours lecture and one and one-half hours lab per week. This course covers manual programming techniques, calculations, and program development for CNC mills, machining centers, and lathes. Up to three axis of control will be discussed. Students will test part programs on CNC machines during lab hours. (Degree Credit)

MACH 088 F Advanced CNC Machining (3)
Advisory: MACH 086 F or industry experience operating both CNC lathes and mills and completion of MACH 087 F
Two and one-half hours lecture and one and one-half hour lab per week. This course provides the student with advanced instruction and practice in the concepts and practices associated with the successful programming and set up of CNC mills and lathes. Students will build upon prior experience with CNC machines to complete finished parts on CNC mills and lathes having various control types. Students will run programs and practice set-up processed during lab time. (Degree Credit)

MACH 090 F Multiple Axis CNC Set and Operation (3)
Prerequisite: MACH 086 F, MACH 087 F, and MACH 088 F, all with a grade of “C” or better
Two and one-half hours lecture and one and one-half hours lab per week. This course provides the student with instruction associated with the successful programming and set up of CNC mills with four and five axis of control. Students will build upon prior experience with CNC machines to complete finished parts on CNC mills with four and five axis of control. Students will run programs and practice set-up processes during lab time. (Degree Credit)

MACH 091 F Introduction to Machine Tools (5)
Three hours lecture and six hours lab per week. This is an introductory course designed to teach the fundamental skills used in the set up and operation of the engine lathe, milling machine, and surface grinder. Safety, shop mathematics, basic blueprint reading, cutting tool use and theory, selection of cutting speeds and feeds, and measurement techniques will also be included. (Degree Credit)

MACH 092 F Intermediate Machine Tools (5)
Prerequisite: MACH 091 F or MACH 116 F (both semesters) with a grade of “C” or better
Three hours lecture and six hours lab per week. This intermediate level course is designed to advance the basic set up and operational skills developed in an introductory level machine tools course. Work will be performed on engine lathe, both vertical and horizontal milling machines, surface grinder, and sawing equipment. Students will also advance their skills in the use of various measuring tools, blueprint reading, shop mathematics, and general machining techniques. (Degree Credit)

MACH 093 F Advanced Machine Tools (5)
Prerequisite: MACH 092 F with a grade of “C” or better
Three hours lecture and six hours lab per week. This advanced level course is designed to further the set up and operational skills developed in an intermediate level machine tools course. Work will be performed on engine lathes, both vertical and horizontal milling machines, surface grinders, and sawing equipment. Students will also advance their skills in the use of various measuring tools, blueprint reading, shop mathematics, and general machining techniques. Computer numerical control (CNC) machines will also be utilized to complete lab assignments. This course may be taken twice for credit. (Degree Credit)

MACH 116 F Machine Tools (2)
One hour lecture and three hours lab per week. This course is for students majoring in mechanical drawing, industrial arts, engineering, and for students who wish to familiarize themselves with the machine tools of industry. Fundamentals of the machinist trade are taught. Second semester work includes advanced work in the use of lathes, grinders, milling machines and measuring instruments. Methods planning for efficient machining is emphasized. Course may be taken twice for credit. (CSU) (Degree Credit)
Marketing Management (MKT)

**Business Division**
*Office:* Bldg 300  
714.992.7032

*Dean:* Ann Hovey  
*Website:* [http://bizdiv.fullcoll.edu](http://bizdiv.fullcoll.edu)

Marketing Management — Associate in Science Degree  
Marketing Management Certificate

**Marketing Management Courses**

**MKT 090 F Current Issues in Marketing (.5-3)**  
Variable lecture and/or lab hours per week. This course offers timely marketing-related topics. Emphasis is placed on current changes in the marketplace and real-world marketing problems and solutions. Unit credit may range from .5-3 units in any given semester. Consult the class schedule to verify specific topic area and credit for a particular semester. May be taken for credit four times.

**MKT 100 F Introduction to Marketing (3)**  
Three hours lecture per week. This course is an introduction to marketing and e-marketing principles including market analysis, consumer behavior, marketing mix strategies and new technology. Current issues pertaining to advertising, consumer research, international marketing and marketing on the Internet are covered. Class activities include field projects, development of a marketing plan portfolio, and hands-on computer simulations. This course lays the foundation for more advanced marketing and related subject areas. (CSU) (Degree Credit)

**MKT 103 F Principles of Advertising (3)**  
Three hours lecture per week. This course covers the role historical, economic and social aspects of advertising. The roles of the advertising agency, the development of creative advertising copy, advertising budgets, analysis of successful advertising campaigns and the creation of advertisements for the six types of media (TV, radio, magazines, newspapers, outdoor and direct mail) are discussed. (CSU) (Degree Credit)

**MKT 151 F Internet Marketing (2)**  
One and one-half hour lecture and one and one-half hour lab per week. This course will introduce students to marketing communications on the Internet. Emphasis will be placed on developing World Wide Web marketing skills, examining business resources on the Internet, and creating an Internet-focused marketing plan outline. Students will learn how to use the Internet for customer contact, customer service, order taking, and marketing research. (CSU) (Degree Credit)

**MKT 152 F Internet Advertising (2)**  
One and one-half hour lecture and one and one-half hour lab per week. This course will introduce students to advertising and promotional strategies using the Internet. Topics to be covered include new technologies in online advertising, buying and selling banner ads, direct marketing and sales promotion on the Internet, targeting and Web measurement techniques, and important legal issues. Students will develop an Internet promotional plan portfolio. (CSU) (Degree Credit)

**MKT 153 F Customer Service on the Internet (2)**  
One and one-half hour lecture and one and one-half hour lab per week. This course introduces the principles of relationship marketing and serving customers on the Internet. Topics include determining customer expectations; measuring success; using the Web site, e-mail, and extranets to increase customer satisfaction; and creating a relationship-based Web site. Students will develop an Internet customer service plan. (CSU) (Degree Credit)

**MKT 201 F Small Business Promotions (3)**  
Three hours lecture per week. This course focuses on the techniques used to promote a small business and develop effective marketing strategies. Its emphasis is on creating a marketing plan and devising affordable ways to communicate with customers through local media, sales promotion, the Internet, publicity, brochures, direct mail and other methods. (CSU) (Degree Credit)

**MKT 205 F Multicultural Markets in U.S. (3)**  
Three hours lecture per week. This course emphasizes the fundamentals of personal selling and the new practices needed to succeed in today’s information economy. Topics include understanding buyer behavior, building trust, communication and negotiation skills, and the strategic selling process. The course will also cover the impact of electronic commerce, sales strategies used to build global relationships, ethical and legal considerations in selling, and a survey of customer relationship management technology. (CSU) (Degree Credit) MULT CULT REQ

**MKT 208 F Principles of Selling (3)**  
Three hours lecture per week. Subject matter includes opportunities in the sales field, the steps of the sale from the approach through the closing, the art of negotiation, telephone selling, effective communication, and building win-win relationships with customers. Also included are professional specialty selling, buying motives, product knowledge, all phases of the selling process, and the many and varied career opportunities in the sales field. (CSU) (Degree Credit)

**BUS 180 F Small Business Management (3)**  
Three hours lecture per week. This course studies various small business enterprises including retail, wholesale, manufacturing, service, and home-based business. Factors in business success and advantages and disadvantages of business ownership are analyzed. This course covers the problems encountered in organizing and operating a small business, including financial sources, accounting information, marketing and other related information. (CSU) (Degree Credit)
Mathematics and Computer Science Division
Office: Bldg 600, Room 613-02
714.992.7041
Dean: Mark Greenhalgh

Associate in Arts Degree

Mathematics Courses

MATH 004 F Basic Mathematics I (2)
Pass/No Pass only
Two hours lecture and one-half hour arranged per week. This course is an intensive review of the fundamentals of arithmetic. The course includes: arithmetic operations with whole numbers and fractions, rounding and estimation, and applied problems. Calculators will not be permitted.

MATH 006 F Basic Mathematics II (2)
Pass/No Pass only
Prerequisite: MATH 004 F with a grade of “Pass”
Two hours lecture and one-half hour arranged per week. This course is an intensive review of the fundamentals of arithmetic. The course includes: arithmetic operations and applied problems with decimals, rounding, estimation, ratios, problem solving with proportions, percent and applications, the arithmetic of denominate numbers, introduction to the metric system, and measurement geometry. Calculators will be required for selected topics.

Effective Fall 2009, MATH 010 F (4 units) has been split into MATH 004 F (2 units) and MATH 006 F (2 units)

MATH 010 F Basic Mathematics (4)
Four hours lecture and one hour arranged per week. This course is an intensive review of the fundamentals of arithmetic. The course includes: operations of arithmetic with whole numbers, fractions, decimals, percent, estimation, equations and applied problems, introduction to the metric system, and the arithmetic of denominate numbers.

MATH 015 F Pre-Algebra (4)
Prerequisite: MATH 004 F and MATH 006 F with a grade of “Pass” or MATH 010 F with a grade of “C” or better, or math skills clearance
Four hours lecture and one hour arranged per week. This course includes: operations on integers, fractions, mixed numbers and decimals, ratio, proportion and percentages, working with variable expressions, interpretation of statistical graphs, measurement and geometry, and an introduction to polynomials and graphing. Calculators will be required for selected topics.

MATH 020 F Elementary Algebra (4)
Prerequisite: MATH 015 F with a grade of “C” or better or math skills clearance
Four hours lecture and one hour arranged per week. This course includes the properties of real numbers, factoring, exponents and radicals, solving and graphing linear equations, polynomials and rational algebraic expressions, and linear systems of equations. Calculators will be required for selected topics.

MATH 030 F Plane Geometry (4)
Prerequisite: MATH 020 F with a grade of “C” or better or math skills clearance
Four hours lecture and one hour arranged per week. This course is an introduction to Euclidean geometry. It includes theorems and proofs, sets, congruent and similar polygons, circles, geometric constructions, areas, volumes, geometric loci, elementary logic, and deductive reasoning. Calculators may be required for selected topics.

MATH 040 F Intermediate Algebra (4)
Prerequisite: MATH 020 F with a grade of “C” or better or math skills clearance
Four hours lecture and one hour arranged per week. This course includes products and factoring, exponents and radicals, fractions, functions and graphs, linear and quadratic equations, linear inequalities, logarithms, and related topics at an intermediate level. Calculators will be used for selected topics. (Degree Credit) AA GE

MATH 100 F Liberal Arts Mathematics (3)
Prerequisite: MATH 040 F with a grade of “C” or better or math skills clearance
Three hours lecture per week. This is a survey course with selected topics from the history and development of mathematics, patterns and inductive reasoning, set theory and deductive reasoning, the real number system, algebra, geometry, probability, statistics, and problem solving. It is designed for students majoring in liberal arts, education or communication. Calculators or computers may be used for selected topics. (CSU) (UC) (Degree Credit) AA GE, CSU GE IGETC

MATH 120 F Introductory Probability and Statistics (4)
Prerequisite: MATH 040 F with a grade of “C” or better or math skills clearance
Four hours lecture per week. This course covers descriptive statistics, elementary probability theory and inferential statistics. Topics covered include: summarizing data in tables and graphs, computation of descriptive statistics, sample spaces, classical probability theory, rules of probability, probability distributions, confidence intervals for population parameters, hypothesis testing, correlation and regression and Chi-Square Distribution with applications. Scientific and/or graphing calculators will be used extensively throughout the course. Computers, utilizing MINITAB will be used for various topics. Students who receive credit for MATH 120 F may not receive credit for SOSC 120 F. (CSU) (UC Credit Limitation: MATH 120 F or MATH 120HF and PSY 161 F combined, maximum one course) (Degree Credit) AA GE, CSU GE, IGETC
MATH 120HF Honors Introductory Probability and Statistics (4)
Prerequisite: MATH 040 F with a grade of “C” or better or math skills clearance
Four hours lecture per week. An enriched approach designed for honors students. This course covers descriptive statistics, elementary probability theory and inferential statistics. Topics covered include: summarizing data in tables and graphs, computation of descriptive statistics, sample spaces, classical probability theory, rules of probability, probability distributions, confidence intervals for population parameters, hypothesis testing, correlation and regression and Chi-Square Distribution with applications. Scientific and/or graphic calculators will be used extensively throughout the course. Computers, utilizing MINITAB will be used for various topics. Students who receive credit for MATH 120HF may not receive credit for MATH 150AF. (CSU) (UC Credit Limitation; MATH 120F or MATH 120HF and PSY 161 F combined, maximum one course) (Degree Credit) AA GE, CSU GE, IGETC

MATH 129 F College Algebra for Business Calculus (4)
Prerequisite: MATH 040 F with a grade of “C” or better or math skills clearance
Four hours lecture per week. This course includes a review of basic topics from intermediate algebra, equations and inequalities, functions and graphing including exponential and logarithmic functions, building mathematical models in business and economics, systems of equations and matrices, financial applications of sequences and series, and an introduction to spreadsheets and/or graphing software. The course is designed for students planning to enroll in MATH 130 F. A scientific calculator will be required; a graphing calculator may be required. (This course does not meet requirements in the Business Division and will not substitute for BUS 151 F. See Business and Computer Information Systems Division for Business requirements.) (CSU) (UC Credit Limitation) (Degree Credit) AA GE, CSU GE

MATH 130 F Calculus for Business (4)
Prerequisite: MATH 129 F with a grade of “C” or better or math skills clearance
Four hours lecture per week. This course includes fundamentals of analytic geometry and calculus; differential calculus, integral calculus, and selected applications of calculus; functions and managerial planning and their use in economics and business. A scientific calculator will be required; a graphing calculator may be required. Computer applications may be included. (CSU) (UC Credit Limitation; MATH 130 F combined with MATH 150AF; maximum credit, one course) (Degree Credit) AA GE, CSU GE, IGETC

MATH 141 F College Algebra (4)
Prerequisite: MATH 040 F and MATH 030 F with grades of “C” or better or math skills clearance. This course may be taken prior to or concurrently with MATH 142 F. Both MATH 141 F and MATH 142 F are required for enrollment in MATH 150AF.
Four hours lecture and one hour arranged per week. This is a one-semester course designed to prepare students for the study of calculus. The topics to be covered include review of the fundamentals of algebra, relations, functions, solutions of first- and second-degree equations and inequalities, systems of equations, matrices and determinants, binomial theorem, mathematical induction, polynomial functions, exponential and logarithmic functions, analytic geometry and conic sections, geometric and arithmetic sequences and series, and miscellaneous topics. Graphing calculators will be incorporated. (CSU) (UC Credit Limitation; MATH 141 F and MATH 129 F; maximum combined credit, one course) (Degree Credit) AA GE, CSU GE, IGETC

MATH 142 F Trigonometry (4)
Prerequisite: MATH 040 F and MATH 030 F with grades of “C” or better or math skills clearance. This course may be taken concurrently with MATH 141 F. Both MATH 141 F and MATH 142 F are required for enrollment in MATH 150AF.
Four hours lecture and one hour arranged per week. This is a one-semester course in trigonometry designed to prepare students for the study of calculus. The topics to be covered include the following: algebraic skills, measurements of angles, trigonometric functions and inverse trigonometric functions, trigonometric equations and identities, graphing of trigonometric functions, solutions of triangles, applications, complex numbers, polar coordinates, DeMoivre’s theorem. Calculators will be used for selected topics. (CSU) (Degree Credit) AA GE, CSU GE

MATH 150AF Calculus I (4)
Prerequisite: MATH 141 F and MATH 142 F or equivalent with a grade of “C” or better or math skills clearance
Four hours lecture per week. This is a beginning calculus course covering limits and continuity, differentiation of algebraic, transcendental and inverse functions, applications of differentiation, antiderivatives and indefinite integrals, and the definite integral. Graphing calculators will be used for selected topics. (Degree Credit) (CSU) (UC Credit Limitation; MATH 150AF combined with MATH 130 F; maximum credit one course) AA GE, CSU GE, IGETC

MATH 150BF Calculus II (4)
Prerequisite: MATH 150AF or equivalent with a grade of “C” or better
Four hours lecture per week. This is one of two courses covering differential equations, applications of integration, integration techniques, L’Hospital’s Rule, improper integrals, sequences and series, conics, parametric equations, and polar coordinates. Graphing calculators will be used for selected topics. (Degree Credit) (CSU) (UC Credit Limitation) AA GE, CSU GE, IGETC

MATH 171 F Discrete Mathematics (4)
Prerequisite: MATH 141 F and MATH 142 F, both with a grade of “C” or better, or math skills clearance
Four lecture hours per week. This is the first of two semesters of fundamental discrete mathematical concepts needed in computer related disciplines. The topics covered include logic, truth tables, Boolean algebra, logic circuits, elementary set theory, functions, relations, proof techniques, combinatorics, elementary probability and recurrence relations. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

MATH 172 F Graph Theory and Linear Algebra (4)
Corequisite: MATH 171 F with a grade of “C” or better
Four hours lecture per week. This is one of two courses in fundamental discrete mathematical concepts and techniques needed in computer related disciplines. Topics include the theory of graphs, trees, finite state machines, and linear algebra including matrix operations, eigenvalues, vector spaces, linear transformations, and inner product spaces. (CSU) (UC) (Degree credit) AA GE, CSU GE, IGETC
MATH 203 F Mathematics for Future Elementary Teachers (3)
Prerequisite: MATH 100 F and MATH 030 F, or equivalent, with a grade of “C” or better
Three hours lecture per week. This course is designed for prospective elementary teachers. Topics covered include: problem-solving techniques, whole numbers and numeration, set theory, elementary number theory, integers, rational numbers, ratios, proportions, decimals, and percents. The course includes instruction delivery design and activity-based explorations. (Degree Credit) (CSU) AA GE

MATH 250AF Multivariable Calculus (4)
Prerequisite: MATH 150BF with a grade of “C” or better
Four hours lecture per week. This is a third semester course in calculus covering conic sections, solid analytic geometry, vectors in three dimensions, vector calculus, differential calculus of functions of several variables, multiple integration, vector fields and theorems. Hand calculators will be used for selected topics. (Degree Credit) (CSU) (UC) AA GE, CSU GE, IGETC

MATH 250BF Linear Algebra and Differential Equations (4)
Prerequisite: MATH 250AF with a grade of “C” or better
Four hours lecture per week. This is a fourth semester course in calculus covering matrices, determinants, vector spaces, ordinary differential equations of the first order, linear second order differential equations, power series solutions, and Laplace transformations. Hand calculators will be used for selected topics. (Degree Credit) (CSU) (UC) AA GE, CSU GE, IGETC

MATH 250CF Additional Topics in Linear Algebra (2)
Corequisite: MATH 250BF taken concurrently or completed with a grade of “C” or better
Two hours lecture per week. This course completes the Introduction to Linear Algebra begun in MATH 250BF. Topics covered include linear transformations and their properties, the Dimension-sum theorem, matrices of linear transformations, inner product spaces and their properties, orthogonality, the Gram-Schmidt process, diagonalizability of symmetric matrices, and simplifying quadratic forms. (Degree Credit) (CSU) (UC) AA GE

MATH 299 F Mathematics Independent Study (1)
One to three hours lecture or scheduled conferences per week or equivalent. This course is for able students who wish to increase their knowledge of pure and/or applied mathematics through individual study and small group conferences. Elective credit in Mathematics. Course may be taken four times for credit. (CSU) (UC review required) (Degree Credit) AA GE

Metallurgy (METL)
Technology and Engineering Division
Office: Bldg 700
714.992.7051
Dean: Scott McKenzie
Website: techneng.fullcoll.edu

Metallurgy Courses

METL 192 F Fundamentals of Metallurgy (3)
Three hours lecture per week. A survey of the field of metallurgy designed to familiarize the technical student with the production, use, and testing of metals. This course is applicable for students in all technical fields. (CSU) (Degree Credit)

Microbiology (MICR)
Natural Sciences Division
Office: Bldg 1000
714.992.7043
Dean: Bruce Cordell
Website: http://natsci.fullcoll.edu/

Associate in Arts Degree

Microbiology Courses

MICR 220 F Medical Microbiology (4)
Advisory: A lab course in biological science
Three hours lecture and three hours lab per week. Includes microorganisms that are significant in the problems of health. Special attention is given to the topics of infectious disease transmission, immunology, prophylaxis, and sanitation. Principles of applied microbiology are stressed. Recommended for students in programs of allied health science. (CSU) (Degree Credit) CSU GE

MICR 262 F General Microbiology (5)
Prerequisite: A biological science lab course with a grade of “C” or better that includes cellular structure/function and CHEM 101 F or equivalent with a grade of “C” or better
Three hours of lecture and six hours of lab per week. This course studies the morphology, taxonomy, metabolism, and molecular genetics of microbes with emphasis on bacteria, protozoa, viruses, helminths and fungi. The role of microorganisms in the disease process, epidemiology, immunology and chemotherapeutic control measures, environment impact and industrial application are discussed. Lab exercises focus on the development of basic techniques in aseptic handling, visualization, and quantification of microbes. Other lab exercises include sampling water and soil for medically or environmentally important microbes, assessing antibiotic sensitivity, fluorescent microscopy, and immunoassays. The course is designed for students pursuing a career or major in microbiology and various allied health professions. (CSU) (UC) (Degree Credit) CSU GE, IGETC

Music Courses

MUS 001 F Instrumental Performance Practicum (.5-3)
Letter Grade or Pass/No Pass option
This course is for students who wish to increase their knowledge of Instrumental Performance. Various topics will be offered. Unit credit may range from .5 to 3 units in any given semester. Consult the class schedule to verify credit for a particular semester. Course may be taken four times for credit.

MUS 002 F Community Band Studies (1)
Three hours lecture and one and one-quarter hours lab per week. Performance of standard repertoire of Concert Band Literature. Emphasis is on developing tone, pitch, balance, blend, and ensemble accuracy in performance. Audition is required for seating placement within the ensemble. Performances off campus and outside of class time are required. Course may be taken four times for credit. (Degree Credit)

MUS 003 F Community Band Experience (1)
Three hours lecture and one hour lab per week. Performance of standard repertoire of Concert Band Literature. Emphasis is on development of expressive playing, nuance, phrasing, interpretation of music, and accuracy in performance. Music of British composers Ralph Vaughan Williams, Gustav Holst, Sir William Walton and Percy Grainger will be studied throughout this course. Audition is required for seating placement within the ensemble. Course may be taken four times for credit.

MUS 010 F Percussion Practicum (.5-6)
Letter Grade or Pass/No Pass option
One-half to three units lecture and one-half to three units lab per week. This course is for students who wish to increase their skills and knowledge of Percussion I performance. Various topics will be offered. Unit credit may range from .5 to 3 units in any given semester. Consult the class schedule to verify credit for a particular semester. Course may be taken four times for credit.

MUS 011 F Spring Opera Studies (3)
Letter Grade or Pass/No Pass option
Three hours lecture plus one hour listening in the Music Lab per week. This course is dedicated to the students’ understanding and appreciation of the repertoire, artists, and productions of opera with an emphasis upon the current Metropolitan Opera season. Opportunity for attendance at Metropolitan Opera performances in New York City will be provided. Course may be taken four times for credit.

MUS 012 F Summer Opera Studies (3)
Letter Grade or Pass/No Pass option
Three hours lecture plus one hour listening in the Music Library per week. This course is dedicated to the students’ understanding and appreciation of the repertoire, artists, and productions of opera with an emphasis upon the current Santa Fe Opera season in Santa Fe, New Mexico. Opportunity for attendance at Santa Fe Opera performances will be provided. Course may be taken four times for credit.

MUS 013 F Fall Opera Studies (3)
Letter Grade or Pass/No Pass option
Three hours lecture plus one hour listening in the Music Library per week. This course is dedicated to the students’ understanding and appreciation of the repertoire, artists, and productions of opera with an emphasis upon current Opera Pacific and Los Angeles Opera seasons. Opportunities for attendance at local operatic productions will be provided. Course may be taken four times for credit.

MUS 021 F The Teaching of Piano I (3)
Letter Grade or Pass/No Pass option
Prerequisite: Piano audition
Three hours lecture per week plus one hour per week in Music Lab. This course is designed to develop skills on methods of teaching beginning and elementary piano students. The emphasis is on comparison of piano books available today; communication skills; networking; and business aspects of maintaining a private piano studio. This course is not for beginning pianists.

MUS 022 F The Teaching of Piano II (3)
Letter Grade or Pass/No Pass option
Three hours lecture per week in Music Lab. This course is an overview of performance practices and musical styles of each musical period. Students will learn pedagogical methods for teaching intermediate to early advanced level piano students through a hands-on study of repertoire, theory and technique from a teaching standpoint. Class participation includes peer teaching, piano competition, and teaching demonstrations. Beginning pianists may not take this course.

MUS 030 F Music Notation Software (2)
Letter Grade or Pass/No Pass option
Two hours lecture plus two hours arranged in the Music Lab per week. This course offers instruction in the preparation of professional-quality manuscripts, vocal scores, and instrumental scores. This course will include the transposition of instruments and copying from full instrumental scores and is open to all music majors, music teachers, or performers. This is a career-oriented course. (Degree Credit)

MUS 031 F History and Appreciation Practicum (.5-3)
Letter Grade or Pass/No Pass option
One-half to three units lecture and one-half to three units lab per week. This course is for students who wish to increase their knowledge of Music History and Appreciation. Various topics will be offered. Unit credit may range from .5 to 3 units in any given semester. Consult the class schedule to verify credit for a particular semester. Course may be taken four times for credit.

MUS 070 F Musical Theatre Techniques (2)
Pass/No Pass only
Two hours lecture per week. Students will participate in an in-depth analysis and application of the skills necessary for the performance in the styles of Musical Theatre, from audition to performance. Course may be taken four times for credit.
MUS 072 F Opera Theatre Workshop (2)
Advisory: Students are admitted by audition or by consent of the instructor.
Two lecture hours per week. The student will participate in an in-depth analysis and application of the skills necessary for the performance in the styles of opera theater from audition to performance. Course may be taken four times for credit.

MUS 080 F Steel Drum Class (1)
One hour lecture and one hour lab per week. The Steel Drum Class is intended to give the students the basic skills to play the steel drum. Students will get hands on experience in an ensemble setting. This class is designed to prepare students for the Steel Drum Ensemble. Lectures and demonstrations are combined with hands on experience in learning to play the steel drum. Students will learn music from Trinidad, modern jazz, and classical arrangements. This will be accomplished through sight reading and by traditional rote methods. Course may be taken four times for credit.

MUS 081 F Music Tour Practicum (.5-3)
Letter grade or Pass/No Pass option
Zero to three hours lecture per week plus zero-nine hours lab per week. This course is for students who wish to increase their knowledge and skills in a practical concert tour. This class will involve the students in the preparation, management, and performance venues appropriate for the genre. Various topics will be offered. Unit credit may range from .5 to 3 units in any given semester. Consult the class schedule to verify credit for a particular semester. Course may be taken for credit four times.

MUS 097 F Intermediate Percussion: Drum Set (1)
Prerequisite: MUS 152 F with a grade of "C" or better and audition establishing elementary sight reading skills
One hour lecture and one hour lab per week, plus one hour per week in Practice lab 1114-N. The students will learn popular drum set techniques through lecture, demonstration, text, studio and video recordings and class participation. The instructor will give group and individual instruction and present an overview of Jazz, Rock, Latin, and Pop drumming styles. Course may be taken four times for credit.

MUS 100 F Music Lab (1-2)
Open Entry/Open Exit
Pass/No Pass only
Fifty-four to one hundred eight hours lab required per term in the Computer Lab, Music Library or Practice Room Suite 1114. For each 54 hours beyond the music requirements that the student spends progressing in the Computer Lab, listening in the Music Library or practicing in the Practice Room Suite 1114, one unit of credit will be granted. All hours must be verified by computer sign in. (CSU) (Degree Credit)

MUS 101 F Music Fundamentals (3)
Three hours lecture per week. This course is designed as an entry-level music theory course for non-music majors. The course includes basic music terminology, rhythm and pitch notation, clefs, scales, intervals and triads. Concurrent enrollment in MUS 135AF or MUS 135BF is desirable. (CSU) (UC) (Degree Credit) AA GE, CSU GE

MUS 102 F Music Reading (3)
Three hours lecture per week plus one hour in the Rhythm Lab or Music Library per week. Designed for the person whose music reading skills are non-existent or very limited. Emphasis is upon learning by tapping rhythmic patterns and singing melodic materials, but includes enough of basic rhythm and pitch notation, intervals, scales, and meter by key signatures to make this possible. Open to all students but should be of special interest to prospective music majors, church choir members, and others who want to develop skills in music reading. (CSU) (UC) (Degree Credit) AA GE, CSU GE

MUS 104AF Beginning Musicianship (1)
Prerequisite: MUS 106 F with a grade of "C" or better
Corequisite: MUS 107AF
Advisory: MUS 135AF
Two hours lecture per week plus one hour in the Rhythm/Computer Lab per week. This is the first course in ear training, sight singing, and musicianship for the music major. It includes sight singing, developing melodic and rhythmic performance skills along with melodic, harmonic, and rhythmic dictation. (CSU) (UC) (Degree Credit)

MUS 104BF Intermediate Musicianship (1)
Prerequisite: MUS 104AF with a grade of "C" or better
Corequisite: MUS 107BF
Advisory: MUS 135AF
Two hours lecture per week plus one hour in the Rhythm/Computer Lab per week. This course is a continuation of MUS 104AF. It includes the development of, at increasingly more difficult levels, melodic and rhythm sight singing, along with melodic, harmonic, and rhythmic dictation. (CSU) (UC) (Degree Credit)

MUS 106 F Introduction to Music Theory (3)
Advisory: MUS 135AF
Three hours lecture and one hour lab per week. Designed as the entry-level music theory class for music majors, the course includes basic music terminology, rhythm and pitch notation, clefs, scales, intervals, and triads. Keyboard and aural skills will also be introduced, along with a concise outline of the major style periods of music history. The ability to read music is strongly recommended and desirable. This course provides essential background for more advanced courses in music theory. (CSU) (UC) (Degree Credit) AA GE, CSU GE

MUS 107AF Harmony I (3)
Prerequisite: MUS 106 F with a grade of "C" or better, or the ability to read music in treble and bass clef and to understand basic music terminology, rhythm and pitch notation, clefs, scales, intervals, and triads
Corequisite: MUS 104AF
Advisory: MUS 135AF
Three hours lecture per week. This is the second course in music theory for music majors and includes four-part writing, cadences, 7th chords, chord inversions, figured bass symbols, tonality, phrases, periods, non-harmonic tones, harmonic progressions and keyboard harmony. (CSU) (UC) (Degree Credit) AA GE, CSU GE

MUS 107BF Harmony II (3)
Prerequisite: MUS 107AF with a grade of "C" or better
Corequisite: MUS 104BF
Advisory: MUS 135AF
Three hours lecture per week. This course follows MUS 107AF in the music theory sequence. It includes altered non-harmonic tones, and secondary dominants, modulation to closely related keys, borrowed chords, augmented sixth chords, the Neapolitan sixth, and altered dominants. Further studies will include modulation to foreign keys, ninth, eleventh, and thirteenth chords, and two and three part song form. (CSU) (UC) (Degree Credit)
MUS 108 F Introduction to Music Technology (2)  
Two hours lecture per week. This course is a prerequisite or concurrent course to recording (MUS 124 F) and electronic music (MUS 110 F) classes. This course is required of music majors. The course covers the fundamentals of digital audio, microphones, mixers, signal processors, and recording and editing devices. The course also covers the fundamentals of electronic music theory and techniques for instrument synthesis and sound design. (CSU) (Degree Credit) AA GE, CSU GE

MUS 110 F Electronic Music I (3)  
Prerequisite: MUS 108 F  
Three hours lecture per week plus one hour arranged per week in the synthesizer lab. The course covers the recent history of electronic music, the classical tape studio, and the analog voltage controlled synthesizer, as well as the fundamentals of electronic music theory and techniques for instrument synthesis and sound design. (CSU) (Degree Credit) CSU GE

MUS 112 F The Music Business (2)  
Two hours lecture per week. This course is an introduction to intellectual property law, copyright forms, songwriter, publisher, recording artist, producer, and personal management agreements. This course also includes an explanation of Performance Rights Societies, licensing procedures, the foreign market, record manufacturing and distribution, and an overall look at the dynamics of the music and entertainment industries. Guest speakers will appear according to availability. (CSU) (Degree Credit)

MUS 113 F Jazz History — An Appreciation (3)  
Three hours lecture per week plus one hour arranged per week in the Music Library per week. This course is a historical study of America’s only original musical art form: jazz music. The principal focus will be on developing an appreciation and understanding of the music with secondary emphasis on the historical and cultural conditions, which influenced each era of jazz music; Dixieland, Swing, Cool Jazz, Bebop, Free Jazz, and Fusion. Active listening will be the primary function in the classroom. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

MUS 114 F Women, Music and Society (3)  
Three hours lecture plus 30 minutes arranged listening in the Music Lab per week. This course focuses on the contributions women have made as composers and performers as well as gender-specific problems to which women have been subject. There will be recitals and guest lecturers as well as presentations by students of selected topics. Attendance at two concerts related to women making music. (CSU) (UC) (Degree Credit) AA GE, CSU GE

MUS 116 F Music Appreciation (3)  
Letter Grade or Pass/No Pass option  
Three hours lecture per week, plus one hour arranged per week in the Music Library per week. This course is designed for the non-music major, and will cover music materials from the Middle Ages to the present. Emphasis is on listening to and the discussion of choral, orchestral, solo, opera, and chamber works. Concert attendance is required. Open to all students. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

MUS 117 F American Popular Music/Jazz Music Survey (3)  
Prerequisite: Reading skills evaluation recommended  
Three hours lecture per week, plus one hour arranged per week in the Music Library per week. Beginning with the musical influences of India, Africa, and Europe, the course examines the conditions that made the music happen “that way” and grow into today’s music. Includes Ragtime and Storyville, Blues, Spirituals and the Great Awakening, Jazz Age, Depression and Radio, Swing the King, Big Bands, Boogie Woogie, Rhythm ‘n Blues, Country and Western, Rock ’n Roll, Progressive Rock, Beatles and Rolling Stones, White Ballad Tradition and Electronic Music. (CSU) (UC) AA GE, CSU GE, IGETC

MUS 118 F Introduction to Opera (3)  
Letter Grade or Pass/No Pass option  
Three hours lecture per week plus one hour arranged per week in the Music Library per week. This course is an introduction to the standard operatic repertoire in terms of development of musical style, dramatic structure, and performance practices. Emphasis on elements of the art of operatic singing, voice classification, vocal range and technique, and dramatic values. Opportunities for attendance at operatic performances will be provided. Open to all students. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

MUS 119 F History of Rock Music (3)  
Three hours lecture per week. This course is an introduction to the history of rock music, the principal focus will be on the music with secondary emphasis on the social, political, and economic conditions, which so heavily influenced this musical development. Listening will be the primary function in the classroom. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

MUS 120 F Survey of Music History (3)  
Three hours lecture per week. This course is a survey of the history of western art music from antiquity through the twentieth century including the contributions of other cultures with selected readings, recordings, and score analysis. Emphasis is placed on cultural influences, performance practices, media, composers, and characteristics of each style period. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

MUS 123 F Concert Hour (1)  
One hour lecture per week. Performance-lectures by faculty, guest artists, and students. Designed to provide the opportunity for students to expand their musical horizons by exposure to a wide variety of musical fare, to learn their roles as listeners, and to participate as student recitalists. Required of music majors but open to all students. Course may be taken four times for credit. (CSU) (Degree Credit) AA GE

MUS 124 F Recording Studio I (3)  
Prerequisite: MUS 108 F  
Two hours lecture and four hours lab per week. This course covers the fundamental concepts in audio recording technology. Including studio business practices, microphones, mixers, signal processors, the sound field, monitors, recording and editing devices, synchronization, and production techniques. (CSU) (Degree Credit)
MUS 125 F Recording Techniques Workshop for Performers (1)
One hour lecture plus one hour lab per week. This course is designed for the music performer enrolled in a college performance ensemble that is involved in making a performance tape, CD, DVD or TV show. Course includes recording, use of clic tracks, mike placement/set up, use of headphones, proper overdubbing techniques, lip syncing when needed and developing advanced studio performance skills. Units earned will be one unit of credit for 18 hours of time. Enrollment in this class is available only to students who are enrolled in a college performing group or small ensemble that is recording during the term the class is being offered. (CSU) (Degree Credit)

MUS 126 F Beginning Voice (1)
One hour lecture and one hour lab per week plus one hour practice in Practice Room Suite 1114 per week. Study of basic vocal techniques in a class situation. Deals with problems in tone production, breath control, pronunciation and choice of song literature. Preparation for recitals. Open to all students. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)

MUS 130 F Beginning Guitar (1)
Letter Grade or Pass/No Pass option
One hour lecture and one hour lab plus one hour practice in Practice Room Suite 1114 per week. Study focuses on the fundamentals of playing the guitar: technique, note reading, scales, chords, simple picking and strumming patterns. A variety of musical styles, from classical to rock, are included in the repertoire. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)

MUS 135AF Beginning Piano (1)
Letter Grade or Pass/No Pass option
One hour lecture and one hour lab per week plus one hour practice in Practice Room Suite 1114 per week. This course will cover the fundamentals of piano playing, posture, keyboard topography, note reading, 5-finger-pattern exercises, sight reading and piano repertoire. Course involves sight reading, technique and performing of prepared pieces. Required of music majors whose piano skills are non-existent or very limited. Open to all students. (CSU) (UC) (Degree Credit) CSU GE

MUS 135BF Piano (1)
Letter Grade or Pass/No Pass option
Prerequisite: MUS 135AF with a grade of “C” or better
One hour lecture and one hour lab per week plus one hour practice in Practice Room Suite 1114 per week. Progressive study of basic piano techniques in a class situation. Focuses on developing functional keyboard skills by using basic chordal and scale materials. Involves group and solo playing of familiar melodies such as folk tunes, classical, romantic and contemporary pieces. Required of music majors whose piano skills are very limited. Open to all students. May be taken three times for credit. (CSU) (UC) (Degree Credit)

MUS 143 F Beginning Strings (1)
One hour lecture and one hour lab per week plus one hour practice in Practice Room Suite 1114 per week. Study of the violin, viola, cello or string bass in a class situation. No previous experience necessary. Open to all students. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)

MUS 146 F Woodwind Class (1)
One hour lecture and one hour lab per week plus one hour practice in Practice Room Suite 1114 per week. Study of the flute, oboe, bassoon, clarinet or saxophone in a class situation. No previous woodwind experience necessary. Open to all students. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)

MUS 149 F Brass Class (1)
One hour lecture and one hour lab per week plus one hour practice in practice Room Suite 1114 per week. Study of the trumpet, French horn, trombone, baritone horn, or tuba in a class situation. No previous brass experience necessary. Open to all students. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)

MUS 152 F Percussion Class (1)
One hour lecture and one hour lab per week plus one hour practice in Practice Room Suite 1114 per week. Study of snare drum, timpani, and keyboard-mallet instruments in a class situation. Emphasis on rhythmic accuracy. No previous percussion experience necessary. Open to all students. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)

MUS 156 F Beginning Jazz Improvisation — Instrumental (1)
One hour lecture and two hours lab per week plus one and one-quarter hours in the Rhythm Lab, Recording Studio, or Music Library per week. Emphasis upon beginning techniques of rhythmic, melodic, and harmonic improvisation. Course may be taken twice for credit. (CSU) (UC) (Degree Credit)

MUS 157 F Beginning Vocal Styling and Improvisation (1)
Advisory: Concurrent or previous enrollment in MUS 126 F
One hour lecture and one hour lab per week plus 1-1/4 hours in the Rhythm Lab, Recording Studio or Music Library per week. Designed to give vocal students training in jazz and popular song-styling techniques and to introduce students to rhythmic and melodic word manipulation (improvisation). May be taken twice for credit. (CSU) (UC) (Degree Credit)

MUS 180 F Collegiate Chorale (1)
Three hours rehearsal per week plus one and one-quarter hour per week arranged in rehearsals, studio recording, and concerts. Standard choral literature will be rehearsed and performed, with an emphasis on basic choral techniques. Course is open to all students. Course may be taken four times for credit. (CSU) (UC) (Degree Credit) AA GE

MUS 181 F Women's Chorale (1)
Three hours rehearsal per week plus one and one-quarter hour per week arranged in rehearsals, studio recording, and concerts. Women’s Chorale is a performing group, which performs traditional choral music for treble voices in styles from the Baroque, Classical, Romantic, and Contemporary periods. This course is open to students with limited or no singing experience. Ability to sing accurate pitches is strongly desirable. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)

MUS 196HF Honors Creative Arts — Music (3)
Three hours lecture and one hour lab per week. This course explores the nature of creativity through exposure to the performing arts, literature and the fine arts. Honors students will make independent investigation into the various art forms and apply aesthetic theory to discover inter-relationships between genres. Students are required to attend museums, concerts and theatrical performances. Students who receive credit in this course may not receive credit in THEA 196HF or ART 196HF (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC
MUS 203 F Counterpoint (3)
Prerequisite: MUS 107BF with a grade of "C" or better
Corequisite: MUS 204AF
Advisory: MUS 135AF
Three hours lecture per week. This course introduces the contrapuntal style of 17th and 18th century counterpoint including application to the 20th century. This class explores, through analysis and writing, free counterpoint, technique of canonic writing, two-part invention, and three-part fugue. (CSU) (UC) (Degree Credit)

MUS 204AF Advanced Musicianship (1)
Prerequisite: MUS 104BF with a grade of "C" or better
Advisory: MUS 135AF
Two hour lecture plus one hour in the Music Library or Rhythm Lab per week. This course is a continuation of MUS 104BF. This course includes the development of, at increasingly more difficult levels, melodic and rhythmic sight singing, along with melodic, harmonic and rhythmic dictation. (CSU) (UC) (Degree Credit)

MUS 204BF Pop/Commercial Musicianship (formerly Advanced Musicianship) (1)
Prerequisite: MUS 104BF with a grade of "C" or better
Corequisite: MUS 205 F
Two hours lecture plus one hour in the Music Library or Rhythm Lab per week. This course is a continuation of MUS 204AF. It includes the development of, at increasingly more difficult levels, melodic and rhythmic sight singing, along with melodic, harmonic, and rhythmic dictation. (CSU) (UC) (Degree Credit)

MUS 205 F Pop/Commercial Music Theory (3)
Prerequisite: MUS 107BF
Corequisite: MUS 204BF
Four hours lecture per week plus one hour in the Rhythm Lab or Music Library per week. Study of harmonic material as used in popular music and jazz. Emphasis on aural recognition of chords, harmonic progressions and melodies. Study of chord progressions, substitutions, harmonic alterations and melodic writing. (CSU) (UC) (Degree Credit)

MUS 207 F Pop/Commercial Arranging/Composing (3)
Prerequisite: MUS 205 F
Four hours per week lecture plus one hour in the Rhythm Lab or Music Library per week. Analysis of contemporary and traditional songs and study of techniques of scoring for various combinations of voices and instruments. Emphasis of using modern orchestration and scoring projects to be performed and recorded for class members. (CSU) (Degree Credit)

MUS 208 F Music Copying (2)
Two hours lecture per week. Instruction in the preparation of professional-quality manuscripts, vocal scores and instrumental scores. Includes transposition of instruments and copying from full instrumental scores. Open to all music majors, music teachers or performers. This is a vocational, career-oriented course. (CSU)

MUS 224 F Recording Studio II (3)
Prerequisite: MUS 124 F
Two hours lecture and four hours lab per week. This course provides an introduction to digital audio concepts, recorders, synchronization, and the digital audio workstation. Students will be assigned projects in the music department's recording facilities. Course may be taken twice for credit. (CSU) (Degree Credit)

MUS 225 F Applied Music — Private Study (1)
Prerequisite: Audition
One hour lecture per week, plus one half hour lesson with private instructor per week, plus five hours of practice in Practice Room per week. This course is for music majors and it affords them the opportunity to receive private music lessons with a Fullerton College Faculty member. A performance at Faculty Juries is required each semester. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)

MUS 227 F Intermediate Voice (1)
Advisory: MUS 126 F
One hour lecture and one hour lab per week plus one hour practice per week in Practice Suite 1114. Study of vocal literature and techniques in a class situation. Emphasis on individual progress in tone production, breath control and diction. Designed for more advanced non-major, or the voice major not yet qualified for Advanced Voice. Preparation for recitals. (CSU) (UC) (Degree Credit)

MUS 228 F Advanced Voice (1)
Advisory: MUS 227 F or audition
One hour lecture and one hour lab per week plus one hour practice in Practice Room Suite 1114 per week. Individual instruction in vocal techniques and interpretation of solo voice literature in a class situation. Emphasis upon repertoire and public performance. Participation in recitals is required. Designed for music majors but open to all students. Faculty juries requested each semester. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)

MUS 231 F Intermediate Guitar (1)
Prerequisite: MUS 130 F
One hour lecture and one hour lab per week. Study of guitar literature and techniques in a class situation. Emphasis on individual progress in execution and interpretation. Designed for more advanced non-guitar major or the guitar major who is not yet qualified for Classical or Jazz Guitar. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)

MUS 232 F Classical Guitar (1)
Prerequisite: MUS 231 F
One hour lecture and one hour lab per week. Individual instruction in guitar techniques and interpretation of solo guitar literature in a class situation. Emphasis upon repertoire and public performance. Participation in recitals is required. Designed for music majors but open to all students. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)

MUS 233 F Jazz Guitar (1)
Prerequisite: Audition
One hour lecture and one hour lab per week. Designed to give a functional knowledge of the guitar and the electric-bass in the jazz and popular idioms. Emphasis upon diatonic scales in all positions, chords, arpeggios and practical theory. In the evening college this class may be offered as guitar only, or electric-bass only if enrollment warrants — see schedule of classes. Designed for music majors but open to all students. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)

MUS 234 F Intermediate Rock Guitar (1)
Prerequisite: Audition or MUS 130 F
One hour lecture and one hour lab per week. This is a skills course designed for the guitarist who has already mastered the fundamental instrumental technique and basics of music. Study focuses on proceeding from the general study of the guitar to techniques specific to rock, blues, and pop guitar styles. Open to students who have completed at least one semester of MUS 130 F, or to other students by audition. Course may be taken four times for credit. (CSU) (Degree Credit)
MUS 236 F Intermediate Piano (1)  
**Prerequisite:** MUS 135BF or audition  
One hour lecture and one hour lab per week plus one hour practice in Practice Room Suite 1114 per week. Study of keyboard literature and techniques in a class situation. Emphasis on individual progress in building musical vocabulary, phrasing, articulations, technique and interpretation. Designed for the more advanced non-piano major or the piano major who is not yet qualified for Advanced Piano. May be taken four times for credit. (CSU) (UC) (Degree Credit)

MUS 237 F Advanced Piano (1)  
**Prerequisite:** MUS 236 F  
One hour lecture and one hour lab per week plus one hour practice in Practice Room Suite 1114 per week. Individual instruction on piano techniques and interpretation of solo piano literature in a class situation. Emphasis will be on building and memorizing piano repertoire and public performance. Performance by memory is required. Designed for music majors but open to all students. May be taken four times for credit. (CSU) (UC) (Degree Credit)

MUS 238 F Pop/Commercial Piano (1)  
**Prerequisite:** Audition  
One hour lecture and one hour lab per week plus one hour practice in Practice Room Suite 1114 per week. Exploration and study of basic harmonic and rhythmic concept at the keyboard as applied to jazz and popular music. Emphasis on improvisation. Designed for music majors but open to all students. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)

MUS 244 F Advanced Strings (1)  
**Prerequisite:** MUS 143 F or audition  
One hour lecture and one hour lab per week plus one hour practice in Practice Room Suite 1114 per week. Individual instruction in string techniques and interpretation of solo string literature in a class situation. Emphasis upon repertoire and public performance. Participation in recitals is required. In the evening college this class may be offered as violin only, cello only, or string bass only if enrollment warrants — see schedule of classes. Designed for music majors but open to all students. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)

MUS 247 F Advanced Woodwinds (1)  
**Prerequisite:** MUS 146 F or audition  
One hour lecture and one hour lab per week plus one hour practice in Practice Room Suite 1114 per week. Individual instruction in woodwind techniques and interpretation of solo woodwind literature in a class situation. Emphasis upon repertoire and public performance. Participation in recitals is required. In the evening college this class may be offered as flute only, clarinet only, saxophone only, oboe only, or bassoon only if enrollment warrants — see schedule of classes. Designed for music majors but open to all students. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)

MUS 250 F Advanced Brass (1)  
**Prerequisite:** MUS 149 F or audition  
One hour lecture and one hour lab per week plus one hour practice in Practice Room Suite 1114 per week. Individual instruction in brass techniques and interpretation of solo brass literature in a class situation. Emphasis upon repertoire and public performance. Participation in recitals is required. In the evening college this class may be offered as trumpet only, French horn only, trombone-baritone only, or tuba only if enrollment warrants — see schedule of classes. Designed for music majors but open to all students. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)

MUS 253 F Advanced Percussion (1)  
**Prerequisite:** MUS 152 F or audition  
One hour lecture and one hour lab per week plus one hour practice in Practice Room Suite 1114 per week. Individual instruction in percussion techniques and interpretation of solo percussion literature in a class situation. Emphasis upon repertoire and public performance. Participation in recitals is required. In the evening college this class may be offered as keyboard-mallet only, traps only, or other combination of percussion instruments if enrollment warrants. Designed for music majors but open to all students. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)

MUS 256 F Advanced Jazz Improvisation — Instrumental (1)  
**Prerequisite:** MUS 156 F or audition  
One hour lecture and two hours lab per week plus one and one-quarter hours in the Rhythm Lab, Recording Studio, or Music Library per week. Emphasis upon intermediate techniques of rhythmic, melodic, and harmonic improvisation. Course may be taken twice for credit. (CSU) (UC) (Degree Credit)

MUS 257 F Advanced Vocal Styling and Improvisation (1)  
**Advisory:** MUS 157 F, two terms with a grade of “B” or better or audition  
One hour lecture and one hour lab per week plus 1-1/4 hours in the Rhythm Lab, Recording Studio or Music Library per week. Designed to give vocal students training in jazz and popular song-styling techniques and to introduce students to advanced rhythmic and melodic word manipulation (improvisation). Course may be taken twice for credit. (CSU) (UC) (Degree Credit)

MUS 258 F Jazz Guitar Reading Ensemble (1)  
**Advisory:** MUS 234 F, MUS 231 F and/or MUS 233 F  
Lectures and demonstrations are combined with rehearsals of beginning and intermediate level jazz guitar repertoire. Emphasis is placed on developing reading skills (both rhythm and note recognition), chord knowledge, and improvisation up to the intermediate level. Intermediate guitarists are also given the opportunity to work with a rhythm section and to develop the skills necessary to work effectively with other instrumentalists. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)

MUS 259 F Steel Drum Ensemble (1)  
**Prerequisite:** Audition  
One hour lecture and one hour lab per week. Lectures and demonstrations are combined with student performances that provide information and opportunities toward the goal of live musical performances in the Steel Pan Ensemble. Emphasis will be placed on sight reading and improvisation of music from Trinidad, modern jazz, and classical arrangements. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)

MUS 260 F Guitar Ensemble (1)  
**Prerequisite:** Audition  
One hour lecture and one hour lab per week. Rehearsal and performance of original and transcribed guitar ensemble literature. Performances required of all participants. Open to all students by audition. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)
MUS 261 F String Ensemble (1)
Prerequisite: Audition
One hour lecture and one hour lab per week. Rehearsal and performance of standard and current string ensemble literature. This course is open to music majors as well as non-music majors and to all residents of the North Orange County Community College District. This course is open to all students by audition. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)

MUS 262 F Woodwind Ensemble (1)
Prerequisite: Audition
One hour of lecture and one hour of lab per week plus one hour of practice in the Practice Room Suite per week. Lecture/demonstrations with student performances are used to increase understanding and appreciation of many musical genres including Fusion, Latin, Rock, Pop, Salsa, Indian, and Afro-Cuban music and their relationship to modern American composition. Ability to play suitable instruments is required. Previous band, jazz ensemble, or orchestra experience and improvisational skills are desirable. Open to all students by audition. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)

MUS 263 F Brass Ensemble (1)
Prerequisite: Audition
One hour of lecture and one hour of lab per week plus one hour practice in Practice Room per week. The class will consist of study, rehearsal, and performance of Woodwind Ensemble music. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)

MUS 264 F Percussion Ensemble (1)
Prerequisite: Audition
One hour lecture and one hour lab per week. Rehearsal and performance of standard and current percussion ensemble literature. Open to all students by audition. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)

MUS 265 F Piano Ensemble (1)
Prerequisite: Audition
One hour lecture and one hour lab per week. The course is designed to enhance ensemble-playing skills by focusing on rehearsal technique, balance, and hand coordination. Emphasis is on performing of standard and current duo pieces, four-hand literature, and pieces requiring more than two pianos and/or other instruments. Participation in piano ensemble recital and performances is required. May be taken four times for credit. (CSU) (UC) (Degree Credit)

MUS 266 F Jazz Combo (1)
Prerequisite: Audition
One hour lecture and two hours lab per week. Lecture/demonstrations, combined with student performances, recordings and tours are used to increase understanding and appreciation of many Jazz genres and their relationship to modern American Music. Ability to play suitable instruments is required. Previous band, jazz ensemble, or orchestra experience and improvisational skills are desirable. Open to all students by audition. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)

MUS 268 F Jazz Guitar Ensemble (1)
Prerequisite: MUS 233 F
One hour lecture and one hour lab per week. Lecture/demonstrations are combined with student performances to provide opportunities for learning and growth in the area of jazz guitar. Particular emphasis is placed on the application of advanced guitar techniques to standard jazz literature. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)

MUS 269 F Alternative Jazz LAB Ensemble (1)
Prerequisite: Audition
One hour lecture and two hours lab per week. The combination of lecture/demonstrations with student performances are used to increase understanding and appreciation of many musical genres including Fusion, Latin, Rock, Pop, Salsa, Indian, and Afro-Cuban music and their relationship to modern American composition. Ability to play suitable instruments is required. Previous band, jazz ensemble, or orchestra experience and improvisational skills are desirable. Open to all students by audition. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)

MUS 271 F Fullerton College Symphony (1)
Prerequisite: Audition
Three hours rehearsal per week plus one and one-quarter hours per week arranged in rehearsals, studio recording, and concerts. Rehearsal and performance of standard orchestral literature. Performances on Campus and in surrounding communities. Open to all residents of the North Orange County Community College District by audition. Course may be taken four times for credit. (CSU) (UC) (Degree Credit) AA GE

MUS 273 F Concert Band (1)
Prerequisite: Audition
Three hours rehearsal per week plus one and one-quarter hour per week arranged in rehearsals and concerts. This course will rehearse and perform standard band literature. Public performances will be held at various locations. Open to all residents of the North Orange County Community College District. Course may be taken four times for credit. (CSU) (UC) (Degree Credit) AA GE

MUS 274 F Fullerton College Symphonic Winds (1)
Prerequisite: Audition
Three hours rehearsal per week plus one and one-quarter hour per week arranged in rehearsals, recordings, and concerts. Rehearsals and performance of standard band literature. Performances, which are required of all participants, take place on campus and in the community. This course is open to music majors and non-music majors. An audition is required. Course may be taken four times for credit. (CSU) (UC) (Degree Credit) AA GE

MUS 275 F Bravo Brass (1)
Prerequisite: Audition
Three hours rehearsal per week plus one and one-quarter hour per week arranged in rehearsals, recording, and concerts. Rehearsal and performance of standard brass literature. Includes American popular and jazz music and a variety of ensemble combinations including voice. Open to all residents of the North Orange County Community College District by audition. Course may be taken four times for credit. (Not currently being offered — if interested, contact Division Office.) (CSU) (UC) (Degree Credit)

MUS 276 F Jazz Band (1)
Prerequisite: Audition
Advisory: Concurrent enrollment in MUS 274 F
Three hours rehearsal per week plus one and one-quarter hour per week arranged in sectional rehearsals, studio recording, and concerts. Rehearsal, recording, and concert performance of standard and current jazz fusion music. Student compositions and arrangements encouraged. Open to all students by audition. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)
MUS 277 F Jazz LAB Band (1)
Prerequisite: Audition
Advisory: Concurrent enrollment in MUS 274 F
Three hours rehearsal per week plus one and one-quarter hour per week arranged in rehearsals, studio recording, and concerts. Rehearsal, recording, and concert performances of standard and current jazz/fusion and swing era big band music. Student composition/arrangements encouraged. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)

MUS 281 F Concert Choir (1)
Prerequisite: Audition
Three hours rehearsal per week plus one and one-quarter hour per week arranged in rehearsals, studio recordings, and concerts. Standard choral literature will be rehearsed and performed with an emphasis on early western music of the Renaissance and Baroque periods. Course is open to all students by audition. Course may be taken four times for credit. (CSU) (UC) (Degree Credit) AA GE

MUS 282 F Fullerton College Master Chorale (1)
Prerequisite: Audition
Three hours rehearsal per week plus 1-1/4 hours per week arranged in additional rehearsals, recordings, and concerts. This course is a performance oriented class and incorporates traditional choral literature of a sacred and secular nature. There will be at least one major work performed per year. Performances are required of all participants. Generally the performances are on campus but there may be some performances in the community. This course is open to music majors as well as non-music majors and to all residents of the North Orange County Community College District. An audition is required. Course may be taken four times for credit. (CSU) (UC) (Degree Credit) AA GE

MUS 285 F Chamber Singers (1)
Advisory: Audition
Three hours rehearsal per week plus 1-1/4 hours per week arranged in rehearsals, studio recording, and concerts. Choral Chamber Music literature will be rehearsed and performed on campus, in surrounding communities and schools, and on occasional tours. Open to all students. May be taken four times for credit. (CSU) (UC) (Degree Credit)

MUS 287 F Vocal Jazz Ensemble (1)
Advisory: Audition
Three hours rehearsal per week plus one and one-quarter hour per week arranged in rehearsals, studio recordings, and concerts. The students in this course will rehearse and perform standard and current music from the Vocal Jazz genre. The vocalists will be accompanied by a small instrumental ensemble. There will be a secondary emphasis upon vocal improvisation in the scat style. Student compositions and arrangements are encouraged. Open to all students by audition. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)

MUS 288 F BRAVO Song/Dance Ensemble (1)
Prerequisite: Audition
Three hours rehearsal per week plus one and one-quarter hour per week arranged in rehearsals, studio recordings, and concerts. Singers who dance and dancers who sing will rehearse and perform standard and commercial music. Small instrumental ensembles or sound tracks accompany performances. Literature is chosen with an emphasis on scenes from musical theatre. Instruction includes choreography, staging, vocal and microphone techniques. This course is open to all students by audition. Course may be taken four times for credit. (CSU) (Degree Credit)

MUS 290 F Musical Theatre Production (3)
Prerequisite: Audition
Twenty hours rehearsal per week during summer session or equivalent (two and one-half hours lecture and seven and one-half hours lab per week per semester). Rehearsal and performance of a musical or opera. Participation in all phases of the production is required. Includes leading roles, under study roles, chorus parts, dance routines, staging, and acting. Open to all students by audition. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)

MUS 299 F Music Independent Study (1)
Prerequisite: MUS 110 F
One hour conference per week. For advanced students who wish to pursue a particular area of music through individual study. Course may be taken four times for credit. (CSU) (UC review required) (Degree Credit)

MUS 910 F Electronic Music II (3)
Prerequisite: MUS 910 F
Three hours lecture and one hour arranged per week in the synthesizer lab. This class covers the procedures, instruments, and techniques used in a contemporary MIDI synthesizer studio. It includes the use of sequencers, editor/librarians, intelligent arrangers, algorithmic composers, and non-linear editing in a digital audio workstation. Course may be taken three times for credit. (Degree Credit)

Office Technology Courses

OT 010 F Computer Concepts (1)
Open Entry/Open Exit
Pass/No Pass only
Nine hours lecture and twenty-seven hours lab per semester. This is an open-entry/open-exit course that allows students to gain knowledge in basic computer concepts through completion of projects and exams. This includes concepts about hardware and software, Internet, networking, multimedia, operating systems, and productivity applications.
OT 011 F College Keyboarding Skills (1)
Open Entry/Open Exit
Nine hours lecture and twenty-seven hours lab per semester. This is an open entry/open-exit course that introduces keyboarding to students with no previous computer experience. Students will develop touch control of the keyboard and will learn proper typing techniques. Students will also learn to format standard business letters, memorandums and reports using Microsoft Word.

OT 012 F College Keyboarding Formatting Skills (1)
Open Entry/Open Exit
Nine hours lecture and twenty-seven hours lab per semester. This is an open-entry/open-exit keyboarding formatting course for students with no previous computer experience. Students will continue developing touch control of the keyboard and will learn to format various kinds of business correspondence, electronic forms, and desktop publishing projects from unranged and rough-draft sources.

OT 013 F College Keyboarding Speed and Accuracy (1)
Open Entry/Open Exit
Nine hours lecture and twenty-seven hours lab per semester. This is an open-entry/open-exit course that introduces keyboarding to students with no computer skills. This class teaches keyboarding in a hands-on environment through lab projects and exams for student with no previous computer experience. Students who have mastered correct fingering skills for alphabetic and symbol keys will learn how to increase typing speed and accuracy.

OT 020 F Business Career Success Skills (1)
Open Entry/Open Exit
Nine hours lecture and twenty-seven hours lab per semester. This is an open-entry/open-exit course that assists students with identifying a satisfying career in business, deciding upon a specific job, and preparing for lifelong learning. Topics include personal strengths and weaknesses, interests and abilities, career fields, job identification, job motivation, and personal assessments.

OT 021 F Business Resume Writing Skills (1)
Open Entry/Open Exit
Nine hours lecture and twenty-seven hours lab per semester. This is an open-entry/open-exit course that covers basic resumes, cover letters, and interviewing as students prepare for employment. Topics include employer needs, career objectives, work and educational experiences, personal information, persuasive letters, letter and resume format and mechanics and appearance.

OT 025 F Basic Internet Skills (1)
Open Entry/Open Exit
Nine hours lecture and twenty-seven hours lab per semester. This is an open-entry/open-exit course that allows students to gain knowledge in basic Internet concepts through completion of projects and exams. This includes concepts about the history of the Internet, operation of browsers, and the use of email.

OT 026 F Basic HTML Skills (1)
Open Entry/Open Exit
Nine hours lecture and twenty-seven hours lab per semester. This course is an open-entry/open-exit course that introduces students to HTML with no previous computer experience. This class teaches HTML in a hands-on environment through lab projects and exams for students with no previous computer experience. Students will learn how to create a web page, format a page, set print options, and insert graphics.

OT 027 F Basic Adobe PageMaker (1)
Open Entry/Open Exit
Nine hours lecture and twenty-seven hours lab per semester. This course is an open-entry/open-exit introduction to PageMaker for students with no previous computer experience. Students will learn to create basic documents, perform basic formatting and basic printing.

OT 028 F Basic Adobe Illustrator (1)
Open Entry/Open Exit
Nine hours lecture and twenty-seven hours lab per semester. This is an open-entry/open-exit course that teaches Adobe Illustrator for students with no previous computer experience. Students will learn to create and edit basic graphic elements, and design graphics for use in various business applications.

OT 035 F Basic WordPerfect Skills (1)
Open Entry/Open Exit
Nine hours lecture and twenty-seven hours lab per semester. This course is an open-entry/open-exit introduction to WordPerfect for students with no previous computer experience. This class teaches WordPerfect in a hands-on environment through lab projects and exams for students with no previous computer experience. Students will learn how to create a document, format a document, set print options, and insert graphics.

OT 036 F Basic Microsoft Word Skills (1)
Open Entry/Open Exit
Nine hours lecture and twenty-seven hours lab per semester. This is an open-entry/open-exit course that introduces Microsoft Word to students with no previous computer experience. This class teaches Microsoft Word in a hands-on environment through lab projects and exams for students with no previous computer experience. Students will learn how to create a document, format a document, set print options, and insert graphics.

OT 037 F Basic Microsoft Excel Skills (1)
Open Entry/Open Exit
Nine hours lecture and twenty-seven hours lab per semester. This course is an open-entry/open-exit introduction to Microsoft Excel for students with no previous computer experience. This class teaches Microsoft Excel in a hands-on environment through lab projects and exams for student with no previous computer experience. Students will learn how to create a worksheet, enter and format data, and create graphs.
OT 038 F Basic Microsoft Access Skills (1)
Open Entry/Open Exit
Pass/No Pass only
Nine hours lecture and twenty-seven hours lab per semester. This course is an open-entry/open-exit introduction to Microsoft Access for students with no previous computer experience. This class teaches Microsoft Access in a hands-on environment through lab projects and exams for student with no previous computer experience. Students will learn basic database concepts, use tables and queries, and create forms and reports.

OT 039 F Basic Microsoft PowerPoint Skills (1)
Open Entry/Open Exit
Pass/No Pass only
Nine hours lecture and twenty-seven hours lab per semester. This is an open-entry/open-exit course that introduces Microsoft PowerPoint to students with no previous computer experience. This class teaches Microsoft PowerPoint in a hands-on environment through lab projects and exams for student with no previous computer experience. Students will learn how to create and edit a presentation and use graphics.

OT 040 F Basic Microsoft Publisher Skills (1)
Open Entry/Open Exit
Pass/No Pass only
Nine hours lecture and twenty-seven hours lab per semester. This is an open-entry/open-exit course that introduces Microsoft Publisher to students with no previous computer experience. This class teaches Microsoft Publisher in a hands-on environment through lab projects and exams for student with no previous computer experience. Students will learn how to create a document, format a document, set print options, and insert graphics.

OT 041 F MS Word for Academic Papers (.5-1)
Pass/No Pass only
One-half to one hour lecture per semester. This course will introduce students to research paper development using MS Word. It covers an overview of features used to prepare an academic term paper including footnoting and bibliography. This is a variable unit course; see current class schedule for course information.

OT 042 F MS Word for Academic Papers (.5-1)
Open Entry/Open Exit
Nine hours lecture and twenty-seven hours lab per semester. This is an open-entry/open-exit course that introduces students to research paper development using Microsoft Word. It covers an overview of features used to prepare an academic term paper including footnoting and bibliography.

OT 043 F Creating Promotional Pieces (1)
Open Entry/Open Exit
Pass/No Pass only
Nine hours lecture and twenty-seven hours lab per semester. This is an open-entry/open-exit course that allows students to gain the knowledge in creating promotional pieces with Microsoft Word. These documents include flyers, brochures, tri-folds and other business-related documents.

OT 044 F Presentations and Web Pages (1)
Open Entry/Open Exit
Pass/No Pass only
Nine hours lecture and twenty-seven hours lab per semester. This is an open-entry/open-exit course that teaches the student how to create Web pages and business presentations by using Microsoft Word. This includes designing a new web page, exporting an existing Word document in web format, designing presentations, and creating presentations.

OT 049 F News Writing (.5)
Open Entry/Open Exit
Pass/No Pass only
Nine hours lecture and twenty-seven hours lab per semester. This course is an open-entry/open-exit introduction to basic news writing for students with no previous computer experience. This class teaches Microsoft Word in a hands-on environment through lab projects and exams for student with no previous computer experience. Students will learn basic database concepts, use tables and queries, and create forms and reports.

OT 050 F News Writing (.5)
Open Entry/Open Exit
Pass/No Pass only
Nine hours lecture and twenty-seven hours lab per semester. This is an open-entry/open-exit course that introduces Microsoft Publisher to students with no previous computer experience. This class teaches Microsoft Publisher in a hands-on environment through lab projects and exams for student with no previous computer experience. Students will learn how to create a document, format a document, set print options, and insert graphics.

OT 051 F News Writing (.5)
Pass/No Pass only
One-half to one hour lecture per semester. This course will introduce students to research paper development using MS Word. It covers an overview of features used to prepare an academic term paper including footnoting and bibliography. This is a variable unit course; see current class schedule for course information.

OT 052 F News Writing (.5)
Pass/No Pass only
One-half to one hour lecture per semester. This course will introduce students to research paper development using MS Word. It covers an overview of features used to prepare an academic term paper including footnoting and bibliography. This is a variable unit course; see current class schedule for course information.

OT 053 F News Writing (.5)
Open Entry/Open Exit
Pass/No Pass only
Nine hours lecture and twenty-seven hours lab per semester. This is an open-entry/open-exit course that allows students to gain the knowledge in creating promotional pieces with Microsoft Word. These documents include flyers, brochures, tri-folds and other business-related documents.

OT 054 F News Writing (.5)
Open Entry/Open Exit
Pass/No Pass only
Nine hours lecture and twenty-seven hours lab per semester. This is an open-entry/open-exit course that teaches the student how to create Web pages and business presentations by using Microsoft Word. This includes designing a new web page, exporting an existing Word document in web format, designing presentations, and creating presentations.

OT 055 F News Writing (.5)
Open Entry/Open Exit
Pass/No Pass only
Nine hours lecture and twenty-seven hours lab per semester. This is an open-entry/open-exit course that allows students to gain the knowledge in creating promotional pieces with Microsoft Word. These documents include flyers, brochures, tri-folds and other business-related documents.

OT 056 F News Writing (.5)
Open Entry/Open Exit
Pass/No Pass only
Nine hours lecture and twenty-seven hours lab per semester. This is an open-entry/open-exit course that teaches the student how to create Web pages and business presentations by using Microsoft Word. This includes designing a new web page, exporting an existing Word document in web format, designing presentations, and creating presentations.

OT 057 F News Writing (.5)
Open Entry/Open Exit
Pass/No Pass only
Nine hours lecture and twenty-seven hours lab per semester. This is an open-entry/open-exit course that allows students to gain the knowledge in creating promotional pieces with Microsoft Word. These documents include flyers, brochures, tri-folds and other business-related documents.

OT 058 F News Writing (.5)
Open Entry/Open Exit
Pass/No Pass only
Nine hours lecture and twenty-seven hours lab per semester. This is an open-entry/open-exit course that teaches the student how to create Web pages and business presentations by using Microsoft Word. This includes designing a new web page, exporting an existing Word document in web format, designing presentations, and creating presentations.

OT 059 F News Writing (.5)
Open Entry/Open Exit
Pass/No Pass only
Nine hours lecture and twenty-seven hours lab per semester. This is an open-entry/open-exit course that allows students to gain the knowledge in creating promotional pieces with Microsoft Word. These documents include flyers, brochures, tri-folds and other business-related documents.

OT 060 F Current Issues in Office Technology (1-3)
This course is for students who wish to increase their knowledge and skills in various office technology-related topics. Unit credit may range from one to three units in any given semester. Consult the class schedule to verify course topics being offered for a particular semester. May be taken for credit four times. (Degree Credit)

OT 070 F Business Protocol and Ethics (2)
One and one-half hour lecture and one and one-half hour lab per week. This course covers the business protocol, etiquette and ethics skills needed to be successful in the business world. This course will give the skills to present yourself with confidence and authority to succeed in business. Students will study business protocol skills including proper introductions and handshakes, dining skills, dressing for success, gift giving and telephone skills. With the use of a computer, you will learn how to properly use electronic communication and business correspondence. Students will study business ethics and how to appropriately deal with ethical issues in the business world.

OT 071 F Professional Business Entertaining and Dining: Protocol and Etiquette (.5)
Eight hours lecture per semester. This course covers business protocol skills needed to be successful in the global economy. This course will provide the skills necessary for the student to appear confident and authoritative in a business environment. Students will learn how to be a savvy and successful host and guest. Topics include the business lunch/dinner, business receptions, receiving lines, making toasts, American and Continental styles of eating, dining skills, navigating place settings, and eating difficult foods.

OT 072 F Presenting a Professional Image for Business Travel: Protocol and Etiquette (.5)
Eight hours lecture per semester. This course will provide the skills needed for the student to appear confident and authoritative in the business arena. It will examine how to dress for success and how to prepare a traveling business wardrobe, as well as protocol, ethics, and etiquette skills for business travel. Topics include how to put together a professional business wardrobe, how to choose colors to enhance a presentation, how to travel light but pack everything needed for a business presentation, and how to feel comfortable and fit into the world of business professionals based on dress, color choices, grooming and personal style.

OT 073 F Introductions, Business Meetings, Networking, and Techno Etiquette (.5)
Eight hours lecture per semester. This course covers business etiquette and protocol skills, and provides the skills necessary for the student to appear confident and authoritative in the business environment. Topics include how to make savvy introductions, proper handshakes, conducting business meetings, techno etiquette skills for the professional office, communication skills and business correspondence.

OT 074 F Saying the Right Thing: Professional Ethics and Gift Giving (.5)
Eight hours lecture per semester. This course will give students confidence and sensitivity to interact with people with disabilities and thereby enhance their understanding of the protocol and etiquette. Students will discover the ins and outs of gift giving from clients to staff to CEOs and learn to distinguish between appropriate actions and unethical business dealings.
Paralegal Studies (PLEG)

Paralegal Studies Certificate

Paralegal Courses

PLEG 090 F Contemporary Issues in the Law (1-3)
Variable hours of lecture and/or lab. This course offers timely and contemporary law-related topics designed to enhance job skills, expand the student's knowledge of the legal environment, and increase employment opportunities. Unit credit may range from one to three units in any given semester. Consult the class schedule to verify specific topic area and credit offered in a particular semester. May be taken four times for credit.

PLEG 101 F Introduction to Paralegal Studies (3)
Three hours lecture per week. This course is a practical introduction for those seeking a career as a paralegal. Topics include an overview of the law and our court system, the fundamentals of legal research and writing, an introduction to the use of computers in a law office, professional ethics, and the role of the paralegal in the modern law office. (CSU) (Degree Credit)

PLEG 102 F Civil Litigation II (3)
Prerequisite: PLEG 101 F and PLEG 104 F, both with a grade of "C" or better
Three hours lecture per week. This course continues the study of civil procedures from pretrial through trial, appeals, and collection, emphasizing the drafting of discovery documents. Students gain practical experience in all stages of a civil case. (CSU) (Degree Credit)

PLEG 201 F Civil Litigation I (3)
Prerequisite: PLEG 101 F and PLEG 104 F, both with a grade of "C" or better
Three hours lecture per week. This course examines civil court procedures before trial and is designed to provide expertise in drafting legal documents from the inception of the civil action through the pleading stage. Topics include parties to the action, jurisdiction and venue, the summons, defaults, pleadings, and attacking the pleadings. Students are also introduced to the law of evidence. (CSU) (Degree Credit)

PLEG 202 F Civil Litigation II (3)
Prerequisite: PLEG 101 F and PLEG 104 F, both with a grade of "C" or better
Three hours lecture per week. This course continues the study of civil procedures from pretrial through trial, appeals, and collection, emphasizing the drafting of discovery documents. Students gain practical experience in all stages of a civil case. (CSU) (Degree Credit)

PLEG 203 F Personal Injury (3)
Prerequisite: PLEG 101 F and PLEG 104 F, both with a grade of "C" or better
Three hours lecture per week. This course examines those topics that are important in a personal injury practice, including prelitigation investigation, employment of experts, evaluation of damages, settlements, arbitration, and preparing for trial. (CSU) (Degree Credit)

PLEG 204 F Family Law (3)
Prerequisite: PLEG 101 F and PLEG 104 F, both with a grade of "C" or better
Three hours lecture per week. This course provides an overview of family law practice. Students become familiar with family law forms and the preparation of various family law matters. Topics include the initial client interview, preparing pleadings, child and spousal support, custody and visitation, marital property rights and obligations, trial preparation, enforcement procedures, and post-judgment modifications. (CSU) (Degree Credit)
PLEG 205 F Probate, Wills and Trusts (3)
**Prerequisite:** PLEG 101 F and PLEG 104 F, both with a grade of “C” or better

Three hours lecture per week. This course provides an overview of estate planning and probate practice. Through drafting simple wills and trusts and by lecture, students will become familiar with the specialized documents and procedures of probate practice. (CSU) (Degree Credit)

PLEG 206 F Bankruptcy Law and Procedure (3)
**Prerequisite:** PLEG 101 F and PLEG 104 F, both with a grade of “C” or better

Three hours lecture per week. This course provides an overview of bankruptcy law and practice. Students will become familiar with bankruptcy forms and the federal bankruptcy courts. Topics include the role of the paralegal in bankruptcy, bankruptcy and research, Chapters 7, 11, 12, and 13 of the bankruptcy code, and examining bankruptcy cases. (CSU) (Degree Credit)

PLEG 207 F Computer-Assisted Legal Research (3)
**Prerequisite:** PLEG 101 F and PLEG 104 F, both with a grade of “C” or better

Three hours lecture per week. This course provides the student with an opportunity to explore and master legal research databases available through on-line and Internet services. In particular, this course will emphasize LEXIS/Westlaw on-line service, Internet accessibility to law libraries, and the use of CD ROM technology in conducting legal research. (CSU) (Degree Credit)

PLEG 208 F Workers’ Compensation Law (3)
**Prerequisite:** PLEG 101 F and PLEG 104 F, both with a grade of “C” or better

Three hours lecture per week. This course provides an overview of Workers’ Compensation practice. Students become familiar with Workers’ Compensation forms and the preparation of various Workers’ Compensation matters. Topics include a study of the Workers’ Compensation system, client interview, initiating benefits to the injured worker, discovery proceedings, vocational rehabilitation, trial preparation, appellate procedure and professional ethics. (CSU) (Degree Credit)

PLEG 209 F Criminal Law and Procedure (3)
**Prerequisite:** PLEG 101 F and PLEG 104 F, both with a grade of “C” or better

Three hours lecture per week. This course provides an overview of criminal law and procedure. Students will become familiar with the substantive and procedural aspects of criminal proceedings in both state and federal courts. Topics include: the role of the paralegal in prosecution and defense of criminal defendants, researching and drafting criminal court documents, constitutional ramifications in criminal courts, and sentencing procedures. (CSU) (Degree Credit)

PLEG 210 F Paralegal Internship (1-4)
Letter grade or Pass/No Pass option

**Prerequisite:** PLEG 101 F, PLEG 104 F, PLEG 105 F, PLEG 201 F, and PLEG 202 F, all with a grade of “C” or better

One hour lecture per week and five hours of supervised employment or volunteer work per week in a legal office. An additional five hours per week of supervised employment is required for each additional unit of credit. This course provides vocational learning opportunities for a student through employment in a legal office. (CSU) (Degree Credit)

PLEG 211 F Real Property Law and Procedure (3)
**Prerequisite:** PLEG 101 F and PLEG 104 F, both with a grade of “C” or better

Three hours lecture per week. This course provides an overview of the law of real property and practice. Students will become familiar with the substantive and procedural aspects of real property law and the transactional requirements of conveyance. Topics include: the role of the paralegal in real estate practice, the appraisal and financing of real estate; researching and drafting real estate litigation and transactional documents, including but not limited to escrow instructions; sale, purchase and exchange agreements, deeds, deeds of trust, promissory notes, leases, and other instruments. (CSU) (Degree Credit)

PLEG 212 F Medical Records Review (1.5)
**Prerequisite:** PLEG 101 F and PLEG 104 F, both with a grade of “C” or better

One and one-half hours lecture per week. This course provides an overview of analyzing medical records. Students will be instructed on how to interpret, analyze, and organize complex information found in medical records. The legal implications of medical records for the medical profession will be analyzed as they relate to litigation. (CSU) (Degree Credit)

PLEG 213 F Employment and Labor Law (3)
**Prerequisite:** PLEG 101 F and PLEG 104 F, both with a grade of “C” or better

Three hours lecture per week. This course provides students with an overview of the legal relationship between employer and employee and a basic understanding of employment and labor related law and its impact on the employer/employee relationship. The student will study both federal and state laws applicable to the employer/employee relationship. Areas covered include pre-employment concerns, legal aspects of the employment relationship, discrimination issues, discrimination actions, termination of the employer/employee relationship, the collective bargaining process, employee unions, union certification and decertification and ethical issues. (CSU) (Degree Credit)

PLEG 214 F Contract Law/Procedure (3)
**Prerequisite:** PLEG 101 F and PLEG 104 F, both with a grade of “C” or better

Three hours lecture per week. This course provides students with an overview of the law of contracts, contract law practice and procedure. Students will become familiar with the substantive and procedural aspects of the law relating to contracts and the transactional requirements for the creation, administration, modification, and termination of contracts. (CSU) (Degree Credit)

PLEG 215 F Discovery in the Electronic Age (3)
**Prerequisite:** PLEG 101 F and PLEG 104 F, both with a grade of “C” or better

Three hours lecture per week. This course provides students with an overview of managing document production and organization during litigation. The student will learn how to handle a client’s documents, obtain electronic and non-electronic documents from opposing parties and non-parties, index and organize documents as they are received, utilize computer-assisted litigation support programs and use documents at trial. (CSU) (Degree Credit)
PLEG 216 F Computers in the Law Office II (3)
Three hours lecture per week. This course acquaints the student with the computer basics and application software that is unique to the legal environment and utilized by legal personnel. Students will be exposed to an array of legal software programs that maximizes efficiency in the legal community. Types of programs reviewed include, but are not limited to, programs for document preparation, case management, docketing, retrieval, billing and calendaring system. (CSU) (Degree Credit)

PLEG 217 F Immigration Law (3)
Prerequisite: PLEG 101 F and PLEG 104 F, both with a grade of “C” or better
Three hours lecture per week. This course is a practical examination of the immigration and nationality laws of the United States involving a history of immigration migration, the evolution of the country’s policies toward aliens and the interplay of the administrative agencies involved in the administration and enforcement of those laws: Justice Department, Labor Department, State Department and Homeland Security. Subjects will include applying for residence and work visas, attaining citizenship, granting of asylum and avoiding deportation and related proceedings. (CSU) (Degree Credit)

PLEG 218 F Entertainment and Sports Law (3)
Three hours lecture per week. This course is a practical examination of the field of entertainment and sports law in the United States. Students will examine these unique industries from a legal standpoint. Emphasis will be placed on understanding the interrelationships among the various occupations inherent in the business of entertainment and sports. Students will be exposed to contracts that govern both industries and will learn how to draft, interpret and litigate those contracts. (CSU) (Degree Credit)

PLEG 219 F Intellectual Property (3)
Prerequisite: PLEG 101 F and PLEG 104 F, both with a grade of “C” or better
Three hours lecture per week. This course is a practical examination of the law of intellectual property, namely, trademarks, copyrights, patents and trade secrets. The methods by which each is created, procedures to register or protect each, duration of rights, protection from infringement, and new and international developments for each of these fields of intellectual property is explored. (CSU) (Degree Credit)

PLEG 220 F Elder Law (3)
Prerequisite: PLEG 101 F and PLEG 104 F, both with a grade of “C” or better
One and one-half hours lecture per week. This course examines issues regarding law and procedure for the aging population; financial planning covering advanced directives, wills, power of attorney, trusts; interviewing; patient's rights in healthcare decisions; entitlement programs; managed care; social security and elder abuse. (CSU) (Degree Credit)

PLEG 225 F Law Office Management (3)
Three hours lecture per week. This course is an introduction to the role of the paralegal in law office management. Topics include: the managerial challenges in the legal environment; historical development of law firm management; the four principal managerial activities and roles of the office administrator; comprehensive understanding of financial resources, human resources, and supervision unique to the legal environment. (CSU) (Degree Credit)

Philosophy and Religious Studies Courses

PHIL 100 F Introduction to Philosophy (3)
Three hours lecture with discussion per week. This course studies various viewpoints, problems, and issues regarding human nature, moral and religious understanding, knowledge of self and the world, and other selected topics. (CSU) (UC Credit Limitation) (Degree Credit) AA GE, CSU GE, IGETC

PHIL 100HF Honors Introduction to Philosophy (3)
Three hours of lecture with discussion per week. This course studies various viewpoints, problems, and issues regarding human nature, moral and religious understanding, knowledge of self and the world, and other selected topics. As an honors section, this class will employ enhanced teaching methods such as a seminar approach, more research-based writing assignments, and assignments calling for a higher level of critical thinking. (CSU) (UC Credit Limitation) (Degree Credit) AA GE, CSU GE, IGETC

PHIL 101 F Introduction to Religious Studies (3)
Three hours lecture with discussion per week. This course is an introductory study of religion with emphasis on the origins and functions of religion, religious experience, and religious and theological modes of expression. Course content will be drawn from Eastern and Western traditions, ancient, medieval and modern times. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

PHIL 105 F World Religions (3)
Three hours lecture with discussion per week. This course provides an overview of the world religions, with major emphasis upon Judaism, Christianity, Islam, Hinduism and Buddhism. This course fulfills the Multicultural Education Requirement for graduation. (CSU) (UC Credit Limitation) (Degree Credit) AA GE, CSU GE, IGETC, MULT CULT REQ

PHIL 105HF Honors World Religions (3)
Three hours lecture with discussion per week. This course provides an overview of the world religions, with major emphasis upon Judaism, Christianity, Islam, Hinduism and Buddhism. As an honors section, this class will employ enhanced teaching methods such as a seminar approach, more research-based writing assignments, and assignments calling for a higher level of critical thinking. This course fulfills the Multicultural Education Requirement for graduation. (CSU) (UC Credit Limitation) (Degree Credit) AA GE, CSU GE, IGETC, MULT CULT REQ
PHIL 135 F Social and Political Philosophy (3)  
Three hours of lecture with discussion per week. The course is an introduction to social, psychological, and political philosophies, ancient and modern; inquiry into views of human nature, the nature and varieties of social institutions, the personal and social implications of the human experience, and other selected topics. (CSU) (Degree Credit) AA GE, CSU GE

PHIL 160 F Introduction to Ethics (3)  
Three hours lecture with discussion per week. This course will survey basic ethical theories in modern times in order to show how they have affected analysis of various ethical problems and their solutions both for the individual and societies. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

PHIL 165 F Business and Professional Ethics (3)  
Three hours lecture with discussion per week. This course will examine applications of the moral rights and responsibilities of businesses and professions in response to the contemporary problems they face. The topics examined would include bribery, consumer relations, employee relations, kickbacks, whistle blowing, truth and advertising, trader secrets and insider information. (Not currently being offered — if interested, contact Division Office.) (CSU) (UC) (Degree Credit)

PHIL 170 F Logic and Critical Thinking (3)  
Three hours lecture and discussion per week. This course focuses on an understanding of the relationship of language to logic that should lead to the ability to identify and evaluate various inductive and deductive arguments. The course is also concerned that students become aware of semantic confusions and of the nature and importance of definitions. The minimal competence expected of the student is the ability to distinguish fact from judgment, belief from knowledge and skills in inductive and deductive processes, including an understanding of the formal and informal fallacies. The evaluation of an extended argument may be required by the instructor and designed to satisfy the critical thinking requirement for those planning to transfer to the CSU/UC system. (CSU) (UC) (Degree Credit) AA GE, CSU GE

PHIL 172 F Critical Thinking/ Writing (3)  
Prerequisite: ENGL 100 F with a grade of “C” or better  
Three hours lecture with discussion per week. This course will cover all the standard topics of a traditional critical thinking course: Form vs. Content; inductive vs. deductive logic; validity, truth and soundness or good definitions; and the standard formal and informal fallacies as reflected in evaluative writing. Progress toward the refining of various writing skills will be evaluated in the writing and re-writing of the extended argument as well as other areas of the course. This course is specifically designed to meet the IGETC critical thinking/writing requirement. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

PHIL 195 F Women's Issues in Philosophy (3)  
Three hours lecture with discussion per week. This course will look at philosophical issues with which women in philosophy are concerned, such as theoretical accounts of the relations between men and women, theories of knowledge, world views, and the question of social justice. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

PHIL 198AF The Holocaust (3)  
Three hours lecture with discussion per week. This course will provide a review of the forces that resulted in the Jewish experience known as the Holocaust, the events that transpired during this period, and subsequent Jewish life after the Holocaust. In addition, reflections by both Jews and non-Jews on the Holocaust will be examined, as well as reflections on genocide in general. (CSU) (Degree Credit)

PHIL 200 F Introduction to Christianity (3)  
Three hours lecture per week. This course will provide an introduction to the Christian religion, giving attention to the history of its development. Its scriptures, rituals, beliefs will be examined, along with attention given to the important persons, groups, and events which have developed among the Roman, Orthodox, and Protestant communions of Christianity. (CSU) (UC) (Degree Credit) CSU GE

PHIL 201 F History of Philosophy: Ancient and Medieval (3)  
Three hours lecture with discussion per week. This course is a historical introduction to the western philosophic tradition. Selected philosophers will be examined from each of the following periods: Ancient Greek and Medieval. (CSU) (UC) (Degree Credit) CSU GE

PHIL 202 F History of Philosophy: Modern (3)  
Three hours lecture with discussion per week. This course is a historical introduction to the western philosophic tradition. Selected philosophers will be examined from each of the following periods: Modern and Contemporary. (CSU) (UC) (Degree Credit) CSU GE

PHIL 204 F Introduction to Judaism (3)  
Three hours lecture per week. The course will provide an introduction to the religion of Judaism, with emphasis given to its historical development, scriptures, laws, rituals, customs, and theology. Attention will also be given to the modern developments of Judaism. (CSU) (UC) (Degree Credit) CSU GE

PHIL 205 F The American Religious Experience (3)  
Three hours lecture with discussion per week. This course provides an overview of the religious life in America, with the emphasis upon how the American cultural experience has shaped the religions of Africa, Europe and Asia in their American manifestations. Particular focus will be given to religious thinking, ethics, rituals, and institutional forms. (CSU) (UC) (Degree Credit)

PHIL 250 F The Religion of Islam (3)  
Three hours lecture per week. This course will provide an introductory study of the religion of Islam, with emphasis upon its history, its main teachings, and its major practices. Topics to be studied include: the rise and spread of Islam, scriptures, law, theology and philosophy, mysticism, rituals, and modern developments. (CSU) (UC) (Degree Credit) CSU GE

PHIL 270 F Introduction to the Asian Religions (3)  
Three hours lecture per week. This course provides an overview of the variety of religious traditions and communities found throughout Asia. This course fulfills the Multicultural Education Requirement for graduation. (CSU) (UC) (Degree Credit) CSU GE, MULT CULT REQ
PHIL 299 F Philosophy Independent Study (1)
One hour lecture or scheduled conference per week. This course is offered for students who wish to increase their knowledge of the Social Sciences through individual study and small group conferences. Students successfully completing this course will be awarded elective credit in the Social Sciences area. Course may be taken three times for credit. (CSU) (UC review required) (Degree Credit)

Photography Courses

PHOT 100 F Basic Photography (3)
Letter Grade or Pass/No Pass Option
Three hours lecture per week. This course is for beginning photographers, and covers basic camera operation, composition, color, lighting, landscapes, portraits, night photography, close-ups, architectural work and photo essays. Students must provide their own camera as well as film and processing. This class will not utilize the darkroom. (CSU) (Degree Credit) AA GE, CSU GE

PHOT 101 F Introduction to Photography (3)
Two hours lecture and four hours lab per week. This course covers the historical, cultural and aesthetic foundations of photography. Students have the opportunity to acquire knowledge of both traditional and digital photography. Traditional film students must provide their own 35mm cameras with full manual capabilities and digital students may use a variety of digital point and shoot cameras as well as DSLRs. Course may be taken twice for credit. (CSU) (UC) (Degree Credit) AA GE, CSU GE

PHOT 103 F Intermediate Photography (3)
Prerequisite: PHOT 101 F with a grade of “C” or better
Two hours lecture and four hours lab per week. This course is an introduction to professional photography. Use of 4” x 5” camera, and studio lighting techniques will be emphasized. Students will learn to use the camera and studio lighting to photograph products, people and architectural subjects. Students must provide their own 35mm camera with adjustable aperture, shutter speed and focus. (CSU) (Degree Credit)

PHOT 104 F Wedding Photography (3)
Advisory: PHOT 101 F or PHOT 111 F or PHOT 112 F or demonstrate competency in performing a variety of basic camera functions.
Two hours lecture and four hours lab per week. This course is designed to introduce the student to the aesthetic concepts, basic skills, and techniques used by wedding photographers. Students will acquire hands-on knowledge of photographic applications used in wedding photography. Students must provide their own cameras with full manual operations and capable of using an external flash. Either film or digital cameras may be used. Students are also required to have a strong understanding of composition, aesthetic values and photographic criticism. Course may be taken four times for credit (CSU) (Degree Credit)

PHOT 109 F Portrait Photography (3)
Prerequisite: PHOT 101 F with a grade of “C” or better
Two hours lecture and three hours lab per week. This course is designed to give the student a working knowledge of portrait styles and techniques. The student will work with both natural and artificial lighting and learn the possibilities and limitations of both. Students will have an opportunity to investigate and imitate the styles of well-known portrait photographers. Students must provide their own 35mm camera with adjustable aperture, shutter speed and focus. Course may be taken three times for credit. (CSU) (Degree Credit)

PHOT 111 F Introduction to Photography from Analog to Digital (3)
Two hours lecture and four hours lab per week. This beginning photography course focuses on the technical and historical aspects of photography from analog to the emergence of digital photography and new media. The course will include lectures and discussions about composition and content, a detailed comparison of the differences and similarities between analog and digital camera use with an emphasis on digital imaging. Mixed media and experimental forms of photography will also be discussed. A variety of point and shoot cameras may be used. Course may be taken four times for credit. (CSU) (UC) (Degree Credit) AA GE, CSU GE

PHOT 112 F Introduction to Professional Digital Photography (3)
Two hours lecture and four hours lab per week. The course covers an introduction to the basic functions and operations of the digital camera. The course covers the historical, cultural, and aesthetic foundations of photography. The student also explores the emergence and significance of digital technology into photography. Students may use a variety of digital cameras from point to shoot as well as Digital SLR’s. Course may be taken four times for credit. (CSU) (Degree Credit)

PHOT 114 F Professional Portrait Photography I (3)
Advisory: PHOT 101 F or PHOT 111 F or PHOT 112 F or demonstrate competency in performing various basic camera functions.
Two hours lecture and four hours lab per week. Emphasis will be placed on portrait photography using strobe lighting, shooting on location, posing, and working with color photography. Photographic subjects will include beauty, theatrical, commercial, fashion, family, and the executive portrait. Students are required to have a camera with full manual capabilities and that is able to use an external flash. Film or digital cameras may be used. Students are also required to have a strong understanding of composition, aesthetic values and photographic criticism. Course may be taken four times for credit. (CSU) (Degree Credit)
PHOT 196 F Communications Seminars (.5-4)
Prerequisite: JOUR 102 F or PHOT 101 F or CRTV 235 F
Lecture and lab hours will vary according to the nature of the seminar. Communications Seminars are courses designed to expose the students to up-to-date equipment, methods, techniques and materials. These courses offer the student opportunity for specialized training in greater depth than can be offered in a general course. These courses will vary from semester to semester depending on student interest, new developments in industry, and need for specialized training. Communications Seminars will be offered in photography, journalism, and radio/television. Course may be taken four times for credit. (CSU) (Degree Credit)

PHOT 216 F Advanced Digital Photography (3)
Advisory: PHOT 111 F or PHOT 112 F or demonstrate competency in performing a variety of basic digital camera functions.
Two hours lecture and four hours lab per week. This course is designed to provide the student with advanced knowledge of digital photography. The integration of technical skills and aesthetic expression will be emphasized. Students will explore a variety of subjects including fashion, portraiture, Industrial Scientific, and fine-art photography. Students may use a variety of digital cameras including point and shoot as well as digital D’SLR’S. Students are also required to have a strong understanding of composition, aesthetic values, and photographic criticism. Course may be taken four times for credit. (CSU) (Degree Credit)

PHOT 219 F Photojournalism (3)
Two hours lecture and three hours lab per week. Development of basic techniques of producing black-and-white still photographs with emphasis on journalism requirements including the use of cameras, materials, and processes in darkroom procedures. (CSU) (Degree Credit)

PHOT 221 F Studio Specialties I (3)
Two hours lecture and four hours lab per week. An advanced course for students to learn studio practices and lighting techniques. Students will practice studio techniques for a variety of photographic subjects that include commercial table top, architectural, publicity, and fashion. Emphasis will be on the use of strobe lighting, mixed lighting, and special effects. Camera format will range from 35mm to 4X5. The course incorporates both traditional and digital techniques. Students must have a camera with full manual adjustments and that is capable of using external flash. Students are also required to have a strong understanding of composition, aesthetic values, and photographic criticism. Course may be taken four times for credit. (CSU) (Degree Credit)

PHOT 290 F Internship in Photography (2-4)
One hour lecture per week and five hours supervised employment or unpaid internship per week in the field of photography. An additional five hours per week of supervised employment or unpaid internship for each additional unit of credit. This course offers career development opportunities for students and industry professionals who need to strengthen or broaden their skills to retain their current position or wish to advance in their current careers. Students obtain vocational learning opportunities through employment/internships photography and allied areas. Course may be taken four times for credit. (CSU) (Degree Credit)

Physical Education Courses

PE 100 F Adaptive Physical Education —
Weight Training (1)
Three hours lab per week. This course is designed to give the disabled student the opportunity to participate in resistive exercises with weights. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 102 F Yoga (1)
Three hours lab per week. This is an overview course in yoga, an integrated study of health. It involves the practice of breathing techniques, hatha yoga postures (asanas), meditation, and relaxation. Emphasis is on practicing the principles of pranayama (breathing) and deep relaxation to reduce stress; improve concentration, circulation, and flexibility; and unify body, mind, and spirit. The hatha yoga portion will also help to tone and strengthen muscles. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 103 F Aikido (1)
Three hours lab per week. Aikido is a relatively modern Japanese martial art based upon nonresistance rather than strength. It is a non-aggressive, non-competitive art based upon a philosophy that stresses harmony with nature and control of body and mind. Comparison and introduction to related forms of throwing arts is included. Self-confidence is enhanced through the study of technique. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 104 F Spinning (formerly PE 104AF) (1)
Three hours lab per week. Spinning is a unique, indoor, group stationary cycling program. This efficient, high-energy group exercise integrates music, camaraderie and visualization in a complete body-mind exercise routine. This philosophy of being mentally and physically fit is the basis of spinning. Spinning emphasizes everyone’s individual needs, regardless of athletic ability, taught in a group atmosphere. Course may be taken three times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE
PE 105 F Badminton (1)
Three hours lab per week. There will be an analysis of fundamental strokes with emphasis on court strategy for singles and doubles play. Rules, court etiquette, and different types of tournaments will be introduced to the class. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 107 F Table Tennis (1)
Three hours lab per week. This course offers students the opportunity to learn and improve the essential strokes of table tennis. Emphasis is on game strategies for singles and double play. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 108 F Bowling (1)
Three hours lab per week. This course is designed to develop sufficient knowledge and skill for successful participation in recreational, league and tournament bowling. Emphasis will be placed on the rules, scoring, etiquette, safety, mechanics, ball dynamics and strategy. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 110 F Pilates (1)
Three hours lab per week. A course in alignment and correctives work based on exercises and concepts developed by Joseph H. Pilates. The course will include “mat work” and will emphasize exercise for improved body alignment, strength, flexibility, control, coordination and breathing. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 111 F Decathlon (1)
Two hours lab per week. Instruction and participation in the fundamentals of track and field. The events covered are sprints, broad jump, high jump, shot put, discus, distance and middle-distance running, pole vault, and javelin. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 112 F Fencing (1)
Two hours lab per week. Instruction will include basic positions weapon, simple and compound actions, defenses, drills, and activity. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 113 F Billiards (1)
Three hours lab per week. This course will emphasize walking for health and fitness for men and women who are interested in instruction and practice in cardiovascular walking. The class is designed to decrease the risk of coronary heart disorders by increasing heart efficiency, vital lung capacity, and knowledge of each through aerobic and anaerobic conditioning. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 114 F Cardiovascular Conditioning (1)
Three hours lab per week. A program of personalized exercises designed for the student interested in achieving physical fitness through a program of cardiovascular conditioning. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 115 F Golf (1)
Two hours lab per week. The class will stress rules, fundamentals and etiquette of the game of golf. Facility use fee required. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 117 F Gymnastics (1)
Three hours of lab per week. This course offers the students the opportunity to explore the possibilities of human motion in gymnastic framework. This course is designed to instruct students in a progressing motor learning experience. The skill range is from simple to complex and includes all women’s and all men’s apparatus and tumbling. The course integrates the beginning, intermediate and advanced level gymnastic students together in an educational environment. This course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 120 F Mountain Biking (1)
Two hours lab plus one hour arranged per week. This course examines and analyzes the judgment, knowledge, and skill development necessary for safe recreational mountain biking. This course provides hands on experience and instructional techniques required for participation on various Orange County trails. Fee for bike rental if you do not own your own bike. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 121 F Walking for Fitness (1)
Three hours lab per week. This course will emphasize walking for health and fitness for men and women who are interested in instruction and practice in cardiovascular walking. The class is designed to decrease the risk of coronary heart disorders by increasing heart efficiency, vital lung capacity, and the knowledge of each through aerobic and anaerobic conditioning. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 122 F Surfing (1-2)
Advisory: Swim 50 yards and tread water for five minutes
One half to one hours lecture and one and one half to three hours lab per week. This course offers surfers the opportunity to learn and improve the skills of wave riding. Examination and analysis of paddling, wave selection, water safety, equipment, tides, current, and etiquette are emphasized for long boarding and short boarding. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 123 F Outrigger Canoeing (1-2)
Advisory: Swim 50 yards and tread water for three minutes
One-half to one hours lecture and one and one-half to three hours lab per week. This is an activity course designed to introduce and examine the Polynesian tradition of canoeing. Six-person outrigger canoes, and one- and two-person outriggers are used to introduce and develop individual and team skills. This course includes units on water safety; basic technique; equipment examination; Polynesian history and tradition of the outrigger; roles and responsibilities with each “seat” in the six-person canoe. This class emphasizes a hands-on experience that may prepare students to pursue interests in club competition or other water activities. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 124 F Kayaking (1-2)
Advisory: Swim 50 yards and tread water for three minutes
One hour lecture, two hours lab plus one hour arranged per week. Kayaking examines and analyzes the judgment, knowledge, equipment, and skill development necessary for safe flatwater and ocean kayaking. This course includes units on water safety; basic technique; and how to plan a kayaking trip. This class emphasizes a hands-on experience that may prepare students to pursue interests in white water kayaking and other water activities. Course may be taken four times for credit. $15 Facility use fee required. (CSU) (UC Credit Limitation) (Degree credit) CSU GE
PE 126 F Beach Volleyball (1)
Two hours lab plus one hour arranged per week. This course provides basic instruction and strategies in beach volleyball. Designed to develop basic skills, knowledge of rules, team strategies and desire for future participation during leisure time. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 127 F Racquetball — Indoors (1)
Three hours lab per week. This course offers students the opportunity to learn and improve the essential strokes of racquetball. Emphasis is on skill development, knowledge of rules and basic strategies for singles and doubles play. $50 facility use fee required. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 129 F Step Aerobics (1)
Three hours lab per week. This course will provide vigorous aerobic activity through coordinated stepping movements. The class will be held in a musical setting with emphasis on cardiovascular improvements, muscle development, and an increased awareness of body composition. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 130 F Advanced Fitness Training (2)
One and one-half hour lecture and one and one-half hour lab per week. This course is designed to offer students the core knowledge and skills necessary for instructing group exercise classes and for individuals to develop advanced aerobic skills. Lectures include information on physiology kinesiology and biomechanics of exercises along with safety and sports nutrition. The lab consists of practical application of exercise programming along with instructional experience. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 131 F Bodyboarding (1-2)
One and one-half hour lecture and one and one-half to three hours of lab per week. This course offers bodyboarders the opportunity to learn and improve the skills of wave riding. Examination and analysis of paddling, kicking, wave selection, water safety, equipment, tides, current and etiquette are emphasized for bodyboarding. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 132 F Skiing (1)
Two hours lab plus one hour arranged per week. This course is designed to teach the beginning and intermediate skier the American technique of skiing. Facility use fee required. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 133 F Snowboarding (1)
One half hour lecture and one and one half hours lab per week. This course is designed to teach the basic skills of snowboarding. Emphasis on correct body posture in turns and curves, speed control, and basic jumps. Discussion on selection of equipment and apparel, care of equipment, safe snowboarding and back country survival will also be included. Facility fee required. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 134 F Swimming (1)
Two hours lab per week. This course emphasizes developing fundamental skills of swimming. All strokes are taught along with elementary diving and basic survival skills. Endurance training and cardiovascular fitness will be discussed. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 135 F Ultimate Frisbee (1)
Three hours lab per week. This course is designed to teach the basic skills of the Frisbee disc throw as well as an introduction to Frisbee golf, Frisbee football, and Frisbee basketball. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree credit) CSU GE

PE 136 F Springboard Diving (1)
Three hours lab per week. This course provides cardiovascular fitness training and nutritional program information to compete successfully in a triathlon. This class offers techniques in swimming, biking and running for ultimate performance. Bike rental fee is required if you do not own your own bicycle. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree credit) CSU GE

PE 137 F Triathlon (1)
Three hours lab per week. This course offers students the opportunity to learn and improve the essential strokes of tennis. Emphasis is on skill development, knowledge of rules and basic strategies for singles and doubles play. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 138 F Tennis (1)
Three hours lab per week. This course offers students the opportunity to learn and improve the essential strokes of tennis. The class gives students the opportunity to put tennis techniques into practice through placement in the various levels of tennis ability. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 139 F Tennis Workshop (.5-2)
Two hours lab per week for each unit of credit. This class is designed for those students desiring instruction from beginner to intermediate to advanced instruction in tennis. The class gives students the opportunity to put tennis techniques into practice through placement in various levels of tennis ability. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 141 F Mountaineering/Rock Climbing (1)
One hour lecture and one hour lab per week. There will be instruction and participation in the fundamentals of rock climbing with practice on rope handling, knot tying and climbing styles. Discussion will include use of equipment, environmental concerns, and survival techniques. Facility use fee required. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 142 F Volleyball — Recreational (1)
Three hours of lab per week. This course provides basic instruction and strategies in basic skills, rules and etiquette in volleyball. Students will experience improvement through supervised instruction and participation. This course may be taken two times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE
PE 145 F Volleyball — Intermediate/Advanced (1)
Three hours lab per week. This course is designed for experienced volleyball players and is designed to give instruction in advanced techniques and game strategies. This course may be taken twice for credit. (CSU) (UC Credit Limitation) (Degree credit) CSU GE

PE 147 F Relaxation and Flexibility Fitness (1)
Three hours lab per week. This course demonstrates the benefits of stretching and relaxation towards a physically and mentally fit lifestyle. Flexion exercises and relaxation techniques are covered as well as their practical application to daily activities. Instruction will be given in the development of an individual program for each student. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree credit) CSU GE

PE 148 F Non-Impact Aerobics (1)
Three hours lab per week. This course consists of group and individual exercise program without jogging, jumping or other jarring movements. Emphasis is on cardiovascular development through static and locomotive movements set to music. A class designed for first-time aerobicisers of any age, or those medically restricted or overweight. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree credit) CSU GE

PE 149 F Swim for Fitness (1)
Three hours lab per week. This course is designed to increase the knowledge of the cardiovascular system through the use of aerobic workouts. Swimming strokes will improve through endurance and repetitive training. Participants seeking a fitness program may expect to improve their overall fitness levels. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree credit) CSU GE

PE 150 F Rhythmic Aerobic Exercise (1)
Three hours lab per week. This course is designed for a group and individual exercise program. Emphasis in class will be on cardiovascular development through rhythm movements. Activities will include stretching, walking, running, and floor exercise in a dance setting to music. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree credit) CSU GE

PE 151 F Water Aerobics/Pool Exercise (1)
Two hours lab per week. This is a fitness and recreational exercise program done in the water. Various water exercise programs are included, such as aerobics to music, flexibility activities, and conditioning activities designed for special needs. (Especially recommended for 40+ individuals and those with handicaps or movement limitations.) Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree credit) CSU GE

PE 152 F Fitness Training Lab (Circuit) (.5-2)
Open Entry/Open Exit
Letter Grade or Pass/No Pass Option
This course is designed as an open entry lab. The equipment and routine utilized in the circuit training facility is designed with the non-athlete in mind. Emphasis is placed on good muscle tone and cardiovascular fitness. This type of training gives maximum return in a controlled workout. Flexible hours and variable units. 20 hours required for each half unit. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree credit) CSU GE

PE 154 F Fitness Testing w/Exercise Prescription (2)
Two hours lecture and one hour lab per week. Classroom lecture section will provide methods and concepts of lifetime fitness and nutritional understanding based on fitness needs. Students will learn, on an individual basis, the practical techniques for evaluating physical fitness status. With the use of computer analysis, the student will be exposed to several programs for aiding the individual in becoming fit and more healthy and efficient in daily life. The lab section of the class will involve the student in a testing and evaluation program to analyze their needs for personal fitness and nutritional guidelines. Each student will help develop, through these methods, a personal individualized prescription program to fit their needs for a year round fitness program. Course may be taken four times for credit. (CSU) (Degree credit) CSU GE

PE 155 F Aquatic Conditioning for Seniors (1)
Two hours lab per week. This course is designed to develop and maintain physical fitness through swimming. Emphasis will be placed on endurance training for improved cardiovascular fitness. Activity designed for, but not limited to, senior citizens. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree credit) CSU GE

PE 158 F Personalized Fitness (1)
Three hours lab per week. This course is a supervised, group-circuit exercise program using a variety of exercise equipment that focuses on individual needs which includes the various principles and techniques of exercise as they relate to the older adult. Individual assessments will include review of medical history, resting and exercising heart rate, blood pressure, and body weight. $15 lab fee payable in class. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree credit) CSU GE

PE 159 F Strength Training (Olympic Weights) (.5-2)
Open Entry/Open Exit
Letter Grade or Pass/No Pass Option
Flexible hours and variable units. Eighteen hours required for each ½ unit up to 72 hours for a maximum of two units. An open-entry lab experience for those people who want to get maximum physical return for a limited time invested. This course is designed to provide instruction and supervision of students with individualized strength programs using Olympic weights and nautilus apparatus. It is for men and women of all age groups who are interested in muscle toning, muscle rehabilitation, strength increases and body building. Workout times are adjusted to the student’s schedule. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree credit) CSU GE

PE 160 F Basketball — Recreational (1)
Two hours lab per week. This course provides instruction and strategies in the basic skills, rules and etiquette of basketball. Students will receive improvement through supervised instruction and participation. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree credit) CSU GE

PE 161 F Body Conditioning and Fitness (1)
Three hours lab per week. This course will focus on individual exercise for contouring, conditioning, posture, weight training, aerobics and overall fitness. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree credit) CSU GE

PE 162 F Conditioning for Athletes — Strength (1)
Three hours lab per week. This course is designed to organize and implement individual conditioning programs for the team and individual sport athletes, primarily women. The program includes analysis and appraisal of strength, cardiovascular, and flexibility of each athlete along with program prescriptions. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree credit) CSU GE
PE 163 F Kickboxing (1)  Two hours lab per week. Instruction in forms of kick-boxing that stress cardiovascular endurance, strength development, and improved flexibility. The aerobic workout will include influences from several martial arts. For interested students, the sparring and self-defense aspects of kickboxing will be included. Course may be taken four times for credit. (CSU) (UC Credit limitation) (Degree Credit) CSU GE

PE 164 F Tai Chi Chuan (1)  Two hours lab per week. Instruction in the 24-style of tai chi chuan, a short form of the health exercise and martial art of tai chi that can easily be learned in one semester. Repeat students have the option of learning the Yang style long form and weapon forms. The course also covers tai chi philosophy and the application of tai chi to daily life. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 165 F Lifetime Fitness (1)  Two hours lab per week. This class provides cardiovascular fitness training, strength and conditioning exercises and nutrition programs to improve in the components of health related physical fitness. Each student will develop an individual program suited to his/her goals. Lab will cover cardio and strength training exercises, nutritional links, exercise goal setting and adaptation. Course may be taken four times for credit. (CSU) (UC Credit limitation) (Degree Credit) CSU GE

PE 166 F Shao-lin Kung Fu (2) One hour lecture and three hours lab per week. Instruction in traditional Shao-lin long-fist kung fu, including basics, forms, self-defense and joint locks, as well as the philosophy relevant to martial arts and daily life. Repeat students have the option of testing for rank and advancing towards black belt. The course develops skills and abilities applicable for enhancing all aspects of life (self-confidence, self-discipline, enhanced focus and mental concentration), as well as self-defense abilities. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 167 F Cardio Kickboxing Aerobics (1)  Two hours lab plus one hour arranged per week. This course is designed for a group and individual exercise program. Emphasis in class will be on cardiovascular development through basic kick-boxing aerobic movements. Activities include stretching, strength training, and basic kickboxing exercise (no physical contact) set to music. This course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 168 F Boot Camp Workout (1) Three hours lab per week. This course will focus on individual exercises including obstacle course, calisthenics, conditioning, weight training, aerobics, yoga, Pilates and overall fitness. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 171 F Soccer — Recreational (1)  Three hours lab per week. Instruction on the basic skills of soccer: technique, tactics and rules of the game. The workout will be both aerobic and anaerobic and designed primarily for women. The course will include interclass competition. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 172 F Softball — Recreational (1)  Two hours lab per week. This course is designed to increase the knowledge of softball skills through the use of drills. The softball players will learn the fundamental level skill and knowledge in throwing, catching, hitting, fielding, base running and bunting. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 174 F Inline Skating (1) Three hours lab per week. This course is designed to teach the basic skills of inline skating. The skills include proper skating technique, tuning and stopping. Training and cardiovascular fitness will be discussed. Skate rental fee if you do not own your own skates. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 175 F Volleyball — Team Development (.5-2) One and one-half to six hours lab per week. This course is designed for the potential intercollegiate athlete with advanced skill and knowledge in volleyball. Students will receive training in fundamentals and strategies necessary for successful competition. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 179 F Spirit Squad (2) Prerequisite: Audition Ten hours lab per week. This course is designed for cheer and dance team members. The focus is on the skills required for a successful spirit squad and group. The class will include instruction in tumbling, stunts, pom-pom and dance technique, choreography, competition, leadership skills, and crowd motivation. Performance at school athletic events and campus functions is mandatory. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 180 F Baseball (1) Two hours lab and one assigned per week. This course has an emphasis on learning the fundamental aspects of baseball. There will be instruction in all areas of baseball including: hitting, bunting, fielding, throwing, running, and sliding. There will also be emphasis on offensive and defensive fundamentals. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 181 F Basketball (1) Two hours lab per week. The course stresses development of the fundamental skills of basketball and promotes body conditioning. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 182 F Body Building/Body Development and Weight Lifting (1) Two hours lab per week. Class instruction includes those resistive exercises designed to develop and increase size and strength of muscle tissue with emphasis on safe and proper weight lifting techniques. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 183 F Conditioning for Athletes (1) Three hours lab per week. This course is designed for instruction and practice in weight training, weight lifting, anaerobic and aerobic fitness, and flexibility for competition in various intercollegiate sports primarily for men. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE
PE 184 F Dodgeball (1)
Three hours lab per week. This class will provide instruction and practice in the techniques of dodgeball. Course will develop skills, provide knowledge of the rules, teach students to analyze techniques, solve tactical problems and improve physical fitness. Teamwork and strategies will be emphasized while participating in several varieties of dodgeball. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 185 F Football — Defense (3)
Nine hours lab per week. This class is designed to give students the proper knowledge and mental preparation necessary to play collegiate football, specifically at the defensive position. Emphasis is placed on acquiring specific position skill, while participating in a team environment. The students will be instructed on how to participate within the rules and safety procedures set for the by the NCAA and California Commission on Athletes (COA). Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 186 F Football — Offense (3)
Nine hours lab per week. This class is designed to give students the proper knowledge and mental preparation necessary to play collegiate football, specifically at the offensive position. Emphasis is placed on acquiring specific position skill, while participating in a team environment. The students will be instructed on how to participate within the rules and safety procedures set for the by the NCAA and California Commission on Athletes (COA). Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 187 F Physical Fitness (1)
Two hours lab per week. Physical fitness for men would be achieved through the use of resistive exercises and body-building routines. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 188 F Self-Defense — Boxing (1)
Three hours lab per week. This course is designed to teach the students the fundamentals of boxing and self defense. Instruction will be given on the rules and regulations of boxing. The students will learn the necessary skills for participation in amateur boxing. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 189 F Soccer (1)
Three hours lab per week. Instruction on the basic skills of soccer: technique, tactics and rules of the game. The workout will be both aerobic and anaerobic and designed primarily for men. The course will include interclass competition. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 191 F Volleyball: Player Development (.5-2)
One and one-half to six hours lab per week. This course is designed for the potential intercollegiate athlete with advanced skill and knowledge in volleyball. Students will receive training in fundamentals and strategies necessary for successful competition. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 192 F Water Polo (1)
Advisory: Ability to swim 50 yards and able to tread water for 3 minutes
Three hours lab per week. Instruction will be given in the fundamentals of water polo to include physical skill development, conditioning, game strategy, and terminology. The course is designed to provide aquatic game activity for the intermediate and advanced swimmer and to develop a greater understanding of the game of water polo. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit)

PE 193 F Weight Training/Weight Lifting (1)
Three lab hours per week. This course provides instruction in strength training and focuses on weight lifting techniques that will produce muscle endurance and muscle strength. The class will also teach and demonstrate Olympic style lifts. Each student will develop an individual program. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 194 F Wrestling (1)
Three hours lab per week. This course will include instruction in the fundamental skills and knowledge necessary for successful participation in amateur wrestling. The class will develop endurance, flexibility and strength. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 195 F Championship Putting (1)
Two hours lab plus one hour arranged per week. The class will stress rules, fundamentals and etiquette of putting. Facility use fee required. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 196 F Swimming — Recreational (1)
Advisory: Ability to swim
Three lab hours per week. Intermediate instruction and practice will be given in the fundamentals of swimming, including beginning diving and water-safety instruction. This course is designed to develop proficiency in basic strokes to meet prerequisite for advanced Lifesaving and Water-Safety Instruction (WSI) courses. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 197 F Flag Football (1)
Three hours per week. This course provides basic instruction in the strategies, fundamentals, teamwork execution and the rules of flag football. Emphasis will be placed on offensive, defensive and special team assignments and responsibility. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit)

PE 199 F Physical Education Independent Study (1-2)
Three to six hours lab per week. Student should choose an interest area and schedule conferences. This class is for students who wish to participate in acceptable non-curricular physical activities or who wish to work in the field as a teaching assistant or official or to study special programs in physical education. Course may be taken three times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

FOR PE 202 F through PE 222 F: In order to be eligible for athletic competition, students must meet the eligibility requirements of the Southern California Football Association and the Orange Empire Conference. Daily after-school practice or play for a minimum of ten hours per week. The following intercollegiate sports offer credit. Physical Education majors — see counselor for transfer requirements.
PE 202 F Baseball — Men (2)
Course may be taken three times for credit. (CSU) (UC Credit Limitation) (Degree Credit)

PE 203 F Basketball — Men (2)
Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit)

PE 204 F Basketball — Women (2)
Advisory: Tryout
Ten hours lab per week. This course is designed for advanced female basketball players wanting to participate on the intercollegiate basketball team. Daily practice or a minimum of ten hours per week is required. In order to be eligible for athletic competition, students must meet the eligibility requirements of the CCCAA and Orange Empire Conference. Daily after-school practice or play for a minimum of ten hours per week. This course is designed for the advanced female basketball player wanting to participate on the intercollegiate basketball team. Daily practice or a minimum of ten hours per week is required. In order to be eligible for athletic competition, students must meet the eligibility requirements of the CCCAA and Orange Empire Conference. Course may be taken three times for credit. (CSU) (UC Credit Limitation) (Degree Credit)

PE 205 F Cross-Country — Men and Women (2)
Ten hours lab per week. In order to be eligible for athletic competition, students must meet the eligibility requirements of the CCCAA and the Orange Empire Conference. Students will need to pass the sports physical administered by a team physician prior to competition. Course may be taken three times for credit. (CSU) (UC Credit Limitation) (Degree Credit)

PE 207 F Football (2)
Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit)

PE 208 F Golf — Intercollegiate (2)
Ten hours per week. In order to be eligible for athletic competition, students must meet the eligibility requirements of the Orange Empire Conference, including passing a physical exam given by the team doctor. Course may be taken three times for credit. (CSU) (UC Credit Limitation) (Degree Credit)

PE 209 F Soccer — Intercollegiate (2)
Course may be taken three times for credit. (CSU) (UC Credit Limitation) (Degree Credit)

PE 210 F Softball — Women (2)
Advisory: Subject to audition
Ten hours lab per week. This course is designed for advanced female softball players to participate on the intercollegiate softball team. Daily practice or a minimum of 10 hours per week is required. In order to be eligible for athletic competition, students must meet the eligibility requirements of the CCCAA and the Orange Empire Conference. Students will need to pass the sports physical administered by a team physician prior to competition. Course may be taken three times for credit. (CSU) (UC Credit Limitation) (Degree Credit)

PE 211 F Swimming — Men (2)
Advisory: Try-out required
Ten hours per week. In order to be eligible for athletic competition, students must meet the eligibility requirements of the CCCAA and the Orange Empire Conference and the Commission on Athletics. Student athlete will need to pass the sports physical administered by a team physician prior to competition. Course may be taken three times for credit. (CSU) (UC Credit Limitation) (Degree Credit)

PE 212 F Swimming — Women (2)
Ten hours per week. In order to be eligible for athletic competition, students must meet the eligibility requirements of the CCCAA and the Orange Empire Conference and the Commission on Athletics. Student athlete will need to pass the sports physical administered by a team physician prior to competition. Course may be taken three times for credit. (CSU) (UC Credit Limitation) (Degree Credit)

PE 213 F Swimming — Intercollegiate (2)
This course is designed for the advanced tennis player wanting to participate on the intercollegiate tennis teams. In order to be eligible for athletic competition, students must meet the eligibility requirements of the Orange Empire Conference. Course may be taken three times for credit. (CSU) (UC Credit Limitation) (Degree Credit)

PE 214 F Intercollegiate Tennis (2)
This course is designed for the advanced tennis player wanting to participate on the intercollegiate tennis teams. In order to be eligible for athletic competition, students must meet the eligibility requirements of the Orange Empire Conference. Course may be taken three times for credit. (CSU) (UC Credit Limitation) (Degree Credit)

PE 215 F Track — Men/Women (2)
Course may be taken three times for credit. (CSU) (UC Credit Limitation) (Degree Credit)

PE 216 F Outrigger Canoeing — Team Competition — Women (2)
Course may be taken three times for credit. (CSU) (UC Credit Limitation) (Degree Credit)

PE 218 F Intercollegiate Women's Volleyball (2)
Advisory: Try-out required
Ten hours per week. Students must meet the eligibility requirements of the Orange Empire Conference. Student athlete will need to pass the sports physical administered by a team physician prior to competition. Students are required to participate in daily practice and required contests for a minimum of ten hours per week. This course may be taken three times for credit. (CSU) (UC Credit Limitation) (Degree Credit)

PE 219 F Intercollegiate Water Polo (2)
Advisory: Ability to swim 50 yards and tread water three minutes.
Ten hours per week. This course is designed for the competitive student athlete participating in water polo. Course content will include aspects of competitive training such as weight training, repetitive swim sets, offensive and defensive game strategy, and intercollegiate contests. All participants will need to meet eligibility requirements of the CCCAA. They will also be governed by their given conference rules and regulations. Course may be taken three times for credit. (CSU) (UC Credit Limitation) (Degree Credit)

NOTE: COA (Commission on Athletics) has been changed to CCCAA (California Community College Athletic Association)
PE 222 F Badminton — Women (2)
Advisory: Audition
Ten hours of lab per week. In order to be eligible for athletic competition, students must meet the eligibility requirements of the Orange Empire Conference. Also, candidates must pass a physical exam. A tryout is required to demonstrate skills and badminton ability. Daily practices and games per schedule. Course may be taken three times for credit. (CSU) (UC Credit Limitation) (Degree Credit)

PE 223 F Pilates Mat I (1)
Three hours lab per week. A course in alignment and corrective work based on exercises and concepts developed by Joseph H. Pilates. The course will include beginning level mat work, and will emphasize exercises for improved body alignment, strength, flexibility, control, coordination and breathing. (CSU) (Degree Credit) CSU GE

PE 224 F Pilates Mat II (1)
Prerequisite: PE 223 F with a grade of “C” or better
Three hours lab per week. A course in alignment and corrective work based on exercises and concepts developed by Joseph H. Pilates. The course will include advanced level mat work using mats, rings, and foam rollers, and will emphasize exercises for improved body alignment, strength, flexibility, control, coordination and breathing. This course may be taken two times for credit. (CSU) (Degree Credit) CSU GE

PE 225 F Pilates Reformer (2)
Prerequisite: PE 224 F with a grade of “C” or better
Three hours lab per week. A course in alignment and corrective work based on exercises and concepts developed by Joseph H. Pilates. The course will include exercises in mat work and on the reformer, and will emphasize exercises for improved body alignment, strength, flexibility, control, coordination and breathing. This course may be taken four times for credit. (CSU) (Degree Credit) CSU GE

PE 235 F First Aid, CPR, and Safety Education (2)
Two hours lecture per week. This course clarifies when and how to call for emergency medical help, eliminating the confusion that is frequently a factor in any emergency. This course also emphasizes the importance of a safe, healthy lifestyle. The American Red Cross instructional outline will be followed. Upon successful completion the students will be certified in both First Aid and CPR. (CSU) (UC) (Degree Credit)

PE 236 F Prevention and Care of Athletic Injuries (3)
Two hours lecture and three hours lab arranged per week. The lab consists of training room observations and practical work. This course is designed to give the student a basic exposure to the care and prevention of sports related injuries and illnesses. Discussion includes mechanisms of injury, signs and symptoms and the appropriate treatment for the most common injuries. Some class time is spent in the Fullerton College training room learning how to tape ankles and better understand the necessary equipment. (CSU) (UC Credit Limitation) (Degree Credit)

PE 238 F Water Safety Instruction (3)
Prerequisite: Ability to swim
Two hours lecture and two hours lab per week. This is a course with intensive work in how to teach others in the area of swimming and lifesaving. The student is given the opportunity to obtain a Red Cross WSI certificate that is required by the State of California when working at either a private or public pool where swimming lessons are offered. This is a class in which theory and practical application, along with practice teaching, are stressed. (CSU) (UC Credit Limitation) (Degree Credit)

PE 239 F Open Water Scuba Diving (3)
Advisory: Ability to swim 50 yards and tread water for 3 minutes
Two hours lecture and four hours lab per week. This is a course designed to prepare the student to perform skills of skin and SCUBA diving. Instruction will identify, discuss, and employ safety techniques in all phases of underwater diving. Confined water training will be practiced in the pool and repeated during open-water (ocean) dive trips. Field trips and boat dives are required for certification, but certification is not required for completion of this course. Course can be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit)

PE 240 F Sports Officiating for Men (2)
Two hours lecture plus two hours arranged per week in officiating. The basic rules and mechanics of officiating the sports of football, basketball, baseball, and softball are covered. Students will receive practical experiences in officiating. Course may be taken twice for credit. (CSU) (UC Credit Limitation) (Degree Credit)

PE 241 F Sports Officiating for Women (2)
Two hours lecture plus two hours arranged per week in officiating. This course includes a study of the rules of basketball and volleyball, first semester; and softball in the second semester. This class provides an opportunity to obtain officiating ratings in basketball volleyball and softball. (Not currently being offered — if interested, contact Division Office.) Course may be taken twice for credit. (CSU) (UC Credit Limitation) (Degree Credit)

PE 243 F Stress Management Through Physical Activity (2)
One hour lecture and two hours lab per week. Instruction and practice will be given in identifying major sources and types of stress. Each student will develop an individual program suited to his/her needs. Lab instruction will include practice in stretching, progressive relaxation, action, autogeneses, biofeedback, differential relaxation as well as mental imagery and rehearsal techniques. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit)

PE 245 F Lifesaving, Basic Rescue/CPR (2)
Prerequisite: Ability to swim
Two hours lecture and one hour lab per week. This course is designed to develop and perfect the basic swimming strokes needed to successfully execute the various lifesaving skills, as well as improve general skills and proficiency in the water. Upon completion of the class, a student who successfully passes written and practical exams will be qualified to be certified for an American Red Cross Emergency Water Safety, Basic Lifeguarding, or Lifeguard Training Certificate. Cardiopulmonary resuscitation is also covered in class and a certificate of completion is issued when successfully completed. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit)

PE 246 F Advanced/Master SCUBA Diver (3)
Advisory: Demonstrate the basic skills of scuba according to the national standards of NAUI. (Regulator clear, mask clear, low and out of air emergency). Students need to be able to swim in order to complete the water component of the course. Two hours lecture and four hours lab per week. The Advanced/Master SCUBA diving course is an intensive program consisting of lectures and practical application of water skills. The information presented will increase the student's knowledge in the area of equipment, ocean environment, safety, decompression, leadership and specialty diving options. This course provides the opportunity to receive certification not only for Advanced and/or Master, but also for specialties such as Rescue, Deep Water, Night, and Decompression diving, etc. NAUI standards and certification will be utilized. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE
PE 247 F Sports Management (3)
Three hours lecture and two hours arranged per week. This course introduces organization, management, planning, staffing, directing, and controlling a sports program. The course also includes such areas as budget, facilities, scheduling, officials, transportation, public relations, parent and booster clubs, purchase and care of athletic equipment, fund-raising, and marketing. (CSU) (Degree Credit)

PE 248 F Psychology of Sport (3)
Three hours lecture per week. This course will assist students to understand the effects of psychological factors on motor performance. In addition, students will gain an understanding of the effects of participating in physical activity on psychological development, health, and well being. (CSU) (Degree Credit) CSU GE

PE 249 F International Diving Tour (3)
Letter Grade or Pass/No Pass Option
Advisory: Ability to swim
Two hours lecture and four hours lab per week. Introductory lectures and pool/beach labs will instruct the student in fundamental SCUBA diving skills prior to the start of the tour. The tour will consist of traveling to an international destination where the students will study the various elements of its environment while applying basic diving skills. NAUI coursework, testing and training standards will be utilized. Students that meet requirements can receive certification on various levels when tour is completed and dive logs are authenticated. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 250 F Sport and the United States Society (3)
Three hours lecture per week. This course examines sport in the United States society, and how various ethnic and minority groups have influenced sport participation at the local, state, and national levels. Influences of other cultures outside of the United States will be reviewed and analyzed. A review of sport history from both the national and international perspective will be conducted with communication and media influences also examined. Fulfills Multicultural Education Requirement for graduation. (CSU) (Degree Credit) MULT CULT REQ

PE 251 F Philosophy of Martial Arts (3)
Three hours lecture per week. This course is an overview of the philosophy of the martial arts, intended to develop an understanding of the integrated human being as a physical and psychological organism. Relevant philosophies include Zen and Taoism, and the relationship to humanistic psychology. The course focuses on self-mastery through the martial arts in areas including focus, self-discipline, expanded awareness and achieving one’s personal best. (CSU) (UC Credit Limitation) (Degree Credit)

PE 252 F Introduction to Physical Education (2)
Two hours lecture per week. Introduction and orientation to physical education as a profession and as an academic discipline. Explores sub-disciplines, opportunities in the field, philosophy, scientific foundation, and analyzes and evaluates individuals that have influenced these trends and issues in the 21st century. Course may be taken four times for credit. (CSU) (Degree Credit)

PE 266 F Physical Fitness as a Lifelong Concept (2)
Two hours lecture per week. This course will survey and analyze the exercise components that make up our individual physical beings. Students will appraise the concepts of behavior that may result in an optimally fit and healthy life-style. Additionally, students will observe the effects that age has on specific body systems and how a reasonably conceived and defined program of activity and diet may result in improved fitness, wellness and quality of life with advancing years. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

PE 270 F Diet and Exercise for Athletes (3)
Two hours lecture and three hours lab per week. This course is designed to help understand the concept of lifelong weight management. The goal is to learn to combine the good nutritional habits along with a quality exercise regime to meet weight control goals. The class will include comprehensive lectures with an affecting weight-related problem with athletes. The course will emphasize caloric planning, energy expenditure, metabolism, and eating disorders. Diet theories will be explained along with the evaluation of fad diets and supplements. (CSU) (Degree Credit)

PE 280 F Professional Activities — Theory of Baseball (2)
One-hour lecture and two hours lab per week. A course designed to prepare future physical education teachers or community youth coaches in the theory of coaching baseball. This course will include the mental and physical preparation of becoming a complete baseball player; the theory and practical experience of offensive and defensive phases of the game; individual technique drills for each of the nine positions; coach and umpire relationships; the planning and execution of practice sessions; and the strategies involved during a game. (CSU) (UC Credit Limitation) (Degree Credit)

PE 281 F Professional Activities — Theory of Basketball (2)
One-hour lecture and two hours lab per week. The course deals with basketball from beginning to present day. The psychology of coaching basketball, player fundamentals, administration of a total basketball program, behavioral objectives for basketball, practical experience of teaching offense and defense will be covered. (CSU) (UC Credit Limitation) (Degree Credit)

PE 282 F Professional Activities — Theory of Softball (2)
One-hour lecture and two hours lab per week. This course is designed to prepare present and future players, physical-education teachers and coaches in the theory of coaching softball. The course includes the mental and physical preparation of becoming a softball player; the theory and practical experience pertaining to the offense and defense; individual technique drills for each of the nine softball positions. (CSU) (UC Credit Limitation) (Degree Credit)

PE 283 F Professional Activities — Theory of Football (2)
Two hours lecture per week. This is a course, which will better prepare those students going into physical education, coaching or recreation with basic fundamentals, strategy and history of football. Students will gain an awareness of techniques and concepts relating to better performance and learning experiences. (CSU) (UC Credit Limitation) (Degree Credit)
PE 284 F Professional Activities — Theory of Soccer (2)
One hour lecture and two hours lab per week. This course is designed to prepare future physical education and recreation teachers or community coaches in the theory of coaching soccer. It includes the mental and physical preparation of becoming an instructor of, or participant in, the sport of soccer and the theory and practical experience of offensive and defensive phases of the game. Technique, tactics, fitness, and psychology will be covered in detail. Rules and regulations of the game, along with equipment and safety, will be discussed. (CSU) (UC Credit Limitation) (Degree Credit)

PE 285 F Professional Activities — Theory of Volleyball (2)
One hour lecture and two hours lab per week. This course is designed to prepare present and future players, physical education teachers and coaches in the theory of coaching volleyball. The course includes the mental and physical preparation of becoming a volleyball player, the theory and practical experience pertaining to the offense and defense strategies of volleyball, individual technique drills to perfect the skills of volleyball. (CSU) (UC Credit Limitation) (Degree Credit)

PE 299 F Physical Education Independent Study (1-2)
Three to seven hours lab per week in interest area plus scheduled conferences. For students who wish to participate in acceptable non-curricular physical activities or who wish to work in the field as a teaching assistant or official or to study special programs in physical education. Course may be taken three times for credit. (CSU) (UC review required.) (Degree Credit)

Physical Sciences (PHSC)

Natural Sciences Division

Physical Sciences Courses

PHSC 050 F Success in Science (1)
Pass/No Pass only
One hour lecture per week. This course is designed to prepare students for any introductory course within the Natural Science Division. Topics include using and converting units, converting written statements into algebraic or graphical statements, interpreting scientific data, calculating areas and volumes, estimating answers, using scientific notation and significant figures, critical thinking and problem solving. Under no circumstances will this course take the place of the math prerequisite (MATH 020 F, MATH 040 F, MATH 142 F, or MATH 150AF) listed for any science course.

PHSC 051 F Success in Physical Science (1)
Pass/No Pass only
One hour lecture per week. This course is designed to prepare students to take physics or chemistry courses. It is a continuation of PHSC 050 F Success in Science, using units and dimensional analysis with more complex problems. Other topics include more complex science problem solving, checking solutions in error, 3-dimensional visualization, growth and decay processes, proportional reasoning, using angles and vectors in mechanics, and extracting information from graphs of experimental data. Under no circumstances will this course take the place of the math prerequisite (MATH 020 F, MATH 040 F, MATH 142 F, or MATH 150AF) listed for any science course.

PHSC 102 F Physical Science Survey (4)
Three hours lecture and three hours lab per week. This course integrates instructor-guided concept exploration, problem solving, small group investigation, and class presentation. This activity-based course will examine physical science concepts in real-world contexts such as global warming, household science and the automobile. (CSU) (UC; no credit if taken after a college course in astronomy, chemistry, geology, or physics.) (Degree Credit) AA GE, CSU GE, IGETC

PHSC 103AF Physical Sciences for Teachers — Chemistry (2)
Prerequisite: MATH 020 F with a grade of “C” or better
One and one-half hours of lecture and one and one-half hours of lab per week. This course covers conservation laws, Newton’s laws of motion, gravity, electromagnetism, and optics. It is designed for students who want to become multiple-subject school teachers, but is open to all students. General education transfer credit acceptable only if PHSC 103BF is also completed. (CSU)

PHSC 103BF Physical Sciences for Teachers — Physics (2)
Prerequisite: MATH 020 F with a grade of “C” or better and PHSC 103AF with a grade of “C” or better
Advisory: This course should be taken the same semester as PHSC 103AF
One and one-half hours of lecture and one and one-half hours of lab per week. This activity-based course provides an introduction to the basic concepts of chemistry including atoms, bonding and chemical reactions. Instructor-guided concept exploration, problem solving, small group investigation, and class presentation are integrated within the context of real-world applications of chemical concepts. It is designed for students who want to become multiple-subject school teachers but is open to all students. General education transfer credit acceptable only if PHSC 103AF is also completed. (CSU)

PHSC 299 F Physical Sciences Independent Study (1)
Prerequisite: Demonstrated scholarship in courses in the Physical Sciences Division
One hour lecture or scheduled conference or three hours lab research per week. For able students who wish to increase their knowledge of the sciences through individual study and small group conferences. Independent lab research problems with staff supervision may be approved. Outside reading and written report required. Elective credit in the sciences area. (CSU) (UC review required) (Degree Credit)
Physics (PHYS)

Natural Sciences Division
Office: Bldg 1000
714.992.7043

Associate in Arts Degree

Physics Courses

PHYS 130 F Elementary Physics (4)
Letter grade or Pass/No Pass option
Prerequisite: MATH 020 F
Three hours lecture, three hours lab per week. A survey of some of the more important principles, philosophy, and phenomena of physics. Topics include mechanics, electricity and magnetism, wave phenomena, and modern physics. The course is intended for those with no previous experience in physics. It is not open to anyone who has taken a college-level physics course. The lab includes experiments in measurement, mechanics, electricity, wave phenomena, and radioactivity. (CSU) (UC Credit Limitation; no credit if taken after PHYS 205 F, PHYS 210 F or PHYS 221 F.) (Degree Credit) AA GE, CSU GE, IGETC

PHYS 205 F Physics for the Life Sciences I (formerly College Physics) (4)
Letter grade or Pass/No Pass option
Prerequisite: MATH 141 F and MATH 142 F, both with a grade of “C” or better
Three hours of lecture and three hours of lab per week. This course covers Newtonian mechanics, conservation laws, heat, and waves. The lab portion of the course investigates these topics both qualitatively and quantitatively, and includes the use of graphing and statistics, and propagation of errors. This is the first half of an algebra-based two-semester sequence (PHYS 205 F and 206 F) for students majoring in the life sciences. This course satisfies a requirement for biology majors in the CSU system, but not the UC system. (CSU) (UC Credit Limitation) (Degree Credit) AA GE, CSU GE, IGETC

PHYS 206 F Physics for the Life Sciences II (formerly College Physics) (4)
Letter grade or Pass/No Pass option
Prerequisite: PHYS 205 F with a grade of “C” or better
Three hours of lecture and three hours of lab per week. This course covers electricity and magnetism, optics, special relativity, and quantum physics. The lab portion of the course investigates these topics both qualitatively and quantitatively, and includes the use of graphing and statistics, and propagation of errors. This is the second half of an algebra-based two-semester sequence (PHYS 205 F and 206 F) for students majoring in the life sciences. This course satisfies a requirement for biology majors in the CSU system, but not the UC system. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE, IGETC

PHYS 210 F Physics with Calculus for the Life Sciences I (formerly Physics) (4)
Corequisite: MATH 150AF
Three hours of lecture and three hours of lab per week. This course covers Newtonian mechanics, conservation laws, heat, and waves. The lab portion of the course investigates these topics both qualitatively and quantitatively, and includes the use of graphing and statistics, and propagation of errors. This is the first half of a calculus-based two-semester sequence (PHYS 210 F and 211 F) for students majoring in the life sciences. This course satisfies a requirement for biology majors in the UC system; the CSU system will accept either this sequence or PHYS 205 F and PHYS 206 F. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE, IGETC

PHYS 211 F Physics with Calculus for the Life Sciences II (formerly Physics) (4)
Prerequisite: PHYS 210 F with a grade of “C” or better
Corequisite: MATH 150BF
Three hours of lecture and three hours of lab per week. This course covers electricity and magnetism, optics, special relativity, and quantum physics. The lab portion of the course investigates these topics both qualitatively and quantitatively, and includes the use of graphing and statistics, and propagation of errors. This is the second half of a calculus-based two-semester sequence (PHYS 210 F and 211 F) for students majoring in the life sciences. This course satisfies a requirement for biology majors in the UC system; the CSU system will accept either this sequence or PHYS 205 F and PHYS 206 F. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE, IGETC

PHYS 221 F General Physics I (4)
Prerequisite: MATH 150AF with a grade of “C” or better
Three hours lecture and three hours lab per week. Mechanics, vibrations, properties of matter. The lab provides students with hands-on experience working with the subject material. Required for majors in physics and engineering. Recommended for majors in all the other physical sciences. PHYS 221 F, 222 F, and 223 F are a calculus-based, three-semester survey of introductory physics. Required of majors in physics and most majors in engineering. Recommended for majors in all the other physical sciences. (CSU) (UC Credit Limitation) (Degree Credit) AA GE, CSU GE, IGETC

PHYS 222 F General Physics II (4)
Prerequisite: PHYS 221 F and MATH 150BF, both with a grade of “C” or better
Three hours lecture and three hours lab per week. Electrostatics, electric and magnetic fields, simple DC and AC circuits, Maxwell’s equations in integral form. The lab provides students with hands-on experience working with the subject material. Required for majors in physics and engineering. Recommended for majors in all the other physical sciences. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE, IGETC

PHYS 223 F General Physics III (4)
Prerequisite: PHYS 222 F with a grade of “C” or better
Three hours lecture and three hours lab per week. Thermodynamics, mechanical and electromagnetic waves, geometrical and physical optics, special relativity, and an introduction to quantum mechanics including wave-particle duality, the uncertainty principle, the atom, and the nucleus. The lab provides students with hands-on experience working with the subject material. PHYS 221 F, 222 F, and 223 F are a calculus-based three-semester survey of introductory physics. Required of majors in physics and most majors in engineering. Recommended for majors in all the other physical sciences. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE, IGETC

Associate in Arts Degree

Political Science Courses

POSC 100 F American Government (3)
Three hours lecture and discussion per week. This course is an introductory survey of American governing institutions, federal and state, and other elements of the political system. The course is issue-oriented, inviting students to analyze critically competing theories and arguments relating to the founding of the Republic (especially the development of the Constitution), federalism, individual rights and liberties, interest groups, political parties, voting behavior and elections, campaign finance reform, public policy options, and the operational relations among the executive, legislative, and judicial branches. Course curriculum recognizes the roles and contributions of racial and ethnic groups and women in American politics. On each of these topics comparisons will be made to the governing units and politics of California, as well as local government. (CSU) (UC Credit Limitation) (Degree Credit) AA GE, CSU GE, IGETC

POSC 100HF Honors American Government (3)
Three hours lecture and discussion per week. Enhanced for honors students. This course is an introductory survey of American governing institutions, federal and state, and other elements of the political system. The course is issue-oriented, inviting students to analyze critically competing theories and arguments relating to the founding of the Republic (especially the development of the Constitution), federalism, individual rights and liberties, interest groups, political parties, voting behavior and elections, campaign finance reform, public policy options, and the operational relations among the executive, legislative, and judicial branches. Course curriculum recognizes the roles and contributions of racial and ethnic groups and women in American politics. On each of these topics comparisons will be made to the governing units and politics of California, as well as local government. (CSU) (UC Credit Limitation) (Degree Credit) AA GE, CSU GE, IGETC

POSC 110 F Contemporary American Politics (3)
Three hours lecture and discussion per week. This course emphasizes the political problems that are current in the American political scene and provides an opportunity for the student to investigate and evaluate contemporary response to those problems. Alternately, this course is designed to provide structured opportunities for students to participate actively in the processes of government and politics as interns. (CSU) (UC) (Degree Credit) CSU GE, IGETC

POSC 120 F Introduction to Political Theory (3)
Three hours lecture and discussion per week. The course is a survey of Western political theory. It is intended to introduce students to political theory from Greek times to the Enlightenment and beyond. It is intended to show students how political theory shapes current institutions and ideologies in the United States, Europe, and other countries around the world. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

POSC 150 F California Government & Politics (3)
Three hours lecture and discussion per week. This course is an introduction to the study of state and local politics, exploring the political culture, processes, behavior, institutions, public policy, and distribution of power in California. Policies in other states are examined to aid understanding of California politics. Topics include the political culture of the state, the process of change, policy agendas, budgeting, and the current status of states within the federal system. (CSU) (Degree Credit) AA GE, CSU GE

POSC 180 F Capital Field Trip: Sacramento Seminar (3)
A total of 36 hours per trip required. This seminar class joins with student delegations from other California colleges and universities that meet in the state capitol for a four-day policy conference each spring. Includes presentations and panel discussions by legislators, lobbyists, public administrators, and journalists. The class will meet regularly before the practicum to prepare students for the conference and an independent research paper will be assigned. Student contribution of $175 will cover the cost of transportation, hotel and registration fee for the seminar. (CSU) (Degree Credit)

POSC 200 F Introduction to the Study of Politics (3)
Three hours lecture and discussion per week. This course is an introduction to the study of politics in general, not simply American politics. Explore the many faces of politics all over the world, examining its relationships to morality, culture, economics, justice and international affairs both theoretically and practically. As an introductory course, it includes elements from the major sub-disciplines of political science, i.e., American politics, comparative politics, and international relations. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

POSC 215 F Comparative Political Systems (3)
Three hours lecture and discussion per week. This course emphasizes various methodologies necessary to compare political systems representing Eurasia, the Western Hemisphere, and the developing nations. It explores the differences and similarities in the operation of the major branches of government, political party and electoral systems, types and activities of interest groups, individual rights and liberties, leadership patterns, the power relations among local, provincial, national and supranational regional governments such as the European Community, and the challenges facing transitional democracies throughout the world. (CSU) (UC) (Degree Credit) CSU GE, IGETC

POSC 216 F Government and Politics of the Middle East (3)
Three hours lecture and discussion per week. This course is an introduction to the historical, social, economic and ideological foundations of the Middle East in general and major states in the region in particular. Emphasis is placed on the political and economic developments in Egypt, Iraq, Iran, Israel and Saudi Arabia. Topics covered include: introduction to the land, peoples, cultures and religions; colonialism and the emergence of modern states following World War I; Western influence and Islamic revivalism; regional conflicts (Arab-Israeli, Iran-Iraq, Gulf War); the politics and economics of oil; U.S. based ethnic interest groups and their influence on U.S. foreign policy; patrimonialism and militarism; liberalization and democratization. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC
**POSC 220 F Introduction to Public Administration (3)**

Three hours lecture per week. Topics analyzed include the role of government in American society, the historic development of the public service, management issues related to modern governmental enterprises, problems of personnel, public budgeting and alternative strategies for securing administrative responsibility. The course focuses on readings and cases pertaining to local and state administration, although issues involving the federal level are discussed where appropriate. This course examines, from a multidisciplinary perspective, those essential competencies, values and issues important to public service organizations and the importance of public policy at the local, state, national and international levels. (CSU) (UC) (Degree Credit) CSU GE, AA GE

**POSC 230 F Introduction to International Relations (3)**

Three hours lecture and discussion per week. This course is a study of the basic dynamics and structure of the nation-state system as it emerged in the post-World War II context, and in the aftermath of the collapse of the Soviet Bloc. Students will examine major issues of the U.S. foreign policy, and engage in an individual research project. (CSU) (UC) (Degree Credit) CSU GE, IGETC

**POSC 275 F Introduction to Public Law (3)**

Three hours lecture and discussion per week. The course explores the interactive dynamic among the judicial, legislative, and executive branches in the creation and implementation of public law. It involves an extensive analysis of cases relating to the separation of powers, federal-state relations, and rights of property, free expression, privacy, criminal due process, political participation, and equality under the law. Corollary topics include orientation to legal research, case briefing, development of judicial review, judicial organization and decision-making, sources and limits of judicial power, and the political impact of Supreme Court decisions. Students will participate in various simulations of court decisions. (CSU) (UC) (Degree Credit) CSU GE

**POSC 299 F Political Science Independent Study (1)**

One hour lecture or scheduled conference per week. This course is offered for students who wish to increase their knowledge of the Social Sciences through individual study and small group conferences. Students successfully completing this course will be awarded elective credit in the Social Sciences area. Course may be taken three times for credit. (CSU) (UC review required) (Degree Credit)

**Portuguese (PORT)**

Humanities Division

*Office*: Bldg 500, Room 522-O  
714.992.7036

*Dean*: Dan Willoughby

*Website*: www.humanities.fullcoll.edu

**Portuguese Courses**

**PORT 101 F Elementary Portuguese I (5)**

Letter grade or Credit/no credit option. Five hours lecture plus one hour arranged lab per week. The course focuses on the four major skills of language learning, listening comprehension, speaking, reading and writing — and the grammar and vocabulary necessary to acquire these skills. Included is an introduction to customs, culture, and civilization of Portuguese-speaking countries. This course is conducted primarily in Brazilian Portuguese. (CSU) (UC) (Degree Credit) AA GE, CSU GE

**PORT 102 F Elementary Portuguese II (5)**

Letter grade or Credit/no credit option. *Prerequisite*: PORT 101 F with a grade of “C” or better or one year of high school Portuguese with a grade of “C” or better

Five hours lecture plus one hour arranged lab per week. The course continues to focus on the four major skills of language learning — listening comprehension, speaking, reading and writing — and the grammar and vocabulary necessary to acquire these skills. Included is an introduction to customs, culture, and civilization of Portuguese-speaking countries. This course is conducted primarily in Brazilian Portuguese. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGEC

*Dean*: Scott McKenzie

*Website*: techneng.fullcoll.edu

- Associate in Science Degree
- Advanced Offset Presswork Certificate
- Customer Service Training Certificate
- Digital Printing Certificate
- Electronic Imaging Certificate
- Flexography Certificate
- Graphic Communications Certificate
- Offset Duplicator Training Certificate
- Printing Technology (General) Certificate
- Quick Print/In-Plant Graphics Certificate
- Screen Printing Certificate

**Printing Technology Courses**

**PRNT 021 F Survey of Graphic Communications (.5-2)**

Open Entry/Open Exit

This course is an open entry/variable unit lab and is designed to introduce the student to the basic terminology, equipment and processes used in the printing industry. Completion of 24 hours of lab equals .5 units. The course may be taken four times for credit to a maximum of 8 units.

**PRNT 056 F Digital Printing (2.5)**

Two hours lecture and one and one half hours lab per week. This introductory course will provide students with a basic theory of digital printing. Emphasis will be placed on the operation of a Xerox Docutech digital printing machine. Other related topics to be covered include digital history, image assembly and composition, digital quality, machine features, bindery operations, paper specifications, and digital machine maintenance. (Degree Credit)

**PRNT 070 F Quick Printing and In-Plant Graphics (2-8)**

Sixty-four hours lecture and lab required for each two units of credit. Theory and practical experience in quick print and in-plant printing. Areas covered are: estimating, small press, camera, bindery, and related subjects necessary for day to day production. This class is offered on an open-entry, variable unit open-exit basis. Course may be taken four times for credit. (Degree Credit)
PRNT 072AF Photo-Silk Screen (2)
One hour lecture and three hours lab per week. Principles, basic methods, and techniques of preparing designs, and placing direct stencils on a screen printing frame, also establishing register systems and printing on various substrates as per industrial procedures. Care, use, and safety precautions in operating and cleaning of the screen printing frame, equipment, and supplies. (Degree Credit)

PRNT 072BF Advanced Photo-Silk Screen (2)
Prerequisite: PRNT 072AF
One hour lecture and three hours lab per week. Vocational copy preparation techniques for multi-color reproduction, register and color matching. Instruction to include ink composition, modifiers, proper ink, and estimating cost analysis for production. Emphasis on new synthetic inks and curing procedures. (Degree Credit)

PRNT 072CF Advanced Photo-Silk Screen (2)
Prerequisite: PRNT 072BF
One hour lecture and three hours lab per week. Industrial camera techniques with emphasis on special-effect screen, tint screens, and half-tones. (Degree Credit)

PRNT 075 F Electronic and Conventional Pre-Press (6-6-6)
Four hours lecture and eight hours lab per week. This course has extensive instruction in electronic prepress page layout, color scanning and conventional press operations. Typesetting, proof reading and image manipulation via files, to merge copy and graphics, is an integral part of this course. Design and creativity is not the intent of this course. Instructions will be given in film assembly of negatives and positive for the purpose of preparing printing plates for sheetfed offset presswork by both conventional and electronic processes. This course will present the theory of color and how it applies to the lithographic process. Special emphasis is placed on direct and indirect key line techniques and advance contacting procedures. A variety of daylight films will be accurately calibrated with the use of an electronic densitometer. (Graphic Arts Technical Foundation — GATF Certification in Film Assembly and Fullerton College certification in Conventional and Electronic Prepress). Course may be taken three times for credit. (Degree Credit)

PRNT 085 F Introduction to Flexography (4)
This introductory course will provide the student with a technical understanding of flexographic press operation for one, two and three color printing. Students will practice the set-up, operation, and clean-up of a narrow web flexographic press. Topics for discussion will include history of flexography, flexographic plates, plate mounting, ink systems and nomenclature, types of cylinders, substrates, die cutting, stripping, slitting, environmental concerns, and related safety. (Degree Credit)

PRNT 086 F Advanced Flexography (4)
Advisory: PRNT 085 F
This advanced course will provide the student with advanced technical aspects of flexographic press operation for multiple color printing. Students will practice pre-press techniques and develop advanced flexographic press skills on a narrow web label press. Advanced applications of flexographic processes, design, multi-color prints, plate materials, bar codes, inks, substrates, presses and press equipment, pressroom practices, environmental concerns, and related safety will be discussed. (Degree Credit)

PRNT 090 F Printing Skills Lab (.5-6)
Corequisite: Any printing technology class, except screen printing classes
One-half to six hours lab per week. This advanced course will provide students with an opportunity to practice various printing skills that they have developed from completing other printing courses. Students can improve skills in the operation of the Xerox Docutech digital printing machine, electronic pre-press, large offset press operation, small offset press operation, bindery operations, paper specifications, and machine maintenance. Course may be taken four times for credit. (Degree Credit)

PRNT 101 F Introduction to Printing (3)
Two hours lecture and four hours lab per week. A basic course, which covers the technical aspects of the various printing processes and related areas. This course includes instruction in copy generation and page design using various computer applications including QuarkXPress and Photoshop. Computerized pre-press instruction includes prefiling of files and output on film using an image setter. This course also includes basic instruction in small offset press and prepares the student to enter other more advanced printing classes. (CSU) (Degree Credit)

PRNT 130 F Graphics (2)
One and one-half hour lecture and one and one-half hour lab per week. Introduces to the industrial arts teaching major and the non-printing major the broad field of graphic arts. Included are experiences in hand composition, copy fitting, paste-up, offset camera stripping, and bindery operation. The course is arranged for students majoring in industrial arts, technical illustration, journalism, commercial art, and merchandising whom in their vocation will work with or furnish materials to the printer. (CSU) (Degree Credit)

PRNT 151 F Introduction to Pre-Press (4)
Advisory: PRNT 101 F or one year of industrial experience or two years of high school graphic arts
A basic course, which covers the technical aspects of conventional pre-press. The use of a horizontal process camera, including units of litho chemistry, quality control of line and halftone negatives, contacting techniques, film assembly for large offset presses using pin registration, photo mechanical proofing and making of offset plates are taught. (Graphic Arts Technical Foundation — GATF — Certification) (CSU) (Degree Credit)

PRNT 152 F Introduction to Electronic Pre-Press (4)
Advisory: PRNT 151 F or one year industrial experience and basic computer knowledge
This is an introductory course, which covers the technical aspects of electronic pre-press. The use of both Mac’s and PC based computers, using current software in page layout, scanning, design, typography, file management for printers will be taught. This class is part of the new industrial image skills training program. (Graphic Arts Technical Foundation — GATF — Certification) (CSU) (Degree Credit)

PRNT 161 F Sheetfed Offset Presswork (4)
Advisory: PRNT 101 F or PRNT 070 F or one year industrial experience or two semesters of articulated high school graphics
This course is designed to introduce the technical aspects of lithographic sheetfed offset presswork for students who are currently working in the printing industry. Lithographic theory and its application to knowledge and performance of pressroom safety, the feeder system, the printing units, press feeders, single color register, paper properties, delivery systems, and an exposure to make-ready and production techniques. (Graphic Arts Technical Foundation — GATF — Certification) (CSU) (Degree Credit)
PRNT 162 F Intermediate Sheetfed Offset Presswork (4)
**Prerequisite:** PRNT 161 F
Three hours lecture and three hours lab per week. An intermediate course designed for students working in the printing industry. This course covers the technical aspects of lithographic theory, the application of knowledge and performance of pressroom safety, the printing units, inking and dampening systems, multicolor register, make-ready, and intermediate exposure to production techniques, and “Tricks of the Trade” are covered. GATF/PIA-SC, Fullerton College examination. This is the completion of the Sheetfed Offset Press Certification initiated in the PRNT 161 F prerequisite. (Graphic Arts Technical Foundation — GATF — Certification) (CSU) (Degree Credit)

PRNT 171 F Offset Presswork (7)
**Advisory:** PRNT 101 F or PRNT 070 F or one year industrial experience or two semesters of articulated high school graphics
A basic course, which introduces the technical aspects of lithographic, sheetfed offset presswork, for those seeking initial employment in the printing industry. The basic lithographic theory and its application to knowledge and performance of pressroom safety, the feeder, the printing units, inking and dampening systems, press feeders, register, pre-production and an exposure to production techniques. (Graphic Arts Technical Foundation — GATF — Certification) (CSU) (Degree Credit)

PRNT 172 F Offset Presswork (6)
**Prerequisite:** PRNT 171 F
Four hours lecture and eight hours lab per week. An intermediate course, which covers the technical aspects of lithographic, sheetfed offset presswork and intermediate lithographic theory. This course is designed for those entering the printing field and are interested in training for large press operation. Course content includes the application to knowledge and performance of pressroom safety, the cylinder system, inking and dampening systems, press make-ready procedures, multicolor printing, press maintenance techniques, and an exposure to intermediate production techniques. Emphasis is on completion of the Knowledge Certificate by passing the GATF/PIA-SC, Fullerton College examination. This is the completion of the Sheeted Offset Press Certification initiated in the 171 prerequisite. (Graphic Arts Technical Foundation — GATF — Certification) (CSU) (Degree Credit)

PRNT 190 F Basic Printing Estimating (2)
**Corequisite:** PRNT 101 F or one year experience in the printing industry
Two hours lecture per week. This course is designed for students to develop expertise in the field of printing cost estimating and receive an introduction to basic printing management techniques. Practical examples from current printing jobs in industry are utilized to assist the student in developing meaningful and accurate cost estimates to include environmental considerations. The class will include all facets of the industry including typesetting, computer generated imaging, camera, film assembly, proofing, plate making, sheet and web fed lithographic presswork, bindery and finishing operations. The class will stress current paper and ink estimating techniques using accepted trade standards. (CSU) (Degree Credit)

PRNT 953 F Advanced Electronic Pre-Press (4)
**Prerequisite:** PRNT 152 F
Three hours lecture and three hours lab per week. This is an advanced course which covers the technical aspects of color specifications, illustration software, typography and font management, color reproduction, introduction to color management, digital file transport, pre-flight of files, proofing, quality control, digital workflow, file servers and networks. Imagesetter, digital trapping, digital imposition and the use of postscripts are taught. (Graphic Arts Technical Foundation — GATF — Certification) (CSU) (Degree Credit)

PRNT 963 F Advanced Sheetfed Offset Presswork (4)
**Prerequisite:** PRNT 162 F
Three hours lecture and three hours lab per week. An advanced course which covers the intricate reproduction of process lithographic color that is designed for students with industrial experience. The advanced applications of press operation, pressroom safety, successive and stream feed systems, premake-ready, make-ready, inking and dampening components, four color register, and production techniques. Emphasis is on completion of the Performance Certificate by passing the GATF/PIA-SC, Fullerton college four color process practical examination. (Graphic Arts Technical Foundation — GATF — Certification) (CSU) (Degree Credit)

PRNT 973 F Advanced Offset Presswork (6)
**Prerequisite:** PRNT 172 F
Four hours lecture and eight hours lab per week. An advanced course designed for students entering the printing field seeking employment. This printing production course covers the intricate reproduction of process lithographic color. The advanced application of press performance, pressroom safety, press feeder systems, the printing units, the inking and dampening systems, four color register, make-ready and advanced production techniques. Emphasis is on completion of the Performance Certificate by passing the GATF/PIA-SC, Fullerton College four color process practical examination and gaining employment. (Graphic Arts Technical Foundation — GATF — Certification) (Degree Credit)

**Psychology (PSY)**

**Social Sciences Division**

**Office:** Bldg 1400, Room 1415
**Phone:** 714.992.7047
**Dean:** Dan Tesar
**Website:** [http://socsci.fullcoll.edu/](http://socsci.fullcoll.edu/)

**Associate in Arts Degree**

**Psychology Courses**

**PSY 101 F General Psychology (3)**
Three hours lecture per week. This course is a scientific introduction to the major fields of psychology. These fields include research methodology, cognition, memory, perception, sensation, motivation, emotion, learning, and developmental, social, personality, abnormal, and physiological psychology. Students will learn the principles, theories, and research on human actions, emotions, and cognition. (CSU) (UC Credit Limitation) (Degree Credit) AA GE, CSU GE, IGETC

**PSY 101HF Honors General Psychology (3)**
Three hours lecture per week. This course, enriched for honors students, is a scientific introduction to the major fields of psychology including research methodology, cognition, memory, perception, sensation, motivation, emotion, learning, developmental, social, personality, abnormal, and physiological psychology. Students will learn the principles, theories, and research on human actions, emotions, and cognition. (CSU) (UC Credit Limitation) (Degree Credit) AA GE, CSU GE, IGETC
PSY 110 F Introduction to Applied Psychology (3)
Three hours of lecture-discussion per week. In this course, students apply the principles of psychology and the research in psychology to common “everyday” situations. Psychological principles will be applied to situations that might occur during college life, during personal and social experiences, and at work and in one’s career. Students will learn how psychology applies to adjustment, health, stress, and psychological disorders. Applied Psychology is not the same as PSY 101 F; it has less of a focus on technical terms and theories than does General Psychology, and cannot be taken in place of PSY 101 F. (CSU) (Degree Credit) AA GE

PSY 120 F Human Sexuality (3)
Three hours lecture per week. Human Sexuality is a broad field in which many cultural, psychological and physiological variables interact in relation to sexual development, attitudes and behaviors. The methods of scientific psychology are utilized to improve understanding of a broad range of behaviors ranging from healthy to dysfunctional within mainstream modern American culture and American minority groups as well as peoples of other cultures and historical eras. Discussion of differing cultural and moral perspectives is utilized to assist students in making a critical assessment of the nature of the sexual self as well as intimate human relationships within their own community and the world. (CSU) (UC) (Degree Credit) AA GE, CSU GE

PSY 131 F Cross-Cultural Psychology (3)
Three hours lecture per week. This course is an introduction to culture’s influence on human behavior and mental processes. Beginning with an examination of theoretical definitions of culture, the course covers a broad range of theories and research findings regarding cultural influences on human behavior and cognitive processes (life-span development, abnormal behavior and mental health, self-concept, emotion, motivation, learning, intelligence, perception, memory, communication, social cognition, and social behavior). The diversity of human expression is examined in contexts ranging from everyday modes of functioning to family and work relationships. By providing students with a non-judgmental understanding of how culture influences human behavior, this course will make them more equipped to interact in a world where there is increasing contact among different cultures. In addition, students will gain knowledge in cross-cultural research methodology. Eligibility for ENGL 100 F is recommended. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC, MULT CULT REQ

PSY 139 F Developmental Psychology: Life Cycle (3)
Prerequisite: PSY 101 F
Three hours lecture per week. The course explores the entire lifespan, including infancy, childhood, adolescence, adulthood, old age and death. Students will study and evaluate psychological, sociological and biological theories and facts related to human development. Physical development, social and emotional development, intellectual and cognitive development, and moral development are among the topics covered. Students will study and evaluate research methodologies, and will study many factors thought to influence healthy development. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

PSY 145 F Child Psychology (3)
Corequisite: PSY 101 F or PSY 110 F
Three hours lecture per week. The psychology of development will be studied from the prenatal stage through adolescence across the domains of physical, cognitive and psychological changes. Theoretical viewpoints and research findings will be applied to real-life situations in the context of a cross-cultural perspective, the dominant U.S., Asian and Latino cultures, in addition to Russian, Indian, African, German, Chinese, Australian, and French cultures. This course fulfills the Multicultural Education Requirement of graduation. (CSU) (UC) (Degree Credit) CSU GE, IGETC, MULT CULT REQ

PSY 161 F Elementary Statistics in Behavioral Sciences (3)
Prerequisite: Two years of high school algebra or MATH 040 F
Three hours lecture per week. This course introduces psychology and behavioral science majors to descriptive and inferential statistical methods. These methods are essential to the understanding, interpretation, and performance of scientific research. Topics covered include presentation of graphic data, probability theory, hypothesis testing, correlation analysis, analysis of variance, and basic research design. Experience with calculators and computers are provided. (CSU) (UC Credit Limitation; PSY 161 F and MATH 120 F combined, maximum credit one course) (Degree Credit) CSU GE, IGETC

PSY 199 F Psychology Independent Study I (1)
One hour lecture or scheduled conference per week. This course is offered for students who wish to increase their knowledge of the Social Sciences through individual study and small group conferences. Students successfully completing this course will be awarded elective credit in the Social Sciences area. Course may be taken three times for credit. (CSU) (UC Credit Limitation depending upon course content; UC review required.) (Degree Credit)

PSY 202 F Research Methods in Psychology (3)
Prerequisite: PSY 101 F
Corequisite: PSY 161 F
Two hours lecture and three hours lab per week. This course is designed for students who wish to explore in greater depth the theories, concepts, and research areas of methods of modern day psychology. Emphasis is on the scientific study of human behavior and mental processes using experimental and other research strategies. Skills in designing, implementing, analyzing, and writing scientific research studies will be included. Opportunities for field experiences in various psychological settings, such as research centers and regional psychological conferences are available. Consideration of research in multicultural contexts is addressed. (CSU) (UC) (Degree Credit) CSU GE, IGETC

PSY 219 F The Human Services (3)
Three hours of lecture per week. Material covered includes discussions of the history and philosophy of the human services. Goals of various human service agencies will be explored through field trips and guest speakers. Career requirements for various human service occupations will be covered including licensing and educational requirements. By the end of the course the student will be able to identify human service opportunities at various public and private agencies. (CSU) (Degree Credit)

PSY 222 F Abnormal Psychology (3)
Prerequisite: PSY 101 F or PSY 110 F with a grade of “C” or better
Three hours of lecture per week. This course presents a scientific field that seeks to understand the nature and causes “deviant” or “unusual” behavior in human beings both within and across culture. This course surveys types of abnormal behavior and their causes using current clinical DSM criteria used by professional clinical psychologists and major organizing theories selected from among those represented by humanism, behaviorism, psychoanalytic theory, and the psychobiological models. Methods of research, assessment, and treatment are explored. (CSU) (UC) (Degree Credit) CSU GE, IGETC

—273—
PSY 251 F Social Psychology (3)
Prerequisite: Completion of or concurrent enrollment in PSY 101 F or PSY 110 F with a grade of “C” or better
Three hours lecture per week. This course presents a scientific field that seeks to understand the nature, causes and influences of social group situations upon the individual and of the individual upon the group. In this survey course students will be exposed to basic theories, concepts and empirical findings in such areas as social perception, social cognition, prejudice and discrimination, interpersonal attraction, conformity and obedience, bystander effects, social aggression, group dynamics, attribution theory, and development of self in the social setting. New material is integrated with respect to materials already learned in general psychology. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE, IGETC

PSY 251HF Honors Social Psychology (3)
Prerequisite: Completion of or concurrent enrollment in PSY 101 F or PSY 110 F with a grade of “C” or better
Three hours lecture per week. This course enriched for honors students, presents a scientific field that seeks to understand the nature, causes and influences of social group situations upon the individual and of the individual upon the group. In this survey course students will be exposed to basic theories, concepts and empirical findings in such areas as social perception, social cognition, prejudice and discrimination, interpersonal attraction, conformity and obedience, bystander effects, social aggression, group dynamics, attribution theory, and development of self in the social setting. New material is integrated with respect to materials already learned in general psychology. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE, IGETC

PSY 299 F Psychology Independent Study II (1)
One hour lecture or scheduled conference per week. This course is offered for students who wish to increase their knowledge of the Social Sciences through individual study and small group conferences. Students successfully completing this course will be awarded elective credit in the Social Sciences area. Course may be taken three times for credit. (CSU) (UC review required) (Degree Credit)

*Website*: www.humanities.fullcoll.edu

**Reading Courses**

READ 027 F Basic Study Skills (3)
Pass/No Pass only
Three hours lecture and one hour lab per week. This course is designed to help students with limited academic backgrounds experience college success by overcoming college anxiety and by taking responsibility for their college experience. Intensive practice and guidance in campus orientation, organizing, note taking, textbook mastery and test-taking.

READ 036 F Basic Reading (3)
Pass/No Pass only
Three hours lecture and two hours lab per week. This course is designed for native speakers of English who require instruction in basic reading. The course includes such areas as word recognition, literal comprehension, vocabulary development, and study techniques. The course accommodates the wide range of individual adult literacy needs.

READ 056 F Developmental Reading (3)
Pass/No Pass only
Prerequisite: READ 036 F or recommended score on the reading placement test
Three hours lecture and two hours lab per week. Recommended for students whose reading placement test scores indicate a substantial need for reading improvement. This course introduces students to several skills in reading such as main idea, relevance of detail, vocabulary in context, and inference building to enable greater success in college courses.

READ 096 F Preparation for College Reading (3)
Letter Grade or Pass/No Pass option
Prerequisite: READ 056 F or recommended score on the reading placement test
Three hours lecture and one hour lab per week. This course will prepare students for the demands of college reading and vocabulary in various academic subjects. Content area reading, essays, and journal articles will be critically analyzed with an emphasis placed on fundamental comprehension reading skills, both general and academic vocabulary enhancement, study skills strategies, and principles of study reading. Written summaries and demonstration of organizational structure of reading materials will be required.

READ 127 F College Study Skills (2)
Letter Grade or Pass/No Pass option
Prerequisite: READ 096 F or recommended score on the reading placement test
Two hours lecture and one hour lab per week. The goal of the course is to learn strategies needed to succeed in college and in life. Topics include evaluation of goals, motivation, learning styles, diet, nutrition and exercise, stress management and time management. Strategies for success will include campus and community resources, techniques for active learning, concentration, memory, peak hours of learning and collaborative learning. Listening, note-taking, effective textbook reading, test preparation and test-taking skills are developed. (CSU) (Degree Credit)

READ 133 F Rapid Reading (3)
Letter Grade or Pass/No Pass option
Prerequisite: READ 096 F with a grade of “C” or better or recommended score on the reading placement test
Three hours lecture per week. Group and individual instruction is designed to improve reading rate and flexibility for students reading at college level. Instruction will focus on purposeful, active, efficient comprehension at higher reading speeds, and vocabulary development. (CSU) (Degree Credit)

READ 142 F College Reading: Logical Analysis and Evaluation (3)
Letter Grade or Pass/No Pass option
Prerequisite: READ 096 F with a grade of “C” or better or recommended score on the reading placement test
Three hours lecture and one hour lab per week. This course offers the student the opportunity to increase critical reading ability, vocabulary, and reading speed. Emphasis is placed on learning the strategies necessary to analyze and evaluate the validity and logic of written communication. (CSU) (Degree Credit) AA GE, CSU GE
READ 165 F Advanced Vocabulary for Power Reading (3)
Letter Grade or Pass/No Pass option
Prerequisite: READ 096 F with a grade of “C” or better or recommended score on the reading placement test
Three hours lecture per week. This course covers professional aspects of the real estate business. Topics include an overview of the real estate industry, ethics and licensing requirements; hands-on completion of contracts, forms, and disclosure documents; prospecting strategies for obtaining clients; listing properties and servicing those listings; marketing techniques; strategies for showing property; obtaining and handling offers; closing sales transactions; financing, escrow, title and taxation issues; and 1031 exchange requirements for investment property. NOTE: Course qualifies for continuing education for real estate licensees. (CSU) (Degree Credit)

Real Estate Management Associate in Science Degree
Real Estate Management Certificate
Real Estate Sales Certificate

Real Estate Courses

RE 090 F Current Issues in Real Estate (.5-3)
Zero to three hours lecture plus 0-9 hours lab per week. This course offers timely real estate topics designed to enhance job skills, expand the student's knowledge of the marketplace, and increase employment opportunities. Unit credit may range from .5-3 units in any given semester. Consult the class schedule to verify specific topic area and credit for a particular semester. Course may be taken four times for credit. (Degree Credit)

RE 101 F Principles of Real Estate (3)
Three hours lecture per week. A beginning course in real estate fundamentals and principles. The development of real estate in California and an introductory study of ownership, appraisal, law, practices, financing, and location analysis and site evaluation, the appraisal process, reproduction cost estimating, depreciation, market data and interpretation, cost, income approaches to value, and the appraisal report. NOTE: Course qualifies for continuing education for real estate licensees. (May not be offered each semester. If interested, please contact the Business and CIS Division Office.) (CSU) (Degree Credit)

RE 102 F Legal Aspects of Real Estate (3)
Three hours lecture per week. This course covers California real property law. Topics include acquisitions and transfers, methods and incidents of ownership, easements, fixtures, land descriptions, recording, covenants, conditions and restrictions, zoning ordinances, leases, brokers, escrow, title insurance, and probate proceedings. (May not be offered each semester. If interested, please contact the Business and CIS Division Office.) (CSU) (Degree Credit)

RE 201 F Real Estate Practice (3)
Three hours lecture per week. This course covers professional aspects of the real estate business. Topics include an overview of the real estate industry, ethics and licensing requirements; hands-on completion of contracts, forms, and disclosure documents; prospecting strategies for obtaining clients; listing properties and servicing those listings; marketing techniques; strategies for showing property; obtaining and handling offers; closing sales transactions; financing, escrow, title and taxation issues; and 1031 exchange requirements for investment property. NOTE: Course qualifies for continuing education for real estate licensees. (CSU) (Degree Credit)

RE 202 F Real Estate Finance (3)
Three hours lecture per week. This course covers various financing options for California real estate transactions. Topics include government loan programs, creative financing, loan sources, types of lenders, financing investment property, foreclosures, first-time buyer programs, solving financing challenges for low to moderate income purchasers, the problems, policies, and risks involved in financing a variety of estate properties. Techniques of using security devices, legal aspects of mortgages and related instruments, return of mortgage and equity capital, where and how to best obtain funds, procedures in financing real estate sales and exchanges, governmental impact, junior financing and mathematics of real estate finance are also included. NOTE: Course qualifies for continuing education for real estate licensees. (May not be offered each semester. If interested, please contact the Business and CIS Division Office.) (CSU) (Degree Credit)

RE 203 F Appraisal — Residential (3)
Three hours lecture per week. This course is designed to interpret real estate valuation procedures, examine real estate appraisal used in establishing real estate market values, and develop the knowledge and skills necessary for application or interpretation of appraisal information. Topics include the uniform standards of professional appraisal practice, location analysis and site evaluation, the appraisal process, reproduction cost estimating, depreciation, market data and interpretation, cost, income approaches to value, and the appraisal report. NOTE: Course qualifies for continuing education for real estate licensees. (May not be offered each semester. If interested, please contact the Business and CIS Division Office.) (CSU) (Degree Credit)

RE 204 F Appraisal — Income (3)
Three hours lecture per week. This course is a continuation of the appraisal techniques studied in RE 203 F Appraisal — Residential and covers property other than the single-family residence. The income approach and capitalization techniques are emphasized. Also included is an in-depth study of the following: discounted cash flow, valuation of partial and leasehold interests, and uniform standards of professional appraisal practice, interpretation, cost and income approaches to value, and the appraisal report. (May not be offered each semester. If interested, please contact the Business and CIS Division Office.) (CSU) (Degree Credit)

RE 205 F Property Management (3)
Three hours lecture per week. This course covers the management, maintenance, rehabilitation, purchase, and sale of income property. It is intended for property owners and those wishing to become property managers. Topics covered in the course include management of residential, commercial, and industrial properties. Discussions for these various types of properties will revolve around examinations of leases and lease negotiation, tenant relations, maintenance, modernization and decoration, rehabilitation, insurance, tax aspects, office management, public relations, and advertising. NOTE: Course qualifies for continuing education for real estate licensees. (May not be offered each semester. If interested, please contact the Business and CIS Division Office.) (CSU) (Degree Credit)
RE 206 F Real Estate Economics (3)
Three hours lecture per week. This course covers the economic principles used to analyze the impact that national, regional, community, and neighborhood trends have on real estate values. General economic theory and applied real estate practices are linked. Students will apply these principles in order to analyze an investment in an actual multi-unit apartment building. (May not be offered each semester. If interested, please contact the Business and CIS Division Office.) (CSU) (Degree Credit)

RE 207 F Mortgage Loan Brokering in California (3)
Three hours lecture per week. This course covers the aspects of mortgage brokering operations. Topics include understanding the history of the mortgage loan brokerage business; developing and marketing your own mortgage loan brokerage business; developing a business plan; selecting the proper loan for a prospective borrower; understanding and completing Federal Truth in Lending compliance and disclosure requires; pre-qualifying prospective borrowers; completing a loan application package; calculating an underwriting worksheet, and identifying potential “Red Flag” lending problems. NOTE: Course meets Department of Real Estate Requirements for Broker and Salesperson licenses. (CSU) (Degree Credit)

RE 208 F Basic Appraisal Principles and Procedures (3.5)
Three and one half hours lecture per week. This course focuses on developing an understanding of the principles/procedures of basic residential appraisal. Course meets the license requirements for all appraisal licenses, for broker and salesperson licenses, as well as Fullerton College certificate requirements. (CSU) (Degree Credit)

RE 209 F Residential Real Estate Appraisal (3.5)
Three and one half hours lecture per week. This course focuses on developing an understanding of residential real estate appraisal. Course meets the license requirements for all appraisal licenses, for broker and salesperson licenses, as well as Fullerton College certificate requirements. (CSU) (Degree Credit)

RE 210 F Advanced Residential Applications and Residential Report Writing (3.5)
Three and one half hours lecture per week. This course focuses on developing an understanding of the principles/procedures of advanced residential applications and report writing. Course meets the license requirements for all appraisal licenses, as well as Fullerton College certificate requirements. (CSU) (Degree Credit)

RE 212 F Uniform Standards of Professional Appraisal Practice (USPAP) (1)
One hour lecture per week. This course is designed to meet the requirements of the Appraisal Qualifications Board (AQB) of the Appraisal Foundation for state licensing and certification. This course includes the national exam as required by the AQB. Completion of this course and successful completion of the three-hour national exam (the course final exam) are required by the California Office of Real Estate Appraisers (OREA) for initial trainee licensure. (CSU) (Degree Credit)

RE 298 F Advanced Topics in Real Estate (.5-3)
Zero to three hours lecture and/or zero to nine hours lab per week. This course offers advanced real estate topics designed to enhance job skills, expand the student’s knowledge of the marketplace, and increase employment opportunities. Unit credits may range from .5 to 3 units in any given semester. Consult the class schedule to verify specific topic area and credit for a particular semester. (CSU) (Degree Credit)

Recreation (REC)
Physical Education Division
Office: Bldg 2200
714.992.7045
Dean: Peter Snyder
Website: pe.fullcoll.edu

Recreation Courses

REC 100 F Introduction to Leisure Services/Recreation (3)
Three hours lecture per week. This course is designed to introduce the students to the history, scope, significance and trends of recreation in our contemporary society. Students will study the institutions and agencies, which provide leisure opportunities for the community. They will survey career opportunities and educational requirements for recreational leaders. (CSU) (Degree Credit)

REC 104 F The Zen of Camping (1)
One-half hour lecture, One and one-half hour lab per week. Instruction in the skills, techniques and methods specific to Zen and Taoism as related to their origin in nature and the martial arts. Includes elements of kung fu and tai chi relevant to wilderness experiences as well as philosophical practices oriented towards self-discovery and self-mastery. May include one camping trip. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

REC 105 F Survival Arts (1)
One-half hour lecture, two hours lab per week. Students learn long-term survival skills and arts used by primitive peoples to live in harmony with the environment and a new perspective of the word “primitive,” meaning “first people.” Students develop a new appreciation of nature, as opposed to being a visitor. Students also gain an appreciation of the values inherent to other cultures. Includes one field trip. Course may be taken four times for credit. (CSU) (Degree Credit)

REC 107 F Wilderness Survival (1)
One-half hour lecture, two hours lab per week. Instruction in the skills and attitudes necessary to survive in a variety of environments, including alpine, mountain, desert, sea and urban survival. Investigates the nature of survival experiences and the use of such experiences for challenge and personal growth. Includes one survival trip. Course may be taken four times for credit. (CSU) (Degree Credit) CSU GE

REC 108 F Backpacking (1)
One-half hour lecture, two hours lab per week. Instruction in the skills, techniques and enjoyment of backpacking. Students learn how to plan a trip to maximize personal experiences in the wilderness for both personal fulfillment and self-discovery. This course includes one backpacking trip. Course may be taken four times for credit. (CSU) (Degree Credit) CSU GE
REC 109 F Camping and Our Surfing Environment (1)
One hour lecture and two hours lab per week. This course combines surf travel and environmental issues concerning our surfing culture. The class will emphasize safe camping and safe surfing, while incorporating units on water safety, ocean currents, surfing technique, camping planning and organization, international travel, water pollution, water treatment, and beach protection and beach erosion. $100 facility fee required. Course may be taken four times for credit. (CSU) (UC Credit Limitation) (Degree Credit)

REC 110 F Camping and Our Kayaking Environment (1)
One half hour lecture and one and one half hour lab per week. This course combines travel and environmental issues concerning our ocean kayaking population. The class will emphasize safe camping and safe kayaking, while incorporating units on water safety, ocean currents, kayaking technique, camp planning and organization, international travel, water pollution, water treatment, and beach protection. Course may be taken four times for credit. $400 facility fee required. (CSU) (UC Credit Limitation) (Degree Credit)

REC 111 F Camping and Our Bodyboarding Environment (1)
Two hours lab plus one hour arranged per week. This course combines bodyboard travel and environmental issues concerning our surf culture. The class will emphasize safe camping and safe bodyboarding, while incorporating units on water safety, ocean currents, bodyboarding technique, camping planning and organization, intra- and international travel, water pollution, water treatment, and beach protection and beach erosion. $100 facility fee required. Course may be taken four times for credit. (CSU) (Degree Credit)

Russian (RUSS)

Russian Courses

RUSS 101 F Elementary Russian I (5)
Letter Grade or Pass/No Pass option
Prerequisite: RUSS 101 with a grade of "C" or better
This course focuses on the four major skills of language learning — listening comprehension, speaking, reading and writing, and the grammar and vocabulary necessary to acquire these skills. Included is an introduction to customs, culture, and civilization of Russian-speaking countries. This course is conducted primarily in Russian. NOTE: This course is currently not being offered at Fullerton College. AA GE, CSU GE

RUSS 102 F Elementary Russian II (5)
Letter Grade or Pass/No Pass option
Prerequisite: RUSS 101 F with a grade of "C" or better or one year of high school Russian with a grade of "C" or better
Five hours lecture plus one arranged lab hour per week. This course continues to focus on the four major skills of language learning — listening comprehension, speaking, reading and writing, and the grammar and vocabulary necessary to acquire these skills. Included is an introduction to customs, culture, and civilization of Russian-speaking countries. This course is conducted primarily in Russian. NOTE: This course is currently not being offered at Fullerton College. (CSU) (UC) AA GE, CSU GE, IGETC

RUSS 299 F Russian Independent Study (1)
Prerequisite: Four semesters of the language
One hour lecture or scheduled conference per week. For able students who wish to increase their knowledge of literature, culture, language, or composition through individual study or research. Elective credit in the humanities area. Course may be taken three times for credit. NOTE: This course is currently not being offered at Fullerton College.

Social Sciences Courses

SOSC 120 F Introduction to Probability and Statistics I (4)
Prerequisite: MATH 040 F with a grade of "C" or better
Four hours lecture per week. This course is an introduction to probability and statistics. This course covers descriptive and inferential statistics as well as the probabilistic basis of statistical inference. Computers and calculators will be utilized. Data sets and problems will be from anthropology, economics, geography, political science, psychology and sociology. This course is open to all students who meet the prerequisite, but is required for anthropology and sociology majors. This course is strongly recommended for economics, ethnic studies, geography and political science majors. Psychology majors should seek the advice of a counselor before choosing between PSY 161 F and this course. Students who receive credit for this course may not receive credit for MATH 120 F. (CSU) (UC Credit Limitation) (Degree Credit) AA GE, CSU GE, IGETC

SOSC 121 F Introduction to Probability and Statistics II (4)
Prerequisite: SOSC 120 F with a grade of "C" or better
Four hours lecture per week. A continuation of SOSC 120 F Introduction to Probability and Statistics. This course covers descriptive and inferential statistics, as well as the probabilistic basis for statistical inference. Computers and calculators will be utilized. Data sets and problems will be from anthropology, economics, geography, political science, psychology and sociology. SOSC 120 F and SOSC 121 F combined are equivalent to UC-M. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE, IGETC

Sociology Courses

SOC 101 F Introduction to Sociology (3)
Three hours lecture per week. This course introduces concepts, theories and vocabulary associated with the field of sociology. The major sociological perspectives are explored surrounding: social control, social interaction, social differentiation, and social institutions. The processes of social change are understood in the context of collective human behavior. This course fulfills the Multicultural Education Requirement for graduation. (CSU) (UC Credit Limitation) (Degree Credit) AA GE, CSU GE, IGETC, MULT CULT REQ

SOC 101HF Honors Introduction to Sociology (3)
Three hours lecture per week. This course introduces concepts, theories and vocabulary associated with the field of sociology. The major sociological perspectives are explored surrounding: social control, social interaction, social differentiation, and social institutions. The processes of social change are understood in the context of collective human behavior. Fulfills the Multicultural Education Requirement for graduation. As an Honors section, this class will employ enhanced teaching methods such as a seminar approach, more research-based writing assignments, and assignments calling for a higher level of critical thinking. (CSU) (UC Credit Limitation) (Degree Credit) AA GE, CSU GE, IGETC, MULT CULT REQ

SOC 102 F Social Problems (3)
This course includes identification and analysis of selected contemporary social problems in American society and around the world, including problems of overpopulation, environmental destruction, war, race, poverty, sex inequality, aging, drug abuse, health, crime and violence. Alternative approaches to the resolution of these problems and identification of institutions and organizations involved in the resolution of these problems are emphasized. This course fulfills the Multicultural Education Requirement for graduation. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC, MULT CULT REQ

SOC 133 F Introduction to Gerontology (3)
Three hours lecture per week. This course is a multidisciplinary review of the characteristics, strengths and problems of older persons. Exploration includes basic theories, concepts, demographic trends, cross-cultural aspects, social policies, political and economic issues. Emphasis upon available services for older adults. The course will focus on various care settings, including the familial caregiver level. Education for careers in gerontology will be highlighted. (CSU) (Degree Credit)

SOC 199 F Sociology Independent Study I (1)
One hour lecture or scheduled conference per week. This course is offered for students who wish to increase their knowledge of the Social Sciences through individual study and small group conferences. Students successfully completing this course will be awarded elective credit in the Social Sciences area. Course may be taken four times for credit. (CSU) (UC Credit Limitation depending upon course content; UC review required.) (Degree Credit)

SOC 201 F Dying and Death (3)
Three hours lecture per week. This course includes various perspectives on death, both cross-cultural and historical. Examines beliefs, traditions, rituals and practices surrounding death in American society; health care systems (the hospital and the dying patient, hospice, etc.); death and the process of dying; bioethics — dying in the technology age; euthanasia; suicide, funerals, grief and bereavement; the law and death, including living wills, organ donation, and autopsies; also life after death — old and new meanings. (CSU) (Degree Credit) CSU GE

SOC 225 F Sociology of Women (3)
Three hours lecture per week. The course includes identification and analysis of the status of women in American society, and a survey of the cultural, social, psychological and economic history of women. Contemporary issues and their relation to the role definition of women today are explored. (CSU) (UC Credit Limitation — Same as WMNS 225 F) (Degree Credit) CSU GE

SOC 225HF Honors Sociology of Women (3)
Three hours lecture per week. This course is a woman-centered introduction to the study of gender in the United States. It emphasizes knowledge gained from research in the various social sciences and the discussions of issues are both theoretical and practical. Topics are issues that impact the lives of women today, including: women's health, sexuality, relationships, employment, and familial roles. As an Honors section, this class will employ enhanced teaching methods such as a seminar approach, more research based writing assignments, and assignments calling for a higher level of critical thinking. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE

SOC 275 F Marriage and Family (3)
Three hours lecture per week. This course is a sociological exploration of the topics related to the institutions of marriage and family. These topics include: gender roles, love, single hood, courtship, marriage, domestic partnerships, communication, sexuality, parenting, conflict, domestic violence, economics, divorce, step-families, diversity in families (historically and cross-culturally) and future family trends. (CSU) (UC Credit Limitation) (Degree Credit) AA GE, CSU GE, IGETC

SOC 275HF Honors Marriage and Family (3)
Three hours lecture per week. This course is a sociological exploration of the topics related to the institutions of marriage and family. These topics include: gender roles, love, single hood, courtship, marriage, domestic partnerships, communication, sexuality, parenting, conflict, domestic violence, economics, divorce, step-families, diversity in families (historically and cross-culturally) and future family trends. As an Honors section, this class will employ enhanced teaching methods such as a seminar approach, more research based writing assignments, and assignments calling for a higher level of critical thinking. (CSU) (UC Credit Limitation) (Degree Credit) CSU GE, IGETC
SOC 285 F Drugs and Society (3)
Three hours lecture per week. This course introduces concepts, theories and perspectives associated with the sociological analysis of drugs and alcohol. The definitions of various types of drug use, as well as drug abuse, and drug dependence will be addressed. The pharmacological perspective will also be explained, including the factors that influence drug action and the classification of psychoactive drugs and their effects. Legal drugs, such as alcohol, tobacco, and psychotherapeutic drugs will be discussed and analyzed using the sociological perspective. (UC) (CSU) (Degree Credit) CSU GE, IGETC

SOC 292 F Introduction to Criminology (3)
Three hours lecture per week. This course is a study of theories of crimes and criminal behavior, including an explanation of crime, its causes, and how crime is measured. Major sociological and social science theories will be explored surrounding the issues of crime and criminal behavior. (CSU) (UC) (Degree Credit) CSU GE, IGETC

SOC 299 F Sociology Independent Study II (1)
One hour lecture or scheduled conference per week. This course is offered for students who wish to increase their knowledge of the Social Sciences through individual study and small group conferences. Students successfully completing this course will be awarded elective credit in the Social Sciences area. Course may be taken four times for credit. (CSU) (UC review required) (Degree Credit)

Spanish (SPAN)

Spanish Courses

SPAN 050AF Public-Service Spanish I (3)
Letter Grade or Pass/No Pass option
Three hours lecture per week. An introductory oral course open to students with no previous exposure to Spanish who want a speaking knowledge for vocational needs in the fields of medicine, social welfare, law enforcement, business, etc. No prerequisite required.

SPAN 050BF Public-Service Spanish II (3)
Letter Grade or Pass/No Pass option
Prerequisite: SPAN 050AF or previous experience with Spanish
Three hours of lecture per week. Continuation of 050AF Public-Service Spanish.

SPAN 101 F Elementary Spanish I (5)
Letter Grade or Pass/No Pass option
Five hours lecture per week plus one arranged lab hour per week. The course focuses on the four major skills of language learning — listening comprehension, speaking, reading and writing — and the grammar and vocabulary necessary to acquire these skills. Included is an introduction to customs, culture, and civilization of Spanish-speaking countries. This course is conducted primarily in Spanish. (CSU) (UC Credit Limitation) (Degree Credit) AA GE, CSU GE

SPAN 101HF Honors Elementary Spanish I (5)
Prerequisite: SPAN 101 F with a grade of "C" or better or one year of high school Spanish with a grade of "C" or better
Five hours lecture per week plus one arranged lab hour per week. A college level course enhanced for honors students. This course requires significant individual projects and study plans on the part of the student. The course focuses on the four major skills of language learning — listening comprehension, speaking, reading and writing — and the grammar and vocabulary necessary to acquire these skills. Included is an introduction to customs, culture, and civilization of Spanish-speaking countries. This course is conducted primarily in Spanish. (CSU) (UC Credit Limitation) (Degree Credit) AA GE, CSU GE

SPAN 102 F Elementary Spanish II (5)
Letter Grade or Pass/No Pass option
Prerequisite: SPAN 101 F with a grade of "C" or better or one year of high school Spanish with a grade of "C" or better
Five hours lecture per week plus one arranged lab hour per week. The course continues to focus on the four major skills of language learning — listening comprehension, speaking, reading and writing — and the grammar and vocabulary necessary to acquire these skills. Included is an introduction to customs, culture, and civilization of Spanish-speaking countries. This course is conducted primarily in Spanish. (CSU) (UC Credit Limitation) (Degree Credit) AA GE, CSU GE, IGETC

SPAN 102HF Honors Elementary Spanish II (5)
Prerequisite: SPAN 101 F with a grade of "C" or better or one year of high school Spanish with a grade of "C" or better
Five hours lecture per week plus one arranged lab hour per week. A college level course enhanced for honors students. This course requires significant individual projects and study plans on the part of the student. The course continues to focus on the four major skills of language learning — listening comprehension, speaking, reading and writing — and the grammar and vocabulary necessary to acquire these skills. Included is an introduction to customs, culture, and civilization of Spanish-speaking countries. This course is conducted primarily in Spanish. (CSU) (UC Credit Limitation) (Degree Credit) AA GE, CSU GE, IGETC

SPAN 130 F Spanish History and Culture (3)
Letter Grade or Pass/No Pass option
Prerequisite: SPAN 101 F
Three hours lecture per week. This course studies major historical events, archaeological sites, geographical areas and cultural points of interest in Spanish-speaking countries. It is designed to immerse the student in direct study of a land, its people and its culture. Eight hours of lecture will precede the on-site experience. (Note: This course is currently not being offered at FC — if interested, contact Division Office.) (CSU) (Degree Credit)
SPAN 200 F Conversational Spanish (2)
Letter Grade or Pass/No Pass option
Prerequisite: SPAN 102 F with a grade of “C” or better or two years of high school Spanish with a grade of “C” or better
Two hours lecture per week. This course will focus on improving listening comprehension and speaking skills in simulated real-life situations within the framework of the ACTFL Proficiency Guide lines. Reading, writing and cultural components will be included. This course may be taken concurrently with SPAN 203 F, SPAN 204 F, SPAN 205 F, and SPAN 206 F. Instruction will be in Spanish. Course may be taken four times for credit. (CSU) (Degree Credit)

SPAN 201 F Spanish for the Spanish Speaker (5)
Letter Grade or Pass/No Pass option
Prerequisite: A native-speaking knowledge of Spanish for those who have had little or no education in a Spanish-speaking country
Advisory: Two years of high school Spanish
Five hours lecture per week. This is an intensive course designed to improve the communicative skills in Spanish for bilingual students. Although the course addresses all four skills of language learning — listening comprehension, speaking, reading, and writing — the emphasis of the course is to improve reading and writing skills in Spanish through the study of grammar, spelling, vocabulary and composition. Selective readings of Hispanic writers will be used to enhance knowledge of literature and culture. The class is conducted primarily in Spanish. Students may not receive credit for both SPAN 101 F and SPAN 102 F and SPAN 201 F. (CSU, UC Credit Limitation: SPAN 201 F and SPAN 203 F combined; maximum credit one course.) (Degree Credit) AA GE, CSU GE, IGETC

SPAN 203 F Intermediate Spanish III (4)
Letter Grade or Pass/No Pass option
Prerequisite: SPAN 102 F with a grade of “C” or better or two years of high school Spanish with a grade of “C” or better
Four hours lecture per week. Further development of listening and reading comprehension, speaking and writing Spanish based on cultural and literary materials. This course emphasizes oral communication and provides an expanded review of key grammatical concepts. (CSU) (UC) Credit Limitation: SPAN 203 F and SPAN 201 F combined; maximum credit one course. (Degree Credit) AA GE, CSU GE, IGETC

SPAN 204 F Intermediate Spanish IV (4)
Letter Grade or Pass/No Pass option
Prerequisite: SPAN 201 F or 203 F with a grade of “C” or better or three years of high school Spanish with a grade of “C” or better
Four hours lecture per week. The course continues to emphasize acquisition of the more formal aspects of literary analysis and cultural appreciation through a selection of advanced readings by modern Spanish and Spanish American authors. It also provides extensive practice in oral and written expression and a thorough review of grammatical concepts. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

SPAN 205 F Introduction to Spanish Literature (3)
Letter Grade or Pass/No Pass option
Prerequisite: SPAN 204 F or four years of high school Spanish with a grade of “C” or better
Three hours lecture per week. Introductory Spanish Literature survey course spanning from the Middle Ages to the present covering history, culture and literary writings from Spain. The instruction is in Spanish. (CSU) (UC) (Degree Credit) CSU GE, IGETC

SPAN 206 F Introduction to Latin-American Literature (3)
Letter Grade or Pass/No Pass option
Prerequisite: SPAN 204 F or four years of high school Spanish with a grade of “C” or better
Three hours lecture per week. Introductory Latin American Literature survey course spanning from pre-Columbian literature to the present covering history, culture and literary writings from Latin American countries. The instruction is in Spanish. (CSU) (UC) (Degree Credit) CSU GE, IGETC

Speech (SPCH)
Humanities Division
Office: Bldg 500, Room 522-O
714.992.7036
Dean: Dan Willoughby
Website: humanities.fullcoll.edu

Associate in Arts Degree
Speech Courses

SPCH 100 F Public Speaking (4)
Advisory: College level reading and writing
Four hours lecture per week. The purpose of the course is to give speakers more concentrated opportunities to communicate their ideas. Emphasis is on developing the speaker’s ability to present original subject matter. This is accomplished by the preparation and presentation of four to six informative and persuasive speeches as well as various in-class assignments and exercises designed to develop speaking proficiency by skillfully using logic and reasoning. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC
SPCH 105 F Interpersonal Communication (3)
Advisory: College level reading and completion of ENGL 060 F
Three hours lecture per week. The course explores the variables of the human symbolic interaction as they occur in day-to-day, face-to-face interaction. Topics include self-concept, perception, listening, verbal and nonverbal communication, assertive communication, and conflict resolution. Material is presented through lecture, experiential activities, and group discussion. (CSU) (UC) (Degree Credit) AA GE, CSU GE

SPCH 120 F Intercultural Communication (3)
Advisory: College level reading and completion of ENGL 060 F
Three hours lecture per week. This course explores the variables of human symbolic interaction as they occur between persons of differing cultural orientations. The course is theoretical in nature, but will also deal with applied concepts for more successful interaction with other cultures. The scope of the content will encompass the basic areas necessary to involve the student in a critical assessment of how cultures differ in both verbal and nonverbal behaviors; how needs, values, and goals are dictated by cultural influences; how interactions can be improved between cultures through a perceptual awareness of these differences. This course fulfills the Multicultural Education Requirement for graduation. (CSU) (UC) (Degree Credit) AA GE, CSU GE, MULT CULT REQ

SPCH 124 F Small Group Communication (3)
Advisory: College level reading and completion of ENGL 060 F
Three hours lecture per week. This course is an introduction to theoretical and applied concepts in small group communication through participation, observation, analysis, and evaluation of group processes. Elements of small group behavior to be studied include leadership, roles, norms, networks, message systems, interpersonal needs, and decision making. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

SPCH 135 F Essentials of Argumentation (4)
Advisory: College level reading and writing
Four hours lecture per week. The purpose of the course is to help an individual develop critical thinking abilities and effective logical support for oral advocacy. The course serves as an introduction to theoretical and applied concepts of argumentation. In-class student presentations will be used to evaluate course areas of research, reasoning, organization, refutation, and issue analysis. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

SPCH 138 F Forensics (.5-1)
Advisory: College level reading and writing
One to two hours lab per week plus one half to one hour arranged lab per week. This course trains students to participate in intercollegiate speech tournaments and public community programs. Areas to be covered include expository speaking, persuasive speaking, impromptu and extemporaneous speaking, oral interpretations, and debate. Field trips and involvement in student activities will be required. (CSU) (Degree Credit)
**STSV 136 F Applied Leadership**  
(same as COUN 136 F) (3)  
One hour lecture and two hours participation in campus organizations required each week. The course is designed to give students the skills and proper knowledge to participate in student government. Students critically reflect on their goals, objectives and action plans and review their own performance along with assessing the organizational environment. Course may be taken two times for credit. (This course and COUN 136 F are equivalent courses, only 3 units maximum can be earned for any combination.) (CSU) (Degree Credit)

**STSV 223 F Helping Skills in Human Services (3)**  
Three hours lecture and discussion per week. This course is an introductory course for students interested in pursuing a career in a human service area (i.e., counseling, probation work, social work, nursing, etc.). It provides students with an opportunity to develop beginning counseling and human relations skills. Students will learn basic listening/communication skills, crisis-intervention techniques, as well as a theoretical understanding of the principles and used in providing services in a helping relationship. (CSU) (Degree Credit)

**STSV 299 F EOPS Independent Study (1)**  
Three hours independent research per week per unit of credit. This course is designed for students who wish to increase their knowledge of human services related topics through individual study. Outside reading with written report is required. Course may be taken three times for credit. (CSU) (UC review required) (Degree Credit)

**Technology-Related Courses (TECH)**

**Technology and Engineering Division**

*Office: Bldg 700, Room 700*
*714.992.7051*
*Dean: Scott McKenzie*
*Website: techneng.fullcoll.edu*

**Technology-Related Courses**

**TECH 081 F Technical Mathematics I (3)**  
**Prerequisite:** Math clearance or MATH 010 F  
Three hours lecture per week. The use of elementary algebra, geometry, and right triangle trigonometry in the solution of practical problems related to trade and technical areas. Emphasizes the use of electronic calculators to do the computation. This course does not transfer to CSU. (Degree Credit) AA GE

**TECH 082 F Technical Mathematics II (3)**  
**Prerequisite:** TECH 081 F  
Three hours lecture per week. The study of more advanced algebra, trigonometry, and elementary statistics in the solution of technical problems. This course does not transfer to CSU. (Degree Credit)

**TECH 088 F Technical Science (3)**  
Three hours lecture per week. A course in the fundamental principles of physics, mechanics, heat, light, and strength of materials as applied to practical shop problems. (Degree Credit) AA GE

**TECH 108 F Manufacturing Processes (3)**  
Three hours lecture per week. The objective of this course is to give an insight into and develop an appreciation of the latest manufacturing techniques, materials, and skills used in the metal processing, plastic, and powder metallurgy industries. (CSU) (Degree Credit)

**TECH 127 F Industrial Safety (1)**  
Two hours lecture per week for nine weeks. As it applies to all majors in Technology and Engineering, it will include scope, history, objectives, responsibility, and organization of safety as it relates to common industrial equipment. (CSU) (Degree Credit)

**TECH 199 F Technology and Engineering Independent Study (1-3)**  
**Prerequisite:** Introductory course in appropriate subject area  
One hour lecture of scheduled conference or three hours independent lab research per week per unit of credit. Designed for advanced students who wish to increase their knowledge of technical areas through individual study. Independent lab research problems with staff supervision may be approved. Project with written report or outside reading with written report is required. Course may be taken three times for credit. (CSU) (UC review required) (Degree Credit)

Theatre Arts Courses

THEA 100 F Introduction to the Theatre (3)
Three hours lecture per week. This course is designed for those students who wish to explore more thoroughly the art of theatrical performance with special attention given to all the contributing elements. This course examines all areas of theatre production through lecture, demonstration, lab participation, small-group discussion, guest performers, and speakers. This course prepares the student for other course offerings in the theatre curriculum. Enrollment in THEA 149 F is strongly recommended. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

THEA 104 F Introduction to Theatre Appreciation (3)
Letter Grade or Pass/No Pass option
Two hours lecture and three hours lab arranged per week. A study of the combined elements of contemporary theatre through examination of audience/performer relationships and the organization of support personnel. A study of current and classical plays, with special emphasis on dramatic analysis and cultural significance. Mandatory attendance at a selected group of live theatrical productions required. Approximate cost of semester admissions is $100. (CSU) (UC) (Degree Credit) AA GE, CSU GE, IGETC

THEA 105 F Musical Theatre History (3)
Three hours lecture per week. This course explores the uniquely American art form that is Musical Theatre. From its early development in the colonial period to the present time, emphasis will be placed on the chronological examination of various musical theatre productions. Students will learn how the composers, librettists, lyricists, choreographers, directors and designers contribute to the formation and the population of musical theatre as it exists today. (CSU) (UC) (Degree Credit) CSU GE, IGETC

THEA 106 F Principles of Playwriting (3)
Three hours lecture per week. This is a practical class designed to introduce students to the elements of writing a play for the stage. Topics include dramatic structure, dramatic action, the relationship between dialogue and action, characterization, setting, theme, and point of view. Students will be assigned writing exercises culminating in a one-act play. Students will be expected to act in and direct other students’ scenes. (CSU) (Degree Credit) AA GE

THEA 108 F Multicultural Perspectives in American Theatre (3)
Three hours lecture per week. This course provides students with an appreciation for the historical contributions of Native-Americans, Chicanos/Latinos, African-Americans, Asian-Americans and gays and lesbians to American Theatre. In this introductory class students read and discuss contemporary plays that represent the rich variety of American multi-ethnic and multi-cultural society. This course will explore traditional and cultural backgrounds from which theatre springs, the genre or movement to which a particular play belongs, and the cultural, sociological and political climate in which these plays were created. (CSU) (Degree Credit) MULT CULT REQ

THEA 109 F Modern Dramatic Literature (3)
Three hours of lecture per week. This course involves the analysis and research of contemporary dramatic literature. Through the examination of dramaturgical structure, thematic presentation, character development and production design requirements, students will explore how analysis and research can aid in the transforming of a script into a theatrical experience. This course includes play readings, lectures, discussions and student reports. (UC) (Degree Credit) AA GE, CSU GE
THEA 120AF Beginning Principles of Acting (3)
Corequisite: THEA 149 F (.5 units)
Two hours lecture plus four lab per week. This course is an examination and application of theatre elements that relate directly to the actor including but not limited to criticism, emotion, stage movement, vocal techniques, theatrical terminology, rehearsal and performance techniques and script analysis. Open to all majors. (CSU) (UC) (Degree Credit)

THEA 120BF Intermediate Principles of Acting (3)
Prerequisite: THEA 120AF
Corequisite: Technical theatre class
Two hours lecture and four hours lab per week. Advanced study in the principles and practices of contemporary acting techniques. Students will analyze and evaluate the acting theories of the Stanislavski system of acting, as assessed by the 20th century American acting leaders, i.e., Uta Hagen, Stella Adler, Robert Benedetti, Lee Strasberg, and Boleslavski. Students will apply these principles to their scene work, improvisations, workshop exercises and evaluate their progress and that of their classmates. This class is required for the major. (CSU) (UC) (Degree Credit)

THEA 120CF Advanced Principles of Acting I (3)
Prerequisite: THEA 120BF
Corequisite: Technical theatre class
Two hours lecture and four hours lab per week. Continuation of acting skills with emphasis on the applications of stylistic techniques for the classics. Individual exercises and scene work in Elizabethan, Restoration, Greek plays as well as exploration of French farce, comedy of manners, and Chekhov. (CSU) (UC) (Degree Credit)

THEA 120DF Advanced Principles of Acting II (3)
Prerequisite: THEA 120BF
Corequisite: Technical theatre class
Two hours lecture and four hours lab per week. In-depth study and practice of acting skills with increased emphasis on the application of the principles and theory of creative acting. Public performance of dramatic literature is required. (CSU) (UC) (Degree Credit)

THEA 121 F Movement For Actors (3)
Two hours lecture plus three hours lab per week. This course explores movement as an actor’s tool to aid in the acting process and to enhance the actor’s physical ability to communicate on stage through the use of basic movement skills, focusing on physical awareness, movement improvisation, choreography, and stage combat and concentrating on the structure, organization and control of time, space, energy, and sound. Emphasis on the integration of verbal and non-verbal forms of communication focusing on movement and gesture as means to inform and illuminate text. The goal is to achieve the fullest range and clarity of physical and emotional expression of the body as it moves in relation to the surrounding space. Course may be taken twice for credit. (CSU) (UC) (Degree Credit)

THEA 122 F Improvisation for Television, Film and Theatre (2)
One hour lecture plus three hours lab per week. The principles and techniques of improvisational acting designed to increase the actor’s creativity, problem solving, and performance skills. This course develops student awareness of the importance of the cooperative dynamics of theatre, television and film and the value of the individual actor’s creative process. This course emphasizes individual performance, ensemble work and the development of the actor’s physical, vocal, and emotional instrument as it relates to performance. (CSU) (Degree Credit)

THEA 123 F Acting Techniques (3)
One hour lecture and three hours lab per week. This course explores acting for the modern stage through scene study and performance. It incorporates play analysis, character development, improvisation and staging. Course may be taken twice for credit. (CSU) (UC) (Degree Credit)

THEA 125 F Musical Theatre Performance Techniques (2)
One hour lecture plus three hours lab per week. This course explores the development of the fundamentals of acting, singing, and movement for musical theatre through exercises, auditions, solo performances and full staged scenes. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)

THEA 127 F Oral Interpretation (3)
Three hours lecture per week. This course explores the fundamentals of the effective presentation of oral literature before an audience. It includes the study of voice and diction for the purpose of developing effective reading and correct habits of speech. It develops an appreciation of literature through oral expression and a historical overview of literary genres. Recommended for teaching majors both elementary and secondary. (CSU) (UC credit limitation — THEA 127 F and THEA 126 F (both semesters) combined — maximum credit 6 units.) (Degree Credit)

THEA 129 F Beginning Voice for Actors (3)
Three hours lecture per week. This course will include academic study and practical application of the efficient and effective use of the speaking voice, particularly in meeting the special demands of acting for the stage. Along with a thorough introduction to the International Phonetic Alphabet, study in physical relaxation, breathing techniques, vocal expression, and articulation of general American speech will be covered with attention placed on the individual needs of each student. Stress will be placed on exercises designed to identify and correct breathing problems, diction problems, and to create conscious control of speech function. The theories and principles of the course will be applied in written assignments, oral performances before the class, and through vocal exercises done in class and at home. Course may be taken twice for credit. (CSU) (UC) (Degree Credit)

THEA 130 F Acting Workshop (3)
Corequisite: THEA 120AF
Three hours lecture and six hours lab per week plus two hours per week arranged. A continuation of acting fundamentals with increased emphasis on the application of the principles and theories of creative acting. Additional performance and technical support work in workshop theatre is required. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)

THEA 133 F Theatre Practicum (2)
Advisory: Admission by audition or interview only
Twelve hours lab per week for nine weeks. This course provides the study and lab exploration of all aspects of theatre production, culminating in a series of public performances. Enrollment is by audition or interview only. Actors audition for acting, singing or dancing roles. Students interested in technical work interview for back stage positions in stage management, set construction, scene painting, costumes, make-up, lighting, sound, and publicity. This course may be taken four times for credit. (CSU) (UC) (Degree Credit)
THEA 135 F Resident Theatre Company (3)
Advisory: Admission by audition or interview only
Two hours lecture plus three hours lab per week. This course involves the study and practical development of new and experimental plays. Students enrolling in this course will serve as playwrights, dramaturges, actors, directors and administrative production assistants. Enrollment is by audition or interview only. This course may be taken four times for credit. (CSU) (Degree Credit)

THEA 136 F Touring Theatre Productions: Rehearsal and Performance (2)
Six hours lab per week. This course presents the rigorous requirements of a touring theatrical production. Students are given the opportunity to participate in one or more activities of the production company including acting, directing, stage managing, design, costuming, lighting, scenery, sound, properties and make up. The company will travel locally, nationally, and internationally depending on the year and circumstances. Course may be taken four times for credit. (CSU) (Degree Credit)

THEA 137 F Summer Theatre Workshop (3)
Advisory: Admission by audition or interview only
Five hours lecture plus fifteen hours lab per week. Offered during the summer session, this course involves the study and lab exploration of all aspects of theatre production, culminating in a series of public performances. Enrollment is by audition or interview only. Actors audition for acting, singing, or dancing roles. Students interested in technical work interview for back stage positions in stage management, scene construction, lighting, aural, properties and publicity. Course may be taken four times for credit. (CSU) (Degree Credit)

THEA 141 F Introduction to Technical Theatre (3)
Three hours lecture and three hours lab per week. This course introduces the student to the study and execution of technical theater principles. Using a lecture/lab format, and through project-based learning, students will learn theatrical design and technical practices that apply to scenery, lighting, sound, costumes, make-up, properties and scene painting. (CSU) (UC) (Degree Credit)

THEA 142 F Theatre Crafts Lab (1-2)
One hour lecture and two hours lab per week arranged (one unit class). Two hours lecture and four hours lab per week arranged (two unit class). Design, construction, and operation in all areas of scenery, lighting, sound, costumes, and properties. Students are given practical experience in each area of production. Offers a theatre arts major the opportunity to develop confidence in his personal skills and technical capabilities. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)

THEA 143 F Stagecraft (3)
Three hours lecture plus three hours lab per week. This course involves the study and execution of theatrical scenery with emphasis on construction, drafting, tools, materials and their relationship to the design and implementation process. Students enrolling in the course will be given hands-on practical experience in all the practical aspects of designing scenery for the theatre. (CSU) (UC) (Degree Credit)

THEA 144 F Lighting (3)
Corequisite: THEA 149 F (.5 units) (1 1/2 hours per week)
Two hours lecture and three hours lab per week, plus one and one-half hours per week in THEA 149 F. This course involves the study and execution of stage lighting with emphasis on equipment, control, color and their relationship to design. Course may be taken twice for credit. (CSU) (UC) (Degree Credit)

THEA 145 F Theatrical Costuming (3)
Corequisite: THEA 149 F (.5 units)
Two hours of lecture and two hours of lab per week. This course is an introduction to basic theatrical costuming. This course is designed to teach the student about costume design, history, and the use of sewing machines, pattern making and fabric selection. The course will culminate in a final project that reflects the student's creativity. May be taken twice for credit. (CSU) (UC) (Degree Credit)

THEA 146 F Scene Painting (3)
Corequisite: THEA 149 F (.5 units)
Consisting of two hours of lecture and three hours of lab per week, this course provides an introduction to, and continued development of, professional scenic artist techniques as they apply to the painting of scenery for the performing arts. This course will include use of brush, roller, spray gun, texturing, rock background, wood graining, wallpaper, masonry, scenic drops and other scene painting techniques. (CSU) (UC) (Degree Credit)

THEA 147AF Stage Makeup (3)
Corequisite: THEA 149 F (.5 units)
Two hours of lecture and three hours of lab per week. This course includes instruction and lab experience in all phases of theatrical makeup.<form>Old age, character, fantasy, look-alike, stylized, historical period styles, facial hair, corrective as well as non-human styles of makeup and their color. (CSU) (UC) (Degree Credit)</form>

THEA 149 F Stage Crew Activity (.5-3)
Open Entry/Open Exit
One to six lab hours per week based on the number of units enrolled. Practical lab experience in the technical aspects of theatre resulting in public performances of theatrical productions. Students may choose from such diverse areas as scenery construction, scene painting, costume construction, lighting, audio, property construction, makeup, management, audience development and promotion. Enrolling in .5 units requires 27 hours per term, 1 unit requires 54 hours per term, 2 units require 108 hours per term, 3 units requires 162 hours per term. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)

THEA 150 F Performance Lab (1)
Corequisite: MUS 288 F
Three hours of lab per week. This course features rehearsals, performances, and studio recording of standard and current commercial music for singers who dance. Accompanied by a small instrument group, the class includes choreography, staging and microphone techniques. Student compositions and arrangements are encouraged. May be taken four times for credit. (CSU) (Degree Credit)

THEA 151 F Properties: Design and Construction (3)
Three hours lecture and two hours lab per week. This course introduces the student to the processes and skill-sets that are used on a daily basis in the world of stage properties. This course involves the study and execution of property construction, research methods, upholstery and puppetry, as well as the creation of stage food, animals and stage weaponry. This course is also intended to orient students to the aspects of properties as they relate to a Properties Master and a Properties Artisan. (CSU) (Degree Credit) AA GE

THEA 160 F Introduction to Sound Technology (2)
Two hours of lecture per week. This course introduces the student to Sound Technology for the theatre with emphasis placed on the physical properties of sound and the audio equipment used to bring sound to the stage and concert hall. (CSU) (Degree Credit) AA GE
THEA 161 F Sound Reinforcement Techniques (2)
Two hours lecture per week. This course is designed to give the student understanding and working knowledge of both the science of sound reinforcement and the practical application of audio equipment for theatrical events, concerts and other public events. (CSU) (Degree Credit) AA GE

THEA 162 F Sound Design for the Theater (3)
Two hours lecture and three hours lab per week. This course develops the student’s understanding and working knowledge of sound design principles and practices for the theatre. Project based learning provides the student with an introduction to audio equipment and an understanding of the craft and process of sound design. (CSU) (Degree Credit) AA GE

THEA 196HF Honors Creative Arts — Theater (3)
Three hours lecture per week plus one hour arranged in attendance at museums, concerts, and theatrical performances. This course explores the nature of creativity through exposure to the performing arts, literature, and the fine arts. Honors students will make independent investigations into the various art forms and apply aesthetic theory to discover interrelationships between genres. Students who receive credit in this course may not receive credit in ART 196HF or MUS 196HF. (CSU) (UC Credit Limitation) (Degree Credit) AA GE, CSU GE, IGETC

THEA 222 F Acting for the Camera (3)
Prerequisite: THEA 120AF
Two hours lecture and four hours lab per week. Study and exercise in the special techniques of acting for the motion picture and television camera. Emphasis will be placed on gaining an understanding of the various camera angles, shots, positions, and actor behavior: philosophies and approaches unique to acting before a camera. Practical work with the camera required. Course may be taken twice for credit. (CSU) (UC) (Degree Credit)

THEA 225 F Stage Directing (3)
Prerequisite: THEA 120AF
Corequisite: THEA 141 F or THEA 142 F or THEA 143 F or THEA 144 F or THEA 145 F or THEA 146 F or THEA 147 F or THEA 255 F or THEA 265 F or THEA 900 F
Two hours lecture and three hours lab per week. This course is a study of the background and techniques of the director in theatre with an emphasis on practical experience in directing class projects and public performance. (CSU) (UC) (Degree Credit)

THEA 235 F Experimental Theatre (2)
Advisory: Admission by audition or interview only
Six hours lab per week. This course involves the study and lab exploration of student directed and produced productions. Enrollment is by audition or interview only. Directors are interviewed and accepted for specific projects, actors audition for acting, singing, or dancing roles and students interested in technical and design work interview for production positions. Course may be taken four times for credit. (CSU) (UC) (Degree Credit)

THEA 255 F Theatrical Costume Construction (2)
Prerequisite: THEA 145 F
Two hours lecture and two hours lab per week. This course offers continued research and application of costume construction techniques and design elements unique to historical periods and their application to present day costume construction and design. May be taken four times for credit. (CSU) (Degree Credit)

THEA 265 F Theatre Management (2)
Two hours lecture per week. This course is designed to teach the business of “show business” in educational, community, and professional theatre. Emphasis is placed on the contributions of the producer, production manager, and artistic director and the impact they have on theatre operations. This course is required of all students who are interested in management positions for the Theatre Arts Department productions. (CSU) (Degree Credit)

THEA 290 F Theatre Arts Seminar (1-3)
Lecture/lab hours may vary with credit given. This course allows for flexibility in designing special activities for beginning students and special topic classes for advanced students. Course may be taken four times for credit. (CSU) (Degree Credit)

THEA 299 F Theatre Arts Independent Study (.5-2)
Prerequisite: All classes listed in specific performance area
One hour conference per week. Designed for capable students who wish to increase their knowledge and experience in theatre. Unit credit may range from ½ to 2 units in any given semester. Consult class schedule to verify credit for that particular term. Course may be taken four times for credit. (CSU) (UC review required) (Degree Credit)

THEA 900 F Stage Management (2)
Two hours lecture per week. This course involves the study and the practical application of the practices of the stage manager as they pertain to the theatrical production process. Emphasis is placed on the duties, responsibilities and procedures from pre-production to post-production. The course is required of all students who are interested in stage management positions for the Theatre Arts Department productions. (Degree Credit)

Vietnamese Courses

VIET 050AF Vietnamese for Public Personnel (3)
Letter Grade or Pass/No Pass option
Three hours lecture per week. An introductory oral course open to students with no previous exposure to Vietnamese who want a speaking knowledge for vocational needs in the fields of medicine, social welfare, public safety, law enforcement, business, etc. NOTE: This course is currently not offered at Fullerton College. AA GE

VIET 050BF Vietnamese for Public Personnel (3)
Letter Grade or Pass/No Pass option
Prerequisite: VIET 050AF or previous experience with Vietnamese
Three hours lecture per week. This course is a continuation of VIET 050AF. NOTE: This course is currently not offered at Fullerton College. AA GE
Welding (WELD)
Technology and Engineering Division
Office: Bldg 700, Room 709

Welding Technology Certificate

Welding Courses

WELD 091AF Industrial Welding Fundamentals (5)
Three hours lecture and six hours lab per week. This course is designed to give students, with interest in welding as an occupation, a broad outlook on a high technology field that interfaces with areas of manufacturing, construction and repair. The course will include historical development of welding, the welding industry and its future, applied terms and definitions, methods of application, safety in the welding environment, welding positions, and joint types. Students will become occupationally proficient using Oxyfuel Welding (OFW), Brazing (TB), Oxyfuel Cutting (OFC), Air Carbon Arc Cutting (CAC-A), and Plasma Cutting (PAC). (Degree Credit)

WELD 091BF Semi-Automatic Welding Applications (5)
Prerequisite: WELD 091AF or WELD 121AF and WELD 121BF
Three hours lecture and six hours lab per week. This course will cover, with in-depth study, the make-up of constant voltage power sources and semi-automatic wire feed systems. Various methods of metal transfer will be covered, such as spray, globular, short-circuiting, and pulsed spray. Applications will be applied to ferrous and non-ferrous metals of various thicknesses in all axes. Students will become occupationally proficient using Gas Metal Arc Welding (GMAW) on limited and unlimited thicknesses in all axes on plate, Flux Cored Arc Welding (FCAW) on intermediate and unlimited thicknesses in all axes on plate. (Degree Credit)

WELD 091CF Manual Arc Welding Fundamentals (5)
Prerequisite: WELD 091BF
Three hours lecture and six hours lab per week. The areas covered in this course are the make-up and use of constant current power supplies as found in Shielded Metal Arc Welding (SMAW) and Gas Tungsten Arc Welding (GTAW) with alternating current, direct current and pulsed current output variations. Elements of welding design, cost estimations, process selection and related welding symbols also will be covered. Students will gain entry level skills on Shielded Metal Arc Welding (SMAW) and Gas Tungsten Arc Welding (GTAW) using ferrous and non-ferrous metals. (Degree Credit)

WELD 091DF Structural Welding Certification (5)
Prerequisite: WELD 091CF
Three hours lecture and six hours lab per week. Topics covered include originations and applications of welding codes, welding procedure qualification, welder qualification tests, weldment evaluation and quality control, visual inspection and preparation for Los Angeles City welding examination. Students will take written and lab tests to qualify as licensed certified welders in compliance with the American Welding Society (AWS) and the Los Angeles Building Code, using Shielded Metal Arc Welding (SMAW) and Flux Core Arc Welding (FCAW) on light gage and heavy gage structural steel. (Degree Credit)

WELD 095 F Welding Skills Lab (.5-2)
Open Entry/Open Exit
Corequisite: WELD 121AF, WELD 121BF, WELD 091AF, WELD 091BF, WELD 091CF, WELD 091DF, or any other Fullerton College welding class
This course offers students the opportunity to further develop their welding skills. One-half unit of credit will be given for each twenty-four hours of class participation. Open entry, variable units. Course may be taken four times for credit. (Degree Credit)

WELD 096 F Welding Inspection Technology (5)
Five hours lecture per week. This class will aid in preparation for the American Welding Society’s AWS Certified Welding Inspector’s CWI exam. Fundamentals of visual welding inspection per nationally-recognized code applications will be covered. Preparation and qualification of welding procedures and welder qualifications will be discussed. Building code compliance for welding applications will be assessed. Through the usage of weld gauge measurement tools and destructive and nondestructive testing equipment, the student will gain hands-on experience in welding inspection standards. This class is strongly recommended for those entering the fields of quality assurance, inspection, supervision and engineering of welded products. (Degree Credit)

WELD 098 F Welding Fabrication Technology (2)
Prerequisite: WELD 091AF
One hour lecture and three hours lab per week. This course will provide the student with a general understanding of the fundamental methods of welding fabrication used in industry. Fabrication case studies and philosophies will be examined and the net outcome discussed. Students will become familiar with standard mill shapes and materials, jigs and fixtures, methods of layout and fitting, preparation and qualification of welding procedures, cost analysis, and cutting and fastening techniques. This class is strongly recommended for those entering the fields of metal fabrication, quality assurance, inspection, supervision, and engineering of welded products. (Degree Credit)

WELD 121AF Introduction to Welding (2)
One hour lecture and three hours lab per week. The course emphasizes welding fundamentals and safety used in modern industry. Students in non-welding vocational and transfer areas will be able to gain welding skills needed as a support craft. Process identification, terms and definitions, safety guidelines, and practical applications are included. Students will gain entry level skills with Oxyacetylene Welding (OAW), Shielded Metal Arc Welding (SMAW), and Oxyacetylene Cutting (OFC). (CSU) (Degree Credit)

WELD 121BF Fundamentals of Inert Gas Welding (2)
Prerequisite: WELD 121AF
One hour lecture and three hours lab per week. This course enables students, who expect welding to be an integral part of their vocation, to master necessary manipulative skills in order to obtain job proficiency. Introduction to Gas Metal Arc Welding (GMAW), Gas Tungsten Arc Welding (GTAW) and Plasma Arc Cutting (PAC) are covered. Students will gain entry level skills on ferrous and non-ferrous metals using gas metal arc and gas tungsten arc welding. (Degree Credit)

WELD 091CF Manual Arc Welding Fundamentals (5)
Prerequisite: WELD 091BF
Three hours lecture and six hours lab per week. The areas covered in this course are the make-up and use of constant current power supplies as found in Shielded Metal Arc Welding (SMAW) and Gas Tungsten Arc Welding (GTAW) with alternating current, direct current and pulsed current output variations. Elements of welding design, cost estimations, process selection and related welding symbols also will be covered. Students will gain entry level skills on Shielded Metal Arc Welding (SMAW) and Gas Tungsten Arc Welding (GTAW) using ferrous and non-ferrous metals. (Degree Credit)
Wellness (WELL)
Physical Education Division
Office: Bldg 2200
714.992.7045
Dean: Peter Snyder
Website: pe.fullcoll.edu

Wellness Courses

WELL 020 F Fitness Assessment (.5)
Thirty minutes lecture and one hour lab per week. This course is designed to assess the physical fitness level of students. Measurements of body composition, cardiac profile, blood pressure, muscular endurance, muscular strength, flexibility and cardiorespiratory endurance will be included in the class. After testing, based on test results, students will be counseled and exercise recommendations will be given. A lab fee will be charged. (Degree Credit)

WELL 040 F Training Principles for Fitness Assessment (1)
One hour lecture and one hour lab per week. This course is designed to train students to perform and interpret fitness tests based on the major components of physical fitness. (Degree Credit)

WELL 110 F Pathology: The Massage Connection (3)
Three hours lecture per week. This course is designed to meet the specific needs of massage therapy students and professionals interested in pathology. This course includes topics such as pain, inflammation and healing, and pathology associated with each of the systems. This class is part of the Physical Education’s Therapeutic and Sports Massage: Massage Therapist Program. (CSU) (Degree Credit)

WELL 119 F Applied Biomechanics (2)
Two hours lecture per week. This interactive and informative course takes an in-depth look at the kinesiology and functional actions of the torso, legs, and upper body musculature as it applies to exercise. Students will learn the proper postural stabilization techniques, selective recruitment patterns and progressive resistance that influences overall body alignment along with practical implications of bones, joints, muscles, nerves, and muscle actions in developing structurally sound exercise programs. (CSU) (Degree Credit)

WELL 200 F Applied Exercise Physiology (2)
Two hours lecture per week. This course examines how the body functions under conditions of exercise stress. Students will study the practical implications of muscle function, cardiorespiratory function, training techniques, and the environment on exercise. (CSU) (UC) (Degree Credit)

WELL 220 F Exercise and Aging (2)
Two hours lecture per week. Three field trips are required. This course examines the scientific evidence concerning the relationship between physical activity level and physical, mental, and social-psychological well-being during aging, changes related to inactive lifestyles (functional mobility and health declines), and the positive effects on an active lifestyle on successful aging and prevention of disease and disability. (CSU) (Degree Credit)

WELL 221 F Personal Training Internship (2)
Prerequisite: Completion of ANAT 231 F; NUTR 210 F; PE 154 F, PE 235 F; WELL 040 F, WELL 119 F, WELL 200 F. Plus two units of restricted electives from: PE 147 F, PE 152 F, PE 159 F, PE 199 F, PE 243 F, PE 266 F; WELL 242 F
Two hours lecture, two hours lab per week. This course is designed to provide our Personal Training certificate students an opportunity to train clients (current FC students) under the supervision of our Physical Education faculty. The trainer gains practical hands-on experience working with clients. Course may be taken twice for credit. (CSU) (PE 199 F UC review required.) (Degree Credit)

WELL 230 F The Body-Mind Connection (3)
Three hours lecture per week. Body-mind health refers to the integration of the mind (our thoughts, attitudes and emotions) and the body, and to their impact on our overall health and well being. Body-mind health encompasses all aspects of our lives: physical, mental, emotional, and spiritual. (CSU) (Degree Credit) CSU GE

WELL 232 F Introduction to Massage (4)
Four hours lecture per week. This course is the foundation for the entire Therapeutic and Sports Massage Program. It gives the students theoretical, practical and professional experience in massage therapy. The student will master a solid core of skills, body mechanics, client assessment and centering skills. The students will learn to give and receive a full body relaxation massage. (CSU) (Degree Credit)

WELL 233 F Intermediate Massage (3)
Advisory: WELL 238 F
Three hours lecture per week. This course focuses on massage applications with therapeutic and rehabilitative techniques. Students will learn therapeutic techniques that can maximize the efficiency of their work. Applications introduced include deep tissue, postural realignment, craniosacral motion and aromatherapy. Special attention is given to palpatory skills. (CSU) (Degree Credit)

WELL 234 F Advanced Massage (3)
Advisory: WELL 238 F
Three hours lecture per week. This hands-on course explores a variety of techniques specific to the spa setting. This course includes Advanced Massage is a course designed to enhance the skills of massage students who have already completed the basic and intermediate massage courses. Methods and procedures of advanced soft tissue techniques and related topics; an integration of techniques practiced in intermediate massage. (CSU) (Degree Credit)

WELL 236 F Sports Massage (3)
Three hours lecture per week. This course will offer the basic principles of sports massage. The class will give the student working knowledge of athletes’ needs and emphasizes preventive and post-event massage. (CSU) (Degree Credit)

WELL 238 F Massage and Bodywork Lab (2)
Advisory: WELL 232 F and WELL 236 F
One hour lecture and three hours lab per week. This course offers students the practical experience of giving a professional massage. This lab experience develops student confidence and professional massage skills while working with the public under supervision of instructor. Course may be taken three times for credit. (CSU) (Degree Credit)
WELL 239 F Internship Massage and Bodywork (1-4)
Prerequisite: WELL 233 F or WELL 234 F
One hour lecture and three hours lab per week. Students apply their knowledge and skills working directly with the public in supervised settings. Students independently perform field work under supervision in various settings (i.e., community agencies, athletic teams, spas, chiropractors or healthcare facilities). Students are required to complete four units for the Therapeutic and Sports Massage Certificate. Course may be taken four times for a maximum of eight units. (CSU) (Degree Credit)

WELL 242 F Stress Management and Relaxation Training (1.5)
One and one-half hour lecture per week. The physiology of the stress response as well as specific physical changes, which indicate the onset of stress, will be covered. There will be discussion of the nature of various stressors, stress induced emotions as well as the role of thought process in the development and prevention of stress. Emphasis will be placed on the difference between “disputing” and “distracting” in managing stresses including the techniques used for each. Emphasis will also be placed on the analysis of stressful events and the application of the appropriate techniques. The place of diet and exercise will be covered as well as specific problem areas related to fitness such as back and neck care. Activity periods will cover flexibility and relaxation training, with instruction in the various relaxation techniques such as breathing, progressive relaxation, deep relaxation, Autogenesis and visualization. (CSU) (Degree Credit) CSU GE

WELL 265 F Kinesiology (3)
Three hours lecture per week. This course covers the musculoskeletal system and its function in human movement as well as movement in sports skills and activities of daily living and the muscles involved. This class will approach the human body primarily from a functional perspective. There will be emphasis on the relationship between the muscles and the bone as they relate to human movement. (CSU) (Degree Credit)

Dean: Scott McKenzie
Website: techneng.fullcoll.edu

Cabinetmaking and Millwork Technology Certificate
Wood Technology: Cabinetmaking Specialist Certificate
Wood Technology: Furniture Making Specialist Certificate
Wood Technology: Woodcarving Specialist Certificate

Wood Technology Courses

WOOD 012 F Cabinetmaking/Millwork (4)
Prerequisite: WOOD 110 F or one year woodworking experience
Two hours lecture and six hours shop practice per week. The study of operations commonly performed in cabinet shops. Instruction in the safe use and proper care of woodworking machinery. This course will include design layout, blueprints, mill lists, construction estimating, bid preparation, and material analysis. Students will be involved in a project consisting of carcass construction techniques, face frames, drawer frame partitions, and the construction of doors and drawers. Various aspects of finish carpentry, including interior millwork, installation, hardware, and finishing techniques used in the mill cabinet trade will be studied. (Degree Credit)

WOOD 013 F Introduction to 32mm Cabinetmaking (4)
Advisory: WOOD 110 F or equivalent introductory Wood Technology course or two years of woodworking experience
Two hours lecture and six hours lab per week. This is an introduction to the European style of cabinetmaking based on a system of holes drilled at 32mm increments. Design considerations and materials selection, including hardware, will be covered, along with the proper layout, sizing, and drilling of cabinet parts. Special emphasis is given to the safe and correct use of equipment that is specific for this type of cabinetmaking. (Degree Credit)

WOOD 014 F Cabinetmaking/Millwork (House Project) (4)
Prerequisite: WOOD 110 F or one year woodworking experience
Two hours lecture and six hours shop practice per week. This course provides the students with on-site cabinetmaking experience at the Construction Technology student-built house. Students will be involved in a three-phase cabinetmaking project. Phase I: Design, layout, cost estimating, and material analysis. Phase II: Students will construct kitchen cabinets, bathroom vanities, base moldings, and mill all interior trim. Phase III: Surface preparation staining, finishing, hardware, and installation of cabinets, millwork, and interior finish carpentry. (Degree Credit)

Women’s Studies (WMNS)
Social Sciences Division
Office: Bldg 1400, Room 1415
714.992.7047
Dean: Dan Tesar
Website: http://socsci.fullcoll.edu/

Women’s Studies Courses

WMNS 100 F Introduction to Women’s Studies (3)
Three hours lecture per week. An interdisciplinary introduction to feminist topics. Designed to provide a foundation for Women’s Studies with an examination of sex role socialization, feminist theory, and feminist themes in literature, philosophy, psychology, the arts, economics and politics. (CSU) (UC) AA GE, CSU GE, IGETC
WOOD 015 F 32mm Cabinetmaking/Millwork-House Project (4)
Advisory: WOOD 110 F or equivalent introductory Wood Technology course or two years of woodworking experience
Two hours lecture and six hours lab per week. This course provides the students with on-site 32 mm cabinetmaking experience at the Construction Technology student-built house & installation experience. Students will be involved in a three-phase cabinetmaking project. Phase I: Design, layout, cost estimating, and material analysis. Phase II: Students will construct 32 mm kitchen cabinets, bathroom vanities, base moldings, and mill all interior trim. Phase III: Surface preparation, staining, finishing, hardware, and installation of 32 mm cabinets, millwork, and interior finish carpentry. (Degree Credit)

WOOD 016 F Machine Woodworking/Furniture (4)
Prerequisite: WOOD 110 F or one year woodworking experience
Two hours lecture and six hours shop practice per week. A three-phase study of advanced wood technology, wood machinery, and fine furniture construction, emphasizing craftsmanship and professional preparation. Phase I: Wood technology, identification, and terminology; lumber grades, principles of design, working drawings, bill of materials, use and care of hand tools, and joinery exercises. Phase II: Operation and maintenance of woodworking power machines, safety precautions, design and construction of jigs and fixtures, machine joinery, and millwork as related to furniture production. Phase III: Finish carpentry, door and drawer construction, molding, trim, frame, and panels. Properties of adhesives, stains, sealers, and finishes. Study of trade skills and career opportunities in industrial woodworking. (Degree Credit)

WOOD 017 F Table Construction (4)
Advisory: WOOD 110 F or equivalent introductory Wood Technology course or two years of woodworking experience
Two hours lecture and six hours lab per week. This is an intermediate course that covers the history, design, and construction of tables for office and residential and residential applications. Special emphasis is given to ergonomic considerations, proper choice of materials, and correct machining operations to successfully complete a project. Each student builds a table of the student’s own design. Course may be taken twice for credit. (Degree Credit)

WOOD 018 F Advanced Machine Woodworking/Furniture (4)
Prerequisite: WOOD 016 F
Two hours lecture and six hours shop practice per week. Emphasis on more advanced furniture design and joinery, employing more sophisticated and advanced hand and machine tool operation. (Degree Credit)

WOOD 019 F Chair Construction (4)
Advisory: WOOD 110 F or equivalent introductory Wood Technology course or two years of woodworking experience
Two hours lecture and six hours lab per week. This is an intermediate course that covers the history, design, and construction of chairs for office and residential applications. Special emphasis is given to ergonomic considerations, proper choice of materials, and correct machining operations to successfully complete a project. Each student builds a chair of the student’s own design. (Degree Credit)

WOOD 021 F Tool and Jig Production (2)
Prerequisite: WOOD 110 F
Corequisite: Enrollment in any wood technology class
One hour lecture and three hours of shop practice per week. This course offers the study of design considerations and materials selection for constructing woodshop tools and jigs. As one of the principle instructional objectives, students will build a series of tools and jigs. Emphasis is placed on tools and jigs for the table saw and hand-held router. (Degree Credit)

WOOD 025 F Cabinet Vision/Planit Solutions (2)
One and one-half hours lecture and two and one-half hours lab per week. This course will include the use of the Cabinet Vision software program for creating room layouts and designing cabinets. Students will work with 2D and 3D CAD to produce bids, estimates and presentations. (Degree Credit)

WOOD 026 F Computer Applications for Cabinetmaking (2)
One and one-half hours lecture and two and one-half hours lab per week. This is an intermediate course to CAD software used in the cabinetmaking industry. Students will learn the terminology used in traditional cabinetry and the corresponding terms that apply in using the software. Students will learn how to use the software to input the field measurements and other critical measurements to create custom cabinetry for kitchens, bathrooms, and other residential rooms. In addition, students will create cutting lists of materials, bid estimates for the project, and CAD drawings and renderings that might be presented to a customer. Students will work on individual PC computers in a networked lab setting. (Degree Credit)

WOOD 031 F Woodworking Skills LAB (.5-8)
Open Entry/Open Exit
Corequisite: Any Fullerton College credit woodworking class
This course offers students the opportunity to further develop their skills at hand and machine tool operations, and to devote more time to project work. One half unit of credit will be given for each twenty-four hours of lab participation.

WOOD 032 F Advanced Skills Lab (.5-4)
Open Entry/Open Exit
Corequisite: Enrollment in any Wood Technology course
This course provides students the opportunity to develop advanced skills in hand and machine tool use; machinery setup and safety; project planning, construction, and assembly; and the application of appropriate finishes to a project. One-half unit of credit will be given for each 27 hours of lab participation. This course may be taken a total of four times.

WOOD 041 F Introduction to Woodcarving (2)
One hour lecture and three hours lab per week. This is an introductory course designed to develop the basic skills of woodcarving. Topics covered include the selection of appropriate carving woods, basic carving knife skills, basic project layout, and simple project finishing applications. Course may be taken twice for credit. Lab Fee: $15 (Degree Credit)

WOOD 042 F Intermediate Woodcarving (2)
One hour lecture and three hours lab per week. This is an intermediate course in woodcarving, designed for the student who has some experience with woodcarving and wishes to build on those skills and knowledge. Intermediate carving tools and techniques will be covered, including face carving. Students will complete a series of intermediate woodcarving projects for the semester, using materials provided. Lab Fee: $15 (Degree Credit)
WOOD 043 F Advanced Woodcarving (2)
One hour lecture and three hours lab per week. This is an advanced course in woodcarving, designed for the student with strong carving skills and experience. The student is expected to have mastery of low and shallow relief carving techniques, and the tools necessary to achieve those techniques. This course will focus on more advanced carving techniques necessary to achieve full-figure and mid-relief carving, including projects with multiple faces and/or figures. Students will complete a series of advanced woodcarving projects for the semester, using materials provided. Course may be taken twice for credit. Lab Fee: $15 (Degree Credit)

WOOD 044 F In-the-Round Woodcarving (2)
One hour lecture and three hours lab per week. This is an advanced course in woodcarving, designed for the student who has mastered the tools and techniques for relief carving and who wishes to pursue in-the-round carving. This course will focus on the advanced tools and techniques necessary for 3-D carving, such as full-figure, decoy and furniture carving. Students will complete a series of advanced carving projects for the semester, using materials provided by the student. Course may be taken twice for credit. (Degree Credit)

WOOD 110 F Fundamentals of Woodwork (4)
Two hours lecture and six hours shop practice per week. Practice in bench woodwork and the basic machine operation of the table saw, jointer, surfacer, sander, drill press, and boring machine. Includes the care and the use of hand tools, typical joint construction, common furniture hardware, glues and gluing, and a study of common furniture wood. (CSU) (Degree Credit) AA GE

Work Experience (WKEX)
Business and CIS Division
Office: Bldg 300
714.992.7032
Dean: Ann Hovey
Website: http://bizdiv.fullcoll.edu

WKEX 091 F Work Experience/Vocational (1-4)
One hour lecture and five to twenty (or more) hours of employment per week required. One unit of credit for each five hours worked per week to a maximum of four units each semester. Course is designed to provide instruction and general advisement related to actual work experience. Employment and major must be related. Students must carry a minimum of seven units, which may include Work Experience, and be appropriately declared in a major. Students may enroll up to a maximum of four semesters, earning up to a maximum of sixteen units over that time. (Degree Credit)

WKEX 092 F Work Experience/General (1-3)
One hour lecture and five to fifteen (or more) hours of employment per week required. One unit of credit for each five hours worked per week to a maximum of three units each semester. Course is designed to provide instruction and general advisement related to actual work experience. For the employed student who has either not yet declared a major or whose employment and major are not related. Students must carry a minimum of seven units, which may include Work Experience. Students may enroll up to a maximum of two semesters, earning up to a maximum of six units over that time. (Degree Credit)
Faculty and Administration

ABUTIN, ALBERT — Dean, Admissions & Records, Interim
  A.A., A.S., Fullerton College
  B.A., California State University, Fullerton
  M.S., University of La Verne

ALLEN, MAALA K. — Natural Sciences
  Biology
  B.Sc., University of St. Andrews, United Kingdom
  M.S., Yale University

A.S., Rio Hondo College
B.A., University of Phoenix

LOWE, CLAUDIA — Social Sciences
Geography
A.A., Fullerton College
B.A., M.A., California State University, Fullerton

LOZINSKY, RICHARD — Natural Sciences
Earth Science
B.S./B.A., Humboldt State University
M.S., University of New Mexico
Ph.D., New Mexico Institute of Mining and Technology

LUNDERGAN, ROBERT — Humanities
English
B.A., M.A., California State University, Chico
Ph.D., University of Wisconsin, Milwaukee

MAGEE, D. B. — Humanities
English
B.A., University of Louisiana, Monroe
M.A., The University of Alabama
Ph.D., Texas Christian University

MAJORS, GENE W. — Mathematics and Computer Science
Mathematics
A.A., Long Beach City College
B.A., M.A., California State University, Long Beach

MALLOY, SCOTT — Mathematics and Computer Science
Mathematics
A.A., Fullerton College
B.A., University of California, Los Angeles
M.S., California State University, Northridge

MANDE, ANUPAMA — Social Sciences
History
B.A. Stella Maris College (India)
M.A., Ph.D., Ohio State University

MARKLEY, KAREN — Social Sciences
Anthropology
B.A., M.A., California State University, Fullerton

MARTINEZ, MARCIANO — Fine Arts
Art
B.A., California College of Arts and Crafts
M.F.A., The Claremont Graduate School

MATTERSON, CAROL — Humanities
English
B.A., University of California, Santa Barbara
M.A., University of Houston

MAZZAFERRO, ANTHONY P. — Fine Arts
Music
B.M., San Francisco State University
M.M., Northwestern University
D.M.A., Arizona State University

McALLISTER, G. ALAN — Business and CIS
Accounting; Business
B.S., M.B.A., California State University, San Bernardino

McCLEOD, EDWARD — Business and CIS
Accounting
B.A., M.S., California State University, Fullerton

McGREGOR, PATRICK A. — Technology and Engineering
Construction Technology
A.A., Fullerton College
B.S., University of Phoenix

McKINLEY, PAUL — Disability Support Svs/Student Support Svs
Adaptive Computer Lab
B.A., M.S., California State University, Fullerton

McMILLAN, RICHARD — Fine Arts
Art and Graphic Design
B.A., University of Central England, Birmingham, U.K.

McQUEEN, DEBORAH — Mathematics and Computer Science
Mathematics
A.A., Fullerton College
B.A., M.A., California State University, Fullerton

MEEHAN, KENNETH A. — Director, Institutional Research
B.S., Georgetown University
M.A., California State University, Fullerton
Ph.D., University of Hawaii at Manoa
MEISENHELDER, CECILIA D. — Counseling/Student Development
Counseling
A.A., Orange Coast College
B.S., California State University, Fullerton
M.S., University of Southern California

MELELLA, LAURA — Business and CIS
Computer Information Systems
B.S., California State University, Fresno
M.A., Pepperdine University

MILLER, BRUCE — Fine Arts
Music
B.M., University of Hartford
M.M., University of Cincinnati
Ph.D., University of California, Los Angeles

MILLER, ROBERT R. — Fine Arts
Art
B.A., M.A., California State University, Long Beach

MINTON, JEFFREY A. — Technology and Engineering
Photography
A.A., Pasadena City College
B.A., California University, Riverside
M.F.A., California State University, Fullerton

MIRANDA, ROBERT — Director, Financial Aid, Veteran/Student Services
A.A., Cerritos College
B.A., M.P.A., California State University, Dominguez Hills

MOLINA, ROSA — Technology and Engineering
Cosmetology
A.A., Riverside Community College
B.S., M.A., California State University, San Bernardino

MONREAL, M. LEONOR — Social Sciences
Anthropology
A.A., Fullerton College
B.A., M.A., California State University, Fullerton

MOORE, MICHAEL — Technology and Engineering
Communications
A.A., Fullerton College
B.A., Antioch University
M.Ed., University of La Verne

MORGAN, REBECCA — Counseling and Student Development
Counseling
B.S., Columbia International University
M.A., Psy.D., Biola University

MORISON, BOB — Engineering Supervisor, Media Systems

MORRIS, TOM E. — Natural Sciences
Environmental Science
B.S., San Diego State University
M.A., University of California, Berkeley

MUMMERY, FRANCIS — Social Sciences
Economics
A.S., Cypress College
B.A., M.A., B.A., California State University, Fullerton

NACK, SUSAN — Mathematics and Computer Science
Mathematics and Computer Science
B.A., Queens College of City University of New York
B.S., M.S., California State University, Long Beach

NAUER, KATHLEEN Y. — Fine Arts
Computer Graphics
B.F.A., University of Illinois
M.F.A., University of Arizona

NEGRETE, RENA — Interim, Registrar

NEGUS, A. LYNNE — Social Sciences
History
B.A., M.A., University of California, Berkeley
M.A., Ph.D., University of California, Los Angeles

NELSON, LEVONNE — Social Sciences
Philosophy
B.A. (Philosophy), Ohio University
M.A. (English), Ohio University

NELSON-WRIGHT, KELLY — Social Sciences
Sociology
B.A., M.A., California State University, Fullerton

NETTLESHIP, LOIS — Social Sciences
History
B.A., M.A., Columbia University
Ph.D., University of Sussex

NGUYEN, GREGORY V. — Mathematics and Computer Science
Mathematics
A.A., Orange Coast College
B.S., M.S., California State University, Long Beach

NGUYEN, KARYN — Counseling and Student Development
Counseling
B.A., University of San Diego

NICCOLAI, NILO — Director, Academic Computing Technology
B.S., Carnegie Institute of Technology
M.S., Ph.D., Carnegie Mellon University

NOLAN-RIEGLE, MARY C. — Natural Sciences
Biology
B.A., Montclair State University
M.A., Ph.D., Rutgers University

O'BRIEN, DAN — Technology and Engineering
Machine Tools
A.A., Orange Coast College
B.A., California State University, Long Beach

O'CONNOR, ADAM M. — Director, Budget and Finance
A.A., Orange Coast College
B.S., California State University, Long Beach
M.P.A., California State University, Dominguez Hills

O'DONNELL, CATHRYN COLLOPY — Humanities
Foreign Language
B.S., New York State University, Buffalo
M.A., New York University
Ph.D., University of California, Irvine

OGLESBY, EDGAR — Technology and Engineering
Administration of Justice
A.A., East Los Angeles College
B.A., California State University, Los Angeles
M.P.A., University of Southern California

OKAMURA, JILL — Library/Learning Resources
Library Technology
B.A., M.L.I.S., University of California, Los Angeles
ORLIJAN, KIMBERLY — Humanities
English
B.A., M.A., Ph.D., University of California, Riverside

ORR, JOHN C. — Humanities
B.A., Amherst College, Massachusetts
M.A., The Claremont Graduate University

OUCHI, BRYAN Y. — Disability Support Svs/Student Support Svs
Learning Disabilities
B.A., University of California, Los Angeles
M.A., Fuller Theological Seminary
M.A., Alliant International University

PADILLA, GERALD M. — Social Sciences
Ethnic Studies/History
B.A., California State University, Fullerton
M.A., University of California, Los Angeles

PELLEGRINO, ELMER — Technology and Engineering
Administration of Justice
A.A., College of The Siskiyous
B.S., California State University, Long Beach
M.A., California State University, Fullerton

PEREZ, EMILIO — Director, Campus Safety
A.A., East Los Angeles City College
B.S., California State University, Los Angeles
M.P.A., University of Southern California

PEREZ, JAIME — Fine Arts
Art
M.A., California State University, Long Beach

PEREZ, MARIE L. — Technology and Engineering
Cinema-Radio-Television
B.A., University of North Carolina, Chapel Hill
M.A., California State Polytechnic University, Pomona

PETERSON, QUEEN — Counseling/Student Development
Counseling
M.A., Chapman University
Ed.D., Argosy University

PHELAN, ROBERT S. — Humanities
Speech
B.A., University of California
M.A., San Francisco State University

PIAZZA, STEPHANIE — Humanities
Reading
B.A., M.A., California State University, Fullerton

PIMENTEL, SYLVIA — EOPS/Student Services
Counseling
B.A., California State University, Fresno
M.S.W., University of Southern California

PLEDGER, SHIRLEE I. — Humanities
Speech
A.A., Fullerton College
B.A., M.A.; California State University, Fullerton

PLETT, STEPHEN L. — Mathematics and Computer Science
Mathematics
A.A., Fullerton College
B.A., California State University, Fullerton
M.S., University of California, Riverside
M.A., California State University, Fullerton

PLISKA, STEVEN M. — Fine Arts
Theatre Arts
B.A., M.F.A., University of California, Los Angeles

PLUM-WIDNER, ALIX — Physical Education
B.A., California State University, Long Beach
M.A.Ed., Azusa Pacific University

POPE, DANIEL L. — Fine Arts
Art
B.A., Chapman University
M.A., California State University, Long Beach

PORTMAN, SHARON — Humanities
English as a Second Language (ESL)
B.A., California State University, Long Beach
M.S., California State University, Fullerton

PORTOLAN, JANET S. — Vice President, Educational Support and Planning
B.A., M.A., San Francisco State University
Ed.D., University of California, Los Angeles

POWERS, MIGUEL — Mathematics and Computer Science
Mathematics
B.S., M.S., California State University, Long Beach

PRICE, RENÉ — Mathematics and Computer Science
Recreation Administration
A.A., Fullerton College
B.A., B.S., M.S., California State University, Long Beach

PRICE, RHETT J. — Physical Education
Recreation Administration
A.A., Fullerton College
B.A., B.S., M.S., California State University, Long Beach

REILLY, JOSEPH — Social Sciences
History; Political Science
B.A., M.A., National University

REYES, JR., JOE S. — EOPS/Student Services
Counseling
A.A., Compton Community College
B.A., University of California, Los Angeles
M.S., California State University, San Diego
REYNOLDS, CAROL W. — Natural Sciences
Nutrition and Foods
B.S., Marymount College
M.A., New York University

RICHARDS-DINGER, KARI — Mathematics and Computer Science
Mathematics
B.S., University of California, Santa Barbara
M.S., University of California, San Diego
M.A., California State University, Fullerton

RITTER, WALLACE — Business and CIS
Business Management
B.A., M.B.A., California Polytechnic University, Pomona
Ph.D., Claremont Graduate School

ROBINSON, KAREN — Natural Sciences
Nutrition and Foods
B.S., California State University, Long Beach
M.S., California State University, Northridge

RODGERS, CAROLANNE — Business and CIS
Computer Information Systems
B.A., State University of New York, Buffalo
M.A., California State University, San Bernardino

RODINE, JEFFREY — Humanities
Reading
B.A., California State Polytechnic University, Pomona
M.A., United States International University

ROSA, MELANIE K. — Physical Education
Dance
B.A., M.A., M.F.A., University of California, Irvine

ROSE, KAREN — Director, Office of Special Projects
B.A., University of Oklahoma
M.S., Central State University, Oklahoma

ROSEN, ELLEN M. — Humanities
English as a Second Language (ESL)
B.A., Calvin College, Grand Rapids, Michigan
M.A., University of California, Los Angeles

RUZ, ROSALINDA M. — Humanities
English
B.A., M.A., California State University, Fullerton

RUNDUS, KATHARIN — Fine Arts
Music
B.M., Coe College
M.M., Westminster Choir College
D.M.A., Claremont Graduate University

RYAN, GREG — Director, Financial Aid
B.F.A., California Institute of the Arts
M.A., University of Liverpool

ST. JOHN, PAUL — Business/CIS
Accounting
A.A., Santa Monica College
B.S., California State University at Long Beach

SALAS, RICARDO — Social Sciences
Political Science
M.A., University of California, Santa Barbara

SAMPSON, KEVIN — Technology and Engineering
Administration of Justice
B.A., California State University, Long Beach
M.S., M.Ed., University of La Verne
Ed.D., University of Southern California

SANABRIA, ROLANDO — Counseling and Student Development
Counseling
B.S., California State University, Fullerton
M.S., California State University, Long Beach
Ed.D., Argosy University

SANCHEZ, VIRGINIA — EOPS/Student Services
Counseling
A.A., Fullerton College
B.S., California State University, Fullerton
M.S., California State University, Dominguez Hills

SAPIRO, JACOB — Natural Sciences
Anatomy/Physiology/Microbiology; Biology
B.S., Brooklyn College
Ph.D., Case Western Reserve University

SCHILLING, CHARLES — Humanities
Speech
A.A., Santa Ana College
B.A., M.A., California State University, Fullerton

SCOTT, ERIN — Fine Arts
Art
M.F.A., California State University, Fullerton

SCOTT, MICHAEL — Fine Arts
Music
B.M., M.M., University of Southern California

SEATON, DERRY D. — Social Sciences
Philosophy and Religious Studies
B.A., Oklahoma Baptist University
M.Div., Southern Theological Seminary
M.A., The Claremont Graduate University

SEE, ROGER — Physical Education
B.A., M.A. (History), California State University, Fullerton

SEIDEL, JAY — Technology and Engineering
Communications/Journalism
A.A., Fullerton College
B.A., M.A., California State University, Fullerton

SHERMAN, GEORGE C. — Natural Sciences
Physics
B.S., Stanford University
M.S., Ph.D., University of California, Los Angeles

SHEW, JAMIE — Fine Arts
Music
B.M., Washington State University
M.M., Western Michigan University

SHIDELER, LINDA — Mathematics and Computer Science
Mathematics
B.A., M.A., California State University, Fullerton
M.A., University of California, San Diego

SHIER, CAROL G. — Humanities
Reading
A.A., M.A., University of Arkansas
M.S., California State University, Fullerton

SIERRA, JAVIER — Manager, Maintenance and Operations
B.A., University of Phoenix

SIPPLE, RUTH — Disability Support Svs/Student Support Svs
Learning Disabilities
B.S., University of Connecticut
M.S., California State University, Fullerton

VAN RY, MICHELE — Fine Arts
Art
B.A., M.F.A., University of California, Irvine

VANDERPOOL, JEFFREY — Social Sciences
Philosophy
B.A., California State University, Fullerton
M.A., Ph.D., University of California, Riverside

VELOZ, OLIVIA — Director, Academic Support Center
A.A., Cerritos College
B.A., M.B.A., University of Phoenix

VERZEANU, RAZVAN — Mathematics and Computer Science
Mathematics
B.A., University of Southern California
M.S., University of California, Irvine

VIDAL, SUNSHINE D. — Counseling/Student Development
Counseling
A.A., Golden West College
B.A., California State University, Long Beach
M.S., California State University, Fullerton

VINCENT, LENNY — Natural Sciences
Biology
B.A., California State University, Northridge
M.S., University of California, Davis
Ph.D., University of California, Berkeley

VINCENT, SUSAN — EOPS/Student Services
Counseling
B.A., University of the Pacific
M.S., California State University, Los Angeles

VORNICEL-GUTHMANN, VIOLETTE — Humanities
French
French DUEL, Strasbourg, France
Licence `es Lettres Modernes, Aix-En-Provence, France
M.A., Ph.D., University of California, Irvine

WALKER, JOHN T. — Social Sciences
History
B.A., Dartmouth College
M.A., University of Southern California
M.A., Ph.D., University of California, Irvine

WALZER-PRIO, AMANDA — Humanities
English
B.A., University of California, Los Angeles
M.A., Antioch University

WAN, PETER P. — Social Sciences
History
B.A., East China Normal University
Ph.D., Harvard University

WARD, CAROL — Technology and Engineering
Cosmetology
A.A., Fullerton College
B.V.E., M.A., California State University, Long Beach

WHALEN, KATHLEEN A. — Physical Education
A.A., Fullerton College
B.A., California State University, Long Beach
M.A., California State University, Fullerton

WILLENBRING, JOEL H. — Business and CIS
Computer Information Systems
A.A., Orange Coast College
B.S., California State University, Long Beach
M.B.A., Pepperdine University

WILLOUGHBY, DAN — Dean, Humanities
B.A., University of California, Berkeley
M.S., California State University, Fullerton

WILSON, MARCUS — Business and CIS
Business
B.S., M.B.A., University of Southern California
J.D. Law Center, University of Southern California

WITTMAN, EDWARD R. — Business and CIS
Computer Information Systems
B.A., Rutgers University
M.S., California State University, Long Beach

WOELKE, DEBORAH — Physical Education
B.A., Fullerton College
B.S., M.S., California State University, Fullerton

WOOLF, JEANA G. — Social Sciences
Psychology
A.A., Ventura College
B.S., California Polytechnic University, San Luis Obispo
M.A., California State University, Northridge

WOLL, GREG — Fine Arts
Music
A.A., University of North Texas
D.M.A., The Claremont Graduate University

WOLFRIDGE, NANCY A. — Business and CIS
Computer Information Systems
B.S., Regis College
M.S., The Claremont Graduate University

WRIGHT, DORIS — Technology and Engineering
Cosmetology
B.A., Union Institute and University

WU, JO WEN — Natural Sciences
Biology
A.A., University of Missouri, Columbia
Ph.D., University of California, Irvine

YAMAGUCHI, ROBERT — Business and CIS
Business Management
D.B.A., United States International University, San Diego

YIMENU, TILAHUN — Natural Sciences
Chemistry
B.A., Coppin State College
Ph.D., Howard University

YOUNG, CALVIN — Natural Sciences
Biology
B.A., University of California, Berkeley
Ph.D., Columbia University

ZARSKE, CINDY — Mathematics and Computer Science
Mathematics
B.A., M.A., California State University, Fullerton
For non-course information, see Table of Contents in front of catalog.

**COURSE INDEX**

---

**ACCOUNTING (ACCT)**
- Accounting for Small Business .................................................. 160
- Analysis of Financial Statements .............................................. 161
- Auditing ......................................................................................... 161
- Computerized Accounting .......................................................... 160
- Cost Accounting ........................................................................... 160
- Current Topics in Taxation ......................................................... 161
- Financial Accounting Principles ................................................. 160
- Financial Accounting ................................................................. 160
- Income Tax Procedure ............................................................... 161
- Intermediate Accounting ............................................................. 161
- Managerial Accounting ............................................................... 160
- Payroll Accounting ....................................................................... 160
- QuickBooks .................................................................................. 161

**ADMINISTRATION OF JUSTICE (AJ)**
- Advanced Criminal Law ............................................................... 164
- Basic Police Academy, Extended Format I/II ................................. 161
- CAD/Crime Scene Application ..................................................... 164
- Child Abuse/Child Pornography ................................................. 163
- Community-Oriented Policing and Problem Solving ................. 162
- Conflict Resolution for Police Officers ....................................... 162
- Contingency Issues in Law Enforcement ................................. 163
- Crime Scene Investigation ........................................................... 163
- Crime Scene Techniques .............................................................. 165
- Criminal Investigation .................................................................. 165
- Criminal Law ................................................................................ 164
- Criminal Procedure ...................................................................... 164
- Cultural Diversity .......................................................................... 162
- Current Issues in Administration of Justice ............................... 162
- DNA Genetic Fingerprinting ....................................................... 164
- Domestic Violence ........................................................................ 163
- Emergency Management ............................................................. 162
- Ethics ......................................................................................... 164
- Gang Awareness Update .............................................................. 163
- H&S 11550 Drug Influence .......................................................... 162
- Interview and Interrogation Update ............................................ 162
- Investigating Domestic Terrorism ............................................. 162
- Investigation of Homicidal Behavior ......................................... 165
- Juvenile Procedures ..................................................................... 164
- Law Enforcement Career Preparation ....................................... 163
- Law Enforcement Instructor Development ............................... 163
- Law Enforcement Supervisory Update ....................................... 164
- Law Enforcement ......................................................................... 164
- Lifetime Fitness for Law Enforcement ....................................... 163
- Multi-Agency Task Forces ......................................................... 162
- Multicultural Issues Within Admin of Justice ......................... 165
- Narcotics and Vice Control ......................................................... 165
- Narcotics Training for Field Officers ......................................... 163
- Organized Crime and the Criminal Justice System ................. 164
- Organized Crime .......................................................................... 162
- Parolee Contacts .......................................................................... 162
- PC832 Arrest, Control and Firearms Training ......................... 165
- Police Patrol ................................................................................. 165
- Police Vehicle Pursuits ............................................................... 163
- Police-Community Relations ...................................................... 163
- Preventing Racial Profiling ........................................................ 162
- Preventing Sexual Harassment .................................................. 164
- Probation and Parole ................................................................. 164
- Report Writing ............................................................................. 164
- Rules of Evidence ......................................................................... 165
- Supervisory Response to Officer Involved Shooting ............. 163
- Tactical Awareness ....................................................................... 163
- Traffic Enforcement ..................................................................... 164
- Use of Force ................................................................................ 163
- Values, Principles, and Ethics ..................................................... 163
- Weaponless Defense .................................................................... 164
- Weaponless Defense/Baton Training ......................................... 163

**ANATOMY AND PHYSIOLOGY (ANAT)**
- Anatomy Independent Study ......................................................... 167
- Anthropology ............................................................................... 166
- Archaeology ................................................................................. 166
- Art History—Mexico .................................................................... 170
- Art History .......................... 170
- Art History — Ancient and Medieval ....................................... 170
- Art History — American Art ...................................................... 170
- Art History — Impressionism to the Present ........................ 170
- Art History — Mexico .................................................................. 170
- Art History — Renaissance to Modern ..................................... 170
- Art Independent Study ................................................................. 175
- Art Seminar .................................................................................. 174
- Basic Design ................................................................................ 170
- Business Practices in Art ............................................................. 171
- Ceramics ...................................................................................... 171
- Color Theory ................................................................................ 172
- Design Color for Non-Art Majors ............................................. 176
- Drawing ....................................................................................... 173
- Fashion Sketching ........................................................................ 171
- Fundamentals of Cartooning ..................................................... 171
- Gallery Design and Exhibition .................................................. 170
- History of American Art ............................................................. 170
- Honors Creative Arts — Art ........................................................ 174
- Illustration .................................................................................... 175
- Intro to Advertising and Graphic Design .................................. 171
- Jewelry Casting ........................................................................... 172
- Master Potters ............................................................................. 172
- Mural and Faux Painting ............................................................. 174
- Museum Survey .......................................................................... 170
- Oil Portrait Painting ................................................................. 171
- Packaging Design ......................................................................... 171
- Perspective Drawing and Rendering ......................................... 173
- Portfolio Preparation & Artwork Presentation .......................... 175
- Portrait Drawing and Painting ................................................... 171
- Printmaking .................................................................................. 173
- Production Techniques for Graphic Designers ...................... 171
- Publication Design ....................................................................... 174
- Sculpture ...................................................................................... 172, 173, 175
- Three-Dimensional Design ....................................................... 170

**ANTHROPOLOGY (ANTH)**
- Anthropology Independent Study ................................................. 167
- Archaeology ................................................................................. 166
- Art History .................................................................................... 170
- Art History — Ancient and Medieval ....................................... 170
- Art History — American Art ...................................................... 170
